

Campus Master 2111

“Heh~!”

Ji Feng shook his head and laughed, returning the phone to He Hongwei, “This person is really going back the more he lives!”

He Hongwei said in a deep voice, “It seems that Wu Zhiyong is quite annoyed!”

Ji Feng shook his head and said, “Normal! I’d be surprised if he’s not angry.”

Their visit to Southern Guangdong this time was supposed to touch the Wu family’s interests, and since He Hongwei was also using public opinion to put pressure on the Wu family, how could Wu Zhiyong not be annoyed?

“And this also shows in another way that your method is very effective, at least now Wu Zhiyong must be furious!” Ji Feng said, “Brother Hong Wei, continue with your plan, it will definitely yield results!”

“I’ll try my best!”

He Hongwei said, and this time, although his words did not have that grandiose ambition, his tone was a few points more resolute.

Perhaps, He Hongwei had been stimulated by Wu Zhiyong, and it was unknown what exactly Wu Zhiyong had said to He Hongwei on the phone, which made Ji Feng somewhat curious, because previously, Ji Feng had persuaded He Hongwei for such a long time, but he had not been able to make him firm in his determination once again, but once Wu Zhiyong called this time, He Hongwei’s attitude immediately changed.

It was evident that He Hongwei had obviously been stimulated quite badly.

This made Ji Feng secretly shake his head, this time, I am afraid that Wu Zhiyong has lifted a stone to smash his own feet.

The reason for the call was to threaten him and He Hongwei, so that he would stop, but I’m afraid Wu Zhiyong couldn’t have imagined that it would be better if he hadn’t called, but once the call came, He Hongwei was deeply stimulated and became even more determined to deal with the Wu family!

But this is good .....

The first thing you need to do is to get a good idea of what you want to do. Moreover, He Hongwei, who had once again been stimulated, would definitely put forth twelve percent of his strength in the process of doing things next.

“This time, I’m afraid that Wu Zhiyong is in trouble .....,” Ji Feng chuckled in his heart.

“In that case, then I’ll leave first.” He Hongwei said, “There are some things that need to be put in place again, I need to go over there personally to take a look at it.”

Ji Feng nodded slightly, “Well. I’ll keep an eye on the Wu family’s side, I’ll inform you in time if there’s anything!”

He Hongwei smiled and nodded his head in greeting, just as he was about to turn around and leave, he suddenly remembered something, raised his hand and said, "Ji Feng, it's usually better for you to pay attention to your own safety."

Ji Feng was stunned, and then he understood what He Hongwei meant, he laughed, "What, you think Wu Zhiyong really dares to lay a deadly hand?"

He Hongwei said, "What wouldn't he dare, this person is not only full of intrigue, but also ruthless and capable of doing anything!"

Ji Feng shook his head and laughed: "Under this broad daylight, does Wu Zhiyong have so much guts? Besides, right now everyone knows exactly what we came to Southern Guangdong for, and many people know what's going on, if something happens to me here, the Wu family will definitely not be able to escape, unless Wu Zhiyong is crazy, he definitely wouldn't dare to do that!"

"Older brother, who do you think knows Wu Zhiyong better between the two of us?" He Hongwei asked, "Since a long time ago, I have been studying this person, I have been following him closely, what kind of personality he has, his style of doing things, I should know more than proposed, don't forget, it's not like he hasn't laid a deadly hand on you before!"

Ji Feng faintly frowned, his expression became somewhat gloomy.

Indeed, Wu Zhiyong had dealt a deadly blow to him before, and, more than once.

And to talk about what he knew about Wu Zhiyong .....

Ji Feng looked at He Hongwei, who had a calm face, but with an undisguised anger in his eyes, he then slowly nodded, knowing that his knowledge of Wu Zhiyong was definitely not as good as He Hongwei, who had always treated Wu Zhiyong as a life-and-death enemy.

"Don't worry, I'll take care of my safety!" Ji Feng laughed, "However, you should also pay some attention."

"I have nothing to worry about .....", He Hongwei said, paused, and then said in a deep voice, "I'm only afraid that Wu Zhiyong won't dare to make a move against me!"

Ji Feng couldn't help but glance at him, just in time to see that flash of cold light in He Hongwei's eyes.

Ji Feng's heart flinched.

He realised that He Hongwei was probably waiting for such an opportunity!

It seemed that the anger that had been pent up in He Hongwei's heart for several years had made He Hongwei hate Wu Zhiyong to his bones, so he wasn't afraid of Wu Zhiyong's black hand at all, what he was afraid of was that Wu Zhiyong didn't dare to make a move so that he couldn't grab the handle!

"I'll go first." Perhaps because of Wu Zhiyong's phone call, He Hongwei appeared somewhat disinterested and had no desire to continue the conversation, so he quickly left.

"Phew~!"

Ji Feng shook his head and let out a long breath, secretly saying, "This trip to Southern Guangdong doesn't look like it's going to be generally difficult. This has only just started and He Hongwei almost beat a retreat, while Wu Zhiyong even called directly with a threat, if as time goes on, God knows what else will happen next!"

But soon, Ji Feng shook his head and smiled, but his eyes were determined.

No matter what happened, since they had come to Southern Guangdong this time, they had to succeed, it wasn't just a matter of face, or a matter of spite, there were many reasons why they had to do it!

In one's life, there are many things one has to do!

"Bai Zhu, get ready, we'll go out later!" Ji Feng turned back to Bai Zhu and said.

"Mm!"

Bai Zhu nodded, then quickly turned around and went back to her room, and when she came out again a few moments later, she had a small bag slung over her body.

Ji Feng, however, couldn't help but frown at it, "Isn't this our first aid kit? What are you doing with it?"

This small bag that Bai Zhu was carrying was specially made for them, and it contained some first aid medicines, as well as special effects current, and some simple small tools, such as scissors, etc.

This kind of small bag was given to everyone in the battle group, in case something happened to everyone during the operation, or if they were injured, so that they could use the medicine and tools in the bag for first aid.

But now they weren't on the move, so why did Bai Zhu bring it with him?

Bai Zhu said, "It's not heavy anyway, it's easy to carry it slung like this, it doesn't affect the action ....."

"You're worried, right?" Ji Feng asked.

"..... hmm!"

Bai Zhu nodded, the words that He Hongwei said just now made her instantly alert, really because Wu Zhiyong had once laid hands on Ji Feng before, only it didn't work. But now this was the territory of the Wu family, and no one here was sure if there were killers sent by Wu Zhiyong among the pedestrians walking on the street.

So Bai Zhu was very wary.

Ji Feng patted her hand and didn't say anything else, just said, "Let's go."

Letting Bai Zhu follow himself like this all day long, Ji Feng felt that it was a bit inappropriate, before it was because he wanted to keep Bai Zhu by his side to watch, but after spending so much time together, plus their relationship had changed, now it would seem a bit ..... frightening to let Bai Zhu follow himself like this again

The actual fact is that you can find a lot of people who are not able to get a good deal on a lot of things.

Because Ji Feng and the two of them came to Southern Guangdong by plane, He Hongwei had specially arranged a business car for Ji Feng as a means of transportation, so this time they were driving this car.

This time, Ji Feng was going to Zheng Yuanshan's place, on the one hand to ask Zheng Yuanshan to find a suitable house for him, and also for another main purpose, that is, Ji Feng wanted to have a more detailed understanding of the whole of Southern Guangdong from Zheng Yuanshan.

However, unlike in the past, this time it was Ji Feng who was responsible for driving.

Because Bai Zhu was not familiar with Yuezhou, whereas Ji Feng was the one who had memorised all the roads in the city in his head after reading the map of Yuezhou, so this time it was only him who could drive.

It has to be said that the traffic situation in Yuezhou is indeed that much better than that in Jiangzhou, although it is very limited, but Ji Feng's feeling is very obvious.

Just look at the traffic on the road, if it was in Jiangzhou, even if it was not during the peak commuting period, there were still a lot of cars. But at this moment is the time to go to work, in the road traffic is not particularly large, and the car can still almost maintain a uniform speed.

However, in order to be able to drive more smoothly, Ji Feng still took the outer ring road, where the car is much less.

At this moment, Bai Zhu's eyes were sharp and alert, watching the surroundings.

Ji Feng laughed: "No need to be so nervous, even if Wu Zhiyong really wants to make a move, from the time he sent the killer to find us, it will take ....."

Just as the words came out, Ji Feng's voice came to an abrupt halt.

Bai Zhu asked somewhat strangely, "Also to what?"

Ji Feng shook his head with a bitter smile and said, "It seems that my judgment was wrong ....."

Bai Zhu suddenly jolted: "What do you mean?"

"Look ....."

Ji Feng pointed to the front and then pointed to the reversing mirror on the right side of the car and said, "I'm afraid I really let He Hongwei get it right today, how come I didn't realize it before, this guy is a crow's mouth ....."

The company's main business is to provide a wide range of products and services to its customers.

But now when she heard Ji Feng say this, she immediately noticed the anomaly of this Cherokee – the other cars either whizzed by or were left behind by their commercial vehicle, only this black Cherokee in front of them, was always in front of them, although the distance would also change a little, but it didn't change much, it wasn't too far apart. .

Bai Zhu's face suddenly froze as she quickly turned to look behind her, and immediately saw that there were two SUVs behind them, alternating between one in front and one behind, biting close behind them!

“And this side!”

Ji Feng pointed to his left.

Bai Zhu immediately looked over and saw that, to the left of the commercial vehicle, a pickup truck had appeared at some point!

A Cherokee in front, two off-roaders behind, and a pickup truck on the left ..... while to the right of the commercial vehicle was the road guardrail, which meant that she and Ji Feng were blocked in by these people.

Now if you want to break out of their circle, the only direction you can go is to the right, but then it's straight into the guardrail .....

Campus Master Chapter 2112

A Cherokee in front, two SUVs behind, and a pickup truck on the left ..... and the commercial vehicle to the right, but the road guardrail, which means that she and Ji Feng were blocked in by these people.

Now if they want to break out of their circle, the only direction they can go is to the right, but that is directly into the guardrail .....

But the problem is that even if they now rush directly into the guardrail on the right side of the road, they may not be able to break out of the other side's encirclement, and may even end up being more passive instead.

The reason is that at the moment they are both driving extremely fast, originally Ji Feng drove the outer ring road originally to be able to drive more smoothly, the speed is naturally not slow, if they crash into the guardrail at their current speed, it will definitely be a violent crash, the vehicle will definitely be badly damaged.

As for how much damage the two of them will suffer, this is all still an unknown, after all, the vehicle in the process of impact, no one can guarantee exactly what will happen accidentally, any kind of possibility exists.

..... Therefore, it can now be said that Ji Feng and Bai Zhu are directly trapped in the middle of this encirclement, almost unable to break out.

The face of Bai Zhu steeply sank, and the eyes of her beauty were stern.

She looked back and forth, but could not see the situation in the other car, only the two SUVs behind them, with people in the front driver and passenger seats.

This meant that there were at least four people in the two SUVs behind them alone.

But whether there was anyone else in the back seats of the two vehicles, Bai Zhu couldn't see clearly, so she didn't know, but since the other side was acting so quickly and efficiently, it was obvious that the other side couldn't have only sent out a few people .....

