

## Bodyguard 9991

### Chapter 9991

“.....”

Lin Yi couldn't help but feel a little regretful, but his spirits lifted immediately after. After all, even so, the flaws didn't obscure the benefits.

His control over the rules of bestification was currently at six percent. The key was that after the rules took form, he could obtain the rules of vibration. Once his control over the rules exceeded twenty percent, its value would not lose to other top-tier rules, including time and space.

Without much hesitation, Lin Yi tried to convert the faith into beast rule control under Jiang xiaoshang's guidance.

"Seven percent ... Eight percent ... Nine percent ..."

His control over the rules of beast transformation began to soar at a speed visible to the naked eye. It soon broke through the ten percent threshold and rose all the way until it finally stopped at twenty percent.

There was only one faith left, but Lin Yi didn't continue.

It was not impossible. Twenty percent was indeed a huge watershed. If one could not obtain the corresponding inheritance of the gods, it would be difficult to continue to improve.

But Lin Yi didn't have that restriction-he'd taken the beast God's inheritance after all, and it didn't matter if the beast God recognized him or not. He was still a follower on the surface, and twenty percent of the requirements didn't work on him.

The reason why he deliberately stayed behind was just to deal with unexpected situations.

After all, the increase in strength brought about by seed explosion burning faith was still very impressive.

"Next time, I can have a good fight with ye Tianbei."

Feeling the rule force flowing out of his body, Lin Yi felt like he was renewed.

If he were to meet ye Tianbei again, even if he did not have the home-court advantage of the New World, he would be able to fight back and forth.

Even if the other party's rule bending control was above thirty percent, there was no difference in their levels. With the increase in strength brought by being an ancient God, he was definitely not weak!

What he did not know was that ye Tianbei, who had escaped back to Nirvana, was already crying in the toilet.

It was inevitable that his vitality would be greatly damaged. This was within ye Tianbei's expectations. He would not lose his composure because of this. After all, he would be able to recover as long as he was given time.

The problem was that he had lost 16 points of faith in this trip!

One of the points was burned by him, but he had no idea how the other 15 points were reduced!

Looking at the remaining 43 faith points, ye Tianbei wanted to cry but had no tears. In his shock and anger, he spat out a mouthful of blood on the spot and almost interrupted his Nirvana.

This was all of his savings.

They had worked hard for hundreds of years to save up a bit of wealth, but in the end, they lost a quarter of it for no reason. Who could bear it?

The key was that he had never heard of something like faith being stolen. Wasn't it bound to his primordial spirit? how could it be gone just like that?

"Lin Yi! I'll make you wish you were dead!"

Ye Tianbei gritted his teeth.

He didn't know the details, but he knew that Lin Yi was the root of everything.

Today's grudge was big!

He didn't know that while he was thinking about Lin Yi, Lin Yi was also thinking about him.

"That guy still has more than 40 points of faith? It's a walking human-shaped leek!"

Lin Yi felt like he had lost a hundred million after hearing about it from Jiang xiaoshang.

If he could get his hands on all of them, wouldn't he be able to fly on the spot?

His control over the rules of beast transformation had directly soared to more than 60%. Just thinking about what kind of scene that would be made his blood boil!

Jiang xiaoshang poured cold water on him. "You're thinking too much. After reaching the 20% threshold, the faith required will double for every ten points of control.

From 20% to 30%, you need 20 points of faith.

From 30% to 40%, you need 40 points of faith.

If you want to push your control of single rule to the peak, it won't be a small number. A mere ye Tianbei is not enough to fill the gaps between your teeth. "

Lin Yi was speechless, but he still said, "Even if that's the case, it can still push my control of the beast transformation rules to more than 45%. Even if I round it up, I'll still miss out on 100 million."

"....."

Jiang xiaoshang could not help but mourn for ye Tianbei.

She could already imagine what would happen to this guy when he came back from his Nirvana and fell into Lin Yi's hands.

Lin Yi thought for a while before changing the topic. "I can take more than just beast God belief, right?"

Jiang xiaoshang immediately understood what he meant and nodded with a smile, ""Of course, in theory, you can snatch any level of belief. If you really have some good fortune, it's not impossible for you to reach the maximum level for all rules."

Of course, this was just for show.

There were so many rules in the world that Lin Yi couldn't even collect them all, let alone Max them out!

"That's a good idea," Lin Yi said.

Jiang xiaoshang was speechless.

He suddenly had a feeling that because of his joke, a monster that subverted everyone's understanding might really appear in the future.

If all the rules were at the maximum level, even the Supreme God of creation would probably curse if he were to create such a beast, especially an ancient God cultivator who had formed his own world ...

He returned to the real world.

Without a leader, the beast God Hall's forces retreated in shock. As for the dark Beast tide, it naturally didn't pose any threat.

Jianghai Academy, which was in imminent danger, had finally escaped death.

After a disaster.

Everyone sat paralyzed on the ground, surrounded by corpses. This was a real mountain of corpses and a sea of blood.

The remaining survivors had all climbed out of a pile of corpses. At least after this battle, their energy was completely different from before.

It wasn't that they hadn't experienced a fight before, but they had never experienced a fight of this level.

Between life and death, experts emerged.

No one, including Lin Yi, realized what the battle today meant to the school. No one knew that after today, these survivors would climb out of a pile of corpses and grow at an astonishing speed. One day, they would shock the entire world!

"Pack up and move them into the secret realms as soon as possible."

Lin Yi didn't have any intention of feeding them Chicken Soup for the Soul-he gave the order immediately.

It wasn't that he didn't want to, but that there was no need.

Today's counterattack was already the strongest Chicken Soup for the Soul.

Everyone immediately stood up and complied.

Lin Yi's performance had convinced them all. From today onwards, Lin Yi would be the one and only leader of Jianghai Academy. There was no doubt about that.

If they wanted to live, they had to hug onto Lin Yi's leg-this was the consensus of the entire school!

Chapter 9992

"Let's split up and hide in the independent arcane realms," Xu Anshan said."Although we can prevent being wiped out at the same time, it will also cut off our communication with each other. If we are attacked one by one, wouldn't it be more of a loss than gain?"

Everyone looked at Lin Yi.

They had similar doubts as well. To a certain extent, doing so was equivalent to being prepared to give up the Academy's base at any time. Once they fell into that state, even grouping up would become a luxury.

Grouping up was the instinct of humans when faced with a desperate situation. It was unwise to go against this instinct.

"I have a way to connect all the secret realms together," Lin Yi said after looking around.

The crowd was in an uproar.

If it was before today, no one would have believed him. Connecting independent secret realms was not something that could be solved by simply setting up a few directional transmission arrays. The difficulty involved was far beyond anyone's imagination.

Moreover, it wasn't just one or two secret realms that needed to be connected, but a full two-digit number of independent secret realms!

Such a huge project would normally take at least a hundred years to see results even if the entire Academy worked together, but where was the time now?

Even though ye Tianbei had been forced to retreat, the beast God Hall would not make any major moves in the near future. It would definitely enter a period of peace.

However, this period of peace would not last for long. In less than half a month, the other side would make a comeback with an even more terrifying force!

What could he do in such a short time?

However, with Lin Yi's prestige now, since he said so, no one would continue to question him. They would choose to believe him!

After all, all of their experiences had proven that those who didn't believe in Lin Yi were all slapped in the face.

Lin Yi gave the order and everyone immediately went into action. Even Xu Anshan, who questioned Lin Yi in front of him, carried out his order to the letter.

In the end, after a short three days, everyone in the Academy who had moved into each independent Mystic realm collectively showed an expression as if they had seen a ghost.

