

BOOT CAMP 1511

Chapter 1511: Deal With You

In the forest, Xia Jinyuan, who was resting, opened his eyes when he heard the first barking. The moment he opened his deep and dark eyes, a sharp look flashed past them like a cold sword.

It was time to solve the dog issue!

“The commotion is a little big. The dogs in the village must have gone crazy.” White Crane, who was lying on the tree, picked up his binoculars and took a look. He pressed down on his wireless earpiece and whispered, “We can move now.”

Putting on the night vision goggles, a few figures flashed out of the dense forest and disappeared into the night like ghosts.

The dogs that Fu Hui’s family fed suddenly went crazy. Their barking caused all the other dogs in the village to echo them. It broke the peace in the village, making Li E’s heart jump.

She put down the phone and walked out quickly. “What happened? Did you send someone to take a look?” She asked the villager who had a phone.

“Our dog suddenly ran out too. Sister Li, could it be that the police came back as evil spirits?” The person who spoke was a woman in her forties. She was holding the ‘God’s Church’ believer’s manual and looked flustered. “Grand Commissioner, we need to ask the Grand Commissioner for help. We can’t let evil spirits destroy our village!”

Li E knew about the Chen family’s fortune the best. She knew that the so-called ‘evil spirits’ didn’t exist at all. That was why she was a little flustered.

Coincidentally, she couldn’t contact the staff she trusted. As she listened to the dog barking, her eyelids started twitching uncontrollably.

She didn’t call him again. Instead, she left immediately. She didn’t even turn on her flashlight. She walked quickly towards Chen Jiafu’s house.

A blinding light suddenly shot from behind the hundred-year-old maple tree in front. Li E was so shocked that she subconsciously turned around and wanted to run.

“Sister Li!” Someone called her and ran towards her hurriedly. “Sister Li, why are the dogs in the village barking? Fu Hui’s parents said that it is evil spirits! Why is our village so noisy? It makes me nervous.”

It was the voice of the girl she fooled.

Li E, whose heartstrings were extremely tense, heaved a sigh of relief. She felt that her knees were weak. She was so frightened that she asked angrily, "Why did you come out so late at night? You scared me so much that I almost had a heart attack."

Ye Jian was in a panic and seemed to be frightened. She couldn't even speak properly. "Dogs. They're all dogs. It's too scary. Li E, I want to go home. I want to go home!"

She needed to delay Li E. At the same time, she needed to tie her up at Fu Hui's house.

Ye Jian tied up Fu Hui's parent's legs and hands tightly. A towel was stuffed into their mouths to prevent them from shouting.

Li E didn't know that she was being pestered. She was in a hurry to go back and look for Chen Jiafu, but Ye Jian held her arm. She couldn't get rid of her anxiety, so she accompanied Ye Jian back to the Fu family's house angrily.

"If you know that you're afraid of dogs, why did you run out? Sister, let me tell you, don't run around tonight. Sister Li is afraid of the dark too. She won't come over to accompany you in the middle of the night." Li E rushed into Fu Hui's house. Her heels were still outside, so she was caught off guard and fell.

The moment she fell to the ground, Li E reacted. However, no matter how fast she reacted, she couldn't be faster than Ye Jian. She could only make muffled sounds in her mouth. In the next second, her mouth was covered by Ye Jian's towel.

At the same time, she clasped her hands behind her back and pressed her down on the ground.

Chapter 1512: Evil

Fu Hui didn't come over to help since she didn't know how to. Ye Jian controlled Li E. Even if she wanted to help, she couldn't.

Fifteen minutes ago, her parents were the same.

According to Ye Jian's instructions, she took her mother away alone. She didn't know what she needed to do. Ye Jian had already captured her father while he was preparing to pray and tied her mother up with ropes.

Li E was shocked.

Half of her face was pressed against the cold ground. She started to struggle violently. She had always been dishonest. She vaguely realized something and struggled even more furiously.

