

Chapter 256 Someone From the Capital

Ryan looked at the man opposite to him who was trembling with anger, and said with a calm voice, "I am a businessman. I won't do anything that is not profitable for me. So I hope I can get what I want while helping Mr. Biggs."

Finn knew that this man was not easy to fool. He took the information that he had brought along and placed on the table, "This is the information I got from leader that worked in the kidnapping. Someone used the Monor family to take the blame. The mastermind behind the kidnapping was someone else."

Finn didn't expect them to have such a thorough plan. If they succeeded, they would be happy. If they failed, they would be able to escape unscathed. It seemed like they had done many such things before.

Ryan already knew that this was the case. Roman wouldn't dare to offend him by doing something like this.

With a serious expression, Finn continued, "Those people used a voice-changer when they informed us. It's impossible to tell whether it was a man or a woman."

"You are undoubtedly saying that you don't know anything." Ryan could also investigate these things himself. He leaned back in his chair and said, "You still didn't tell me what I wanted to know."

"Mr. Monor. . ."

"I originally thought that Mr. Biggs was a smart person. I didn't expect that you would be testing me. If that's the case, Xavier, see him out." Since Finn didn't cooperate, Ryan didn't have time to waste with him.

When he heard Ryan's order to leave, Finn became somewhat anxious. "Please forgive me, Mr. Monor. I am not trying to hide it from you. It's. . . It's someone from the capital."

As soon as he heard the word "Capital", Ryan suddenly stood up. His face was cold as he stared at Finn sternly. "Mr. Biggs, you need to know the consequences of saying this."

Finn was shocked. He had long heard that Ryan had a strange personality. Today, when Finn himself saw this, he realized that Ryan deserved his reputation.

"Mr. Monor, since I have come here today to meet you, I have already made the necessary preparations. The leader Brother and the other members who participated in the kidnapping had vanished. I couldn't find their whereabouts no matter how much I searched. Then I came to know that they have already been killed by the mastermind. So the only one who knows the truth is me."

When he heard that the one who was kidnapped was the Second young mistress of the Monor family, Finn decided to be careful. After all, the Monor family was one of the most powerful families in the Hai City. If young mistress was kidnapped, she would definitely be saved at all costs.

A few days ago, Finn had heard that the leader and the other members were dead. For others it was a simple "accident", but Finn knew very well, who caused this accidental "accident". That was why he had risked his life to come here to see Ryan

Seeing that Ryan did not speak, Finn continued, "Although I have never interacted with the mastermind myself, I noted his number when he was dealing with the leader. You can use this clue to find out who it is."

The capital was not like Hai City. The people there were all tangled up. There would be support behind every reputable person. If there were no clues, there would be nothing to investigate.

Ryan was lost in thought for a moment. The four big families in the capital could cover the sky with one hand. Any one of them could crush any power in Hai City.

However, both the Clare family and Langford family of the capital had a grudge against Ryan. Could it be them?

"Ryan, come out now. I know you are hiding here. Why didn't you answer my call? Ryan, get the hell out here!"

When he was lost in thought, the noise outside pulled Ryan back to reality.

"Sorry, Director Monor has something to discuss inside. You can't go in." Xavier blocked Amanda from entering.

"Leave the things behind. I will help you investigate the person you want. I will give you a result in three days." From the information given by Finn, Ryan might needed to go to the capital to take a look.

After that, Finn put a phone in front of Ryan and said gratefully, "Thank you, Mr. Monor."

When Finn opened the door to go out, Amanda took the opportunity to barge in.

When she saw Ryan sitting on the chair in a suit gracefully, she became even angrier.

"What are you doing here?" Looking at the woman who suddenly barged in, Ryan became unhappy.

Amanda was originally the daughter of the Gills family, who was one of the top families of S City. She had been married to the Monor family for so many years and was still a rich wife. But today, looking at her fluffy hair and her wrinkled clothes, it seemed like her days in the Monor family had not been good.

"Ryan Monor, I have raised you for more than twenty years. Is this how you repay the Monor family?" Amanda gritted her teeth hatefully and asked. She never thought that Ryan would push Roman to such an extent.
