

Chapter 214 Smash All Over The Things

Roman looked at Jonathan anxiously. "Dad, I know Mom is in a hurry. But she can't act rashly. If anything happens to Elena, the consequences will be unimaginable. "

Roman knew how much Ryan loved Elena. And if Adeline really did some stupid thing and hurt Elena then, Ryan would not let anyone go.

Jonathan sighed helplessly. "You know her temper. If she wants to go, she can go. With Ryan around, nothing will happen to Elena."

Jonathan knew that Ryan protected Elena very well and he would not let anyone bully his wife.

...

At this time, both Ryan and Elena were sitting in the living room of their villa comfortably.

After getting pregnant, Elena didn't know what happened to her, but she got hungry after every half an hour. It was her fortune that her husband loved her so much and fulfilled each and every wish of her.

At this time, Elena was eating a plate of fish cutlets while Ryan was taking care of some work. They both leaned against each other while taking care of their own business.

Adeline hurriedly came to Ryan's place. Without knocking the door, she pushed open and barged in. When she saw the happy couple, she became even angrier.

She rushed inside the living room and took an expensive porcelain vase from the coffee table and smashed it onto the ground.

Bang!

The suddenly loud sound scared Elena and the cutlet plate fall down from her hands.

Ryan frowned when he saw the woman in front of him. Just as he was about to go forward, Elena pulled him back.

Adeline behaved like a mad man and threw everything on the table onto the ground.

Mrs. Baker, who was not far away, immediately went forward to stop Adeline when she saw this. "What are you doing? This is not a place for you to behave atrociously."

"What a good Ryan Monor! You actually dare to touch my daughter. Today, I will teach you a lesson!" Adeline shouted at top of her lungs.

After saying that, she took out a stick from somewhere and rushed forward to hit them.

Mrs. Baker was shocked when she saw Adeline actually want to hit Ryan and Elena. She shouted. "Madam, be careful!"

Before she could hit Elena, however, Ryan grabbed the stick from Adeline's hand and took the stick from her. He stuck the stick in half and coldly said, "Get lost!"

"You want me to get lost? Dream on!"

Adeline panted heavily and ran into the kitchen. No matter if it was the cup or the plate, they were all smashed by her.

Elena saw that this woman was going crazy and pulled Ryan back, who was about to stand up from the wheelchair. She shook her head, telling him not to act rashly. If he was exposed at this time, then everything that had happened earlier would be for nothing.

Ryan was obviously very angry but he still listened to her and coldly looked at the woman who was smashing the things in their house. However, his expression was getting more and more frightening.

Seeing that her house had been smashed into a mess, Elena didn't wait any longer and immediately called the police.

When Xavier, who was outside, heard the sound, he also rushed in. Seeing this scene, he instantly ran over and pressed Adeline to the ground. "You crazy woman, you want to behave atrociously again."

No matter how much angry Adeline was, she was a woman after all. Her strength couldn't compare with Xavier's. Xavier pressed her to the ground very rudely. After struggling for a few times, Adeline could not do anything so she cried loudly.

"You bunch of shameless people dare to bully my daughter. Let me tell you, I will definitely not let this matter rest. I will make sure you will never have peace. "

At this moment, the sound of sirens could be heard from outside.

Adeline's pupils shrunk when she heard the sound of sirens, "You. . . You dare to call the police? Don't you care about the reputation of the Lewis family?"

"You broke into someone's house without permission and smashed things over. Of course I can call the police. Auntie doesn't care about her face anymore. Why should I care about the Lewis family's face?" Elena's tone was cold.

"Furthermore, when my parents were in trouble, how did you treat me? Don't you find it funny for me to be considerate towards you now?"

Elena would never forget how they treated her back then. The pain and suffering, she had endured for five years was still alive in her heart.

Following Elena's words, a bunch of police man came in and saw the situation in the villa. They were surprised to see the woman who was being pressed down by a bodyguard.

"Isn't this Madam Lewis? Why is she making a big fuss here? Mr. Monor, what's going on?"

Aren't these two families related? Why they were quarrelling like this? They couldn't afford to offend any of these families. If they caught the wrong person, it would be troublesome.

"It's useless for you to ask these questions. They will only blame me for everything. Hurry up and let me go!"

With her current appearance, if this were to spread out, she, Adeline, would lose face.

Ryan knew Adeline's thoughts very well. Of course, he would not let the other party get away with it. He turned to the police officer and said, "Breaking into a civilian's house and destroying other people's belongings without permission has already violated the law. I believe the police know better than us how to do business."

The police was not a fool. Of course, he could understand what Ryan meant. He immediately walked to Adeline's side and handcuffed her.

"What are you doing? Let me go!"

"Madam Lewis, please come with us. We will definitely investigate this matter clearly. If Madam is not guilty, we will naturally let Madam go."

Adeline did not expect this result and rudely pushed these people away. Even if her hands were handcuffed, she was not prepared to let Ryan go.