Her strength was not weak either. Even if her hands were pulled backward, she would not give up as long as she could move.

The moment her mouth was blocked, she only had one thought in her mind: She must escape!

Ye Jian smiled. Her voice was as cold as the moonlight. It was as though she was holding a venomous snake. "Those ladies who Sister Li harmed struggled like this. Unfortunately, Sister Li didn't let them off."

Ye Jian, who was sitting on Li E's back, grabbed her calf with both hands as she spoke. With just one action, Li E's expression changed drastically. She was shocked.

"Sister Li is so strong. It looks like I need to chop off a leg." The voice behind her was clear and soft. It was as pleasant as a silver bell, but Li E almost fainted when she heard it!

What was she doing?

Who was she?

Ye Jian meant what she said.

"In Sister Li's clubhouse, it's very common to break the legs of a girl who was kidnapped. I'm sure Sister Li has seen it many times, so she's not afraid anymore! I wonder if Sister Li has experienced it before. Sister Li should have a taste of broken arms and legs tonight."

No, no, no...

Li E didn't want to experience this feeling. She shook her head furiously. The fear in her eyes wasn't fake.

"Mmm, mmm..." Li E was really afraid that her arms and legs would be broken. She didn't want to taste it at all!

Fu Hui, right, Fu Hui!

Li E was so frightened that her face turned pale. She tried her best to raise her head and look for Fu Hui, who was still around just now. Only she could save her.

"Tsk, tsk, tsk. Sister Li is a famous person in Yu Yang City. Why are you afraid of broken arms and legs? I thought that Sister Li wasn't afraid. If not, why do you always like to play this trick on those girls?" Ye Jian didn't plan to let her off so easily. There were Xia Jinyuan and the Guilin police outside. She had enough time to play with Li E!

She wanted to play with Li E who had killed many people and kidnapped many girls!

With a cold expression on her face, Ye Jian grabbed her calf and started twisting it bit by bit like a screw. Li E couldn't bear it and let out a muffled scream.

Li E, who didn't see Fu Hui, was in so much pain that her entire body was tense. She kept struggling.

Who was this girl that she kidnapped on her way back to the village? She would rather believe that she came back to take revenge!

The truth?

She didn't dare to think about the truth too deeply. Even if she wanted to think about it, she was so scared that her heart trembled.

Ever since she killed those policemen, she had never felt at ease.

That night, when she suddenly heard Wang Gui ask if something had happened, her heart dropped. It wasn't that she didn't suspect this girl. In the end, she still allowed her greed to gain the upper hand. After testing her a few times, she thought that nothing was wrong.

Chapter 1513: Must Die

It was a huge problem. Unfortunately, she wouldn't have the chance to regret it.

For instance, if she thought about it just now, she would have noticed that something was amiss. However, because she couldn't reach the phone in the clubhouse and heard the barking of the entire village, she didn't overthink it.

She was so afraid of dogs, but why did she appear behind the maple tree? She even knew that she had come out and called her Sister Li.

Just now, she just needed to think a little, and she could have escaped!

Too late!

That 'Sister Li' was a death sentence. It could kill her easily.

But she didn't expect such a young lady to be a police officer!

She even dared to enter the village alone! Wasn't she afraid that she would end up like the other policemen?

Li E was in so much pain that her facial features were distorted. Tears were already flowing out of her eyes. Giving her a quick death was better than this slow torture!

"Don't be anxious, Sister Li. This is just the beginning. Isn't it a little boring to be done all of a sudden? Look, I didn't even use the method you used to torture those girls," Ye Jian said softly. However, there was a bone-piercing chill in it. It was like a needle that pierced into Li E's heart.

As she spoke, she did not stop what she was doing. She continued twisting her leg slowly. It was so painful that Li E definitely could not calm down and think.

At the side, Fu Hui saw Li E's miserable state and felt indescribable joy.

She was looking for her just now. Heh, did she think that she would save her? Dream on!

