

The Immortal Cultivation Game Has Come True

Chapter 281: Chapter 254: It's Humanistic Science and

Technology that can truly help people overcome difficulties! _3

Barely surviving to his teenage years, the massive Yellow Sand Catastrophe struck once again. He followed the fleeing crowd and arrived at Black Wind City.

Unlike the previous sufferings, ever since moving to Black Wind City, there were no detestable tax officers, and the government officials even distributed seeds and helped in cultivating the wasteland for free.

Everything... everything was moving towards a better future.

Until one day.

The empire invaded, and he resolutely joined the army in order to protect his family's farmland and the hard-earned happiness.

In the end,

He stayed on a city wall. As a mere teenage soldier, he bit into the enemy's neck while being seriously injured, taking the enemy down with him.

The scene ends!

Abbot Dao Guang stood by the city walls, the previous scene flickering repeatedly in his mind.

In that young man's lifetime, he saw suffering, happiness, and lastly... the sacrifice of his life in pursuit of happiness!

He was at a loss for words for a long time.

“Hoo~”

Dao Guang inhaled deeply, turning to look at Xuanqing beside him. His expression held a trace of indescribable meaning.

However,

He didn't know – what they were seeing now was merely the appetizer. The true key to freeing people from suffering was far more than this.

“Dao Guang, the next place I will take you to is the real core of Black Wind Country, as well as the foundation of its establishment!”

Xuanqing's lips curled up ever so slightly.

Not waiting for the other party to speak, he once again swept Dao Guang up and transformed into a golden light soaring into the sky.

Black Wind's First Precision Machinery Factory!

Boom, boom

The massive sound of machines roared, echoing through the factory. Countless workers, dressed in white uniforms, operated massive machines.

Click- Click...

Precise machinery was produced one by one by the machines.

At that moment,

Although Dao Guang could not understand the machines, he was still stunned by the torrent of black machinery.

“Shimon cannot eliminate suffering, and even Daoism cannot eliminate suffering. The only way to truly eradicate suffering... is by relying on people themselves.”

Xuanqing casually pointed to the corner of the factory.

Upon looking,

In the corner, there was an unassuming, boxy machine.

“This device is called a textile machine, and it can produce hundreds of meters of fabric every day.”

“Hiss

Dao Guang’s pupils contracted sharply. Although he was a monk, he had traveled with his master and knew a thing or two about weaving.

As far as he knew, even skilled textile workers, relying on hand spinning wheels, could only produce two or three meters of fabric a day at most.

This single machine... was equivalent to hundreds of textile workers!

Furthermore,

There were countless machines like this in the factory, acting as just the tip of the iceberg.

After visiting the machinery factory,

Next,

Xuanqing brought Dao Guang to the final stop of their journey.

The farmland on the outskirts of the city.

As it happened... it was quite a coincidence,

At this time, Black Wind Country was in the season of the autumn harvest.

The rice fields on the outskirts had turned golden yellow; countless grains of rice bent the stalks beneath their weight.

“Dao Guang... this is hybrid rice, one of the most significant and precious products of human technology!”

Xuanqing said quietly.

However,

At this moment, Dao Guang's lips trembled incessantly. As he stared at the golden rice fields before him, he was completely at a loss for words.

So it turns out... it turns out.... that the key to truly freeing people from suffering is not Shimen, nor Daoism, but human technology!

The Immortal Cultivation Game Has Come True #Chapter 282 - 255: Returning to Reality, 1.4 Billion Yuan Treasure! - Read The Immortal Cultivation Game Has Come True Chapter 282 - 255: Returning to Reality, 1.4 Billion Yuan Treasure!

Chapter 282: Chapter 255: Returning to Reality, 1.4 Billion Yuan Treasure!

“Dare I ask... Dare I ask, Daoist Priest, what’s the yield per acre of this?” Abbot Dao Guang’s voice trembled.

“One Mu Yielding 1000 Catties!”

Xuanqing said indifferently.

In fact.

Nowadays, almost all the farmland in Black Wind Country has Earth Deities, and the high yield of hybrid rice, coupled with the fertility supply of Earth Deities, makes producing 1000 catties per mu effortlessly.

“After seeing all these, what do you think?” Xuanqing asked in a deep voice.

When these words came out.

Plop ~

Abbot Dao Guang knelt down and shouted loudly, “Disciple wants to join Daoist Priest and learn the method of science to save the people from suffering!” “Please fulfill my request, Daoist Priest!”

Hearing it,

Xuanqing smiled faintly and said softly, “Dao Guang, you are the person with the purest faith that I have seen in my life.”

“Today I will accept you, but the name Dao Guang can no longer be used. I will give you the Dharma name... Dao Cang, may you soon fulfill your grand aspirations in your heart.”

“Thank you, Master!”

Dao Guang... no, he should be called Dao Cang, respectfully kowtowed towards Xuanqing.

However.

Xuanqing didn't accept the title, but instead said, "Dao Cang, I just took you into the Dao but didn't accept you as a disciple. You can call me Sir!"

"Ah... Yes, Sir!"

Dao Guang was a bit surprised but didn't mind, and immediately changed his tone and called Sir without any hesitation.

"Hmm!"

Xuanqing nodded slightly.

Then,

he took out a Ginseng Fruit with a wave of his right hand, then rubbed it with some mud on the ground.

"Reversal of Creation!"

Thirty-Six Heavenly Arts: Reversal of Creation, said to be created by ancient sages observing Sage Nuwa creating humans, is a divine power known for its ability to turn mud into a body.

Under the effect of Reversal of Creation...

The Ginseng Fruit merged with the mud on the ground, and after a squirming motion... it transformed into the likeness of Dao Cang.

Of course.

Compared to the previous Dao Cang, this physical body now had three thousand extra strands of hair.

"Dao Cang... hurry up and enter!"

Xuanqing shouted.

As Dao Cang kneeling on the ground came to his senses, he immediately entered the mud and Ginseng Fruit-formed body!

Whirrr ~

An inexplicable wave followed.

Thump –

A strong heartbeat sound came from the physical body.

Then,

his fingertips trembled slightly, and the body's eyes suddenly opened.

"I... no, this humble Daoist... came back to life!" Dao Cang stretched out his right hand and observed it in front of him.

At this moment.

Thinking that he had practiced Buddhism all his life, but in the end, the Bodhisattva asked him to die, while Sir let him live.

A mix of emotions filled Dao Cang's heart.

Of course.

Actually, he didn't care much about his life or death. What mattered more to him was that in Sir's Black Wind Country, he saw a direction that could free people from suffering.

With this in mind.

Plop ~

Dao Cang knelt on the ground with determination in his eyes, and said firmly, "Please, Sir... let me study the art of technology!"

That's right.

Buddhism can't free people from suffering, but a loom that produces thousands of meters of fabric per day can, and that's the contribution of technology.

Seeing this scene,

Xuanqing's mouth curved into a smile, as he said lightly,

"Good!"

With this word,

Xuanqing waved his right hand and threw Dao Cang towards the Imperial Capital of Black Wind Country.

And moreover,

through the Immortal Official Document, he instructed Qingwan, who was dealing with official documents in the Imperial Study Room on behalf of Gentleman Bai She, to establish the Ministry of Technology in Black Wind Country.

And Dao Cang... became the Minister of the newly established Ministry of Technology.

The teaching materials for learning technology were, of course, those books he had brought from Water Blue Star.

After finishing all this,

Xuanqing looked in the direction of Black Wind Nation's Imperial City, with an indescribable look in his eyes.

"Dao Cang ah Dao Cang- I hope you can bring me some surprises!"

Of course.

As far as he was concerned, Dao Cang's matter was just something he did casually during his cultivation. If there was a harvest, he would be thrilled. If not, he wouldn't be disappointed.

Next.

Xuanqing sat cross-legged.

And began to think about the next step of Five Qi Chaoyuan.

Now.

He had already completed Golden Qi Chao Yuan and Five Elements Water Qi Converging on the Origin.

According to the order of the Five Elements, gold generates water; water generates wood... meaning the next step is the Five Elements Wood Qi Chaoyuan!

"To condense Wood Qi Chaoyuan, I'll need to be in an area with a large amount of Ether Wood Essence!"

Xuanqing frowned slightly.

Compared to the relatively common attributes of gold and water, Essence of Wood is much rarer.