So many independent secret realms were actually all connected!

"How did you do it? Could this be a miracle?"

"That's right. Even the teleportation array is useless. It's a teleportation channel directly, and it's completely covered between the two. How much work is this?"

"Do you think that Dean Lin has already broken through to the Supreme realm? Otherwise, how could he have such an abnormal ability?"

"Bullshit! It's not like you haven't seen what Supreme realm cultivators are like, they don't have such methods, I think immortal state is more like it!"

"You're even more ridiculous. But if Dean Lin is really in the immortal state, I must be the number one believer. No one can snatch it from me!"

.....

Lin Yi didn't know whether to laugh or cry at the crowd's comments-these guys sure had some imagination.

In fact, this was indeed very difficult for others, but for him, it was just something he did in passing.

Under normal circumstances, it would be a difficult task to build a spatial tunnel between secret realms, even for a space law user. Lin Yi didn't need it.

What he did was nothing more than connecting dozens of independent arcane realms with his new world, and then connecting them all through the New World as a common transfer station.

With his absolute control over the New World, doing something like this was a piece of cake for Lin Yi.

In this way, the people from the Academy who were scattered in the various independent Mystic realms would not be caught in one net, nor would they be defeated one by one. It could be said to be killing two birds with one stone.

Besides, there was another additional benefit.

From now on, no matter where Lin Yi was, he'd be able to go to any secret realm through the New World at any time-this was the same as releasing his mobility.

He no longer had to worry about the Academy being taken advantage of when he was not around. No matter what happened, he could arrive there with a thought. From now on, he no longer had to worry about people stealing from his home.

Having said that, under the current situation, it was still far from the time to be careless.

"I'm in urgent need of leeks. "

Lin Yi knew that if he wanted to increase his strength quickly, the only way out was to harvest leeks like ye Tianbei 's. Unfortunately, it was hard to find leeks that were qualified.

After all, in a place like Jianghai, it was not easy to find someone with a high level of faith.

After thinking about it, other than ye Tianbei, who was hiding somewhere to reincarnate, he could only think of one target.

The former beast God.

Although his strength had declined to the point where it was unsightly, a starving camel was still bigger than a horse. After all, he had come down from the position of beast God. Logically speaking, his belief in the beast God should not be any less than ye Tianbei's.

As for their positions, they did propose to work together, and they did have some tacit understanding when dealing with li songzhang, but Lin Yi could see through people's hearts, and he could feel the secret behind this.

That guy who looked like an ordinary old man was not a good person.

Soon, Lin Yi received a message from the former beast God, asking him to meet him at the top of the mountain.

After giving his instructions to everyone in the school, Lin Yi decided to go.

Under Jiang xiaoshang's repeated instigation, he was even prepared to cut the leeks in front of them. However, an accident still happened.

"My name is hai Wutian. I'm the sea god's Wayfarer, ranked ninth in the sea god Hall's ranking."

Lin Yi had to put down the idea of harvesting the leeks for now as he looked at the man.

With such a person present, if he were to forcefully attack the previous beast God, there would be too many variables. If he was not careful, he would not be the one cutting the leeks, but the one being cut by the leeks instead.

Of course, he wouldn't make a move until he found out what the former beast God's trump card was, even without this unexpected guest.

But Lin Yi didn't really care what the guy's intentions were for approaching him.

No matter what you were up to, the former beast God was just a human-shaped leek in his eyes, and he would be eaten by him sooner or later.

One had to say that Lin Yi's mentality was getting closer and closer to a true hero-he was decisive and could kill with a single thought.

Lin Yi looked at the former beast God beside him and cupped his hands, "May I know why you are looking for me?"

Hai Wutian was slightly startled.

What kind of status did he have? it would have been fine if he had hidden his name, but now that he had taken the initiative to introduce himself, who wouldn't be trembling in fear in front of him? even a figure like the former beast God didn't dare to look down on him.

Yet Lin Yi's expression made him look no different from a normal passerby-it was as if he'd just turn around and leave.

When did a top-tier sea God's Wayfarer become so unassuming?

If it was someone else, hai Wutian would've exploded in anger already, but he suppressed his anger in front of Lin Yi.

He did not want to repeat the same mistake as ye Tianbei.

Chapter 9993 The End

He was just a human practitioner, not even a Supreme realm one, but Lin Yi was standing here-he had the right to talk to him on equal terms!

"I've come to find you to give you a great opportunity,"

Hai Wutian revealed a confident smile and slowly asked, ""Do you want to be the Sea King?"

"I'm not interested,"

Lin Yi turned around and left without another word.

Hai Wutian was dumbfounded. This wasn't right. This reaction was completely different from what he had expected.

The former beast God was also surprised.

As they had expected, anyone would definitely be eager for this, and if they didn't know the weight of the three words "king of the sea", they would definitely ask a few questions out of curiosity.

After all, even if he used his toes to think, he knew that the meaning behind these three words was definitely not simple.

They didn't expect Lin Yi to react like that, and they didn't know what to do ...

In the end, it was the former beast God who reacted first and quickly said, ""Young hero Lin, wait a moment. If you can become the Sea King, not only will you be able to enter the Supreme realm, but you will also be able to control the four Seas and form an alliance with the sea god temple. Are you really not tempted at all?"

Lin Yi stopped walking and turned around. "I'm tempted, but I don't like people trying to be mysterious with me. It's an old habit I've had since I was born. If the two of you want to talk, it's best to be open and honest, so as not to waste everyone's time."

"....."

Hai Wutian and the former beast God looked at each other, speechless.

For a moment, they were even a little dazed. Who was the superior and powerful side?

Lin Yi, on the other hand, continued, "I'm interested in the Sea King, but I'm a little curious. Why did you two come to me?"

There was no such thing as a free lunch in this world.

Not to mention that he could sense that the former beast God had some kind of intention towards him the first time they met, just the fact that hai Wutian, a top-tier sea God's Wayfarer, who he had never met before, had suddenly come to find him today was worth pondering over!

Hai Wutian didn't try to hide anything and said directly, ""Because you're strong enough."

"What do you mean?" Lin Yi asked.

The former beast deity explained, "not just anyone can become the king of the sea. They need to go through a cruel selection trial. Only the winner who survives will be qualified to take the position."

"There are so many masters in the sea god's Palace, it shouldn't be hard to find someone stronger than me, right?" Lin Yi asked, confused.

"Not difficult, my ass ..."

Hai Wutian cursed in his heart.

The ocean goddess Hall did have people who could overpower Lin Yi, but they were either the followers of the ocean God who were ranked higher than him, or they were the deity's children, or even higher. Why would someone like that become an Ocean King?

The most important thing was that the position of the Sea King was sensitive, and in theory, he could even form a certain power restriction on the sea god temple.

If it fell into the hands of people with limited strength, it naturally wouldn't be able to cause any waves, but if it fell into the hands of those true big shots, what if they harbored disloyalty and turned around to deal with the sea god Hall? how would they end up then ...

Don't forget, the position of the gods was not without worry.

The former beast God was standing right there, and he was the perfect example of how miserable it would be if someone below him were to defeat him.

"The Lord sea God's divine decree states that the strength of those who participate in the trial selection must be below the Supreme realm. No matter who violates this rule, the recommender and the trial-taker will be killed together."

Hai Wutian could only explain patiently.

Lin Yi thought about it-it made sense.

Other things aside, with his strength, he was still undefeatable by anyone below the Supreme realm. After all, it was difficult to find another person in the world who could cross the chasm between the Titan realm and the Supreme realm, and beat up a true Supreme realm expert.

