

Campus Master 1611

Chapter 1611

“Boom boom boom!”

“Bang Bang

AM.

A bang rang out in a small community in Jiangzhou.

It was also fortunate that it was already office hours and the vast majority of people in the neighborhood had gone to work, otherwise, the commotion would have attracted an unknown number of onlookers.

Han Zhong stood in the living room with an iron face, the floor was littered with glass fragments, which were broken cups.

“Fuck him!” Han Zhong cursed angrily and almost jumped to his feet.

He took out his phone again and looked at it, his face even angrier.

.....

“White spider, did you hear anything?” Ji Feng was about to go upstairs and had just walked into the lift lobby when he took two more steps backwards and came outside the building to look up.

“What sound?” White Spider was stunned.

Ji Feng frowned slightly and said, “It seems to be coming from upstairs, who’s dropping things?”

White Spider listened more carefully with his side ears, but still found nothing.

“Forget it, let’s not bother about that, let’s go upstairs to find Han Zhong first!” Ji Feng waved his hand and smiled.

“Yes!”

At this moment, Ji Feng and White Spider were downstairs of Han Zhong’s house, they came here to find Han Zhong, just now when they walked downstairs Ji Feng suddenly heard something, which caught his attention.

The two of them took the lift to the floor where Han Zhong’s house was located, and Bai Spider was about to go up and knock on the door, but as soon as she reached the door, she couldn’t help but freeze.

Ji Feng then couldn’t help but freeze as well, “What’s going on?”

White Spider shook her head, “It was like this as soon as I came, I don’t know exactly what’s going on.”

At this time in front of them, is a wide open door, and then into the eyes is a mess, that house living room floor, all kinds of messy things, glass fragments, sofas, coffee table, all is east and west was placed in a mess

It was as if they had been burgled!

And it would only be possible if Han Zhong had fought those home invaders to the death, otherwise it wouldn't be in such a mess.

Ka ka ka~~!

The white spider was as fast as lightning, after only a slight moment of daze, she was already holding her pistol and pointing it inside the door, then slowly approaching.

The scene in front of him really looked like it had been ransacked.

How was Han Zhong?

This was the first thing he considered. He immediately signaled to the white spider, and the two of them, one paying attention to the front and the other taking care of the back, carefully and quickly entered the living room.

“Claptrap~~!”

There were too many things on the floor, and there were also glass shards all over the floor, even though White Spider was very careful, he couldn't help but step on the broken glass.

The first time Ji Feng saw Han Zhong who was sitting in the corner of the living room, he couldn't help but be stunned.

He found that at this time Han Zhong was actually still sitting leisurely on the only sofa in the corner of the living room that hadn't been pushed over, leisurely smoking, this discovery made him cry and laugh, the house had become like this, this guy could still sit still?

Ji Feng immediately gestured to the white spider, the latter nodded knowingly and quickly went to the room with his gun for inspection.

“There's no need to go, there's no one inside!” Han Zhong said.

“What the hell are you kid up to? What's going on here?” Ji Feng couldn't help but ask with a frown.

“Nothing, in a bad mood!” Han Zhong said.

“Not in a good mood?”

Ji Feng was really surprised when he heard that, he lifted his foot and hooked up a chair and sat down not far from Han Zhong, “That's your reason, that's really odd! You're in a bad mood and your home is like this?”

Han Zhong stretched his hands, “I was really pissed off, so what if I smashed it!”

“That's easy for you to say!” Ji Feng laughed bitterly, “What the hell is going on here? Why did you lose your temper so much for no reason?”

“You can see for yourself!”

Han Zhong didn't answer, but handed the phone to Ji Feng.

Ji Feng gave him a suspicious look, “What's to read?”

“Text messages.” Han Zhong said, “There's a message from an unknown number, just read it and you'll understand.”

Ji Feng frowned slightly and opened his mailbox, sure enough, only to see that the first one in his inbox was from an unknown number, it seemed to be this one.

He casually opened the message, and immediately, his brow furrowed tightly at once!

“Mr. Han, I am sorry to disturb you so presumptuously, but I have thought about it for a long time and have not called the police for the time being, but I feel that things between us have to be settled, please Mr. Han be mentally prepared By the way, just to remind you, I landed in Mr. Han's hands at the flyover, Mr. Han should not forget about me, right?”

Seeing the content of this text message, Ji Feng couldn't help but ask: “How is this text message a bit ambiguous? Han Zhong, which girl did you provoke to send this?”

Han Zhong sneered, “If it's that, that's great! I haven't had the effort to mess with girls for the past year or two!”

“Then this text message is”

“It's from that woman!”

“Who?”

Ji Feng was stunned.

“Who else could it be, it's the female ghost I said I met that day That was the woman I met under the flyover that day!” Han Zhong's face was unpleasant.

“It's her?!” Ji Feng laughed, “Finally! I knew it, meeting a woman for no reason, not knowing you and not being a street girl, and she's still willing to have a fling with you, how can it be that good?”

“Looks like she's just waiting for me here!” Han Zhong sneered.

“A woman, who, according to your description, still seems to be very pretty, is actually willing to use her body to deal with you It seems that her plans are not small!” Ji Feng's mouth was tinged with a smile, “I'm afraid this is your peach fever!”

“Bullshit!”

Han Zhong gritted his teeth and said, “This is clearly a trap she set up! If she didn't volunteer, I was so drunk and dazed at that time, I wasn't that strong even if I used force, she could have run away, and even if she couldn't, she could have called the police to arrest me afterwards What is this?”

Ji Feng couldn't help but laugh dumbly.

"I was originally in a good mood today, and was planning to go out to work, when this text message came,," Han Zhong shrugged it off, looking like he wanted to jump to his feet.

"Then did you ask her what exactly she wanted?" Ji Feng asked.

"Asked, but it was useless. Her number is one of those special phone cards, there is no caller ID, and I can't dial it even if I call, and I don't know if she received it even if I sent a message." Han Zhong shook his head.

"Then there's no need to ask!"

Ji Feng smiled, "If the time comes, she will definitely talk, she did not hesitate to use her body as a price, isn't it to get something, now that she sent you a message, it proves that she is about to sit down, so now it is all the more important for you to sit still and be composed!"

"I'm still composed?" Han Zhong said in annoyance, "Who the hell is this to harm me? First, she gave me those pills, and I haven't even found out who did it, and now instead, she's coming after me for settling scores,,"

Han Zhong was really pissed off, anyone who was fed so many aphrodisiacs for no reason, almost lost his life, now his body has just recovered some, and was blackmailed again, I believe no one would be in a good mood, although there were also fragrant springtime in the middle, but Han Zhong did not like it at all.

Even the little life almost lost, still can care about that little thing?

The text message from this person, in particular, was shameless to the extreme, making Han Zhong instantly furious.

In his anger, he shattered the cup in his hand,

The first thing you need to do is to take care of this woman for the time being, and pick a bodyguard from the security department to follow you in the next few days.

Han Zhong sneered, "I'm not looking for a bodyguard, just me, I'd like to see, they can still get me killed?"

Ji Feng frowned and said, "This is not the time to fight, even if you're not afraid of yourself, you still have to think about your family, right? If something happens to you, how sad would your family be in their hearts!"

Han Zhong then stopped talking, in fact he knew that Ji Feng's proposal was correct, he was just too angry in his heart.

"Also,," Ji Feng pondered for a moment and couldn't help but smile slightly, "I think it's necessary for us to walk up to the Haotai Hotel again, now is the time!"

"Hmm?"

"Originally, you only went to Hao Tai Hotel to make sure you weren't dreaming that night, so you asked them to pull up the CCTV footage and check-in records, you didn't see anything wrong that day, and this

will go away.” Ji Feng chuckled, “But now it’s different, you received an extortion text message, so for good reason, you should go to the Haotai Hotel again to investigate!”

Han Zhong immediately dawned on him as he interjected, “It’s only reasonable for me to go to the Hao Tai Hotel, if I don’t, then maybe the other party will still think that I’ve started to suspect them!”

“Totally right!” Ji Feng smiled and nodded his head.

“Motherfucker!”

Snap!

Han Zhong slapped his thigh and stood up violently, “Go! Let’s go to the Hao Tai Hotel! I want to see what kind of tricks those motherfuckers can play, whatever they want to do, I’ll accompany them to the end!”

“Wait a minute, there’s no need to rush!” Ji Feng smiled and waved his hand, “We can’t go like this!”

“Then how should we go?” Han Zhong was stunned.

“Who am I?” Ji Feng raised his head, “I’m the nephew of the secretary of the Jiangzhou Municipal Committee, my friend is being set up, if I don’t go and smash him to pieces, can I still be considered a dude?”

Han Zhong’s eyes lit up at once: “You mean”

Ji Feng smiled faintly: “Call a few people and let’s go smash the scene together!”

“High!”

Han Zhong immediately understood what Ji Feng meant, and he laughed out loud, “Damn it, let’s smash him today!”

Chapter 1612

Who is Ji Feng? That is the nephew of Jiangzhou Municipal Party Secretary Ji Zhenguo, and at the same time, he is also the boyfriend of Xiao Yuxuan, the boss of Tengfei Group.

This two identities of his were known to many people in Jiangzhou.

Not to mention his relationship with Xiao Yuxuan, just by saying that Ji Feng is the nephew of Ji Zhenguo, this identity alone is enough for him to walk around in Jiangzhou without anyone daring to take care of him.

The fact is that if Ji Feng is a bit domineering, a bit foppish, or even to put it more seriously, even if he bullies men and women and fishes the people, that would be perfectly normal in the eyes of many people, who let him come from a good background!

The company’s main business is to provide a wide range of products and services to the public.

Unless Han Zhong is not taken seriously in the Tengfei Group, but this is impossible, everyone knows that Han Zhong grew up along with the Tengfei Group, moreover, he is also a university classmate with Ji Feng..... this kind of information, I believe that anyone who has the heart can check it out clearly.

Therefore, when Han Zhong was set up, Ji Feng must have been furious!

This is what is normal!

Besides, since Han Zhong was able to serve as the general manager of the Tengfei Group, he was obviously not some stupid person, and he should have known after receiving that text message that he was being set up.

He could have guessed that, and I'm sure some people would not feel surprised.

Then, since these possibilities had been considered by the other side, Ji Feng and Han Zhong naturally had to play along with people's ideas!

So Ji Feng made a phone call to Yi Xingchen, and led by Liu Xin, he brought three members of his war team, as well as five or six strong and powerful Tengfei Group security personnel in two cars, and rushed directly to the Hao Tai Hotel.

As an extra, there was Lu Gang with a sniper rifle who rushed ahead to the destination to occupy the high ground and prevent any unexpected situations from happening.

On the way to the Hao Tai Hotel, Han Zhong looked excited all the time.

"Damn it! This time we can finally take a good breath of anger!" Han Zhong said this sentence no less than four or five times, which showed how angry he was in his heart.

He had been set up, and had even almost lost his life, so it was fine.

But what Han Zhong didn't expect was that the other party had now sent another blackmail text message!

Although the text message did not say what he wanted, but looking at the content of the text message and the tone of the other party, he could understand that the other party's plan was not small.

Only, it may be because it is not very good to say in the text message, or to create psychological pressure on Han Zhong, and then gradually what is asked for this should be the other party's plan, paste a beautiful woman's body, and then achieve some kind of purpose.

..... This is a clear-cut matter!

This is one after another being calculated, how could Han Zhong heart not be nasty fire?