Among the Five Elements... Gold, Water, Fire, and Earth are common and can be found everywhere; the difference lies in their quality and quantity.

However, the 'Wood' attribute is much more unique. In the absence of a specific wood-attribute environment, only plant creatures carry some of it.

"It's a pity that the Ginseng Fruit doesn't count as a pure plant, but rather a semi-Chaos being."

Xuanqing sighed.

Chaos beings refer to creatures born and grown in Chaos. For example, the Three Thousand Demon Gods who Pangu cleaved with an axe in the beginning before the world was created are Chaos beings.

The reason why the Ginseng Fruit Tree is considered a 'semi-Chaos being' is because even though the roots of the Ginseng Fruit tree are enrooted in Chaos, the main body is still in the Primordial World.

"To condense Wood Primordial Energy, I'll need an environment rich in the Essence of Wood. So..."

After pondering for a moment,

suddenly,

an idea flashed in his mind.. He thought of something that also belonged to one of the Ten Great Spiritual Roots of Heaven and Earth – the Flat Peach!

Chapter 283: Chapter 255: Back to Reality, 1.4 Billion Ingots! _2

If talking about the richness of Ether Wood Essence, if the Flat Peach Tree is considered second to none, there is no spiritual plant in the world that can be called the best.

Just in terms of comparison of Ether Wood Essence, even a Ginseng Fruit

Tree... cannot beat a Flat Peach Tree.

It's not that the Ginseng Fruit Tree is inferior to the Flat Peach Tree, but the two spiritual plants have different focuses.

The former is a semi-chaos being, whose main effects are to condense Chaotic Qi in the chaos, improving the environment by feeding back spiritual energy, and refining the physical body by forming fruit.

While the latter, the Flat Peach Tree, especially one that matures in nine thousand years, is purely a primordial being.

At this thought,

Xuanqing has made up his mind.

For the next Five Elements Wood Qi Chaoyuan, he will go to the Heavenly Court's Flat Peach Garden and use the nine-thousand-year-old Flat Peach Tree as the foundation to absorb Ether Wood Essence and condense the Chaoyuan Power.

"Going to the Heavenly Court's Flat Peach Garden to practice this time will require a large amount of ingots to use the time acceleration on the Flat Peach Tree..."

"So... I have to return to the Real World first and harvest a wave of ingots!" Xuanqing murmured softly.

Speaking of which,

The Monkey King had also practiced in the Flat Peach Garden, but the Monkey King did not know proper manners and only knew gluttony. He threw away the peaches after taking one bite, damaging many of the Flat Peach Trees.

Xuanqing shook his head, withdrew his thoughts, and did not think about the Monkey King.

Next moment,

"Exit Game!

Real World.

Qingping Mountain.

Xuanqing opened his eyes and awakened from the game.

He had spent almost three years in the game. According to the time ratio between the Real World and the Game World... it had already been three months.

"Practice has no years, just a flick of a finger!"

Xuanqing felt emotional in his heart.

With a time ratio of ten to one between the two realms, he spent three months just practicing the Water Primordial Energy of the Five Qi Chaoyuan.

Of course,

If those cultivators in the Game World's Three Realms knew these thoughts, they would definitely be angered to the point of vomiting blood, and then curse at the Versailles.

"It's been more than three months now, and I don't know how the development of the Taoist temple has been going, and how much faith has been collected!"

Xuanqing secretly thought in his heart.

Afterwards,

Slapping his Immortal Official Document on his waist, he sent a message to Huai Qingyun, asking him to collect the incense and deliver it to Qingping Mountain.

So now it was waiting.

What was strange was that Huai Qingyun, who used to take only a few hours to replace the collected incense, did not appear for a very long time.

Until... three days later!

Finally,

Tremors came from the not-too-distant earth, and Huai Qingyun appeared out of the ground using the Earth Manipulation Technique.

"Sir, I have kept you waiting for a long time, and the incense has been collected!" Huai Qingyun took out a large handful of Sumeru Bags.

"Hm!

Xuanqing nodded slightly, and then asked curiously, "Qingyun, it took a long time to collect incense this time. Has there been any difficulties?"

Hearing these words,

Suddenly,

Huai Qingyun's face turned bitter.

"Sir, there is a shortage of manpower. There are now Taoist Temples in twenty-two provinces across the country."

“Relying solely on me and those foolish tree demons is not enough. It only took three days this time because I had made preparations in advance and had already collected some overflowing Taoist Temples!”

As Huai Qingyun narrated,

Xuanqing suddenly realized.

Of course,

Unbeknownst to him, the Taoist temples in the Real World had spread across the entire Great Yan Kingdom, and the number of temples was so vast that relying on Huai Qingyun and those tree demons he had enlightened was not enough.

At this thought,

Xuanqing patted Huai Qingyun’s shoulder and reassured him, “Qingyun, don’t worry. I will solve the trivial issue of insufficient manpower in a while!”

“Thank you, sir!”

Huai Qingyun bowed and breathed a sigh of relief, “Sir, I will wait outside. Call me when you’re done!”

“Hm!”

||

Xuanqing nodded slightly.

After watching Huai Qingyun leave,

Next,

Xuanqing’s divine soul enveloped these Sumeru Bags, and he murmured in his heart...

“Recharge!”

“[Beep...+13.1E Ingots]”

Hearing the prompt tone in his mind... there were actually a total of 13 billion ingots.

“In just over a hundred days, I’ve gained 1.3 billion Ingots. On average, I’m earning more than 13 million per day!”

Such a huge number.

Xuanqing was astonished.

With a thought.

“Open Character Panel!”

[Name]:Xuanqing

[Physique]:Chaos Morality Holy Body

[Grade]:Taiji True One Immortal Viceroy, Palace Master of Shcnzhao Yushu in charge of North and South Departments Affairs (Standard third rank)

[Cultivation]integration of Void Stage (Late Stage)

[Cultivation Method]:Food-Qi Decree

[Divine Ability]:Luck Controlling Dragon Technique (°°), Thirty-Six Heavenly

Arts (Perfection), Five Element Talisman Array (Perfection)....

[Ingot]:i4.2..E

In the Character Panel, the [Grade] section had already changed to ‘Standard third rank’, while his cultivation remained at the Integration of Void Stage Late Stage.

As for the Ingot section... counting the leftovers from before, he now had a total of 1.4 billion Ingots.

Of course.

Even with so many Ingots, Xuanqing’s state of mind hadn’t changed much. It seemed as if this wasn’t 1.4 billion, but rather just 14-

The reason was.

He knew that with the human resources of the entire Water Blue Star at his disposal, as long as he continued to develop progressively with time, the daily amount of incense power he received would only increase. And by the end, it might even become an extremely exaggerated number.

Acquiring a hundred million or even a billion Ingots each day... could easily be achieved.

Naturally,

A measly over a billion Ingots was not enough to surprise Xuanqing. If the number increased tenfold to 14 billion, that might be a different story.

For him,

Besides the harvest of Ingots, he was more concerned about the amount of incense power needed for the next Immortal Officer promotion.

Thinking about this,

Xuanqing silently recited, "Check the accumulated incense power and the required amount of incense power for the next Daoist Immortal Officer promotion!"

[Ding-]

[Your current accumulation: 18.1E incense power!]

[Required Incense power for Second rank promotion: 20E incense power]

"So, if I get another 190 million, I can be promoted to Second Rank!" Xuanqing calculated in his heart.

The attention to Immortal Official rank was.

Because he was considering the matter of "establishing his own Dao Court".

In the Game World, Daoist Immortal Officers could establish their Dao Court as long as they were promoted to the first rank.

By that time... not considering his own cultivation or combat power, just in terms of status, the founder of a Dao Court would be on the same level as Tathagata Buddha.

At least... when mobilizing the power of Heaven and Earth, there would be no difference between the founder of a Dao Court and Tathagata Buddha.

Of course,

As one of the top bosses in the Three Realms, Tathagata Buddha relied not only on status but also on his actual cultivation and combat power.

"Alright, let's settle Huai Qingyun's matter first, then enter the Heavenly Court in the Game World and practice the Five Elements Wood Qi Chaoyuan."

Xuanqing murmured softly.

Shenlong Shelf.

As the largest primitive forest area in Yan Country, there were countless thousand-year-old ancient trees here.

At this moment,

A young Taoist priest wearing a Taoist robe, stepping on cloth shoes, and holding a duster appeared in the Shenlong Shelf. It was Xuanqing who had flown over from Qingping Mountain, preparing to transform some spirits to help Huai Qingyun.

