

## The Immortal Cultivation Game Has Come True

### #Chapter 221 - 221: Returning to Reality! - Read The Immortal Cultivation Game Has Come True Chapter 221 - 221: Returning to Reality!

#### Chapter 221: Returning to Reality!

After sending away Bai Shes Groom.

In the courtyard of the Taoist temple, he was the only one left, and he could study the Ancestral Dragon Crystal well.

After the Qi and Blood in the Ancestral Dragon Crystal were released, the color of the crystal became much more transparent.

Xuanqing held it in his hand and found that not only did the color become transparent, but the weight had also become much lighter.

Upload to the mall!

[Upload progress:7%.20%.25%.60%/080%.99%100%]

[Ding- Congratulations on the successful upload, Mall increment: Empty Origin Stone (10 thousand) ]

Without the existence of the Ancestral Dragon Blood Qi, the upload speed became extremely fast. In just half an hour, the upload was already successful.

Even the name had changed.

Empty Origin Stone?

Origin StoneOrigin StoneNo wonder it can contain Heavenly Merit. Xuanqing was somewhat surprised.

Judging from the literal meaning, the two words Origin in the Origin Stone are extraordinary, involving the basic rules of a world and the most fundamental things.

Lets put Heavenly Merit in first!

The next moment.

With a thought.

He took out the Heavenly Merit stored in the game Backpack and attached the Origin Stone to it.

Go!

All the Qi Flowers on Xuanqings shoulder were mobilized, enveloping the Heavenly Merit and sending it into the Origin Stone.

Omm-

A mysterious fluctuation filled the air.

The moment the two touched, the Origin Stone also burst out with a strong suction, drawing the Heavenly Merit into the crystal.

Success!

Xuanqings mouth curved slightly upward.

Upload to the mall!

[Upload progress: 1%.1.2%.1.3%.1.5% ]

The speed was not fast, similar to the previous Ancestral Dragon Blood. It was estimated that it would take two or three days for the progress to be completed.

Just wait patiently-

Xuanqing sat cross-legged, his eyes closed, but he began to doze off on the spot.

Speaking of which.

Since he started practicing until now, not only his cultivation has improved, but his mentality has also changed greatly.

Such boring sitting for days doing nothing, which would have been impossible in the past, has now become commonplace.

Two sunrises and sunsets later.

[Upload progress: 99%.%.99.5%.ioo%]

[Ding- Congratulations on the successful upload, Mall increment: Origin Stone (1001W)]

Hearing the prompt sound in his mind.

Xuanqing opened his eyes.

10 million!

The exchange price is quite expensive, 10 million ingots to exchange for 10 thousand Heavenly Merits, equivalent to a 1:1000 ratio.

Although it is a bit expensive, I can accept it since I am now in control of the entire Water Blue Star.

Xuanqing showed a slight smile.

Currently on Water Blue Star, just in the Great Yan Kingdom alone, there are billions of people. If they were all developed every day would yield tens of billions of treasures.

If the entire Water Blue Star were to be developed wow, it would be even more amazing, easily making hundreds of billions every day. At that time. It wouldn't be much different from having infinite ingots, right?

Afterwards.

He also uploaded some smaller denomination Heavenly Merit Origin Stones to be used as rewards for his subordinates, which would be very nice.

After finishing it.

Open the game store! Xuanqing muttered silently in his heart.

[The store has been opened]

Subsistence Pill (7)

Basic Breathing Exercise (100)bender

Millennium Ice Crystal (120,000)

Nine-leaf Profound Darkness Grass (8000)

Chaos Pill (99W)

Ginseng Fruit Tree (100,000 Heavenly Merit)

Ancestral Dragon Crystal (100W)

Origin Stone (1000W)

After several banquets, the number of items in the Game Mall had become immense. Various treasures were dazzling and dizzying, too many to look at.

And what he was most concerned about was the Ginseng Fruit Tree!

There seem to be many things, but everything else can be exchanged using ordinary ingots, except for the Ginseng Fruit Tree, which requires Heavenly Merit

Xuanqing was looking at the treasures in the Game Mall, and murmured softly.

From this point, it is not difficult to see that the most precious thing in the entire Game Mall is the Ginseng Fruit Tree.

One hundred thousand Heavenly Merit.

According to the ratio of one ingot to one Thousand heavenly merit, it would take a total of one hundred million to exchange for the Ginseng Fruit Tree seedlings!

One hundred million it wont be long before I can exchange for the seedlings of the Ginseng Fruit Tree!

Xuanqings eyes flashed with a hint of burning passion.

In the entire Primordial World, developing to the Journey to the West Period, pretty much all precious treasures have owners, let alone one of the Ten Great Spiritual Roots of Heaven and Earth.

More importantly.

There should be huge accumulations of incense in the real world waiting for him to harvest. He is not far from one hundred million.

The time has come to return to the real world and harvest that incense!

With this in mind.

Xuanqing conjured up his Immortal Official Document and informed the subordinate gods under his command that he needed to undergo closed-door cultivation for a period.

After completing this.

With a thought.

Exit the game!

Real World.

Qingping Temple.

A young Taoist priest sitting cross-legged on a cushion suddenly opened his eyes.

This Taoist was Xuanqing, who had just exited the Game World.

The air in this real world is really thick- Xuanqing could not help but sigh.

Compared to the Game World, the real world not only lacked spiritual qi but was also filled with various pollutants in the air.

First, let Huai Qingyun collect the incense!

Immortal Official Document!

Xuanqing offered the Immortal Official Document, sent a message to Huai Qingyun, asking him to collect the incense directly and bring it over.

Then.

He also sent messages to Yang Ying, Elder Jingde, and Elder Qianqing, inviting them to come to Qingping Temple.

It had to be said.

With these subordinates, he had saved a lot of time. No matter what he needed to do, a single message could get it done.

Its been three months in the real world I wonder how many ingots I can harvest this time!

Xuanqing pondered slightly.

Before entering the game, the twenty-five million he had harvested had already been completely depleted by the Absolute Holiness Abandonment of Wisdom jade talisman, jade talisman for enlightenment, the war monument, soul acceleration, and so on.

Later, he accumulated fifty million to be promoted as a Secondary Fourth-Rank, and finally, during the Heavenly Courts confer, the accumulation of incense in the real world

reached one hundred million, and he was directly promoted to the Primary Fourth-Rank Daoist Immortal Officer.

When I was promoted from the Fourth-Rank, there were still 18 million left unharvested in the real world.

If we count from the Fourth-Rank to the Primary Fourth-Rank, the accumulated 50 million incense and the half-day spent in the Heavenly Court after that

It should be around 70-80 million! Xuanqing calculated in his heart.

Seventy to eighty million it doesn't vary much from one hundred million for exchanging a Ginseng Fruit Tree.

About four hours later.

Not too far away.

A lucky cloud was drifting towards Qingping Temple. On top of the cloud stood a little Taoist boy.

The Taoist boy descended from the cloud.

Sir!

Chapter 222: The Fundamental Reason Affecting the Expansion of Taoism!

He saw Huai Qingyun arriving on a lucky cloud.

Xuanqing was somewhat curious.

Because in the past, his disciple Huai Qingyun, always used the Earth Gods burrowing technique, this was the first time he saw him use the Cloud Riding technique.

Qingyun, why did you use the Cloud Riding technique this time? Xuanqing raised an eyebrow and asked with interest.

Hearing this.

Huai Qingyun's face soured.

As a sentient locust tree, he actually preferred to move unremarkably underground. After all, there are all kinds of nutrients underground, and going underground feels like home.

However

I I Huai Qingyun gritted his teeth and then said: Sister Yang Ying said that only the loach spirit likes to drill around underground!

Upon hearing this.

Pfft~

Xuanqing almost burst out laughing.

In his mind, he remembered that last time, Yang Ying did indeed say in front of Huai Qingyun that only the loach spirit would burrow underground back and forth.

Unexpectedly this seemingly innocent misunderstanding was remembered by Huai Qingyun.

At this moment.

Seeing Sirs expression.

Huai Qingyuns cheeks flushed visibly, and then quickly took out the Sumeru bag from his bosom.

Sir, this is the replaced Gathering Qi Bead, I I have something else to do, I will not disturb you.