The actual fact is that you can't find anyone, you don't know who is scheming you, what can he do?

Even if he knew that there was something suspicious about the Hao Tai Hotel, there was nothing wrong with the check-in records, and there was nothing wrong with the CCTV footage, so what could Han Zhong do?

He could only grit his teeth and endure!

But now it was different, Ji Feng took him straight to the Hao Tai Hotel, which meant that Ji Feng was not going to reason with them this time, he would smash it first.

“Since you want to play, then I’ll play with you! However, I don’t care how you play, but on my side, I have to play by my rules!”

This was Ji Feng’s meaning.

He was just going to use his status to pressure people, what the hell!

Han Zhong understood very well that this was what Ji Feng was doing, using this kind of brutal and unreasonable method to beat the other side’s hands and feet before he could make them reveal their weaknesses.

However, Han Zhong did not know that this was the first time that Ji Feng had done this, the first time he had used his status to press people!

This was also a change in Ji Feng’s mentality!

In fact, in the three years or so since he came to Jiangzhou, Ji Feng had gone through a huge change in his heart, from his youthfulness at the beginning, to his maturity now.

At the beginning, Ji Feng was very averse to using his family’s power to deal with people. At that time, he firmly believed in his own power and also believed that he could definitely fight his way out of everything by relying on his own hands.

Now he also believes the same, but there is a premise, that is, to have a fair environment.

And after these years of experience, Ji Feng’s attitude has gradually changed a bit, more than before, he now pays more attention to the results and whether his position is fair for many people, and for himself, likewise whether it is also fair!

For example, in the case of the Chang Chongwei incident that he encountered last time, Chang Chongwei, relying on his family’s power, could even make a move with him, even forcing many people around him to persuade Ji Feng or not dare to reach out to help him, this phenomenon, then, gave Ji Feng a big wake up call.

It was not something to be ashamed of to rely on the power of the family.

If relying on the power of the family can better fight the enemy and protect oneself, or if one can use this power to help some people, then why not do it?

This time, Ji Feng just decided to be wild for a while!

With his family backing him up, he could go and smash a big hotel with impunity, while being sure that no one would dare to arrest him, if he didn’t have the family’s power to protect him, he wouldn’t dare to do so, then wouldn’t Han Zhong be counted for nothing?

He doesn’t try to take the initiative to bully anyone, but if he is provoked, it doesn’t matter what means he uses to fight back, what matters most is the outcome.

Before it touches his bottom line, what means are overriding, then he will use whatever means!

“Tick tock ……”

Suddenly, the miniature earphone stuffed in Ji Feng's ear rang, and Lu Gang's voice came over, "Little Chief, I have reached my destination, so far everything is normal, the outside of the hotel is under surveillance, the inside of the hotel can't be seen clearly, the sightline is affected!"

"It's fine, you don't have to worry about the inside, but I'll leave the outside to you." Ji Feng smiled.

"Little Chief, don't worry, I will do my best to ensure that the mission is completed!" Lu Gang immediately said loudly, "What else does Little Chief have to order?"

"Just be careful yourself!" Ji Feng admonished.

"Yes!"

Ji Feng smiled faintly and turned off his headset.

"Ji Feng, what if we smash the Hao Tai Hotel and then the other party still doesn't show up?" At this time, Han Zhong suddenly asked.

"Still doesn't show up?"

Ji Feng couldn't help but shake his head and laugh, "If the other party still doesn't show up, wouldn't that be even more proof that they have a ghost in their hearts?"

Han Zhong was dumbfounded.

Ji Feng said, "Don't forget, we're only going after the Hao Tai Hotel today, and it's much easier to find out who's behind this hotel by investigating from this hotel!"

Han Zhong agreed with this plan of Ji Feng's, indeed, today was to find trouble with Hao Tai Hotel, if the other party still had something on him, then there would definitely be people involved, otherwise, the next thing could be unmanageable, by then Han Zhong would rather get into trouble than compromise with the other party half the time!

They wouldn't dare not show up!

"Young Ji, we're almost there here!" White Spider reminded from the front.

"Just about there?" Han Zhong instantly perked up, "Motherfucker, I have to make a good mess of him today!"

Ji Feng smiled and said to Bai Spider, "Drive the car directly to the car park of the Hao Tai Hotel!"

"Yes!" The white spider answered.

About ten minutes later, Bai Spider drove directly to the car park.

Liu Xin and the others got out of the car quickly, although those security personnel had a certain gap in terms of movement and efficiency compared to the members of the battle team, but compared to ordinary people, these security personnel who had been trained by Yi Xingchen for almost a year were already quite good.

Ji Feng nodded in satisfaction, using these people to bully a hotel was enough.

“Go in!”

Ji Feng walked in the forefront as he looked up at this Hao Tai Hotel.

The scale of this hotel was indeed not small, it looked like it had more than ten floors, it should be a star hotel.

Ji Feng glanced at the security guard at the entrance of the hotel again and walked forward with big steps.

“Ka boom~~!”

Ji Feng had just reached the front, and before that hotel’s automatic door had time to react, it was broken open by Ji Feng raw!

The two security guards at the entrance of the hotel instantly came down in cold sweat, their faces changed drastically and they subconsciously took a step back, they dared to even have the thought of coming up to stop Ji Feng.

This group of people were not to be messed with at first glance, they were just trying to make a living, how could they be willing to mess with these people?

The commotion at the entrance here also attracted the attention of the service staff in the hotel lobby, and when they saw Ji Feng and his group walk in, they were all dismayed.

Han Zhong’s face was cold as he came to the service desk and swept a cold glance. However, he found that these people did not seem to be the same service staff from the last time he came to stay.

Several of the service staff instantly blushed a little, and one of them, a girl who looked like a foreman, about thirty years old, gathered her courage and asked, “This, this gentleman, you”

“Where is your boss Cheng Haotai?!” Han Zhong asked in a cold voice.

“The boss is not here, may I ask if you are” The woman’s voice seemed to tremble a little, “This gentleman, please calm down, whatever you have to say”

“You don’t need to be afraid, you are all working people, I won’t make things difficult for you!” Han Zhong waved his hand and said, “Now call and tell your boss that I, Han Zhong, have come to look for trouble with him, and if I don’t see him within half an hour, then there is no need for this hotel to exist!”

He raised his hand to look at his watch and added, “This half an hour is also for you, immediately inform all the staff to leave from here within half an hour, otherwise, if you are hurt by mistake later, don’t blame me!”

Everyone froze!

Chapter 1613

Half an hour’s time, that was the deadline given by Han Zhong.

After saying that, Han Zhong turned around and left.

These front desk service staff were basically part-time workers or some bottom-level employees, Cheng Haotai wouldn't pay too much attention to them, so they shouldn't be involved in the plan to deal with Han Zhong, then Han Zhong naturally wouldn't make things difficult for them.

Leading the men to the lobby lounge area, they sat on the sofa, crossed their legs and leisurely waited for Cheng Haotai's arrival.

Ji Feng and Han Zhong were sitting on the two sofas diagonally next to each other, and the two of them were talking in low voices.

As for the fact that other people in the hotel were watching, they didn't care at all.

They had to know that they had come here today to cause trouble, if they were all afraid of people watching, then they wouldn't have come.

Moreover, such a large group of people had come here in such a raging manner, and even Han Zhong had even let out such harsh words directly, it would be strange if people were not stunned.

So whether it was the staff in the hotel lobby, or the security guards at the entrance, or the tourists who happened to be staying in the lobby or passing by, they were all shocked, and some of them were still watching from afar, but they didn't dare to approach.

However, Liu Xin stood up, and he turned his head and said something to a few people next to him.

Immediately afterwards, several people walked over quickly and said loudly, "All disperse, everyone, there is nothing to see, this hotel will not be open again soon, everyone take your things out for the time being so as not to be hurt by mistake"

Ji Feng took a look and was satisfied with Liu Xin's reaction.

These staff members gathered around, that was nothing, because they had originally come to find trouble with Cheng Haotai today, and might have to find a few staff members to ask about the situation

It would be best to find a few staff members who were responsible for being on duty the day Han Zhong checked in.

However, this matter has nothing to do with the customers who come to the hotel, and Ji Feng will naturally not involve them as well.

Even if it was nonsense, there must be a limit to it!

At this time, the woman at the front desk came over, her face still had a hint of shocked fear on it, but was forcing herself to walk over with composure.

Ji Feng swept across her chest and saw that her badge read – Front Desk Manager.

He couldn't help but smile slightly, this manager was indeed dedicated enough as a manager, knowing that trouble was coming, instead of going to her own boss, she ran over here

Did she still think she could persuade herself and the others to leave?

“This gentleman” the woman’s voice was slightly shaky, showing that she was actually still scared inside, “I have just called my boss, but, it seems that my boss is busy and his phone is not in the service area I can’t reach him for a while, do you have any questions for me?”

“Ooh!”

Han Zhong grinned, “Talk to you?”

“Yes, you think, if your request happens to be within my responsibility, then I can help you solve it, and there’s no need to make a big deal out of it, after all, if things get too big, it’s not good for you, or for our boss, so why don’t we sit down and talk, and we’ll try to meet your request, what do you think?”

When the woman saw that Han Zhong was willing to talk to her, her heart relaxed slightly and she squeezed a smile onto her face, “I forgot to introduce myself, I’m the manager of the front desk”

“I want to see Cheng Haotai right now, can you have him show up immediately?” Han Zhong asked.

“..... eh?” That front desk manager couldn’t help but be stunned, for a moment being blocked by Han Zhong, he actually didn’t know what to say in response.

“I have just told you very clearly that I am here today to find trouble with Cheng Haotai, either he appears in front of me within half an hour, or else, this hotel does not need to open!”

Han Zhong’s face was completely cold, remembering what he had experienced in this hotel, his eyes were even more furious: “You can choose to call Cheng Haotai, likewise, you can also choose to call the police, whatever you do, I only give half an hour, no waiting after that! ”

That front desk manager’s face then was ugly, Han Zhong was too arrogant, even with the number of people, you can’t give no face at all, right?

Ji Feng did look at that front desk manager, more or less strange in his heart.

Although it is now a society under the rule of law, but a metropolis like Jiangzhou, but there are all kinds of people, three religions and nine streams, mixed with fish and dragons, as a front desk manager of a hotel, she often has to deal with these people, or give some money to settle some door-to-door hooligans, or to deal with some hands from above, how could she be so insensitive?

Couldn’t she see that Han Zhong was almost ready to go on a rampage now?

Or did this woman think that she and the others who came here were just bluffing and didn’t dare to make a move at all?

This woman is a bit bold!

In fact, Ji Feng did not know that the reason why this front desk manager talked to Han Zhong was because he and Han Zhong’s clothes and body aura were not too vicious!

The front desk manager actually often deals with the triads in society, and has to receive an unknown number of customers every day, so she can develop a pair of golden eyes in a very short time.

The two of them, like Ji Feng and Han Zhong, looked extraordinary in terms of both their clothes and their demeanor, so she first ruled out that Ji Feng and the two of them were definitely not street thugs, and they could not even be people from the Dao!

The front desk manager was relieved to know that many people on the road were becoming more and more unruly and unethical. Even the boss occasionally lamented that people nowadays were all about money, and as for ethics, it was just a piece of paper to wipe their asses.

So nowadays, when it comes to the most vicious people, that dao is definitely at the top of the list.

Other than that, it doesn't matter who it is, it can be fixed with money!

That's what the boss had told her once.