“This one is good!”

Xuanqing muttered softly.

In front of him was a fir tree about thirty meters tall, with dense branches and leaves that blocked a large area of sunlight.

This was a 2000-year-old tree, and the tree’s core had already birthed a trace of spirituality. If it weren’t for the lack of spiritual energy on Water Blue Star, it might have already turned into a spirit.

“Decree!”

Xuanqing flicked his duster and shot out a strand of incense power. It hit the 2000-year-old fir tree.

Humming-

In just a moment,

A naked child took shape and emerged.

“Tsktsk, it’s a girl!”

Xuanqing touched his nose, then waved his right hand again, striking out a burst of light carrying a large amount of information, which opened the girl’s spiritual wisdom.

After doing all of this,

whoosh-

A lucky cloud rose under his feet, supporting him in the air, and then he continued to search for spirits that could be transformed.

Chapter 284: Chapter 256: Uploading the Flat Peach Tree, Astonishing Price!

Two days later.

More than twenty tender figures followed behind Xuanqing.

These spirits were all searched for from ancient trees with spirituality, although their intelligence was not as good as Huai Qingyun's, they were much better than before.

The reason for not using time acceleration was that the trees produced through time acceleration not only consume a lot of nutrients but also may not necessarily have spirituality. It would be more time-consuming and laborious, so simply look for ancient trees that are already available.

Whoosh-

Leaving with more than twenty newly transformed tree spirits.

At Qingping Temple.

In the inner courtyard of the Taoist temple.

Huai Qingyun looked at the more than twenty tree spirits in front of him and nodded in satisfaction.

At least on the surface, they appeared to be much smarter than his current subordinates.

With these subordinates, the task of collecting incense in the future is expected to be much easier.

"Thank you, Sir, I'll take them to get familiar with their duties!" Huai Qingyun bowed with a smile, then left the courtyard with many tree spirits.

Seeing this,

Xuanqing watched his young attendant leave.

Now,

Huai Qingyun's matter has been resolved, and an additional thirteen hundred million treasure ingots have been collected. It's time to enter the Heavenly Court and cultivate the Five Elements Wood Qi Chaoyuan.

With a thought,

"Enter the game!"

Game world.

Black Wind Mountain.

“Huh-”

Xuanqing opened his eyes and woke up.

Three days had passed in the real world, and more than a month had passed in the game.

He looked up at the sky, where the semi-transparent golden giant dragon was still sitting quietly in Gentleman Bai She.

“When I establish my Taoist Court later, I will need the Defense Formation of the Four Sacred Beasts...to suppress my luck.”

“After Qingxu completes its transformation into the Luck Golden Dragon, it can act as the Azure Dragon of the Four Saint Beasts!”

Xuanqing looked at Gentleman Bai She, with a faint sense of indescribable meaning in his eyes.

Now,

In his Black Wind Mountain, there is Bai Ling'er with the divine bloodline of the White Tiger, and Gentleman Bai She, who is about to transform into the Luck Golden Dragon.

In other words... the Azure Dragon and the White Tiger of the two sacred beasts are already available, and only the Vermillion Bird and the Black Tortoise are needed to complete the Four Sacred Beasts.

Of course,

It's still too early to establish a Taoist temple. It's more important to improve their cultivation, and complete the Five Qi Chaoyuan as soon as possible.

“Huh-”

“Go to the Heavenly Court to cultivate.”

Xuanqing withdrew his gaze, and the duster in his hand moved.

Earth Leaping Golden Light!

Heavenly Court.

South Heavenly Gate.

The atmosphere was filled with mist.

Zeng Zhang Tianwang, as always, stood at the door, performing his duty as a gatekeeper. When he saw Xuanqing coming up, he shrank his neck.

“Greetings to the superior immortal!”

“Mmm!”

Xuanqing nodded slightly, then stepped into the Southern Heavenly Gate, and headed towards the Jade Pool.

Speaking of it,

The Flat Peach Garden is a peach garden in the Yaochi Immortal Realm, a private property of the Queen Mother. There is an Earth Deity in the garden, responsible for the daily affairs of the Peach Garden.

So,

If you want to go to the Flat Peach Garden to cultivate, you must first get the permission of the Queen Mother.

Yaochi Immortal Realm.

Xuanqing stepped in.

As a place for heavenly female immortals to live, it is rare for male immortals to be here.

“Hee hee hee- Where did this handsome Taoist come from to play in the Yaochi? Aren’t you here to see the fairy maidens!”

A passing fairy maiden covered her mouth and teased.

Hearing this,

Xuanqing shook his head and didn’t pay attention, continuing to walk towards the interior of Yaochi.

Although these fairy maidens are all beautiful and have a certain immortal aura, his cultivation is based on nourishing Qi, not the way of yin and yang harmony, so naturally, he has no interest in female charm.

About half an hour later,

A magnificent and luxurious palace... came into view.

The meticulously crafted murals are gorgeous, and the surroundings are guarded by countless fluttering fairies, armed with jade swords.

“Stop, Taoist, this is the Jade Pool Holy Palace!”

The fairy guard drew her jade sword and sternly scolded when she saw Xuanqing approaching.

Indifferently,

Xuanqing did not get angry, but bowed to the fairy before saying:

“Immeasurable Longevity and Fortune, I am Taiji True One Immortal Viceroy, the Palace Master of Shenzhao Yushu in charge of North and South Departments Affairs.”

“I came to the Jade Pool Holy Palace this time to visit Taohua West True Ten Thousand Mysterious Ancestral Mother.”

After speaking,

He took off the Immortal Official Document from his waist and handed it to the other party.

Hearing this,

Daoist Xuanqing?

The fairy guard was shocked in her heart.

In recent times, this name has been well-known in the Heavenly Court, and almost everyone knows it.

She took the token, and when she confirmed that it was Xuanqing, her expression changed immediately and respectfully returned the Immortal Official Document.

“My humble self has seen the superior immortal!”

“Please wait a moment, superior immortal, while I go and report!”

“Mmm!” Xuanqing nodded slightly.

Moments later,

The fairy guard who had reported earlier came out of the main hall and bowed to Xuanqing again.

“Superior immortal, Her Highness invites you in... please...”

“Thanks!”

Xuanqing smiled and bowed his hands, following the other party into the main hall.

Entering the inner part of the palace, the various decorations inside are even more exquisite, a worthy dojo for the Queen Mother, who governs all the female immortals in the world.

After a while,

Finally,

They stopped in front of the entrance to a main hall.

“Superior immortal, Her Highness only summoned you alone, I will leave you here.”

“Thank you.”

Xuanqing nodded slightly.

Then,

Without hesitation, he stepped into the main hall.

Jade Pool Holy Palace, Main Hall..

Chapter 285: Chapter 256: Uploading Flat Peach Tree Shocking Price!_2

After entering,

What came into view was a woman who was several feet tall, wearing a phoenix crown and a golden glaze robe, incredibly dignified and noble.

The person in front of him... was said to be the Queen Mother who presided over the female immortals of the Three Realms.

Of course,

In the tales of Taoism, the Queen Mother was more commonly referred to as... Taohua West True Ten Thousand Mysterious Ancestral Mother.

"I, the Taoist priest, Xuanqing of the Taiji Truth, pay my respects to Taohua West True Ten Thousand Mysterious Ancestral Mother." Xuanqing clasped his hands, making a Yin-Yang Finger Gesture, and raised it above his head, performing a respectful bow.

Hmm!

The Queen Mother responded and then looked up and down at Xuanqing, her eyes showing a hint of curiosity.

Nowadays,

The entire Heavenly Court was circulating stories about Xuanqing, such as his daily promotions, being the Old Lord's favorite disciple, Great Immortal Zhenyuan calling him a young friend... Taibai's full support... countless Ginseng Fruits... and so on.

Even she, who was in the Yaochi Immortal Realm, often heard her female immortals discussing these matters.

"Daoist Xuanqing, what brings you to my Yaochi?" The Queen Mother asked indifferently.

"Your Highness, I'd like to make use of your Flat Peach Garden to cultivate and gather Five Elements Wood Qi Chaoyuan!"

Xuanqing didn't hide anything and honestly stated his purpose.

In the end,

He took out more than a dozen ginseng fruits from his Game Backpack and respectfully presented them.