As soon as the words fell.

Whiz-

Huai Qingyuns figure flashed, he covered his face and fled.

Seeing this.

Qingyun has grown up, he even knows to be shy- Xuanqing muttered with a sigh.

He watched his disciples retreating figure, and in his mind, he unconsciously remembered the innocent expression when he first enlightened him.

Shaking his head, he drove out the stray thoughts in his mind.

Then.

Xuanqing turned his attention to the Sumeru bag in his hand, The exciting time has arrived, lets see how much incense money I have harvested!

With a thought.

Recharge!

[Ding! +84,200,000 Ingots!]

Hearing the prompt sound in his mind, Xuanqings heart skipped a beat, then he took a deep breath and silently commanded in his heart:

Open Character Panel!

[Name]: Xuanqingbender

[Physique]: Chaos Morality Holy Body.

[Grade]: Left Attendant Immortal Lord of Taiji Palace, Envoy of Five Thunders, and Director of Thunder Department (Fourth Rank)

[Cultivation]: Integration of Void Stage (Mid Stage)

[Cultivation Method]: Food-Qi Decree

[Divine Ability]: Fate Dragon Control Chapter (), Heavenly Star Thirty-Six Arts (Great Achievement), Five Elements Talisman Array (Perfection)

[Ingots]:84,220,056

On the Character Panel, the grade has been updated to the fourth rank. As for the Ingots column, the long string of numbers looked celebratory just by looking at it.

Tsk tsk 84,200,000 Ingots! Xuanqing couldnt help but mutter to himself.

Even though he had calculated in advance that he could have seventy to eighty million of incense money, it was still exciting and thrilling when he actually harvested this amount.

Speaking of which.

This income of more than 84,000,000 Ingots was the most he had earned since he started practicing.

Theres only a deficit of more than fifteen million Ingots to exchange for a Ginseng Fruit Tree Seedling. Xuanqings eyes glowed with anticipation.

Of course.

Before exchanging the ginseng fruit tree seedling, one must first ensure the daily acceleration of the Luck Jade Seals consumption.

The cultivation at the mid-stage of the Integration of Void Stage requires the full gathering of the three flowers of essence, Qi, and God Soul at the crown, becoming an unblemished golden immortal!

First, wait for Yang Ying to see if there is an even more advanced development plan for Black Wind Country, and then understand the development of the Taoist temples!

Finally, return to the game for closed-door cultivation, initiate the time acceleration until the Divines flower is condensed.

Thinking thus,

Xuanqing sat cross-legged, quietly waiting for the arrival of Yang Ying and Elder Jingde.

Several hours later.

Rumblerumble-

A helicopter flew in from afar, landing at Qingping Temples parking lot. Two elders descended from the ladder.

They disappeared in a flash at the parking lot, and when they appeared next, they were already in the inner courtyard of the Taoist temple.

We greet the temple master! Elder Jingde and Elder Qianqing raised up their Yin Yang Fish above their heads and bowed as they spoke.

Hmm!

Xuanqing slightly nodded his head, and then asked: How has the temple developed over these three months?

Upon hearing this,

Elder Jingde and Elder Qianqing glanced at each other,

Temple master, as per your instructions, we have expanded the number of Taoist temples while ensuring stability.

Besides Changling City and Jiang City, we have additionally opened up E City, Yang City Guangzhou etc, making them holy lands of Taoism.

Currently, the number of Taoist temples in Yan Country has broken through two thousand.

After listening to Elder Jingdes detailed explanation about the development of Taoism over the past three months,

Xuanqing nodded slightly.

No wonder,

||

You have done well and worked hard!

||

Its our privilege to serve the temple master and promote Taoism! Qianqing sincerely responded, clasping his fists.

Elder Qianqing speaks the truth!

Elder Jingde from the side also nodded in agreement.

For them, having been able to meet the temple master and receive ginseng fruit, which served as a source of mana, before their life ended was a great boon. They were no different from real cultivators, aside from not experiencing the process of cultivation. There was no difference in terms of their mana or their divine techniques.

Hearing the words of the two elders,

Xuanqing nodded internally.

His mighty God Soul allowed him to easily discern whether their words truly came from their hearts.

By the way, have you encountered any unsolvable or tricky situations in the development of Taoism? Xuanqing asked.

Upon hearing this,

Elder Qianqing contemplated for a while and spoke: To report to the temple master, there are no unsolvable issues.

However when it comes to the expansion of Taoism, there is a severe shortage of manpower. With the academies established by Taoism, even after lowering the score cut-off and improving job benefits, theres still an insufficient recruitment of manpower!

The main difficulty lies in the modern information society. With it being highly entertaining, many students who meet the cutoff score and intend to register, fail to pass due to their temperament.

Having heard these words,

the atmosphere became heavy.

Elder Jingde on the side also nodded in agreement. He immediately recalled his granddaughter Ru Xiao in a similar situation.

Elder Qianqing has a point. My own granddaughter is too restless. She spends her days watching short videos on her phone instead of cultivating her conduct.

An information-rich society has fickle minds, which makes it difficult to recruit people?

Xuanqing mildly furrowed his brows.

Indeed, this was a troublesome issue. It would greatly affect the expansion of Taoism, and eventually, his incense collection. However, even so, he was still unwilling to lower the threshold, especially regarding temperament, which absolutely could not be lowered.

Otherwise, one day, Taoism might become like Buddhism, full of mediocrity and scoundrels.

After pondering for a while,

Xuanqing spoke up: This issue is somewhat troublesome, however its not insolvable!

Chapter 223: There's no need to bother, just show the way!

As soon as he spoke.

Elder Jingde and Elder Qianqing's eyes lit up, and their hearts were full of anticipation for their palace lord with vast divine powers.

Subsequently.

Xuanqing's voice rang out again.

"I will forge a magic treasure for refining the heart and mind... It will be placed in the Daoist Academy. As long as the person is of pure character, they can be accepted into

the Daoist path, and their temperament will be slowly refined after entering the academy!"

Upon hearing this.

Elder Qianqing was overjoyed and couldn't help but mutter, "If there is a magic treasure for refining the heart and mind, things would be much simpler."

"Although people nowadays are impulsive, most of them are kind-hearted and law-abiding. By then, we can lower the enrollment requirement to the level of a junior college..."

The more he thought about it.

The more excited he became.

It is worth mentioning that.

The Daoists in the real world are divided into two parts: the Daoist expansion and the logistical support.

Elder Jingde has been in charge of the Daoist expansion, while Elder Qianqing is responsible for the Daoist Academy, as well as the initiation of new disciples.

On the other side.

Once known as one of the Four Asian Tigers, Xiangjiang (Hong Kong).

Victoria Harbour.

As one of the largest container shipping ports in the world, it has a massive transportation industry chain.

At the dockside.

Several large unloading machines moved containers from a ten-thousand-ton transport ship to the dock one by one.

Then, dozens of dockworkers, covered in sweat, operated forklifts to sort and organize the contents of the containers.

At this moment.

On this bustling dock, there stood a graceful and aloof woman, quietly watching everything.

“Chairman Yang, our goods have been delivered to Warehouse C, No. 2-5602. Would you like to inspect the cargo?”

“Alright, lead the way!”

The woman waved her hand casually and said.

This woman was Yang Ying, who was in charge of establishing the overseas base. After considering various factors, she ultimately chose Victoria Harbour in Xiangjiang (Hong Kong).

Suddenly.

Buzz-

Something in her purse seemed to be vibrating rapidly. She then took out a phone.

“It’s a message from the palace lord!”

Yang Ying’s face lit up with surprise.

What a coincidence.

The goods had just arrived, and there were new achievements at the workshop. She was about to report them to the palace lord when he sent a message.

With this in mind.

She hurriedly stopped her subordinate leading the way, “Xiao Zhang, wait a moment!”

The girl called Xiao Zhang stopped and looked at her beautiful boss with a puzzled expression.

“Book a flight to Changling City in the inland region as soon as possible!” Yang Ying commanded.

Upon hearing this.

Xiao Zhang hesitated for a moment, then quickly booked a flight to Changling City with her phone.

After finishing the task.

She looked up and cautiously asked, “Chairman Yang, the flight has been booked, leaving in one hour. What about the goods here...?”