It was precisely because of this judgement that she had come over and wanted to talk to Han Zhong, and even, she had pointed out that if things really got big, it wouldn't be good for everyone.

But this front desk manager was unaware that today Han Zhong and Ji Feng came over and didn't care if things went too far.

"Go ahead, tell Cheng Haotai that Han Zhong is here!" Seeing that the front desk manager could neither enter nor retreat, Ji Feng waved his hand, "You can't make the decision on this matter, let Cheng Haotai come personally!"

The front desk manager nodded, it seemed that these two people would not buy her account at all.

She was more or less indignant in her heart, these two people's stance was a bit too big, even if they were the grandson of any leader, being so arrogant was a bit too much.

In Jiangzhou, even if some people were very arrogant, they would not dare to come to the Hao Tai Hotel to cause trouble easily.

You know, there are many foreigners staying at the Hao Tai Hotel, so the more the relatives of those leaders' families, the less they would come here to cause trouble, they would at most adopt some underhanded means to strike behind their backs, which is also the habitual practice of those gentry.

But these two guys in front of me are different, they don't seem to be afraid of making a scene at all, and they are even so arrogant

After taking a look at the automatic door that was broken by Ji Feng raw, this front desk manager secretly gritted his teeth.

These two guys had indeed gone too far!

"Then, please sit here for a moment, I'll go and inform our boss!" She dropped this sentence and turned around to leave.

"This woman looks very indignant!" Han Zhong's face sank.

"You haven't given people face in the slightest, do they still have to smile?" Ji Feng said indifferently, but he had a different opinion of this woman.

It was obvious that this front desk manager of the Hao Tai Hotel seemed a bit annoyed, she was lumping herself and Han Zhong in with the people who were causing trouble.

I believe that if she didn't think that she and the others were not ordinary punks, I'm afraid that she would have asked the security guards to come over and throw them out, right?

The woman like the front desk manager is experienced in the society, often dealing with those three religions and nine streams, very competent, in fact, also very strong, the general small gangster is not really put in her eyes.

So, just now, Han Zhong did not give her any face, I believe she must be gnashing her teeth and cursing in her heart, even thinking how to cure herself and Han Zhong, right?

“Stomp, stomp, stomp”

Just at this moment, a rush of footsteps came over.

Ji Feng and Han Zhong turned their heads at the same time and looked at the sound, they saw a group of people coming down the stairs, these people were wearing security uniforms, they looked like they should be the security personnel in this hotel.

“Tick tock”

At the same time, Ji Feng's headset also rang, Lu Gang's voice came through: “Little Chief, there are a dozen security guards outside entering the hotel, be careful!”

Ji Feng immediately turned his head to look, and indeed found that outside the door another team of security guards had come over quickly, these security guards were holding batons in their hands, each one looked very dignified and quite aggressive.

“Ji Feng, it looks like they are trying to throw us out!” Han Zhong held back his anger and said, “That woman doesn't seem to have called Cheng Haotai.”

“Heh!”

Ji Feng laughed, that front desk manager was not convinced, naturally she wouldn't call Cheng Haotai, if she could rely on the security guards to clean up the people who came to make trouble, then she would be twice as dignified in front of Cheng Haotai, and she would even be promoted and reappointed.

Ji Feng's gaze fell on one of the security guards who came down from the upper floor, the only man not wearing a security uniform, probably under 40 years old and in his prime.

This man was dressed in a suit and looked like a manager of this hotel, or a senior.

“What kind of people are causing trouble here?”

“All of you stand honestly!”

Chapter 1614

“They’re the ones causing trouble here!” At this time, that front desk manager had a lot of energy as soon as he saw the security guards coming, “It’s those two boys sitting in the lounge area, everyone else is their henchmen!”

“Damn it!” Han Zhong’s face instantly sank.

This woman was really a two-faced piece of shit!

Just now she was so scared that her face turned white, and now once the security guards had arrived, she actually started flaunting her power again Han Zhong even suspected that if he hadn’t brought people over today, and it was just him and Ji Feng who came over, I was afraid that as soon as she opened her mouth, this woman would pounce on her with her teeth and claws.

“This kind of woman, is typically the goods that owe a lot!” Han Zhong said with a gloomy expression.

In fact, Han Zhong was also a man who had seen a lot of things and he had a good sense of how to read people. From the beginning, he could tell that this woman had been in society for a long time and had often dealt with people from all walks of life, so she had developed her guts, but at the same time, she had also developed her disgusting character of being erratic and double-minded.

If she sees that you are strong and she thinks she can’t hold you, then she will welcome you with a good face. But if she sees you as inferior to her, but still dares to call her bluff, hey, then you’re just waiting for bad luck!

In fact, in the workplace, this kind of person is also very common, for example, in many companies there will be a kind of woman, known as – the exterminator.

This type of people, a large part of them is this kind of character.

But knowing that, but right now, being pointed at by this receptionist manager, she was still screaming there, it was strange that Han Zhong’s face could look good.

At this time, the burly man came over with the security guards, the ones who came down from upstairs and the ones who came in from outside the door, there were about 20 of them.

The burly man’s face was even taut, and his eyes were glittering with a cold light.

“Were you the ones who were making trouble just now?” The man stared at Ji Feng and Han Zhong and asked in a cold voice.

“Is that how you informed Cheng Haotai?” Ji Feng’s gaze however fell on that receptionist manager’s face, the corner of his mouth held a sneer, “Or did you already inform Cheng Haotai and he sent these people over?”

“Cut the crap!”

That front desk manager saw that she had more people than the other party, and suddenly her heart was full of energy, she said in a cold voice, “You two brats, do you know what this Hao Tai Hotel is, this is a star hotel, you can just come and cause trouble? I’m telling you, if you know what you’re doing, fix the door you broke now and get out immediately, or else hum!”

“Understood!”

Ji Feng nodded noncommittally and exchanged a glance with Han Zhong, both of them shaking their heads and laughing at the same time.

Han Zhong gave a heated laugh, “Will you do it or will I do it?”

Ji Feng laughed: “Neither, just leave it to them”

“You two!”

The burly man standing in front of the security guard suddenly let out a low shout, his face was gloomy and his gaze was even colder, looking almost as if he was about to come up and beat the two of them up.

The burly man was indeed furious, he had brought his men here, but these two boys were still talking to themselves, not even looking at him, this was simply not putting him in his eyes!

Even if the hotel owner Cheng Haotai had come, he wouldn't have treated him like this, he would have been polite to him or said a few words of encouragement, let alone these two boys, who didn't even look like they had grown any hair!

“Do as Manager Liu says!” The burly man bellowed coldly.

Han Zhong glanced at him and frowned slightly. This man just didn't look like a good person, giving off a grim feeling that made Han Zhong dislike him.

However, he vaguely guessed that this man should not just be the security guard of this Hao Tai Hotel, he was in all probability 9 of ten a person from the road.

The company has a lot of people in the business, and they will hire some people who are well known in the business to help maintain the order of the hotel, so that if there are other people in the business who come to ask for pocket money, these people will directly block them.

The business is always a business and there are always issues that are not so easy to bring out in the open, so with the presence of these people, many things are always easier.

I am afraid that this man in front of me is one of these people.

Han Zhong stared at this man and said in a deep voice: “Taking money from others to eliminate disasters is certainly a good saying, but I advise you to take a good look at what money you can take and what disasters you can't eliminate!”

The man's face sank again: “What do you mean?”

Ji Feng gave a faint laugh and asked, “My friend is right, you all came out just to make a living, so I guess the little money you took is not enough to make you fight for your lives, right? Hurry up and take your people away!”

The man was hesitant, he stared at Ji Feng and Han Zhong for a long time, but found that these two boys were indeed rampant, even in the face of a dozen of them, they did not panic at all, but had a sense of playfulness, it was clear that they were not afraid at all!

Could it be that these two boys had a great deal of influence?

The man's gaze swept over the expressionless Liu Xin and the others, and he gritted his teeth and said, "Gentlemen, you are here, our hotel can't do business, please cooperate with us"

"Get lost!" Ji Feng spat out a word indifferently.

"..... What did you say?!" The man's face instantly sank and anger flickered in his eyes.

"Sanzi, don't talk nonsense with them, throw them all out!" Behind there, that front desk manager Liu was still shouting.

"You can listen to her!"

Ji Feng's face also turned cold: "I've given you the chance, now, either do it or, take the people out immediately, your choice."

In fact, Ji Feng didn't have time to talk any more nonsense with this group of people, it was only because the customers in this lobby hadn't been completely cleaned up yet, so Ji Feng waited a little bit, otherwise, he would have thrown this group of aggressive looking guys out.

Now that the people in the lobby were almost cleaned up, then it was time to get down to business, and Ji Feng naturally didn't have that much to say to these people.

"Two guys, don't bully people too much!" The burly man named Sanzi said in a deep voice, "Our General Manager Cheng is considered a dignified person in this Jiangzhou land, how can you make a scene like this, it's a bit too much."

"Sanzi, don't say any more nonsense to them, they are just respecting the wine but not eating it, throw them all out!" That manager Liu screamed.

Seeing that the customers were all being driven out, from time to time there were still customers coming down from upstairs, the front desk staff was even shaking in fear, Manager Liu was immediately furious, by these two boys so much trouble, today not to mention making money, even if it is good to lose less money.

"Throw them out!" Manager Liu screamed.

"Two" The burly man wanted to say something else, but was instantly cut off by Manager Liu.

"Sanzi, don't you remember what the boss has told you before? Do you have to ask me to tell the boss what happened today before you will do anything?" Manager Liu shouted.

Sanzi gritted his teeth, "Two, please leave!"

Ji Feng shook his head and waved his hand, "Throw it out!"

Throw it out?

The third son was stunned, he was saying that he should throw them out, there were people like that?

As for saying that it was Ji Feng who wanted to throw them out, this matter did not even occur to Third Son, jokingly, half of the twenty-odd security guards he brought with him used to be punks who often

fought, and there were two ruthless characters among them, ordinary security guards could only take a beating in front of them.

Not to mention

The first thing you need to do is to take a look at the people that Ji Feng brought with him.

However, the next moment, the three sons understood what that action of Ji Feng just now was all about, only to see that as Ji Feng's gesture fell, the three sons just wanted to speak, a black shadow next to them suddenly rushed over like lightning.

"Boom!" The muffled sound.

In a flash, Third Son felt as if he had been hit by a truck on his ribs, he only felt a spinning of the sky and his whole body flew up.

Before he could react, he fell heavily to the ground. Immediately afterwards, a heart-breaking pain, which tore his heart and lungs, almost did not make him faint from the pain, he could not help but cry out miserably: "....."

But the pain was so intense that it seemed to have displaced all his internal organs, and he opened his mouth wide but could not scream.

It was because of this intense pain that Sanzi, having received such a heavy blow, actually did not faint, but was still awake.

The next moment, he saw a scene that shocked him beyond measure.

There were only three of them!

As that young man's gesture fell, there were three men behind him, as if they were hungry tigers pouncing on the group of security guards they had brought with them, and immediately afterwards, those security guards, who were all originally fierce and aggressive, more than twenty of them, were actually like a group of chickens in front of those three men, and were all taken down by them, one by one!

This process was extremely short, maybe only ten seconds or a few seconds Sanzi's whole body was in shock, and his heart would twitch every time one of the security guards was knocked down.

Those three men were too powerful, they struck, and they were too ruthless.