“Bai Zhu, don't be so nervous!”

Faced with this situation, Ji Feng's expression was as calm as ever, not seeing any semblance of panic at all, "The more you panic, the more danger there will be, stay calm to figure out the most appropriate response."

"Young Ji, is it okay if we slow down now?" Bai Zhu asked, while her gaze was still alertly watching the vehicles around her.

"It's not very feasible!" Ji Feng shook his head, his gaze glanced from the overhead rearview mirror and said, "Did you see, the other party has arranged two cars behind us for blocking while there is only one car in front, do you know why?"

"..... the other side to prevent us from suddenly braking?!" Bai Zhu immediately reacted, "If we suddenly brake, the car behind us will directly crash up, the one who will suffer is definitely them, so they arranged two cars behind us, in this way, even if we suddenly brake, at most, we can only pit one of the cars, but the other side still has one biting us."

"And if once our speed drops, it can be difficult to pick up speed again while the other side's encirclement is still ..... in place," Bai Zhu said in a deep voice.

When the front of a car collided with the rear of another car, if there were no other accidents, the vast majority of those who would suffer would be the vehicles that hit them at the back, especially if both sides were driving extremely fast one after the other.

And right now, it was clear that none of their cars were going slow.

"Well!"

Ji Feng nodded and smiled, "So that's why I'm afraid that the other side only arranged a big cut in the front, but arranged two cars in the back, that's what they were thinking about."

Bai Zhu's pretty face sank as she angrily said, "This gang has taken every possibility into consideration, if we brake sharply, we can at most destroy one car behind us, but the cars on the left and in front of us will immediately block up, and the other car behind us, will also directly pounce on us, squeezing us in the middle and unable to move, by then... .."

"By then it will be at their mercy!" Ji Feng smiled faintly and said, "If the other side has guns in their hands, all they need to do is to strafe our car from theirs and it will be enough to beat us into a beehive of coal!"

"They have a gun?!" Bai Zhu was instantly shocked.

"I do hope I'm wrong in my estimation!" Ji Feng shook his head and laughed.

Bai Zhu, however, was silent.

She vaguely felt that what Ji Feng said was right, the gang had suddenly blocked their car in the middle, putting them in an immediate crisis, which was clearly meant to be detrimental to Ji Feng, and, the other party was definitely Ji Feng's enemy.

..... With Ji Feng's identity, as his enemy, since he did it, could he not just lay down a deadly hand?

Could the other party have done this just to scare Ji Feng or just to give him a warning?

This was obviously impossible.

Unless the other party was out of their minds, otherwise, everyone knew that since they dared to do this to Ji Feng, once they let Ji Feng escape, or when he had his hands free, the other party would definitely be dealt a severe blow by him!

So in effect, once the other party made a move against Ji Feng, it was without a doubt that they were going to strike to death!

“Ka ka ka~~!”

Bai Zhu directly pulled out the pistol from behind her waist, while opening the safety and loading the bullets, her pair of beautiful eyes were even more full of fury: “Young Ji, I think we should strike first, the other party has many people, we have to seize the upper hand!”

Ji Feng could not help but give her a stunned look, originally Bai Zhu brought out a first aid kit, he felt it was not quite necessary, but to his surprise Bai Zhu actually even brought out a gun, and now, both of these things might be of use .....

“There’s no rush first.”

Ji Feng’s gaze flicked over the rearview mirror and looked at the big cut on the left and in front of him, and said in a deep voice, “Wait a little longer.”

“Young Ji!”

Bai Zhu said in a low voice, “If we wait any longer, if the other party once makes a move, we won’t even have a place to hide!”

If the other side had guns in their hands, once they made their move, they would be shot at from the front, the left and the back, and they would not be able to escape even if they could fly.

The car they were driving was not a special bullet-proof car, and with the thin steel plates on the car, the bullets would easily penetrate, and they would be dead for sure!

“Calm down!” Ji Feng’s emotion did not fluctuate in the slightest, he just said calmly, “Observe the other side again!”

“Observe what?” Bai Zhu was stunned.

“This encirclement of the other side has formed a long time ago, but they haven’t made a move!” Ji Feng said, “Don’t you think it’s a bit strange?”

Bai Zhu was slightly stunned, then she reacted at random, indeed, when the other side blocked them in the middle, several cars were pressing their cars, at this time the other side could have made their move before they reacted, then the success rate of taking them out would definitely be higher than now.

“Why didn’t they make a move immediately?” Bai Zhu asked, “Could it be that they wanted to force us to crash into the guardrail ourselves and then disguise it as an ordinary traffic accident?”

Bai Zhu immediately thought of this possibility.

Ji Feng laughed, "It's not without this possibility, no matter what they are planning, let's talk about it after we have contacted the outside world first."

As he spoke, Ji Feng casually took out his mobile phone and was just about to dial the phone when he discovered to his dismay that there was actually no signal!

When Bai Zhu saw this, she hurriedly took out her own mobile phone, but there was no signal either!

"The other party put a jammer in their car!" Bai Zhu's beautiful eyes immediately flashed a cold light, "The other party is very professional, most likely a professional killer! Or special police or military ....."

"Looks like this is going to be our lives!" Ji Feng casually put the phone back again, his face gradually sank, "In that case, there's nothing more to say!"

Ji Feng looked at the surroundings again and coldly snorted, "It's almost time ....." Bai Zhu, give me the gun."

"Give you this!"

Bai Zhu immediately handed Ji Feng a pistol, but not the one she was holding.

Ji Feng immediately looked at her with some consternation, how come there were two guns?

The pistol in Bai Zhu's hand was brought over from Jiangzhou by Ji Feng through his offense and was not brought on the plane, but went through other channels, but where did this one come from for Bai Zhu?

Before he could ask, Bai Zhu immediately said, "I brought this directly from Jiangzhou using logistics."

Ji Feng was instantly relieved, using logistics was indeed a good way to go.

It was too late to say anything more, Ji Feng just nodded and said in a deep voice: "Bai Zhu, sit tight and be careful ....."

"You should also be careful!"

Bai Zhu, however, gave a worried glance at Ji Feng, who was driving, right directly at the car on the left, if the other side were to launch an attack, then the first to be attacked would be Ji Feng.

"Pop!"

Ji Feng put his pistol into the storage box on his right hand side and said in a deep voice, "Listen to my orders, be ready to make a move!"

Bai Zhu nodded with a wary expression, "Yes!"

Ji Feng's gaze gradually turned cold as he swept past several cars around him in turn, while he kept an eye on the surrounding road conditions. The reason he didn't make the first move earlier was because although there wasn't much traffic on that outer ring road, there were some vehicles, so if he and the other side really fought, they would definitely hurt innocent people.

That was why he continued to move forward while observing.

And the other party obviously had no intention of making a move on the busy road, so the few cars around here kept pressing his car forward, and now, they had unknowingly reached the outskirts!

It was time to make a move!

Ji Feng coldly snorted, the front would soon be out of the outer ring road, if the other party still didn't make a move, then the purpose of trying to fake it as a traffic accident would not be achieved.

So at this time, Ji Feng picked up his pistol.

"Buzz~!"

At the same time, Ji Feng saw the window glass of the car on the left, lowered.

This was about to make a move!

Ji Feng immediately shouted lowly, "It's now ..... Bai Zhu, do it!"

Campus Master Chapter 2113

This is to make a move!

Ji Feng immediately shouted lowly: "It's now ..... Bai Zhu, do it!"

And Bai Zhu had already had an incomparable tacit understanding with him, so the instant he spoke out, Bai Zhu raised her hand violently and aimed her gun at the Cherokee in front of her!

The next moment, the two of them pulled the trigger at the same time.

"Boom~!"

"BOOM BOOM~~!"

In a flash, the car on the left side, the right front wheel was instantly blown out of the tire, the body shook violently, the direction suddenly deflected and rushed out towards the other side ..... In the moment when that car went out of control, Ji Feng saw through the other side's car window, the flash of a submachine gun!

Obviously, the other party just lowered the window to make a move, the result was that Ji Feng blew out the tyres, the vehicle direction instantly lost control.

At the same moment, Bai Zhu also pulled the trigger and the bullet directly hit the rear window of the Cherokee in front.

Ji Feng couldn't help but frown, and saw the Cherokee in front of him shake violently a few times, as if it was a drunken drunkard, swaying and instantly hitting the guardrail on the right side.

"Clang~~!"

With a loud bang, the guardrail on the right side of the road was directly broken, and the Cherokee also directly plunged headlong through the gully outside the guardrail.

At this time, Bai Zhu didn't even look at the Cherokee, she didn't know when she had already lowered the seat back, at this moment she directly lay on her back, and then her body flipped over, just lying on the seat, with her gun pointing at the SUV behind her.

"Young Ji, behind!"

Bai Zhu shouted delicately, then without hesitation, she pulled the trigger,  
"BOOM~~BOOMBOOMBOOMBOOM~~"

As the cartridges kept bouncing, Bai Zhu poured all the bullets from her pistol into the black SUV behind her, until the firing pin in the gun made an empty sound, then Bai Zhu stopped.

At this time, the front windscreen of the black SUV behind him had already been sieved, and all the bullet points were concentrated on the driver's seat.

Obviously, Bai Zhu was attacking the driver first to make him lose control of the vehicle.

However, this time Bai Zhu did not achieve the expected effect, only to see that the SUV behind suddenly adjusted its direction again after swinging violently, and at the same time, a gun barrel protruded from the smashed windscreen.

"Ta-da-da ..... Ta-da-da-da ....." The other side opened fire, and the dense bullets instantly hit the rear window of the commercial vehicle. The rear window was instantly smashed.

"Young Ji, be careful ....."

Bai Zhu immediately shouted delicately, while her body jerked to the side, hiding near the door of the car, aiming at that passenger seat of the other party and firing again.

Obviously, just now the direction of the SUV swung violently, definitely because the other party's driver was shot, there is no doubt about it, but the person sitting in the passenger seat was in time to grab the steering wheel and stabilize the car.

The other party was a veteran, and a master!

So Bai Zhu didn't dare to be the least bit slow and pulled the trigger once more.

"Pop!"

In a flash, Bai Zhu froze, she had just forgotten that her gun had no more bullets in it .....

And at this time, the SUV was biting close behind, not letting up at all, and, the other party's blackened gun, obviously poking forward some more, obviously the other party was going to fire more precisely to finish them off.

Bai Zhu couldn't help but grunt angrily, looking resigned, but there was nothing he could do but rush to warn, "Young Ji, be careful!"

"Buzz~~!"

As soon as Bai Zhu's words fell, he heard the engine suddenly roar madly, and all of a sudden, a strong thrust came, and the business car suddenly accelerated, directly pulling away from the SUV behind it by some distance.

At the same time, Bai Zhu only felt a black shadow flash by, and the next moment, she saw a car almost brushing the rear of the business car and dashing across to the right, clanging into the guardrail, and then directly into the gully outside the guardrail.

Bai Zhu immediately turned pale and said in a shocked voice, "They ..... are going to die with us?!"