“Notify Changling City to pick up the passenger and arrange a helicopter in advance!”

“As for the matter of the goods, leave it to you to inspect and deal with. As long as there are no major issues, accept them for storage. If you have any urgent matters, call me!”

Yang Ying waved her hand, her words crisp and decisive.

That said.

She strode quickly towards the parking lot.

From the side.

Assistant Xiao Zhang looked at her boss’s departing strides, her eyes filled with admiration. What she admired most was the decisive and crisp way her boss handled things.

Qingping Temple.

Several hours later.

Another helicopter landed in the parking lot, with a woman disembarking from it. It was Yang Ying, who had traveled from Xiangjiang by Boeing to Changling, then transferred to a helicopter.

She made her way familiarly to the inner courtyard of the Taoist temple.

“Palace lord!” Yang Ying clasped her hands in the standard Yin Yang Fish salute, raising it above her head, and respectfully paid homage.

Seeing this.

Xuanqing raised his eyebrows, with interest, and said, “I didn’t expect you to have practiced the Daoist etiquette so well after not seeing you for a while!” “Hehe- Thank you for the compliment, palace lord! I have been practicing diligently in my spare time!”

Yang Ying smiled sweetly, explaining as if she were the girl next door.

If this scene were to be seen by an outsider, they would be shocked. They would never have thought that such an iceberg beauty would reveal such a little woman’s demeanor.

Hearing her words.

Xuanqing nodded and casually asked, “How is the development of the overseas base and workshop?”

When it came to discussing serious matters.

Yang Ying immediately looked serious and began reporting on her work.

“My lord, after comprehensive consideration, I have set up the overseas base in Xiangjiang. All the armored weapons you have instructed have been stored in the base warehouse.”

“As for the workshop, I have written a book called ‘A Comprehensive Guide to the Integrated Development of Sect Governance’, which covers a series of topics such as technological development, business, social structure, management, diplomacy, warfare, infrastructure... and so on.”

“The book consists of eighty-one volumes, totaling thirty-six million words, and has been made into a thread-bound Green Skin Book with regular script.” “Oh, besides the armor you mentioned, the base has also purchased a series of civilian industrial machine tools, all foolproof in operation...”

Listening to Yang Ying’s detailed report.

Xuanqing was somewhat surprised. He then carefully looked at Yang Ying from head to toe, his eyes full of appreciation.

He didn’t expect Yang Ying to have done things so beautifully and completely beyond his expectations. It seemed that Yang Ying had grown a lot during this time.

“You have done a good job, and you have worked hard during this time!”

Xuanqing first encouraged her, then asked, “Did you encounter any difficulties while working abroad?”

“It is my honor to work for the palace lord. As for difficulties... There were basically no difficulties. Even if there were, they were solved with money,” Yang Ying shrugged and confidently said.

Of course.

The reason she chose to place the base in Xiangjiang, besides its

well-developed transportation system, was because Xiangjiang was a “legally” sound place, where everything was possible with money. This was something neither the old capitalist countries nor the inland could achieve.

“In that case, you send those materials... Nevermind, I’ll go and get them myself!” Xuanqing said.

The reason for going there himself was because Xiangjiang was far away from Changling, and he didn't know how long it would take for the materials to be delivered.

"Alright, palace lord, do you want me to book a flight for you now?" Yang Ying nodded, took out her phone and asked.

However.

Xuanqing smiled lightly and waved his hand, "No need for that trouble. When we get there, you can just show me the way!"

His voice had hardly faded.

He flicked his whisk and wrapped the entire person up with it.

"Earth Leaping Golden Light!"

Chapter 224: The Next Plan.

Earth-Leaping Golden Light!

Before Yang Ying could react, she felt the world spinning around and could no longer see anything. She could only feel herself moving forward at an incredible speed.

"Ooer~"

Feeling her stomach churning, she almost threw up before remembering that she possessed magical powers. She hurriedly activated her mana, which alleviated the discomfort.

Looking around, the scenery on both sides quickly receded. All things seemed to become mosaic-like, completely blurry.

She didn't know how long it had been.

Finally.

Yang Ying felt that she was no longer moving forward but instead hovering in the sky tens of thousands of meters high. Beneath her feet was a giant island. "We've arrived at Xiangjiang. Where is the warehouse base?"

Only at this point did she snap back to reality upon hearing Palace Lord's voice.

Looking down, she could barely make out some high-rise buildings the size of sesame seeds apart from the faint view of the island, but everything else was indistinguishable.

“Palace Lord... it’s too high, I can’t see clearly!” Yang Ying said, somewhat troubled.

Hearing her words,

Xuanqing nodded slightly.

Then,

He made a ‘Hidden Body’ hand seal and grabbed Yang Ying with the whisks, turned into a ray of light and rapidly descended. Their speed was unimaginable, much faster than any freefall ride.

In an instant,

The two reached an altitude of 100 meters from the ground.

The endless stream of cars on the road, the bustling crowds, and the corporate slaves in the transparent glass walls of the surrounding high-rise buildings were all oblivious to the duo’s presence in the sky.

“I have cast an invisibility spell; they can’t see us.”

Seeing Yang Ying’s panicked expression and her glances around, Xuanqing reminded her.

“Oh~”

Yang Ying finally breathed a sigh of relief, took out her phone and was about to use the navigation, but suddenly noticed the time on her phone showed only half an hour had passed.

Half... half an hour?

Her pupils slightly contracted, she was astonished.

It was important to note,

Qingping Town in Liucheng County of Changling City was at least two thousand kilometers away from Xiangjiang. Reaching this place in just half an hour was terrifying.

“Hoo~”

Yang Ying took a deep breath, barely suppressing the shock in her heart. She then opened an app and input the name of her warehouse base.

[Virtue Map is navigating for you. Virtue Map reminds you... please fasten your seatbelt when driving... do not drink and drive...]

Seeing this,

Xuanqing glanced at the pattern on her phone screen, quickly understanding. He turned into an invisible golden light with Yang Ying once more, speeding towards their destination.

The surrounding scenery changed.

In just a few moments, they had arrived at the entrance of the warehouse base. The navigation hadn't even caught up yet, so the pointer on the screen was still at their previous location.

"Palace... Lord, you're too fast!" Yang Ying was astounded.

Upon hearing this,

Xuanqing waved his hand and said nonchalantly, "This is the Earth-Leaping Golden Light, one of the Thirty-Six Heavenly Arts. Such speed is nothing extraordinary!"

In fact, this speed was merely a casual display by him. If he used his full strength, he could go at least twice as fast.

"Palace Lord... you are truly amazing!" Yang Ying's eyes were filled with admiration.

She had been practicing "Cloud Stepping Travel" recently, but she was too busy with work to find much time for it. She hadn't even managed to master the first step, the Light Body technique.

"Palace Lord... everything is in the warehouse. I'll have someone open it right away... You..."

Before she finished speaking,

Xuanqing interrupted her, saying, "No need, I have already taken the items from inside."

"Next, continue to collect various industrial mother machines, regardless of the type, and pay attention to the cutting-edge technology available on the market, collecting information on them."

“If you encounter any difficulties or troubles that you cannot solve later, just let Huai Qingyun inform me!”

After explaining these things.

Xuanqing used Earth Leaping Golden Light again and left Hong Kong.

As for the things inside the warehouse, he directly used the Qi Flower to turn them into a mana giant hand and caught them all into the game backpack.

At this moment.

Yang Ying’s mouth was wide open, her eyes were somewhat dull, and her brain had already fallen into a crash.

After a long while.

She regained her senses, hurriedly took out her phone, and made a call to her assistant to notify everyone to evacuate the warehouse.

Then, she rushed to the warehouse to destroy the surveillance footage and help the palace lord deal with the situation, so as not to expose the secret.

What she didn’t know was that Xuanqing didn’t care about these things at all, because even if the entire Water Blue Star had a nuclear explosion, he would be completely fine.

On this side.

Qingping Mountain.

Half an hour later.

A golden light invisible to mortals shot into the inner courtyard of the Taoist temple, and it was Xuanqing returning from Hong Kong.

“Previously, I only let Yang Ying be in charge of charity, which was a bit of a waste!”

