

Campus Master 671

Chapter 671

“Who is it?” Ji Feng was stunned, “There aren’t many people in Yanjing who have a grudge against me ..... Second brother, it’s not Qiao Rong who’s here, is it?”

“It’s not Qiao Rong, but it’s a bit related to her too .....” Ji Shaolei first sold a story before he laughed heatedly, “It’s her little white boy, Wang Wengao!”

“Who?”

Ji Feng was instantly surprised, “Wang Wengao? Isn’t that Qiao Rong’s husband, since when did he become her white boy? Second brother, you’re too good at sarcasm!”

He couldn’t help but shake his head and laugh, second brother still had the same dodgy temper, he said Wang Wengao had no status in the Qiao family, just like a big housekeeper, but no matter his status or not, he was still Qiao Rong’s husband, how could he be described as a white boy!

Ji Shaolei laughed: “I say, San’er, you don’t know this. Wang Wengao’s status in the Qiao family is worse than that of a servant, it’s almost like that of a lackey in ancient times. Whether in the Qiao family or outside, Qiao Rong is a powerful figure, right? If anyone else dares to touch a hair on their head, she will always tangle with them to the end, but with Wang Wengao, she treats him no differently than her own lackey.

“No way?” Ji Feng was a bit incredulous, “Even if the husband is a flunky again, but if even the wife looks down on her husband, who else can look up to him? There’s really no point in living this life!”

Ji Shaolei laughed: “Who says it’s not? If I were Wang Wengao, I would have exploded long ago. In fact, not only Qiao Rong despises Wang Wengao, even the rest of the Qiao family also treats Wang Wengao like a subordinate, he actually puts up with it for more than 20 years and still lives better than anyone ..... It’s unimaginable!”

“OK, OK, second brother, you should stop gossiping.” Ji Feng laughed, “Other people’s family matters are out of our hands and don’t bother with them, I just want to know, what is Wang Wengao doing here in Jiangzhou?”

“I wouldn’t know about that.” Ji Shaolei shrugged his shoulders and said irresponsibly, “Anyway, he shouldn’t be looking for us, let alone looking for trouble, if he wants to find it, it should be Qiao Rong, he Wang Wengao doesn’t have this kind of courage.”

Ji Feng smiled and nodded, saying, “It’s just that it’s none of our business. However, Second Brother, I don’t agree with the words behind you.”

“What words?” Ji Shaolei asked in surprise.

“It’s what you said about Wang Wengao.” Ji Feng said with quite a sigh, “If what you said is true, then Wang Wengao is very scary. Even the most temperless person can’t live in that kind of discriminated environment for more than twenty years and still live better than anyone else, such a person is either someone with great perseverance and wisdom, or, a saint or a fool.”

Ji Shaolei was stunned, he hadn't thought about these issues before, especially about Wang Wengao, when he heard about this man who had joined the Qiao family, he just laughed it off, at most, he just scolded the Qiao family people for not being something, and then he pitied Wang Wengao for a few words, as for the deeper meaning, he didn't think much about it.

The first thing he did was to say that he had been a member of the Qiao family.

If he had been living in that humiliating environment for twenty years, it would be strange if he didn't go crazy, but Wang Wengao was living a good life!

"In that case, this Wang Wengao is really something." Ji Shaolei couldn't help but nod his head in admiration.

"So ah, second brother, you need to pay more attention to this person's movements in Jiangzhou, he might be much scarier than Qiao Rong, once he really makes any moves against us, it can be quite troublesome." Ji Feng said.

"Don't worry, I didn't think about it in that direction before, but now that you've reminded me, I naturally know what to do." Ji Shaolei smiled and said.

"Alright, alright, let's not talk about Wang Wengao, what I'm most concerned about is that air hostess!" Ji Feng said, "Second brother, since no one can find out where she came from, how did she get on the plane? How did she manage to be a flight attendant again?"

He could now be sure that the person who followed and spied on him today was the stewardess he saw on the plane, but according to Second Brother Ji Shaolei's description, that was a bit strange, how could he not find out any information at all?

"The boarding record disappeared and the information in the computer was also deleted ....." Speaking of this, Ji Shaolei suddenly reacted, "San'er, this flight attendant has a problem?"

"It's not a big problem, second brother, keep in touch, I might need your help again." Ji Feng sighed in his heart, the other party was really strict in what they did, they didn't leave anything behind.

Although Ji Shaolei was curious, but seeing that Ji Feng was not willing to talk about it, he did not ask more questions.

The two of them chatted for a few more minutes before hanging up the phone, and Ji Feng's face immediately sank.

That stewardess, there was really something wrong with her!

No one could remember what the stewardess looked like, and no one knew where she came from. If he hadn't been more alert than ordinary people

If the other party did not do things so cleanly and decisively, Ji Feng might not have been so wary, but now, he was aware that he had met a very clever opponent, and this opponent was also hiding in the shadows, not knowing what purpose he had yet.

The opponent was like a cold, poisonous snake, hiding in the shadows, and could deliver a fatal blow at any time!

Ji Feng was not afraid of the other party coming against him, no matter what method they used, he was capable of receiving the move and could still handle it openly, and could even deliver a ruthless counterattack with ease.

However, what Ji Feng fears the most is that the other party will not target their attacks on him at all, but will instead directly choose to strike at those around him, such as Xiao Yuxuan and Tong Lei, then second brother Ji Shaolei and brother Zhang Lei and others, or even ..... attacking the employees of the pharmaceutical factory and breaking his own left arm!

“Whew-!”

Ji Feng realized that he had encountered a very difficult problem.

This time was not like any past conflicts and entanglements with others, even when facing the crazy Qiao Rong, and the Xuan Yin Sect people in the past, Ji Feng had never been this tricky, because whatever the other party did, it was within his grasp, and he had a grasp to deal with it.

Moreover, no matter how crazy Qiao Rong was, she did not dare to lay hands on the people around him because she had scruples and she knew exactly what would happen once she and the old man were pushed to the limit.

However, this time was different.

This was an opponent who was hiding in the shadows and extremely clever, not knowing what the other party was up to, not knowing what else the other party would do next .....

What made Ji Feng even more helpless was that he could not directly lure his opponent out now.

Because luring out that person who is following him would alert the main messenger behind the other party, and then it might be difficult to know the other party’s subsequent tactics.

Bang!

Ji Feng hatefully slapped a slap on the backrest of the sofa and sneered: “Since you guys want to play, then I’ll play with you, just in case ..... You can’t afford to play! Don’t dare to continue playing!”

.....

In the next few days, Ji Feng, as usual, remained in the pharmaceutical factory’s branch every day, working with Kang Yuan on the 53rd slimming pill’s prescription.

Ji Feng had already written out all the ingredients on the prescription and handed them over to Kang Yuan.

However, he did not intend to produce it directly according to the prescription.

The reason is that the effectiveness of Slimming Pill No. 53 is too strong, and once it is produced according to the original prescription, it will easily cause a huge sensation.

Chinese people are all about keeping a low profile, as the saying goes, a gun is a bird in the head.

Once every recipe one comes up with produces a medicine that shocks people, by then anyone will wonder where one's recipe actually came from.

In fact, even now, there must be quite a few people who are suspicious, but because one has not done anything particularly sensational yet, plus there is still the old man on top to block it, that is why no one has come to contact oneself directly, except for He Hongwei.

But if one were to do this again and again, it would be hard to say.

If you rise too quickly, you tend to flourish and decline, which is not a good phenomenon.

Ji Feng was not afraid of others' eyes, what he feared was that there was no way to explain the source of the prescription.

Therefore, Ji Feng intended to reduce and change one or two ingredients in the prescription as a way to achieve a slower efficacy.

The more time you delay, the more you let the word out, the more people will know that the powerful Tengfei Pharmaceutical Factory is developing a new drug for slimming, and the famous expert Kang Yuan is still presiding over the project.

When Kang Yuan saw this prescription, he was really enthralled with the research. For slowing down the efficacy of this prescription, which is also one of the research methods, Kang Yuan was naturally excited.

The company's main focus is on researching how to slow down the formula of the slimming pill.

However, what makes Ji Feng feel puzzled is that in the past few days he has been running between the pharmaceutical factory branch and his home, but he has never seen the person who was following him again, as if everything just suddenly passed and there was no more trace of him.

The other side is not following, does it mean that the other side is ready to start making moves?

He immediately raised his guard and even came to the pharmaceutical factory much less often, and even when he did, he would bring Xiao Yuxuan with him every time, ready to make a move.

This kind of day, continued until the official start of the school year, but Ji Feng still did not find any trace of the other party.

