

**Chapter 581: Don't Worry, Sleep.**

She could make use of this. If she placed the simple-minded Luo Ran and the scheming Ye Ying together... Sigh, she promised the principal that she wouldn't create trouble for Ye Jian but she couldn't promise that other people wouldn't do it.

This person standing in front of her was someone who wanted to chase her sister out of the school.

Ye Ying didn't know Yao Jing's evil intentions. She remembered seeing Ye Jian enjoying her time with An Jiaxin and her friends. As for herself... she kept relenting to Yao Jing and even took the risk of giving her answers during exams. In the end, she gained nothing.

Dandan and Yue Mei were the same too. They came from wealthy families so none of them treated her as a friend. She had to agree with something An Jiaxin said. Friends don't give up on each other. They were not like Yao Jing and her. Whenever something happened, the first thing they would think about was whether they would be implicated.

Yao Jing was scheming. She didn't dare to get too close to her. She mustn't accept everything Yao Jing said too. She would wait and see what Yao Jing wanted Luo Ran to do.

After chatting for some time, the students fell asleep under the shades of the trees. Yao Jing noticed that Ye Ying didn't continue the conversation so she changed the topic. "I'll be going back to class." Yao Jing yawned. "I'll come and look for you at night. I'm so tired. Get some rest too. Although you're just delivering beverages, it's quite tiring too."

As they spoke, they noticed Ye Jian who was sitting beside An Jiaxin. She looked as though she had never left.

Yao Jing stared daggers at Ye Jian. She was almost shot but this lady was just sitting and chatting with her friends as if nothing happened. Ye Jian, I won't let you off so easily!

"Where did you go just now? Liao Jian and Luo Ran came to find us just now. They must be up to no good. When Yao Jing came out from the forest just now, she almost killed you with her glare." An Jiaxin was more sensitive than last time. She knew how to observe people secretly now. When she had some time alone with Ye Jian, she whispered, "Don't run about these two days. Liao Jian and Xie Sifeng are in No.16 Middle School. Our school is co-training with them. If I didn't see Liao Jian with Ye Ying that day, I won't know that they were both in No.16 Middle School."

So they were from No.16 Middle School and not the Provincial No.1 Middle School.

Ye Jian closed her eyes. She was a little tired. "Don't worry. If they really want to create trouble in the military unit, they'll be the unlucky ones. Go back to your class. I want to sleep. I'm really tired."

“Those people have gathered and you still can sleep?” An Jiabin pouted unhappily. She followed Ye Jian to the shade and laid down. The moment her back touched the ground, she jumped. “It’s scorching! How can you sleep? Let’s go back to our dormitory. It’s a little far but we can just run back later.”

Ye Jian laid peacefully on the ground. An Jiabin grabbed her shoulders and shook them. She exclaimed, “Are you really going to sleep here? It’s scorching!”

“All the good locations are taken. We’re lucky to have some shade.” Ye Jian yawned. She hadn’t had a good rest recently. After coming back to her country and the familiar military unit, she felt relaxed. Her good friend was beside her too. All she wanted to do now was sleep.

## **Chapter 582: What Are You**

Her breathing got longer. Ye Jian really fell asleep.

“Is she really sleeping?” An Jiabin stuck out her tongue. She tried lying down again but after one minute, she sat up. She really couldn’t sleep here. Maybe she should borrow someone’s shoulder like her other classmates.

There were around 60 students in the class. Only Ye Jian and some male students slept on the scorching ground. The other students either leaned against each other or leaned against the trees.

The dormitory was quite far. They needed to walk past two big fields before reaching the dormitory. No one wanted to walk under the hot sun.

“How can you be so calm? They’ve gathered together but you can still sleep. Liao Jian, Xie Sifeng, and Ye Ying. All your enemies in Junior High are here. There’s even Yao Jing and Luo Ran now. Why do people hate you so easily?” An Jiabin poked Ye Jian’s face. She couldn’t stand the heat from the ground so she found somewhere else to sleep.