Xuanqing’s eyes were filled with deep emotions, thinking about the two things he asked Yang Ying to handle, which were well managed, and he felt relieved in his heart.

This is also the reason why he wants to create a force in the real world, which would save him a lot of trouble.

Later.

He sat cross-legged on the cushion, thinking about the next plan in his mind.

First of all, there should be no problem with Yang Ying. However, due to the lack of manpower, Elder Jingde and Elder Qianqing could not expand the Taoist gate.

His solution was to refine the magic treasures that temper the heart and mind, to lower the threshold for recruiting Taoists and fundamentally solve the problem of insufficient manpower.

After thinking about it.

“For the magic treasures to temper heart and mind... I will refine a ‘Heart-probing Road’ and a ‘Refining Heart Tower’!” Xuanqing made a decision in his heart, with his chin resting on it.

Heart-probing Road and Refining Heart Tower... These types of magic treasures are not rare treasures in the game world.

Especially in the traditional cultivation sects of East Sheng Divine Continent, such as Mount Shu, Kunlun, etc... they are basically standard configurations.

More importantly.

After several banquets and gifts from the West Sea Dragon Tribe, the materials needed to refine such magic treasures have been lying in the game backpack.

Of course, to refine these two magic treasures, he still needs to explore them himself, because Black Wind Mountain does not have any experts in refining treasures.

“There’s nothing urgent in the real world for now... As for refining Heart-probing Road and Refining Heart Tower, it can be done in the game world!”

“So... go back to the game and use time acceleration to practice and study how to refine treasures at the same time!”

Xuanqing thought silently, having already made up his mind.

With a thought.

“Enter the game!”

Game World.

Black Wind Mountain.

Xuanqing, who was originally on idle state, suddenly opened his eyes, then took out the Immortal Official Document and dialed Gentleman Bai She’s leader.

Moments later.

A figure quickly approached from the bottom of the mountain, then bowed and saluted.

“My lord!”

Chapter 226: Attack from the Heaven and Earth Will of Water Blue Star!

This moment.

Xuanqing had a feeling that he might only need to accelerate for another hundred or eighty years at most to condense the Divine's flower of National Luck.

However... the notification sound in his mind rang, which meant that there were extremely urgent matters in the Real World.

Judging by the characters of Elder Jingde and Yang Ying, the matter must be significant.”

Forget it, forget it. The process of condensing the Divine's flower takes a considerable amount of time. I'll finish handling the matters of the Real World first, then come back to breakthrough with peace of mind.”

Xuanqing let out a deep sigh.

Having a thought.

“Exit the game!”

The Real World.

Qingping Temple.

Xuanqing opened his eyes, a hint of surprise flashing across his face.

As soon as he exited the game and returned to reality, he felt an extremely familiar repulsive force, as if the entire world was squeezing against him.

He was familiar with this feeling... At the beginning, when he had condensed his Immortal Body and stepped onto the Way of Celestial Immortals, the situation in the Real World had been like this.

In the end... by conferring the title of Earth Deity, he had strengthened the connection between his God Soul and the Real World, temporarily solving the problem.

Could it be because my God Soul has grown stronger again, even about to condense the Divine's flower, that merely conferring the title of Earth Deity cannot suppress it?"

Xuanqing frowned, secretly guessing in his heart.

Unexpectedly.

Before he could solve his subordinates' urgent communication, he encountered trouble first.

"The Heaven and Earth Will of Water Blue Star... is truly troublesome!"

"Sooner or later, I will refine you!" A strange color flashed in Xuanqing's eyes.

The reason for this incident, where the power of the entire world seemed to be squeezing against him, was due to the Heaven and Earth Will of Water Blue Star causing mischief.

Just as he was deep in thought.

Humming-

The Immortal Official Lu card at his waist... was trembling repeatedly.

Sir... it's not good, we're in trouble, please come out quickly!" Huai Qingyun's childish voice sounded on the Immortal Official Lu card.

It's worth mentioning.

In the Real World, only Huai Qingyun and the conferred Black Turtle, because they were subordinate gods under Xuanqing's command, could contact him in this way. For other people, they could only contact him through phone calls, text messages, and the like.

Hearing the voice from the Immortal Official Lu card.

Xuanqing finally came back to his senses.

Qingping Temple.

Inside the Great Hall.

Without the usual hustle and bustle, there were only a few people in the entire hall: Elder Qianqing, Elder Jingde, Huai Qingyun, and Yang Ying.

All their faces were filled with anxiety, and their eyes glanced at Huai Qingyun from time to time.

Suddenly.

I have come out of closed-door cultivation. You all come to the inner courtyard quickly!”

A voice sounded, causing excitement to appear on the faces of the four people.

Great... Sir had finally come out of closed-door cultivation.

The next moment.

With anxious steps, they transformed into afterimages and rushed quickly into the inner courtyard.

“Greetings, temple master!”

“Sir!

The four of them made the Yin Yang Fish finger gesture in respect. No matter how urgent the situation is, proper etiquette cannot be neglected.

“What happened? What’s the urgency?” Xuanqing nodded slightly and asked in a solemn tone.

Upon hearing this.

Everyone looked at each other, with Elder Jingde stepping forward, a deep bitterness on his face.

“Palace Lord...a month ago, Yan Country’s space monitoring station detected six meteorites with a diameter of more than several hundred meters, falling in the direction of Changling, Jiang City, Yang City... and so on.”

“What’s even more coincidental is that, according to the simulation calculations, the general landing places of these meteorites are all located in our most prosperous Taoist temples.”

“As short as two or three days, and at most one week, meteorites will enter the atmosphere, and by then... it will be a terrifying disaster!”

Listening to Elder Jingde’s narration.

Xuanqing’s brows furrowed deeper and deeper.

Meteorites are not surprising, as after all, the real world exists in the form of planets, with countless celestial bodies like asteroids, meteorites in outer space, and even more meteorite debris caught by Water Blue Star every year.

But what's weird is that all these meteorites that came to Water Blue Star are falling in the most prosperous Taoist temples, which deserves further contemplation.

Thinking about it.

Xuanqing sat cross-legged and closed his eyes.

With his hands forming finger gestures, he constantly changed them, uttering words as if deducing something.

Thirty-Six Heavenly Arts... Knowing the Future Reversely!

Great Achievement Level of Knowing the Future Reversely is not as simple as just 'predicting the future', but also deducing the causes and consequences of one thing.

Seeing this scene.

Everyone knew that their palace lord was using his divine power to deduce, so they all held their breath and waited quietly.

At this moment.

Under the prediction of divine power.

Xuanqing sensed a familiar aura, this aura... being the will of Heaven and Earth on Water Blue Star.

And as the deduction deepened.

The cause and effect of this meteor shower deliberately falling into the prosperous Taoist temples slowly emerged before his eyes.

Moments later.

"Hu~"

Xuanqing opened his eyes, exhaling a turbid breath, and then, under the eager gaze of the crowd, began to speak:

"The reason why this matter is so strange... it actually has something to do with me!"

When these words came out.

Everyone was astonished.

Could it be that this matter had something to do with the palace lord/Sir, did he provoke some enemy, and then the enemy summoned meteorites for revenge?

Sir, is there an enemy using divine power to summon meteorites to take revenge on us?"

Huai Qingyun, being simple-minded and straightforward, couldn't help but ask what he was thinking.

Hearing the child's words.

Xuanqing was slightly taken aback, first nodded, and then shook his head.

Seeing this.

Everyone was more confused, not understanding the meaning of this nodding and shaking of the head.

"Qingyun's words are... both right and wrong!"

Xuanqing said solemnly.

Next.

He then explained in detail the results obtained from deduction to everyone.

"These meteorites... are indeed not coincidences, but the real culprit behind the scenes... is not an enemy in a broad sense, and it can even be said... not a person!"

Not a person... could it be a demon?

But the palace lord/Sir has said that the real world does not have spiritual Qi, so there is no soil for the birth of supernatural forces?

Everyone was curious, but could only endure their curiosity and continue to listen.

Then they heard Xuanqing continue to speak:

The real culprit is an... um... very special existence, which is... the Will of Heaven and Earth, or more accurately, the Will of Water Blue Star."