On the surface, Ji Feng relaxed, but it was only loose on the outside and tight on the inside, in fact, he waited for his opponent to appear at any time.

Waiting, he had more patience than anyone else!

Chapter672

The time came to the day of August 30th, when Tong Lei would fly from Yanjing to Jiangzhou by plane, together with Zhang Lei.

And this, too, was the thing that Ji Feng was most worried about.

Since that mysterious stewardess, could unknowingly blend into the plane as a stewardess, and no one could actually find out where she came from afterwards, this meant that the other party's strength was obviously absolutely extraordinary, or at least they had their power in multiple channels, otherwise they wouldn't have done such a clean job!

Under such circumstances, if the other party wanted to make a move on someone close to them, Tong Lei was undoubtedly the best person to choose, and moreover, this time period when she flew from Yanjing to Jiangzhou was also the best time to make a move.

Because according to Ji Feng's speculation, the woman who was following him suddenly disappeared these days, Ji Feng would not think that the other party was kindly going to leave him alone, obviously, they either had something else that was delayed and distracted them, or, they were preparing some kind of follow-up tactic.

It's like a man who withdraws his fist, not to strike, but most likely to strike hard again.

After all, it is only after the fist is withdrawn that one can strike better!

Ji Feng preferred to believe it was the latter possibility, that his opponent was preparing for a thunderous strike.

Therefore, he did not dare to be the least bit careless. Although on the surface, he appeared to be indifferent, as if nothing had happened, in reality, anyone who was familiar with him would have noticed that a sharp light flashed in Ji Feng's eyes from time to time, as if he was a tiger ready to pounce on its prey!

He was the tiger, so the opponent, who was hiding in the shadows, was his prey.

Although it might seem to his opponent that he was the prey, but Ji Feng was determined to get the relationship between the hunter and the prey switched!

"It's almost eleven o'clock." Xiao Yuxuan looked at her watch, and there was a vague anxiety in her words.

"There's no need to rush, they'll definitely arrive safely."

Ji Feng leaned against the car door and basked in the sun, it was technically autumn now, although the weather was still hot, but it had nothing to do with the heat anymore, even if the sun shone on one's body, it was not as hot as it was in summer.

"That's easy for you to say." Xiao Yuxuan couldn't help but give him a white look, "These days you always bring me around no matter what you do, you think I don't know why. This Lei Lei and Zhang Lei they flew back from Yanjing, although it was only two or three hours, but ....."

These days although Ji Feng didn't say anything, still the same as usual, but Xiao Yuxuan could feel that Ji Feng was very alert and much more cautious than before, his eyes also drifted a lot, as if he was looking for something at all times. Xiao Yuxuan knew that something must have happened, otherwise, Ji Feng would not have been so cautious at all!

Coupled with the tracker and wiretap retrieved from the car some time ago, it then dawned on Xiao Yuxuan immediately that someone might be trying to do something bad to himself and the others.

What's more, before Tong Lei and Zhang Lei got on the plane, Ji Feng had called them again and again to tell them to be careful, the purpose of which, naturally, was self-explanatory because he was worried too!

"There's nothing to be worried about." Ji Feng smiled faintly, "Don't worry, there won't be any problems this time, because before they got on the plane, I already had someone thoroughly check all the personnel information on the plane, including the flight attendants and the captain ..... No problems were found."

"So it's like that, that's good." Once Xiao Yuxuan heard this, she was slightly relieved.

Ji Feng, however, did not dare to be sloppy and careless, he did have someone check the flight of this schedule through his little uncle's relationship, but, with that mysterious air hostess' means of doing things in a dripping manner, Ji Feng did not dare to guarantee that it would be foolproof.

The only thing is, there is no need to tell Xiao Yuxuan about this, and it saves her from worrying.

Xiao Yuxuan was relieved and put her heart down, no longer anxious to check her watch, but stood next to Ji Feng and waited leisurely.

Ji Feng subconsciously wanted to smoke a cigarette, but after looking around, he found that the smoking area was still in the direction of the restroom, so he held back. In fact, Ji Feng was not a big smoker, but only occasionally when he was depressed or nervous, he would smoke a cigarette to soothe his emotions.

Just like now, his heart was still a little worried.

"Attention all passengers ..... Flight xxxx from Yanjing to Jiangzhou is about to arrive ....." The announcement in the airport suddenly rang out.

"Here it comes!" Ji Feng's spirit immediately lifted and a brilliant light flashed in his eyes.

"Don't rush, the plane hasn't landed yet, Lei Lei won't be out for a while yet ....." Xiao Yuxuan saw Ji Feng's anxious look and couldn't help but purse her lips, "Are you all going crazy thinking about it?"

Ji Feng suddenly lost his smile: "Jealous?"

"Yuck!"

Xiao Yuxuan spat lightly and laughed delicately, "Whose jealousy would I be, not our first wife's. However, I think if Lei Lei knew that you were still tangled up with many women outside, I wonder if she would be jealous?"

"Who am I tangled up with." Ji Feng cried and laughed

Xiao Yuxuan looked at him with a smirk, that scrutinizing gaze made Ji Feng uncomfortable.

"It's no." Ji Feng defended himself.

"Oh? Really no?" Xiao Yuxuan giggled and then suddenly asked, "Then Qin Shujie, what should be considered? Do you dare to guarantee that there are no problems between you and her? There is also a Li Ruonan, this is something that Lei Lei and I both know, it's useless for you to deny it ....."

Ji Feng: “.....”

He really didn't know what to say, telling Xiao Yuxuan that he didn't have any relationship with either Li Ruonan or Qin Shujie?

That was something that even he himself wouldn't necessarily believe, so how could he talk about getting Xiao Yuxuan to go along with it?

“Ahem .....” Ji Feng cleared his throat as if nothing had happened and said, “Then what, Lei Lei and the others might be coming out soon, let's hurry over too.”

Saying that, he hurriedly walked forward with quick steps.

Xiao Yuxuan giggled and followed him, touching him and saying flirtatiously, “Hey, little rascal, I think how about this, anyway, there are still many empty rooms in our house, it's just dusty to leave them there, why not let Qin Shujie and Li Ruo Nan move in too?”

Whew!

Ji Feng stumbled violently on his feet and almost didn't fall headlong.

“Giggle giggle .....” In the sound of Xiao Yuxuan's smug and delicate laughter, Ji Feng laughed bitterly and rubbed his nose, but he could not say anything, some things are not easy to explain, and still the more you describe the darker it is, it is better not to say anything.

“What I said is true, you might as well think about it!” Xiao Yuxuan smiled charmingly, “Little rascal, in fact I would like to have one or two more sisters, so that I can also be justified ..... Otherwise, I, the second house, always live with Lei Lei, it's a lot of pressure, yo!”

Ji Feng's head got a little bigger, he laughed bitterly helplessly, “Yu Xuan, you should stop flirting with me, to be honest with you, I never thought of it this way, and now I'm dying of a headache, can't you see that I'm basically avoiding them now?”

Since returning to Jiangzhou, Li Ruonan had also called him several times, but Ji Feng either didn't answer directly or hung up the phone after a couple of casual remarks for some random reason, the meaning of keeping distance in those words was already too obvious.

Every time he heard Li Ruo Nan's lost voice, Ji Feng's heart was also extremely uncomfortable, but he did not dare to have a half step overstepping, because keeping distance, Li Ruo Nan may be very lost, but, if he messes up, Yu Xuan and Lei Lei will be sad, which is more important, Ji Feng naturally distinguish clearly.

“Little rascal, what I said is also true oh, why don't you think about it?” Xiao Yuxuan seemed serious and jokingly said, “How about this, I'll find a chance to politely mention it to Lei Lei and see what kind of attitude she has, okay?”

“Are you really serious?” Ji Feng was speechless, “How can you be like that, actually thinking of finding a woman for your own husband ..... In the future, this matter is not allowed to be mentioned again, otherwise, see if I don't spank you!”

“You really don't want me to mention it anymore?”

Xiao Yuxuan stared at his face and said seriously, "If you can repeat it again, I promise that I will never mention this matter again in the future!"

"....." Ji Feng then stopped talking, the corners of his mouth twitched a few times before he said, "Look, Lei Lei and the others are coming out!"

Saying that, he hurriedly walked over with quick steps.

Looking at his magnificent back, Xiao Yuxuan couldn't help but purse her lips and smile, "Brat, in his heart he really is thinking ..... should he be fulfilled or not!"

The first is the first one, and the second is the second one.