Hearing Li E's scream, Fu Hui felt the pressure in her heart dissipating bit by bit. It was over. All the pain would end tonight.

After tonight, would this village become an empty village?

Fu Hui slowly leaned against the wall and lowered her head heavily. Water droplets dripped down from her eyes. She was crying. She was crying for this village and her home.

However, she didn't regret it. If she had not spoken, more families would be hurt and experience the sorrow of separation.

The loudest scream was heard. Fu Hui raised her head in shock. She saw Li E lying on the ground with disheveled hair. Her right leg was twisted strangely... Ye Jian really broke her leg.

Fu Hui laughed. It wasn't a silent laugh. It was a hearty laugh.

Hahaha, Li E, Li E, you have such a day too! How did you break my classmate's legs? Today, you'll have a taste.

Li E, who was about to faint from the pain, couldn't hear Fu Hui's laughter anymore. She laid on the ground like a dead fish and allowed Ye Jian to tie her legs. It was too painful. It was so painful that she might as well die!

She had to accept the truth now!

Even if she didn't want to believe it, she had to accept that the girl who abducted her was a police officer.

What a joke. She always thought that she had succeeded in tricking her. However, in fact, she must have been happy that she jumped into her trap.

Li E didn't struggle anymore. It was too painful, so painful that she didn't have the strength to struggle anymore. When her hands and legs were tied up, Li E knew that she had lost because of her carelessness.

She lost completely.. If she didn't escape tonight, she would lose her life.

Chapter 1514: How Arrogant

No, she couldn't lose. If she lost, there would be nothing left!

She must think of a way to escape. There must be a way to escape. Li E, who was in so much pain that her facial features were distorted, started calculating in her heart. She wanted to leave. In order to leave, she had to bear the pain!

"Stay at home and turn off the lights. Don't let anyone in." Ye Jian finished her work and didn't even look at Li E. She reminded Fu Hui in a low voice, "Remember to pay attention. Don't let anyone in, and don't go near your parents."

When she caught her parents just now, she obviously couldn't bear to do it.

This was a normal emotion. Her parents were caught right in front of her. She would feel emotional.

Fu Hui wiped her tears and didn't look at Li E. She nodded and replied seriously, "Don't worry. I will guard the house. You must be careful. Don't get bitten by a dog."

Although her hands and feet were tied and she couldn't speak, Li E, who could hear everything, understood who the spy that Chen Jiafu suspected was.

Unexpectedly, it was the Fu Hui that they never suspected. She was an introverted and quiet person who didn't have much presence in the village.

She was too confident and careless.

However, now was not the time to settle scores! She needed to escape first and then find this little b*tch to settle scores!

She thought that she treated her family well, but she was betrayed!

The resentment in her heart was hard to swallow!

Once Ye Jian left, she would have to discuss with the little bitch and convince her to let her go.

Also, this little b*tch was in the room just now but didn't come over to help her. Good, good, good! Wait! When she takes off her shackles, she will beat that little b*tch!

Li E glared at Fu Hui furiously. Little b*tch! She should have cut off her tongue when she came back from school!

"Li E, you brought about your own destruction. Don't hate other people here. If you want to blame someone, you can only blame yourself," Fu Hui said. The hatred in her eyes was no less than the other party. Even her voice was filled with intense hatred. "In order to fill your own greed, you sacrificed my entire family. Li E, do you think I don't hate you? I want to thank you for taking a leave of absence from school for me. If not, I would still be kept in the dark!"

When she spoke, her voice was filled with sharp hatred. Li E couldn't help but tremble.

Will this little bitch kill me?

"My classmate is a girl who likes to talk, laugh, and dance. After she was coaxed out by you, she never came back. Everyone thought that you sponsored her to go to school. Actually, actually...!" Fu Hui's emotions were fluctuating greatly. When she walked in front of Li E, the light in her eyes was like a knife. It was almost enough to kill the other party. "Actually, you crippled her legs and locked her in the basement! You even told the people around you that they can treat her as a dog to vent when they are in a bad mood."