The ribs, the neck, the armpits but all the softest places on the human body were the targets of their attacks, seeing this scene, Sanzi only felt chills all over his body, and the place where he had been hit hard under his ribs seemed to come back with a drilling pain.

"Ah...!"

Sanzi finally let out a miserable scream, he was in that pain!

At this time, Sanzi also finally understood why that young man said that he had given himself a chance Where the hell did this bunch of fatalities come from!

This is a group of vicious people!

Who the hell provoked them, are they so desperate for death?

These thoughts flashed through his mind, and immediately afterwards, Sanzi's eyes rolled over and his mind went blank

Chapter 1615

“BOOM!”

After a muffled sound, a tall man was thrown to the ground, the nearly two hundred pounds of body all smashing into the floor, and everyone in the room seemed to feel a tremor under their feet.

“Well”

The man who fell on the floor was unable to hold back a low moan, and some were screaming in misery, the whole hotel lobby was sprawled with security guards, that scene, made everyone couldn't help but shudder in their hearts.

Especially those hotel staff, each one of them was shocked beyond belief.

They knew that in their eyes, these security guards were all very rude, and there were also gangsters among them. Normally, if someone came to cause trouble, there was no need to even call the police, these security guards could solve the problem, even the gangsters who came to cause trouble were afraid of these security guards.

But today, these security guards were actually beaten up by just three people and couldn't even stand up?

This gang was too powerful, right?

Sanzi and that front desk manager Liu were even more shocked, they likewise did not expect that this gang of people who came to cause trouble today would be so powerful.

Three people had beaten these tough security guards without even being able to fight back, and when they looked at those three people, their faces were not red and their breaths were not panting, as if they had done a trivial thing!

What the hell kind of people are these?

Sanzi was lying on the ground, moaning in pain, his body was twitching slightly, he didn't even see clearly who had just done it to him, but this man was too ruthless, wasn't he afraid that he would kill himself at once?

“Ah”

Sanzi couldn't help but roll over, unintentionally he saw Manager Liu who was standing at the front of those service staff, and found that she was also pale and full of shock, Sanzi felt relieved and his body didn't hurt so much anymore.

“That wannabe bitch!”

Sanzi sucked in a cool breath while cursing in his mind.

It seemed that this woman was the one who had invited this bunch of people, she was just screaming at herself to throw them out, now come on, screaming, how come she stopped screaming?

This woman usually relies on her good relationship with the boss, and even he, the minister of security, dares to order her around as if he is her subordinate Motherfucker, don't even think about what the people below are saying about her, it's just that she has an ambiguous relationship with the boss!

Now let's see how she ends up!

The third son is really angry and hateful, this Liu Jing all day long just know domineering, think the whole Jiangzhou no one dare to mess with her?

The result was that all the security guards were beaten up. Looking at the security guards lying around screaming, Sanzi wanted to cry a little.

"Liu Jing, this bitch, what kind of people have she pissed off!"

The third son's body twitched a few times, and he simply closed his eyes and passed out directly.

He didn't care how things were going to end up here, he didn't care anyway, he was now so beaten up and sore that it was a question of whether he could even stand up, let alone ask questions.

Whoever caused the problem, let's go and clean it up!

"Hey!"

Han Zhong sneered, his gaze falling on the receptionist manager again as he grinned, "Is there anyone else? You can call them all over!"

Swish!

That front desk manager Liu's face changed dramatically, and her body even subconsciously trembled.

This performance of hers unreservedly fell in Ji Feng's eyes, and he couldn't help but shake his head, this kind of woman, looked strong and spirited, but in reality, she was the one who bullied the softest and feared the hardest, because she had seen how powerful those powerful people were!

This is also different from those newborn calves who are not afraid of tigers, those who are always thinking that everything has to be reasonable because they don't know how sinister society is.

But this woman sure knows that there are many things that have no reason to be reasoned with!

However, this front desk manager is too old in the world of human affairs and too much of a bully to bully the top and the bottom, this kind of person is actually the most disgusting.

Ji Feng glanced at her and couldn't help but shake his head.

"Should I call someone, or should I call Cheng Haotai?" Han Zhong asked in a deep voice, at the same time, he raised his hand and looked at his watch, "Twelve minutes have passed, it seems that this hotel can't really be saved today!"

“I, I’ll inform our boss right now!” Manager Liu’s voice trembled a little as she spoke, she hurriedly turned around and walked towards the front desk, perhaps because the tiles on the floor were too slippery or her legs were a little weak, as a result, her body trembled violently when she walked carelessly and she almost didn’t fall down.

Even if it wasn’t the fault of the cleaning staff, someone would have to take the blame for making a fool of Manager Liu.

But at this time, the usually domineering and mean manager Liu didn’t dare to say a word, just walked quickly to the front desk, picked up the phone and said something.

Because the counter on that front desk was a cut above, this woman was sitting on a chair, just so she could only see the top of her head, but couldn’t see clearly what she was doing.

“Do you think she’ll call Cheng Haotai?” Han Zhong didn’t turn his head, but simply asked in a low voice.

“Definitely will, this kind of person is most likely to see the wind and make things happen.” Ji Feng hugged his arms and laughed mockingly, “However, she must think that she has been humiliated and is indignant, so I’m sure that even if she calls Cheng Haotai, she will definitely add fuel to the fire, or, she will also call someone else.”

“Someone else?” Han Zhong asked, “Who?”

Ji Feng shook his head and said, “I don’t know exactly who it is, but it must be someone who can help her out!”

Han Zhong couldn’t help but sneer at his words, “Well then, I’d like to see just who’s coming today!”

.....

Jiangzhou, the VIP section of a clubhouse, there were four men who were playing mahjong.

These four men, all around forty years old, but at a glance they were not from the same place, especially one of them, the man wearing glasses, was not even a Chinese.

This is because there is still a big difference between Chinese and foreigners, even the Boundary Tent and Kerry people, who look very much like Chinese, and even some Chinese overseas, are actually very slightly different in temperament and appearance from their own people in China.

If anyone had been present, they would have seen at a glance that this person was most likely a Kerry.

The other few people, too, all have their own characteristics.

For example, the people sitting opposite each other on the east and west of them had a bit of a foreign air about them and looked like they should be from the field, or they had been abroad for a long time.

The last person, on the other hand, was a country-faced, majestic-looking person who looked like he had been in a high position for a long time, and he even had a hint of arrogance between his eyebrows, so it was obvious that this person was still a high-minded person at heart.

“Cheng Jun, how are you carrying on with the ‘Teng Fei’ side?” The man wearing glasses asked as he played cards. When the man spoke, his Chinese was a bit stiff and he didn’t seem to be that fluent; it was obvious that he was not a Chinese.

“Ono-kun is consistently so careful as ever!” The man with the Chinese face said with a smile, “Don’t worry, I have already arranged it down, there are only four of us in this VIP area, other than the service staff, no one else will come in. So, we can say the name of the Tengfei Group without any fear!”

“Cheng Jun, it’s better for us to be more careful, there is a saying in China that there is no harm in being careful!”

The man with glasses said, “Taking down the Tengfei Group is too important for us to make a single mistake, otherwise, you and I won’t be able to account for it!”

“Ono-kun, don’t worry, I’ve already asked Ghost to send a text message to the other party, I believe the other party will respond soon!” I’m sure the other side will respond soon!” the face said confidently, “With the power of our little group, plus the evidence we have in our hands, the other side will definitely bow down.”

The man with glasses named Ono frowned slightly and said, “I think your plan is a bit risky, because the key is the ghost, she must not make a mistake, otherwise, our whole plan will fail!”

“The ghost is definitely fine, Ono-kun should know her well, right?” The face said smilingly, “Everything is in place now, we just have to wait for the Tengfei Group people to bow down!”

“And what if they don’t bow down?” Ono, the man with glasses, asked.

“That’s very unlikely!”

The kingpin face said very confidently, “The founder of the Tengfei Group, Ji Feng, is the boyfriend of the current owner of the Tengfei Group, and according to reliable information, the two are currently living together, and, living with them are several other women Of course, the point is that Han Zhong and Ji Feng are very close, and I believe, no matter what, Ji Feng and will not stand by and watch his good friend go to jail!”

But Xiao Ye asked, “What if this kind of thing really happens? For example, if Ji Feng and Han Zhong’s relationship is good, this is only an appearance, in fact, for his own interests, Ji Feng can do anything, at that time, what should we do?”

According to our investigation, although the Tengfei Group is operating and running well, in fact, the entire Tengfei Group is now dependent on Han Zhong, if something happens to Han Zhong, the blow to the entire Tengfei Group will be extremely heavy. As long as Ji Feng has some brains, he won’t give up on Han Zhong!”

“Besides, even if Ji Feng gave up on Han Zhong, this is likewise in our plan, isn’t it?” The kingpin asked with a smile.

“That’s right!”

The man with glasses nodded as he pondered for a moment before asking again, “So, do you think there’s a possibility that Ji Feng has a great background, and that he’ll do everything he can to help Han Zhong and ultimately keep him alive?”

“If the ghost was just an ordinary Chinese, then this possibility that Ono-kun is talking about would be extremely likely, but the truth is, the identity of the ghost, coupled with the pressure from the Kaitou side after the incident, even if Ji Feng had ten guts, he wouldn’t dare to bail Han Zhong out!”

The Chinese character face said smilingly, “Ono-kun should still not know much about the national situation of China, let’s put it this way, nowadays, China has always shown weakness in dealing with foreign countries, and there are many factions, if it were Ji Feng, I believe the power behind him would definitely protect him, because he is the son of the secretary of the Jiangzhou Municipal Committee, but, now that it happened to Han Zhong, the people behind him that will definitely not protect him!”

“And that, too, is why we chose Han Zhong as our target in the first place, and not Ji Feng!” The kingpin said very confidently, “Ono-kun, please wait and see, I believe it won’t take long for good news to come!”

“Then I’ll be waiting for Cheng-kun’s good news!” Ono laughed harshly, and only at this moment did he show that rampant nature.

“Ding

Suddenly, the phone rang on Kokonoe’s body!

Chapter 1616

“Cheng Jun, who’s calling?” The man with glasses, Ono, asked alertly at once.

“It’s a private call

“Is there a problem?” Ono asked in a low voice.

The face shook his head and said, “Nothing, it’s just the front desk manager at my hotel, it looks like there’s something going on at the hotel!”

He waved his hand, gesturing for Xiao Ye and the others to wait for him, then he got up and went to the sofa next to him and picked up the phone, “Hello, this is Cheng Haotai.”

It turned out that this Chinese face was no other than the owner of Hao Tai Hotel – Cheng Hao Tai!

He was also the person Ji Feng and Han Zhong were looking for!

And naturally, the one who called Cheng Haotai was no one else, it was none other than the front desk manager of the Hao Tai Hotel – Liu Jing!

“Haotai, come back quickly, a group of people have come to the hotel to cause trouble, and they are making a fierce scene!” As soon as the phone was connected, Liu Jing’s voice came through.

“Trouble?”

Hearing Liu Jing's voice was deliberately low, and even a bit shaky, Cheng Haotai was not too happy. This woman, she was so unpredictable, she listened to the wind and the rain, and when she encountered something, she was so open-mouthed, she was completely devoid of the gentleness and charm she had when she first met her.

If it wasn't for the fact that this woman was very obedient in bed, doing whatever she was told to do, Cheng Haotai would have kicked her away.

"Someone is causing trouble, why don't you just ask Sanzi to throw the troublemakers out? Is there a need to call me?" There was a hint of displeasure in Cheng Haotai's voice.