Fortunately, at this time Ji Feng had already taken a few steps, if she heard this, I'm afraid she would have been in a cold sweat again.

"Lei Lei!"

Standing in front of the exit, standing with those who also picked up the plane, the tall and sturdy Ji Feng was simply like a crane standing in the crowd, so distinguished.

The two of them, Tong Lei and Zhang Lei, who were walking out with the crowd, one was cold-eyed and clear-eyed so that people did not dare to look at them directly, and the other with a cynical smile that was equally striking, so they could easily see each other.

Tong Lei's originally clear and beautiful face instantly blossomed into a gorgeous smile the moment she saw Ji Feng, as if the entire airport hall was lit up in that instant, all those who saw this scene could not help but be dumbfounded and secretly said, what a clear and beautiful girl!

Some of the young people's eyes almost popped out, staring at Tong Lei with a dazed look on their faces.

Ji Feng smiled faintly and opened his arms.

At once, Tong Lei was like a nesting swallow, trotting a few steps and jumping into Ji Feng's arms.

LOL!

When many young people saw this scene, their hearts could not help but be gripped tightly, cursing in their hearts, "Paralyzed, a flower stuck in cow dung!"

But after looking at Ji Feng's temperament and poise, as well as his sturdy face and sturdy body, those people could only think sourly in their hearts, this bastard is only a little bit better looking than me, the difference is not that big!

Chapter 673

"Crazy, you're a big fan of sex, I'm not just your brother, I'm also your brother-in-law, right? It's been so long, but you don't know how to look at me?"

Seeing Ji Feng embracing Tong Lei, the two of them only focused on making out, simply ignoring all the strange gazes next to them, Zhang Lei immediately laughed and teased, which was also a kind of a wake up call for the two of them.

“You brat!” Ji Feng laughed and gave him a punch, laughing, “Looks like you’ve had a great summer, you’ve gotten a lot stronger again.”

Zhang Lei laughed heatedly, “Can you not be sturdy if you keep practicing every day?”

“Sister Yu Xuan!” Tong Lei spotted Xiao Yuxuan and immediately ran over happily, the two of them holding hands and joking, really happy.

A group of four people joked and laughed as they walked out of the airport exit.

It was obvious that the two months of summer vacation had made her miss Ji Feng and Xiao Yuxuan, so when they saw each other at this time, they were naturally happy and could not stop talking.

The two brothers, Ji Feng and Zhang Lei, had also not seen each other for two months, and were very happy to talk and laugh.

“Get in the car, first send Zhang Lei back to school, and then we’ll go home .....” Ji Feng smiled and said.

“Why don’t I also go and stay at your villa?” Zhang Lei said, “I live alone in school, it’s not as lively as your family ah, it’s very boring.”

“That’s fine, if you can sneak out in the middle of the night to drink and seduce girls under Lei Lei’s watchful eye, I have no problem with that.” Ji Feng said with a bad smile. He knew that Zhang Lei’s biggest fear was that Tong Lei was in charge of him, and that there really wouldn’t be any freedom at all.

According to Zhang Lei, it was miserable enough to go from primary schools to high school, and it was hard to go to university, but if he still lived that kind of life without freedom, what was the difference between that and prison?

Moreover, this is still nearly 20 years.

When you go to society, you will have to abide by some rules, and that is simply a life sentence .....

As expected, Zhang Lei’s face fell: “Then it’s better to forget it, I’ll live in my dormitory, that is at least much more comfortable than prison!”

“Brother, who are you saying is living in prison?” Tong Lei’s beautiful eyes instantly glared up.

“That what, you misunderstood, I said the school is a prison, the dormitory is even a single room in the prison, haha, the treatment is quite good.” Zhang Lei immediately snorted and hurriedly changed the subject, “Get in the car, it’s such a hot day, it’s cooked in the sun.”

“Hee hee .....” Tong Lei smiled at once.

“Get in the car!” Ji Feng smiled faintly, “Put the luggage in the trunk .....”

The words just said here, suddenly paused, he seemed to be inadvertently glanced towards the side, and then a faint smile appeared on his face, with a slight coldness.

Zhang Lei, however, sensed something keenly and asked in a low voice, "Crazy, what's wrong?"

"Nothing, let's go back!" Ji Feng laughed, pulled open the car door and sat directly on the driver's seat, "All fasten your seat belts and raise all the windows!"

Saying that, he touched the underside of the seat, a cold glint in his eyes.

"Are you all seated?" Ji Feng adjusted the rear view mirror on the top of his head, this was to prevent the rear view mirrors on both sides of the car from being much more useful once there was a dead angle.

"That's fine, let's go." Xiao Yuxuan and Tong Lei fastened their seat belts separately in the back and said in unison.

Ji Feng smiled and patted Zhang Lei's chest, "What about you, are you seated yet?"

"Holy shit ....." Zhang Lei suddenly shouted in shock.

"Brother, you said dirty words again!" Tong Lei said in the back at once, unhappily, "If I hear you swear again, you'll go down and run back to school yourself!"

"That what, slip of the tongue, it's all a slip of the tongue, I'll pay attention!" Zhang Lei hurriedly said, but his gaze was fixed dead on a cold object that Ji Feng had just taken the opportunity to place on his chest.

-That was a pistol!

Zhang Lei looked at Ji Feng in shock, and using the cover of the seat back, he asked wordlessly, "What's this for?"

Ji Feng smiled and made a simple gesture, then stopped paying attention to him and instead directly started the car.

Buzz~~!

The roar of the engine sounded and the car slowly drove, but Zhang Lei's expression was incomparably grave, the gesture Ji Feng made just now, he understood it at a glance, it was a tacit understanding between the two brothers.

Ji Feng meant to say – there was danger!

Zhang Lei immediately clasped the pistol in his hand, his gaze was fixed dead on the rear view mirror on the right, and his mouth laughed, "Aiya, I'm really a bit tired, I'll take a nap first, remember to call me when we arrive ....."

"Don't worry about sleeping." Ji Feng smiled faintly, "Lei Lei, you guys can also take a nap if you're tired, it's going to be nearly two hours from here to the school anyway, I'll try to drive the car a little slower."

"Mm!" The two girls nodded their heads slightly.

.....

Ji Feng drove the car smoothly, his face was flat and he couldn't see any ripples.

Only, his gaze glanced over the rearview mirror overhead from time to time, and the scene reflected in that mirror was a red Ferrari sports car, which was not far behind Ji Feng's car, about a thousand meters away.

The two red Ferraris could still be seen after Ji Feng had turned three consecutive corners, so he shook his head and smiled, seeing that his car must have been fitted with a tracker again!

The car was definitely being tracked again!

Ji Feng gradually increased the throttle, the car's speed gradually

There are not many cars in the outer ring, and there is an unobstructed view of what is going on, so not only can you speed up at any time, it is more suitable for doing many things.

Ji Feng is here to create an opportunity for the other party to make a move!

He had already made up his mind that this time, he would definitely lure the other party out.

The reason was simple, the other party had suddenly appeared again after being silent for this half month, so it was obvious that they were going to make a move. At this time, it was believed that the other party would definitely have heavyweights involved, and this was Ji Feng's goal.

Catching small minions does not serve any purpose, but will instead alarm the snake. If you want to fight, you should fight the big tiger, and only fight some jackals and small monkeys, which will not hurt the other side at all.

As expected, when Ji Feng drove onto the outer ring, the red Ferrari immediately picked up speed and leaned up quickly.

Seeing this from the rear view mirror, Ji Feng couldn't help but smile slightly, his gaze swept over the overhead rear view mirror and found that Xiao Yuxuan and Tong Lei had fallen asleep, he then whispered, "Watch out, the other party is leaning up and might want to make a move."

"Don't worry, I'd like to try what it's really like to have a shot to the head." Zhang Lei grinned, a ruthless look flashed in his eyes, "I used to just shoot people in games, it's not enjoyable."

The red Ferrari behind him was obviously not expecting Ji Feng to suddenly slow down, because both cars were going extremely fast before, and it would be too obvious for the Ferrari to try to slow down again, so the Ferrari only slowed down slightly, and the engine roared again, directly rushing past Ji Feng's car.

The moment the two cars crossed over, Ji Feng clearly felt a murderous aura coming from the other car, a feeling that was beyond words, but Ji Feng really felt it.

"Expert!" Ji Feng's heart instantly flinched, "And it's an expert who has seen blood!"

In fact, the thing of qi speed, although it sounds nebulous, is a real existence.

For example, if a big boss who has been in the market for a long time is standing with a person who has been doing nothing all day, even if they switch their outfits, others will be able to tell at a glance that they are definitely not the same level of people.