"Li E, you're really amazing. You can even raise people like dogs! If possible, I really want to raise you like a dog too!" Fu Hui used all her strength to talk.

Ye Jian was about to leave when she heard this. She raised her head abruptly and glared at Li E.

Li E, how arrogant of you!

The information that the Guilin police investigated didn't mention this matter!

Li E's shoulders trembled when she heard that. She knew everything!

Would she be able to escape with Fu Hui here? That didn't seem possible.

Chapter 1515: Who Are They?

At 36, Li E, who always dressed fashionably, seemed to have aged ten years. Her face was ashen.

Realizing that she had no hope of escaping, Li E raised her head and stared at Fu Hui. She muttered, "Kill me if you have the guts! Kill me!"

If you kill me, none of you will be able to escape!

"The justice of the world is long. The law will punish people like you. Why do you need us to do anything? Ha, I'm afraid of dirtying my hands." Ye Jian glanced at her coldly and said, "Ignore her. Calm your emotions. Think about what you thought at that time. Stay firm, and don't be influenced by your emotions."

She was worried that Fu Hui would be too agitated and make a mistake at the crucial moment. She might accidentally break the law.

Fu Hui, who was shouting in pain, wiped her tears. She was panting slightly as she nodded heavily, indicating that she understood and wouldn't do anything to harm her.

Her nod made Ye Jian smile. This girl was very resilient and principled. As long as she agreed, she would not disappoint anyone.

She glanced at Li E with a faint smile. Her gaze was clear, as if she had seen through her thoughts.

She wanted to drag a few people down with her before she died. Tsk, she was really delusional.

Ye Jian led Li E to the Fu family's house. Xia Jinyuan and the other two infiltrated the village. They needed to control the surrounding villagers and tear a hole so that the Guilin police could enter the village.

At the village entrance, Pigeon and T6 reached the house built by the Chen brothers. They needed to get rid of the four wolfhounds.

The entire process was very short. When Ye Jian finished dealing with Li E and came out, the barking in the village gradually subsided. The flashlights that flickered from time to time were extinguished too. The village became quiet again.

"Drag them away." Someone bent over and whispered. At the same time, he was holding a villager who had been knocked out. "Leave everything to the police. We won't interfere."

It was Xia Jinyuan's voice.

White Crane nodded. Like a ferocious beast, he lifted up a villager in his hand and briskly walked past the weed-filled fields. He brought his men and quickly handed them to the Guilin police.

The Guilin police had already surrounded the entire village. They were just waiting for the criminal, Chen Jiafu, to be caught. Then, they would immediately break open the door and arrest the villagers from all the families.

Ye Jian, who had a clear goal, arrived at the hundred-year-old maple tree. At this moment, the village was so quiet that it made people panic. Some villagers were alarmed by the dogs and pulled their lights. They came out to take a look and only returned to their rooms after finding nothing amiss.

The bright lights were extinguished instantly. The sounds of fighting could be heard in the darkness. Another villager was restrained. They were all villagers from the surrounding single households and not from the other families.

K7 had already reached the house of the villager who installed the phone. He silently cut the phone line. This was a piece of cake for him.

“Ye Jian has arrived at the old maple tree. K7, meet up with her.” Xia Jinyuan was the commander of the Snow Region Brigade. His low voice came from the dark like a sword that was unsheathed.

K7 replied briefly and immediately disappeared into the dark night.

The Guilin police had been holding their breath as they waited for the news from the military. At the same time, they kept lifting up the villagers who had been knocked out. After carrying more than ten of them back, a policeman asked the captain beside him with sweat on his forehead, “Captain, who did the military send to help us?”

Chapter 1516: A Hero's Soul Returns to His Home

It was too scary. There was no sound at all.