"No way!"

Liu Jing's voice was a bit alarmed, "Haotai, those people who came to make trouble are too powerful, Sanzi took all the security guards in the hotel to chase them away, but they were beaten down with three punches and two kicks, and they are all still lying on the ground screaming!"

Cheng Haotai was stunned, "What did you say? What kind of people are so arrogant?"

Liu Jing said, "Well it seems to be a person called Han Zhong!"

"Han Zhong?!"

Cheng Haotai's voice suddenly raised quite a bit, causing the three of them, Xiao Ye, to look over as well, "Liu Jing, you just said that the person who went to cause trouble was Han Zhong?"

"Yes, yes, he told me to tell you, let's say that Han Zhong is here, he, he only gave you a half hour deadline, if you don't arrive within half an hour, you will have to keep our hotel open Haotai, you quickly come to cure that little bastard, he is too wild, he doesn't even put you in his eyes ah!" Liu Jing said, the aggression and resentment in her heart came up all at once.

Especially when she thought of Ji Feng and Han Zhong's arrogance and the humiliation they had given her, Liu Jing could not wait for Cheng Haotai to come back right now and clean up those two bastards fiercely!

However, to Liu Jing's surprise, after listening to her words, Cheng Haotai did not have the slightest reaction, he even went silent!

Cheng Haotai held the phone without saying a word, his brow tightly furrowed.

Han Zhong actually went to the Hao Tai Hotel to cause trouble?

This is really a bit unexpected!

Although Cheng Haotai had long guessed that as soon as that text message was sent out, Han Zhong would definitely react. However, he did not expect that Han Zhong actually led people to the Hao Tai Hotel directly.

"This guy is too impulsive, right?" Cheng Haotai couldn't help but mutter darkly.

“Haotai, Haotai!” Liu Jing’s somewhat urgent voice came over the phone, “When are you coming back, they really dare to make a move, Sanzi and the others have been injured, if you don’t come back, they are going to smash our hotel

Our hotel?

Cheng Haotai couldn’t help but sneer secretly, a woman who doesn’t know the sky is high!

However, he did not say this out loud, but only said it in his heart, no matter what, Liu Jing still has a use.

So Cheng Haotai just said, “I’ll go back here, besides, since they went to make trouble, then you call the police, the police is used to protect the people’s personal and property safety, otherwise what do you need them for?”

“What you mean is” Liu Jing was stunned.

“Forget it, I will arrange this matter, you do not rush, soon there will be police officers over, I will arrive afterwards!” Cheng Haotai said.

“Hey hey, then I’ll wait for you!” Liu Jing was instantly overjoyed.

“Wait a minute!”

Cheng Haotai suddenly thought of something, he pondered for a moment and couldn’t help but ask, “Liu Jing, apart from Han Zhong with his hitmen, who else was with him?”

Liu Jing said, “There’s also a young man about his age, that guy is even more arrogant, he doesn’t even look at me with a straight face”

“I see!”

Cheng Haotai’s face couldn’t help but reveal a smile, “Everything is understood! No wonder Han Zhong has the guts to do this, it turns out that someone is backing him up!”

“What?” Liu Jing didn’t understand.

“Nothing, that’s all.” Cheng Haotai said and hung up the phone.

“Cheng Jun, what’s going on? I seem to have heard you talking about Han Zhong just now?” As soon as Cheng Haotai hung up the phone, Ono asked out loud.

“Ono-kun, there is no need to be too nervous!” Cheng Haotai laughed.

Ono said, “How can I not be nervous? Whether or not the Tengfei Group can be taken down is directly related to what kind of success the Group can achieve in its strategy in China, and at the same time, it is also directly related to the organization

In short, we must be cautious! Cheng Jun, what is going on?”

Ono suddenly stopped halfway through his words, and Cheng Haotai didn’t care as he said, “Nothing, after Han Zhong received the text message, he sat down a bit and now he’s bringing people to my hotel to cause trouble.”

“What?”

Ono was instantly shocked, "Han Zhong has already started to suspect you?"

Cheng Haotai, however, nodded very calmly and said, "That's for sure, it happened in my hotel, it's only natural that Han Zhong suspects me, if he didn't suspect me, that would be something to be wary of!"

He laughed, "Only, but I didn't expect that Han Zhong would have the guts to go straight to my hotel and cause trouble, and even to smash my hotel"

"Bugger!"

Ono's face instantly sank and a cold aura flashed in his eyes, "This Chinese, too rampant! Cheng Jun, the Haotai Hotel is very important to us, normal business cannot be affected!"

Cheng Haotai waved his hand with a confident expression and said, "Don't worry, the business of the Hao Tai Hotel will definitely not be affected, the only reason Han Zhong dares to go and make trouble is because Ji Feng is following him, but the more this happens, I believe the more they won't dare to really make too much trouble, even Ji Zhenguang, the secretary of the Jiangzhou Municipal Committee, won't allow them to make too much trouble!"

"But haven't they already arrived at the hotel?" Ono asked with a frown, "It's proven that they have the guts to make a big scene!"

"Don't worry, they definitely wouldn't dare!" Cheng Haotai said, "However, to be on the safe side, I will call the police first and have them go over to stop them, besides, I will go back to deal with this matter right now."

"Cheng-kun, don't ever forget our mission and goal!" Ono reminded, "Also, pay attention to your personal safety, better take that bodyguard with you"

His words were somewhat meaningful, but Cheng Haotai immediately understood them, he nodded and said, "Don't worry, there will definitely be no problem!"

After saying that, Cheng Haotai then bowed violently, "Everyone, farewell!"

"Goodbye!" The three Ono also all stood up and bent down fiercely

"Wait for my good news!" Cheng Haotai smiled faintly, confidently turned around and left, at the same time, while leaving, he dialed the police, of course, he was calling his well-connected friends in the police force, trying to stop the municipal party secretary's son, that did require some scheming to do!

"Two impulsive brats ah" Cheng Haotai heckled in his heart, "Impulsive is good, how can I have a chance if I'm not impulsive? Haha"

.....

Hao Tai Hotel, the lobby was still in a mess, San Zi and a bunch of other security guards were lying on the ground, some of them were still rolling around in pain.

At this time, Liu Jing called but no longer came over, just sat up straight at the front desk, she really didn't quite dare to go over, the fighters Ji Feng and Han Zhong brought were too powerful, even the

kind of people like San Zi were beaten up, she felt that these two young men just didn't have any humanity, don't look at her as a woman, I'm afraid they really dare to fight

However, seeing the people around her whispering, occasionally there are customers coming down from upstairs, and also inquiring what happened to the people present, and there are people pointing at her next

The first thing you need to do is to get a good idea of what you are getting into.

I believe if Ji Feng and Han Zhong were not here, she would have been furious!

Looking at Ji Feng and the two of them sitting there very leisurely with their arms around each other, and even lighting their cigarettes, Liu Jing was really furious, she could not wait to tear Ji Feng and Han Zhong apart in her heart right now!

But when she looked at the sturdy men around them, Liu Jing could only secretly resent them in her heart, but on the surface she did not dare to show the slightest dissatisfaction.

He was usually quite a cross person, but now he was lying on the ground like a dead dog, you know, in the past, this third son was a vicious character in this area, I heard that he had even hacked someone to death and spent several years in jail before he got out.

This kind of person was beaten up like a dead dog, how could she fight these people now as a woman?

"Just wait!"

Liu Jing sneered in her heart, "Let you guys run wild for a while longer, and when the boss comes, let's see how you die!"

In her heart, she was convinced that Ji Feng and the others were definitely not a match for Cheng Haotai.

What was Cheng Haotai's status? If these people played with him, they were simply looking for death!

Did they really think that by finding a few powerful fighters, they would be able to walk around?

"I pooh!"

Liu Jing couldn't help but spit out a mouthful of spittle and hid behind the counter at the front desk, plucking out Ji Feng and Han Zhong with a fierce glance, cursing in her heart.

Woo woo woo woo~~!

Liu Jing was thinking, when suddenly a sharp siren sound came from outside, and she instantly blushed and secretly said, "Here it comes!"

Chapter 1617

Hearing the sound of sirens outside, Liu Jing could be said to be overjoyed.

She knew that these police officers must have been called by the owner, Cheng Haotai, and she had to know that these police officers were on good terms with Cheng Haotai, not only them, but even their leaders had an unusual relationship with Cheng Haotai.

To be able to open such a big hotel, it is necessary to maintain good relations with people on the road and official level. Only, with Cheng Haotai's status and assets, now he no longer needs to deal with those punks personally, not even the usual police officers, Cheng Haotai doesn't even need to meet personally.

Now it was always the leaders of those punks, or the leaders of the police station who visited Cheng Haotai, that was strength!

So this time when the police came, it didn't even need to be said that they would definitely turn towards Cheng Haotai, in other words, it meant that they would definitely turn back towards themselves!

Thinking of this, Liu Jing glanced at Ji Feng and Han Zhong, who were sitting leisurely in the rest area, and couldn't help but sneer in her heart, "I'll see how you guys can still be mad, when we get you to the bureau, if I don't kill you guys, you're the ones who raised you!"

She knew very well that her boss, Cheng Haotai, was very powerful in Jiangzhou, and he was a brother to some of the branch chiefs, not to mention killing those guys who came to cause trouble.

As the most trusted person of her boss, she is now aggrieved and Cheng Haotai naturally wants to help her get back.

The more Liu Jing thought about it, the more she felt a great sense of relief.

In the past, Liu Jing was also a police officer who was bullied, especially when she was working as a waitress in a hotel, some colleagues bullied her, at that time she was vicious, she would never let anyone bully her again, so later on, after she had made great efforts to hook up with Cheng Haotai, she became strong, and even cleaned up those who had bullied her before.

Now, two wild boys came from nowhere and dared to embarrass her, stripping her of all her face!

How could Liu Jing stand it?

Before, when she saw that the two wild boys were very powerful, Liu Jing was really a bit scared, but after talking to Cheng Haotai on the phone, she was immediately emboldened.

If they were powerful, how could they be as powerful as the police? How could they be as powerful as Cheng Haotai?

When the police came, let's see how arrogant they would be!

How dare they go up against the police?

Even the powerful big brothers on the road wouldn't dare to fight against the police, this was Jiangzhou, if they dared to fight against the police, they would be looking for death!

"Humph!"

Seeing that Ji Feng and Han Zhong were still sitting there in an old-fashioned manner, Liu Jing couldn't help but sneer, "You guys just wait for death!"

At this moment, Han Zhong, on the other hand, frowned, "The police are here? Are they coming this way?"

Ji Feng nodded and smiled, "Eighty percent, that woman has suffered a loss, she will definitely find a way to retaliate back, I guess this might also be Cheng Haotai's intention, if he is aware of our identity, then he must also know that finding punks to deal with us, this will definitely not work, finding the police instead is the best option!"

If this matter becomes a big deal, it will not sound so good, and even if it is really the fault of himself and Han Zhong, many people will not think so in their hearts.

At that time, Cheng Haotai is afraid that even if he is full of mouths, he will not be able to say whether he is related to the people on the road.

If Cheng Haotai was smart, he would definitely not have done so.

So what he's doing now is actually the smartest thing to do, anyway, he's relying on the secretary of the municipal party committee, so why not just call the police and see how they handle it.

The company's main business is to provide a wide range of products and services to the public.

When the time comes, even if Ji Zhenguang dotes on his nephew, he will definitely have to put things to rest.