Another example is a high-ranking official, whose long-established official authority is not comparable to that of ordinary people.

Some people just have a look that is enough to make people's hearts jump.

This is a kind of aura!

And this so-called aura is actually formed under special circumstances and after a long time of honing.

The same was true of killing aura.

So Ji Feng could be sure that the person in that Ferrari was definitely not simple.

He couldn't help but smile coldly, the other party really looked up to him and actually sent such an expert to deal with him!

Although the two cars crossed, but Ji Feng did not let down his guard, just now only he played a small trick to give the other side a surprise, but this does not mean that the wind and waves below are calm.

However, with the Ferrari in front, the advantage shifted to Ji Feng's side. Whether it was slowing down or accelerating, or turning halfway, the initiative was already in Ji Feng's hands. If the Ferrari owner wanted to deal with Ji Feng, he would have to slow down, but the other party's every move could fall clearly in Ji Feng's eyes, and nothing the other party could do would be appropriate.

However, Ji Feng had no intention of letting the other party go, since he had come out this time, he should not think of going back intact, and now that Tong Lei had also returned, Ji Feng would probably not be able to protect both of them at the same time, and there would always be times when he would be left alone, so he had to speak of hidden dangers eliminated in advance.

Buzz~~~!

Ji Feng stepped on the accelerator and accelerated violently, the BMW x6 was like a cannonball, straight towards the Ferrari in front of him.

That Ferrari seemed to not believe that Ji Feng dared to crash into it, surprisingly it didn't accelerate in the slightest, let alone dodge, still driving as if nothing was wrong, only the speed of the car was much slower than when it was chasing Ji Feng before.

"Yu Xuan, Lei Lei, sit tight!" Ji Feng shouted lowly, waking up Xiao Yuxuan and Tong Lei.

The two women woke up with a jolt, and when they looked clearly at the situation in front of them, they immediately shrieked, "Ji Feng, slow down, we're going to crash!"

"Sit tight!"

Ji Feng shouted, his foot slammed on the accelerator and he was about to crash over.

"This madman!" The owner of the Ferrari saw this, his face suddenly changed, accelerated fiercely, and managed to get rid of the BMW x6's impact, and at the closest moment, the distance between the two cars was only a few meters.

Chapter 674

Squeak—!

The Ferrari had just gotten away from Ji Feng's car when it hurriedly steered right, while slowing down violently, with a sharp brake, and came to a halt at the side of the road!

Buzz~~!

Ji Feng, however, fiercely hit the steering wheel, shaking back and forth, while his foot brakes were frequently applied, then he fiercely pivoted the steering wheel, and saw that the BMW X6 unexpectedly made a hard circle on the ground, at high speed, and surprisingly turned around directly in place, the direction of the car's front end was once again aligned with the Ferrari.

Buzz-

Ji Feng's operation at this time can be described as dazzling, the brake pedal he did not know how many times in a second, the steering wheel is constantly shaking from side to side, this coupe, almost by him to play the magic, so that Zhang Lei's eyes were straight for a while.

Also shocked were the people in a black car in the distance.

On the same highway, about a kilometre or two away from the Ferrari and Ji Feng's BMW x6, there was a black Buick sedan parked, both the model and the number plate looked so ordinary and not the least bit conspicuous.

In the driver's seat of this black Buick was a charming and charming girl, and in the passenger seat next to her was a man wearing a mask, wearing a long-sleeved coat, which looked so strange in this early autumn when the autumn tiger was still raging.

The two men, who had just put their binoculars down, were shocked beyond belief.

Especially the wonderful girl, whose hands were gripping the steering wheel so hard that even her joints were a little white from too much force, showing how shocked she was in her heart.

"This madman!" The woman muttered, shocked.

"I told you before, he's very strong, and if confronted head-on, very few people would be his match!" The man with the mask on the passenger seat shook his head slightly and said in a non-yin voice, "Even those martial artists from the Xuan Yin Sect are no match for him. Unless, the top can send those warriors ....."

"That's not what I'm talking about!" The wonderful girl shook her head slightly and said, "Even if one's skill is superior, there will always be times when one misses, besides, in this world, apart from genetic warriors, it's not like there aren't any real experts."

"That's true, your body is so powerful that even genetic warriors are not your match ..... Maybe, it's true that you can compete with him." The masked man said with approval. He had simply heard a lot about this Black Widow's mighty name, and naturally knew how strong this woman's body was.

"You don't understand ....."

The wonderful woman said with a gloomy expression, "A person's body is no longer good, but in the end, it is only a person, what I did not expect is the target's guts. At such high speed, surrounded by harmful enemies next to him, he dares to do such a difficult car trick, this can no longer be described as arrogance, it is simply madness, he is a real madman!"

The masked man was silent for a while, he didn't know much about car skills, but he also felt that the sudden one hundred and eighty degree turn of that BMW just now was indeed very beautiful and shocking.

"I'm not afraid of dealing with arrogant people, but I'm afraid of crossing paths with madmen." Miao Lin girl murmured, "The reason why a person is arrogant is because he thinks that no one is stronger than him, and such a person is not to be feared. But a mad man does not ask these questions, because they are not logical ....."

"Then you ..... still intend to follow the original plan?" The masked man asked hesitantly.

"Of course!"

The wonderful girl smiled sweetly, "The more you deal with this kind of crazy people, the more you can't use conventional means, as you said, if you confront him head on, it will be very tricky indeed, instead, you should follow the original plan, approach him and finish him off ..... Of course, before that, he will have to taste the pain of having his loved ones tortured to death one by one with his mouth in a cruel way ..... Inform Black Wolf that it's time to leave, he's no match for the target!"

"Humph!"

The masked man secretly snorted coldly, his heart was quite dissatisfied, "I'm only the head of the Chinese branch, I'm on the same level as you, the head of Western Xia, who are you to order me around?"

However, despite the discontent in his heart, he did not dare to say it directly, not to mention that this woman had come to the Chinese mainland with permission from above, just the tactics of this woman alone was not something he could offend head-on.

Therefore, the masked man could only nod slightly and casually picked up the car intercom in front of him, "Black Wolf ..... Quickly, run away!"

The wonderful woman was also taken aback and cursed angrily, "Damn! This madman is trying to kill Black Wolf!"

As it turned out, just as the two of them were conversing, Ji Feng's car had already finished turning around, and after that dazzling series of movements, Ji Feng drove his car directly towards the Ferrari and crashed into it.

The next moment, before the people on the Ferrari could react, Ji Feng directly crashed into it.

Boom!

A loud sound was heard far away on this empty outer ring road, which seemed incomparably harsh.

The BMW x6, which was slightly taller, hit the two red Ferraris without any reservation, and immediately, the BMW's speed did not decrease at all, and the engine roared even louder, surprisingly squeezing the Ferrari forward.

Under Ji Feng's extremely skillful operation, the BMW intensively crashed into the Ferrari, causing the short Ferrari body to shake continuously, and at any moment, there were signs that it might be smashed apart.

Bang!

After another loud bang, Ji Feng directly loaded that red Ferrari overturned the car.

Squeak—!

Ji Feng stopped the car with a sharp brake, and with a murderous look in his eyes, he dropped a sentence, "All sit properly in the car, no one is allowed to get down."

Then he opened the door and jumped out of the car, quickly running towards the overturned Ferrari.

"Be careful!" Xiao Yuxuan and Tong Lei, who were worried, shouted.

Zhang Lei, however, was holding a pistol and sat directly on the driver's seat, ready to deal with unexpected events.

Ji Feng was alert and quickly came to the front of the Ferrari.

Bang—!

Just at the moment when Ji Feng was about to reach out to pull open the door, the overturned Ferrari was actually instantly jacked up so high that even the tin on the roof of the car was torn raw, and a pair of feet poked out from the roof of the car and stood on the ground.

Immediately afterwards, a foreigner, covered in hair and tall, lifted the Ferrari high above his head and casually threw it aside.

"Clang!" With a clang, the Ferrari, which was like a toy car, was thrown by the foreigner, whose strength was incredible.

The foreigner was a head taller than the sturdy Ji Feng, his hair was a bit curly, and perhaps because of the violent impact just now, his face and body were scratched in many places, and he looked very wretched.

However, the foreigner didn't care at all, his face wore a cruel smile as he stuck out his tongue and licked the blood from the corner of his mouth, a bloodthirsty glint in his eyes.

"Little Chinese monkey, I have wanted to finish you off for a long time, today, is the day you will die!" The foreigner laughed strangely.