The car that just rushed past was obviously the second car that was originally pressed on the left, originally the first one had been shot by Ji Feng when they first started to make their move, and the direction lost control so they didn't follow, but Bai Zhu never imagined that the second car on the left would actually be so fierce, looking at the other party's stance, they actually wanted to directly crash into their car.

If they were really hit by the other car, with the weight and speed of the commercial vehicle, they would immediately lose control and move sideways to the right, and then they would only end up crashing through the guardrail and falling into the gully.

Although the roadside gully is not very deep, but once they fall in, it is the same as being trapped, then the other side, even if they are three years old, with submachine guns directly at them burst, can beat them into a honeycomb!

"Ji Shao ....." Bai Zhu's face changed drastically, and just as he was about to speak, he was suddenly interrupted by the sound of a fierce gunshot.

"Ta-da-da ....."

The SUV that was clinging behind fired again, Bai Zhu hurriedly buried her head down while her mouth shrieked, "Ji Shao, keep your head down, be careful!"

Hearing the fierce gunfire outside, and the various clanking sounds of the bullets hitting the car, Bai Zhu was pressured to raise her head at all, but she was incomparably worried about Ji Feng in her heart.

The opponent was definitely not an ordinary killer, but a deadly soldier!

Bai Zhu, who was once a killer, knew better than anyone that even the most ruthless and perverted killers, even the first-rate professional killers, at most, they would kill like a sack or, if they were perverted, they would like to torture the object they were about to kill.

However, no killer would be willing to die with his target!

But that's what they did!

And even though she had killed the driver, the man in the passenger seat still persisted in his pursuit, so it was clear that the other side would not stop until they were killed!

Of course, Bai Zhu had not forgotten that, in addition to the SUV that was chasing behind her, there was another SUV that was alternating with her, and after the gunshots had been fired, that SUV had not rushed up and was only following closely behind.

This means that the other side still has at least one more living force, while they, themselves, are out of bullets!

“Ji Shao .....” Bai Zhu couldn’t help but speak up again.

“I’m fine! You lie there and don’t move, be careful!” Ji Feng said in a deep voice, while continuing to accelerate the car, his hands quickly maneuvering the car, trying to be able to lose the SUV behind him.

“Ta-da-da .....”

The dense bullets were still coming in, Ji Feng could only grit his teeth, his body lurched to the right, almost his entire upper body straddled next to the gear lever, at this moment, he could only rely on the memory in his head to grasp the steering wheel.

Bai Zhu said loudly, “Young Ji, the other party is a dead soldier!”

“I know!”

Ji Feng responded in a deep voice, “Do you still have bullets?”

Bai Zhu shook his head, “No more! I didn’t expect the other party to be so rampant either .....” I only brought two guns with me when I came out!”

Although Bai Zhu felt that Wu Zhiyong would probably make a move on Ji Feng, so she raised her guard and brought weapons when she went out, but how could she have expected that the other party would be so rampant that not only did they raise a large number of people, but they were also well laid out and had actually surrounded them without realizing it.

The other side even had submachine guns!

And from the sound of the gunshots just now, the enemy in the SUV at the back was definitely using automatic rifles!

Another submachine gun, another automatic rifle, and even a dead soldier who was going to die with them .....

Just these weapons alone were almost like being in a war!

In this situation, Bai Zhu at that time even if he brought a few more magazines, it was definitely not enough.

Ji Feng certainly also noticed this situation, but, at this moment, he was no better.

He had already increased his speed to the maximum, but he still couldn’t lose the other side because the SUV behind him wasn’t slow, and the rifle the other side was holding not only had a long range, but was also very powerful.

It was almost impossible to get out of range in a short time!

And most importantly, under the opponent’s firepower suppression, it was impossible for Ji Feng to use his car skills to the limit, so the road of losing the opponent was not feasible.

But other than that, there was no other way out at this moment.

If one were to find a way to get out of the car and look around everywhere was an empty space, except for the guardrails and gullies on both sides of the road, there was simply no place to hide, the other party could take them out just by sitting in the car and pulling the trigger.

“Then .....

The cold light in Ji Feng’s eyes flashed, “Since we can’t get rid of and escape, we can only find a way to take out all these bastards!”

Ji Feng jerked up and quickly glanced at the road in front of him, then quickly crooked down again, not giving the other side a chance to aim.

Immediately afterwards, Ji Feng gripped his pistol tightly as he pondered on a way to finish off the enemy.

It was absolutely not possible to just continue to consume like this.

Not to mention the fact that the other side could blow up their wheels at any time, just by continuing to consume like this, the other side would sooner or later find a breakthrough, moreover, he could not keep hiding by craning his body, after all, the road ahead could not be so empty all the time.

Once he met a car in front of him, I’m afraid it would be the death of him!

“Humph!”

Ji Feng secretly coldly snorted, an ice-cold cold light flashed from his eyes, at this moment, the murderous motive kept rising in his heart.

If he wanted to finish him off, it depended on whether the other party had the ability to do so. Even though he was at a disadvantage now, he was not someone who could be bullied. If he wanted to bully him, he would have to pay a price!

The murderous intent in his heart became more and more intense, but Ji Feng on the surface was more and more calm, only that the eyes, but more icy cold .....

Campus Master Chapter 2114

“Buzz~~”

The engine was roaring, the sound that had almost reached its limit was signalling that the car’s performance had almost reached its peak, and unless Ji Feng could manoeuvre to his heart’s content at this moment, the car’s speed would only reach this level.

The SUV at the rear, however, was still clinging on, and moreover, the intense bullets kept firing.

Bai Zhu looked at Ji Feng, although there was no expression on her pretty face, but her heart was incomparably anxious. Because she knew very well that she could not continue like this, otherwise, both she and Ji Feng would definitely die.

The car could not keep going at this limit, no one knew when the car would go wrong.

Besides, she doesn't know where the road ahead leads to. The road is still in good condition, so it can support them to escape like this, but if the road condition ahead goes wrong .....

Whether it's a problem with the car or the road, as long as any unexpected situation arises, she and Ji Feng will be completely exposed to each other's guns!

Bai Zhu couldn't help but look at Ji Feng, at this time, she was most worried about Ji Feng.

She had experienced this kind of life and death many times before, even when she was on a mission, bullets had grazed her neck and at that time she could clearly feel the burning sensation from the air, but at that time she did not feel afraid.

But now, Bai Zhu was afraid.

She was afraid that Ji Feng would die here!

After wandering for so long, experiencing all kinds of things, tasting the warmth and coldness of the world, it was hard to find her emotional home, and she just had a warm feeling of home, but now she was likely to lose it, which made Bai Zhu's heart unable to let go no matter what.

If Ji Feng dies here ..... then it would be better to die yourself!

At least, when she was alive, she once truly had love and a man who loved her, and that would have been enough for Bai Zhu.

Just let yourself attract the attention of the enemy .....

Bai Zhu looked deeply at Ji Feng, her beautiful eyes carried a strong sense of reluctance, and a touch of sweetness, as well as some memories ..... It was not known what Bai Zhu thought of, in such a dangerous situation, the corners of her mouth actually spread a smile.

"Goodbye Ji Shao ....., I hope you will remember me in the future!"

Bai Zhu secretly said, then with a bite of silver teeth, her hands braced against the seat backrest, about to leap up .....

"Boom~!"

However, in the next moment, just as Bai Zhu made a move, she suddenly only felt a huge force instantly coming from her back, instantly pressing her body back into the seat.

At the same time, Ji Feng's angry roar rang out in her ears, "Lie down honestly! Who told you to get up, afraid that others won't be able to aim at you, right?!"

Bai Zhu's delicate body trembled, and she turned her head sharply to see Ji Feng glaring at her and drinking, "Don't think about those useless things! I'll settle the score with you later!"

"Ta-da~~!"

Just then, the sound of gunshots at the back suddenly stopped, just a moment's effort was caught by Ji Feng, he sat up sharply and straightened his body while his gaze glanced over the rear view mirror ..... He clearly saw that the person in the passenger seat of the SUV at the back had put the gun back.

Good opportunity!

Ji Feng secretly said, the other party is either ready to change tactics, or is changing magazines.

Swish!

Ji Feng fiercely aimed his gun at the SUV behind him.

“Burst burst .....

Suddenly, the sound of gunfire rang out once more.

Ji Feng let out a muffled cry and his body pressed down once again, his face full of resentment!

It was only a little short!

It was only a few seconds away, even if he was given even a second or two more, he could definitely have just blown out the other party’s tyres, but just as he was about to fire, the SUV at the end suddenly came around, side by side with the other SUV, and had fired .....

“Grass!”

Ji Feng couldn’t help but burst out a foul mouth.

The two SUVs behind him were actually firing alternately, this was simply to keep him pinned down, not giving him a chance to fight back at all!

The other side was clearly trying to keep him pinned down like this!

Obviously, the other side had thought about the situation and that if they continued to drive at this speed, they would definitely be blocked in the end.

The other side had no fear!

They weren’t afraid that a fierce battle here would cause panic or attract the attention of the police. Or rather, the other side was confident that they would be able to finish him off before the police arrived!

Of course, even if the police did arrive, with the firepower these men were carrying, they wouldn’t be able to get anywhere near them!

They were so wild!

The other side is so emboldened, either because they are so rampant that they don’t put anyone in their eyes at all, or, they simply don’t worry about ending up being caught by the police and simply don’t care about their own death or survival.

..... dead soldiers!

The other side should all be dead soldiers, there is no other explanation other than that!

“Since you’re all dead soldiers, there’s no point in living!” Ji Feng said in a deep voice in his heart.

“Tick tock .....

Suddenly, an alarm sounded, Ji Feng looked up and swept his head, but found that it was an indicator light on the dashboard flashing, “Low fuel?!”

The flashing indicator was none other than the fuel indicator, which made Ji Feng frown a little, he had just given the car a basic check when he came out of the hotel and it showed half a tank of fuel left at that time, how could it be running low on fuel now?

Could it be that the fuel tank had been punctured?

Or ..... was it that the other party had been eyeing his car for a long time and had already tampered with the fuel tank before he even got in the car?

The countless headaches and the urgency of the situation made it impossible for Ji Feng to analyze it carefully.

“Burst burst .....”

An SUV behind them alternated up again and began to take over the position of the other vehicle and continued to fire.

It was simply too deceitful!

Despite the anger in his heart, while facing a very critical situation, Ji Feng was not the least bit flustered, let alone disorganized.

On the contrary, he was more calm than ever at this moment!

This was a habit that had been cultivated through the cruel training he had received in the training space of the intelligent brain for a long time, and only when he was most calm could he make the most reasonable response.

If you mess yourself up, you will only get yourself killed faster!

At this moment, it was as if Ji Feng had gone back to the time when he was on a brutal mission in the training space, and his entire being was surprisingly calm.

“Phew~!”

Ji Feng sat up straight with a jerk, took a quick glance at the road in front of him, then Ji Feng pressed down his body again.

“Ta-da-da .....”

As expected, the moment he bent down, the sound of gunshots rang out again from behind.

The cold light in Ji Feng’s eyes flashed, but the corners of his mouth were flushed with a cold smile, at the same time, one of his right hands gripped the pistol tightly, and then, he continued to wait.

“Ta-da-da .....”