“I'm not sure. I heard that he's a soldier from the Special Forces.” The captain, who was holding a Type 92 pistol, stared intently at the area in front of him. He couldn't see anything clearly. He was waiting for the police officers to bring back the skeletons of his brothers.

The Special Forces soldiers placed their brothers' bones in their backpacks and met with another team. Then, they handed over their backpacks and the police officers brought their brothers back.

Their souls will return to their hometowns.

In a cave about five kilometers away from the village, a few figures stood up from time to time and walked around. They were four western faces. All of them were from a newspaper agency in a western country.

“God, I don't want to wait anymore! It's too cold here. I've had enough!” A woman said impatiently.

“No, I don't want to wait anymore!”

She took her backpack and turned on the flashlight she used to walk at night. She insisted on going over.

A western man with a beard blocked her way and reprimanded her unhappily, "Mary, calm down! You're a reporter. Don't you have any patience?"

"No, I'm very patient. But, look, look. Oh, I can't wait anymore. We've been waiting for three days! Damn it. If I knew this would happen, I would have stayed in the capital city instead of following you to the mountains. There's no one here!" The female reporter, Mary, didn't get any valuable news. She had lost her patience and didn't want to wait any longer.

Damn it, why did they say that the military and the police would kill civilians with guns? Oh my god, why did she believe it so naively?

This was a country that strictly managed guns and ammunition. It was a country that would never allow soldiers or police officers to use guns to kill civilians! Why did she believe it?

Mary was quite stubborn. When she said that she wanted to leave, the other three couldn't stop her. They crawled out of the cave and stepped on the withered grass. Then, they rushed to the foot of the mountain alone.

She wasn't afraid of getting lost or encountering ferocious beasts. She walked in the direction she came from three days ago. Mary walked very quickly and had no intention of stopping.

"Damn it! Calling her up is definitely a wrong decision!" A man picked up his backpack. "We can only catch up with her. There hasn't been any news for three days, so I don't think there will be any."

They couldn't hear any gunshots from five kilometers away, but they could definitely hear them from the foot of the mountain.

"Bang, bang, bang!" Three gunshots were heard consecutively. The four reporters got excited. Mary exclaimed, "Oh my god, I think I heard gunshots!"

1

It was indeed gunshots. Chen Jiafu's brother fired randomly while fleeing towards the mountain.

The village was in chaos.

Large batches of police officers entered the village. Every villager had their hands tied behind their backs and was detained by the police.

The villagers who were caught started cursing. The younger and stronger ones were still fighting with the police and trying to escape. However, it was useless. Even when they ran to the door, they were blocked by the police outside.

"Handcuffs on, behave yourself!"

"Take them all away! Destroy all the publicity materials!"

Chapter 1517: Full Search

Although the village was in chaos, it was just a commotion.

However, when Chen Jiafu's two brothers ran up the mountain, they fired gunshots continuously. The villagers in the small mountain village were shocked. A few middle-aged men just happened to climb up the wall. The sound of the gunshot caused them to fall down.

If they had never heard gunshots before, they wouldn't be so afraid. They were afraid because they had heard and witnessed the power of bullets.

Before they could stabilize themselves, they were pressed to the ground by the police. The police shouted, "Don't move!" Their voices were intimidating and loud like thunder. The villagers didn't dare to move anymore and were caught obediently.

"I'm not running anymore. I'm not running anymore. I'll come down, I'll come down." A villager who had escaped to the roof heard the gunshots. His knees were weak, and he wasn't as bold and energetic as before. He sat on the green tiles and didn't dare to move for a moment. When the police climbed up, he didn't resist and obediently surrendered.

Gunshots! Those were gunshots!

The police had brought guns with them. Why would they run? No matter how fast they ran, could they be faster than bullets? One of the policemen who was killed ran so fast but, in the end, he was still hit by bullets.

Thinking back to the fate of being hit by the bullet, the villagers who wanted to escape became obedient.

