

BOOT CAMP 1301

Chapter 1301: A Man and a Woman, Quite a Couple

At this point, the navy commander recalled Ye Jian's training report and smiled. "No matter how hard it is, Ye Jian will definitely be able to persevere. Everything is ok on my side. Your side can make the arrangements. If you need us..."

The seawater hit the shore. It brought the starfishes and carried the hermit crabs away. The two senior generals walked further and further away from the surveillance room. Big Whale, who didn't follow them, saw that the two leaders were walking towards the sea and returned to the surveillance room.

"Connect to Boat 0101." He didn't see the situation with Big Shark just now so he asked the technical lieutenant to help him. He wanted to ask if Big Eel had completed the mission.

Big Eel had already installed the magnetic mine on the boat. This meant that the mission in this simulation combat training had been completed. However, Ye Jian had sacrificed herself.

Big Shark answered the call as he helped pull Big Eel onto the boat and replied with a smile, "It's done. What's the situation with Ye Jian and Demon King? I parked the boat behind the reef. I can't see them from my position."

"Ye Jian fought with Demon King for 12 minutes. In the end, Ye Jian hugged Demon King's upper body with both hands and wrapped her legs around his left leg. The result is that Ye Jian lost and Demon King won."

Big Whale said that in a low voice. The laughter that he had suppressed with great difficulty surged up again.

...

The communication device in his hand remained silent for a few seconds. Then, a questioning voice came from Big Shark. He asked with uncertainty, "I remember that Demon King... has never had any physical contact with female soldiers before, right?"

"No, who would dare to do that? Hahaha, only Ye Jian would dare to do that! At that time, I was stunned and stared for a few seconds! Demon King must not have expected Ye Jian to do that. Hahaha, not only did she hug him, she even used her legs to wrap around his leg. I suppressed my laughter until my tears came out."

Big Shark coughed lightly and said to his comrade, Big Eel, who took off his breathing mask, "Big Whale said that Ye Jian hugged Demon King's upper body under the sea and wrapped her legs around his left leg. Do you think we should consider letting Ye Jian take some responsibility?"

...

“Yes, of course! Demon King’s innocence is gone!” Big Eel panted and slapped his thigh. As a crisp sound was heard, his voice was full of energy. “You must tell Ye Jian about this. Demon King’s innocence is gone! This is the first time I met a female soldier who dared to hug Demon King! And she kept hugging him! Impressive!”

Big Shark nodded seriously. “You’re right. Demon King’s innocence is gone and Ye Jian seems like a responsible female soldier. She will probably take responsibility if we talk to her. What do you think?”

“That’s right! A man and a woman, they’re quite a match!”

“...Big Eel, what are you trying to say? If a man and a woman are not compatible, then are a man and a man compatible?”

Li Jinnian, whose innocence was lost according to his comrades, surfaced and took off his breathing mask. Without any expression on his face, he looked at Ye Jian with clear eyes.

Ye Jian took off her mask and saw his expression. His gaze was as bright as a sword that had just been unsheathed. Her heart sank. She knew what he was going to say.

“You...” Li Jinnian glanced at Ye Jian’s fingers which had turned white from being underwater for so long. He wanted to reprimand her but he swallowed his words. A white flag appeared above the inflatable boat behind the reef. Li Jinnian frowned and lowered his voice.” Get on the boat first. ”

The atmosphere was a little heavy. Realizing that she had made mistakes, Ye Jian gently let out a breath of turbid air that was stained with the smell of seawater. She nodded slightly and turned to swim towards the direction of the boat.

Chapter 1302: Embarrassed Demon King Li

Ye Jian was “killed in action” so she couldn’t undergo the next beachhead combat training. Additionally, Li Jinnian had more important things to warn Ye Jian. The two of them silently swam to the inflatable boat that was docked. The heavy aura on Li Jinnian didn’t dissipate even after they boarded the boat.

The sun in the afternoon was so hot that it felt as though she was locked in a steamer while wearing a rubber diving suit. Before the humidity from the sea had dissipated, sweat was already dripping down her forehead.