"And those meteorites, they didn't just coincidentally fall into Water Blue Star, but were actively captured by Water Blue Star."

Furthermore... the Will of Heaven and Earth of Water Blue Star, the reason it chose to let the meteorites fall... into our most prosperous Taoist temples is because the temples contain a power of incense fire that conflicts with Water Blue Star's own power..”

Chapter 226 - 226: 226: Attack from the Heaven and Earth Will of Water Blue Star!

This moment.

Xuanqing had a feeling that he might only need to accelerate for another hundred or eighty years at most to condense the Divine's flower of National Luck.

However... the notification sound in his mind rang, which meant that there were extremely urgent matters in the Real World.

Judging by the characters of Elder Jingde and Yang Ying, the matter must be significant.”

Forget it, forget it. The process of condensing the Divine's flower takes a considerable amount of time. I'll finish handling the matters of the Real World first, then come back to breakthrough with peace of mind.”

Xuanqing let out a deep sigh.

Having a thought.

“Exit the game!”

The Real World.

Qingping Temple.

Xuanqing opened his eyes, a hint of surprise flashing across his face.

As soon as he exited the game and returned to reality, he felt an extremely familiar repulsive force, as if the entire world was squeezing against him.

He was familiar with this feeling... At the beginning, when he had condensed his Immortal Body and stepped onto the Way of Celestial Immortals, the situation in the Real World had been like this.

In the end... by conferring the title of Earth Deity, he had strengthened the connection between his God Soul and the Real World, temporarily solving the problem.

Could it be because my God Soul has grown stronger again, even about to condense the Divine's flower, that merely conferring the title of Earth Deity cannot suppress it?"

Xuanqing frowned, secretly guessing in his heart.

Unexpectedly.

Before he could solve his subordinates' urgent communication, he encountered trouble first.

"The Heaven and Earth Will of Water Blue Star... is truly troublesome!"

"Sooner or later, I will refine you!" A strange color flashed in Xuanqing's eyes.

The reason for this incident, where the power of the entire world seemed to be squeezing against him, was due to the Heaven and Earth Will of Water Blue Star causing mischief.

Just as he was deep in thought.

Humming-

The Immortal Official Lu card at his waist... was trembling repeatedly.

Sir... it's not good, we're in trouble, please come out quickly!" Huai Qingyun's childish voice sounded on the Immortal Official Lu card.

It's worth mentioning.

In the Real World, only Huai Qingyun and the conferred Black Turtle, because they were subordinate gods under Xuanqing's command, could contact him in this way. For other people, they could only contact him through phone calls, text messages, and the like.

Hearing the voice from the Immortal Official Lu card.

Xuanqing finally came back to his senses.

Qingping Temple.

Inside the Great Hall.

Without the usual hustle and bustle, there were only a few people in the entire hall: Elder Qianqing, Elder Jingde, Huai Qingyun, and Yang Ying.

All their faces were filled with anxiety, and their eyes glanced at Huai Qingyun from time to time.

Suddenly.

I have come out of closed-door cultivation. You all come to the inner courtyard quickly!”

A voice sounded, causing excitement to appear on the faces of the four people.

Great... Sir had finally come out of closed-door cultivation.

The next moment.

With anxious steps, they transformed into afterimages and rushed quickly into the inner courtyard.

“Greetings, temple master!”

“Sir!

The four of them made the Yin Yang Fish finger gesture in respect. No matter how urgent the situation is, proper etiquette cannot be neglected.

“What happened? What’s the urgency?” Xuanqing nodded slightly and asked in a solemn tone.

Upon hearing this.

Everyone looked at each other, with Elder Jingde stepping forward, a deep bitterness on his face.

“Palace Lord...a month ago, Yan Country’s space monitoring station detected six meteorites with a diameter of more than several hundred meters, falling in the direction of Changling, Jiang City, Yang City... and so on.”

“What’s even more coincidental is that, according to the simulation calculations, the general landing places of these meteorites are all located in our most prosperous Taoist temples.”

“As short as two or three days, and at most one week, meteorites will enter the atmosphere, and by then... it will be a terrifying disaster!”

Listening to Elder Jingde’s narration.

Xuanqing’s brows furrowed deeper and deeper.

Meteorites are not surprising, as after all, the real world exists in the form of planets, with countless celestial bodies like asteroids, meteorites in outer space, and even more meteorite debris caught by Water Blue Star every year.

But what's weird is that all these meteorites that came to Water Blue Star are falling in the most prosperous Taoist temples, which deserves further contemplation.

Thinking about it.

Xuanqing sat cross-legged and closed his eyes.

With his hands forming finger gestures, he constantly changed them, uttering words as if deducing something.

Thirty-Six Heavenly Arts... Knowing the Future Reversely!

Great Achievement Level of Knowing the Future Reversely is not as simple as just 'predicting the future', but also deducing the causes and consequences of one thing.

Seeing this scene.

Everyone knew that their palace lord was using his divine power to deduce, so they all held their breath and waited quietly.

At this moment.

Under the prediction of divine power.

Xuanqing sensed a familiar aura, this aura... being the will of Heaven and Earth on Water Blue Star.

And as the deduction deepened.

The cause and effect of this meteor shower deliberately falling into the prosperous Taoist temples slowly emerged before his eyes.

Moments later.

"Hu~"

Xuanqing opened his eyes, exhaling a turbid breath, and then, under the eager gaze of the crowd, began to speak:

"The reason why this matter is so strange... it actually has something to do with me!"

When these words came out.

Everyone was astonished.

Could it be that this matter had something to do with the palace lord/Sir, did he provoke some enemy, and then the enemy summoned meteorites for revenge?

Sir, is there an enemy using divine power to summon meteorites to take revenge on us?"

Huai Qingyun, being simple-minded and straightforward, couldn't help but ask what he was thinking.

Hearing the child's words.

Xuanqing was slightly taken aback, first nodded, and then shook his head.

Seeing this.

Everyone was more confused, not understanding the meaning of this nodding and shaking of the head.

"Qingyun's words are... both right and wrong!"

Xuanqing said solemnly.

Next.

He then explained in detail the results obtained from deduction to everyone.

"These meteorites... are indeed not coincidences, but the real culprit behind the scenes... is not an enemy in a broad sense, and it can even be said... not a person!"

Not a person... could it be a demon?

But the palace lord/Sir has said that the real world does not have spiritual Qi, so there is no soil for the birth of supernatural forces?

Everyone was curious, but could only endure their curiosity and continue to listen.

Then they heard Xuanqing continue to speak:

The real culprit is an... um... very special existence, which is... the Will of Heaven and Earth, or more accurately, the Will of Water Blue Star."

"And those meteorites, they didn't just coincidentally fall into Water Blue Star, but were actively captured by Water Blue Star."

Furthermore... the Will of Heaven and Earth of Water Blue Star, the reason it chose to let the meteorites fall... into our most prosperous Taoist temples is because the temples contain a power of incense fire that conflicts with Water Blue Star's own power..”

Chapter 227 - 227: 227: Don't worry, I (humble form used by a Taoist) will lend a hand!

As Xuanqing explained the story.

People like Elder Jingde and Huai Qingyun, finally understood why Sir nodded and then shook his head.

Heaven and Earth Will!

This was the first time they had ever heard of such a phrase.

Among them.

Having been exposed to Western culture, Yang Ying's mind lit up with enlightenment, and she immediately thought of a deity in ancient Greek mythology.

“Palace lord... is this Heaven and Earth Will the god of earth in ancient Greek mythology?” Yang Ying asked curiously.

“No!”

Xuanqing shook his head.

He was quite certain that with the conditions of the real world, it was impossible for gods to be spontaneously born from nature.

Even when he conferred Huai Qingyun and Old Turtle as the Earth and Water gods, it was because of the Imperial Edict Token given by the Donghua Emperor in the Game World.

“The Heaven and Earth Will of Water Blue Star is not a personified deity, but a natural operating rule.”

“For example, people eat when they are hungry, sleep when they are tired, wood floats on water, clear Qi rises, and turbid Qi sinks... and so on!” Xuanqing explained.

Hearing these words.

Everyone nodded with a vague understanding, as if they had grasped something, but missed the key point, and were in a daze.