Ji Feng looked at him expressionlessly and asked coldly, "Not being run over by me and being able to lift a car with your bare hands, what kind of monster are you?"

"Jie Jie Jie ....." The foreigner laughed strangely, "When you get to hell, you'll naturally know."

Ji Feng couldn't help but shake his head slightly, "Idiot!"

"What!?" The smile on that foreigner's face instantly froze, and the murderous intent in his eyes flourished, "In the past, you drove your car and killed one of my friends, and today, you have crashed my car into this state ..... Go to hell!"

In a flash, this foreigner's nails, surprisingly, instantly grew a full twenty centimeters, moreover, each nail turned into an incomparably sharp blade, simply like the Wolverine in the movie. With a bloodthirsty glow on his face, he lightning-like stabbed at Ji Feng on the opposite side.

Hoo-!

A gust of wind swept by and the foreigner's eyes, became stunned. This lightning fast attack of his had fallen short!

Ji Feng, who was standing less than three meters across from him, was now actually seven or eight meters away from him, and, in Ji Feng's hand, a bright silver pistol had actually appeared at some point, and the black muzzle of the gun was pointed at the foreigner's head.

"I wonder if your claws, can they be faster than a bullet?" Ji Feng had a faint smile on his face, but his gaze was constantly observing the surroundings.

The foreigner, however, was furious: "Chinese monkey, have the guts to face me head-on."

He instantly recognised the pistol in Ji Feng's hand – the Desert Eagle!

If it was an ordinary gun, it wouldn't be able to hurt him at all, but the Desert Eagle, which was incredibly powerful, would still be able to hurt him. Coupled with Ji Feng's bizarre speed, this foreigner knew that he had completely fallen into a disadvantage all of a sudden.

"A head-to-head duel?" Ji Feng couldn't help but give a shameful laugh, "Are you worthy?!"

"Little Huaxia ..... Bang!"

The foreigner still wanted to speak, but Ji Feng violently pulled the trigger, and the huge recoil made Ji Feng's wrist shake slightly. The foreigner naturally felt even worse.

A shot pierced through the root of the foreigner's thigh, and the next moment, there was only a "bang!" With a bang, the bullet exploded at the root of his thigh!

Blood and flesh flew everywhere, the foreigner let out a stifled cry, lost his balance and fell straight to the ground.

At the root of his thigh, metallic coloured bones, were exposed to Ji Feng's eyes.

"It really is a monster!"

Ji Feng couldn't help but smile coldly, "Still want to talk nonsense to stall for time and wait for someone to save you? ..... Actually, I'm also stalling for time, stupid!"

The foreigner instantly looked miserable and looked at Ji Feng in disbelief, "You, your bullets, why did they explode?! You, you've ambushed people around?!"

Ji Feng didn't answer him, but only said indifferently, "This gun of mine has a total of seven bullets in the magazine, do you think your people will come to your rescue before I disable all the major joints in your whole body? I guess they won't!"

Chapter 675

Bang! Bang! Bang .....

Ji Feng's face was expressionless, his finger pulled the trigger one after another, accompanied by the foreigner's miserable screams, his two legs, both shoulders, the four most important joints, all of them were blown apart, at this moment, he could not even sit on the ground, he could only grit his teeth and lie on the ground, looking at Ji Feng with resentment.

"I still have three rounds left, but your friend hasn't come to save you yet, and my men probably haven't arrived yet either ..... Take advantage of this free time, let's talk casually?" Ji Feng asked with a smirk.

"....." The foreigner gritted his teeth and didn't say a word.

"Since you don't say anything, I'll take that as your default." Ji Feng smiled coldly, shook his head, squatted in place and said, "To say that people like you, it's really a pity that you don't become a good human being, but have to become some kind of monster ....."

"I'm going to kill you, I'm going to kill you ....." The foreigner's eyes emerged with resentment, staring deadly at Ji Feng, "Little Chinese monkey, you know, I originally did not intend to finish you off that quickly, but to catch your woman, I want to put ..... in front of you"

"What's the use of you saying this now? To deliberately provoke me and then have me shoot you? Or do you plan to let me get close to you and then you can blow me up?"

Ji Feng interrupted him directly and couldn't help but shake his head slightly, "Like you people, you don't hide poison in your teeth like many killers do, but rather you were implanted with a biological bomb in your body when you were transformed ..... It's quite pathetic to say the least, you can't even move your limbs now, so even if you wanted to detonate the bomb, the only way to do it is to provoke me with your words and get me close to you so that your companions who are hiding in the distance can remotely detonate the bomb inside you and let me be buried with you, right?"

He grinned, "I am not going to fall for that!"

"They will definitely kill you, no one who goes against the organisation will end up well!" Seeing that his intentions had been revealed and his last hope had been dashed, the foreigner became frantic and shouted.

"If you want to kill me so badly, why don't you just put a bomb in my car, wouldn't that be easy?" Ji Feng asked with a smile.

"Would you allow us to do that?" The foreigner gritted his teeth and said.

Ji Feng nodded and smiled: "Sorry, I forgot, my car has signal shielding apparatus, even if you put it, you can't remotely control it, moreover, the time you have access to my car is very short, you think you can't find where the apparatus is, and if you put a fixed time bomb or a touch bomb, it will be interfered with again ....."

The foreigner just stared at him with hatred for such gloating words!

Buzz~~buzz~~!

A vibration suddenly came from Ji Feng's arms, and he immediately smiled faintly and put up his hand, swinging it slowly.

Zhang Lei in the car behind him immediately understood and drove slowly backwards.

"Look, even my friend has backed up, now do you think that your companion will think that I have become impatient and plan to leave after finishing you off?" Ji Feng shook his head and smiled, while raising his head and inadvertently glancing at a black car parked on the far side of the road.

Zhang Lei came behind Ji Feng and handed over a small black box.

Ji Feng smiled faintly and took it and directly pressed the red button on the box, "Tic-tac-!"

"That's good." Ji Feng grinned, "Run quickly ....."

.....

"Damn, the bomb signal inside the black wolf is blocked out!"

At the same time, the two black Buicks in the distance, the wonderful girl's face changed violently, "Not good, the target was just stalling for time!"

"Get out of here!" The masked man shouted sharply.

Buzz~~!

The Buick's engine immediately roared to life, and Myriam Girl operated it quickly, using her skills almost to the limit, ready to flee the area.

However, the next moment, their faces became even more ugly.

Only to see that behind them, three SUVs were speeding towards them, and by the look of them, it was obvious that they were coming this way. Behind these three SUVs were followed by two police cars with sirens blaring.

"The target was just stalling for time!" The masked man cursed angrily, "Damned thing!"

"You're out of shape and revealing your true voice!" The Mythical Woodswoman said faintly as she backed up, "By the sound of your voice, anyone would know you were a man."

The masked man choked for a moment, but immediately the man became furious, "Hurry up and crash through, what's the use of talking so much nonsense now?!"

The wonderful girl's face sank slightly, but she didn't argue with him, instead she kept pressing the accelerator and continued to back up the car.

"Turn around, hurry up and turn around, and ram it straight through!" The mask shouted.

"I have it in mind, as long as they want to catch us alive, they definitely won't be able to catch us!" The young woman said indifferently, while her finger pressed a few times on the top of the dashboard, the

masked man's seat backrest suddenly flattened backwards, "There are remote control toys in the back seat

The masked man did as he was told at once, then picked up the two toy cars, reached out of the side window and placed them on the front bonnet.

"As soon as I turn around later, you will immediately use the remote to eject the toy cars and detonate them." The wonderful girl was, however, unruffled by the danger and spoke in a coherent manner, "Blowing up a lane with a bomb is obviously the best way to use it!"

"Hm!" The masked man nodded.

However, neither of them realised that right at the moment they realised they had been ambushed, all they were thinking about was escaping, and from the opposite direction of Ji Feng.

This meant that, in their hearts, they had already developed fear of Ji Feng, only that they themselves had not realised it yet. Or rather, they were aware of it, but they were unwilling to admit in their hearts that they had fear of Ji Feng, otherwise, they would never have the courage to face him again.

At this time, Ji Feng had already returned to the car, he casually took out the intercom in the car, pulled it out of the car window and said, "Old Yi, pay attention to safety, prevent the other party from jumping to the wall in a hurry, try to leave an opening."

"Understood, boss!" Over the intercom, came Yi Xingchen's voice.

Liu Zejun's voice also came over, "Boss, the Desert Eagle I lent you works well, right?"

Ji Feng laughed: "It works well and has good power, thanks a lot."

"Boss, it's fine if you think it works well, thanks are not necessary ....." Liu Zejun laughed, "I'll be satisfied if you give me some salary increase later."