As for how he will retaliate in the dark, I believe Cheng Haotai is not afraid, perhaps, he would like to do things in the dark, no one can say how powerful his power in the dark really is.

This, I'm afraid, is what Cheng Haotai is playing for!

"Hey!"

Ji Feng gave a heated laugh, "Since Cheng Haotai wants to play as intended, then we'll give him that chance!"

Han Zhong asked, "What are you going to do?"

"How?"

A smile spread across the corners of Ji Feng's mouth and he glanced at the counter, but he saw that the receptionist manager was hiding behind the counter, only half his head showing, looking over in an unsuspecting manner.

Han Zhong also saw the front desk manager, and he sneered, "See, that woman is getting smug again!"

Ji Feng laughed, "Then let her be smug for a while!"

When the police arrive, she will know that her smugness is actually really too early.

As for now, Ji Feng really didn't care to fight too hard with this woman, it would really be a bit of a disgrace to get on her good side. If it wasn't for the fact that she was the front desk manager of the Hao Tai Hotel, Ji Feng wouldn't have even bothered with her!

At this time, some of the customers who remained at the scene and had not yet finished leaving, were whispering and talking.

"It seems like the police are coming outside, these youngsters are going to suffer."

“Yes, look, the police are coming in!”

“That’s not necessarily true, look at those two young men, they have an extraordinary bearing, they don’t look like ordinary people, they also have such powerful henchmen, maybe they are the grandsons of any family, they shouldn’t be at a disadvantage, right?” Someone offered a different view.

“Hey! Which family’s grandson?” Someone next to me interjected, “This man, it seems you don’t know too much about this Hao Tai Hotel, do you?”

“Yeah, what, this hotel has a background?”

“That’s for sure, how can you open such a big hotel without a background? I’m telling you, the owner of this hotel has a lot of background, and there are often foreign guests in and out of this hotel, and foreigners are involved, who do you think the police will help?”

“Then it must be the Hao Tai Hotel, they have relations with foreigners!”

“So it’s clear who’s losing out?”

The people around were talking, but Ji Feng and Han Zhong were unmoved, even though seven or eight police officers had already entered the lobby by this time, Ji Feng and Han Zhong were still sitting in the rest area with their arms around each other, waiting quietly.

“Seven minutes to go!” Han Zhong raised his hand to look at his watch and said with a smile.

“Yeah, it looks like this Cheng Haotai won’t be able to make it back in these seven minutes!” Ji Feng nodded his head.

“How do you know?” Han Zhong asked.

“Even if he could make it here, he wouldn’t come so soon, with the police here, why would he come and make a spectacle of himself?” Ji Feng smiled faintly, turned his head and asked, “Han Zhong, when the time comes later, are you interested in smashing a few hammers?”

“Me?”

Han Zhong shook his head with a smile and said, “I’ll forget it, with my body, I’ll flash my back after a few smashes!”

“Ha” Ji Feng couldn’t help but lose his smile.

“Stomp stomp stomp” At this time, the police had already come over, and that front desk manager chirped something to them, then pointed at Ji Feng and Han Zhong.

“Here it comes!” Ji Feng said, then took out his mobile phone and started dialing the number.

At this time, that front desk manager led those police officers to walk over quickly, and before the policeman at the head of the group came to the front, he asked loudly, “Are you the ones who messed up here and injured people?”

Han Zhong had the courage of his heart, so he nodded very blandly and said, “Yes, it is true that we are involved in those people’s injuries. However, it wasn’t us who came here to cause trouble, but to find

Cheng Haotai, the owner of the Haotai Hotel, and as a result, they indiscriminately wanted to make a move on us, so there was a little clash between the two sides, and we, on the other hand, were only acting in self-defense

Han Zhong very shrewdly put all the blame for the matter on the side of Hao Tai Hotel, especially that front desk manager and San Zi, who he pointed out as the culprit.

Even if Ji Feng and the others are here to cause trouble today, but this is the main theory, but to stand, even if everyone knows what is going on, but whether they admit it or not, this is another story.

Although Han Zhong is also a young man of blood and vigor, but his mind is very meticulous.

However, Han Zhong's words immediately made the front desk manager jump in anger: "Bullshit! You're just spitting blood, it's obvious that you're the ones who came to cause trouble and injured our hotel's security guards, and you're still trying to make a backhanded remark?"

"Which one of your eyes saw that we were here to cause trouble?" Han Zhong asked with a cold smile.

"Trying to play dirty?"

Liu Jing saw Han Zhong's sophistry and thought he was afraid, so she couldn't help but sneer, "Let me tell you, there is surveillance video in this lobby, your every move since you arrived here has been recorded, just take it out and take a look, it will be clear whether you are here to cause trouble or not!"

She didn't wait for Mr. Han to speak, and immediately turned to the police officer in charge and said, "Comrade police officer, please send someone up to get the footage, make sure these people are brought to justice, and also compensate us for the damages in the hotel, as well as our moral damages!"

The leading policeman nodded and was just about to speak when he suddenly saw the young man in front of him, who had not spoken, hand over a mobile phone.

"What for? Trying to bribe the police, huh?" Liu Jing said in a sharp voice: "I'm telling you"

"Take a call, from your boss!" Ji Feng said indifferently.

"What?"

The policeman in charge couldn't help but be stunned.

"Your boss has something to say to you, want to talk to him for a while?" Ji Feng asked indifferently.

"You better not be talking nonsense, or you'll definitely regret it!" That policeman, despite his suspicion, Ji Feng's expression was just too calm, and even, there was a hint of playfulness on his face, which made the head policeman's heart drum a little.

"He must be fooling you, comrade police, arrest them all immediately!" Liu Jing said pointedly from the side.

However, the policeman was not listening to her, but took the phone suspiciously, "Who is it?"

"I'm Zheng Yuanshan from the city bureau, which branch are you from?" An imposing voice came over the phone.

“Zheng Yuansan?”

The policeman was stunned, and then his face changed dramatically, “Zheng, Zheng Bureau?”

The next moment, his eyes changed when he looked at Ji Feng, with awe and a hint of gratitude. This time he received a call from Cheng Haotai, just to come and arrest these people, as for saying impartial law enforcement that was all a lie to the common people.

But he never expected that this young man could actually talk directly to the deputy director of the Jiangzhou Municipal Bureau!

That is Zheng Yuanshan, the most powerful deputy director of the city bureau, second only to the director, if he wants to deal with himself, then he really can't die!

Luckily, ah, he did not have time to do it

The policeman at the head of this nodded his head to the phone, and after a moment, he handed the phone to Ji Feng with some difficulty, with an ugly smile on his face.

“Comrade Police” Liu Jing was just about to speak when she was interrupted.

“There is an urgent mission from above, come with me immediately!” After the policeman finished speaking, he didn't even dare to return his head before he directly led his men away in a hurry.

Liu Jing was dumbfounded

Chapter 1618

The lobby of the Hao Tai Hotel instantly became silent.

In particular, Liu Jing, the hotel's front desk manager, was full of shock, and a strong sense of disbelief.

What was going on?

She couldn't believe that this young man had used just one phone call to make those police officers not even dare to utter a single word, and just left in a blaze of glory!

You know, those policemen were the ones that Cheng Haotai had found!

Especially the policeman at the head of the group, Liu Jing knew him personally, he was also a regular customer of the hotel, often came here with others to play cards or other entertainment, reasonably speaking, such a person should have a very good relationship with Cheng Haotai, and even in many matters, only Cheng Haotai's eyes.

But now, he was scared away?

That's right, just scared away!

Liu Jing saw clearly that the policeman in charge had a trace of fear in his eyes when he handed the phone to the young man, that was obviously frightened by the person on the phone.

If she hadn't seen it with her own eyes, Liu Jing would never have believed it.

The police officers that Cheng Haotai had hired were actually scared away by this young man, did this mean that this young man had surpassed Cheng Haotai in terms of police power?

This

Liu Jing didn't even know what to say, in her impression, Cheng Haotai had always been a man of the field, he could get along anywhere, anyone would give him a few face, even those leaders, they were all on good terms with him, how could anyone possibly surpass him?

However, this was the case.

It was this young man in front of her, whom she had always looked at unfavorably, who had scared away the police officers that Cheng Haotai had invited

Not only Liu Jing, but also everyone else present was stunned.

The two young men were obviously the ones who came for the two young men, but in the blink of an eye, they left in a huff.

What does this mean?

Everyone realised that these two young men were not simple, or at least, they had some connections.

At first everyone was speculating that the owner of the Hao Tai Hotel was very powerful, and although these two young men looked very formidable and the people they brought over were also very powerful, nowadays it is a society based on the rule of law, or rather, a society based on connections, and it is not about who is powerful, but about who has more background and power.

That's why everyone didn't think much of these two young men.

But now it seems that they have guessed wrongly, and these two young people have more background.

Now, it's a hoot!

It's a common problem for Chinese people to like to watch the action, and this time it was no exception, so everyone was excited to see what was going to happen.

While everyone in the room was thinking, the scene was silent, with only the low screams of the guards lying on the ground and the slightly rapid breathing of Liu Jing.

"Yo, time's up!"

Han Zhong's teasing voice broke the calm, and the crowd looked at the sound, only to see him looking at his watch and smiling, "Looks like Cheng Haotai is not going to show himself!"

Ji Feng faintly nodded his head.

"So we'll start here?" Han Zhong asked.

"Let's start!" Ji Feng nodded.

"Hey!"

Han Zhong grinned, but a cold light flashed in his eyes, after being set up so badly, he could finally take his revenge today!

He fiercely waved his hand, "Smash! Let's start with the upstairs first!"

Liu Xin immediately looked at Ji Feng, although he knew that Han Zhong was Ji Feng's friend, but without Ji Feng's nod, not just anyone could command them.

Ji Feng smiled and nodded, saying, "Smash!"

Liu Xin and the others immediately responded in unison, "Yes!"

Immediately, Liu Xin raised his right hand and made a quick gesture, "Action!"

"Clatter~~!"

The rest of the battle team members immediately moved, and as soon as they did, an aura emanated from them, causing people to shudder as they watched.

These few people were battle-hardened masters at first glance, and they all had a shocking aura about them, an unrelenting bravery!

The army!

I don't know how it happened, this name came to the minds of the people present, they really look like soldiers!

Liu Jing was also greatly appalled in her heart, she wanted to stop it in her heart, but the kind of unrelenting aura emanating from Liu Xin and the others made her hard not to say half a word, just standing there with her mouth wide open, stunned.

"Tick tock"

Ji Feng's headset came back with Lu Gang's voice: "Little Chief, someone else is about to go in."

Ji Feng immediately asked, "How many people?"

Lu Gang said, "Only one, it's a man, can't tell if he's carrying a weapon, little chief you be careful!"

Ji Feng nodded slightly, although he was also a bit more cautious, he was not afraid.

No matter who came, this Hao Tai Hotel he was sure to smash today!

Han Zhong also heard Ji Feng talking, he couldn't help but ask in a low voice: "Ji Feng, what's wrong?"

Ji Feng waved his hand and said, "Nothing!"

And then, he turned his head to Liu Xin and the others and said, "You guys continue!"

"Stomp, stomp, stomp"

As soon as Liu Xin and the others started to move, they suddenly heard a rush of footsteps from outside, followed by the door of the lobby being pushed open at once.

The door, which had been broken by Ji Feng, made a creaking and harsh sound when it was pushed open, but it also attracted everyone's attention as a result.