"I don't have any good treasures for my first visit, only these few ginseng fruits... I hope Your Highness won't find them too shabby!"

Seeing this,

The Queen Mother's eyes flashed brilliantly as she thought to herself, 'As expected.'

Among the current stories of "Daoist Xuanqing" in the Heavenly Court, there was one about him possessing countless ginseng fruits.

Even more exaggerated rumors claimed that the number of ginseng fruits Daoist Xuanqing had surpassed even those owned by the Great Immortal Zhenyuan.

“You are indeed thoughtful!”

The Queen Mother didn’t hesitate and accepted the ginseng fruits he offered. She then took a token out of her bosom.

“This is my decree, take it. When entering the Flat Peach Garden, just inform the Earth God inside the garden!”

After thinking for a moment,

She added, “Xuanqing, you are free to pick flat peaches in the garden, just don’t be like that naughty monkey, taking a bite and discarding them. Wasting is disgraceful!”

Hearing this,

Xuanqing was overjoyed. After taking the token, he bowed deeply again and said loudly, “Thank you for your kindness, Your Highness. I understand!”

Flat Peach Garden.

In addition to the misty air, there was also a heart-refreshing fruity aroma that could ensure a lifetime of health and safety for ordinary mortals who caught a whiff of it.

Xuanqing, with the Queen Mother’s decree in hand, arrived at the entrance of the Flat Peach Garden.

Before even entering,

He saw a short Earth God holding a wooden staff, who emerged from underground and blocked his path.

However,

Unlike the previously reckless fairy guards who scolded him, this Earth God seemed much slicker.

“Greetings to the superior immortal, this place is the Flat Peach Garden. May I ask what your purpose is in coming here?” The Earth God clasped his hands, maintaining a respectful but not too humble demeanor.

As a guardian Earth God in the Flat Peach Garden, he was naturally different from ordinary Earth Gods. As the saying goes, a three-rank official stands at the door of the prime minister’s residence.

“I have come to practice in the Flat Peach Garden. This is Her Highness’s decree!”

Xuanqing said indifferently, handing over the token.

After taking the token,

The Earth God didn't ask too many questions. He bowed immediately and said, "So it is, please come in, Superior Immortal."

"May I ask, Superior Immortal, would you like this old man to give you a brief introduction to the Flat Peach Garden?"

"I'll take a look around by myself, you can continue with your tasks!"

Xuanqing waved his hand and stepped inside.

Upon entering the Flat Peach Garden,

He saw all-pink surroundings at a glance.

Accompanied by a breeze, the unique aroma rushed into the nostrils, making one feel refreshed and comfortable.

Besides that,

The peaches-white with shades of red, red with shades of pink-appeared even more tempting. No wonder that mischievous monkey couldn't help himself upon entering.

However,

Xuanqing, who had seen and experienced many things, and had tasted countless Ginseng Fruits, was not tempted by these mere three-thousand-year-old flat peaches.

He didn't linger in this area, but continued deeper into the garden.

The farther he went, the stronger the Ether Wood Essence in the air became.

Only when... stepping into the Nine Thousand Years Flat Peach area did he stop.

The concentration of Ether Wood Essence here has already reached an extreme level. Just taking one breath was enough to feel the pervasive essence.

If an ordinary mortal were to be here, it's not even about eating peaches; just smelling the scent would probably be enough to make them immortal.

"This Flat Peach is actually a good thing, transforming the spiritual energy of heaven and earth into Ether Wood Essence!"

“If it’s just used to enhance cultivation, it’s much better than Ginseng Fruits.”

Xuanqing couldn’t help but exclaim.

However... in terms of rank, even the Nine Thousand Years Flat Peach Tree couldn’t compare to the Ginseng Fruit Tree.

Not to mention anything else, just looking at the difference in quantity...

Between Heaven and Earth, there is only one Ginseng Fruit Tree, but there are three thousand and six hundred Flat Peach Trees, with one thousand two hundred each for three thousand years, six thousand years, and nine thousand years.

Of course.

Regardless of whether it’s a Flat Peach Tree or a Ginseng Fruit Tree, both are rare treasures in the Three Realms, so he naturally wouldn’t miss out on them.

“First, upload it to the store, and after returning to the real world, exchange one tree!”

Xuanqing thought secretly.

Ginseng Fruit is delicious, but eating it all the time... it still gets a bit monotonous. Having some Nine Thousand Years Flat Peach Trees...

By then, eating Flat Peaches today and Ginseng Fruits tomorrow, wouldn’t that be a great pleasure in life?

He arrived in front of a Flat Peach Tree.

A thought crossed his mind.

“Upload to the store!”

[Kind reminder: Since the rank of this item is too high, it requires a huge amount of time. Do you wish to spend 100,000 yuanbao to downgrade and upload?]

Hearing the prompt sound in his mind.

Xuanqing muttered in his heart without hesitation.

“Downgrade and upload!”

A mere hundred thousand ingots are nothing to Xuanqing now – it’s like a billionaire dropping a penny on the ground, too lazy to pick it up because in the time it took to pick it up, they would have already earned it back.

[Product uploading... 1%... 5%... 10%... 50%... 100%]

[Ding, upload successful, product added: Nine Thousand Years Pan Peach Tree Seedling (5 million)]

Five hundred million... Yuanbao?

Xuanqing was a little surprised in his heart.

Unexpectedly, as one of the Ten Great Spiritual Roots of Heaven and Earth, this Nine Thousand Years Flat Peach Tree could be exchanged for ingots, and it only needed five million.

Five million... this number, comparing to other products, is not cheap, but compared to the Ginseng Fruit Tree, it's much, much cheaper.

You should know.

The Ginseng Fruit Tree cannot be exchanged for ingots at all, and must be exchanged using the higher-level currency 'Heavenly Merit'.

Even later when he had a way to convert ingots into Heavenly Merits, to exchange for a Ginseng Fruit Tree, he still needed a full 100 million ingots.

So... one is five million ingots, and the other is over 100 million ingots. The difference between the two is obvious.

Now that the item is in hand.

Next... it's time for cultivation!

"Begin cultivation!"

Xuanqing sat cross-legged and closed his eyes.

In Flat Peach Garden, there was no need to worry about being disturbed, so he didn't set up any formation and started practicing right away.

Wood belongs to the liver.

As the saying goes, an excess of liver fire is actually caused by having too much wood Qi. In the Five Elements cycle, wood can give birth to fire, which in turn leads to excessive internal heat.

The Five Elements of Heaven and Earth give birth to and restrain one another, and every little movement affects the whole body.

Accompanied by the circulation of Xuanqing's Gold Qi and Water Qi... in the end, he was able to draw in and absorb the rich Ether Wood Essence in the air and direct it towards his liver.

Introduce Wood Essence into the body, transforming the liver... to a level capable of accommodating the Chaoyuan Power.

This step isn't too difficult.

In an environment so rich in Ether Wood Essence, it only took a few hours... before Xuanqing felt that the liver inside his body was about to complete its transformation.

It was at this moment.

[Ding, incense accumulates to 2 billion, Daoist immortal officer is promoted from the second rank!]

A system prompt interrupted the peaceful cultivation.

One day in heaven, one year on earth.

Although he had been cultivating in the Flat Peach Garden for just several hours, half a year had already passed in the Human World.

Even in the real world, more than ten days had passed.

He had originally accumulated 1.81 billion. After more than ten days in the real world, the incense naturally increased to 2 billion.

"Temporarily disregard the Immortal Officer promotions, first complete the Five Elements Wood Qi Chaoyuan cultivation!"

Xuanqing steadied his mind and pondered.

As the saying goes.... there's nothing bigger than cultivation!

Chapter 286: Chapter 257: The Shock of the Jade Emperor in the Land of Lezi!

Beyond practicing.

Another point is that if he goes to be conferred now, something like last time might happen again. He might be promoted again during the conferment.

Moreover, it only requires forty billion accumulated incense to advance from second rank to standard second rank.

This number might seem insurmountable for him before, but for the current Taoist... It is a very easy task.

To be aware.

With the huge population of the Great Yan Kingdom, the more it develops, the more Ingots they obtain every day.

Added with: one day in heaven equals one year on earth.

Even if converted to the Real World, if one day has passed in the Heavenly Court, a full month has passed on earth.

Under this circumstance.

Xuanqing has a feeling.