Hai Wutian saw that he was moved, so he quickly took advantage of the situation.""With your strength, as long as you participate in the trial under my recommendation, even if you don't have a hundred percent chance of laughing in the end, you'll at least have a seventy percent chance of winning.

As long as you become the Sea King, you'll be on the same side as the sea god Hall. Those bastards from the beast God Hall will have to think twice before they try to deal with you and your school.

Besides, you'll also be able to obtain great benefits, so why not?"

"It's only good for me, but I can't see what's good for you. I don't feel at ease. "Lin Yi said with a smile.

Hai Wutian had no choice but to reveal the truth, ""If you can become the Sea King, I, as the referrer, will naturally receive a lot of benefits. You can rest assured that I am not a miser. When the time comes, I will naturally not treat you badly."

"It's just an empty check," Lin Yi said, unmoved, "I don't think that's sincere at all. "

"....."

Although hai Wutian had never heard of an empty check, he could roughly guess what it meant. He did not know whether to laugh or cry.

If it was before, getting a recommendation from him would require a huge amount of benefits, but now, not only did he give it away, he even had to give Lin Yi something in return!

Unfortunately, he really had no other choice.

In theory, he did have the right to recommend anyone who met the conditions. Even if he failed, he would not be implicated.

However, it was different this time.

It was said that he had found a heaven-defying freak among the sea God's temple's sworn enemies. Once he successfully took the position of king of the sea, that sworn enemy would rise with the tide and step on his head.

At that time, his days would be hard.

Hai Wutian had to do everything he could to stop it, even if he had to bleed.

Lin Yi was his only choice.

It was true that this was very different from what he'd imagined-after all, with Lin Yi's strength, especially after he successfully became king hai, his strength would definitely skyrocket.

Even hai Wutian was not confident that he could control ye Tianbei.

It could be predicted that losing control was a high probability event.

However, that was only from the Poseidon shrine's perspective. From his own perspective, Lin Yi's top priority was to defeat his enemy, and the stronger he was, the better.

When the Poseidon shrine's position conflicted with his own, it was obvious what choice he should make.

"As long as you agree, I can give you the sea god's inheritance right now," hai Wutian said immediately.

As a peak level sea God's Wayfarer, his authority was extremely great, and he held several spots for the sea god's inheritance in his hands at any time.

In fact, finding suitable potential geniuses and using the seagod's inheritance to pull them into the seagod's camp was one of his main missions.

"That's good. "

Lin Yi nodded.

He now had a lot of the gods' inheritances on him. With Jiang Xiaoshang's help to conceal them, and the new World that had been formed, his concealment ability was much stronger than before. As long as he did not court death and walk the gods, there was almost no risk for him to simply accept some of the gods' inheritances.

Chapter 9994 The End

Hai Wutian was slightly surprised.

To any normal person's knowledge, accepting the inheritance of the gods was an out-and-out major event.

This was different from simply obtaining a certain rule force.

No matter which rule power he got, it didn't have a connection with the corresponding God. For example, everyone saw Lin Yi's transformation and knew that he had mastered the rule power of beast transformation, but no one thought that he got the beast God's inheritance.

The rules would always be the rules of the entire world and not the rules of a single God. The gods were just special players who had the highest control over the rules.

Of course, the gods had authority similar to that of an administrator, but at least in the underlying logic, they did not have a monopoly.

However, the inheritance of the gods was different.

Once they accepted the inheritance of the gods, it was equivalent to forming a physical bond with the gods and becoming their believers. In theory, as long as the gods wanted to, they could control their fate.

Simply put, if Lin Yi really was the beast God's inheritor, the beast God Hall wouldn't even need to waste time and effort to deal with him. A single Oracle would make him submit without even a chance to resist.

In hai Wutian's mind, a difficult person like Lin Yi wouldn't easily bind himself to any camp.

Bringing up the sea god's legacy was beneficial on one hand-it was a dream come true for many, after all, but on the other hand, it was a test for Lin Yi.

The sea god's legacy was good for someone of Lin Yi's level, but it wasn't as good as it seemed!

Could it be that this fellow had already intended to join the sea god temple?

This was the only reason hai Wutian could think of at the moment. Considering the difficult situation Jianghai Academy was in, it was not impossible.

He didn't know that Lin Yi didn't have any of these concerns at all.

Just like how the Oracle of the beast God had no effect on him, the successor of the beast God, even if he accepted the sea god's inheritance, the sea god wouldn't be able to affect him at all. This was one of the most useful abilities of the New World.

Commonly known as the White silk.

"Then let's start."

Hai Wutian was afraid that Lin Yi would go back on his word-as long as he accepted the Poseidon legacy, he wouldn't have to worry about Lin Yi losing control, and the others wouldn't be able to do anything even if they wanted to!

The whole process wasn't complicated. Hai Wutian just had to place a sea God's mark in Lin Yi's sea of consciousness, and with that as an anchor point, Lin Yi could control the ocean's rule power.

From start to finish, it was only the time it took an incense stick to burn.

If things went according to plan, the sea god would be able to control Lin Yi through this seal.

What he didn't know was that the seal was transferred to the New World the moment it entered Lin Yi's sea of consciousness, cutting off his connection with the sea god.

If the sea god Himself was here, he would be able to detect the abnormality on the spot. Unfortunately, hai Wutian was only a sea God's Walker, so he could not detect the specific state of the sea God's mark.

He only knew that from this moment on, Lin Yi was one of his own.

"The Sea King selection trial will begin in five days. Arrange your matters and I'll come to pick you up."

Before hai Wutian left, he used his spirit sense to leave a message for Lin Yi, ""Don't get too close to the former beast deity. This old man is not a good person."

"....."

Lin Yi thought that this guy was quite cute.

It could be seen that the sea god temple's trust in the former beast God was very limited. This was good, at least when he found an excuse to deal with the former beast God in the future, the sea god temple would not be an obstacle.

If necessary, he could even borrow some strength.

Watching hai Wutian leave, the smile on the former beast God's face gradually faded. ""The sea goddess Hall's way of doing things is still as crude as ever. Using such a method to control someone like you, isn't it a little too revealing?"

"We're just taking what we need, it's not really controlling, is it?" Lin Yi pretended to be lost.

The former beast deity looked at him meaningfully and changed the topic, "The king of the sea is a good springboard. If you use it well, it's enough to mobilize the forces of all parties. However, with your strength and means, I'm afraid that one king of the sea is not enough to satisfy you."

"Do you have a better suggestion, senior?" Lin Yi blinked.

The former beast deity kept him in suspense. "There's no hurry. We'll talk about it after you become the Sea King. I'm more and more optimistic about you now. One day, you and I will work together to do something big."

"Oh, really? Then I'll be looking forward to it. "

Lin Yi said sincerely.

The former beast deity smiled. "Then look forward to it. I don't have much time left. I hope you can become the king of the sea soon."

"I'll be counting on that. "Lin Yi nodded.

As the former beast God disappeared, Lin Yi's consciousness entered a new world,""How is it? Do you see anything?"

Jiang xiaoshang had a helpless expression."Although this old man's life force is rapidly draining away and his strength is plummeting, all of this is just on the surface. His false divine spark is unexpectedly stable."

Godhood was the foundation of the gods. Since he had been kicked out of the position of the beast God, his godhood was naturally lost, so it wasn't strange for it to degenerate into a false godhood.

However, under normal circumstances, the false divinity should continue to degenerate. I don't know what method he used to stabilize it. He's really not simple!"

"So he's probably on the same level as a semi-God?" Lin Yi said after some thought.

"It's possible. "

Jiang xiaoshang nodded dejectedly.