The man who came in was a man, this man was not too tall, but he looked like he had an imposing presence, especially with that Chinese face of his, which made him look like he was not angry.

At this moment, this man was dressed in a suit, very formal, but not the ordinary kind of formal wear, but a casual matching jacket and trousers which meant that this man was also dressed like this in normal times.

This is a man with a lot of swagger!

Of course, it should also be a man with a lot of backbone.

"Hmph! Finally!"

Ji Feng immediately frowned and couldn't help but give a cold laugh. As soon as this man came in, Ji Feng immediately recognized that this man was no other than the owner of Hao Tai Hotel, Cheng Hao Tai.

Previously, Wang Xin and Li Ruonan had both checked his information, and Ji Feng had long had his gaze in mind, but there was still some difference between Cheng Haotai in person and in the photo, at least, this dragon walk when he walked, and already this arrogant character of his as shown by that substantial arm swinging movement, was something that could not be seen from the photo in any way.

"What's going on?" Cheng Haotai began to question in a deep voice before he even arrived at the front.

Humph!

Ji Feng and Han Zhong couldn't help but sneer, wasn't that a bit too redundant to ask? Wouldn't Liu Jing have explained the situation to him when he called Cheng Haotai?

This is knowingly asking a question!

From this, we can see that even now, this Cheng Haotai is still putting up a show.

Liu Jing, on the other hand, thought completely differently, and when she saw that Cheng Haotai had returned, her heart was immediately wildly happy and relieved at the same time.

"Great!"

"The boss is back!"

Liu Jing even felt like crying at this moment, before she could not help Ji Feng and Han Zhong in any way, resentful almost wanting to go fight with them, but not daring to.

And now, with Cheng Haotai back, she instantly had a backbone, and at the same time, she had the courage, and that resentment in her heart bubbled up again.

"Boss, they're going to smash up our hotel! And they've humiliated me, you must get rid of them!" Liu Jing instantly ran over quickly and shouted shrilly.

“Hey! Sure enough, she’s a superb woman!” Han Zhong laughed coldly, this woman was really venomous, opening her mouth to get others killed, I really don’t know how those who had offended her in the past would have been tortured by her!

“Stomp, stomp, stomp

And at this time, Liu Xin and the others were still going upstairs, they didn’t care who was coming, since Ji Feng had given the order, then they had to carry it out, no matter who all the people coming were, they wouldn’t put it in their eyes.

“Stop!” Cheng Haotai saw Liu Xin and the others striding up the stairs, and immediately shouted lowly.

However, Liu Xin and the others simply turned a deaf ear to it, and went straight upstairs with quick steps, and soon disappeared at the entrance of the stairs.

“Hurry up and stop them!” Liu Jing screamed.

But only after she shouted did she realise that the security guards in the hotel were all lying on the ground screaming, so who could stop them?

As she watched the onlookers grinning, Liu Jing’s face turned red and she gave Ji Feng and Han Zhong a spiteful look, as if she wanted to take them to heart.

At this moment, Ji Feng and Han Zhong did not even look at her, this woman could not even enter their eyes, what they were looking for was Cheng Haotai.

“I don’t know which friend is coming to my Hao Tai Hotel?” When Cheng Haotai saw that Liu Xin and the others were not even shrugging him off, he could not help but sink his face and asked in a loud voice.

“Cheng Haotai, you’ve finally bothered to show your face?” Han Zhong sneered.

“This little brother, may I ask what is your name?” Cheng Haotai asked.

“Don’t come with me on this, why am I here today, would you not know?” Han Zhong said with a cold smile.

“This little brother, I can’t understand a bit of what you are saying. I would like to ask for advice, I wonder where did I, Cheng Haotai, offend little brother to provoke him to get so angry?” Cheng Haotai said in a deep voice, “Or is it that the people below have done something wrong to make little brother unhappy?”

“Cheng Haotai, you can continue to pretend!” Han Zhong smiled coldly, “If you want to play, that’s fine, let’s see who can play who!”

After saying that, Han Zhong clasped his arms and stared at Cheng Haotai with a cold smile.

Ji Feng also looked at Cheng Haotai with amusement, he found that this person was indeed somewhat interesting.

Cheng Haotai definitely knows the identity of himself and Han Zhong, this Ji Feng can be sure, but, Cheng Haotai pretended not to know, and even exuded a kind of jianghu big brother feeling, and trying

not to lose decency, and trying to solve the problem, and even trying to skim off his own Hey! It seems that this Cheng Haotai is really arrogant!

Chapter 1619

Since Cheng Haotai was still exuding the appearance of a big brother up to now, even treating Ji Feng and Han Zhong as the kind of reckless brats, while he himself seemed to be a big brother on one side, and showed the kind of generosity and gentleness when facing the two brats who didn't know the sky was high.

It seemed that Cheng Haotai was being very lenient with the two reckless juniors of the jianghu!

This is fucking bullshit!

Since when did he, Cheng Haotai, become a senior? When did he, Cheng Haotai, become a senior, while he and Ji Feng became brats who didn't know the sky was the limit?

Not to mention that he was not a senior at all, even if he was, so what?

Even if he was, so what? No matter how big he was, this Jiangzhou was not his, not even his decision, so what was he pretending to be!

Han Zhong laughed coldly, still pretending now?

Han Zhong wanted to see how long this bastard could hold out. He hoped that this guy could keep on pretending, then Han Zhong could also take out his anger severely.

The man standing side by side with Han Zhong, Ji Feng, was watching Cheng Haotai's performance with cold eyes.

That's right, this Cheng Haotai was putting on a show!

From the moment he first came in, Ji Feng could tell at a glance that this person was definitely a very arrogant person, and no matter how gentle and poised he appeared to be, what Ji Feng saw was the flash of anger in his eyes and the fury hidden between his eyebrows.

This person was definitely not a good person!

Such a person was actually pretending to be a gentle jianghu senior here?

Wouldn't that be ridiculous?

At the same time, Ji Feng couldn't help but shake his head, he didn't know if this Cheng Haotai really had some super strong reliance, or if he had already thought of some other way to deal with it, otherwise, I'm afraid he wouldn't be in the mood to perform here.

A dependency?

The corners of Ji Feng's mouth pulled up a slight arc then let's see what he really has to fall back on!

If Cheng Haotai really has any reliance, then it is rather what Ji Feng would like to see, a Cheng Haotai, certainly can not do this kind of calculate Han Zhong, but also do a seamless thing, and, there is that in

the country is not common in the strong aphrodisiac, and Han Zhong confused when he saw that beauty
.....

These things, Ji Feng believes that certainly not Cheng Haotai alone did.

And more importantly, Cheng Haotai also has no reasonable motive, he is a businessman who runs a hotel and club, why would he use such means to calculate Han Zhong, it's not like the Tengfei Group has any intention of entering the hotel industry!

Therefore, Ji Feng could be sure that there must be someone else behind Cheng Haotai.

Especially after Ji Feng learned about Cheng Haotai's coterie, he already had a guess in his mind. Although there was no evidence to prove his guess yet, Ji Feng had a vague feeling that his guess was eight out of ten's correct.

If the front desk manager of the Hao Tai Hotel, that is, the two-faced woman, if she is a shield that Cheng Haotai pushed to the front desk to greet or reject some people, then, in fact, in this plan to calculate Han Zhong, he Cheng Haotai is afraid that, like the front desk manager, he is also acting as a shield, or rather, a live target to attract the attention of himself and Han Zhong!

Behind Cheng Haotai, there must be someone else!

While Ji Feng and Han Zhong were observing Cheng Haotai, the latter was also observing the two of them.

For Ji Feng and the two of them, Cheng Haotai was actually very familiar with them.

There were details about their identities that Cheng Haotai didn't know how many times he had read them, and he could almost recite them backwards.

However, today he was standing face to face with these two for the first time, which also attracted Cheng Haotai's interest, because he was eager to see what was so different between these two young people and ordinary people, how could they create that kind of brilliant achievement in just a little over two years?

There were even an unknown number of people who wanted to get their hands on certain things they had created by any means possible, which made Cheng Haotai really curious.

He mulled it over in his mind, while also secretly observing.

First of all, the kind of poise of Ji Feng and Han Zhong made Cheng Haotai secretly nod his head; although these two people were young, it was undeniable that they were indeed extraordinary.

Especially Ji Feng, this young man, did not look like the kind of creamy young man that is popular nowadays, with a face that is more moist and white than a woman, talking and acting like a woman, and even sometimes paying more attention to dressing than a woman.

Ji Feng was not like that.

He looks a bit unkempt and dresses casually, but when he stands there, you can't help but pay attention to him.

In particular, his spirit was glowing and his whole being looked full of vitality!

Short hair, thick eyebrows and big eyes

Just by looking at his looks, one would think that he should be full of energy, and he seems to have a very unique aura about him, completely different from the others, no matter where he goes, he makes people feel that he has a kind of crane standing out from the rest.

Cheng Haotai couldn't help but secretly mutter, could it be that this is the heritage of those so-called powerful families?

Can this kind of family upbringing really make a person grow to such a level?

Birth is really important!

At this time, a dense jealousy and even a resentment flashed in Cheng Haotai's eyes!

Only Cheng Haotai hid it well, and soon his gaze moved away from Ji Feng's body and fell on Han Zhong's instead, and he looked slightly stunned again.

Han Zhong's appearance was not really handsome, but rather ordinary, with a slightly chubby figure, and his suit did not show his majesty, so he did not look like a general manager of a large group at all.

However, Cheng Haotai saw two things in Han Zhong's body – confidence and fighting spirit!

It was these two things that made Han Zhong's aura suddenly become striking.

A man who is confident and full of fighting spirit is always the centre of attention no matter where he goes.

Because he was confident, he was not humble, and because he had a fighting spirit, he became brave This was the Han Zhong that Cheng Haotai saw.

A feeling suddenly rose in Cheng Haotai's heart that it was really too right to choose Han Zhong as a target. With this man in the Tengfei Group, it would really be like a tiger with wings. With his confidence and fighting spirit alone, he would be good enough to take the position of general manager of the Tengfei Group, so what about adding his shrewdness and brains?

We must take down Han Zhong!

Cheng Haotai couldn't help but say secretly, if he couldn't take him, then let alone take the Tengfei Group!

"Gentlemen, whatever misunderstanding there is between us, it's not something that can't be resolved!" A gentle smile spread across Cheng Haotai's face, "How about this, I think you two must have something to say, then why don't we go upstairs and talk?"

"I don't think there's any need for that!" Han Zhong sneered and said, "If you had arrived three minutes ago, it would have been possible to sit down and talk, but now I'm afraid you won't be able to sit down!"

"Oh?" Cheng Haotai laughed: "I can't sit down? How is that"

“Boom!”

Before he could finish his words, a loud bang was suddenly heard from upstairs, as if the entire hotel shook.

Immediately afterwards, there was a series of loud banging sounds, “Bang bang bang bang

The sound came down the floor and was even accompanied by a hint of vibration, causing everyone present to pale and look around in panic.

“What’s going on?” Cheng Haotai asked in a deep voice. Yet no one could answer him, everyone was here, who knew what was going on?

“Boss Cheng, don’t you want to go up and have a look?” Han Zhong, however, had a smile on his face.

“Did you do it?” Cheng Haotai immediately reacted, “The ones who went upstairs just now?”

“Gentlemen, if there is any misunderstanding between us, just sit down and talk, you guys are making it very difficult for me to do so!” Cheng Haotai said in a deep voice.

“Ho!”

Han Zhong gave a mock strange laugh, “You’re embarrassed?”