Ji Feng fully activated the bio-current, acting on all parts of his body, allowing his body to reach its most peak state.

He was going to use the limited bullets in his pistol to solve this crisis!

After two consecutive tries, Ji Feng had keenly grasped the weakness of the other party, and he was waiting for his chance to come.

“Ka~!”

Suddenly, a slight sound of crashing metal came.

Swish!

The cold light in Ji Feng’s eyes skyrocketed as he secretly shouted, “Now is the time!”

In the next moment, Ji Feng sat up straight, his left hand gripped the steering wheel, his right hand flung backwards violently, while he fired without hesitation, “BANG BANG~!”

“Bang~!”

A popping sound instantly came, the two front wheels of the SUV at the back, instantly deflated, the car swung steeply, and with the sudden tilt of the front end, the rear end was thrown straight over.

Immediately afterwards, a numbing scene appeared – only to see that the SUV, which was originally travelling at a very high speed, suddenly crossed the middle of the road, but the powerful inertia made it impossible to stabilize the car, and immediately, as if it had received a huge shock wave, the SUV instantly rolled on the road.

“Clang!”

Another loud sound came, the last buggy was too late to change direction and instantly crashed into the buggy that was rolling in front of it.

Immediately afterwards, Ji Feng fired two more shots, “Boom boom~!”

“Boom!”

A sky-rocketing fire was steeply emitted from one of the SUVs, sweeping both of them in the blink of an eye, followed by a shocking explosion ..... One of the SUVs, surprisingly, blew up due to the violent tumbling, plus the two shots that Ji Feng added to it!

And the other buggy wasn’t much luckier, because the two cars were close together, so the second buggy was also instantly covered in flames!

Ji Feng looked at this scene, but his eyes didn’t change in the slightest, the two sides were in a life and death encounter, there was no room for mercy or intolerance, let alone mercy!

If Ji Feng showed mercy to them, he would definitely be the one who died!

“Zee...!” Ji Feng slammed down the brakes with one foot, then opened the car door and got out of the car, looking at the sky-rushing fire behind him, and the shadow struggling in the firelight, his eyes were icy cold.

“Hmm?!”

Ji Feng suddenly frowned and slightly narrowed his eyes.

Bai Zhu had also come down and she keenly noticed the change in Ji Feng’s expression and couldn’t help but ask, “Young Ji, there’s still a situation?”

Ji Feng pointed at the two SUVs that were burning and said in a deep voice, “Look at the people in the cars .....

Bai Zhu immediately looked over and saw that someone could clearly be seen struggling in the car, but was soon engulfed by the blazing fire and could no longer see anything.

The reason for this is that the people in the car were burned alive, so he couldn’t bear it?

“The people in the car were struggling just now, so it’s obviously certain that they were alive just now!” Ji Feng said in a deep voice, “But why didn’t they have the slightest scream?!”

“Hmm?!”

Bai Zhu was stunned, and then snapped towards the two SUVs, a look of astonishment and doubt in his eyes.

Campus Master Chapter 2115

“Hmm?!”

Bai Zhu was stunned, then she snapped towards the two SUVs, a look of astonishment and uncertainty in her eyes, “No screams?!”

When she thought about it, from the time the car exploded to the time the people in it were engulfed in flames, she had indeed not heard any screams, the distance between the two sides was not too far, if the people in the other car had any shouts, they should have been able to hear them.

Bai Zhu hesitantly said, “Could it be that when the people in the car opened their mouths, all they inhaled were flames, which directly burned their throats, making them unable to shout at all?!”

Ji Feng shook his head and didn’t say anything.

In fact, at first he also had this suspicion, but, from the time the other party’s car started to catch fire until now, he hadn’t heard a single scream, which was very wrong, because the people who were on fire at the beginning, the people in the car could still breathe, especially the SUV at the back that was only on fire but didn’t explode, the people inside definitely had the possibility of escaping if they were really strong.

However, no one escaped from the beginning to the end, not to mention the half-hearted screams .....

The fact that she also realized that something was wrong, and then remembered that this group of people did not hesitate to die with them, even made her feel a bit creepy.

Was that a human being sitting in that car?

Even the most hard-boned man could not guarantee that he would not say a word when he was burnt by the fire. This has nothing to do with hardness. When a person is burnt by fire, he is bound to scream, this is a human instinct.

Unless one's voice has long since broken down and is simply unable to make a sound.

Or .....

The actual fact is that the actual people sitting in this car are not alive at all, so that when the fire is burning, the other party can all not make a sound until they are all engulfed by the fire.

Bai Zhu subconsciously turned her head to look around, and in broad daylight, she even had a creepy feeling.

If those two SUVs weren't even alive with people sitting in them, then how had they fired their guns?

"What the hell is going on here?" Bai Zhu asked in disbelief.

"I don't know!"

Ji Feng shook his head with a stony expression. He had no idea what was going on here, because this matter was also beyond his comprehension, because in his impression, even those reformers from Dynasty would let out a miserable scream when they were hit to the point of pain.

However, the people in these two SUVs had insisted on not saying a word until they were burned alive!

"Go over and take a look!" Ji Feng decided to find out what was going on, or at least he had to know what exactly he was being attacked by, what the other party was from and why they were attacking him.

"Young Ji, I'll go!" Bai Zhu said immediately.

"You stay here!" Ji Feng, however, stopped her, if there was really any sudden accident, he should be able to handle it better than Bai Zhu, even though the people in those two SUVs had basically burned to death right now, Ji Feng didn't dare to guarantee that there wouldn't be any accidents.

"Bai Zhu, you sit in the driver's seat and drive immediately if there are any accidents!" Ji Feng admonished again.

"..... yes!" Bai Zhu could only nod and agree.

Ji Feng looked at the blazing fire and was about to walk over when he suddenly heard a sharp siren coming: "Woo woo~ woo woo~!"

Ji Feng's eyebrows immediately furrowed and when he looked up, he saw that in the direction they had come from, a police car was driving fast with its lights flashing.

His mind turned sharply, then he turned around and headed back, quickly getting into the car, "Bai Zhu, drive, lose the police car behind you!"

Bai Zhu immediately nodded and was about to drive, but when she saw the flashing dashboard indicator, she said helplessly, "Young Ji, we can't shake it off, we're out of fuel!"

Ji Feng was stunned, then shook his head and gave a bitter laugh, he had forgotten about this.

“Get off!”

Ji Feng made a decisive decision, while adding, “Stay away from the car and go to the side of the road!”

Because Ji Feng suddenly thought of a possibility, if the car ran out of fuel not because the fuel tank was pierced by a bullet, but someone had tampered with the car before he left the hotel, then maybe the other party might really be able to place a bomb.

Although this was not very likely, it was better to be careful.

When Bai Zhu reached the roadside, Ji Feng squatted down and bent down to look under the car, and immediately saw that there were stars of oil on the road under the car, and it was obvious that the fuel tank was leaking.

Ji Feng did not check too much, no matter whether the fuel tank was pierced by a bullet or someone had done something to it, the car could not be driven now.

After looking at the police car that was rapidly approaching, Ji Feng took out his mobile phone, called up Zheng Yuanshan’s number and dialed it.

“Little Feng, you guys are almost there, right?” Answering the phone, Zheng Yuanshan asked with a smile.

“The netherworld is almost there, it will be a while before I get to your place!” Ji Feng said.

“..... what?!” Zheng Yuanshan did not respond for a moment.

“I was on my way to your place and was attacked!” Ji Feng quickly told what had happened, “The other party’s firepower was fierce, if not for the car in the way, you would have had to go to the morgue to see me.”

“What?!”

Zheng Yuanshan exclaimed in shock, and then he asked in a deep voice, “Little Feng, where are you now? How is the person, is he or she injured?!”

Ji Feng said, “I don’t know exactly where this is, anyway, you can definitely find me by looking along the outer ring road, all along this road are places of car accidents, some further ahead is where I am.”

Zheng Yuanshan immediately said, “Good then, you immediately find a place to hide, I’ll personally bring someone over here, remember, I’m not in contact with you, you absolutely don’t expose yourself, remember?”

Ji Feng had actually been attacked, and the other party had such fierce firepower!

Zheng Yuanshan, while being shocked and angry, also decisively gave Ji Feng the safest and most secure advice, “We don’t know who actually did it yet, no matter who is coming, you must not expose yourself, always remember, I will arrive as fast as I can!”

“I’m afraid it’s too late.” Ji Feng shook his head and said, “There are already police officers rushing over, and they have already found me .....

“Don’t make contact with anyone, and don’t go with anyone!” Zheng Yuanshan immediately exclaimed, “Don’t trust anyone right now, I’ll rush over immediately!”

“I’ll try my best!”

Seeing the police car that was already getting closer and closer, Ji Feng shook his head, the police would definitely take him as the perpetrator, how could they possibly let him go?

What’s more, if the police found the weapon, I’m afraid they would immediately draw their guns on him and escort him back into the police station.

“Not as much as possible, Ji Feng, I .....

However, before Zheng Yuanshan could finish, Ji Feng’s face changed, he suddenly hung up the phone, then suddenly grabbed Bai Zhu’s hand and shouted lowly, “Bai Zhu, run!”

The next moment, Ji Feng directly swept Bai Zhu into his arms, his legs suddenly shot up, his whole body leaped up high and instantly crossed the roadside guardrail, jumped directly into the roadside gully, then crossed the gully again with the fastest speed and began to run with all his might in the wasteland.

Just as Ji Feng was talking to Zheng Yuanshan, he saw a policeman sitting in the passenger seat in the fast-approaching police car, who had already taken out his gun and was pointing it at him.

The most important thing was that the ..... rifle that the policeman was holding was a rifle!

Damn it!

Ji Feng cursed angrily in his heart, when did even ordinary police officers become equipped with rifles as sidearms?

Obviously, the two policemen in the police car had a problem!

So Ji Feng didn’t hesitate at all, took Bai Zhu with him and turned around and ran!

There was still a certain distance between him and the police car, and even though he had a gun in his hand, that distance was not within the effective range of a pistol, but for a rifle, it was close enough!

If he shot at the two policemen, he would definitely be the one to lose.

As long as that policeman’s marksmanship wasn’t too bad, holding the rifle would have been enough to give Ji Feng a very thoughtful treat, would Ji Feng have stayed behind and waited to die?

At this time, Ji Feng really thanked the super agent training system brought by the intelligent brain. It was the brutal training he had received in this training space that had taught him to stay alert at all times, even after a big battle, when one’s spirit was most likely to slacken after being tense, and to stay somewhat alert.

It was precisely for this reason that Ji Feng had been activating the bio-current in his body, which allowed him to see better than usual, and that was why he could see the situation in the police car across the street from a long distance away.

If he had waited until the police car was very close before he reacted, it would have been very difficult to escape by then.

Ji Feng took Bai Zhu with him and ran wildly with all his might, his eyes filled with rage, only hating himself for being too weak and his body not being able to resist the bullets yet.

If he could practice to be like the two dueling supreme masters that the wise brain had shown him in the illusory three-dimensional light screen in the wise brain space, Ji Feng was confident that at that time, he would never be so afraid of bullets!