He wanted Lin Yi to take the old man's false divinity so that he'd be able to soar into the sky, but things weren't going to be like this anymore.

Lin Yi's current strength was not bad, he could even face a Supreme realm master like ye Tianbei head on, and his chances of winning were not small.

In the end, ye Tianbei had just entered the Supreme realm. In the entire Supreme realm, he was only at the lowest level.

The Supreme realm could be divided into four major realms. From the highest to the lowest, they were heavenly venerable, earthly venerable, dark venerable, and yellow venerable.

Ye Tianbei was only a yellow honor, and he was even an early stage yellow honor expert, the lowest among all yellow honors.

On the other hand, the semi-divinity realm was only half a step away from the true God Realm. It was an existence that stood at the end of the Supreme realm, and there was a huge gap between them.

If the former beast God was as strong as a false god, Lin Yi wouldn't be able to fight it at his current level. He'd be taught a lesson if he were to turn against it.

And so, before he could confirm his opponent's strength, the only choice he had was to endure.

But Lin Yi himself wasn't too disappointed.

Haste makes waste. His patience had always been good, not to mention that if he wanted to further improve his strength, the more ready-made choice was to fight for the Sea King. There was no need to take risks.

Chapter 9995 Power

"Let's take down the sea shore King first, and then see what he's up to. "

Lin Yi was about to return to the school when he received a mysterious message from an anonymous person.

Chu Mengyao!

Lin Yi's eyes twitched. It was a message from Chu Mengyao. He quickly opened it.

Fifteen minutes later, Lin Yi turned off his phone and went into deep thought.

The message revealed Chu Mengyao's current situation. She was supervising the battle in Jianghai city as the deity of the beast God Hall. Her status was extremely high. In addition, ye Tianbei had been beaten to the state of Nirvana. Before the next wave of experts from the beast God Hall arrived, she could be said to be the number one person in the beast God Hall in Jianghai city.

There was no need to worry about his personal safety.

Moreover, with her around, the beast God Hall would not make any large-scale movements, at least before ye Tianbei completed his Nirvana. This would give everyone in the Academy a rare period of time to recuperate.

However, Mengyao didn't send this message just to tell Lin Yi that she was safe.

Xiuyan 'er had gone missing.

"That silly and cute little girl?"

Lin Yi was deep in thought. He'd seen Xiu Yan 'er once at the freshmen's ball before, and because she was with Chu Mengyao, he naturally paid close attention to her, and she left a deep impression on him.

According to Chu Mengyao, this Xiu Yan 'er was a native of the North Island, and they had formed an unbreakable bond since the first day she came to the Sky Class Island. The two were extremely close, even closer than real sisters.

This little girl had once lost her mind for some reason and was like a beast at one point, acting only on instinct.

Mengyao went through a lot of trouble before finally finding a rare treasure that cured her.

"The heart of the ocean ..."

It was said that it was formed by gathering the essence of the four Seas, and there was only one in the world. It was truly a priceless treasure.

If it weren't for the fact that Mengyao had the Dark Phoenix's bloodline and had a high status in the dark Demon beast clan, she probably wouldn't be able to find a treasure like the heart of the ocean in her life.

Back then, she had willingly joined the darkness magical beasts 'camp for this reason.

Everything had been fine.

However, just yesterday, Xiu Yan 'er suddenly lost control again for some unknown reason. She went berserk and killed several experts of the beast God Hall before disappearing without a trace.

Mengyao sent Lin Yi a message this time to ask him to keep an eye on Xiuyan 'er's whereabouts.

"That's like looking for a needle in a haystack," Lin Yi frowned.

Since Xiu Yan 'er had such a close relationship with Chu Mengyao, he couldn't just ignore her. The problem was that he didn't have any clues at all, especially in such a chaotic situation. It wasn't easy to find a person!

The good news was that Chu Mengyao could use the beast God Hall and the dark Demon beasts. With the help of the College's intelligence network, they could search the entire Jianghai city with enough time.

Of course, the premise was that Xiu Yan 'er was still in Jianghai.

Otherwise, if she had already left Jianghai, it would be as difficult as ascending to heaven.

Back at Jianghai Academy.

Lin Yi immediately gave the order to the intelligence Department to look for him, and even had Tianji divine for him, but there were still no clues.

Although Tianji controlled the power of the laws of cause and effect, and could theoretically find the trajectory of everything in the world, finding a person was naturally not a problem.

However, the problem was that he was limited by his realm. Once the other party's level was too high or had some special means, he could avoid his spying.

In terms of strength and realm, although Xiu Yan 'er wasn't weak, especially after she went berserk, she was still a real abnormal animal, but she didn't exceed the upper limit of Tianji's divination.

There must be another reason for the lack of clues.

Tian Ji pondered for a long time. "It should be because of the heart of the ocean. A treasure of that level naturally has its own great fortune. It's enough to disturb my karma track. However ..."

"But what?" Lin Yi asked.

Tianji said with some uncertainty, "the heart of the ocean is the most precious treasure in the ocean. Once it leaves the sea, its power will be greatly reduced. If she is on the surface now, I should be able to find some clues. Now, this means that she is very likely in the sea."

"The sea ..."

Lin Yi was stunned. This wasn't good news. Neither the beast God Hall nor the Academy's Information Network could extend to the sea. This was like looking for a needle in a haystack.

"It seems that I really have to be the Sea King."

Lin Yi shook his head helplessly. He'd have to rely on the Poseidon shrine's power if he really wanted to find someone in the ocean.

Five days passed by in a flash.

After these five days of rest, the entire school finally took a breath of fresh air. With Lin Yi's high prestige, the various factions had finally integrated into the eight divisions of the school. Today, Jianghai school was truly a whole.

Compared to before, even though they had lost more than 50% of their members, Jianghai Academy's overall combat power was still a notch higher!

And this was only the starting point.

After making sure that everything was on the right track, Lin Yi went to the meeting place to meet hai Wutian. It was the first time in his life that he was heading to the sea.

On the Sky Class Island, no matter which Sea region it was, it would take up more than 90% of the island's area.

Even if it was only the earth-rank Sea area in front of them, its scope was still far beyond ordinary people's imagination. If judged by the size alone, whoever could control the vast sea area would undoubtedly be the Overlord.

As long as the four Seas were united, no power on the surface could compete with them.

Although the number of the dark Beast tide was exaggerated, compared to the sea beasts, no matter the scale or level, they were not qualified to be mentioned in the same breath.

If it had been a sea beast tide instead of a Dark Beast tide that had surrounded Jianghai Academy, the Academy would have been wiped out long ago.

The only problem was that the four Seas were simply too vast, and had never been truly unified.

Even the current seagod Hall was only a Supreme existence in name, similar to the divine power of the secular countries. It seemed high and mighty, but the real power was still in the hands of the forces of the four Seas. It was only honored as the sovereign in name.

If that was not the case, the beast God Hall would never have dared to take the initiative to attack them if the sea goddess Hall truly controlled the four Seas.

At that time, the tables might turn, and the sea god Hall would be able to suppress the beast God Hall.

Before he went into the sea, hai Wutian turned around and handed him a transparent robe, which was condensed with extremely Pure Water Power.

"This is a waterproof cover. As long as you wear it, you can breathe and move normally underwater. Of course, you have the sea god's inheritance and have mastered the power of the sea's rules, so you won't be able to use it."

Even so, Lin Yi still accepted it.

## Chapter 9996 The End

This was good stuff, a God-tier diving suit. Even if he didn't use it himself, it would be good to leave it for Chu Mengyao and the others. When he was free in the future, they could go for an underwater swim together.