Before An Jiabin left, Ye Jian opened her eyes slowly. The shadow of the tree landed in her eyes. Her gaze was cold.

Why? In her past life, she wanted to ask Ye Ying why she kept targeting her too. Not only was she chased out of school, but she also became someone without an identity.

She gave in to Ye Ying but still ended up in a bad state. She was unwilling to accept it.

When she got the chance to live again, she stopped asking why. She knew that she must become stronger if she didn’t want to be controlled by others. She mustn’t be bullied by Ye Ying again! Once she made the first right move, her future was set.

She knew why Ye Ying targeted her this lifetime. There was no need to point it out. She was jealous of her.

Ye Ying didn’t like it when Ye Jian learned how to retaliate. She didn’t like it when Ye Jian, whose results were always lower than hers, became one of the top students in the class. She was envious when Ye Jian slowly became more outstanding than her.

Think about it. An older sister who was always worse than you in all aspects of life suddenly became better than you. Ye Ying was a narrow-minded person. She wouldn't be able to accept this change.

Thus, she thought of various ways to step on Ye Jian. However, she wanted to maintain her good image so she would make use of other people like Xie Sifeng, Liao Jian, and Luo Ran.

As for Yao Jing, she wasn't someone Ye Ying could order around. Yao Jing would probably be the one ordering Ye Ying to do things.

Ye Jian really wanted to sleep but because of An Jiaxin's words, her tiredness disappeared. She started to recall what happened between Yao Jing and her. Slowly, she realized where their grudge started.

"Ye Jian, a girl from No.16 Middle School is looking for you." A male student came to look for Ye Jian and noticed that she was not asleep. He whispered, "She said that she's your good friend in Junior High. She's waiting at the front."

The area where they were resting at was a field outside the forest. After passing through the forest, it would be the restricted area.

The male student pointed towards the field. Ye Jian looked over. A lady was standing under a tree. She was pacing around impatiently.

### **Chapter 583: A Series Of Schemes**

Wasn't that Xie Sifeng? She looked much taller now. Ye Jian wondered if her personality got better too.

The male student yawned and left. However, Ye Jian didn't move. Her relationship with Xie Sifeng wasn't good. She wouldn't just go and meet her because she called her.

Ye Jian looked around her. An Jiaxin was leaning against a tree. Her body kept falling sideways as she slept. Ye Jian smiled and walked over. She lent her back to An Jiaxin. After a few minutes, Ye Jian fell asleep too.

Xie Sifeng stood under the tree for ten minutes but no one came. She got impatient. She chewed her bubblegum furiously. Soon, she gave up waiting. She glared in the direction of the forest before jogging there.

"Liao Jian, did you see wrong? Ye Jian didn't come!" After one year, Xie Sifeng had learned all the bad habits she could. Her studies never improved but she got tattoos, dyed her hair, skipped class, and went to internet cafes.

No.16 Middle School was filled with problematic students whose parents wanted them to get a Senior High Diploma. Thus, this high school was known for smoking, fighting, drinking, and making trouble.

However, the entrance requirements for this senior high were the lowest in the province so there were still many students inside. For students who had very normal results and came from a slightly wealthy family, this was the only school they could go to.

Liao Jian was in the same situation. He didn't want to go to the city but couldn't enter any good Senior High too. Thus, he came to No.16 Middle School. The two of them were in the same class. They got closer and skipped classes together.

"I'm getting roasted by the sun but Ye Jian is nowhere in sight." Since they were close, Xie Sifeng didn't hold back on her words. She glanced at another male student who was from the Provincial No.1 Middle School. "You're from Provincial No.1 Middle School so why did you ask me to meet Ye Jian? How embarrassing!"

The male student was Luo Ran. He could tell that Xie Sifeng was a gangster like him. When she spoke to him rudely, he got furious and glared back at her. "Speak to me politely. Even Liao Jian doesn't dare to shout at me. Don't think that I won't dare to hit you just because you're a girl!"