"All of you are to be detained. Hand and leg are handcuffed." The commander-in-chief was in charge of the entire operation. The entire small mountain village was brightly lit. There were huge searchlights shining down the mountain like small suns, illuminating the entire mountain village as though it was daytime.

The policemen escorting them didn't have rifles with them. They only had pistols for self-defense. There were only two real bullets. They were all empty-handed.

They would only raise their guns and shoot if they met a villager who was extremely evil and dangerous.

"They really came. There are three men and one woman. There are four lines of people in total. One look and you can tell that they are up to no good." T6 pressed his earpiece and whispered, "They are all equipped with cameras. Should we destroy them?"

There was no reply from the earpiece for a long time. T6 smiled and didn't say anything else. He would destroy it.

Pigeon and White Crane surrounded Chen Jiafu while Xia Jinyuan, K7, and Ye Jian purposely forced Chen Jiafu's brothers to run into the mountains. The assembly hall ordered them to let the Chen brothers off. Since that was the case, they needed to think of a way to let them think that they really escaped.

“There are still two pistols missing. Everyone, please do your best to search for them!” The voice of the police officer was deep. He shouted angrily, “Find them even if you have to dig three feet into the ground!”

The two missing pistols were the guns used to kill the dead police officers. They were all real bullets. Once they entered society, the consequences would be unimaginable.

Ye Jian took out her dagger and dug out a bullet that was shot into the tree. The bullet was still hot. Besides the smell of gunpowder, there was also the smell of burnt trees.

She placed the bullet she dug out from the tree into her pocket and said in a low voice, “We found out that the suspect fired a Type 84 bullet. It matches the bullets of the missing pistol. The two suspects each have a Type 84 pistol.”

“You can leave it, but you have to keep the gun,” said Xia Jinyuan, who was chasing them from the side. “It’s confirmed that the dead policemen had two Type 84 pistols that have not been found.”

Chapter 1518: Inescapable Net

The Great Hall purposely let them go. It was impossible for them to bring guns into society. Moreover, this was a gun that killed policemen!

Also, bullets were blind. If they went out and wanted to take revenge, many innocent people would be hurt.

They had to get the guns back. Even if they couldn’t, they had to destroy it.

It wasn’t difficult to make them think that they had really escaped and at the same time, think of a way to confiscate their guns.

“K7, force them to the direction of the fourth searchlight. There’s a piece of grass 200 meters away from the fourth. Ye Jian will ambush them and shoot their weapons.” Xia Jinyuan, who was wearing an army combat uniform, caught up with Ye Jian and jumped to the front.

He had already lured the two brothers of the Chen family up the mountain. Now, it was time to disarm them.

Xia Jinyuan charged in front and covered the left and right sides. K7 followed behind and was in charge of guarding and defending.

The three positions alternated. They were fast but not in a disarray. Based on the trajectory of the bullet and the movement in front, they were clinging close to the two Chen brothers.

K7, who was in charge of vigilance and defense, moved from the back to the front. After making a hand signal, Ye Jian passed the two of them and rushed towards the direction of the searchlight.

Just as Ye Jian walked past him, she heard a gunshot coming from behind her. K7 wanted to cover the Chen brothers.

The bullet seemed to have brushed past Ye Jian's shoulder. The tip of the bullet left a faint smell of gunpowder in the air. Ye Jian didn't stop. She didn't even dodge. The bullet didn't have eyes, but the person holding the gun was her comrade. Hence, she didn't have to worry about the bullet hitting her.

T6's voice was heard at this moment. He said that he was going to cause some destruction. Ye Jian, who was moving forward, avoided a spotlight and swept past it. Her figure was like a night bird as she jumped behind the leaves.

Xia Jinyuan fired a shot at his right hand. He heard the leaves in front of him rustling. He said to Ye Jian, "Ye Jian, move quickly."

He and K7 attacked from both sides, forcing the Chen brothers to run towards the direction of the searchlight. There was no other option.