"Where can i buy this?" Lin Yi asked.

Hai Wutian was stunned. "I can't sell it. This is a specialty of the sea god's Palace. It's not for sale. Why? you want to buy it?" If you want, I can get a few more. "

Now that his future was tied to Lin Yi, he naturally wouldn't be stingy with this request.

Although the water-proof shield was indeed not for sale, it wasn't some high-end toy after all. If needed, any seagod's Wayfarer with a bit of status could get a lot, which was just a matter of signing at the logistics department.

"Twenty sets, please," Lin Yi said without hesitation.

“.....”

Hai Wutian wanted to give himself two tight slaps.

Although the water-proof shield was not a strategic material, it was not a common item. Even he, who was ranked ninth in the beast God's walking list, could only get four or five sets at most.

If he were to ask for 20 sets at once, the people from the logistics department would probably beat him to death ...

After hesitating for a while, hai Wutian forced a smile and said, ""You're planning to bring a group of people into the sea?"

"If it's not convenient, I'll give you less," Lin Yi said.

Hai Wutian immediately puffed out his chest, "what are you saying?" It makes it sound like I can't even take out a few dozen water barriers. I'm the top sea God's Walker, ranked ninth in the sequence, after all. How can I be so degrading?"

"Really?" Lin Yi asked, suspicious.

Hai Wutian sneered. "It's not just 20 sets. Even if it's doubled, it's still a piece of cake. This is not a big deal for me. I can solve it with one word."

"Then I'll have 40, please." Lin Yi's eyes lit up.

Hai Wutian was speechless.

Along the way, this top level sea God's Walker's mood was incomparably heavy. Forty water repelling shields, he and the logistics department had to kill one.

The key words had already been said, and he was really too embarrassed to go back on his words, so he could only grit his teeth and swallow it.

After all, he, hai Wutian, was a top-tier sea God's Wayfarer. He was a big Shot wherever he went.

He could lose anything, but he could not lose face!

The sea was too vast. Even with their strength, if they used the power of the laws of the sea, they would be able to move as fast as they could on land, and might even be able to last longer. But if they were to just travel like this, it would take them at least ten days to half a month to reach the seagod Hall.

He could only teleport.

However, they were not the common space transfer formation. Instead, they were transfer whirlpools unique to the sea. On the surface, they looked like underwater whirlpools.

"The sea is too big, and we can't set up teleportation arrays everywhere. Fortunately, there are whirlpools like this everywhere. As long as we slightly change their direction of flow, we can go wherever we want."

Hai Wutian took the initiative to introduce.

"Anyone can use it?" Lin Yi asked, surprised.

Hai Wutian laughed. "Anyone can use it, but not everyone can use it well. If your body is not strong enough, you'll be torn apart by these whirlpools. Besides, you must know the direction of the currents like the back of your hand. The whirlpools are just a part of them."

As he spoke, he took the lead and jumped into one of the vortexes.

Lin Yi followed closely behind, and his body was suddenly wrapped in an extremely strong water force. It was as if he had entered a high-speed tunnel that he had never seen before, and the speed was so fast that it was shocking.

In front of him, hai Wutian took him to switch the vortex channels from time to time. The whole process was so complicated that it was dazzling.

Lin Yi finally understood-no wonder they said one had to know the direction of the currents like the back of their hand. These vortexes were fast, but they were like natural underwater highways.

If he wasn't familiar with the entire highway network and didn't have the help of navigation, he would definitely get lost.

"Can you give me a summary of the current?"

Lin Yi immediately realized the huge strategic value behind this. If he could control this highway network, he would have the ability to move at high speed in the sea. The value was immeasurable.

This kind of information was extremely sensitive. If it was in the secular world, it would be a top secret that was highly controlled by the state.

This was just a test, and he didn't actually have much hope.

Unexpectedly, hai Wutian nodded and agreed without even thinking. ""It's a small matter, I'll pass it on to you. "

With that, he really did pack up all the information he knew about the currents and projected it into Lin Yi's mind without any hesitation.

For a moment, Lin Yi even thought that this thing was like the maps sold at the newspaper stands, a common item that could be found anywhere in the world, one that everyone had.

However, he soon realized that he was wrong.

There were indeed some vortex channel networks here that were known to everyone, but a large portion of it was labeled as top secret. It was top-secret information that was exclusively controlled by the seagod Hall, and even the various powers of the four Seas might not know about it.

"He's really treating you as one of his own. This idiot is a little cowardly."

Jiang xiaoshang was overjoyed in his mind and teased, ""Actually, with my ability, if you want it, I can find it for you at any time. It's not a problem at all."

"Really?" Lin Yi laughed. Why didn't you say so earlier?"

"I'm just afraid of attracting the attention of the gods. I don't care about myself. At most, I'll be captured by my main body. If I implicate you, an ancient God cultivator, then I'll be too embarrassed, right?"

Jiang xiaoshang said after the fact, "besides, there's already such a fool around. Why would I waste so much effort? wouldn't that be unnecessary?"

Lin Yi didn't bother with him and focused on the network of vortexes. When the beast God Hall attacked the sea in the future, these vortexes would definitely be of great strategic value!

Everything else aside, even if it was just for the sake of Jianghai Academy's escape route, he had to be familiar with the network of vortexes.

Half a day passed.

When Lin Yi opened his eyes again, hai Wutian had already brought him to their destination.

However, in front of him was not the vast and majestic sea goddess Hall as he had expected, but an endless sea ruins.

The scale was so huge that even Lin Yi's spirit sense couldn't see the end. This was far from the whole, only the tip of the iceberg.

Hai Wutian saw Lin Yi's confusion and explained, ""This is the ruins of an Empire."

"What Empire?" Lin Yi blinked.

Hai Wutian shook his head. "It doesn't have a name. Its full name is 'Empire'. Since ancient times, it's the only Empire that has truly ruled the four Seas. In our Sea area, it's the only Empire."

"I didn't think that the seas had ever been unified before," Lin Yi said, surprised.

Chapter 9997

"It's true that the four Seas have never been unified. At least, before the ruins of the Empire were excavated, there was no evidence that the four Seas had been unified. Even now, there is still a huge debate whether the Empire has actually achieved this."

Hai Wutian sighed."All the traces show that the existence of this Empire has nothing to do with all the history we know. There's a huge blank space between the top and bottom.

It was as if it had appeared out of thin air. No one knew how it was born, and no one knew how it was destroyed.

There was no doubt that such a large Empire's ruins were a part of our Sea region. However, all the other historical information indicated that it shouldn't have appeared here.

The Empire is the biggest mystery of our Sea region to date. "

"Even the sea god doesn't know where it came from?" Lin Yi asked.

Although the gods were not omniscient and omnipotent like in myths and legends, and their essence was that they were powerful existences standing at the peak of the rules, if there was any great secret in the world, they were definitely the group of people who were most likely to know.

Hai Wutian shook his head and said in a low voice,""Although our Lord seagod didn't say it clearly, he's issued many divine decrees to explore the ruins of the Empire. It's clear that he doesn't know either. We have a very bold guess in private."

"What guess?" Lin Yi asked, interested.

"The Empire existed before the gods. Its blank history may have something to do with the Twilight of the Gods."

Hai Wutian said mysteriously.

Lin Yi couldn't help but look.

In his mind, Jiang Xiaoshang continued, "that's not impossible. If there's only one person in the world who knows about it, it can only be the God of creation himself. Who knows? This blank space in the Empire's history might be his work."

Looking at the endless ruins, Lin Yi suddenly had a strong feeling that this place might really be fated with him.