Liao Jian quickly mediated the dispute. "Brother Luo, don't mind her. She's a straightforward person. If you ask her to do things, she'll definitely complete it for you." He nudged Xie Sifeng who looked unhappy and said, "He is the Brother Luo who I always mentioned. He is an extremely good person. He is loyal and benevolent. If you need anything, you can find him. He'll definitely be able to help."

Luo Ran felt happy from all the praises. Xie Sifeng changed her attitude too.

"Luo Ran, you always acted fiercely but now that Ye Jian is here, why didn't you do anything to her?" Yao Jing finally found Luo Ran after searching a few times. When she saw Xie Sifeng, she pretended to be enlightened. She teased him, "No wonder you didn't look for Yingying. Looks like you have found yourself a beautiful lady."

"Are you from No.16 Middle School? Looks like No.16 Middle School is a good place. There are all kinds of beauties there."

Luo Ran waved his hand irritably. "What are you saying? We're in a discussion. We called Ye Jian but she didn't come."

"How about this, Brother Luo? Let me try again tonight. I won't go and find her directly. I'll look for Yingying and bring her out along the way." Once Xie Sifeng knew that Luo Ran was Liao Jian's good friend, she started being nice towards him. She hoped that she could turn Luo Ran into her Brother Luo too.

#### **Chapter 584: Evil Person**

Yao Jing blinked. As it turned out, Xie Sifeng was in the same class as Ye Ying last time.

Within half an hour, Yao Jing got ahold of the entire situation. She knew that this was someone who hated Ye Jian too. Many thoughts ran through her mind. She told them about how Ye Ying and her almost got shot in the forest.

Xie Sifeng exploded in anger. "Yingying said that it's alright? Is she stupid? She should return Ye Jian the favor and let her know that we're not easy to bully!"

"How can we retaliate?" Yao Jing sighed. She said helplessly, "Yingying is a kind person. I don't want to make matters complicated too. Since we're fine, let's forget about it."

“No, you can’t do this. Last time, Yingying was almost forced out of school because of Ye Jian. This time, you were almost shot. You can’t forgive her just like this. We must let her have a taste of the gun too!” Xie Sifeng looked like a smart person but the moment she spoke, she revealed her intelligence.

Yao Jing had control over her thoughts. In the end, Yao Jing was the one persuading her. “Forget it. We’re in the military unit now. We can’t create trouble. As long as we don’t go into the forest, we’ll be fine.”

Liao Jian kept winking at Xie Sifeng but she didn’t notice. Instead, she got even more agitated and said to Luo Ran, “Brother Luo, we must take care of this matter. With Ye Jian around, Yingying wouldn’t be able to feel at ease.”

“If I don’t take care of her, I will change my surname!” Luo Ran’s eyes were burning with anger.

Yao Jing smiled secretly. These people seemed to have lost their souls to Ye Ying. How could they be so stupid?

“Don’t mess around! Nothing happened to Yingying and I. There’s no need to get into trouble because of us. Nevermind, I’m not talking to you anymore. I regret what I said.” Yao Jing felt that her motive was reached so she pretended to feel guilty and rushed off. Before leaving, she reminded Luo Ran to not go into the forest.

The sun shone brightly. The entire earth appeared white under its glaring light. It was 1.30 pm when Ye Jian opened her eyes again. She had slept for one hour.

She wanted to stretch but she saw a familiar face looking down at her.

“You look like an African pretty boy.” Ye Jian saw that An Jiixin was leaning on the shoulder of another girl and sleeping soundly. She slowly got up and walked towards Yang Heng. “It has only been four days and you’re already so tan. After the seven days of military training, your classmates might not recognize you anymore.”

Yang Heng raised her eyebrow. “Why am I an African pretty boy?”

“You’re whiter than a normal African.” Ye Jian smiled as she explained. When she looked at Yang Heng’s handsome features, something flashed passed her mind.

That day when Yao Jing came to find her, the first thing she mentioned was Yang Heng’s name.

Once she realized this, Ye Jian followed the clue and arrived at a bold conclusion.