Big Shark patted Li Jinnian’s shoulder lightly and reminded him in a low voice, “Don’t be so serious. Big Whale said that her performance in the water wasn’t bad. Don’t be too strict. After all, she hasn’t even trained with us for two months.”

“She cleared the landing obstacles, located the mine, and completed the installation of the magnetic mine. You added the last part of the training because you wanted to train her. With such a disparity in strength, how can she bypass you to complete the beachhead training?”

“Jinnian, you can be strict with her, but you can’t be too harsh.”

He was afraid that his team member would reprimand Ye Jian directly like he was criticizing their comrades. This would embarrass the female soldier.

Ye Jian was still boarding the boat on the other side. Big Eel was bending over to pull her up so he didn't notice the interaction between Big Shark and Li Jinnian.

They needed to help each other when they boarded the boat with their diving equipment. Otherwise, it would be difficult for them to come up in a short time.

"Thank you."

At the back of the boat, Ye Jian thanked the eel with a smile. Her clear and refreshing voice was like music to Big Eel's ears. He advised Li Jinnian, who was wiping his mask, "Later, no matter what, you have to be tactful, understand? No matter how outstanding Ye Jian is, she's still a female soldier, unlike us rough men."

After he finished speaking, Big Shark let out a 'huh' and asked suspiciously, "That's not right. What did she do wrong? Why have you kept a straight face from the moment you boarded the boat? I didn't even ask what she did wrong."

"It has been three minutes since I got on the boat. You didn't give me a chance to speak." Li Jinnian raised his eyebrows. In the sunlight, his facial features were like a god. The coldness in his eyes was unbreakable. "Can I speak now?"

...

Big Shark took a deep breath. "Then why do you look so weird?"

"I'm a little embarrassed. Is that okay?" Li Jinnian replied calmly. His handsome face remained indifferent as though he wasn't interested in anything... No matter how you looked at him, you couldn't tell that he was embarrassed!

Big Shark choked on his saliva and coughed a few times. He thought about it but he never thought that... this was what happened!

The next second, Li Jinnian said calmly, "She did make a mistake. Die together? When did we teach her how to fight underwater like that?" She had plenty of time to pull out her underwater pistol and aim it at me after escaping from the net. However, she didn't. She had to choose the stupidest method when I was closing in on her!

He felt a little embarrassed to be hugged by her suddenly. However, he was a little angry because she didn't manage to catch the enemy and chose the stupidest method.

"...You can finish your sentence in one go so that my heart won't have to go through a roller coaster ride." Big Shark turned and looked at Ye Jian who was tidying up her diving equipment. He couldn't help but lower his voice. "You're not at a disadvantage to get hugged. Don't make yourself look like you lost your innocence. If you really feel that your innocence is gone, do you want to discuss it with Ye Jian and let her take responsibility?"

Chapter 1303: You Can Woo Ye Jian

His words became teasing in the end. "19 years old. She's a little young but you're only six years older than her. We finally met a female soldier. You can consider her."

Li Jinnian glanced at his comrade who was teasing him. There was no need for him to say anything. He just kept quiet.

The Demon King didn't like such questions.

Fine, he'll stop speaking if he doesn't like it. However, did he not like this topic? Or did he not like Ye Jian?

Not like Ye Jian? That's not really possible!

So far, Ye Jian was the most outstanding and... cough, the most beautiful female soldier they had ever seen. Just look at her. More than a month of training didn't turn her skin into charcoal. It only turned red and peeled off... It was still a little red. A red from sunburn.

Then, he looked at Li Jinnian, who walked over and stood beside her. He was tall and upright. Although he was a little cold, his face was so handsome that every time the female soldiers went to the navy conference, they would make eyes at him... to at least score some points from him. If you ignored his coldness that let no one get close to him, Ye Jian and him looked like a good match when they stood side by side...

Li Jinnian didn't take Big Shark's words to heart. His gaze was so cold that Ye Jian felt pressured. "Frogmen need to pass through all kinds of obstacles and channels during their missions. They also need to evade detection from all kinds of detectors. You already have a solid foundation. Your reaction is not bad, but there's still room for improvement."