After all, there were not many things that could be directly related to the God of creation. The ruins of the Empire in front of him was one, and he, the destined challenger, was another.

However, he didn't have the time to think about it now. Before he and Hai Wutian arrived, many people had already gathered here.

After them, there were other people who came from time to time.

There were at least a hundred people.

"They're all here for the selection test?" Lin Yi asked, confused.

Such a high-level trial like the sea King's was definitely not something that just anyone could come to. At the very least, it was possible to come with the recommendation of a Big Shot like hai Wutian.

He had expected that there wouldn't be too many existences at hai Wutian's level in the entire sea god Hall. There definitely wouldn't be more than twenty of them.

"In theory," hai Wutian nodded, "the only ones qualified to recommend candidates are the top ten sea God's wayfarers in the sea god Hall's ranks, as well as the divine sons.

But in reality, in order to take care of the forces of the four Seas, almost every one of them had also obtained a quota.

And because it's related to their own interests, they'll only be more willing to pay the price for the fight for the king of the sea. If you encounter their people, you must be extra careful. "

While they were talking, people from all sides had arrived one after another.

At this moment, a man with an extremely ostentatious aura walked over. With just a casual glance, his eyes were clearly filled with contempt.

"He's my nemesis," hai Wutian reminded him. "He's the sea god's Wayfarer, Zhang xiangding, ranked tenth in the sequence."

Under normal circumstances, both of them were top-level sea god walkers. Although high-sequence Beyonders might not have the right to give orders to low-sequence Beyonders, they would always have a higher status and real power. Even if there was only a difference of one rank, it would not be so easy to surpass.

Hai Wutian was in ninth place, while the other party was in tenth place.

However, looking at the other party's stance, he didn't take him seriously at all.

Zhang xiangding glanced at Lin Yi, not paying him any attention at all. It was as if Lin Yi wasn't even worth mentioning in his eyes.

"Sea Dog, the Sea King trial selection is such a big matter, and you found such a good-for-nothing to replace his head. Could it be that you are dissatisfied with the Lord sea God's Oracle?"

Zhang xiangding's words immediately attracted the attention of the crowd.

The fight between hai Wutian and Zhang xiangding had long been known to everyone in the sea god Hall, but for the other forces of the four Seas, it was a new thing to see the sea god Hall having an open internal strife.

From their point of view, they were naturally happy to see this happen.

After all, the more the seagod Hall's internal strife was, the greater their chances were. Otherwise, if the group of seagod's employees were really as united as a steel board and even the trial-takers they had found joined in, their chances would be slim.

Hai Wutian narrowed his eyes. "Blind Zhang, I can't be bothered to argue with you in front of so many people. But if you really want to be naughty, I don't mind taking some time to teach you a lesson. Otherwise, people will think that our sea god Hall is full of good-for-nothing!"

"How? Are you going to use the tricks you're good at?"

Zhang xiangding sneered and said in an exaggerated manner, ""You can even push your own Junior Sister into the fire pit and kill her. I'm also afraid of such means. I don't know if it's too late for me to kneel down and kowtow to you now."

Hai Wutian's veins were bulging, but he surprisingly didn't retort.

Lin Yi asked, surprised.

Although he had not known hai Wutian for a long time, he could tell that this man was not a scheming person. Although it was inevitable for him to have such schemes in the world of mutual deception, he was a straightforward guy in general.

In Jiang xiaoshang's words, he had the potential to be a simple-minded person.

However, looking at his reaction, it seemed that there was really something going on.

Seeing that he was silent, Zhang xiangding snorted in boredom. ""I'll say this first, this time I'm definitely going to be the Sea King. When the Oracle announces it, I'll be the God's child, and the first thing I'll do is strip you of your position as the sea god's advisor, and then I'll make sure you're consigned to eternal damnation!

Letting a despicable person like you sit in this position will only dirty our entire seagod Hall, it's disgusting. "

After he finished speaking, he swaggered away under the gazes of the crowd.

Lin Yi's eyes, however, fell on a young man behind him. He was a thin and weak-looking man.

Although this person had a listless and sickly appearance, the gazes of the people around him were all filled with an inexplicable fear.

It was as if he was looking at a man-eating Demon God.

"He's called Xiao Wudi, and he once publicly challenged our seagod Hall. Several top ten seagod's advisors were defeated by him, and one was even killed in front of him!"

Hai Wutian came back to his senses and reminded him in a low voice, ""He's not a Supreme realm cultivator, but he's publicly acknowledged to be on par with an early stage yellow venerable. He's your most dangerous opponent this time!"

Chapter 9998

It was common for geniuses to challenge those of a higher cultivation level, but a Supreme realm cultivator challenging someone of a higher cultivation level was extremely rare even in the entire earth-rank Sea region.

If he didn't witness Lin Yi's power, he would've given up hope already.

If the other party really took the position of King hai hai, Zhang xiangding's recommendation would be worthy, and he would be promoted to the Son of God. By then, he would be in deep trouble.

Zhang xiangding was not a good person.

At this time, a majestic message suddenly appeared in everyone's sea of consciousness.

An Oracle from the sea god!

Lin Yi studied the contents of the Oracle-it was the rules of the test.

The content was very simple. Enter the ruins of the Empire and search for the Lost Sea crown. Whoever found it first would be the new king of the coastal waters!

The rules themselves were simple and concise, but they had a special auxiliary rule.

The Empire's ruins were too big, and looking for something inside was like looking for a needle in a haystack. If everyone's luck was collectively bad, this trial might not have any results even after eight to ten years.

As such, every participant could receive external support from their respective recommenders.

The content of the support included intelligence information, response strategies, and even various auxiliary airdrops.

To put it bluntly, this was not a one-man battle. In order to have the last laugh, strength and luck were of utmost importance, but the cooperation between the two sides was equally important.

After the Oracle was given, the gate of the Empire's ruins opened, and a huge vortex tunnel appeared in front of everyone.

Lin Yi and hai Wutian looked at each other before entering with the other participants.

In the blink of an eye, he was thrown out of the vortex.

There was nothing but desolation in front of him. Although he didn't know the exact location, he was clearly in the ruins of the Empire.

"Looks like it's a random teleportation."

He had originally thought that everyone would set off together and had already prepared various countermeasures, but it seemed that there was no need for that now.

However, it wasn't as if there was no one.

Very quickly, Lin Yi's spirit sense sensed three more auras, and when he sensed them, they also sensed his presence.

After a few seconds, the three-man team appeared in front of him.

Two men and one woman.

What surprised Lin Yi was that the three of them weren't weak-they were all half-Venerables!

The participants had to be below the Supreme realm, and in terms of realm, a half-step Supreme realm was the best. In comparison, Lin Yi, who was only at the pinnacle of a normal giant's realm, was nothing special.

"You're alone?"

One of the men frowned as he studied Lin Yi. "You're just a mere Big Shot at the pinnacle of perfection, yet you dare to act alone with such little strength. Should I say that you're bold, or that you're ignorant and fearless?"

Lin Yi looked at him, but didn't reply.

The woman at the side tried to smooth things over, ""My friend, the ruins of the Empire are full of danger. I don't think you're really here for the Sea King. You're just like us, treating this place as an opportunity, am I right?"

"So what?" Lin Yi raised a brow.

The woman smiled. "There are indeed many rare treasures in the ruins of the Empire, but it's also dangerous. If you just want to get some benefits here, why don't you form a team with us? we're not competitors anyway, and we can look out for each other."

The man who had just spoken said with some dissatisfaction, ""With his strength, he'll be a burden if he's here. Miss Wanjun, we don't have to pull him into our team, do we?"