Yao Jing was able to neglect her image because of Yang Heng. Did this mean that Yao Jing liked Yang Heng?

Ye Jian smiled coldly. If this was the case, things would get interesting. There was a rumor that Yang Heng liked Ye Ying. Even Yao Jing joked that Yang Heng’s background was good enough for Ye Ying.

## **Chapter 585: The Apology Of A Famous Person**

Ye Jian felt enlightened. She looked at Yang Heng with interest.

She didn't interact with Yang Heng much so she didn't know him well. However, she was able to tell what his personality was like from his face. In her past life, she was forced to learn to read people to tell if this person was good or bad. This was to protect herself. Hence, it was easy for her to read the face of a young man who has not learned how to hide his emotions.

He was a bad but not a very bad person. He was in the rebellious stage now. He had his bottom line so he knew what he can do and what he mustn't.

His results had always been in the top five of his year so he could do what he wanted as long as he didn't go overboard. In school, he was a good student. The teachers didn't need to care much about him. As for what he did outside, sorry, that is the responsibility of his parents.

In school, the teachers took care of the students. When they went back home, they were their parent's responsibilities.

Yang Heng touched his face when he heard Ye Jian's explanation. He laughed heartily, "Am I really very tan? It looks like I need to put on sunscreen."

"It's too late now." It was almost 2 pm. The students were starting to wake up. Ye Jian pointed to an empty spot in front. "Do you have something to tell me? Let's go over there. There are lesser people."

Yang Heng was very popular in school. There might be rumors if people saw them together.

Yang Heng indeed had something to tell Ye Jian. He nodded and walked away first. His legs were long so his walking speed was twice as fast as Ye Jian. Within a few seconds, they reached the place that Ye Jian pointed at.

Ye Jian thanked Yang Heng for his thoughtfulness. He walked quickly to avoid arousing any suspicion.

The sprinkles that watered the plants on the field turned on. The students were able to wash their faces using this water and get rid of some heat.

Yang Heng washed his hair before finding Ye Jian again. There was a faint smell of shampoo on him.

He looked at Ye Jian with his handsome eyes. "I'm sorry." Those were his first two words. He was apologizing for Yao Jing as well as himself.

"I lived in the same place as Yao Jing ever since we were young. She was always scheming. As she grew older, she got more scheming. However, she was polite to people and was never stingy. Hence, she has many friends."

No wonder they seemed so familiar with each other when they were talking at the basketball court. They were childhood friends.

Ye Jian didn't speak. She just smiled and waited patiently for Yang Heng to continue.

“She appears loyal to her friends but she knows how to protect herself. You might see her walking around with many friends but she would never confide in any of them.”

Yang Heng didn't plan to hide anything. She was someone who was able to find a suspect within four hours. Her drawing of the suspect was 90% similar to the actual person. If someone wanted to make friends with this smart and meticulous lady, they had to be blatant.

Everything Yang Heng said had been thought through thrice. He knew that Yao Jing was targeting Ye Jian so he kept looking for a chance to speak to her.

### **Chapter 586: You Have To Be Careful Of Her**

Yang Heng turned serious. His voice became low too. “Ye Ying seemed close to her but from my understanding of Yao Jing, things won't be so simple. Something is lacking between them. However, I can't say that their relationship is bad too. Ye Ying is the closest person to Yao Jing after Wang Dandan and Yue Mei.”

He wasn't used to speaking badly about people. He just took it that he was telling Ye Jian his analysis of the situation. She was a smart person. She should know what he meant.

“You mean I should be careful of Yao Jing, right?” Ye Jian looked up slightly. Her expression was calm. She gave a gentle and elegant smile. “Actually, it doesn't matter if I'm careful. She just somehow hates me.”

“I'm not a weak person too. Luo Ran threw that basketball on purpose. I just took the chance to give him a warning. As for Yao Jing, she scolded my mother. Do you think I can take precautions against such things?”