When he is in the closed-door cultivation of Five-element Wood Qi Chaoyuan in the Heavenly Court's Flat Peach Garden, by the time his cultivation ends, his Taoist immortal rank might have been promoted several grades.

Then... going to Lingxiao Bao Hall for a one-time conferment that can save time and effort...wouldn't that be better?

"Practice, practice!"

A spark is shown in Xuanqing's eyes.

However.

He didn't keep sitting cross-legged, instead, he went under a nine-thousand-year flat peach tree and picked a nine-thousand-year flat peach from the tree.

The reason for that.

It is because the following congealing of the Five-elements Wood Qi Chaoyuan, unlike the previous Wood Qi channeling, requires the consumption of the Ether Wood Essence in vast quantities.

In this case, the dispersed Ether Wood Essence in the air isn't sufficient.

Crunch-

Swallowing a mouthful.

The juice filled his whole mouth and a different but equally delicious flavor, compared to the Ginseng Fruit, flowed from the tip of the tongue to his mind.

“Whew-”

Xuanqing widened his eyes, indescribable in enjoying the unique superb flavor.

Therefore!

No wonder the nine-thousand-year flat peach can be ranked as the same level of delicacy as the Ginseng Fruit.

Putting aside the effectiveness of both, judging from the flavor only, this nine-thousand-year flat peach... isn't worse than Ginseng Fruit, and even has a smoother texture.

Of course.

Apart from the superb taste, after swallowing this peach, it turned into vast Ether Wood Essence, nourishing Xuanqing's physical body.

“Go!”

Xuanqing manipulated the Ether Wood Essence in his body, absorbed it into his liver, and moments later... it condensed into a thread of Wood Qi Chaoyuan.

A nine-thousand-year flat peach only transformed to one thread of Wood Qi Chaoyuan.

To fill the whole liver with it, the number of nine-thousand-year flat peaches required, will undoubtedly be an enormous figure.

Thankfully.

He pondered about this issue before starting his cultivation, that was why he went to the Real World and harvested enough Ingots. Only then he came to the Heavenly Court equipped with abundant preparation.

He whisked the held duster.

The tail of the duster transforms into myriad threads, enveloping the nine-thousand-year flat peach tree.

Whoosh-

Splash-

Thousands of nine-thousand-year flat peaches were swept down by the duster like a raining shower, then suspended in the air.

Upon seeing this.

Xuanqing opened his mouth wide, with a suction force, swallowed dozens of nine-thousand-year flat peaches into his belly in a single gulp.

Bang-

Dozens of nine-thousand-year flat peaches turned into an enormous Ether Wood Essence and exploded inside Xuanqing's body after initially engulfing.

Facing such a massive Ether Wood Essence, an ordinary cultivator would explode to death in an instant.

However.

Xuanqing remained calm and composed, his demeanor didn't fluctuate at all.

He embodies the Chaos Morality Holy Body. Compared to the turbulent power of Chaos Energy, this Ether Wood Essence, though it's somewhat plentiful, doesn't amount to much in comparison.

"Refine!"

Xuanqing muttered a word in his heart, then closed his eyes, began to whole-heartedly refine the power from the nine-thousand-year flat peaches.

On another side.

Above Nine Heavens.

In the Golden Palace of Clouds.

The Jade Emperor, who was inspecting some scenes through the Vast Sky Realm, opened his mouth in disbelief, almost dropping the nine-thousand-year flat peach in his hand to the ground.

"Whew!"

The Jade Emperor couldn't help but take a cold breath.

The reason he, the Emperor Haotian who governed the Three Realms, was so astonished, was naturally because... he saw Xuanqing eating the nine-thousand-year flat peaches in the scenes projected by the Vast Sky Realm.

At this moment.

The Jade Emperor looked at the nine-thousand-year flat peach in his hand, which he was eating slowly because he couldn't bear to finish it all at once.

Then he looked at the scenes reflected by the Vast Sky Realm again.

The rascal swept the fruit off an entire peach tree with one brush of the duster.

To the Jade Emperor.

When he brushed past the peach tree, he was not only brushing on the peach tree but also brushing his heart.

"This rascal, such a way of eating, can hardly taste the flavor, It's a terrible waste, a terrible waste...sigh~"

The Jade Emperor sighed in a low tone.

He suddenly felt that the nine-thousand-year flat peach in his hand, didn't smell so good anymore.

Naturally.

He also knew that this peach was just a delicacy for him but for the kid in the scene of the Vast Sky Realm, it was a tool for his cultivation.

Perhaps due to the exciting scenes in the Vast Sky Realm.

Without taking small bites as he did before.

The Jade Emperor took a large bite directly, consuming nearly half of the nine-thousand-year flat peach in his hand, and the juice exploded in his mouth.

"Hu~"

The superb flavor brought by the Ether Wood Essence stimulated his taste buds, made him could not help but let out a satisfactory sigh.

"Tsk, tsk- although I can't eat it hurriedly like that rascal, but... eating in large bites can refresh my heart thoroughly."

The Jade Emperor thought silently in his heart.

However..

Chapter 287: Chapter 257: The Shock of the Jade Emperor in the Land of Lezi! 2

Thinking of having only over two hundred flat peaches left, and with the way they were eating them, they would probably soon be consumed completely.

At that time... days without flat peaches... how would they live!

“Yaochi Daoist friend.. Yaochi Daoist friend, I am the Emperor Haotian who governs the Three Realms, why can’t you give me more?”

The Jade Emperor grumbled in his heart.

It’s worth mentioning that

Many people mistakenly think that the Jade Emperor and the Queen Mother are husband and wife, but in fact, they are ‘colleagues’.

Just as the Jade Emperor lamented that nine thousand years of flat peaches were not enough to eat.

Suddenly,

The Jade Emperor’s eyes glanced and saw an astonishing scene in the Vast Sky world.

Hiss?”

In the picture,

They saw the boy picking all the fruits of the Flat Peach tree, and instead of picking the next tree, he put his hand on it.

Then

An incredible thing happened.

With the Nine-Thousand-Year Flat Peach Tree at the center, the surrounding Immortal Spirit Qi rolled and poured into the Flat Peach Tree.

In the end,

The peach tree began to sprout, bloom, bear fruit, and eventually mature at a visible speed.

This process, which originally took nine thousand years, was completed in just a moment.

“This kid... the Flat Peach Tree is one of the Ten Great Spiritual Roots of Heaven and Earth, and even I can’t do it...”

The Jade Emperor’s face was filled with disbelief.

For him, there were countless ways to achieve time acceleration, such as when he watched a play earlier and forcibly made the portrait of the Golden Palace of Clouds happen at the same speed as in the Human World.

But... it also depends on what is accelerated or decelerated.

If the target involves a powerful existence, for example, he, Jade Emperor, could not speed up or slow down the timeline of Ling Mountain.

And now?

What did the Jade Emperor see?

As one of the Ten Great Spiritual Roots of Heaven and Earth, the

Nine-Thousand-Year Flat Peach Tree

was forcibly accelerated by that kid with an unknown Divine power right under his eyelids and grew for a full nine thousand years.

Not one or two years, but a full nine thousand years!

“Hiss- If that’s the case, the Ginseng Fruit ”

Seemingly thinking of something,

The Jade Emperor’s heart stirred.

He understood.

No wonder the Great Immortal Zhenyuan, the Ancestor of the Earth Immortals, treated Xuanqing as his close younger generation.

It turns out that this kid has such a Heaven-defying supernatural power, even the semi-chaotic beings like Ginseng Fruits can be accelerated, let alone the Flat Peach Tree, which ranks last among the Spiritual Roots of Heaven and Earth.

“If so... why not...”

The Jade Emperor looked at the picture in Vast Sky Realm, his eyes rolling and a small thought forming in his heart.

For the Jade Emperor who rules the Three Realms, there are few things in this world that can interest him, and Daoist Xuanqing has brought him many surprises.

He thought and acted upon it.

Whoosh-

Accompanied by a flash of golden light, the Jade Emperor's figure disappeared into the Golden Palace of Clouds.

Yaochi Immortal Realm.

In the Holy Palace,

The originally meditative Queen Mother suddenly opened her eyes, her expression showing a hint of astonishment.

"It's really unprecedented, what's Haotian come to my palace for"

She was curious about the reason.

She waved her right hand.

Waves rippled in the air, and a picture appeared, in which the protagonist was the Jade Emperor who governs the Three Realms.