The other man nodded and said, ""There's really no need. It's easy to make things worse if you're in the way. I don't want to find a pig teammate. "

Only the woman was insistent. "You can't judge a book by its cover. This young hero must have his own special abilities to be able to make it here. Besides, he's with hai Wutian. If he can join the team, it means that we can also get hai Wutian's support. Why not?"

"Hai Wutian's men?"

The two men's expressions changed.

Although hai Wutian was only ranked ninth among the top-tier sea God's followers, he was already a rare figure to the people of the four Seas.

Although the four ocean powers each had their own territories, and many of them were existences with extremely deep foundations, they were still far from the sea goddess Hall.

Even if it was just for hai Wutian's sake, Lin Yi was worth it.

The woman then took the initiative to introduce herself, ""My name is ning Wanjun, and these two are Li Qiu and Xia Tang. May I know your name?"

"No need, I like to walk alone."

Lin Yi didn't say anything. He glanced at the three and left.

Ning Wanjun was taken aback by Lin Yi's reaction.

Logically speaking, with the three half-step Venerables taking the initiative to extend an olive branch, anyone with a little bit of brains would definitely choose to cling to the thigh in this situation.

After all, everything else was nonsense. Survival was the most important thing.

The man named Li Qiu was the first to react. He couldn't help but laugh. "This kid can't really be dreaming of being the king of the sea, right?"

On the other side, Xia Tang also sneered. "It looks like he's on guard against us. He's afraid that we'll snatch his opportunity to make a comeback. These days, there are all kinds of fools who dream. I'm dying of laughter."

"Even the three of us, half-step Venerables, don't dare to have any hope. He's just a Big Shot at the consummate level, but he's still thinking about this. He's really ignorant and fearless!"

"Hehe, let's take a step back and say that even if he really has that great luck, if the sea crown really falls into his hands, how can he keep it with his appearance? You don't even understand the principle of treasuring a jade ring is a crime. "

"Brother Xia, you don't understand. People have to have dreams in life, otherwise, what's the difference between them and a salted fish? It's just that his dream is a little too high, and we, mere half-step Venerables, can't reach it. "

All kinds of enigmatic words were heard.

Lin Yi suddenly stopped and turned to the three.

The three of them were stunned.

"Oh? You finally understand?"

"That can't be right. From his dead face, I think he's a little dissatisfied with us. What if they get angry and attack us? I'm a little scared, why don't you apologize?"

"How can an apology be enough? you have to at least kowtow! Then we'll have to ask the Lord to be magnanimous and let us off. "

But Lin Yi didn't even look at them and just walked right through them.

Ning Wanjun spoke again, "brother, why don't you think about it again? there's strength in numbers. It's too dangerous for you to act alone. It's better to have someone to take care of you."

Chapter 9999

If you're worried that we'll take the opportunity, we can swear that as long as you're the first one to discover the opportunity, and as long as you can take it all by yourself, we won't interfere.

What does this brother think?"

Lin Yi didn't stop, leaving a faint reply, "I'm here to fight for the Sea King. "

"....."

The three of them were dumbfounded.

After a long time, Li Qiu was the first to react. "I didn't hear wrong, did I? He said he's here to fight for the Sea King?"

"I'm dying of laughter!"

Xia Tang laughed so hard that he was out of breath. "He's at the ultimate completion realm of a Big Shot, after all. I thought there wouldn't be such a naive fool. I didn't expect that there would be such a person in the world. Does he think he's the son of fate? If there's really such a good thing, why would it be his turn to have such an ordinary strength trash?"

Ning Wanjun's expression turned cold as she watched Lin Yi walk away. Her gentle and polite demeanor was replaced by a ferocious and evil aura, causing the two men beside her to shiver.

"Damn it, you're asking for it! I was thinking of making him a Coolie so that we could use him as a sacrificial pawn at a critical moment to attract the attention of those sea monsters and make it easier for us to escape. He actually doesn't know how to appreciate my kindness!"

Li Qiu sneered. "Since you don't like him, why don't you just kill him? it's not a waste of time anyway!"

Xia Tang said, "sure, I'll open a card. Since I'm here, it's inevitable that I'll have to kill someone. I can also warm up. Besides, that kid is hai Wutian's man, so he must have some good things on him. Maybe he can make a fortune!"

Ning Wanjun nodded thoughtfully, "That brat is so fearless. He must have some hidden cards on him. Then we can't let him go."

"Alright, then I'll go and grab the first prize!"

Li Qiu was excited and immediately chased after Lin Yi.

Xia Tang couldn't help but secretly feel that it was a pity. This kind of good thing that was easy to do without capital, but the other party had actually taken the lead. He didn't know when they would meet again.

Ning Wanjun glanced at him. "There are more than 100 cultivators. There are plenty of opportunities for you. You have to look far ahead."

"Yes, yes, big sister is right!"

Xia Tang quickly nodded.

On the surface, he and Li Qiu were the stronger ones. In fact, among the three of them, the one who could really make the decisions was ning Wanjun, who was harmless to outsiders.

The two of them had seen how terrifying this woman was with their own eyes. They were completely convinced of ning Wanjun's abilities and didn't dare to show any dissatisfaction.

"Let's leave that fat sheep to Li Qiu. Let's explore the nearby area. My intuition tells me that there must be something good here. "

Ning Wanjun ordered.

Xia Tang chuckled. "Maybe the ocean Crown is in this area. Then you'll be the king of the sea, big sister. We'll also be able to live a good life!"

"King hai hai ..."

Ning Wanjun's eyes flashed with a hint of passion, but she shook her head and said, ""With our strength and background, even if we get the sea crown, we won't be qualified to enjoy it. We'll only die more miserably than others. But it's not bad to use it to trade with those big shots."

"Yes, I'll listen to you, big sister." Xia Tang readily accepted her advice.

The two immediately began to explore the nearby area.

Even though they were half-step Venerables, their primordial spirits were only at the peak of the late-stage perfected great Dao realm. In addition, they were deep in the sea, so their divine senses were naturally compressed. As a result, their scouting efficiency was not high.

Fifteen minutes passed, and the area that the two of them had explored was only a radius of ten miles.

This area was not even a drop in the ocean in the huge ruins of the Empire. If they could still find the sea crown, it could only be said that their luck was heaven-defying.

The two of them met again.

"Did you get anything from your side?"

"No, not to mention the legendary treasure, I didn't even see a ghost. What about you, big sister?"

Ning Wanjun shook her head. "I didn't find anything either. However, there's not even a fish here. There aren't any sea beasts either. It's really strange."

Xia Tang's eyelids twitched.

According to common sense, if a place was terrifyingly clean, it could only mean that it was the territory of a top predator, and other sea beasts, fish, and shrimp would not dare to set foot in it.

"It's possible," ning Wanjun said thoughtfully. "But the more it's possible, the more it means that there might be something good hidden here!"

"Then let's search again?"

Xia Tang was immediately tempted.

Ning Wanjun frowned. "It's best to wait until everyone is here. It's safer that way. Why isn't Li Qiu back yet?"

Only then did Xia Tang react. "That's right. That guy couldn't have really slaughtered a fat sheep and wanted to eat it all for himself, could he?"

"Let's go take a look. "

Ning Wanjun didn't have much trust in Li Qiu's character. They were only together for the sake of benefits. If it was really as Xia Tang had guessed, that Li Qiu had left the team on her own after eating all of it, that was completely possible.

The two immediately followed the path Lin Yi took.

After another 15 minutes, the two of them stopped in their tracks.

Looking at the familiar corpse in front of her, Ning Wanjun's heart quivered. Li Qiu!