“Palace lord... then how do we solve the matter of these meteorites?” Elder Jingde asked with a solemn expression.

It’s worth mentioning that.

Currently, meteorite interception technology has advanced rapidly. Many small asteroids and large meteorites are often intercepted in space before they land.

However, this time Water Blue Star’s Heaven and Earth Will had actively captured them. Their speed had exceeded everyone’s imagination.

By the time they detected these meteorites, it was already impossible to intercept them. At the most, they could evacuate the people in advance and reduce the losses to some extent.

“You don’t have to worry about the meteorites, I will handle them myself.” Xuanqing said lightly.

Upon hearing these words.

Looking at their palace lord’s calm expression, everyone was reassured.

Yes... perhaps these meteorites are a great challenge for all of humanity, but for Sir, it must be a trivial matter.

“By the way, what is the current situation of the meteorite landing site?” Xuanqing suddenly asked.

“Reporting to the palace lord, the Natural Disaster Bureau has issued a black warning and asked people living in the meteorite landing areas to evacuate the area as soon as possible.”

“They also sent numerous employees to either persuade or forcibly remove the people...”

Elder Jingde explained quickly.

As the Heavenly Master of the Daoist Way and the person in charge of Yan Country’s Taoist temple, he naturally knew these things very well.

Upon hearing this.

Xuanqing pondered for a moment, then said: “Elder Jingde, contact the Natural Disaster Bureau and cancel... never mind!”

“There’s no need to get involved, just let nature take its course!”

Initially.

Xuanqing wanted to have Elder Jingde contact the government office and tell them not to worry about this matter, but he realized that the government office would not agree to his request.

Instead of trying to deal with the government office, it is better to let nature take its course.

After all, once the meteorite incident is over, the relocated people will return, and the loss will just be some minor economic loss.

Xuanqing looked at everyone and said, "You don't need to worry about the meteorites. Just focus on your own tasks."

Having said that.

His gaze fell on Huai Qingyun, who he then commanded:

"Qingyun, go and replace the Gathering Qi Beads."

"Yang Ying... continue with the base expansion, the goal is... choose a suitable location and build an 'Industrial Park' that can produce various production lines."

"Elder Jingde... Elder Qianqing, you..."

Just as he was speaking, he paused briefly.

Xuanqing waved his right hand.

The next moment.

Two light orbs floated in the air. When the light dispersed, the true forms of the orbs were revealed.

At once.

Everyone's attention was drawn to the two objects floating in the air.

They appeared to be... a mini pagoda and a mini stone staircase. They were the Heart-probing Road and the Refining Heart Tower that Xuanqing had figured out and crafted in the Game World.

"This is the Heart-probing Road and the Refining Heart Tower... The Daoist Academy is under Elder Qianqing's supervision. Go ahead and refine these two magic treasures!"

As he spoke.

Xuanqing waved his right hand again.

Both magic treasures transformed into rays of golden light, shooting towards Elder Qianqing and eventually merging into his brow.

Elder Qianqing only felt that there were two more things in his Sea of Consciousness, which were none other than the Heart-probing Road and the Refining Heart Tower.

“Concentrate, I will help you refine them!”

Hearing Sir’s voice.

Elder Qianqing dared not slack off and immediately concentrated his mind on his brow.

In just a short moment.

With the help of Xuanqing’s massive God Soul, Elder Qianqing had mastered the two magic treasures, and in his mind... relevant information also emerged on how to control them.

Once everything was settled.

Xuanqing withdrew his God Soul, looked at everyone, and said indifferently,

“Everyone, you may leave now.”

Upon hearing this.

Everyone bowed and shouted in unison, “We will now take our leave!”

As his subordinates left.

Only Xuanqing remained alone on Qingping Mountain.

Feeling the repulsive force emanating from the surrounding space, he pondered in his heart.

“Continuing to confer more deities....is just a temporary solution to the problem. I must find a way to completely eliminate the Heaven and Earth Will!”

Xuanqing furrowed his brows and racked his brain for solutions.

In fact.

For him at the present moment, it would not be difficult to eliminate the Heaven and Earth Will of Water Blue Star.

The simplest way was to utilize his extraordinary divine power to directly destroy the entire Water Blue Star, and then the Heaven and Earth Will depending on it as a carrier would naturally be destroyed as well.

The difficulty lied in eliminating Heaven and Earth Will while preserving Water Blue Star.

While Xuanqing on Qingping Mountain brainstormed on how to thoroughly resolve Heaven and Earth Will...

Elsewhere.

Jinghai.

The meeting hall of the Natural Disaster Bureau.

Here, countless top experts in fields such as meteorology, astronomy, geology, and aerodynamics gathered.

“As the most top-notch experts in Yan Country, is there really nothing we can do with our current technology?”

A huge screen was displaying a slide presentation, featuring images of six meteorites crashing into Water Blue Star.

The elderly man with white temples spoke while holding a pointer stick, asking the experts below with the smallest shred of hope.

However.

The top experts in various fields were all silent at this moment.

Although technology has advanced significantly, giving people the illusion that they have conquered nature.

The experts in the industry, however, are well aware that in the face of real natural disasters, the power of human technology is truly minuscule.

“Sigh!”

The elderly man with white temples heaved a long sigh..

## Chapter 228 - 228: 228: Establish the Heavenly Court, Create Reincarnation, Control the Totem of the Human Race!

As the Minister of the Natural Disaster Bureau.

The old man was clearer than anyone about the terror of this meteor disaster.

The reason for summoning experts from across the nation was merely out of a desperate glimmer of hope.

Yet, with the hope now shattered, he couldn't help but look dejected.

"Dismissed!" The old man wearily gestured at everyone, before leaving the venue with the help of his assistant.

Back in his office.

The old man slumped in his chair, staring blankly at the cup of water on the desk... remaining silent for a long time.

A long time passed.

Knock- knock-knock

Accompanied by a few knocks on the door, a young man in work clothes came in, holding a bag of documents in his hands.

"Elder Ke, we have some latest developments from the observation station. We have confirmed the exact time of landing for the six meteors!"

As he spoke.

The young man opened the documents in his hand and continued to explain:

"Four days from now, namely the first day of the New Year in the lunar calendar, at 6:4030 am, the first B-2563 meteor will break through the atmosphere...."

"And finally, at 6:43 am, the last B-25. will land on the ground, with its impact range covering the coordinates..."

Listened to the young man's words.

The old man waved his hand somewhat sadly.

These data, other than allowing them to see the disaster more accurately, could not solve any problems.

Suddenly.

A figure came up in his mind and he couldn't help but cheer up. He quickly asked, "Little Liao, is there any news from Daoist Jingde from the Taoist sect?"

Upon hearing this.

The young man was a little surprised, then shook his head.

At this moment.

Ring-ring...ring-ring....

The phone on the desk rang non-stop.

Elder Ke picked up the telephone, "Hello... this is the Natural Disaster Bureau... Daoist Jingde?"

Upon hearing Daoist Jingde's familiar voice emanating from the phone... his spirits suddenly lifted.

"Daoist Jingde... Did he come out of seclusion... what did he say, can this matter be resolved?"

Elder Ke's voice was a bit excited, as if clinging onto the last straw.

Then.

Accompanied by Elder Jingde's voice on the other end of the phone, Elder Ke's cheeks became increasingly flushed, and he was panting heavily.

This scene made the young man beside him a little anxious, fearing that Elder Ke might pass out from the excitement.

Moments later.

The phone was hung up.

Elder Ke's eyes were shining, and he excitedly grabbed the young man's shoulders, exclaiming somewhat hysterically, "Little Liao... we're saved!"

"We can resolve this meteor incident... the one from the Taoist sect has come out of seclusion and said he will take care of this trouble!"

“Quick, call upstairs, tell them not to shut down the infrastructure system, and those citizens who haven’t evacuated... need not...”

Before he could finish speaking, he was interrupted.

“Elder Ke, are you sure you want me to say this to them?”

Little Liao shrugged, then said quietly, “Although the one from the Taoist sect is mysterious, unless he can prove he can stop the meteorites...”

“Otherwise... they won’t agree!”

Upon hearing these words.

Elder Ke looked stunned at first, then after a thought, he deflated all at once, losing his spirit.