Perhaps sensing that someone was spying,

The Jade Emperor in the picture stopped, looked up at the void, and made eye contact with the Queen Mother through the picture.

"Haha, fellow Daoist Yaochi, it's been a long time since we've seen each other. I hope you've been well!" The Jade Emperor's face was smiling, and he saluted.

Seeing this,

The Queen Mother raised her embroidered eyebrows and nodded as a response.

However,

She had no intention of closing the monitoring picture and kept watching the Jade Emperor who entered the Yaochi Immortal Realm.

Obviously,

The Jade Emperor in the picture also felt this, so he smiled awkwardly and ignored the Queen Mother, swaggering towards the Flat Peach Garden.

Is this...going to the Flat Peach Garden in my palace?

The Queen Mother's heart stirred.

If there is anything different about the Flat Peach Garden now, it is that a Daoist Xuanqing is cultivating there.

"What exactly did Daoist Xuanqing do in the Flat Peach Garden that even caught the attention of the recluse Haotian Emperor?"

Her curiosity was aroused.

The white gauze sleeves were waved again, and a clear breeze was released.

Humming-

Originally, it was just monitoring Jade Emperor's screen, but under the influence of this breeze, it split in two and turned into two screens.

One of the screens was still monitoring Jade Emperor, while the other new screen switched to the Peach Garden.

Her gaze shifted to the Peach Garden screen.

"Hiss-"

In the crystal-clear eyes of Queen Mother, a trace of disbelief and astonishment sparkled.

She even rubbed her eyes, doubting whether she had seen wrongly. However, with her current cultivation, how could such a mistake occur?

"What a clever Daoist Xuanqing! No wonder Daoist Zhenyuan treats him as his close junior!"

In an instant.

The same thoughts as Jade Emperor emerged in Queen Mother's mind.

Next.

She did nothing else but watched the screen of the Peach Garden, wanting to see how many times Daoist Xuanqing could use such a heaven-defying divine power.

Not mentioning Queen Mother, who is engrossed in watching in the Holy Palace.

Let's talk about the Peach Garden side.

Xuanqing's mouth emitted a suction force, swallowing dozens of floating nine-thousand-year-old peaches into his stomach once again.

Refine!

The massive Ether Wood Essence exploded instantly in his abdomen, and under his control, it eventually converged at the liver area, transforming into dozens of Five Elements Wood Qi Chaoyuan.

"Hoo~"

Xuanqing took a sigh of relief.

Without any slightest hesitation.

"Use 9000-Year Time Acceleration."

[Ding... -900,000 Ingots!]

As 900,000 ingots were deducted, the nine-thousand-year-old peach tree trembled continuously, emitting a powerful suction force, absorbing the surrounding Immortal Spirit Qi.

Sprouting...blooming...fruiting...maturing!

The process that should have taken nine thousand years was completed in a short moment.

This scene.

Was witnessed in person by Jade Emperor who had just arrived.

"Hiss~"

Even though he had seen it through the Vast Sky Realm in advance and was mentally prepared,

But...when he saw this scene with his own eyes, he still found it unbelievable.

“Hoo~”

Jade Emperor took a deep breath, concealed his aura, and quietly walked behind Daoist Xuanqing, before...

“Ahem- Daoist Xuanqing, my beloved minister!”

At this moment.

Xuanqing, who was mechanically repeating his previous actions and focused on his practice,

Suddenly.

A voice sounded from behind him.

“Whoa-”

Xuanqing shivered.

Turning around, he saw that the one who had spoken was...huh?

Jade Emperor?

???

• ? ?

Xuanqing’s mind went blank.

He was practicing well in the Peach Garden, so why did the Jade Emperor, who ruled the Three Realms, come here quietly?

At this moment.

Facing the still baffled Xuanqing, Jade Emperor lightly coughed and then knowingly asked:

“My beloved minister, I saw that you have been promoted from second class

Daoist Immortal Official, but you did not come to receive the seal.”

“What are you doing in this Peach Garden?”

Upon hearing these words,

Xuanqing paused once again.

He looked at the nine-thousand-year peach that had just been accelerated, and then at Jade Emperor, immediately understanding something.

“Replying to Jade Emperor, I am practicing Five Elements Wood Qi Chaoyuan in the Peach Garden!”

“So my beloved minister is practicing!”

Jade Emperor suddenly realized.

Immediately afterwards,

He asked again, “Just now, I saw you using some kind of technique, which made these peaches mature in an instant...?”

“Haha- It’s just a small divine power, I’m afraid I’ve made Jade Emperor laugh.”
Xuanqing hastily cupped his hands and said modestly.

Just a small divine power?

Laughable?

Jade Emperor’s mouth twitched slightly.

If such a divine power that could be applied to the Ten Great Spiritual Roots of Heaven and Earth was considered laughable, then wouldn’t there be no divine powers in the world that are not laughable?

“My beloved minister, it’s quite a coincidence that I also have a fondness for these nine-thousand-year peaches.”

“I don’t know how many times you can use this divine power.... Can you share some with me?”

Chapter 288: Chapter 258: The Queen Mother’s Request, The Divine Flat Peach Tree!

Smooth some on?

As expected.

Xuanqing’s face showed understanding, and he immediately asked:

“Dare I ask how many times the Jade Emperor wants?”

Not to mention.

A mere 900,000 ingots per use, for now, with his over a billion assets, he could use it as many times as he wanted, just a drop in the bucket.

Over here.

Upon hearing Xuanqing's words.

The Jade Emperor was somewhat puzzled.

In his understanding, or based on the consensus of the entire cultivation world, the more powerful the divine technique, the greater the restriction.

How could this time divine power, which can be used on the Ten Great Heaven and Earth Spiritual Roots, be spoken so lightly by Daoist Xuanqing in his mouth?

With that in mind.

“Well...Your Majesty, give me ten batches first?” The Jade Emperor was not polite, and immediately asked tentatively.

Upon hearing this.

Xuanqing smiled and nodded his head.

The next moment.

His right hand landed on the Nine Thousand Year Flat Peach Tree, and he muttered in his heart... accelerate by nine thousand years!

[Ding...- 900,000 Ingots!]

With the deduction of ingots, a surge of energy descended out of thin air and was bestowed upon the Nine Thousand Year Flat Peach Tree.

Hum-

in an instant.

The sucking force burst forth.

Countless Immortal Spirit Qi was absorbed by the Flat Peach Tree, and at a speed visible to the naked eye, the whole process of sprouting, flowering, fruit setting, and maturing was completed.

To the side.

The Jade Emperor stared intently.

Unfortunately.

No matter how he observed, he couldn't understand how the other party managed to do all this without any fluctuations, as if they had appeared out of nowhere.

Not only the Jade Emperor.

In secret.

The Queen Mother, who was using her peeping technique, also exhausted all her methods, trying to see how Xuanqing did it. The result... goes without saying, naturally, she didn't see any reason, just like the Jade Emperor.

Moments later.

A batch of flat peaches ripened.

A total of more than forty-nine thousand-year flat peaches hung on the tree, their pink flesh tinged with red, emitting a rich fruit aroma, extremely appetizing.

Swipe-

With a flick of the duster in Xuanqing's hand, he picked the ripe fruits and suspended them in mid-air with his mana.

After doing all this.

Without stopping.

He placed his hand on the Peach Tree again, cast Time Acceleration, and repeated the previous steps.

[Ding...-900,000 Ingots!]

Once...twice...three times...nine times...

Ten times!

A total of ten Time Accelerations were cast.

If it weren't for the extremely rich Immortal Spirit Qi in this Flat Peach Garden, it would be difficult to withstand this total of ninety thousand years of Time Acceleration.

At this moment.

Hundreds of pinkish-red flat peaches hung in the air, emitting a rich Ether Wood Essence and fruit aroma, enough to make one's saliva flow faster.

Gurgle-

The Jade Emperor's throat moved, and his eyes shimmered with amazement.

To tell the truth.

As Emperor Haotian, who has ruled the Three Realms for so many years, there hasn't been anything that has made him so deeply moved.

"Informing the Jade Emperor, ten batches of Nine Thousand Years Flat Peaches are completed, please take care!" Xuanqing bowed slightly and cupped his hands to say.

"Hard work, my dear official..."

The Jade Emperor waved his sleeves and took the hundreds of flat peaches suspended in the air.

Just as he was about to say something.

Suddenly.