“I've never provoked her but she came to look for me. I believe you know my relationship with Ye Ying. We both knew what is hiding underneath their relationship.”

Everything she said was true. Yang Heng pondered for a moment. He sighed. “Yao Jing is quite irritating sometimes. Why not I persuade her to stop creating trouble?”

“Please don't!” Ye Jian gave a meaningful smile. She said calmly, “Nothing will change. She will just become angrier.”

“Yao Jing is an interesting person. You know that she's not easy to deal with but she provoked me. This matter won't end so easily. There's no need for you to interfere in this matter. Other people might think that I'm using you to punish Yao Jing.”

“Also, everyone says that you like Ye Ying. Why do I feel that... you're purposely making people think that way?”

Yang Heng was surprised. He had this intention but he didn't expect Ye Jian to be so direct. She was different from the other ladies he met. Well, no one was so straightforward.

“Yes, I did do it on purpose. I can’t stand it when people keep asking me who I like. Yao Jing had been asking the same question ever since the eighth grade. That day, she pushed Ye Ying out so I just agreed with her.”

His answer broke the unstable relationship between Yao Jing and Ye Ying. However, Yao Jing was a patient person. She didn’t reveal her thoughts but chose to observe Ye Ying and Yang Heng from the shadows.

Unfortunately... Ye Jian sighed. Unfortunately, she knew Yang Heng. She knew that he was a good person so she couldn’t use him to sow discord between Ye Ying and Yao Jing.

“You might not mean it but Yao Jing remembers it.” Ye Jian saw an instructor walking towards her class. It was time to gather. “You should go back to your class soon. Don’t interfere with our business. It’s not as simple as you think.”

### **Chapter 587: This Sort Of Military Training**

“Help me watch over Luo Ran. Now that we’re in the military unit, he has the chance to target me. Help me watch over him so that I can be prepared.”

Yang Heng frowned. He remembered that Luo Ran was very close to a student from No.16 Middle School. He whispered, “Yao Jing went to look for him just now. He’s very close to a male student called Liao Jian from No.16 Middle School. Be careful. I’ll help watch Luo Ran.”

He agreed with Ye Jian. Based on his understanding of Yao Jing, she wouldn’t stop here. It was better to be careful.

The whistle was blown. It was time to gather. Some students who weren’t fully awake ran towards the gathering location while yawning.

At 2 pm, the sun was still very glaring. Ye Ying used the slightly warm water to wash her face. After that, she started to look for the irritating Ye Jian instinctively.

She saw Ye Jian and Yang Heng talking to each other. Her eyes lit up.

The whistle got louder. Their instructors were hurrying them. Ye Ying looked at the time. What a pity! If there was enough time, she would have pulled Yao Jing over.

She would be so furious!

The chemical defense regiment was the unit preventing the spread of chemical weapons. Those soldiers who wore protective masks and spray medicines to prevent an epidemic were part of this unit.

If we went deeper, we could say that they were in charge of making sure the nuclear weapons, chemical weapons, biological weapons, and incendiary weapons were safe. They fought alongside the infantry as a professional support unit.

This unit was rarely needed last time but now, as the country’s main counter-terrorist strike force, they were starting to appear more in the public’s eye.

Ye Jian listened to the shouts from the real soldiers. It was exhilarating. She stood at attention and followed her instructor's order. She learned the basic drill move along with the other students.

After gathering, Ye Ying saluted weakly and went to the side. She stood at the side and watched her classmates train.

"She's faking it. The instructor knew that she has heart disease so he asked her to rest under the shade. She told the instructor that she can still bear with it. When she can't, she will take a rest." An Jiaxin almost rolled her eyes as she spoke. She couldn't stand Ye Ying's actions.

Ye Jian was afraid that her eyes would get sore from all the rolling. She whispered, "Forget it. Just ignore her. Don't make her hate you too."

"She can hate me if she wants. I wish that she can transfer some of her hate to me so that she won't keep irritating you. Look, she's looking at you again!"