Chen Jiakang tried to escape to the east twice but was forced back by bullets. He whispered to his brother, Chen Jiaxing, who had been quiet all this while, "Brother, you can't run out of the mountain. Run into the mountain first. The mountain is huge. It'll be not easy to find us."

Compared to Chen Jiaxing, Chen Jiakang was much bolder and more meticulous.

Although he was holding a gun in his hand, he didn't release it blindly. He was afraid that if he really needed a bullet to rush out, it wouldn't work.

"Let me catch my breath. I sprained my ankle." Chen Jiaxing was the second son of the Chen family. In his forties, his stamina was naturally not as good as Chen Jiakang, who was ranked fourth. He squatted behind a bush and panted heavily.

This matter had blown up. There were so many police officers appearing at once. He was flustered.

However, Chen Jiakang was anxious. "Second Brother, if you continue resting, you will be like Third Brother, waiting to be caught. Damn it, there seem to be a few policemen following behind. We need to hurry and run."

"The mountain is our world. As long as we enter the mountain, they can't do anything to us!"

The two of them were still lying there motionlessly. The bullet flew directly over their heads. The bullet wind brushed past several leaves and fell. It shocked Chen Jiaxing so much that he hugged the tree and hid behind.

"Why are you still hiding? Hurry up and run!" No matter how bold Chen Jiakang was, he didn't dare to fight head-on with the bullets.. He pulled Chen Jiaxing into the forest.

Chapter 1519: Hand in Hand

The Chen brothers had always had a good relationship. When they ran away, they didn't leave anyone behind, besides Chen Jiafu since they didn't have a chance to pull him along.

K7 and Xia Jinyuan fired their guns one after another, forcing the Chen brothers to run in the direction of the fourth searchlight. They didn't stop until their field of vision was wide open and the searchlight shone on them for about five seconds.

In order not to arouse the suspicion of the two brothers, the searchlight was temporarily extinguished. It would only be turned on when they entered the range.

"Prepare for shooting." Xia Jinyuan raised his phone and said coldly through the earpiece, "One, two, three... K7, fire!"

In order to force the Chen brothers to raise their guns and resist, the moment they raised their guns, the searchlights suddenly swept over. Ye Jian, who was already prepared, aimed at one of them and fired quickly.

Bang! Bang! Two shots were fired consecutively. Ye Jian and Xia Jinyuan fired at the same time.

The pistols held by the two brothers were sent flying by the bullets. The bullets collided with the barrels and sparks flew everywhere.

"Get down, Second Brother!" Chen Jiakang shouted. He reacted the fastest. As soon as the pistol left his hand, he fell into the grass. He even knew how to roll around quickly to avoid being aimed at by the bullet.

Chen Jiaxing didn't react as fast as him. He only knew that he was going to collapse after shouting.

The two of them stuck close to the ground and wished that they could bury their bodies in it. At night, the cold wind blew past the treetops and made a rustling sound. The wind carried a faint smell of gunpowder as it blew past their noses and disappeared.

Time seemed to pass very slowly. Chen Jiakang didn't know how long he had been lying on the ground. When he moved his legs, it felt like a few hours had passed.

"Old Fourth, there seems to be... no movement." Chen Jiaxing's trembling voice came from the bushes. "Did they all leave?"

Chen Jiakang didn't respond. It was better to lie on the ground for a longer time after a bullet was fired so that the other party would think that he had run far away.

Chen Jiakang moved his numb legs and secretly raised his head. He looked around vigilantly... It seemed that everyone had left.

"Second Brother, let's go!" There was no time to lose. Chen Jiakang immediately stood up and ran into the mountains.

The two figures disappeared from his sight. Xia Jinyuan hugged the tree and slipped down the tree. "T6, it's time for you to move out. They are already running into the mountain. Think of a way to lure the three men and one woman to the Chen brothers."