It was Li Qiu!

"This ... How is this possible?"

Xia Tang stepped forward and examined the body carefully. Although the body was somewhat unrecognizable, whether it was the clothes or the physical characteristics, there was no doubt that it was Li Qiu who had just come out!

Ning Wanjun quickly used her spiritual sense to check the surroundings, but she didn't find any traces of Lin Yi. She was even more suspicious.

"Could it be that the kid is an expert who pretends to be a pig to eat a Tiger?"

This thought flashed through her mind.

Xia Tang was even more surprised, 'that guy is actually a tough one? Looking at Li Qiu's appearance, he's not a match at all. It looks like he was killed in a second!'

As he said that, he felt a lingering fear in his heart.

Li Qiu's strength was comparable to his. If he were the one chasing after Li Qiu, he would probably not be any better off.

"Big sister, what should we do now?"

Ning Wanjun pondered for a moment. "We shouldn't do anything to him before we figure out his background. After all, he's Wutian's man. We don't know how much power he's hiding. It's better to be safe than sorry."

There was no intention of taking revenge for Li Qiu in his words.

With her strength, she wasn't really afraid of Lin Yi, even though she was surprised.

If she wanted to, she could also kill Li Qiu in one move. They were both half-step Venerables, but the gap between them was unimaginable.

However, she did not want to take such unnecessary risks.

"Let's go back and investigate. I have a strong feeling that there should be good things there."

Ning Wanjun did not drag things out at all. She made her decision without even looking at Li Qiu's body.

As soon as she left, Xia Tang quickly followed her.

## Chapter 10000 The End

With Li Qiu's experience as an example, he didn't dare to act alone anymore. He might as well go back and try his luck, if he didn't dare to go in the direction Lin Yi left.

What the two didn't know was that not long after they left, Lin Yi's figure appeared next to Li Qiu's body.

They were right-Li Qiu was indeed killed by Lin Yi. With Lin Yi's decisive nature, he wouldn't waste time talking to people like this. Since they wanted to harm him, he'd send them to their deaths.

Lin Yi had always been a generous person when it came to things like this.

"Why don't you kill that woman too? She has a lot of rule power. If you devour her, you'll gain a lot. "

As usual, Jiang xiaoshang was enjoying the show.

"Killing people on sight, do I look like that kind of villain?" Lin Yi shook his head.

Jiang xiaoshang chuckled."It doesn't matter if it's similar or not. The path you've taken is destined to be accompanied by killing. Otherwise, how long would it take for this new world to level up?"

This was the truth.

If Lin Yi wanted to increase his strength quickly, he had two ways.

The first was to collect faith in various rules. This way, he could quickly increase his rule control and achieve a qualitative change in his power level.

As for the remaining path, it was to continuously collect all kinds of rule bending power and integrate them into his new world, using them as nourishment to promote the rapid development of the New World.

The New World was the foundation of his current strength.

As the New World continued to evolve, his overall strength would rise.

As such, his other goal in participating in the Sea King selection trial was to take the opportunity to harvest more leeks, and ning Wanjun's group of three was his ideal target.

However, he didn't attack them directly not because he was soft-hearted, but because he had a deeper meaning.

"Do you know why I intentionally left this guy's corpse here?"

Lin Yi suddenly asked.

Jiang xiaoshang was stunned for a moment before he quickly reacted,""Are you trying to scare the two of them into going back and make them your cannon fodder? Damn, you're much more sinister than I thought. "

"Those guys over there are a little out of their depth," Lin Yi smiled,"I'll let them do a good thing and test the waters for me. "

"This good deed is going to cost me my life."

Jiang xiaoshang sighed,"you look so loyal, but why are you so black-hearted when it comes to scamming people?" Tsk, tsk, you're really more and more to my liking. This is how you look like someone who can achieve great things. "

At this moment.

Ning Wanjun and Xia Tang had already returned to their previous location.

Following the edge of the area they had just scouted, the two scouted for another hundred miles, but still didn't see any living creatures.

This time, even with Ning Wanjun's courage, she couldn't help but feel a little scared. She was confident in her own strength, but not to the point of being brainless.

Although there were no human cultivators living on the bottom of the sea, nor were there any powerful spirit beasts or fierce beasts, there were all kinds of sea beasts that were stronger than them.

There were so many different types of sea beasts and so many that even the sea god temple could not keep track of them.

This was especially so for the ruins of the Empire. A conservative estimate was that it had been sealed for more than 10000 years. Who knew how many ancient and terrifying existences were hidden here? it wouldn't be strange if any of them popped out and swallowed her in one gulp.

If it wasn't for that, she wouldn't have tried to get Lin Yi to join her on purpose, so that he could be her cannon fodder at the critical moment.

"Big sister, why don't we just forget about it?"

Xia Tang's courage was even smaller than hers. Feeling the increasingly strange atmosphere, she even had the urge to run away.

After all, he was a half-step venerable, and he had a good sense of danger.

Even though he didn't notice any substantial abnormalities in front of him, his intuition told him that danger was getting closer and closer. It might suddenly burst out behind him in the next moment.

Ning Wanjun was about to speak when a huge shadow appeared above them.

The two of them raised their heads subconsciously and saw an ancient Megalodon, over a thousand meters long, looking at them quietly.

In an instant, all the blood in his body froze.

Xia Tang trembled as he blurted out three words, ""A sea beast?"

Supersea beasts were the general term for the top sea beasts in the sea. They had different forms and species, but they were grouped together because of a single characteristic.

He was extremely powerful!

Ning Wanjun didn't dare to move at all, and she muttered, ""Honored rank!"

There were different levels of sea beasts, and the Supreme realm was the lowest level. Even so, their strength was comparable to a Supreme realm existence.

In fact, many of them were even more terrifying than those who had just entered the Supreme realm!

In the ocean, you could provoke anything except for the Super sea beasts. This was the first survival philosophy of all creatures in the four Seas.

Her strength was enough to be ranked first among all the half-step Venerables. However, no matter how strong a half-step venerable was, she was still just a half-step venerable. How could she fight against a Supreme-level super sea beast?

The scene fell into a strange silence.

The ancient Megalodon above them did not move, so ning Wanjun and the other woman naturally did not dare to move.

It was just that this seemingly simple confrontation was no less than an extreme test for anyone. The taste of the great horror of life and death was enough to make even the most tenacious person have a mental breakdown in minutes.

In the end, Xia Tang was the first to give up, and his body suddenly moved.

Almost at the same time as he moved, the huge shadow above swooped down at a terrifying speed that was completely unscientific. Its huge bloody mouth, which spanned over a hundred meters, bit down on the two of them.

At the crucial moment, Ning Wanjun was the first to rush out of the range of the bloody mouth.

Although Xia Tang's strength was much weaker than hers, at this moment of life and death, he unexpectedly performed beyond his level. His escape speed was almost no less than her, and the gap between the two was less than half a body.

However, this was only the beginning.

In less than half a second, the ancient Megalodon caught up with them, and the shadow of death loomed over their heads again.

The bad news was that the explosion just now was the result of the two overdrawing their strength and could no longer be repeated.

Just as the two of them were about to be eaten by the Megalodon, Ning Wanjun suddenly struck out a palm without looking back, and it landed on Xia Tang's body.

Xia Tang's speed was slowed down, and he didn't even have time to groan before he fell into the huge mouth on the spot.

Ning Wanjun herself took advantage of this moment to pull away again.

This was the correct way to use teammates.

Lin Yi watched from a distance, shocked by the woman's ruthlessness. She'd betrayed her teammate so quickly-it wasn't something a normal person could do.

This woman was not simple.