An anomaly emerged in the sky.

A majestic divine prestige descended upon the Flat Peach Garden and finally fell on Xuanqing.

At the same time.

[Ding...Congratulations player, accumulative incense power reaches 4-0 billion, Daoist Immortal Officer Promotion to Standard Second Rank!]

Xuanqing's mind also resounded with the prompt of the quantifier.

"Promoted again?"

The Jade Emperor was slightly taken aback.

Good fellow-

He was still shocked by this kid's divine power, but then this kid gave him another shock... called Xuanqing's shock.

Although he knew there was definitely a secret to the kid in front of him, the speed of accumulating incense power was just too fast.

It is worth mentioning that.

In the Game World, the power of incense fire from the common people is not something that a single god can take away.

First of all

The Heavenly Court took away the vast majority, and then the department to which the god belonged took away half of the remaining incense power, and finally, the remaining incense... was considered the god's own gain.

Therefore.

As for the faith power of Black Wind Country.

Xuanqing hadn't even considered it, and directly ordered the city gods of Black Wind Country to share this power of incense fire equally among all the Earth Deities, to cast divine techniques on the common people and nourish the land as fertilizer.

Of course... these small things are not worth mentioning.

Continuing to look at the Flat Peach Garden.

Right after the anomaly of Daoist Immortal Official Promotion fell from the sky.

Xuanqing frowned slightly.

His practice of Five Elements Wood Qi Chao Yuan wasn't finished yet.

Although it was due to absorbing Ether Wood Essence, it would not matter even if he stopped halfway, but this feeling of being neither up nor down would make people feel uncomfortable, as everyone knows.

If the Jade Emperor wasn't there.

He could pretend to be deaf and dumb, just assuming that he was obsessed with practicing and didn't see the promotion anomaly, then go to the Fate Palace later to register and make up for it.

But the problem is.

Now.

The Jade Emperor was standing right beside him, and he had just given the other party ten batches of Flat Peaches.

In this situation.

It was just like meeting the boss in the gym, doing pull-ups and then asking for leave face-to-face, saying that the body is not good.

At this moment.

Seeing the awkward atmosphere.

As the countless tribulations veteran who became Emperor Haotian, how could he not know what Xuanqing was thinking?

As the saying goes, accepting people's favors would make them indebted, so he had just taken away hundreds of flat peaches, so he should give some face, too. "Hehe!"

The Jade Emperor chuckled softly and said gently, "I see that my official's Five Elements Wood Qi Chao Yuan has not yet condensed, you just focus on your cultivation!"

Chapter 289: Chapter 258: The Queen Mother's Request,

The Divine Flat Peach Tree! 2

As soon as these words were spoken.

Xuanqing was overjoyed and quickly formed a hand seal, raising it above his head, "I... thank the Jade Emperor!"

Hahaha- You take your time cultivating, I'll be going now!"

With a hearty laugh, the Jade Emperor strode away. With these hundreds of Nine Thousand Years Flat Peaches, even if he ate a dozen peaches a day, it would be enough to tide him over until the next time peaches were distributed.

He waved his sleeve and vanished, taking away hundreds of Nine Thousand Year Flat Peaches but not a single cloud.

After bowing respectfully to see Jade Emperor off,

Xuanqing shook his head with a smile.

Originally,

He thought the Jade Emperor, who governed the Three Realms, would be indifferent to everything, treating every creature like straw dogs, and have a bland character.

What he never expected was that the high and mighty Jade Emperor would have such an unknown side.

Perhaps... it's a return to simplicity?

Anyway, he hadn't yet reached such a level, so he couldn't understand what the Jade Emperor and those at his level were like in their daily lives.

As the saying goes, the height you stand determines the landscape you see.

Hehe, let's continue cultivating!" Xuanqing chuckled softly.

The next moment.

"Use the 9000-Year Time Acceleration!"

[Ding... -900,000 Ingots!]

Moments later.

Dozens of Nine Thousand Year Flat Peaches grew on the tree.

Whoosh-

As the duster swept them up,

Xuanqing opened his mouth and swallowed all these peaches into his belly.

Time slowly passed.

He didn't know how long it took or how many time accelerations he had used, or how many Nine Thousand Year Flat Peaches he had devoured.

Finally,

The Chaoyuan power in his liver had become extremely dense, and with just one or two more attempts, he would complete the practice of Five Elements Wood Qi Chaoyuan!

“Huff-”

Xuanqing took a deep breath and murmured in his heart,
use the Nine Thousand Year Time Acceleration.”

[Ding... -900,000 Ingots!]

Moments later.

Seeing the dozens of Nine Thousand Year Flat Peaches suspended in the air,
without any hesitation,

Slurp-

Xuanqing opened his mouth wide, swallowing them all into his stomach.

In an instant,

The Ether Wood Essences from dozens of peaches transformed within his body, all
absorbed by his liver.

At last!

These Ether Wood Essences, like the final straw breaking the camel’s back, were
completely ignited in the liver.

Boom-

An immense life force surged through Xuanqing’s body.

He had broken through.

The Five Elements Wood Qi Chaoyuan power... succeeded!

From Xuanqing’s perspective, this breakthrough was as easy as eating and drinking,
and could be described as a natural result.

“Now... I have condensed Gold, Water, and Wood Qi, and only need to achieve

Fire.. Earth... upon completing the practice of Five Qi Chaoyuan, I can step into a
higher realm!”

Xuanqing’s eyes sparkled.

As the saying goes, standing at different heights allows you to see different landscapes, and cultivation is the same. Only by reaching higher levels can you experience the thrill of life's metamorphosis!

"With one day in heaven equal to one year on earth, I wonder how long I have been in closed-door cultivation..." Xuanqing pondered in his heart.

With a thought,

Check Character Panel!

[Name]: Xuanqing

[Physique]: Chaos Morality Holy Body.

[Grade]: Taichi True One Immortal Viceroy, Palace Master of Shenzhao Yushu in charge of North and South Departments Affairs (Standard third rank)

[Cultivation]: Integration of Void Stage (Late Stage)

[Cultivation Method]: Food-Qi Decree

[Divine Ability]: Fate Dragon Control Chapter (°°), Heavenly Thirty-six

Methods (Perfection), Five Element Array (Perfection)....

[Ingots]: 5.1..E

Looking at the Character Panel,

Although he had accumulated enough merit for a Standard Second Rank when he acquired peaches for the Jade Emperor earlier, because he hadn't gone to Lingxiao Bao Hall to be conferred, it still showed Standard Third Rank.

That wasn't the main point.

The focus was on the ingots.

From the original 1.4 billion, there were now only just over 500 million left, meaning this closed-door cultivation...had consumed a whopping 900 million.

One acceleration only takes 900,000, so 900 million is equivalent to a full 1,000 uses!"

Xuanqing was astounded.

A full 1,000 times...what kind of concept was that?

Keep in mind,

It wasn't 1,000 peaches, but 1,000 accelerations.

Using a 9000-year time acceleration once would yield approximately forty to fifty flat peaches.

After calculating it,

A total of...about 360,000 to over 400,000 pieces of 9000-year flat peaches were consumed.

Just as Xuanqing was astonished by his own huge consumption,

Suddenly,

Fluctuations appeared in the air, as if a stone was dropped into a calm lake, creating ripples.

An elegant and noble figure stepped out of the ripples.

Queen Mother?

Xuanqing was somewhat surprised and quickly made a respectful salute with his hand, "I, Xuanqing, pay my respects to Her Highness!"

"There's no need for formalities!"

Queen Mother said indifferently.

At this moment,

She looked at Xuanqing up and down with an incredibly complicated gaze.

After the Jade Emperor left before, she did not close the surveillance screen, but kept watching Xuanqing's cultivation.

Hence,

She saw everything Daoist Xuanqing had done during this time clearly.

From the initial shock...to the numbness afterwards... to the final disbelief...

Unimaginable,

Such a huge emotional fluctuation would appear on a Taohua West True Ten Thousand Mysterious Ancestral Mother who is famous in the Three Realms and rules over the Three Realms' female immortals.

Daoist Xuanqing, can you continue to use this time acceleration divine power?" the Queen Mother asked in a deep voice.

Upon hearing this,

Xuanqing was slightly taken aback.

Could it be that the Queen Mother... also wanted him to continue using the time acceleration on this flat peach tree, just like the Jade Emperor?

