

Alpha's curvy bullied human mate

Chapter 69: Law of wolves

Penelope

I knew it was going to be a special night, and it had been perfect down to the last detail. Nate had been seductive, and passionate and had taken me in a wild way that had pushed me over the edge.

We stood there in the middle of the clearing, touching and moaning; the way he controlled me and made me his... it was maddening. And when he bit me, I felt pain, and then it was the purest pleasure.

I felt as if something inside me was expanding, a force, an energy like an electric current running through every cell, flashing and pulsing.

It was the most intense orgasm in the world. I felt like I was seeing stars and if I had felt close to him before... now I felt like we were one. The bond was extremely strong, and although I would never have a wolf... I felt something change inside of me.

The forest felt more like my place, nature like a part of me, the sun shone brighter, and the water looked purer.

And Nate... for heaven's sake... if he looked beautiful and seductive before... now I couldn't take my eyes off him.

"More mate...more...more...more please..." I kept telling him as he held me against a tree.

We got up, ate something and were on top of each other right away. We didn't even bother to get dressed... the desire I had for him was so overwhelming, we couldn't be apart.

"Penelope... damn it... the way your body takes me, I don't want to go out," he said as he thrust hard, and I pressed my thighs against his hips.

Again I felt the orgasm pounding through my body. Nate had enough resistance before... but now he was unstoppable. He was hard all the time and couldn't get enough of pleasing me.

I hadn't finished recovering from my climax when he pulled me down, made me rest my hands on the tree and grabbed me, spreading my legs and pounding, deeply.

I screamed and felt him getting harder and harder. Practically we hadn't rested, and we had had sex in the river, among the flowers, near the bushes... and we seemed to want more and more.

My body needed him, and I knew Hunter wanted to claim me with every passing second.

"Come for me mate...come for me again babe...like this...yes like this," he says as he picks up the pace, our bodies colliding.

Finally, he lean down to kiss my mark, and there I would come fully, screaming and squeezing his dick, and I hear him scream in desperation.

We were both on the ground again, not caring about anything. He came up to me and kissed me, running his fingertips over my mark, and I sighed.

"I'm obsessed with you, like a drug, Penelope..." I smiled, it was exactly what I was experiencing.

"I feel different..."

"You are getting stronger...and your instincts are getting a little sharper. Some of my strength is passing to you... and now that I've marked you... I really think I'm invincible..."he says, and I feel his hands running all over my body.

"You mean insatiable..." I say with a smile, and he stares at me.

"I don't know what we're going to do when we get back to the pack... I can't stop thinking about you. Hunter is happy... but now he just wants to have you around all the time. Now we are going to be extremely overprotective mate... jealous and fucking horny..." he says, running his hands over my waist and hips, digging his fingertips into my thighs and I see the marks he has left on me: bites, bruises, love bites.

"I think I can handle all this..." I tell him and he looks at me sensually.

"Are you sure, babe? I don't want to tire you out..." he says.

"I'm sure..." I answer and he smiles.

He slaps my ass and within seconds he puts a finger into my wetness and I moan. And immediately we're back to it.

I have no idea how much time we've spent together, but at some point, we agreed that we should go back to the pack.

I can see the moment he opens the mindlink, because his face is one of concern.

"Is everything okay?"

"Yeah, just catching up," he says, squeezing me against his body. Suddenly he has a terrified look on his face.

"Watch out... something's up, don't get away from me," and we walk faster.

Suddenly I see a commotion right outside my door.

"What the hell is going on?" he says.

The scene was pretty weird, in the middle I could see Roger giving directions, and beyond that Naomi holding Collin, the warrior who treated me badly at brunch. Andrew was near with a baseball bat in his hands.

"Alpha!" everyone yelled as soon as they saw Nate.

"I need explanations NOW!" says Nate as he puts me behind him and I look out.

"Alpha... we found evidence that this warrior was planning to enter Penelope's house... he was armed for an attack," Roger says and Nate roars powerfully.

I see everyone shaking and instead of being scared, my first reaction is to hug him and feel his chest calm down.

"Is it true?" asks Nate and looks at Collin.

"It's all lies! It's all to blame on this human!" shouts Collin, but his look is filled with hatred for me, and it doesn't go unnoticed by Nate.

"Silence!" he shouts, looking at Naomi, who is practically on top of Collin.

"Alpha...we found this," she says throwing a gun and I feel an invisible force coming from Nate.

It must be his aura, I've never felt it before, it's really strong, although it doesn't affect me like it does the others.

Everyone lowers their heads and Colin becomes quiet and still.

"Besides, this Alpha, Collin had a letter with instructions. No doubt, he is a traitor and wanted to attack our Luna." Naomi explains.

"He confessed himself Alpha..." says Roger.

"None of what they say is true!" says Collin trembling.

Nate leaves me at Roger's side and approaches Collin, lifting him by his shirt with one hand, his feet floating in the air, and he looks completely nervous.

"Tell me the truth... I'm not in the mood for bullshit," he mumbles, angry and annoyed.

"I..."

"It's a big mistake to lie to your Alpha, Collin... you pay for it with blood."

"Nate... we are friends... we always have been."

"Speak!" Nate shouts and looks into his eyes, and I know that he is using the Alpha command. The warrior has no choice but to tell the truth.

"She's a stupid human... a fat bitch we used to laugh at! I used to make her fall and kick her ass myself! A dirty human can't be a Luna! That's the truth!" he says stupidly, realizing too late that he screwed up.

Nate roars and I can see the veins in his arms bulge as he quickly grabs the warrior's neck and squeezes, strangling him.

"According to our law, insulting the Luna, the mate of one of our kind, let alone an attempt on his life... is an offense payable with death," Nate says with a roar.

I cover my face as I hear the sound of bones breaking. When I open my eyes again, the warrior is lying on the ground, staring blankly. Andrew drops the bat and sits on the porch, watching in fear.

No one says anything, but it seems that justice has been done. I don't know what to think, I already knew that werewolves take their laws very seriously, I had experienced it myself a long time ago.

"Collin had clear instructions, this man may have come alone, but he is no doubt working with others," Naomi says.

Nate gives orders to secure the entire area and investigate further. A moment later, he hugs me.

"I know you're nervous and that you didn't like seeing this mate. The bond has brought us closer, and I can feel what's going on in your head and heart.

"It's just that I feel like it's my fault..."

"Penelope, you are Moonstone's Luna, and everyone needs to start respecting you. It was his choice to do this. And to be honest, it's my fault. I should have controlled him a long time ago. Roger told me I was causing trouble with the warriors, he had already insulted you and I did nothing," he says, stroking my hair and then running his fingers through my mark.

"Maybe I should hide my mark for a while..." I suggest and can see that he doesn't like the idea.

"Just for a couple of days... until..." I say.

"Until all this is over and you are proclaimed my Luna, I don't like it, but I understand," he says and kisses me on my forehead.

"I need you with me, mate...I want you to come live with me, I won't feel comfortable if I don't have you around all the time," he confesses to me and soon I'm at his house.

Ruth is waiting for me and she and Naomi are totally focused on me.

I hope nothing bad will happen, I pray that nothing bad will happen.