Ji Feng laughed, "No problem, but you must do a good job today, otherwise, not to mention a pay rise, I will also deduct your wages! ..... Tell your friends in the police, tell them not to dead block either, leave an opening, don't force the other side to fight for their lives, I already have a live one in my hands."

"Yes!"

.....

Three SUVs, two police cars, a total of five cars, lined up in a V-shape on the highway, or a pocket formation, so to speak, just waiting for the two black Buicks to fall in headfirst, and that would be enough to form a closed circle.

"No wonder that bastard Ji Feng chose this outer ring road, what a damn ....." The masked man cursed angrily.

The wonderful girl glanced at him and said, "It's useless to talk about this now, listen to my command, five, four, three ....."

Squeak—!

With a quick flick of the steering wheel and a sharp slam on the brakes, the black Buick suddenly reversed direction and drifted down the road for some distance, before turning its head violently from reverse to forward gear.

— From this point on, it could be seen that the wonderful girl's driving skills were far inferior to Ji Feng's, or perhaps according to her words, she was the one who was not as crazy as Ji Feng.

"Eject out!" The Mythical Forest Girl suddenly shouted.

The masked man fiercely pressed the launch button on the remote control and with a whoosh, the toy car, which was stuck to the bonnet of the front of the car, suddenly ejected sharply.

The next moment, the Mythical Forest Girl slammed on the brakes.

Boom...!

A violent explosion suddenly shot up into the sky, filling the road with smoke and debris as everyone was stunned and scrambled for cover.

The black Buick stopped.

The black Buick, however, did not stop, but only slowed down a little before suddenly accelerating and rushing straight through.

Bang! Bang!

The Buick directly crashed through the police car that was in the way and rushed past without looking back.

"Crazy, they're getting away!" Zhang Lei, who vaguely saw this scene, immediately turned around and shouted, he was guarding the battered foreigner and couldn't leave, so he could only shout to warn Ji Feng.

Ji Feng stood in front of the car, watching the black Buick rushing into the smoke, the roar of the engine gradually going away, but only smiled slightly and did not drive after it.

"Ji Feng, did the other side run away?" Tong Lei and Xiao Yuxuan sat in the car and asked cautiously. The two women did not get out of the car, they knew that they would only add to Ji Feng's burden by coming down, and would not be able to play any role.

"Yes, it ran away!" Ji Feng smiled and said.

"Then why didn't you chase after him?" Tong Lei asked.

Xiao Yuxuan, however, complained, "Those police officers are really useless, they can't catch anyone with so many people surrounding a car, it's really ....."

Ji Feng laughed and said, "Don't worry, someone will catch them ....."

After waiting for the other side for these days, how could Ji Feng not be prepared at all?

In fact, he had been prepared for a long time, only because he couldn't be sure exactly which day the other party would appear, so he also just told Yi Xingchen and the others to be on standby, once the

incident happened, Ji Feng believed that he could completely delay for some time. This time was enough for Yi Xingchen and the others to arrive.

As expected, not only did Ji Feng succeed in stalling for time, but he also personally caught one of the other party's killers, and, he also learned an extremely important piece of news – this group of killers, came from the dynasty!

As for the one who got away, it would go into other follow-up arrangements, but that would not be his turn to worry about it .

## Chapter 676

“Boss, we .....”

Yi Xingchen and the others came to the front and said with some shame, “The man got away.”

The other people's faces were not too good, this was the first time Ji Feng had arranged an operation and it actually failed, this really made them have no way to explain in front of Ji Feng.

Ji Feng smiled and waved his hand, saying, “It's not your fault, I didn't intend to catch the people at once, what's more, the other party's methods are also very harsh, and the people are all desperate, we can't fight them hard ....., Zezun, this is your Desert Eagle, it's good to use.”

Liu Zejun took the Desert Eagle and said ashamedly, “It's useless even if the gun is good, I have to ask the boss himself to do it, it's really .....”

Ji Feng harrumphed and said, “Alright, alright, stop being so sentimental. As I said, today's opponents are not ordinary, it's not your fault to fight them hard and let them run away.”

“First, pull the car over to the side of the road, also, carry this guy to the side of the road as well, be careful, he has a bomb on him!” Ji Feng laughed.

“Work!” Yi Xingchen waved his hand and immediately said.

Liu Zejun and Guo Tao, as well as a few security guards from the pharmaceutical factory, carried the foreign assassin to the roadside, only that action was not very gentle.

The foreign killer's shoulders and legs had already been shot off by Ji Feng, so it was inconvenient to lift him up. Yi Xingchen and the others simply grabbed his hair, snapped his collarbone and dragged him over.

Ji Feng couldn't help but shake his head and smile, this guy was really asking for trouble too, his body was covered in metal bones, and he wasn't afraid of breaking them, so the actions of Yi Xingchen and the others were naturally much more rude.

“All right, you all go back first, the pharmaceutical factory still needs people over there, don't let people take advantage of the situation, I'll be fine here!” Ji Feng said.

“Boss, you're alone here, I think it's better to let Guo Tao stay with you!” Yi Xingchen said.

“It’s fine, it’s fine, now the other party is like a frightened rabbit, running faster than anyone else, they definitely won’t dare to come back in a short time, I’ll stay here, I’m just waiting for someone!” Ji Feng smiled faintly as he waved his hand, “All go back!”

When Yi Xingchen and the others saw Ji Feng say this, they could only nod and agree.

The few policemen also knew themselves that this kind of thing was no longer something they could ask about, in could only report to their superiors on the side, while staying put to assist Ji Feng.

.....

“This is the alien who has been transformed na? Boy, there’s really Wolverine there! Tsk .....” Zhang Lei walked twice around the foreign assassin lying on the ground with one hand crossed, “Even the bones are metal, I wonder if the head has been replaced .....”

He looked at it while his mouth was still tsking with wonder, as if he was looking at a rare animal he had never seen before in a zoo, his face full of curiosity, his gaze even filled with the urge to leap to the test.

“Ji Feng, did you say he had that thing replaced? If he were to replace that thing with a metal one as well, holy shit, which woman would still be able to stand him?” At this moment, Zhang Lei was chattering away as if he was a chatterbox. But in reality, he was stunned by this foreigner.

How could there be a person whose whole body bones had been replaced?

Can such a person still be considered human?

.....

In fact, what Zhang Lei wanted to ask the most was, what the hell was wrong with this world, why were there so many strange and bizarre to the point of being creepy?

When a person is born, his bones are connected to his flesh and blood.

To replace all the bones in the body with metal, doesn’t that mean that all the original bones are taken out of the body and replaced with metal by some means?

That’s what they call skinning!

Who the hell was this bastard that dared to be more cruel than this?

With Zhang Lei’s big-hearted personality, he felt his scalp tingling, not to mention Xiao Yuxuan and Tong Lei. In fact, these two women didn’t even dare to get out of the car, just sitting there, not even daring to look over here.

A person’s bones are all metal, although such a thing sounds and looks so rare, but when you think about it carefully, you will feel your scalp explode, and all the pores of your body will tightly contract and constantly raise goose bumps.

Imagine a living human being lying there with all the bones taken out of his body, and all that is left is a pile of rotten flesh?

Such a scenario would be unbearable just to think about, but now, there were people doing such things, and with the factual evidence right in front of him, Zhang Lei couldn't help but gnash his teeth straight, not knowing whether it was because he was stimulated or because of his hatred for those bastards who did such things!

"Crazy, do you think that thing can be replaced or not?" Zhang Lei asked with a smile, only that smile was not sure how many times harder to see than usual.

Ji Feng smiled, "Want to know, then don't you just peel open his trousers and take a look?"

"Shit!"

Zhang Lei

Ji Feng smiled and patted his shoulder, saying, "You drive far away, I need to do something, don't let Lei Lei and Yu Xuan and the girls see it."

Zhang Lei immediately asked, "What are you going to do? Are you really going to peel this guy's trousers off and take a look?"

"Fuck off!" Ji Feng cried and laughed, this guy really dared to think of anything, he even peeled off his trousers to take a look .....

Zhang Lei laughed heatedly and turned towards the car.

Ji Feng looked at this foreign assassin who was looking at himself with gritted teeth, he smiled slightly and said, "It's useless for you to look at me like this, your companions have all run away, in a short time, you don't have this ability to kill me ..... Didn't we talk quite well just now?"

"I hate that I didn't put a bomb in my car and die with you!" The foreign assassin said through gritted teeth.

"That's because you're afraid of dying!"

