

Chapter 83

Give Paige Money

“Someone from the company said that Paige asked Roderick, Shayna, Anton, Caden, and Stella to her office early in the morning...”

Danica stroked him and asked, “And then?”

“Do you know why the company has been running for a whole year without any improvement?”

When Donald said this, the anger that he had suppressed was triggered again, and his breathing was not smooth.

“Easy. Speak slowly...” Danica felt that the situation was not good.

Donald tried to calm down and said, “There are three clothing companies that cooperate with our company. The price of 330 feet of cloth is about 130 dollars. However, the purchase amount submitted by Stella is 240 dollars. The extra 110 dollars was shared by her, Roderick, Shayna, Anton, Caden, and some production workers!”

Danica was surprised. She didn’t expect that something like this would happen in their company!

“It doesn’t matter if she embezzles 110 dollars. The key is that she embezzled it for a whole year! Paige checked it, and the total amount involved is as high as 1.6 million dollars or more!”

When Danica heard this, she was shocked and said, “How dare they collude with each other and do this kind of thing!”

“The three clothing merchants transfer money to Stella every month, which proves that she has indeed done it, and she admitted it herself...”

Donald was so angry that his heart hurt. He added, “Not only that, a piece of cloth that is 330 feet long could be made of around 80 new products, but only around 30 new products were left in the warehouse. Do you know where around 50 new products went?”

Danica shook her head. Patricia also expressed her confusion. Both of them were waiting for Donald to continue.

“They opened a store on the Internet the second month after the company was established. If a customer orders, they will take the goods to the nearby courier station to send them out. If the customer wants more at once, there will be a courier who will come directly to our company’s warehouse to collect the goods!”

Danica was stunned. “Aren’t these people too bold? Aren’t they afraid of being caught by the surveillance camera?”

“The surveillance footage was deleted by them. They collided with each other. They are fearless.”

Donald couldn’t believe it when he heard this, but the evidence was conclusive. “It is said that Paige reentered the surveillance camera to see this scene...”

“If not for Paige, how long would they have kept it a secret...” Danica was shocked.

“Besides, they even h**rd a large number of the low-quality fabric. They had produced many products of our company’s style with it. They pasted the label of the company and sold those clothes elsewhere. Because the fabric was rough, many people got skin allergies after wearing it, which was equivalent to ruining the company’s reputation... This has a huge impact!

Danica was shocked She thought, no wonder the company couldn’t make money for a whole year. It was because of these people who played tricks!

However, Patricia thought, Paige ruined it again!

Today, Patricia deliberately brought Donald and Danica here to play golf. The atmosphere was good. But what happened in the company interrupted them. Patricia was unhappy that their good mood had been affected!

Patricia thought that everything she did today was in vain!

Patricia thought, d*mn Paige, why did she have so many things to do? Why did she appear from time to time to affect my mood?

“What about Nigel? Before Paige took charge of the company, he was the one who was in charge! Did he not know that such a thing happened under his nose?”

Danica asked.

“Those people said that all of this was coerced by Nigel. I don’t know if it is true or false...”

Donald thought, if Nigel was a bad person, then this year, the company would not only lose 1.6 million dollars....

“Nigel is the backbone of the headquarters. When we sent him there, we also believed in his ability and character...” Danica did not expect that such a thing would happen. Danica thought that Nigel must have something to do with this thing.

“But there is very little physical evidence related to him now, and he can’t be convicted.” Donald thought of this. He was worried about it.

Donald thought, if Nigel had the power to control the company, then how much money would the company lose this year.

“Should we send people to help Paige?”

Danica was afraid that Paige would be left alone without help.

But Donald was not worried about this. “Don’t worry. We are playing golf here. It hasn’t been long since Paige discovered so many problems... Her ability is above everyone’s! I believe she can handle these.”

“Since Paige took over the company, she has helped us a lot.”

When Danica said this, she looked at Patricia and said, “In the future, you have to learn more from Paige...”

Paige’s management ability had long surpassed her age.

Danica thought, Paige is my biological daughter. This business gene is engraved in her body. She is outstanding.

On the other hand, Patricia, who was spoiled by us from a young age, could not manage the company like Paige did even if she was given a company.

“Patricia, you won’t take over the company in the future, right? You can continue to be a young miss. When the time comes and you want to get married, we will never treat you unfairly.”

Donald smiled kindly, still treating Patricia as a family member.

Danica also smiled and said, “Do you remember the older sister of Olivia? When she got married, her parents gave her 130 million dollars, 12 villas, and 12 cars. Don’t worry. We will give you more.”

When Patricia heard this, she felt uncomfortable. She thought, the Lusk family was so rich and powerful. How could you just give me more than Olivia’s older sister?

It’s unfair!

You said that you treated me as a family member. It was indeed a lie!

Paige has only been home for a few days, and her pocket money is already more than 16 million dollars. Now, Paige has a company.

and no one knows how much it would be worth if it developed well!

And I can tell that you still want to give her more companies!

The money will be spent sooner or later, and only companies are the source of money!

Only some money, some villas, and some cars? Those are not enough for me!

I’m not a beggar!

“Paige must have suffered a lot in the Tate family to understand the dark side of human nature...” Patricia suddenly changed the topic and pretended to be distressed, “Dad, M*m, we have to be good to Paige...”

Hearing Patricia’s words, Donald and Danica remembered the result of the investigation. For so many years, Paige had not had a good day in the Tate family.

Paige seemed cold. She was independent and strong. Presumably, no one around her cared about her.

“Patricia is right. I want to transfer some money to Paige and let her know the warmth of the family...” Danica immediately took out her mobile phone and transferred 8 million dollars to Paige.

Get Buger

Donald also took out his mobile phone and asked, “How much did you transfer? I also want to transfer some... I have to let Paige know that she not only has her mother’s love but also her father’s love!”

When Patricia heard this, she was suddenly jealous. Her original intention was to hint to Donald and Danica that Paige grew up in that kind of environment since childhood, and her mind had long been complicated and impure!

Patricia thought, otherwise, how could Paige see through the dark side of so many people?

However, Donald and Danica thought about it differently....