Meanwhile.

At Qingping Mountain.

“Got it!”

Xuanqing opened his eyes, a hint of brilliance flitting within them.

After much contemplation, he finally came up with a method... which could fully preserve the Water Blue Star and swallow the will of the Heaven and Earth completely.

In simple terms, the will of Heaven and Earth is a special magnetic field of the Water Blue Star.

He just needs to create another kind of magnetic field to replace it. By then... whether it’s destruction, or swallowing... there won’t be any problem at all!”

“In the Game World, due to its special will of Heaven and Earth, hot weapons, even laser weapons, all suffer a great weakening.”

“But in the Real World, there is no trace of Spiritual Qi at all, causing no place for the Shinto, and no bizarre happenings.”

“Then... I will replace the original will of Heaven and Earth in the Real World with the power of Heaven, Earth, and Humans!”

The more he thought about it.

The brighter Xuanqing’s eyes became.

Once his idea proves successful, then this Water Blue Star... would truly become his Water Blue Star.

“Establish a Heavenly Court, create a cycle of Hell, hold the faith totem of the Human World, directly swallow Water Blue Star’s will of Heaven and Earth, and finally make a scapegoat!”

Boom!

The sky darkened, as a lightning bolt descended from the sky.

Perhaps the will of the Heaven and Earth felt something, this thunderbolt, unbiased and impartial, struck right at Xuanqing.

“Heh heh, overestimating oneself!”

A disdainful smile curved up Xuanqing’s lips, he regarded the thunderbolt as nothing, letting it hit him, but not even a splash was made.

He flicked his whisk in hand, dissolving into thousands of illusory strands, easily dispelling the dark clouds in the sky.

The Power of Heaven and Earth... might pose some threats to mortals, but for him, it was nothing more than a lamb awaiting slaughter.

The reason he did not slay it was simply because it was not yet fattened.

Hum hum-

The dark clouds in the sky exhausted their last bit of strength; after giving a last reluctant hum, they disappeared completely.

“If it were Heavenly Tribulation in the Game World, I might give you some respect, but for your thunderbolt in the Real World... huh huh!”

Xuanqing shook his head as he laughed.

Afterward.

He continued to sit quietly, waiting for the meteor to fall.

He planned to solve the meteor matter first, then return to the Journey to the West World to condense the Divine’s flower, before carrying out the idea in his mind... about creating the forces of Heaven, Earth, and Human in the Real World.

As the saying goes, one man’s joy is another man’s sorrow.

Facing the impending meteor calamity, the local people affected are undoubtedly in great anguish.

Especially those living close to the Taoist temple, upon learning that their 'homes', which did not come easy... and was even still under decades of loans, is about to be destroyed by a meteor... who could understand what they were feeling?

Changling City.

The First Observatory in Changwu County.

Inside the Main Hall.

"Pray to the Left Envoy Immortal and Five Thunder Ambassador to protect us, make the meteor in the sky disappear!"

"Wuwu.. wuwu, my whole life's all this set of house, my son is counting on this house to get married, pray for the Immortal's protection.."

"Heaven, please open your eyes..."

Inside the Main Hall.

Dozens of locals kneel on the futon, some facing the Divine Statue of The Three Pure Ones, some towards the god tablet, continuously kowtowing.

Facing all of this.

The old Taoist priest standing in front of the Main god tablet looked into the hall, a deep helplessness in his gaze, his feelings were incredibly complex... there was loss, and there was also pain.

Next to the old Taoist priest.

There were also two members of the firefighter team.

Seeing all this, their eyebrows frowned deeply. One of the firefighters couldn't help but say, "Daoist, are you really not leaving with us?"

"Immeasurable Longevity and Fortune!"

The old Taoist priest glanced at the crying believers in the main hall, sighed in his heart, but said very firmly:

"I want to try to persuade them more, you go first, I have prepared a bus, if I managed to persuade these believers, I can leave on my own!"

## Chapter 229: Abnormalities in Meteorite Landing Site.

Hearing these words.

The two firefighters looked at each other.

They even wanted to say good words cant persuade the damned ghost, but as a firefighter, such words can only be thought in their hearts and cannot be said.

Taoist You are a sensible person, is it really worth it to do this, why dont you just come with us.

One of the firefighters still wanted to continue persuading.

Immeasurable Longevity and Fortune!

However.

The old Taoist priest bowed his hands and recited his Daoist Name. Although he did not answer, he still expressed his thoughts.

Seeing this.

The two firefighters shook their heads and sighed helplessly.

Taoist take care, if it really cant be done its fate. You never mind, take care!

Take care, both of you laymen!

The old Taoist bowed his hands and watched the two leave.

Then.

He returned to the main hall, looking at the people inside, and thought about how to comfort them.

At this moment.

Time came to the first day of the New Year.

At 6 a.m., the sky was still a dark and foggy patch.

While other places were bustling with joy, welcoming the New Year, the people of the meteorite landing site had fallen into chaos.

The people near the disaster area fully displayed the ups and downs of life.

Some were unwilling to part with their family property, constantly moving various pieces of furniture, while others took advantage of the chaos to engage in theft.

Of course, there were also various workers either morally noble or dutiful, constantly comforting the people to give up their property and focus on saving their lives.

Half an hour before the meteor landed on the ground

Dear viewers, Im Reporter Bingbing. Now we have arrived at the landing site of the first B-2563 meteor

A female journalist in sportswear, looking clean and sharp, held a microphone and explained the situation to the camera.

Then.

The camera moved away from the journalist and pointed to the side.

Two firefighters were seen controlling a woman with their hands and feet and walking towards them.

Although the woman was restrained, her body kept twisting, and she kept screaming and wailing unwilling to leave.

As you can see, with the cooperation of various departments, the workforce is trying hard to persuade the people to evacuate.

Now, there is less than half an hour before the meteor lands. After the workforce makes the final persuasion, they will evacuate.

Online.

All major short video platforms have started live streaming simultaneously.

When the netizens saw this scene, they criticized the woman for being unreasonable. Instead of evacuating peacefully, she forced others to use force.

Good words cant persuade the stubborn, let this old woman go with the meteor.

Sigh, this woman values money more than her life.

To the guy upstairs, Im a local. This woman is pitiable. She lost her husband and child, and the only thing she has left is a house

Have you noticed something? The announced meteorite landing sites are all hitting Daoist temples?

After a netizen sent this message.

Suddenly.

The barrage paused for a moment.

Moments later.

Damn- Damn, I didnt notice until you mentioned it, this is too fantastic, right?

The meteor doesnt hit other places, it hits Taoist temples. Could it be that the Daoist offended the heavens and people, and suffered heavenly punishment?

Oh, I heard that the Daoist Academy pays well. I was planning to go to the Daoist Academy after my college entrance exam. Now I have to think about it.

Well, to be honest, the Daoist has been quite active recently and has done a lot of good deeds.

Hehe, a good deed? I think its similar to Buddhism, both doing trivial good deeds?

Amitabha, we all need to repent, only then will God bless us!

In an instant.

Countless netizens on various platforms, including official media live streaming rooms, heatedly discussed the meteorites landing site.

Some criticized the Daoist Temple, others thought it was not bad, and some were convinced that it was just a coincidence.

Time just like that, slipped away bit by bit.

Soon.

Only ten minutes were left until the first meteorite landed.

Dear viewers, there are ten minutes left until the meteorite lands. It is reported that the landing will affect a radius of one kilometer, and we have to evacuate!

Next we will continue to livestream using a drone!

While saying this.

The journalist and the cameraman got on a pickup truck and quickly moved away from the meteorite landing site.

At the same time.

A Giant Boundary Drone carrying a high-definition camera slowly rose into the sky, presenting an aerial view of the ground in the streaming room.

In the frame.

The field of view gradually became longer and larger.

A careful netizen discovered something unusual through this aerial view.

Quick, look, there seems to be someone inside that Daoist temple!

Holy crap theres a living person what is he doing, how come he hasnt left yet?

Authorities hurry up and rescue people, theres still someone near the Daoist temple who hasnt evacuated!

Here.

The journalist, through the barrage of messages, also discovered the situation and hurriedly controlled the Giant Boundary Drone to focus the camera towards the Daoist temple and zoom in.

