

Chapter 14

Declan, Luca, and Finn knew that someone was staring behind their back. 1

They were arguing about who will go back to the pack house and shower because this was the second day and none of them take any shower yet. None of them wanted to leave the room and part away from their Lilly.

When they finally decided that Luca will go first. Something stopped their conversation.

"Don't look back... Is that her?" Finn's voice sounded like a whisper in their head. They were looking at each other while continue their conversation through their mind link.

"I think so. It's only us and our Lilly are here. I think it's her! She woke up!" Declan answered him.

"Yes. It's her. Holy shit I could see her looking at us curiously from the corner of my eyes." Luca said through the mind link. He was the only one who standing with his side profile facing the bed where Lilly was sleeping.

"Don't scare her, okay? Do it slowly and don't make any sudden move. Do you hear me, Finn?!" Declan said it firmly and Finn growled lowly as he snickered at the thought of Declan unnecessarily mention him as the troublemaker.

"One... two... three... Now." Luca gave them the cue and the three of them turned around to see their little mate was indeed looking at them with her beautiful green eyes.

The moment their eyes caught with hers, the surf of electric waves went through their body, flowing under their skin within their blood. Their eyes flashed red and blue. Soon enough, the three of them felt they were complete. They've found their mate.

They growled lowly and said the word mate. But it seemed that Lilly was too focused on them rather than what they were saying. She gasped and backed up in fear.

"Lilly? It's okay Love. Don't worry you are safe now. We are here to protect you." Luca spoke softly and slowly took his steps toward her bed.

Lilly's eyes widened heard him saying those words.

Chapter 14

She quickly lowered her eyes and head. One lesson she learned from her previous experience that they didn't like how a low-like like her stared back at them. The consequences would be slapped or worse whipped.

Lilly didn't want to be beaten or whipped anymore. It was so painful. She prefers them to kill her directly than torture her.

"Lilly?" This time Declan called her softly and the three of them were standing next to the trembling girl. She looked like a shaking leaf. Scared, so small, and fragile. She crouched when finally sitting herself up on the warm bed.

Finn was already calling for Alysia through his mind link. He didn't want to miss any interaction with his little mate.

"Hey, it's okay..." Finn reached out his hand and tried to calm her down but her reaction made their heart break. She flinched and covered her head with her little hand as if she was protecting herself from Finn's hand. She acted like Finn was going to hit her and that made their heart crushed into pieces.

"Baby girl..." Luca sighed sadly. Their forehead frowned in sadness as they saw how she would

think that they would hit her or harm her.

Luca slowly touched her small hand, and the sparks from their touching made her surprised. Her eyes widened and she immediately pulled back her hands to avoid the weird feeling. She didn't feel pain but she never felt something like that before.

Luca smiled looking at her reaction. She felt it too. His mate felt the spark from their mate bond. It's mean that she could recognize them too as her mates, right?

Again, he took her hand gently. And once again she flinched. At the slightest movement that the three of them made, she flinched. It looked like she was preparing if something suddenly hit her.

Luca took her hand and rubbed it gently. His little mate was not resisting, yet he could feel her weak state because even though she seemed didn't want to be touched, she let him grab and touch her hands and did whatever he wanted to do with her small hands.

She was having a fever before but now her hands felt icy cold and her entire body was shaking. She was scared of them.

Chapter 14

"It's okay, Love. Hey, it's okay..." Luca tried to soothe her. "We will never hit you or do anything that harms you..." Luca continued.

Lilly was scared but she couldn't do anything when the tall and huge man pinned her hand onto her lap and rubbed her palms and wrists gently. They could see her terrified face now but Lilly didn't even dare to raise her head. She kept her eyes down and lowered her head. Her hair unraveled to the side of her face. This is the rule for a low-life like her. Lilly was a bit thankful that this man didn't grab her hands too tight and harshly like they always treat her.

"Baby. Look at us, please. We are your mate..." Declan spoke and his words attracted Lilly's attention. He reached his hand to stroke her hair and put it behind her ear. Of course, this made her flinch and closed her eyes tightly.

Mate? Lilly slowly raises her head but only to peek a little from her thick eyelash and back to staring at her lap.

They are handsome. All of them are extremely handsome. Their deep tone voice sounded so intimidating yet it also made her calm. She didn't

Chapter 14

understand why. They treat her kindly But it doesn't change the fact that they still could hurt her in any way possible. Just like other people did to a low-life like her.

Moreover, how come she has a mate? Three mates? She is a human. She didn't have any power nor mythical creature specification to be told as one. She is no one. Nothing important. How come she has three mates? Impossible. Maybe it's a trick. It's their trick to fool her. So she believes them and then they will play with her again, play with her mind and heart, crush her into pieces.

Lilly cried silently in her heart when she thought that she shouldn't trust anyone. Or she shouldn't have any hopes on to someone. Especially men.

Meanwhile, the triplets still looked at her with their sad expression. Their girl, their little mate was scared of them. They are the ones who are supposed to be her support system, the ones who should be her protector, a comfortable place. But now, she was shaking and trembling when they approached her and touched her.

Luca let her hands go and took a deep breath. It seemed that their mate has so much trauma and it

Chapter 14

will take time to communicate normally with her. But they didn't care. How long it will take none of them to care about it. They will do anything.

"Baby, We are your mates. This is Declan. He is the oldest. My name is Luca, the second. And Finn, the third. We are triplets, and the Alphas of Blue Moon pack. Have you ever heard about us?"

Something struck her along with the pang on her chest.

Yes, she was sold to this pack with the other girls and her best friend. Blue Moon pack, the pack of the Lycans.

They are Lycans and they are the Alphas.

Once again, Lilly felt like she was thrown into a deep hole where she couldn't find any way to climb up. She was deep in that dark place and no one will help her. She is here. She was sent here, sold here to be their slaves. To be tortured again, to be their toys.

They will be no different than the previous monster who claimed to be her hero. And that man is also an Alpha.

Chapter 14

The triplets began to panic when Lilly cried and shook her head. She tried to back up even though there was no room for her to move anymore. She looked here and there and then back to the three men standing surrounding her.

"Pl-please..." She sobs and cries, her voice comes out as a whisper but the triplets can hear her.

"Ha-have mercy..." The tears flowed down to her cheeks. Finn tried to calm her and approach her but Lilly acted even more panic.

"No.. please... no..." Her small voice almost didn't come out and her throat felt so sore, it was so painful.

"Love, calm down. No one can hurt you here."

Declan reached for a glass of water on the table side and tried to give her the fresh water. But Lilly looked at him in horror.

"I-I'm sorry master, I-I will behave! I will.." She lowered her trembling body as she was bowing to them and their eyes widened at the scene.

Just what she had been through that made her scared at the sight of a glass of water?