There was no criticism at the start. There was even a hint of praise... Ye Jian's expression tensed up even more. She felt that the horror of the Demon King was yet to come.

"The unfamiliar waters and complicated formations will make it inconvenient for you to fight underwater. At the same time, it will increase your psychological pressure. Ye Jian, do you need me to repeat the biggest difference between the frogmen and the army?"

As his voice turned colder, Ye Jian knew that the main point was here!

Straightening her back, Ye Jian held her head high and replied seriously, "Reporting, no need to repeat!"

"Since you know about it, why did you make such a low-level mistake in the water? Did I teach you to die together with the enemy?" Li Jinnian was a calm man. No matter how big the issue was, he rarely became emotional.

He was like that when facing Ye Jian too. He was slightly angry just now, but he has calmed down now. From his cold voice, one could tell that he was criticizing Ye Jian but he didn't show any emotions.

“You had the time to complete your underwater gun shooting but you didn’t grab the chance. In the end, I managed to counterattack successfully. You knew that you had no chance of winning but you still wanted to ‘perish’ with me. Ye Jian, if you were to have a real underwater battle, will you choose this stupid method?”

“Underwater firearms have the advantage of speed and high lethality. At a close distance, no matter how powerful the enemy is, it will be difficult for them to dodge effectively. Ye Jian, as long as we have the chance to pull out our guns and shoot, firearms will be our priority, and survival knives the second!”

He didn’t criticize Ye Jian. Instead, he pointed out her mistakes one by one so that Ye Jian would understand what she did wrong.

Big Eel and Big Shark had already moved to the front of the boat. They left some space for Li Jinnian so that Ye Jian wouldn’t feel awkward.

It would take two hours to travel from their training location to the port. Li Jinnian didn’t criticize Ye Jian for too long. He knew that the female soldier was very perceptive. Once he points out her mistakes in time, he wouldn’t have to worry about her as she would correct them by herself.

Chapter 1304: Glows Everywhere She Goes

Major General Yang was already waiting at the port. When he saw Ye Jian coming down, he stepped forward to welcome her.

“Major General!” Ye Jian jumped off the boat and saluted immediately.

“Not bad, although you’re a bit tanned.” Major General Yang smiled as he looked at Ye Jian, who would be a member of the Snow Region Special Forces Brigade in the future. He returned Li Jinnian’s salute and put down his arm. He smiled at the young major who was famous for his harsh training. “It’s been hard on you, Major Li.”

Facing the major general, Li Jinnian replied calmly, “This is my responsibility.”

“From you, I can see the sacred qualities of the current generation of soldiers. Major Li, you are the model of our army.” Major General Yang admired the major in front of him. In the past, he wanted to arrange for him to join the Snow Region Brigade so that he could join the same team as Xia Jinyuan. He wanted to train the Snow Region Brigade into an outstanding and top-class Special Forces.

However, after consideration, the navy needed to organize an underwater assault team so Li Jinnian went to the navy while Xia Jinyuan went to the army.

Now, the two of them were shining brightly in their respective military units. Even though Li Jinnian didn’t become an army soldier, Major General Yang still treasured his talent. He chatted with him for a while before speaking to Ye Jian.

Looking at his back, Major General Yang smiled and said, “He almost became a member of the army like Xia Jinyuan.” He turned his head and saw the back of Ye Jian’s neck, which was slightly red due to the sunburn. He paused for a moment and sighed. “Has it been tough for the past month? It must be tougher than the army training.”

Not only did she lose a layer of skin from the sun, but she also got sunburned as soon as she recovered. She got sunburned several times.

“It’s mainly because I’m not familiar with this area. I started from scratch so it’s a little harder than the training in the army.” Ye Jian didn’t exaggerate and replied honestly, “Fortunately, I passed the physical test on the first day. Otherwise, with Captain Li’s strictness, I would have been sent back.”

Major General Yang smiled. “To send you there, Xia Jinyuan and I never expected that you would be sent back. We believed that you would pass.”