As the picture zoomed in!

Everyone finally saw the situation inside the Daoist temple.

They saw an old man wearing a Daoist robe, dragging an unconscious woman by the hand.

At the entrance of the Daoist temple, there was a bus, and the Elder Daoist was dragging the woman onto it.

Some sharp-eyed netizens noticed the bus was already packed with people, and what was strange they were all unconscious.

At this moment.

At the scene of the Daoist temple.

The old Taoist priests body was soaked in sweat, his eyes were full of exhaustion, but he didnt rest. He gritted his teeth and rushed into the Daoist temple again.

Damn it the formula for the sleeping potion was passed down by my master. It must be because the medicinal ingredients are not old enough that it takes so long to knock these idiots out!

While cursing, the old Taoist priest hoisted the last woman onto his shoulder and, exhausted, ran towards the bus.

Thump-

Not daring to delay a moment, he casually threw the woman onto a young man providing a cushion.

Then.bender

Braking, clutching, shifting gears, accelerating and smoothly pressing a red button to close the bus door.

Rumble-

The old Taoist priest drove the bus, carrying a group of unconscious people, speeding crazily down the road.

This scene.

Was captured clearly by the Giant Boundary Drone flying in the sky.

At this moment.

Almost everyone in Yan Country was watching the live broadcast of the meteorite landing. The firefighter who had visited the Daoist temple before was also watching.

After he saw the old Taoist priest finish all these actions, he finally realized the situation, and quickly typed a message on his phone, sending a barrage out.

Those unconscious people are the ones who would rather die than leave. Im a firefighter. At that time, I even advised this old Daoist priest to leave first, but he insisted on staying and trying something else.

Chapter 230: The Giant Hand Like a Mountain!

This firefighter, in the barrage, detailed the process of comforting the old Taoist priest before and his speculation, in the form of barrage.

Immediately.

Nctizens reacted, it seemed that the old Taoist priest had actually stunned these stubborn commoners with some kind of drug, and dragged them away forcefully

Holy shit, this old Taoist priest is incrediblehe saved so many lives!

Haha, its still our Daoist way thats good, as they say chaos brings the Taoist down the mountain, in times of prosperity.

Amitabha, dont talk nonsense upstairs, this disaster is caused by the Daoist way, otherwise, why would it fall only on the Taoist temple?

Which monk are you? Discrediting our Daoist way, Ill TM eat you, then eat your temple, eat, eat, eat, eat, eat.

At this moment.

On the expressway in Changwu County.

A bus was driving at a speed of sixty miles per hour.

In the drivers seat, the old Daoist was anxious, he had already stepped on the accelerator to the maximum, but the speed still could not go up.

Its over, I forgot that this bus has a speed limit, Im dead for sure! Looking at the dashboard, the old Daoists eyes were filled with despair.

The time on the dashboard was:

6:39:56

Less than a minute left until the meteorite broke through the atmosphere.

According to expert estimates, the size of the B-2563 meteorite would make it impossible for any living creature to survive within a radius of several kilometers after it hit the ground.

He was less than two kilometers away from the Taoist temple now.

Under these circumstances, he and the commoners on the bus would all die on the bus.

Immeasurable Longevity and Fortune, is it true that Heaven wants to destroy my Daoist way?

Thirty seconds later.

Outside the atmosphere of Water Blue Star.

A huge, dark meteorite was attracted by Water Blue Stars gravitational force, passing through interstellar space and entering the Earths atmosphere.

Whoosh-

Due to changes in gravity and density, the moment the meteorite entered, it was like a sharp knife piercing into flesh.

Immediately afterwards.

Under the influence of the Will of Heaven and Earth, an incredibly powerful gravitational force enveloped the meteorite, controlling its descent into the predetermined area.

The meteorite rubbed against the atmosphere, causing it to ignite instantly.

Boom-!

Fire.

The meteorite transformed into a huge and scorching fireball, passing through the diffuse layer at an extremely terrifying speed.

Immediately afterwards.

It again increased its speed at a depth of 480 kilometers in the warm layer- violent friction caused the flames on the meteorite to shoot up for kilometers.

Fast!

Incredibly fast!

Visible to the naked eye.

The huge fireball that the meteorite had turned into passed through the warm layer, middle layer, stratosphere, and finally tore through Water Blue Stars last barrier the ozone layer!bender

At this height.

On Water Blue Star, there was no need for telescopes, as it could be observed directly with the naked eye.

On Changwu Countys city expressway.

The old Taoist priest naturally sawthe glimmer of light in the sky.

If it were any other day, he might have taken out the tortoise shell copper coins and enthusiastically divined with the Six Yao.

But when this meteor fell toward his head, all that was left was despair!

In the live streaming room.

Under professional equipment, the image of the meteorite, which had already broken through the ozone layer, was incredibly clear.

The audience could even see the heat waves caused by the meteorites rapid descent that twisted the air around it.

Its over, its over, the meteorite is about to hit, Im afraid none of the people on that bus, including the old Taoist priest, will survive!

Sigh, its not just that, they say that in addition to the people in the Taoist temple who were forced to die, there were also some commoners who were unwilling to leave and hid quietly, Im afraid.

Tsk tsk- the old man deserved it, like I said, good words are hard to persuade

[Beep! Because you violated the software usage. You have been banned]

In the barrage, some people were worried, some were indifferent, some were disdainful in their hearts, and even a few with ulterior motives showed smiles.

Such a range of human emotions.

The meteorite is getting closer and closer.

In just a few seconds, it has already pierced through the ozone layer and entered the troposphere, which is the sky we see every day.

Gradually.

The barrage decreases.

Only the bus is left speeding on Changwu Countys expressway.

As the distance narrows.

The ground temperature has started to rise.

The old Daoist is already drenched in sweat. Sweat drips from his forehead into his eyes, but he doesnt care at all.

Perhaps he knows he can't escape anymore.

He releases the accelerator and presses the brake.

With great difficulty, the old Taoist lifts his legs and sits cross-legged on the chair, then closes his eyes and chants scriptures.

The Supreme says: Misfortune and fortune have no door, it's the people who invite them.

The rewards of good and evil follow one like a shadow, so there are gods in charge of rewards and punishments in Heaven and Earth.

Humming-

The sound of the meteorite rubbing against the air can already be heard. Facing the meteorite that will fall the next moment,

The old Daoist maintains a calm expression and continues chanting!

Depending on the severity of one's sins, their fortune is taken away, leading to poverty and frequent hardships. Everyone resents them, and disasters follow, while luck and celebration avoid

A chapter of the Supreme Responsive Scripture!

It's a gift he gives himself and the common people on this bus before their imminent death!

At this moment,

everyone quieted down.

Looking at the bigger and closer meteorite, they even slow their breathing, and their hearts rise to their throats.

The journalist responsible for reporting on the meteorites landing also holds his breath.

Finally.

The meteorite falls.

Seeing this scene,

The host closes his eyes, unable to bear looking at this tragic scene.

However.

The imagined situation of the gigantic meteorite hitting the ground did not happen.

All the people watching the live broadcast open their mouths wide, staring dumbfoundedly at the screen, with a strong shock in their eyes.

Only in the picture.

It seemed as if an enormous, semi-transparent hand appeared. One finger alone was the size of a high-rise building.

Whats scary is the comparison.

Compared to this world-ending giant illusory hand,

the flaming meteorite doesnt seem that big, instead, it looks small, like an undeveloped baby.

Moving!

The mountain-sized illusory hand moves.

It merely reaches for the flaming meteorite and easily grabs it as if catching a chick.

Finally,

The world-ending illusory hand gradually lifts into the sky after taking away the meteorite, eventually disappearing.

This scene.

Appears clearly in the live broadcast in front of all the audience.

Stunned!

Dumbfounded!

Countless people doubt whether they have cataracts that prevent them from seeing clearly or if they are too excited and have hallucinations.

The barrage that was originally dense on the screen has also disappeared.

Some netizens who were delayed and just entered the live streaming room even thought they accidentally closed the barrage function.

On the other side.

At the peak of Qingping Mountain.

A young Taoist priest in Taoist robes, holding a feather duster, is facing a blackish meteorite glowing silvery white..