"If you continue, you'll become the first female to get punished in the afternoon." Ye Jian noticed that their instructor was glaring at them. She reminded An Jiaxin, "You will only be given two chances. If you continue, you'll be dragged out."

An Jiaxin knew what the implications were so she kept quiet.

Ye Ying wanted to stand for ten minutes before pretending that she couldn't bear with it. However, when she saw Ye Jian, she started thinking about how she could embarrass her. Her gaze never left Ye Jian since the start.

### **Chapter 588: Many Rounds Of Schemes**

As the last student to participate in the military training, the instructors took more notice of Ye Jian. They were surprised at her posture when she came to report. Her actions were perfect. She even seemed better than some old soldiers. As they continued observing her, they could tell that this lady had a strong foundation.

"Ye Jian, fall out!" After twenty minutes, the instructor asked them to stand at ease. He called Ye Jian and said, "You'll stand in front to demonstrate."

Ye Jian walked out. The first person who couldn't control herself was Ye Ying. She looked as though she would faint from the heat at any moment. "Instructor, I noticed that her posture when she stood at ease wasn't right. It isn't as pretty as the other students."

"We have to perform our exercise later. That concerns our rank and points. If one person doesn't perform well, the entire class will be implicated."

She spoke in a slow and soft tone. She seemed genuinely concerned about the class.

The other students agreed with Ye Ying. This military training was going to be recorded in their files. Everyone wanted to get a good rank and have their instructor write nice words for them.

Some students nodded.

Ye Ying wasn't surprised. She knew that there would be people agreeing with her. That was why she opened her mouth. She continued, "We only have two and a half days left. I'm not sure if we can complete the exercises. Tomorrow, we'll be having our 'route march'. I wonder if she can catch up."

Ye Ying hoped that the instructor would train Ye Jian vigorously after hearing what she said. She wished that Ye Jian would be exposed to the sun all day!

"Why not leave the performance? You didn't come for the first four days so the teachers and instructors won't blame you. Don't drag everyone down," a lady said. This young lady never spoke to Ye Jian but Ye Jian knew that she was serious in her studies.

"That's right. Don't participate in it. Nothing good will come out of it."

"That's not a problem. Ye Jian can leave but since she came already, she's part of us. What right do you have to kick her out?"

"Ye Jian just came. She'll drag us down."

"If you're stupid, you'll implicate others no matter what. You took an entire afternoon to learn one move but are you confident that you can do it smoothly? Don't act like a boss. Ye Jian is Ye Jian. Why do you think she can't do it?"

"We are the first batch of students to undergo military training. What if, I mean what if, she can't catch up?"

"There's no such thing as what if. If Ye Jian says that she can, she can. She never lies. She will do it as well as you."

The students split into three groups. One group opposed the idea, one group agreed with the idea, and the last group decided to be the audience.

An Jiabin wanted to open her mouth again but she glanced at Ye Jian and noticed her shaking her head gently. An Jiabin decided to stay silent.

The students got more agitated as they shouted so it attracted the attention of the other classes. They were so loud that the instructor's voice couldn't be heard. He had no choice but to blow his whistle.

### **Chapter 589: Fight Solely For You**

The shrill sound of the whistle caused the instructors of the other classes to put a halt to their training. They quickly ran over to help their colleague.

The political officer ran over hurriedly too. These students could get heatstroke or sustain small injuries during training but if they started fighting under the eyes of the instructors, things would get complicated.

Ye Jian didn't expect Ye Ying's words to be so impactful.

Ye Ying was stunned too. She just wanted the instructor to teach Ye Jian a lesson and embarrassed her in front of the entire class.

She didn't think that her class would start quarreling with one another. Some of the male students looked as though they were prepared to fight.

A thought came to her mind. Ye Ying walked over elegantly. "Look at this? Do you think you can fight with me?" She listened to the shouts between the students and smiled. "Do you like my welcome ceremony?"