“Fortunately, I didn’t slack off during my training. If I was sent back, it would be too embarrassing.” Ye Jian teased herself. Although it was exhausting, her spirit had been tempered. From her bright eyes, you could tell that she was full of energy. As the major general laughed, she said slowly, “I only felt at ease after a week of training when I felt that Captain Li was satisfied with me.”

It was hard work. If she didn’t work hard, how could she become an outstanding soldier?

Major General Yang was very satisfied with Ye Jian’s unyielding spirit. She wasn’t afraid of fatigue or hardships. “We will postpone your reporting day for the military school until the 2nd of September. You will be exempted from the military school’s military training.”

“I will ask Xia Jinyuan to come and fetch you at a later time. Go home and take your admission notice. You can complete your report on the 2nd of September.”

The new students of the Chinese Academy of Sciences had to undergo military training. They had to complete their admission procedures and first military training two weeks earlier than other universities.

To put it nicely, it was to experience military school life.

To other new students, this was a military school experience. To Ye Jian, this was a small matter. If she used this half a month to stay in the navy to train, her gains would be greater.

Chapter 1305: Want Major Xia’s Girlfriend?

After knowing that Xia Jinyuan would come to fetch her, Ye Jian, who sent Major General Yang off, Ye Jian looked forward to something for the first time. She wanted that day to come quicker, to see Xia Jinyuan, whom she had not seen in a long time, earlier.

During the three-day holiday, Ye Jian completed her last beachhead training. On the evening of the third day, she left the port in a patrol boat and headed to another sea area to complete her last ten days of combat diving training.

The last ten days of training allowed Ye Jian to return to the days when she first came to the unit. She had to complete the training of the special warfare combatant-craft crewmen after less than five hours of rest every day.

The port at the end of August wasn’t as hot as it was in the middle of July. Although the sun was still scorching, the heat seemed to have decreased.

Xia Jinyuan was wearing an army training uniform. He chatted with Big Shark as they walked towards the helicopter base. He arrived at the port on August 28th at 10 am on schedule and will take a plane to Hongkou City in the Southern Province at 2 pm.

Time was tight. The plane would reach Hongkou City this afternoon and they would have to immediately take a bus back to Shuikou Village. They would rest for two days on August 29th and 30th. On August 31, they would rush to the Chinese Academy of Sciences to report before September 2nd.

Big Shark had trained with Xia Jinyuan for more than half a year before so they didn't have to be too formal when they talked to each other. Big Shark said in a relaxed and familiar manner, "Unfortunately, the duration is a bit short. For instance, our special warfare combatant-craft crewmen training program is ten weeks. Ye Jian only had two weeks. She needed to complete a skydiving course, an obstacle blasting course, and a long-range safety course."

"All three courses only had four days of training each. In Demon King Li's words, it's fast-food style training. Let her remember it first. She can train in depth when she comes back from winter vacation."

Soon, he would be able to see the girl he loved. Xia Jinyuan smiled as he walked briskly. There was gentleness in his exquisite eyes. "Although it's fast-food style training, I believe that with Ye Jian's adaptability, she will not waste your efforts."

Little Fox was smart. She would produce eight days worth of results with four days of training!

She was indeed one of them. He trusted Ye Jian so much that he didn't doubt her even if he didn't see her training.

This kind of trust wasn't formed in a day or two. It was formed by interacting with each other day and night and even fighting together.

Although Ye Jian had been training with the water ghosts of the Storm Commando Brigade for almost two months, she had not established an unbreakable trust in them.

"That's true. In our commander's words, Ye Jian is like a sponge. She will look like she's about to reach a saturation point but in the blink of an eye, she's able to absorb new knowledge. Her proactivity and execution are outstanding."

Although he didn't establish an unbreakable trust in Ye Jian, Big Shark had admired Ye Jian for a long time. The longer they interacted, the more he could feel the power in Ye Jian. Thinking that she was leaving in the afternoon, Big Shark suddenly said, "We can't bear to let Ye Jian leave. We were considering whether we should coax Demon King Li to woo Ye Jian."

After he finished speaking, he laughed loudly. "Major Xia, isn't it a little immoral for me to say this now?"

Ha, a little immoral?

Xia Jinyuan glanced at the laughing water ghost and said with a half-smile, "Stealing Ye Jian in front of me? You're not being just a little immoral."