However, now he had to escape, because there was no place to hide around here, and his strong body could not be brought into play in front of the hot weapons.

Therefore, he must use the fastest speed to rush to the terrain environment that is favorable to him, then, not to mention the other two people with weapons, even if there are several more people, he is still sure that he can finish them all!

“Ji Shao .....”

“Don’t talk!” Ji Feng shouted lowly, interrupting Bai Zhu, while looking back, but it was this turning back that made his eyes narrow instantly, his heart snapping.

This was because he saw that the two policemen had actually gotten out of the police car as well and were running after him, one in front and one behind.

Most importantly, the policeman running in front of him, his speed, was actually no slower than his own!

High hand!!!

Campus Master Chapter 2116

“Don’t talk!” Ji Feng shouted lowly, interrupting Bai Zhu, while glancing back, but it was this glance back that made his eyes narrow instantly, his heart snapping.

This was because he saw that the two policemen had actually gotten out of the police car as well and were running after him, one in front and one behind.

Most importantly, the policeman running in front of him, his speed, was actually no slower than his own!

High hand!!!

There was no doubt that the other party was definitely a master!

Regarding his own skills, Ji Feng was still extremely confident, even if he had met more than one expert, but, so far, if we are only talking about speed, he had not seen anyone who could be faster than him ..... even if they could match him in speed.

Even the king, who was beyond his expectations, definitely did not have this kind of speed.

The policeman running at the front of the pack was really beyond Ji Feng's expectations, although he was still a short distance away from Ji Feng, but, with just a glance back, Ji Feng had already noticed that this person was surprisingly fast, definitely not below him!

This made Ji Feng very surprised!

Originally, he just thought that even if there was something wrong with these two policemen, at most they would be like the killers in those SUVs, that is, they were just a bit more skilled, at most they were well trained, and then they would strike at him with the weapons in their hands.

As for their own physical skills ..... Ji Feng did not think they were that good.

However, this policeman's hands were beyond Ji Feng's expectations.

As the saying goes, when a connoisseur strikes, he knows if there is one.

Although this policeman only showed his amazing speed, and Ji Feng did not fight him, but he was aware that this policeman's hands were definitely not weak.

Because this kind of speed alone could already make this policeman invincible!

For someone with such speed, as long as he used half of his speed in actual combat, his opponent would definitely only be passive and unable to fight back at all.

You can't even keep up with someone's speed, and even if you want to fight back, you can't keep up with them, let alone fight back.

Right now this policeman had this kind of speed that made it impossible to counterattack at all.

Ji Feng was amazed in his heart, it was really the first time he had seen someone who could have a speed comparable to his.

Now, Ji Feng would no longer treat this policeman as an ordinary policeman, if ordinary policemen had this kind of speed, then unless Ji Feng was dreaming!

"The person in front, stop immediately!" The policeman yelled as he ran, "Stop immediately, or else you'll be shot!"

"Humph!"

Ji Feng secretly snorted coldly, his feet didn't stop at all, but in his heart he was sneering, the other party simply treated him like a three-year-old child. If he stopped, only then would he definitely be shot down immediately.

This kind of deceitful nonsense is only to scare those who are timid, for Ji Feng, this is not good at all.

What's more, Ji Feng didn't believe that the other party could aim and shoot while running so fast. If the other party could really do that, then he definitely wouldn't run half a step further and would simply stay where he was and wait to be killed by the other party.

Anyone who has experienced this knows that it is very difficult for a person to do anything but run at speed, let alone aim and shoot, which is even more impossible.

If the opponent could really aim and shoot in such a situation, either he was out of his mind or he hadn't even reached his speed limit and still had time to shoot!

If it was the latter possibility, it would mean that the other party's speed had reached an appalling level. In that case, Ji Feng would definitely not run again, because there was no point in fighting someone who was much faster than himself in this vast wilderness.

Instead, it was more prudent to stop and build up strength and wait for the fatal blow.

He knew very well that the most crucial thing now was to run to an environment that was favourable to him, and only then would he be able to compete with his opponent.

Because the other party had a gun!

In this wilderness, he had nowhere to hide, let alone anything to take cover, and if the other party fired, he would simply be a live target.

"Son of a bitch ....."

Ji Feng couldn't help but curse angrily in his heart.

He had never been in such a mess since he had met the wise brain, but today he had, and it made his teeth itch with annoyance.

However, Ji Feng did not get hot-headed and fight with the other party, if he was alone at this moment, he would definitely stop and have a good fight with the other party, but now that he had Bai Zhu following him, he did not dare to do anything reckless.

"Boom~!"

Suddenly, a gunshot came, followed by a loud shout, "Those in front, stop immediately, or you will be shot on the spot immediately!"

Ji Feng didn't even turn his head back and sneered secretly.

If the other party had the ability, I'm afraid they would have killed him and Bai Zhu directly. Now, the other party was shooting and shouting again, just to disturb their minds and make them confused.

Obviously, the other party was unable to aim at them in the rush, and did not want to see them escape, so he shot them at random and intimidated them with his words.

How could such small tricks be concealed from Ji Feng?

So he didn't even bother to pay attention to it, he just ran fast while thinking of countermeasures in his heart, his mind turning rapidly.

If he just ran like this, there would be no problem at all. With Ji Feng's physical strength, even with the white pearl, running at full speed would not be too much of a burden for him.

However, in his heart, Ji Feng was vaguely anxious that it wouldn't do to just run on like this.

Although there was still a long stretch of wasteland ahead, after this wasteland, he would reach the city, where there were definitely dense crowds and a large number of people living there. If he ran there, he could not guarantee how many people would be hurt.

God only knew what kind of policeman was behind him, and if he was cold-blooded enough, he wouldn't have put the lives of ordinary people in his eyes.

What's more, there was another policeman behind him, although he was running rather slowly, he was obviously not a good policeman either, perhaps he was also a professional killer in disguise, if this person went on a killing spree because he couldn't catch him, those ordinary people would have no ability to resist at all, apart from being affected.

Ji Feng couldn't help but sigh lightly in his heart. According to reason, running into the residential area or running into the street would be the most advantageous for him, because there were many people there and the other party could not aim even if there were weapons in his hands, while he was able to wait for an opportunity to counterattack.

As long as the weapons in the opponent's hands were not as effective as they should be, Ji Feng was sure that he could gain the upper hand – in terms of kung fu, he did not fear anyone!

However, if he really did so, the result would definitely spill over to the innocent, and might even get those ordinary people killed as a result.

Ji Feng couldn't help but hesitate .....

He could not help but glance back, only to see the two policemen behind, still chasing one after the other, the speed of the policeman in front was still not below his, which showed that the other party also had some endurance, while the policeman behind, his speed was gradually slowing down, obviously this person could not keep up with him and the policeman in front.

However, the policeman at the end was holding a rifle in his arms!

This gave Ji Feng a headache.

Although the rifle did not have as high a rate of fire as a submachine gun, it had a long range and was very powerful, especially since many rifles nowadays were deliberately more powerful or even used specially made bullets, which made Ji Feng not dare to resist hard with his body at all and could only dodge.

However, Ji Feng was not willing to keep running like this.

He decided to take a chance!

As his mind raced, Ji Feng suddenly stopped in his tracks, then quickly put Bai Zhu down: "Bai Zhu, keep running forward, no matter what you hear or see, don't stop ....."

"Young Ji ....." Bai Zhu shrieked.

"Hurry up!"

Ji Feng glared and shouted lowly, "Don't be a mother-in-law, you'll only distract me by staying here, run quickly!"

Now was not the time to explain at all, and Ji Feng didn't have time to say anything more to her.

Perhaps Bai Zhu could help by staying here, but Ji Feng was not sure how strong the policeman who was catching up behind him was.

If the other party was very strong, then Bai Zhu would not be able to intervene at all, and staying here would only be called a burden.

If the police officer is not too strong, then Ji Feng can handle it alone, and there is no need for Bai Zhu to stay.

The first thing you need to do is to get the best out of the situation.

At the same time, Ji Feng raised his pistol and aimed it at the police officers who were coming after him.

Swish!

The other side suddenly stopped in their tracks.

The policeman at the end also hurriedly buffered a few steps and stopped, holding the rifle in his hand and pointing at Ji Feng in the distance.

"Listen to the people in front, put down your weapons immediately ....." the policeman standing at the end holding the rifle shouted.

"Cut the crap!"

Ji Feng sneered and shouted, "If you have the guts, then go ahead and do it!"

It had come to this point, yet the other party was still pretending, which made Ji Feng disdainful.

"Drop your weapons immediately!" The policeman at the back shouted and scolded, "If you continue to resist, I can totally shoot you down!"

"If you think that you can aim even from such a distance, then you do it!" Ji Feng sneered, "Don't tell me you're holding a sniper rifle!"

"....."

The other party couldn't help but be silent.

Obviously, they were right by Ji Feng, the policeman holding the rifle was a little too far away from Ji Feng, even though it was still within the range of the rifle, but at such a distance, the shooting accuracy would be too poor .....

Campus Master Chapter 2117

Whether it was Ji Feng or the two policemen, it was clear that neither of them were mediocre.

At least in terms of speed alone, the policeman in front was definitely a top expert, as his speed was not at all below that of Ji Feng.

Of course, the policeman at the back was a bit inferior, his speed was completely unable to keep up with Ji Feng and the policeman at the front, however, he was holding a rifle in his hand, with a long range and great power, so he could be said to have the upper hand in long range shooting.

However, the two policemen did not dare to rush forward because Ji Feng also had a gun in his hand.

Even though Ji Feng was holding a pistol, neither the range nor the power could be compared to the rifle in the other's hand, the other side did not dare to ignore Ji Feng's skills ..... In the chase just now, Ji Feng had used his terrifying speed to let the two policemen know that the young man they were chasing was not some soft persimmon.

So as soon as Ji Feng stopped, the two policemen behind him didn't dare to pursue him too much.

I think those two knew clearly in their hearts that since Ji Feng could possess such a fast speed, at least his skills would definitely not be bad.

What's more, the cars that had either crashed directly into the guardrail or rolled on the road or even burned with a big fire on the way over were already enough to show how badly Ji Feng was to be messed with!

When dealing with such an expert, one had to be careful enough.

Naturally, these two policemen did not dare to rush forward!

Ji Feng was equally cautious.

He was currently standing in this position, which was also most advantageous to him. Although he was still within the range of his rifle, because the distance was far enough, the other party would definitely have a lot of difficulty in aiming at him, and if they came any closer, the pistol in his hand would be able to exert its power.

And if the distance was even further away, he would not be able to observe some of the other party's subtle movements very clearly.

Therefore, the distance between Ji Feng and the two policemen at this time was the most appropriate.

Ji Feng was concerned about the rifle in the other party's hand, and the other party was also concerned, so for a while, the two sides just stood in a stalemate, no one made a move first, nor did they make any other moves.

The two sides were at a standstill for a while, neither of them making a move first, nor did they make any other move. Taking this opportunity, Ji Feng carefully observed the two policemen.

The first thing he could be sure of was that there was definitely something wrong with the identity of these two policemen. Although Ji Feng didn't know exactly where these two people had gotten their police cars and uniforms from, how could someone who could have such a fast speed be just a patrolman?