Ji Feng glanced at him and said disdainfully, "You don't need to put on such a fierce look in front of me either, it won't scare me ..... Tell me, the biological bomb in your body, which part is it in?!"

"Humph!" The foreign assassin snorted coldly and didn't answer Ji Feng's words at all.

"Very tough!" Ji Feng chuckled and said, "A word of warning, I'm still a relatively nice person and won't do anything to you, but if you fall into the hands of certain people ....."

"What pain have I not tried?!" The foreign assassin sneered, "Is there anything more painful than a bone replacement?"

Ji Feng nodded slightly and said, "You're a hard man, you're amazing!"

After a pause, a sharp light shot out of his eyes, "Since that's the case, then I'll let you try bone replacement again!"

Snap!

Ji Feng fiercely stepped forward and stepped on that foreign assassin's right hand at once, at the same time, his hand clasped the other party's shoulder and whispered in that foreign assassin's ear, "I can see that your metal bones and your flesh and blood are not too perfectly combined, I guess it must be easy to draw it out, right?"

The foreign assassin's body shook violently, but he still did not speak.

"Think about it, if I took all the bones in your whole body and drew them off one by one, what do you think, in the end, you would become? By the way, you should have experienced this feeling ....." Ji Feng said indifferently.

That foreign assassin clenched his teeth to death, just dead set on not speaking.

"Okay, you win." Ji Feng shook his head helplessly, he was still too soft-hearted to lay a hand on him, "Since you won't say anything, then I'll find out myself."

He stood up and slowly activated the bio-current, acting on his eyes, two sharp lights imperceptible to the naked eye shot out from his eyes and looked at the foreign assassin lying on the ground.

.....

Buzz~~!

An ordinary taxi, which could not be more ordinary, sped down the road.

Sitting in the car were none other than the wonderful girl from before and the mysterious masked man.

The mysterious masked man, with his leather gloved hand, was gripping the seat tightly, making it creak because of the excessive force.

"The black wolf has fallen into his hands." It was only after a long time that the masked man spoke in a low voice, "He is my most powerful general, and without him, I will be greatly diminished in terms of force. Moreover, Black Wolf also knows too much, he knows a lot of things about the Royal Club in Yanjing ....."

"Then get rid of him!" The wonderful girl said emotionlessly.

"That's easy for you to say!" The mask was furious and rasped his voice in anger.

"You're showing your true voice again!" The wonderful lady said indifferently, still concentrating on driving as she spoke.

"Humph!"

The masked man snorted angrily and said, "I'm telling you, the reason why Black Wolf fell into the hands of that little brute was all because of you, I had already followed the pre-made plan to give you the formalities to become a teacher at the United University, but what about you, you had to test Ji Feng one more time and send Black Wolf!"

His chest rose and fell violently as he said angrily, "Since you can't be sure if it was Ji Feng who led the men to destroy your branch, then approach him and find out the situation before deciding whether to take revenge, or to make a plan of action! But what about you, relying on your Black Widow's name,

coming to my Chinese branch and actually bossing me around, do you think this is still your Western Xia?!”

“Finished?” The wonderful woman concentrated on the road, hands on the steering wheel, not even looking at the masked man next to her.

“Finished!”

The masked man snorted coldly and said in an exasperated voice. In his heart, however, he was a little weak, he had just said those words in a moment of anger, and now that he thought about it, he had dared to shout so loudly at this black widow .....

“Now that you’ve finished, sit down honestly, we’re being followed!” The wonderful girl said indifferently as if she hadn’t heard what the masked man had just said.

“What?!” The masked man was instantly shocked.

#### Chapter 677

About half an hour later, Ji Feng waited for reinforcements, but it was a group of soldiers. The person at the head of the group was clearly an old acquaintance of Ji Feng’s, Xiang Yongzhan.

“How come it’s you?” Ji Feng asked in amazement.

Ji Feng’s heart was indeed astonished beyond words, knowing that it was his second uncle Ji Zhenguo that he had informed, but how come it was Xiang Yongzhan who appeared?

“Is it inappropriate for me to come?” Xiang Yongzhan asked with a smile.

Ji Feng was instantly silent. Indeed, it was indeed more than appropriate for Xiang Yongzhan to be involved in this matter in public. After all, Xiang Yongzhan had always dealt with people from the dynasty, and he was much more familiar with the dynasty’s affairs than himself, and it was also very appropriate for him to intervene in this matter.

This was because all along, he had been in charge of the war against the dynasty, and moreover, he was still a soldier in name only.

Ji Feng couldn’t help but secretly guess that it was probably Second Uncle who had informed Xiang Yongzhan to come over and handle this matter.

After all, as the head of administration at the local level, Second Uncle’s main concern was to carry out local construction, and as for this kind of combat matter, it was naturally more appropriate for someone from the military to step in.

Moreover, the Ji family is mainly in the political sector, the Xiang family is in the military sector, perhaps the second uncle does not want to interfere too much with the military, which is why he informed Xiang Yongzhan .....

It is indeed a possibility.

“Did my second uncle tell you to come?” Ji Feng asked. Although the heart has already guessed, Ji Feng still want to confirm, otherwise, in case something goes wrong in the middle, then the two sides can go

to pull the skin, and may also affect the relationship between the two families, Ji Feng had to be cautious.

You have to know that this is not an ordinary matter, but it is about the dynasty.

For this mysterious organization hidden in the dark world, Ji Feng has always been extremely cautious and with a hint of hostility, and he can also vaguely guess that, in fact, the above for this organization, is also like a great enemy, but due to many factors, it is not convenient to directly come out, or through the official openly, so it has been only secret action.

“That’s right, it was Uncle Ji who asked me to come.” Xiang Yongzhan nodded, “Actually, I arrived in Jiangzhou some time ago when I heard that someone was following you, just to prevent those people from doing you any harm, but I never thought that I would actually catch a good show.”

“You arrived some time ago?” Ji Feng couldn’t help but be stunned as he listened, and then, his face instantly sank, “Then ..... why did those people attack me?”

Xiang Yongzhan shrugged his shoulders, stepped forward and lowered his voice, “Because you were involved in an operation against Western Xia.”

Ji Feng’s face turned even uglier as he coldly said, “Wasn’t that operation strictly confidential? How did the other side know that I was involved? Grand Duke Xiang, are you going to give me a reasonable explanation!”

“We’ll talk more about this matter later, right now I want to take this Black Wolf away first.” Xiang Yongzhan waved his hand and four soldiers immediately came up behind him and were about to carry away the foreign assassin who was limp on the ground.

“His name is Black Wolf?” Ji Feng suddenly shouted, “Wait a minute.”

“We don’t have much time now!” Xiang Yongzhan immediately said in a deep voice, “Black Wolf has a biological bomb inside his body, which is very special and will explode on its own once it senses that the organism has been seriously injured ..... While Black Wolf is not yet weak enough, I want to take him away as soon as possible!”

Ji Feng shook his head slightly and said, “I have no objection to you taking him away, but, at least let me ask for permission first.”

“That’s what you should do!” Xiang Yongzhan immediately laughed.

He still knew Ji Feng’s character very well. He knew that as long as Ji Feng made a decision, he would fight for it every inch of the way, and besides, his request was reasonable, so there was no reason for Xiang Yongzhan not to agree.

Ji Feng took out his mobile phone and immediately dialled Second Uncle’s number.

However, the person who answered the phone was a young man’s voice and spoke with an official emphasis: “Hello, I’m Secretary Ji’s secretary, he’s in a meeting.”

“This is Ji Feng!” Ji Feng had met this secretary of Second Uncle once before, and the two of them had met once, so they were considered to know each other, so he directly introduced himself.

“So it’s Ji Shao. It’s like this, the secretary explained before the meeting that if it was your comrade who went to you, then it was the secretary’s intention!” As soon as that secretary heard that it was Ji Feng, his tone became much more cordial.

“I got it, thanks a lot.” Ji Feng said and hung up the phone.

“Finished asking for instructions?” Xiang Yongzhan asked with a smile.

Ji Feng nodded slightly and said, “The biological bomb inside his body is in the back of his head, you guys might have to do a craniotomy if you want to take it out!”

Swish!

The foreign assassin, Black Wolf, who had his eyes tightly closed and didn’t say a word, suddenly opened his eyes after hearing Ji Feng’s words, staring at Ji Feng with a deadly look of disbelief in his eyes, and his heart was even flooded with huge waves of shock and horror.

How did he know which part of my body the biological bomb was in?

Black Wolf believed that Ji Feng definitely did not know where the bomb inside his body was, before

Ji Feng looked at his expression and grinned, “Shocked, aren’t you?”