Actually, what Major Xia wanted to say the most was: How dare he snatch my girlfriend? Hehe, he must be itching for a beating.

Chapter 1306: Snatching His Girlfriend

He wanted to snatch his girlfriend in front of him and even said that he wanted to steal her away. As a normal man, it would be weird if he could control himself.

However, as a soldier, Major Xia was more tolerant than normal men. Even though he was sneering in his heart before the enemy was revealed, his handsome and elegant face was still calm. Even his smile maintained the innate nobility of the Xia family. He didn't reveal any emotions.

"Your team doesn't recruit female soldiers. No matter how outstanding Ye Jian is, you can only watch." Major Xia sighed as if he felt sorry for the water ghosts of the Storm Commando Brigade. "It's a pity. If she stays, I dare say that she will be as good as Demon King Li in the future."

They wanted to match Little Fox and Demon King Li together. These water ghosts had ulterior motives that he wanted to attack. He wanted to compete with them to see which water ghost had thicker skin and needed to be taught a lesson.

He was not afraid that the water ghosts wanted to match them together. He needed to understand Demon King Li's attitude first.

Big Shark didn't notice anything amiss with Xia Jinyuan. He didn't notice that Xia Jinyuan was luring his enemies step by step. He was trying to find out what the situation was, especially Li Jinnian's attitude.

"There's nothing we can do about it. The frogmen units from the three military districts, Lindong, Linchuan, and Nan Guang can recruit female soldiers. If the three military districts know that Ye Jian graduated from the military school, Major Xia, let me remind your team in advance that there's a 90% chance that they would come snatch her." Big Shark sighed too. He couldn't stop Ye Jian from leaving. "We want to snatch her, but it's a pity that there are policies and regulations. We can only think about it in our hearts. It's impossible."

A hint of a smile flashed past Xia Jinyuan's dark eyes. He and the major general sent Little Fox over because they knew that the Storm Commando Brigade didn't recruit female soldiers.

Sigh, he had no choice. He had to take precautions!

Little Fox was a female soldier but she was much better than a male soldier. She had five years of special forces training and had a certain amount of experience on land. Additionally, she had good comprehensive abilities. He and the major general had to keep their guards up.

As her boyfriend, he was happy that his girlfriend was outstanding. However, there were times when he was worried that someone would steal his girlfriend. He felt uncomfortable.

Xia Jinyuan believed in Ye Jian.

He had known her for five years and wooed her for four years before he finally managed to get her. The strong-willed Little Fox wasn't someone who would change her mind easily. When she trained with Li Jinnian, he wasn't even worried about whether his girlfriend would leave with someone.

Xia Jinyuan was already prepared for this. His little fox was outstanding and there was no lack of outstanding men in the military unit. It was normal for them to like his little fox. If not, he wouldn't have thought of ways to claim his identity as her rightful boyfriend before she entered the military school.

He was already mentally prepared. However, he didn't expect someone to be so eager to steal her away from him when their relationship had just started!

Major Xia gritted his teeth. He continued to lure his enemy and smiled slowly. "This is a good policy. If it wasn't for this policy, I would have considered sending Ye Jian to your team."

...

His words made Big Shark want to vomit blood. His dark skin and white uniform contrasted each other. He glared at Major Xia, who was as elegant and dignified as a military officer. Big Shark pounded his chest a few times. "Major Xia, are you trying to anger us on purpose?"

"It turns out that you were guarding against us from the start. You didn't send her to the other military districts but chose our Storm Brigade! Major Xia, you're too cunning!"

Chapter 1307: A Duel Between Men

"Why would I anger you on purpose? I'm telling you the truth." Xia Jinyuan was wearing a training cap. He looked elegant and noble. "I can't play into the hands of others. I need to be careful. Fortunately, your team has a rule about not recruiting female soldiers. If not, I might not be able to bring Ye Jian back to the army smoothly."

"Also, you're not kind at all. Not only do you want her to stay, but you even want Demon King Li to give himself to her." Major Xia took the chance to say the most important words. He advised them earnestly, "Big Shark, it's not a long-term solution to win the favor of others with lust."