So he could almost confirm that these two apparently decent policemen were definitely impostors.

Although at this moment Ji Feng did not know which force the other party belonged to, it was too easy for a force that could easily move so many cars and whose men were so fearless to die to arrange for two people to impersonate police officers.

So Ji Feng didn't dwell too much on this issue at all, his gaze fell mainly on the first policeman.

Looking from Ji Feng's position, he could clearly see what this policeman looked like.

This was a middle-aged policeman probably in his forties or fifties, with an ordinary face, neither tall nor short, fat nor thin, not too special, and would not even attract anyone's attention if thrown onto the street, I'm afraid. If he had not seen this person's speed before, Ji Feng would have almost really taken this person as an ordinary policeman.

But now he wouldn't think so. Besides, at this moment, this policeman was standing diagonally with his feet slightly spread out, this posture was a practitioner at first glance, and he should have good skills.

As for the policeman behind him, he looked a little younger, probably around thirty years old, and at this moment this man was holding his rifle, pointing it at Ji Feng in the distance.

The three of them were facing each other in an irregular zigzag shape, all of them had concerns about each other and no one moved first.

But the look on Ji Feng's face was quite certain, just by confronting each other, these two men were definitely not his opponents, because he could afford to wait, but I'm afraid these two men couldn't afford to delay!

"Drop your weapons immediately! If not, we will shoot them down immediately!"

And sure enough!

As time passed, those two policemen couldn't help but get a little impatient, especially the young policeman at the back, even though he still looked calm, while loudly scolding, but the lack of breath in his voice was revealed.

Ji Feng sneered and said disdainfully, "Then you can just shoot!"

"....."

There was another moment of silence from the other side.

If he was sure of killing Ji Feng, he would definitely shoot without hesitation, but the key problem was that there was not enough distance now, and even if he aimed now, the bullet would still be deflected to a certain extent, and as a result, instead of possibly not hitting Ji Feng, he might also let him escape.

"Not going to shoot?"

Ji Feng raised his hand, shook the watch on his wrist, and said loudly: "If I were you guys, either I'd turn around and leave now, or, just come up and compete with each other, if we keep delaying like this, my people will be coming, and then you two fake cops can ..... hum! "

As soon as he heard this, that young policeman hurriedly looked at the middle-aged policeman, opened his mouth to say something, but seeing that the middle-aged policeman was not moved at all, as if he had not heard Ji Feng's words at all, the young policeman wanted to say something but stopped.

"Don't believe it?!"

Ji Feng brushed aside his mouth, "Then let's just keep on consuming, let's see who can outlast who!"

"Boom~!"

The young policeman suddenly fired a shot.

Swish!

Ji Feng's body moved a full four or five meters sideways at the same time as the shot rang out.

Ji Feng sneered, his gaze was always on the duo, any slightest movement they had Ji Feng could see clearly, the young policeman thought he could surprise him by suddenly shooting him, but he didn't know that the moment this person's body moved, Ji Feng already knew he was going to shoot.

"Go on!"

Ji Feng said loudly, "If you can hit me before your bullets run out, you'll be counted as the winner!"

The young policeman immediately gritted his teeth, "BOOM~BOOMBOOM~!"

After three consecutive shots, Ji Feng didn't even move, as if these shots weren't fired at him at all, completely ignoring the young policeman's existence!

This made the young policeman a bit annoyed, he took two steps forward and was about to shoot again, but was suddenly interrupted by a cold cry from the middle-aged policeman in front of him.

"Stupid bastard! Don't stop yet!"

The middle-aged policeman yelled, "Can't you see he's screwing you? Pig brain!"

The young policeman hurriedly put his gun down and said in a panic, "I'm sorry, Master!"

But the middle-aged policeman ignored him again, but turned his head to look at Ji Feng, he slowly took two steps forward and closed the distance between him and Ji Feng again, and then said in a deep voice: "You are strong and you are shrewd, but brains and strength alone are not enough, neither is the lack of guts!"

"Guts is something I've never lacked, I just don't know how much you have!" Ji Feng said disdainfully.

"Very good!"

The middle-aged policeman nodded and said, "In that case, let's give it a try?"

Ji Feng asked, "How do I try?"

"The method is very simple!" The middle-aged policeman said, "Right here, let's have a duel, the one who wins, can leave gracefully, while the one who loses, will have to sleep here for a long time, dare to play a hand?!"

“Why should I promise you?!” Ji Feng sneered, “As long as I delay for another moment, my men will arrive, by then, no matter how capable you are, it won’t be that easy to escape, right?”

“Of course!”

The middle-aged policeman nodded, “I totally agree with your idea, however, if I were you, I wouldn’t run away ..... Think about it, if I turn around and leave now, how sure are you that you can keep me? Since I can’t find you for a duel this time, then I’m sorry, I only have to target your family, and I’m afraid that they won’t have such good luck as you?”

Ji Feng’s eyes narrowed for a moment, but his face was unmoving and half-hearted, he just said in a deep voice: “So, you must play?”

“You can also choose to refuse!” The middle-aged policeman said, “Because you have the strength and the qualification to refuse, only I hope that your family likewise has that strength, otherwise, the words will be in my hands .....”

“Since you want to play .....” Not waiting for him to finish his words, Ji Feng directly interrupted him, his expression gradually becoming icy cold: “Then I will play with you, and I hope you can really afford to play!”

“That’s nothing for you to worry about!” The middle-aged policeman said.

With that, he saw him slowly pull off his uniform jacket, then take it off and throw it to the ground, followed by the pistol on his waist.

Then he raised his hands and slowly spun around, indicating that he did not have any weapons on him.

Seeing these actions of his, Ji Feng’s eyes narrowed.

The fact that this middle-aged policeman was doing these actions was enough to show how confident he was in his own hands, he even dared to turn his back on Ji Feng and was not afraid at all of Ji Feng shooting to sneak in ..... despite thinking that with the distance between the two of them, it would be difficult for Ji Feng to do any damage even if he suddenly fired with the range of his pistol.

But in the case of others, they definitely do not have the guts to do so, because bullets don’t grow eyes, and no one is sure that once Ji Feng fires, is it really impossible to cause him a tiny bit of damage.

This guts alone was enough to cause enough attention and vigilance from Ji Feng, not to mention that Ji Feng had not forgotten that this person also possessed extremely fast speed!

“It’s your turn!”

The middle-aged policeman shouted, “Of course, if you’re afraid, you can also not play!”

Humph!

Ji Feng sneered darkly and directly pulled off his jacket and threw it on the ground, while throwing his pistol onto his clothes, he also raised his hands and started to turn around.

The moment Ji Feng completely turned around, he was the one who suddenly fired his legs and rolled his whole body forward on the ground, at the same time, a gunshot came from behind him, “Boom~!”

## Campus Master Chapter 2118

The moment Ji Feng completely turned around, he suddenly launched his legs and rolled forward to the ground, at the same time, a gunshot came from behind him: “Boom~!”

However, Ji Feng was not the least bit surprised, as he had already anticipated that the other party would play this game the moment he turned around, but Ji Feng was definitely not a person who was willing to sit around and wait for death, so when he rolled over the ground, the pistol on the ground had already reached his hand.

However, Ji Feng’s next move was completely unexpected by the other party.

Because after the other party fired, Ji Feng not only did not flee, but also suddenly fired his legs, the whole person was like a roaring \*\*\*\* cannonball out of the chamber, the whole person suddenly went backwards \*\*\*\*!

The direction he was moving was exactly where the two policemen were!

In just a blink of an eye, Ji Feng had already \*\*\*\* arrived, just a few dozen meters away from the middle-aged policeman.

In his imagination, Ji Feng was facing the two of them alone, and his weapon was not at all in his advantage, so he could even be said to be at a complete disadvantage.

However, instead of fleeing, Ji Feng even rushed towards them, which made him not know how to respond for a while.

So that young policeman, in shock, could only rush to shoot at Ji Feng’s figure on instinct: “Boom~ Boom Boom Boom Boom!”

But how fast Ji Feng was, people who hadn’t seen it before simply couldn’t appreciate it, and that young policeman didn’t even think that Ji Feng’s speed at the moment was even a few points faster than the speed he had when he was running away just now!

Therefore, in a panic, coupled with the fact that he could not predict the exact position that Ji Feng was going to move to, the young policeman could only shoot subconsciously based on his own observation.

But shooting at Ji Feng under such circumstances, how could it have the desired effect?

In just a few breaths of time, Ji Feng instantly forced his way into the middle-aged policeman at great speed, and in this way, the young policeman behind him dared not shoot even more, because Ji Feng’s figure flitted from left to right and could not be predicted at all, and every time he moved, he swept past the middle-aged policeman, making it even more impossible for the young policeman behind him to shoot as his line of sight was obstructed.

It was also at this moment that these two impostor policemen were able to see just how terrifying Ji Feng’s extreme speed really was!

When Ji Feng was fleeing with Bai Zhu, his extreme speed had already surprised them, but after reducing one person, Ji Feng’s speed had increased, and not by a small margin.

However, these two policemen did not know that it was actually thanks to the two of them that Ji Feng was able to have such a fast speed!

If it wasn't for the strong strength displayed by the two of them, especially the middle-aged policeman in front of them, which made Ji Feng take it extremely seriously, Ji Feng definitely wouldn't have unrestrictedly pushed the bio-current in his body to the fullest, without the slightest reservation.

In the past, at any time, Ji Feng would not push the bio-current without limit, because he had not cultivated long enough, only a few years, the bio-current in his body was not too strong, and he would habitually keep a hand to prevent himself from running out of strength.

This was because if he encountered vicious battles in succession, he would overexert himself for a while and overexert himself, which would lead to a lack of strength, and then if he encountered a fearsome enemy again, he was afraid that he would face big trouble.

However, this time the middle-aged policeman was putting too much pressure on Ji Feng, especially when there was a guy with a rifle behind him, which was like a poisonous snake that might suddenly come out and give him a bite at any moment.

More importantly, the middle-aged policeman's words had completely angered Ji Feng.

Obviously, if this middle-aged policeman was allowed to escape, then, with this person's skills, if he wanted to attack Xiao Yuxuan and Tong Lei and the others, it would be absolutely impossible to defend against them, and even Han Zhen and Xiao Ying combined might not be this person's opponent.

And this person had no qualms about issuing a threat that if Ji Feng did not dare to play, he would point the finger at Ji Feng's family.

So, Ji Feng finally became angry.

He no longer had any scruples, nor did he consider whether he would encounter any more enemies next, at this moment he only had one thought – he could not let this person leave no matter what!

Under such circumstances, Ji Feng's strength and speed had reached an appalling level. Just by looking at the young policeman's face, which was full of panic and he didn't even know how to react, one could tell how much pressure Ji Feng had brought to bear on him.

And at this moment, the middle-aged policeman was incomparably swift in his response.

"Humph!"

He coldly snorted, while also abruptly rolling on the ground, about to go for the pistol on the ground.

However, at this time, how could Ji Feng give him half a chance?

Ji Feng flung his hand and shot over, "Boom!"

The middle-aged policeman's body suddenly rolled violently and deviated from its original position, and although he also dodged the bullet, he did not get the gun.

