

Chapter 146 Company Gossip

“No need. I’ll give it to her when Mrs. Manager comes back.” Nova was used to all kinds of deceit in the company. She would never allow herself to make such a low-level mistake.

Tina was angry but it was not easy for her to flare up. Her words were soft and she needed Elena to take care of everything. She did not even have the chance to show off.

But she knew that there would be a day when she would appear. At that time, these people would have to listen to her orders.

Tina smiled again, “Okay. I just came and am not familiar with the company’s business. Give these things to me. If I lose them, it would not be worth it.”

Nova’s brows carried a trace of disgust. The CEO clearly stated that it was not allowed to build relationships, but she kept calling him cousin and sister-in-law, afraid that others would not know that he was Ryan’s cousin.

“Miss Tina, originally I should not have said these words, but since the CEO isn’t here, I should remind you. The president said that the company doesn’t allow connections. Even if you are the president’s cousin or the general manager’s cousin, if people hear this, they will think our company’s rules and regulations are a bluff.”

Nova said it bluntly. This woman wanted to hook up with men whenever she saw them. Did she think that she was Adriana Lima? Everyone would like her?

“Sister Nova, I’ll remember this. You came to the company early and are very familiar with the rules. I’m not too clear about this, so I hope you won’t blame me. Don’t worry, I’ll be careful in future and won’t give you a chance to complain.”

Although Nova was still unhappy, Tina’s attitude of asking for advice made it difficult for her to scold again. She could only take the things back to her seat.

Elsa saw that Nova’s expression was not right and went forward to ask, “What is the matter? Did you quarrel with that woman again?”

“She is indeed very cunning. Originally, I wanted to scold her and tell her not to continue calling cousin and sister-in-law. But I didn’t expect a few words would block me, I couldn’t say a word.”

Nova frowned. She thought that this woman was just a little rookie, but she did not expect that the later would be so cunning. Even her way of speaking was hard to figure out.

“You know that the general manager will definitely not let someone who does not have the ability to work under him. She was able to convince the general manager and madam to take that position. Her ability was definitely not weak. Furthermore, she must have a strong backing to be able to enter the company with Ryan’s help. However, after she entered the company the general manager’s attitude towards her was ordinary. So letting her enter the company should be due to the pressure of the elders, right? The company can’t afford to lose face like that.”

Elsa had worked here for a long time, so she was very accurate in judging people. Besides, there were not many people who could resist this woman’s looks.

Although Ryan Monor usually looked like a cold ice berg, he was still a man after all. It was still not enough to resist her pestering.

At this time, Elena walked past the door.

When Nova saw Elena, she immediately got up and followed with her things.

Seeing Nova following her, Elena went to her desk and sat down.

“Mrs. Monor, the report from last month and last quarter have all been summarized. I brought it to you to take a look.” Even since last time Elena fixed her up, Nova and Elsa were completely convinced of this woman, so they did their best not to cause any trouble.

“I understand.”

Elena took the report over and took a look. Indeed, it was all summarized. And whether it was expenses or income, they were all done very meticulously.

Elena looked at the person in front of her. “You did it very well. I will take it over to the CEO now.”

For some reason, Roman had them to personally deliver the financial reports of every floor to his office in the past two months. So Elena had to make a trip every month. Although she was reluctant, it was her job after all.

“Alright, I will go out and do my work.” Since her work was done, there was no need for her to continue staying her. Nova turned around and left.