"I'm sure you don't like it. However, I like it. What a pity. You'll be scolded terribly later. Do you think you will be accepted by your classmates so easily?" Ye Ying was arrogant. "On the first day, our principal and the leaders from the provincial government emphasized the importance of military training. If we don't take it seriously, there will be serious consequences."

"Do you know how many of them want to enter university? Do you know how many of them are afraid that they will make a mistake and affect their chance of entering university? Do you know..."

Ye Jian glanced at Ye Ying. She became even more arrogant when she ignored her. Ye Jian stared at Ye Ying who was half a head shorter.

She raised her eyebrows and smiled calmly. She said, "You worry about many things. Didn't they say that people with heart disease should rest more? Aren't you worried that your heart will collapse if you continue scheming every day?"

Ye Jian admired the change in Ye Ying's expression. She smiled coldly. "Think carefully. Why do you always fail when you scheme against me? Have you succeeded before? I don't think so."

Ye Ying was infuriated. This was why she hated Ye Jian. The more she hated her, the greater her desire for revenge.

"Ye Ying, cover your face and wait to be slapped." Ye Jian raised her head. Her eyes were calm.

Ye Jian was able to face criticism calmly now. This was because she was confident that she could solve the issue. She also believed that she could defeat Ye Ying and slap her back in the face.

Ye Ying's face turned black. She gritted her teeth and said angrily, "Don't be so arrogant. Let me see how you explain it to your friends and the school!"

"The entire class is fighting because of you. Ye Jian, you're so influential. Let me see how you solve this issue!"

### **Chapter 590: Ye Ying, You Are Not Worthy**

How was she going to solve the issue? She would just do what she needed to do.

Ye Jian smiled. She looked as though she was preparing for battle. There was strong killing intent in her eyes.

“Do you know why I’m not stopping them? The instigator isn’t me, it’s you.” Ye Jian looked at Ye Ying who was waiting impatiently to watch her defeat.

The most important thing in a military unit was teamwork. They were a team. They mustn’t split up. Ye Ying made a fatal mistake but she still thought that she was being smart. Ye Ying was still too immature. So immature that she didn’t want to retaliate.

She wasn’t worth it.

The proud expression on Ye Ying’s face disappeared. She started to get anxious. She wanted to ask Ye Jian to explain but Ye Jian had already walked to the instructor and said something to him. The instructor nodded. He never smiled but this time, he gave a small smile. He was smiling because of Ye Jian!

Ye Ying got even more agitated. She had a bad feeling. What was that wicked girl trying to do? She has only been here for two hours but she made the stern instructor smile.

The weather was hot so everyone was a little hot-tempered. The spark Ye Ying threw ignited the flames in their hearts and they shouted at one another furiously. The whistle wasn’t able to stop them.

The students from the other classes were asked to rest on the spot but some curious people walked over to take a look.

Luo Ran was one of them. Once he heard that the quarrel started because of Ye Jian, he shouted on the top of his lungs, “It’s obvious that she came to drag you down. You were all fooled by her!”

“If you took leave, you will get zero. Ye Ying has heart disease but she still came because she was afraid the results of the military training will pull her down.”

“You are a bunch of idiots. Ye Jian came to drag your rank down. Idiots!”

The political officer waved his hand. An unfamiliar officer walked over and threw Luo Ran on the ground.

The officer pressed Luo Ran’s head down. Luo Ran’s features were all squashed together.

He wanted to struggle but he couldn’t even make a sound. He couldn’t move his body.

The instructors quickly pushed the two groups of people away from each other. One of the instructors shouted, “He’s right. You’re idiots.” He glared at the students who started a fight so easily.

Ye Ying was elated. Even the instructor agreed. Ye Jian, you...

Before she could smile, another instructor shouted, “It seems like you all didn’t listen to what we taught you for the past few days. We keep telling you that you must have teamwork. The person that wants to break your team is your real enemy.”

...

Ye Ying was dumbstruck. Why did she feel that she was the ‘real enemy’?

Ye Jian glanced at her. She followed an instructor to look for the political officer. Ye Ying was the one who started the quarrel but for the sake of her team, she must do something.