Ji Feng instantly closed in quite a bit more, and at the same time, the gun in his hand followed the middle-aged policeman closely, firing two more shots in succession, "Boom! Boom~!"

The latter was forced by Ji Feng and could only grit his teeth and continue to dodge, moving further and further away from the pistol on the ground.

At this time, however, Ji Feng had already arrived in front of this person.

However, this time Ji Feng did not shoot him again, but suddenly raised the muzzle of his gun and aimed it at the other young policeman, directly shooting all the bullets from the gun in his hand: “Boom! Boom boom boom .....

In a flash, blood shot out.

He saw that the young policeman’s two shoulders, as well as his two knees, were all pierced with blood, and his whole body suddenly trembled violently for a few times, directly falling limp on the ground, and his rifle dropped to the side.

All this happened so suddenly that it was only at this moment that the young policeman realised that he had been knocked down.

Immediately afterwards, a heart-breaking pain instantly swept through his whole body.

“Ah...!”

With a wretched and incomparable scream, the young policeman fell limp on his back as his body twitched violently.

If hitting a leg bone on the corner of a table was painful enough, then having a shoulder blade and a knee pierced at the same time was painful enough to make a person want to run head over heels without exaggerating in the slightest.

And right now this young policeman was experiencing that pain!

“Bastard!”

The middle-aged policeman also saw this scene, he roared in anger, his eyes were red as he stared at Ji Feng and gritted his teeth, “Kid, you’re looking for death!”

Ji Feng casually threw the pistol in his hand, then took a step towards the pistol that the middle-aged policeman had placed on the ground before, while sneering, “I don’t know if it’s a death wish, but I do know that up until now, it was your people who died! Look, even your companion is about to faint from the pain .....

“You’re ruthless enough!”

The middle-aged policeman stared deadly at Ji Feng, his eyes filled with resentment, “I did underestimate you, not only are you ruthless, but you are also smart enough, from the very beginning just now you weren’t targeting me, you were just going to force me out of the way and then strike at my companions!”

Ji Feng smiled faintly, “Thank you for the compliment, but I am a bit afraid to take it! If I was smart enough, I wouldn’t have almost been blocked by you guys, let alone almost died because of it .....

being ruthless, I think anyone who has seen that you can just send people to die with me will come to their own judgement, it's clear which of us is more ruthless!"

He shook his head, "I'd like to ask you then, when you see those people in the car, which of us do you think is more ruthless?"

"Hmph!"

The middle-aged policeman, however, snorted coldly and said, "They died, but their deaths were crisp and painless, but look what you did? You broke all his limbs, you're torturing him!"

"Interpret it however you like!"

Ji Feng shook his head, no longer arguing with him, there are some issues that actually do not need to be argued at all, everything he did was only for self-preservation, did he say that someone came to kill him, had a knife on his neck, but he could only choose to escape and could not resist?

What a joke!

For some unreasonable people, Ji Feng would not reason with the other party, in many cases, fists are better than anything!

"You broke his limbs, I'll make sure you get a taste of that too!" The middle-aged policeman stared at Ji Feng with resentment, but his feet had also started to move, in the same direction as where the pistol was located.

"That depends on whether you have the ability to do so!" Ji Feng said in a deep voice.

"Soon you'll know." The middle-aged policeman gritted his teeth and said with a strong sense of hatred.

Ji Feng's gaze also never left the middle-aged policeman, and when he saw that kind of hatred in this person's eyes, he couldn't help but think about it.

It looked like there was an unusual relationship between these two policemen, otherwise, the middle-aged policeman wouldn't have such a deep hatred!

"You care about your companion a lot!" Ji Feng suddenly said.

"..... You don't need to try to distract me!" The middle-aged policeman said in a cold voice, "I will definitely not let you go today!"

"Is that so!"

Ji Feng smiled indifferently, but he keenly noticed that the corners of the middle-aged policeman's eyes but jumped a few times, obviously being hit by his words.

Ji Feng glanced at the young policeman who was still lying on the ground in the distance, wailing mournfully, and said, "Do you think that if I finish him off, our ears would be clearer?!"

"Then it would be better for you to die!" The middle-aged policeman said in a cold voice, and suddenly, he grunted, "All right! You don't need to use such petty tricks anymore!"

He glanced at the pistol on the ground and said, "Now that we're both about the same distance away from the pistol, neither of us needs to grab it, so if we're brave enough, we'll just play!"

Campus Master Chapter 2119

"Then it's better for you to die!" The middle-aged policeman said in a cold voice, and suddenly, he grunted, "All right! You don't have to use this little trick anymore!"

He glanced at the pistol on the ground and said, "Now that we're both about the same distance away from the pistol, neither of us needs to grab it, if we're brave enough, we'll just play!"

Ji Feng, however, sneered, "How do you know I can't snatch you?"

"I admit that your speed is indeed out of my expectation, but now that neither of us has an advantage, do you think I will definitely lose to you in this situation?"

That middle-aged policeman was very confident, "Of course, you can also choose not to play, but I will turn around and leave, as long as you can't stop me, you will have to be careful all the time in the future, better keep your eyes open even when you sleep ....."

"And your family!"

The middle-aged police officer's face wore a scowl as he smiled coldly, "I don't think your family is as strong as you are, are they?"

Ji Feng's expression gradually became cold as he stared at the middle-aged policeman and said in a deep voice, "Are you sure you want to play?"

"Of course ....."

As soon as the middle-aged policeman nodded his head, before he even had the chance to say a second sentence, Ji Feng suddenly moved his hand.

Only to see Ji Feng's figure surge, the whole person is like a fierce tiger out of the gate, directly pouncing on that middle-aged police officer, while a fist ruthlessly blasted out, his eyes even flashed with a thick killing machine, his face was cold.

The middle-aged policeman's words had once again touched Ji Feng's bottom line!

Since the other party had made it so clear, Ji Feng no longer had the slightest bit of softness, no matter who the other party was or how strong this person was, since this person dared to threaten his family, then Ji Feng would definitely finish him off!

Ji Feng would definitely not let anyone harm his family!

And because Ji Feng had been pushing the bio-current with all his might, his speed was really fast to the limit, and he reached the middle-aged policeman in front of him in the blink of an eye from the moment he made his move, and his fist with a harsh wind blasted directly at the latter's brow.

The middle-aged policeman was stunned!

Ji Feng's speed was so fast that his whole body was astonished.

However, the middle-aged policeman's reaction was not slow either, as he let out a low roar and suddenly took two steps back as a cushion, before his right fist also struck out violently.

"Bang!"

A dull and tooth-aching sound suddenly rang out as Ji Feng's fist and the middle-aged policeman's fist collided fiercely without reservation.

Both of them were instantly shaken at the same time, and a huge impact force came out from the contact of their fists, causing both of them to take a few steps backwards in succession.

However, the middle-aged policeman took two more steps back, and his body swayed a little more.

Ji Feng's heart was instantly astonished!

What a strong force!

Such a hard fist!

The strength of this middle-aged man once again exceeded Ji Feng's expectations, and he couldn't help but be secretly surprised in his heart!

Although on the surface, this first exchange of blows, Ji Feng had a slight upper hand, as he had retreated a small distance and his body swayed very little, far better than the middle-aged policeman.

However, in his heart, Ji Feng knew very well that he was actually taking advantage of the active strike. Although the other party was also on guard, he was after all taking the initiative and using the momentum of his body, the force of which would have enabled him to knock down a cow with one punch even if there was one in front of him.

But this middle-aged policeman only retreated a few steps even though he was passively meeting the attack, so it could be seen that his strength was also quite strong.

This made Ji Feng couldn't help but be a little surprised, originally he guessed that this middle-aged policeman must not be weak in strength, but now it seemed that he still underestimated this person a little.

"He really has some skills, no wonder he dares to be so arrogant!" Ji Feng sneered. He had the intention of probing his opponent's background in this attack, and now he had really tested something, this middle-aged policeman was even stronger than he had imagined!

"I may not have any other skills, but I'm still more than capable of cleaning you up!" The middle-aged policeman said without showing any weakness.

"Then, let's proceed!"

As soon as Ji Feng said that, he took the initiative to attack again, this time, Ji Feng didn't hold back, but began to attack with all his might, every punch and kick he made contained a thick bio-current and possessed strong power.

The middle-aged policeman naturally did not show any weakness, he did not retreat but advanced, waving his fist to clash hard with Ji Feng.

Bang Bang Bang .....

The speed of both Ji Feng and the middle-aged policeman was frighteningly fast, and the strength of the two was even greater and greater. Every time they collided, a dull crashing sound would be emitted, which one could not help but feel one's scalp tingling when hearing it, it was simply not like a human body in general.

If it was an ordinary person who collided so fiercely, even if they had their speed and such tremendous strength, their bodies would not be able to bear it.

However, neither Ji Feng nor the middle-aged policeman took this seriously, not only because both of their bodies were far stronger than ordinary people, but more importantly, both of them had only one goal at this moment – to finish each other off!

To do so, they could leave everything behind, not to mention whether they were injured or would be hurt in any way!

For the middle-aged policeman, his trip was supposed to be to take on Ji Feng, and doing away with him was his goal, not to mention that right now, his companion was still wailing miserably in the distance, as well as the people in those vehicles, all of whom had been beaten up by Ji Feng, some of whom had long since lost their lives, and some of whom were also seriously injured!

All these reasons together were enough to motivate the middle-aged policeman to do everything in his power to finish off Ji Feng!

And for Ji Feng, it was equally imperative to finish off this middle-aged policeman.

At the very least, this person had to be beaten to the point where he no longer had any ability to resist.

Because he wouldn't allow anyone to get their hands on his family, no one! This was his bottom line and his scales of defiance.

Of course, if he could capture this person alive that would naturally be better. Apart from wanting to finish the other party, Ji Feng also wanted to know the other party's bottom line.

Having suddenly encountered such a fierce attack, he naturally wanted to know exactly where these attackers came from and what their identities were, only then could he exterminate these forces that wanted him dead at all times from the source.

However, as the two of them became faster and faster, and the battle became more and more intense, Ji Feng's expression was becoming more and more grave.

This was because Ji Feng found that apart from the slight advantage he was able to gain in speed and strength, he was on the verge of overpowering this middle-aged policeman!

The opponent's moves were even more subtle!

Every time this man made a move, it was one move after another, and the only way that Ji Feng could barely suppress the other man was to use his faster speed, but that was all, if he wanted to cause damage to the other man, it was a bit difficult.

In comparison, Ji Feng realised that his own moves were too fragmented.

Ji Feng's moves were very simple, one move was one move, although the moves were severe and ruthless, but they did not have the sense of fluidity that the other side had, as if they were flowing like clouds and water.

This discovery made Ji Feng's heart extremely alert, and at the same time his attention was highly concentrated, he had to look for all the opportunities he could use to suppress the other side, if he let the middle-aged policeman get the upper hand, I'm afraid his situation would become somewhat unpleasant.

Perhaps it was also because of this one-stroke hitting style of Ji Feng, which was fragmented but extremely harsh, and most importantly, Ji Feng's hitting style was just like the thinking of a heavenly horse, a gazelle without a trace!