With this thought,

He planned to agree, as it was undoubtedly a very cost-effective deal for him to befriend the person in front of him with just a few ingots.

"Her Highness, I am still capable of using such a divine power!"

Xuanqing smiled slightly and then asked, "Her Highness, how many batches of Nine Thousand Years Flat Peaches would you like to harvest?"

He still had a total of 500 million left.

Moreover,

After so long in closed-door cultivation, there must have been an accumulation of a large number of ingots in the real world, which cannot be used up.

However,

The Queen Mother shook her head.

Then,

She formed a hand seal with her right hand and softly chanted a few incantations.

In an instant,

The wind and clouds changed,

The Immortal Spirit Qi in the entire Flat Peach Garden seemed to have been poured into a pot of hot oil by a bucket of cold water and instantly exploded.

Humming-

Only a square gate made of white mist appeared floating in the void.

Through this misty gate, one could vaguely see that there was an infinitely vast space inside.

At this scene,

Xuanqing was dumbfounded.

Is there a separate world within the Jade Pool Immortal Realm, which is already a dependent domain of the Heavenly Realm in the Flat Peach Garden?

“Daoist Xuanqing, follow me in!”

Queen Mother said softly, then stepped into the floating gate in the void.

Hearing this,

Xuanqing lightly tapped his toes and quickly followed.

Whoosh-

After passing through the mist gate, the view suddenly became clear.

Before the eyes... it was indeed an infinitely vast plain, with no boundaries in sight.

More importantly,

In this plain, there was an incredibly huge towering tree which couldn't be seen with the naked eye due to its height being shrouded in cloud and mist.

A tremendous aura emanated from this tall tree.

And judging from the trunk texture of the giant tree, it was actually a... peach tree?

Seeing this scene,

A guess quietly emerged in Xuanqing's heart.

Subsequently,

The Queen Mother's words confirmed Xuanqing's guess, as she said:

“Daoist Xuanqing, this is the true Flat Peach tree... also known as the Flat Peach Divine Tree!”

The Flat Peach Divine Tree?!

Xuanqing suddenly realized,

No wonder,

No wonder the 9000-year-old flat peach tree that he had uploaded in the Flat Peach Garden was only worth 5 million ingots in the store, so it could be redeemed.

Compared to the Ginseng Fruit Tree, which also claims to be one of the Ten Great Spiritual Roots of Heaven and Earth and requires a thousand Heavenly Merits, equivalent to too million ingots, for exchange, the difference is simply too huge.

Turns out,

The flat peach trees in the Flat Peach Garden weren't actually the true Ten Great Spiritual Root flat peach trees, but merely branches at most.

The 'Flat Peach Divine Tree' before them was the real flat peach tree among the Ten Great Spiritual Roots of Heaven and Earth..

Chapter 290: Chapter 259: The assembly held specifically for Daoist Xuanqing shocks the Heavenly Realm!

However.

What was surprising was-

Although the breath of the Flat Peach Divine Tree was incredibly vast, within this vastness, there was a faint feeling of decay.

“I believe you must have felt it too, it’s sick, and hasn’t escaped the decay of the Quantity Tribulation!” the Queen Mother whispered.

The reason for limiting the supply of flat peaches to the Jade Emperor was also the decline of the Flat Peach Divine Tree, which led to a significant reduction in the number of Nine Thousand Years Flat Peaches.

Upon hearing this.

Xuanqing raised his eyebrows and already had an idea in his mind, but he still asked first, “Your Highness, do you mean... to have me use that divine power I just used on this Flat Peach Divine Tree?”

“Hmm!”

The Queen Mother nodded slightly.

After observing for over ten days, she had discovered that when Daoist Xuanqing used his divine power to accelerate the growth of a Nine Thousand Years Flat Peach Tree, even if it was accelerated for several quantity tribulations, there was no sign of any catastrophe.

If the same divine power could be used on the Flat Peach Divine Tree to increase its age without encountering any catastrophe, then it would easily overcome its decaying tribulation.

“I’ll give it a try!”

Xuanqing held his hands in a fist.

With that,

He came to the front of the Flat Peach Divine Tree and touched it with his hand. Of course, it was not necessary to use his hand to touch in order to use time acceleration. It was merely a cover, and also to upload the Flat Peach Divine Tree to the Mall.

Soon after.

He didn't immediately use time acceleration, but instead murmured in his heart.

With a single thought in mind,

“Upload to the Mall!”

[Warm Reminder: Due to the high level of the item, it will consume a large amount of time. Would you like to consume 1 million ingots to downgrade and upload it?]

As expected.

Just downgrading would require one million ingots, which was even more than the amount spent when downgrading the Ginseng Fruit Tree.

However.

For Xuanqing now, one million ingots were a small sum.

“Downgrade and upload!”

[Beep.. Uploading, Progress: i%...5%....8%...20%...99°/o...100%]

About an hour later.

[Upload successful! Product added: Flat Peach Divine Tree Sapling (100,000)]

Looking at the number ‘100,000’ in the prompt.

Xuanqing’s face showed understanding.

This measurement of one thousand was definitely not ingots, but rather Heavenly Merit, like the Ginseng Fruit Tree. After conversion, it was equivalent to one hundred million ingots.

It seems... the reason why the Flat Peach Divine Tree requires more ingots to downgrade is-

Not because it’s more precious than the Ginseng Fruit Tree, but because it has a longer life, so the consumption of downgrading it would naturally be greater!

That’s what Xuanqing thought.

Now-

The Flat Peach Divine Tree Sapling had been successfully uploaded to the Mall, and all that was left was to fulfill the Queen Mother's wish and use time acceleration on this divine tree.

With a thought,

"Use 10,000 years of time acceleration!"

[Beep. -1 million ingots!]

Along with the deduction of the ingots.

In an instant.

A fierce, turbulent suction force emanated from the Flat Peach Divine Tree in this vast plain.

An incredibly huge suction force emerged from the Flat Peach Divine Tree, sweeping away all the Immortal Spirit Qi within a range of tens of thousands of miles.

Humming-

The Flat Peach Divine Tree trembled continuously, and countless peach tree leaves fell from the sky like catkins in the wind.

If one looked closely, it could be seen that these falling leaves were actually yellowish, decayed leaves.

From the side,

Seeing this scene,

A hint of joy filled the Queen Mother's eyes.

"Young friend Xuanqing...continue...continue!"

Tsk, tsk- From being called Daoist Xuanqing, she now switched to young friend Xuanqing. It must be said... no matter what background or identity, when it comes to their own interests, some amazing changes may occur.

If someone claims to be 'indifferent to things,' it's only because they haven't encountered something they care about.

"Yes, Your Highness!"

Xuanqing smiled and nodded his head.

With that,

He murmured in his heart again, “Use 10,000 years of time acceleration!”

[Beep.. -1 million ingots!]

So on and so forth.

Finally... after consuming one hundred million ingots and using hundreds of 10,000-year time accelerations...

Gradually.

The aura of decay on the Flat Peach Divine Tree visibly weakened, eventually disappearing entirely.

Instead,

An incredibly vast Ether Wood Essence emerged from the Flat Peach Divine Tree, giving off a vibrant and energetic feeling.

It was healed.

With countless time accelerations and the resulting growth of age, it had already surpassed the influence of the tribulation of decay, naturally healing itself.

One hundred million!

For Xuanqing, it might not be a small amount, but at most, it would be a moderate sum.

“Your Highness, the mission has been accomplished!”

Xuanqing clasped his hands and spoke solemnly.

Seeing this,

“Good, very good!”

The Queen Mother’s mouth twitched with pleasure, saying the word “good” three times in a row.

She never expected that this great hidden trouble that had plagued her for many years would be resolved by such a young man.

“Young friend, since you have helped me so much, how should I reward you?”
“Whether it’s cultivation resources, divine power techniques, or even... any of the Three Realms Female Immortals that you fancy, just say the word, and I will bring them to you!”

Upon hearing this,

Xuanqing was somewhat taken aback.

The earlier offer of cultivation resources and divine power techniques was normal, but as it got to the end, it somehow became about presenting him with any of the Three Realm's Female Immortals?

What..what...

He was tempted to ask if Fairy Chang'e could be brought to him.

However.

Considering how beautiful Fairy Chang'e was but of no use to his own cultivation, and even possibly causing him to slack off in his cultivation due to her beauty, it would be a loss instead.

With that thought in mind,