Big Shark took a deep breath and then another. He forced a smile and replied, "Major Xia, don't misunderstand. We were just joking around. It has nothing to do with Captain Li. He doesn't know what we are thinking."

Not a long-term solution to win the favor of others with lust? Major Xia, you're really vicious! If Demon King Li knew they wanted him to sacrifice his looks, he would train him to death!

The smile on Major Xia's face got deeper. He nodded and started laughing. "Li Jinnian didn't even say anything and you guys dared to talk nonsense. You're bold."

"Both the man and woman are unmarried. Captain Li is not bad and Ye Jian is decent too. If they actually become a couple, don't you think that it will be a good story?" Big Shark didn't know that he escaped

from Demon King Li and was now being remembered by Xia Jinyuan. He didn't fear death and expressed his true thoughts. "You don't know how compatible they are."

"Ye Jian is so outstanding. Not many men are worthy of her. Captain Li is one of them." As vice-captain and counselor, Big Shark felt that he had the responsibility to matchmake Demon King Li.

He was already 26 years old. He would be 30 years old in four years. How could he not have a partner then?

Xia Jinyuan clenched his fists secretly and raised his hand to look at the time. It was still early...

He raised his gaze and pointed at the beach in front of him. He said politely, "It's still early. Why don't we go to the beach and have a spar? Let's see if you have improved. Back then, the few of you fought with me and Li Jinnian. Every one of you lost until you vented to the sea in the middle of the night. You said that there will be a day when you will get your revenge. Let's do it while it's still early."

I'll spar with you until you can't speak!

As a Special Forces soldier and Q King of the Snow Region Brigade, Xia Jinyuan had already concealed his emotions to the point of perfection. Even the instructor of the Storm Commando Brigade, Big Shark, couldn't see through his emotions.

Every sentence was spoken calmly and tirelessly. Until now, Big Shark had not realized that he had 'offended' Xia Jinyuan.

There was a glint in his eyes when he heard this. He looked at Xia Jinyuan, who was walking over in his training clothes. He laughed and said, "It looks like you came prepared. You didn't even wear your uniform to visit our military unit. You came in your training clothes."

"I came out in a hurry so I didn't change. It has become convenient now."

"That's good! Please, Major Xia!"

The sparring started at 10: 10 am. At 10: 25 am, the sparring ended. The side of Big Shark's face was pressed against the sand and his hands were trapped behind his back. There was so much pressure that he felt as though his eyes were about to pop out.

Xia Jinyuan sat on Big Shark's waist and locked his arms tightly. As he raised his arms, he placed his elbows on the back of Big Shark's neck so that he couldn't move. His smile was a little cold. "You've improved a little. In the past, it was ten minutes. Now, it's fifteen minutes."

Chapter 1308: Ruthless, Too Ruthless!

Big Shark, whose mouth was full of sand, made a sound in his throat, indicating for the other party to let go so that it could talk.

Ruthless, too ruthless!

He stepped on his chest twice and punched the corner of his mouth. Blood was flowing out of his mouth. Now, he was being held down... Did water go into his brain? Why did he agree to spar with Xia Jinyuan, who was on par with Demon King Li?

They were clearly talking about Ye Jian and Demon King Li. Why did it become him sparring with Xia Jinyuan?

Of course, Xia Jinyuan wouldn't tell him why they sparred. He loosened his grip and pulled Big Shark up. He said guiltily, "I couldn't control my strength. Sorry, Brother."

Big Shark, whose mouth was red and swollen, touched his wound lightly. He waved his hand and said indifferently, "I admit defeat. However, Major Xia, you are indeed a little ruthless. Why do I feel that you purposely hit my mouth?"

"Does it hurt a lot? Let me see." Xia Jinyuan's expression was serious. He rushed over to show his concern for his comrade. He did it on purpose at the start but towards the end, he really wanted to have a good spar.

Big Shark, who didn't see through Xia Jinyuan's fox nature, felt that he was thinking too much. He added, "The moment you came up, you greeted my face. Major Xia, I'm not as good-looking as you. If my looks are marred anymore than this and I can't get a wife, you will have to take responsibility."