The opponent had no idea what Ji Feng's next move was going to be and where he was going to attack, so this instead made the opponent only be careful in defence and not dare to counterattack easily.

Ji Feng keenly seized this opportunity as he suddenly shouted out violently, "Zhong!"

This violent shout of his was extremely sudden and loud, instantly causing the middle-aged policeman's movements to stall slightly.

Opportunity!

"Die!"

Ji Feng shouted and took a fierce step forward.

Swish!

However, the middle-aged policeman was prepared for this, and the moment Ji Feng stepped forward, he punched him so hard that Ji Feng's face happened to hit him directly.

"Boom~!"

Ji Feng was directly hit and his whole body fell sideways.

The middle-aged policeman instantly closed in, it was an excellent almost, he naturally wouldn't miss it and wanted to attack continuously.

However, in the next moment, Ji Feng made a move that was so fast that it was almost unimaginable – only to see that the moment he fell to the ground, he fell sideways and propped himself up on the ground with one hand, and with the tremendous strength coming from his hand, he instantly kicked viciously.

"Whew~!"

"Boom!"

This kick hit the middle-aged policeman's chest without any reservation, and the latter let out a muffled cry and stumbled, stomping backwards for four or five steps in a row before stabilizing himself, but he was red in the face and his body couldn't help but shake a few times.

Obviously, Ji Feng's kick had inflicted a considerable amount of damage on him!

Swish!

At this moment, Ji Feng, however, was holding up the ground with one hand and stood firmly on the ground with a twist of his body.

This time, Ji Feng once again had the upper hand!

"..... You really did hide your strength just now!" The middle-aged policeman took two deep breaths before he stood up straight and stared at Ji Feng with a resentful expression, "Cunning little beast!"

He really hated it in his heart, just now he had originally punched Ji Feng in the face, if there was no accident, the next thing he would do would be one continuous attack after another, Ji Feng wouldn't have that ability even if he wanted to fight back, in the end he would definitely be able to do away with Ji Feng!

However, the truth was that he was given a vicious and loud slap in the face!

He punched Ji Feng in the face, but instead of injuring him, Ji Feng used the impact to play an extremely beautiful 'rabbit stomp on the eagle', and the one who was hit – was himself!

He realised that he had really met a formidable enemy today!

Ji Feng's reaction speed and movements were almost beyond the middle-aged policeman's imagination, it was beyond the limits of human beings!

Campus Master Chapter 2120

"Phew~!"

That middle-aged policeman slowly exhaled a breath, and the expression on his face slightly eased up ..... Until now, he had only sort of recovered from that heavy kick from Ji Feng.

This shows how heavy Ji Feng's kick was just now, and how severe the attack was!

You know, this middle-aged policeman's physique is quite strong, he could even engage in a fierce battle with Ji Feng head-on, yet he was only slightly underdog himself.

It was evident that this middle-aged policeman's physical strength was definitely not too much weaker than Ji Feng's!

However, even with such a strong body, after receiving that heavy kick from Ji Feng just now, it took him a while to recover, and the intense pain that felt as if his internal organs had been shattered by the kick, only gradually disappeared.

This kind of strong and extreme attack power was really shocking!

The middle-aged policeman's heart was also filled with shock, for how long had he not met an opponent, let alone someone who could injure him.

But today, he had met a formidable enemy!

Ji Feng's attack power made him feel a deep shock in his heart, as well as a strong scare!

Therefore, this middle-aged policeman's gaze glanced over the pistol on the ground not far away .....

"How does it feel?!" Ji Feng asked with a smirk, "The taste of that kick just now, it wasn't too good, was it?"

"Humph! Cunning little beast!"

The middle-aged policeman snorted coldly and said in a sarcastic voice, "I got caught in your way for a moment of carelessness, but that doesn't mean you can always have the upper hand!"

Ji Feng tapped his toes on the ground, shook his leg and snickered, "Since you're so confident, let's try again?"

Swish!

As soon as Ji Feng's words fell, the middle-aged policeman instantly rushed over and swept his foot harshly.

"Then let's try it!"

It was only until this time that the middle-aged policeman's voice rang out.

This time, the positions of the two sides reversed, and it was the middle-aged policeman's turn to take the initiative, while Ji Feng became the passive defender.

Hoo~!

Ji Feng directly avoided the opponent's harsh leg and threw a fierce punch out.

At the same time, the middle-aged policeman, however, landed on his toes at the same time and slammed his fist over just as fiercely, with a fierce look on his face, as if what was in front of him was not a person at all, but something that he hated so much that he wanted to smash it with one punch!

"Boom!"

Once again, their fists clashed head-on, both of them exerting their full strength, without the slightest reservation.

Once again, it was a hard clash!

In just this instant, both of their bodies shook at the same time, and the tremendous force generated by the impact made them involuntarily stomp back a few steps.

However, this time Ji Feng only took one step back, while the middle-aged policeman took another two or three steps back before he managed to stabilise himself!

The middle-aged policeman's face couldn't help but change a little.

Before this head-on collision, it could be said that neither side had an advantage, yet under such a collision, Ji Feng still had the upper hand and the middle-aged policeman had suffered a loss!

Ji Feng was stronger!

The middle-aged policeman finally realised that this time, he was not only facing a formidable enemy, but a great enemy that was likely to be even stronger than him!

“Try again?”

However, Ji Feng didn't have the time to consider how the middle-aged policeman felt, he just looked at him with a smirk and teased, “It seems that I have the upper hand again this time?”

The middle-aged policeman looked at Ji Feng with a gloomy face, a resentful glint in his eyes, and said in a deep voice: “It's just the beginning, don't be arrogant too early!”

“Then continue!” Ji Feng hooked his finger towards him.

“..... looking for death!”

The middle-aged policeman was instantly enraged by Ji Feng's action, he let out a low roar and lunged up, ruthlessly attacking Ji Feng's vital brow with a fist directly.

What a vicious thing!

Ji Feng coldly snorted in his heart and directly met him, while directly throwing a punch, attacking against the middle-aged policeman.

“Swish!”

However, the middle-aged policeman steeply shifted his direction just as their fists were about to collide together again, then fiercely lifted his leg and rammed it over with his knee, while his other fist was already poised to strike!

Another continuous set of attacks!

A cold light flashed in Ji Feng's eyes, and the attack on his hand steeply accelerated, while the force of the attack was also greater and more severe!

Against the middle-aged policeman's continuous set of attacks, Ji Feng could only use faster speed and more power to break them, because the other party's attacks, which were interlocked, could not be broken at all if the speed was a little slower, this person's moves had both offense and defense, and more importantly, his physique was also quite strong, if he could not hit the vital points, ordinary attacks could not do much damage to him at all!

This is like two people fighting, if one of them is a child, then no matter how tightly he defends and how powerful his continuous set of attacks are, it is hard to beat a grown man, because a casual punch on this child's body will be enough for him to suffer!

The reason for this is that a child's physique is too weak to be compared to that of a grown man, and a punch from an adult is already far beyond a child's tolerance!

However, if the fight is between two adults who are evenly matched, the result is completely different.

For example, if one of them is the best at continuous attacks and has a combination of offensive and defensive moves, then the other one will definitely have a hard time!

If the other side catches the opportunity to attack intensively and continuously, not to say that each blow will hit the vital point, even if only one blow hits the vital point, it will be enough to cause a fatal threat!

One wrong step and it's all wrong at every step!

For example, if we are hit in a certain part of our body, our body will subconsciously protect that part, even for the most powerful people, because it is a human instinct, especially if that part hurts!

But once you go to protect that part that is being hit, you will definitely lose sight of the other part, and then next, all parts of your body may face the opponent's harsh and intensive attack.

This was the point that Ji Feng was most worried about!

So he would have to speed up the speed of his attacks, as well as the power of each move, only then would he be able to barely suppress his opponent, and thus find his opponent's weaknesses, otherwise, he would definitely be the one to suffer.

However, as the exchange of blows between the two continued, Ji Feng could not help but be shocked once again.

Originally, he had planned to suppress the opponent and then take the opportunity to experience his opponent's continuous attacking moves, so that he could remember almost everything if he hit him a few times in a row, and then it would be easier to find the weaknesses.

But what Ji Feng didn't expect was that the two sides had been fighting fiercely for a full minute, but the middle-aged policeman hadn't used many repetitive moves, almost all of them were new moves, which made it impossible for him to anticipate what the other side was going to do next, and he could only barely use his speed and strength to suppress.

"Where did this guy get so many moves?!" Ji Feng could be described as greatly shocked, not just because this person's moves were endless, but more importantly, not only did this person have such a skilful continuous set of attacks, but he was also so strong!

"This is an ancient martial arts routine!" Ji Feng was a little shocked and suspicious in his heart.

He had never seen the kung fu used by the middle-aged policeman, however, something like this continuous set of attacks was something he had once exchanged with Shen Jingyi's father and grandfather, as they practiced ancient martial arts, and at that time, it really made Ji Feng, who had never been exposed to this aspect, gain a lot of insight.

Therefore, after the middle-aged policeman continuously hit these moves, Ji Feng concluded that this person must be using the ancient martial arts routine!

No wonder the other party was so powerful!

Ji Feng's heart dawned on him, in his impression, apart from those dynastic reformers who seemed like monsters, the only people who could fight him so hard in fierce battles could only be practitioners of ancient martial arts.

"I don't know which sect or clan this person actually comes from, but this person must be a first-class innate powerhouse!" This thought quickly skipped through Ji Feng's mind.

He had once fought quite a few Innate martial artists, and even went straight to an ancient martial arts family to kick in the door, and there were quite a few Innate martial artists at that time, but none of them were as powerful as this middle-aged policeman.

So it could be concluded that this middle-aged policeman must be an Innate powerhouse, and definitely not an ordinary Innate powerhouse!

Ji Feng had a general speculation in his heart about this person's origin!

However, at this moment, Ji Feng did not know that because of the fierce exchange between him and this middle-aged policeman, the young policeman whose limbs were all broken had even forgotten to wail at this moment, and was lying on the ground in the distance just staring at them dumbly, looking at him with eyes that seemed to be filled with a look of incredulity.

Ji Feng was actually able to suppress the middle-aged policeman and beat him?

This made the young policeman hardly believe his eyes, how was this possible?!

How strong the middle-aged policeman was, although the young policeman wasn't too clear about it, he had seen with his own eyes that the middle-aged policeman had once smashed a rock to pieces with just one punch!

That was simply not human strength!

At that time, he was so shocked that he was at a loss for words, and his whole body was frozen on the spot!

But now, this man, who had shocked and admired him to the core, was being pinned down by a guy even younger than him and didn't even seem to have much strength to fight back, which was unimaginable!

In fact, whether it was Ji Feng or the middle-aged policeman, both of them were so fast that if he didn't recognise that police uniform on his companion, the young policeman could barely tell the difference because they were moving so fast.

However, that police uniform gave him a reference, and because of that, he could approximately see the exchange of blows between Ji Feng and the middle-aged policeman.

Ji Feng's stance was so open and powerful that he looked like a fierce warrior, so powerful that he could kill an elephant with his fist, causing a chill to run through the young policeman's heart!
