

Billionaire's Ex-Wife And His Hidden Babies

Book 2- Chapter 17

"Bolt..." Caroline's face burned as he guided her legs apart, and he settled in between. Before she would have said a word more, Bolt slammed his lips against her again, indulging in another passionate kiss. "Bolt," She moaned and tilted her head a little giving more access to him while her hand ran in his hair, pulling it tightly.

Bolt guided her legs around his waist, and she did the same. Bolt lifted her on his torso and started walking toward the room without breaking the kiss.

'What is happening to me between in between my thighs? Why does it moisten all of a sudden?' She thought because she had never felt anything like that this before. After a while, she felt her body against the mattress. Bolt broke the kiss for a while to see beauty breathe him and kissed her again, pressing his body against her and also grinding his rode against her peaches.

"Boltttt" Caroline moaned again.

"Yes, Mate." He muttered, deepening the kiss. At the same time, he started dry humping on her.

"Mmmmm" Caroline moaned in her pleasure, and smelling her pleasure, Bolt didn't stop doing it. From time to time, he also gave control to Artemis. After all, she was his mate too. Their moans and groans echoed into the room as they kept kissing each other passionately. This was the sexual tension that had been building between them for so long.

After a while, Artemis came in his shorts, wetting them a little. Caroline felt some wetness against her thigh, but she got time to reason the reason behind it because she was busy with two things that were running through her mind. One, why was she feeling something building between her thigh? And second, why was she feeling something building between her thigh?

Until Artemis made her come, too.

Her body quivered when it happened. She abruptly broke the kiss and pushed Artemis away. She looked at her nightwear in confusion and tension and then looked at Artemis's shorts. He couldn't understand the reason behind her confused reaction until she spoke, "Did we just pee in our respective clothes?"

Hearing this question, his jaw dropped in shock.

.

Even though the couple had decided to spend some time alone by watching a movie but what happened between them and what happened next? They were back to exploring the city. While Artemis was grinning ear to ear, Caroline was feeling embarrassed.

"If I will see you grinning again. I swear that you will have to explore the city on your own." She threatened angrily.

"Moon Goddess!! Why're you getting mad at me?" Artemis asked, laughing, but when he realized that she was getting annoyed. He stopped laughing, wrapping her in his arms. "Okay. I won't laugh or grin, happy?"

Caroline continued to look away, on which he held her chin gently and made her look at him. "Why're you so upset, Regina? Didn't you like what happened between us?" he asked softly.

"It's... It's not like that."

"Then, why are you mad?" He asked, caressing her chin with his thumb.

"Because I'm embarrassed." She admitted and then pouted. "I have zero knowledge of intimacy. Not just that, I thought we... we pee in our dress instead of Orgasms. Hell, I didn't know anything about ... about it." She added.

"No matter, Mark used to get frustrated by staying close to me because I... I was so boring and an idiot." She muttered more as she talked to herself. Bolt growled, hearing her Ex name from her mouth. Everyone around them looked at Artemis, wondering did they hear right.

Did he really growl?

"Wow! You're such a vocal artist." Caroline lied, acting like praising him. "You can really create a growl like a wild animal." She added, patting his shoulder, and in the next month, she whispered. "Have you lost your mind?"

"I couldn't control Bolt when he heard your ex's name from your mouth. And we werewolves are known as the most possessive creature for our mates or anyone they love." Artemis explained and gave an earful lecture to his wolf for being so reckless.

"I'm sorry. I had forgotten that you could even hear my whisper." Caroline apologized because she thought that it was because of her; Bolt had lost control of him.

"You are sorry about that unnecessary part?" Artemis asked, chucking.

'She should be apologizing for taking her ex's name.' Bolt growled in anger.

'It's fine, Bolt. It's not a crime and so, acting like a psycho.' Artemis calmed his wolf down.

"Moreover, you're not boring or an idiot. It's just that you were unaware of these things. And not to forget, there is always a first time for everything, and I'm glad that I helped you with your first orgasms." Hearing him, Caroline's face burned, and her red ears turned red.

"So, tell me, do you like it?"

"Ummm..."

"Don't use your mind before replying. Tell me what comes into her heart first." Artemis said quickly, observing that Caroline was going to think again for a couple of minutes before replying.

'Does he need to mention that part specifically?' Caroline thought before she answered. "I... I liked it. It felt so good that I didn't want you to stop."

"Damn! Regina. Your simple words are enough to make me feel hard down there."

Caroline's eyes widened hearing that, and she couldn't help but look down and see his manhood had always made his presence.

"We... we better discussed these things in the room than in public," Caroline suggested.

"Yeah!! As for now, just find a place to hide my little member."