Cheng Haotai’s face gradually turned gloomy as he said in a deep voice, “Mr. Han, you are also a person of status and a certain position, if things go too far, it won’t do you any good, right? At least, if today’s matter is known

“Then you don’t need to worry!” Han Zhong directly interrupted him, “I can still afford this kind of thing! Oh, by the way, do you know who I am now?”

Just now when this guy came in, he was pretending to ask himself what to call himself, and now he finally can’t hold it in?

Ridiculous!

Han Zhong snorted with laughter.

“Oh? You can afford to sit in jail?”

Cheng Haotai asked in a deep voice, he avoided answering the matter of the opposite name, but only said in a deep voice: “If you damage something over a certain amount, it can be more than just a law and order case, not to mention that it can be finished by paying some money, I think you’d better think it over before things deteriorate to that point!”

Han Zhong smiled and didn’t say anything.

When Cheng Haotai saw this, he immediately frowned, “What, you two have to make a scene?”

Boom!

Just as his words fell, another loud bang came from upstairs, followed by someone’s shrieking voice coming down, “Ah-”

Cheng Haotai's face instantly turned blue, "Han Zhong, are you really going to do this?"

Han Zhong glanced at him and slowly spat out two words, "..... idiot!"

"You"

Cheng Haotai was instantly furious, he took a deep breath to calm himself down and said in a deep voice: "Han Zhong, it seems that you are determined to make a scene? Is there no possibility of sitting down and talking?"

Han Zhong grinned, "What do you think?"

Cheng Haotai asked in a deep voice, "Then what exactly do you want?"

"What am I going to do? Ha!" Han Zhong let out a mocking laugh, and then his face sank as he said in a cold voice, "Cheng Haotai, I almost lost my life, what do you think I'm up to? Don't you really know what I want?"

"Han Zhong, why don't I understand what you're saying!" Cheng Haotai frowned, but in his heart he secretly said, "Sure enough, Han Zhong and the two of them are really here because of that incident!"

Chapter 1620

"Don't understand?"

As soon as Han Zhong heard this, he let out a cold laugh, "Cheng Haotai, since you want to pretend to be confused, then fine, I hope you never understand, I want to see how long you can hold out!"

He glanced at Cheng Haotai and said indifferently, "I have plenty of time, we can take our time!"

Boom~~!

Another loud bang came from above, Han Zhong couldn't help but teasingly say, "Don't be too hasty to make a decision oh, my friend this has just started, they definitely haven't had enough fun yet"

"Han Zhong!" Cheng Haotai said with a gloomy face, "Don't you think, you're going a little overboard with this?"

"I'm going too far?"

Han Zhong almost cursed at his words as he pointed at his nose and sneered, "My ass! How dare you call me excessive? Cheng Haotai, I've seen shameless people before, but I've never seen you so shameless" Don't worry, just because you said that, we're not finished today!"

Cheng Haotai's eyes narrowed slightly, and he suddenly realized that Han Zhong was speaking with full confidence, as if he was completely sure that the incident had something to do with him, and not just suspicious" Did Han Zhong know something?

Soon, Cheng Haotai again denied himself this guess, Han Zhong could not know anything, ironically impossible.

When the initial thing from the beginning to the end of doing very cleanly, Han Zhong absolutely can not find any evidence to prove that he and the hotel have a relationship with that matter, even if he received a text message, at most will only suspect.

But why is he so sure now?

Cheng Haotai couldn't help but mutter a little darkly, was this Han Zhong bluffing, or was he relying on the fact that Ji Feng was here, so he felt that whether or not that incident had anything to do with him, he would first smash his own hotel anyway?

"Boom~!"

A loud bang, followed by a thumping sound, the sound from above became more and more dense, causing the corners of Cheng Haotai's eyes to jump a few times, and his heart was even a little distressed.

If this hotel was really smashed in its entirety, he really could not afford it.

He had over a billion dollars in assets and even had a clubhouse and a resort, but the hotel was the big one.

Besides, it wasn't exactly his place alone, and the hotel could still be of some use from time to time, so it was just smashed

"Damn thing!"

Cheng Haotai couldn't help but curse, this Han Zhong and Ji Feng were really arrogant!

He pondered for a moment and couldn't help but say in a deep voice, "Han Zhong, it seems like you really are all set to continue making trouble?"

Han Zhong sneered, "Laozi never talks nonsense!"

Cheng Haotai was choked by the blockage, and with a gloomy face, he nodded through clenched teeth, "Good! Very well! Then let's see who can outplay who!"

Han Zhong stretched his hand, "Be my guest!"

"Hmph!"

Cheng Haotai couldn't help but snort coldly, at this point, there was no longer any need to continue, both sides had basically torn their faces apart, at least, Han Zhong didn't give him any face.

Since this was the case, Cheng Haotai naturally had to make a move, Han Zhong and Ji Feng had come together to smash his hotel, which he had not completely failed to anticipate, in fact, since he already knew Ji Feng's identity and the relationship between him and Han Zhong, Cheng Haotai had also anticipated any possible scenario.

In particular, the possibility of Ji Feng standing up for Han Zhong was likewise anticipated by Cheng Haotai.

Therefore, Cheng Haotai had also prepared in advance ways to deal with all possibilities. Without thorough consideration, how could the plan have been implemented?

He, Cheng Haotai, was no fool, not to mention that the people in his circle, who were likewise elites, had not thought of any scenario when they made their plans and had definitely prepared ways to deal with it in advance.

The only thing he didn't expect was that Han Zhong and Ji Feng's reaction would be so fierce. They didn't come to the hotel to ask for an explanation at all, but came up and directly took action, beating people and smashing the hotel, directly forcing Cheng Haotai to give in, as if they were certain that Cheng Haotai had done that.

This is something that Cheng Haotai did not anticipate.

However, the process of executing the plan is certainly rapidly changing, not to mention that Ji Feng and Han Zhong are not completely at the mercy of other people's robots, so it is reasonable that they cannot fully anticipate their actions, and it is understandable that there are some flaws and flaws.

Anyway, as long as there was a way to deal with it, it would be fine.

These thoughts flashed quickly through Cheng Haotai's mind, and the corners of his mouth couldn't help but tug slightly, but that smile was held back by him.

"Hmph!"

Han Zhong, however, keenly noticed the look on the corner of Cheng Haotai's mouth, and he couldn't help but snort coldly, "Son of a bitch, you can still laugh even now?"

Cheng Haotai immediately frowned and just wanted to speak, but was interrupted by Ji Feng.

Ji Feng smiled indifferently, "How can people say that they are also a big boss with a fortune of more than a billion dollars, if they are thunderstruck when they encounter such a small matter, it would be too ungentlemanly, this hotel is just smashed, people don't even put it in their eyes!"

Bullshit!

When Cheng Haotai heard this, he almost cursed out of his mouth.

He had invested most of his money in this hotel, if it was smashed, would he not be distressed?

Would he still not take it into his eyes?

"It seems that the two of you have to make a big deal out of this." Cheng Haotai snorted coldly, "In that case, then let's go through the officials!"

"Boss, it's useless to call the police." Liu Jing next to him suddenly remembered something and said in a panic, "The police you called just now all scared away after answering a phone call These two brutes must also have connections in the police."

"I know!" Cheng Haotai said, and couldn't help but glare at Liu Jing.

This woman, had to embarrass herself in front of so many people, huh? I really don't know if she had a brain or not.

Cheng Haotai gritted his teeth and called a police precinct chief directly.

"Bureau Zhen, this is Cheng Haotai." Cheng Haotai didn't go far, he just turned around slightly and lowered his voice a bit.

Who knew, but an unfamiliar voice came from the other end of the phone, "Sorry, I'm Bureau Zhen's assistant, Bureau Zhen has gone to a meeting, what do you want, I'll pass it on for you when Bureau Zhen comes back!"

Cheng Haotai was stunned, "An emergency meeting? Oh, that's alright then."

After saying that, he hung up the phone.

When Han Zhong saw that, he couldn't help but have a mocking smile on the corner of his mouth. Still wanting to compare official power with Ji Feng?

Anyone else who was slightly smarter would not have done so, I'm afraid.

Cheng Haotai grimaced and started making phone calls again.

Ji Feng, on the other hand, slightly narrowed his eyes and frowned slightly. It could be seen that this Cheng Haotai was very confident about his own energy.

If he said that Cheng Haotai did not know his identity, Ji Feng would not believe it. But even in this situation, the fact that Cheng Haotai had to ask for help undoubtedly meant that he thought that his energy was definitely not below his own.

"It looks like Cheng Haotai has operated more than a network of connections in Jiangzhou, I'm afraid." Ji Feng secretly kept an eye out, among these networks operated by Cheng Haotai, I wonder how many people just have favors with him, and how many people are serving the boundary tent people?

Thinking of these, Ji Feng couldn't help but let out a soft sigh, the country's power is inferior, this is just as well, but why does someone insist on going to be the lapdog of that boundary tent people

"Hey! Hey hey!"

Suddenly, Cheng Haotai snapped a few times, but the receiver only came back with a busy tone.

His call was also to the main leader of another division, but what he didn't expect was that as soon as the leader, who was originally his brother, heard that it was Han Zhong from the Tengfei Group who had brought someone to cause trouble, he simply dropped the phone with the words 'nothing can be done'!

Those bastards!

Cheng Haotai almost wanted to curse, he usually ate and drank what he wanted, but when the time came, he dropped the ball, he couldn't do anything, he was just a bastard!

In fact, today's matter was very easy to solve, in Cheng Haotai's plan, as long as there was a slightly dignified police officer leading the team over, at that time, even if they could not stop Ji Feng, but when

they found out that the person who was causing trouble was Ji Feng, they would definitely report it, and this layer by layer, I believe the municipal committee would definitely know.

When the time comes, whether Ji Zhenguang learns about it or his opponents learn about it, they will make use of this matter to do something about it, then at least, Ji Feng will not dare to be so arrogant again, and may be unlucky.

Of course, Cheng Haotai had other means, but that was all just an afterthought.

Now he had such a hard time even trying to call in a slightly more substantial police officer.

It was only at this time that Cheng Haotai felt how powerful the official power was in China, and he suddenly felt that the original plan he had made needed to be changed.

Boom!

Another loud bang came from upstairs.

“Mr. Cheng, did you hear that? This sound is getting closer and closer!” Han Zhong said with a sneer, “If you don’t find someone to help, later on my friend will have to smash straight to the ground floor!”

“Then count on your guts!” Cheng Haotai snorted coldly, and then, he picked up his mobile phone again and dialed a number, before lowering his voice and saying something unknown.

“Pop!”

After saying a few words, Cheng Haotai hung up the phone.

Han Zhong asked, “Finished with the phone call?”

Cheng Haotai glanced at him as if he didn’t hear his mockery, and just said indifferently, “If I were you, I’d tell your men to stop right now, they’re getting into trouble for you!”

When Han Zhong heard this, his face gradually turned gloomy as he sneered, “Cheng Haotai, you really have a big mouth, but let me tell you, I almost lost my life in this hotel of yours, so am I still fucking afraid of causing trouble?”

As he spoke, his gaze was fixed dead on Cheng Haotai’s eyes, and as he said that something had happened in the Haotai Hotel, he only saw Cheng Haotai’s eyes flicker for a moment.

“It really is you! It really was you who set up Laozi!” Han Zhong instantly roared in anger and kicked over.

“Cheng Haotai, I’ll fuck you up!”