Ever since he was young, he had been pampered by his grandpa. Besides his sweet mouth, his IQ and EQ were all very high. He was the one who picked fights with other people since he was young. Even though he was the one at fault, he would become the victim in the end. His grandparents loved him dearly.

Commander Xia didn't dare to go against his son so easily. He was afraid that he might get fooled.

Major Xia felt much more at ease now. He replied seriously, "Of course, of course. I'll bring a female signaller from the army, you can go and match."

As he spoke, his expression turned serious. Even the smile on his face turned cold. "Big Shark, we will be having a competition with a Special Forces team from the United States next year. You need to keep up on your ground warfare."

"Did Demon King Li come up with any detailed training plans? Time is a bit tight. Tactics and skills need to be rushed."

He already found out about his enemy's situation. It had nothing to do with Li Jinnian. His comrades were just worried about him. After the sparring session, he felt more at ease. It was time to change the topic and shift the attention of Big Shark to the main topic.

As an all-rounded soldier, the fox-natured Major Xia wasn't someone to be trifled with. He knew everything and was good at everything. There was no need to talk about the spar after it was over. This was to prevent Big Shark from realizing that his motive was impure.

The topic changed and Big Shark followed. The corner of his mouth twitched. Besides the slight pain, he was fine.

He patted the sand off his body and started discussing with Xia Jinyuan. "We have a plan. We will compete with you first and focus on attacking their weak spots. Major Xia, your Special Forces is a little mysterious. Even Demon King doesn't know how powerful you are."

"After we finish the competition, both of our teams will need to use our best skills. We will combine our strengths with our captains and eliminate our weaknesses. We will have a better chance of winning when we go overseas in the future."

Xia Jinyuan was no longer sentimental. With a sharp look on his handsome face, he nodded and said, "My plan is the same as Demon King. We want to compete with you first and find some problems with ourselves. Then, we will collate the strengths of the American Special Forces and formulate a training plan."

Chapter 1309: An Admirable Soldier

A second ago, they were still fighting with their fists. The next second, they were standing side by side and discussing the competition with the United States next year.

On the way back from the beach to the cement road leading to the port, the conversation between the two of them was serious and profound. From time to time, they would say a few combat terminologies.

Xia Jinyuan lowered his voice. There was a hidden coldness in his voice. He looked in front and said slowly, "This May, we started to learn 30 kinds of advanced personal training courses targeted at us. Our team is nearing the end of the class. We will be able to complete it all before National Day. After training for so long, I want to see how much we have gained. It's the best choice to have a match with your unit."

As a Special Forces soldier, as long as he was still in the team, he would learn many skills.

30 types of advanced training courses were necessary for every Special Forces soldier in the Snow Region Brigade. Survival, evasion, defense, escape, class C, movement, intelligence, and so on. The Special Forces soldiers of the Snow Region Brigade needed to familiarize themselves with these courses to improve their combat ability.

Big Shark's gaze landed on the young major walking beside him. He asked with uncertainty, "You completed 30 advanced personal training sessions? The entire team? Or only a few?"

"No one is left behind in the team. Everyone must pass," Xia Jinyuan replied with a smile. His handsome features faced the sunlight as his expression was fearless. It was as though he was able to break through all the obstacles. His steps were steady and majestic. "I will hand Ye Jian over to you so that she can build a good foundation in the future and not get eliminated."

Why did Xia Jinyuan encourage Ye Jian to speed up her training? It was so that once she entered the Snow Region Brigade, she could skip the basic training and learn advanced training courses.

As a land, air, and sea Special Forces soldier, he was able to pilot a fighter jet in the air, drive a tank on the ground, and fight in the sea without any hesitation!

Xia Jinyuan was able to become an all-rounded soldier not because of his connections or his mouth. He became the leader of the Snow Region Brigade based on his own capabilities. He was even the youngest in the entire team!

Ye Jian followed Xia Jinyuan's footsteps and grew up. She was going in the right direction with him as her goal!

