

## Chapter 158 Did Someone Force You With A Knife?

“Don’t worry. It’s just a small matter. You’ll know when you go up. Ryan is waiting for you upstairs. He asked me to come down and call you.”

Elena directly mentioned Ryan. As long as it was related to Ryan, she would never refuse.

Just as Elena thought, Tina quickly stood up and went to the meeting room with her.

Everyone looked at the female who came in with a solemn expression.

“I did not expect that it was you who caused the entire company to nearly be paralyzed. A little intern actually has such ambition.”

“That’s right. I suggest that we fire her as soon as possible so as to avoid leaving behind any hidden dangers.”

The moment Tina came in, she was criticized by the board of directors. She did not what had happened and looked at Roman.

But the later did not look at her at all.

“You... What do you mean by this? I did not do anything wrong. Why did you fire me?” Tina started to play dumb.

Elena just sat in her seat and did not say anything. Ryan also did not have any reaction.

“You still dare to argue? We all saw that you gave the wrong financial report to the CEO. If not for the timely investigation, something would have happened.” One of the men stood up and pointed at Tina as he shouted.

Tina was shocked and began to shirk, “How is that possible? I have never done such a thing before. How could I admit it? Why did you slander me? Who on earth can’t tolerate me?”

Tina looked at Elena with grievance in her eyes. “Sister-in-law. What on earth is going on?”

Elena did not want to waste her breath and directly pressed the screening button. It was the video Tina chatting with Roman.

Tina widened her eyes when she saw herself in the big screen. She was careful enough, how could she be discovered? Furthermore, Roman said that there were no cameras there.

“No... impossible! I have never done such a thing! It is not me!” Tina firmly denied.

It was not easy for her to enter this company. If she was fired, which company would still dare to want her?

“The video is already here, yet you still dare to quibble. I think you have ulterior motives. You want to take over Monor family’s property. We have seen many women like you. Don’t think you can become a phoenix just because you just look like this. After all, pheasants are still pheasants. You’ll never be able to reach the stage in your entire life.” The other shareholders did not give her any face at all.

Elena’s face was cold. All of this was her own fault, she could not blame anyone else.

Tina shook her head and went forward to pull Ryan’s hand. “Cousin, please save me. I was forced. I only did it this time. Please don’t chase me away. I am your cousin. You can’t do this to me.”

“You were forced? Did someone force you to do it with a knife? There is no need to beg me. Also, don’t call me cousin anymore. That year, your mother did save my grandfather. I’ve already repaid the debt from back then. We’ll have nothing to do with each other from now.” Ryan said bluntly.

In the past, he had held himself back for Elena’s sake. Even though he had no blood relation with her at all, he still agreed to let her work in the company.

But instead of being grateful, this woman actually betrayed him. How could he possibly keep such a person?

“No, cousin this isn’t like this. Listen to my explanation. I really have my reasons. I just hope I can stay by your side. Cousin, please don’t drive me away. Can’t you see my feelings for you in all these years?”

Tina cried and shouted. She couldn’t leave this job. She couldn’t leave Ryan. It was not easy for her to have the opportunity to come here. If she was chased away, all of her previous efforts would be in vain.

“Relationship? I’d rather not have such a relationship with you.” Ryan directly rejected her. He might spear her for her mother, but he would never let her stay in the company.

“Sister-in-law...” Tina knew that Ryan was famous for his steely heart, so she looked at Elena.

Last time, it was because of Elena that she could enter the Monor Family Company. If the former was a little soft-hearted, she still had a chance.