“Okay, give me half an hour,” T6 replied. He followed behind the four western reporters and started moving alone for half an hour. He was the only one who knew how he moved. Xia Jinyuan and the rest didn’t ask him about it and didn’t say that they wanted to go over and support him.

After carrying out missions with them several times, Ye Jian had figured out how they cooperated with each other.

If they needed to carry out a mission together, they would definitely make arrangements in advance. If they were acting alone, they would think of the dangers beforehand and have a plan.

Ye Jian picked up the pistol from the grass and passed it to Xia Jinyuan. “It’s useless. You can use it now. With these two guns, find all the missing pistols.”

The Guilin police didn’t find any foreign weapons in the small mountain village. All they had were the guns used by the police who were killed.

Xia Jinyuan opened the other pistol and looked at it. There were still 18 bullets out of the 20 bullets. This belonged to Chen Jiakang.. The other pistol only had four bullets.

Chapter 1520: Terrifying Justice

“Chen Jiakang is smarter than Chen Jiaxing,” said Ye Jian calmly. There was a layer of gloominess in her lowered eyes. The murderer of the police... was actually able to escape overseas. It was benevolent of them to live for a few more days.

Xia Jinyuan placed the magazine into the magazine pocket of his combat vest. He looked at Ye Jian and said, “The Great Hall will arrange everything. We don’t have to worry. Someone will take care of these two criminals. Escape is only temporary for them!”

Once it involved politics, the soldiers on the mission had no right to ask.

Ye Jian nodded slightly to show that she understood.

“Let’s go down the mountain and report to the police.” Xia Jinyuan took off his helmet and looked into the depths of the mountain. They were waiting for news from T6.

K7 walked out of the forest with an assault rifle on his back. He smiled at Ye Jian before asking Xia Jinyuan, “Can we leave now? I don’t want to stay here overnight.”

Towards a place full of crimes, K7 couldn’t help but feel repulsed.

“We will leave directly. Ye Jian’s holiday is coming soon.” Little Fox only had two days of leave tomorrow. School had just started, so she should take less time off. Although the first and second-year students emphasized on physical training, their professional knowledge couldn’t be neglected.

Ye Jian naturally wanted to leave tonight. Since her mission was completed, she must return to school on time.

However, she still needed to look for Fu Hui. The young lady helped her to arrest her parents personally. Even if she was mentally prepared, there would always be a hurdle in her heart that she couldn't cross from her emotional, moral, and filial piety.

When the three of them came down from the mountain, all the villagers in the small mountain village were controlled.

Fu Hui brought two policemen out of the underground kiln that was used to store sweet potatoes. She stood quietly in the darkness and watched as her parents staggered out of the underground kiln. She bit her lower lip and tilted her head.

She didn't want to see it and couldn't bear to see it.

Fu Hui's parents didn't realize that their daughter was standing at the side. When they saw the police in uniform, the couple's first reaction wasn't to think that they couldn't protect themselves anymore. Instead, they looked around for the 'Grand Commissioner' Chen Jiafu who could make their entire family wealthy without any illnesses or disasters.

"Hurry up and leave!" The policemen didn't have a good attitude towards the villagers who killed their brothers. They just pushed them away.

Fu Hui wiped away the tears that were about to fall. She only left with her parents after they walked past her.

Don't listen to what they say. It will only soften your heart. If you make a mistake or break the law, there will never be a good outcome. The parents will probably spend the rest of their lives in prison. As their daughter, she will help her parents to repay the debts of those families that lost their children.

One of the families had an only daughter.

Chen Jiafu was taken away alone. He didn't meet the villagers and was taken away immediately after he was caught.

Li E, who was walking on one leg, didn't receive any special treatment. Two male police officers grabbed her shoulders and dragged her away.

Fu Hui's parents saw them when they came out. The couple was shocked. Fu Hui's mother shouted, "How can you treat Sister Li like this? You are evil spirits. You will get your retribution.. You deserve to be killed. You deserve to be killed!"