"You groomed Ye Jian in the direction of an all-rounded Special Forces soldier. The reason why you're so harsh on her now is so that she won't fall behind too much when she enters your brigade in the future. She will be able to catch up to all her comrades." Big Shark wasn't surprised by Ye Jian's whereabouts. He had discussed with Li Jinnian before and vaguely guessed the arrangements made by the army.

He respected Xia Jinyuan more. He brought his comrades and completed more than 30 advanced personal training courses in less than five weeks... The training was even harsher than Demon King Li's!

The young and inexperienced military cadet back then had reached a height that countless soldiers looked up to. As he grew older, he became more mature. The young and immature military cadet had already become an indomitable soldier who could carry the burden on his shoulders. When he opened his mouth again, even his voice was filled with admiration. "Whether it was in the past or now, you are our role model. Demon King mentioned to us many times that if the army had more soldiers like Major Xia, it would be a blessing for the country."

How strong was he that he was a blessing of a country?

Chapter 1310: Brother, Do You Still Want to Fight?

He could fight for the country, bring glory to the country, and win the respect of other countries. Holding a weapon, he could kill enemies and protect the people. How many soldiers were able to be called a blessing to the country?

Xia Jinyuan shook his head and smiled. "Once you wear a military uniform, you don't only represent yourself. You represent the country. They raised me, educated me, and nurtured me. I'm just doing my part to repay the country's trust in me. How can I be worthy as a blessing for the country?"

"It should be said that I was fortunate to be born in our country and grew up in our country. It allowed me to avoid the flames of war when I was young and stay away from the smoke of gunpowder. Everything I do now is to repay my country. It is also a responsibility that a soldier should bear."

As a soldier, he needed to know his mission and duties. He needed to carve his sense of honor into his bones and pass down his unyielding spirit. He needed to carry the responsibilities and duties on his shoulders and raise the steel gun in his hand to fight for his country and his people without any hesitation.

“We need to be worthy of this outfit!” Big Shark patted his chest. His dark and calm face revealed the might of a soldier. “As long as we wear it, we have to bear the responsibility of this outfit. The soldiers of this era should be like Major Xia.”

Xia Jinyuan smiled as he looked at the soldier who was protecting his country. Suddenly, he asked, “Then, do you think that I’m compatible with Ye Jian, or is it just Demon King Li?”

...

Why did this sound a little off? Big Shark suddenly felt that he had... become a fool.

He looked at Xia Jinyuan from the corner of his eyes. Nothing seems amiss with Xia Jinyuan. Big Shark smiled and said, “You are compatible too. However, the main thing is to see Ye Jian’s thoughts.”

“Didn’t we have three days of rest some time ago? Demon King saw that it was getting closer and closer to the day when Ye Jian would leave so he arranged a simulation training. During the underwater combat, Ye Jian saw that she couldn’t defeat Demon King so she rushed over and hugged him. Major, do you think that Ye Jian has some feelings for Demon King Li?”

He was even testing him. She rushed over and hugged him? The mature little fox would never do such a thing!

The smile on Xia Jinyuan’s face didn’t falter. He said calmly, “There will inevitably be physical contact during combat training. You can’t just think a small action has another underlying meaning during a fight.”

“She grew up in the military unit and trained with the male soldiers. During the training, she would often ride on the male soldiers’ backs and take them down. Based on what you said, how many people does Ye Jian have to fall for?”

“Big Shark, you are thinking too much.”

“How can they be compared to Demon King Li? Demon King Li is good-looking and responsible. He graduated from military school too. If he really becomes a couple with Ye Jian, hahaha. Major Xia, you should be happy for Ye Jian too.”

If Major Xia was interested in Ye Jian, his expression would change when he heard this!

When he smiled, he opened his mouth a little too widely and accidentally tugged at the small wound on the corner of his mouth. Big Shark didn’t think much about it but now, he couldn’t help but think too much. Was the so-called spar just now to teach him a lesson?

While Big Shark muttered in his heart, Ye Jian stood at the bow of the boat and waited for the boat to reach the shore before jumping down. Captain Xia must have reached the port to fetch her.

It had been almost two months since they last met. Ye Jian couldn’t wait to see her boyfriend.