“How did you know?” Black Wolf asked in a hateful voice.

Ji Feng, however, did not answer him, but looked at Xiang Yongzhan and smiled, “How about it, I’m not wrong, right?”

“For your eyesight, I certainly believe in it.” Xiang Yongzhan laughed, patted Ji Feng’s shoulder and lowered his voice again, “I know you have a lot of questions in your mind that you want to ask, I don’t seem to be leaving Jiangzhou for a while, find a chance to come out and sit down.”

Ji Feng nodded thoughtfully and said, “I definitely will.”

“Take it away!” Xiang Yongzhan didn’t dare to delay too much and didn’t have time to say more to Ji Feng, so he directly led the soldiers under him to leave.

Only, both Xiang Yongzhan and those soldiers brought by his men, when they went to carry that foreign assassin, Black Wolf, and saw that injury he had, they couldn’t help but look at Ji Feng strangely for a few moments, secretly staggering in their hearts.

To be able to inflict such a wound, that body hand .....

No wonder even the senior captain was so polite to him, those soldiers were all muttering secretly in their hearts, they had all fought with such transformers, they all knew how terrifyingly powerful such monsters really were, ordinary soldiers were no match for them, they weren’t even afraid of bullets penetrating their bodies!

But now, they had their limbs destroyed with just a few shots!

It wasn’t that the reformer in front of him was too bad, but that he was too unlucky to have met a true expert.

Xiang Yongzhan led his men, grabbed Black Wolf and whistled away.

The police also left, with the army intervening, this matter naturally they will not go too far into it, because they know very well what level they are, usually catching some thieves and petty thieves is fine, but to go against these reformers ..... They are scared just by looking at them, let alone doing it.

On the desolate and remote highway, there was only Ji Feng and the others left.

Buzz~~!

A car sped past, bringing up a gust of wind that caused Ji Feng's not-too-short hair to slightly sway a few times.

He couldn't help but shake his head slightly as he turned around and got into the car.

"Let's go back!" Ji Feng laughed.

"Crazy, how did things work out?" Zhang Lei asked.

Xiao Yuxuan and Tong Lei also looked straight at Ji Feng, what had just happened had worried them badly, the appearance of the transformed man had given them a great shock, making them simply mistakenly think that they were still awake and still in a dream ..... The actual people can be really transformed!

Ji Feng laughed: "It's fine for now ..... Even if something is wrong, it doesn't have much to do with us anymore, all rest assured, our lives, or remain the same!"

"That's great, that was scary just now!" Only then did Tong Lei heaved a sigh of relief and couldn't help but pat her chest, obviously still having palpitations about what just happened.

Xiao Yuxuan was likewise pale, her face a little pale.

Although she had known that someone was following them during the summer holidays and had installed a bug and tracker in the car, she had not expected that the person following them would be such a monster!

Ji Feng lowered the window, started the car and gradually headed towards the school.

But in reality, his heart was not as calm as it appeared on the surface, and he could even be said to be a little annoyed.

He knew that someone was following him, he knew that a long time ago, but at that time, he originally only thought that the person following him was here for the pharmaceutical factory, or for the prescription in his hands.

To say that it was someone from the dynasty who was following, he had not even thought of that possibility.

For although there had been conflicts between him and the Dynasty, apart from the first time he had saved He Hongwei in front of the Taste and Fragrance House on Jinling Road, he had never had any direct conflicts with the Dynasty, and even if there had been, they had been extremely confidential, such as taking part in operations against the Western Xia, which were strictly confidential.

But now, the fact that someone from the dynasty had come to attack him was obviously hard to understand. No matter how powerful the dynasty was, it couldn't possibly come and set up a fight with the Ji family at the same time as fighting the He family, right?

Unless –

The dynasty had a reason to do so!

But what exactly was the reason that could make the Dynasty so reckless?

Ji Feng had already vaguely guessed the answer.

And there was another point that was doubtful in Ji Feng's mind. The person he had seen spying on him outside the pharmaceutical factory at the beginning, was he one of Dynasty's people or not, and was the person in the black car in the distance today, the same person as the one found outside the pharmaceutical factory?

All this Ji Feng had no answer, he could only wait.

Originally, after knowing that someone was following him, he had a discussion with his second uncle, Ji Zhenguo, that once the other party reappeared, Ji Feng would delay slightly for a while, and then someone would arrive.

Today after coming out of the airport he found out that the one following him was not just one car, but two!

Chapter 678

In fact, after coming out of the airport today he found out that the one following him was not just one car, but two!

So, Ji Feng had formulated such a strategy of using a delaying tactic to catch the other side in a net, and using the military encrypted channel, he contacted Uncle Er and informed him of his plan directly, because he was pressed for time, he did not wait for Uncle Er to answer before hanging up the phone.

Now it seemed that Second Uncle should have agreed to his plan, only to turn the executor, into Xiang Yongzhan.

However, whether the people in the two black Buick cars were caught or not, Ji Feng is still unclear, just now because of the crowd, Ji Feng and Xiang Yongzhan also did not do much communication.

It was clear that Xiang Yongzhan had a lot to say to Ji Feng.

Ji Feng now had a feeling that his entanglement with the dynasty was becoming deeper and deeper. There were certainly reasons why he had taken the initiative to participate in the operation against Western Xia, but the unscrupulous style of action of the dynasty, as well as the scalp-bursting tactics and the transformation of living people, all made Ji Feng extremely disgusted.

Now that he thought about it, the conflict between Ji Feng and Dynasty was just inevitable.

However, Ji Feng was not worried about this, people in the earthly world would inevitably have all sorts of conflicts with others, and no one could avoid it, unless they were to stay hidden and be a hermit who was uncontested by the world.

Ji Feng is obviously not willing to be a hermit, since there are enemies in the way, then he will try his best to use his own two fists to beat the other party to bow down and submit!

In Ji Feng's heart, a strong and soaring fighting spirit surged up!

.....

After sending Zhang Lei back to school, Ji Feng then drove straight back to his home and used the detector to probe the car all over, inside and out, but he didn't find any tracker.

He was puzzled, since his car was not fitted with a tracker, then why could the other party accurately follow him?

This question puzzled him a bit, but since he couldn't figure it out, he didn't bother his brain any more to think about it, the question he was most concerned about now was whether the black car that followed the Ferrari was caught or not after it later forced its way out!

Ji Feng pacified Xiao Yuxuan and Tong Lei a few times, telling them that the matter had been resolved and that such a thing should not happen again in the future.

The two girls were not ordinary girls, they had both seen big scenes and were much stronger than their peers, at least in terms of mentality, so there was no need for Ji Feng to bother with words, even Xiao Yuxuan even comforted Ji Feng in turn, which warmed his heart, it was a blessing to have such women by his side.

"We're going to prepare lunch, you can rest for a while." Xiao Yuxuan and Tong Lei ran to the kitchen, leaving only Ji Feng alone in the living room.

Both women knew that after what had happened earlier, Ji Feng must have a lot of things to think about, so they both had the good sense not to disturb him, instead leaving him enough clear space to think about things.

Ji Feng took out his mobile phone and sent a message to Xiang Yongzhan using the military's special extra-sensitive channel, "What's the situation?"

He was asking about the people in the two black Buicks that had escaped, how the situation was, and also about the foreign assassin, Black Wolf.

Buzz~~!

Not long after, Ji Feng's mobile phone vibrated and Xiang Yongzhan's text message came back, "The bomb inside Black Wolf's body has been removed, but his companion ran away ....."

"Bastard!" Ji Feng couldn't help cursing and immediately sent a text message back, "Missed?"

"Special circumstances!" Xiang Yongzhan's text message quickly came back, "Meet up sometime to discuss in detail."

“Seems to be some trouble.” Ji Feng held his phone and couldn’t help but frown darkly, the person behind that foreign assassin, surprisingly, hadn’t been caught, which meant that there would definitely be more trouble in the future, moreover, the other party was hiding in the shadows, which was indeed very tricky.

Even for those who were well guarded, there would be times when they would be negligent, unless, at the cost of losing their freedom, they were on guard all day long, just like those chiefs.

However, Ji Feng could not reach the level of those heads, not to mention that he still had many people around him who needed protection .....

“Black Wolf ..... Dynasty .....” Ji Feng couldn’t help but shake his head slightly, “If you want to keep yourself and the people around you safe, you can’t wait like this without any advantage, you have to go from passive defense to active attack.”

He stood up and secretly said, “It’s time to meet with Xiang Yongzheng as soon as possible!”

.....

The arrival of Tong Lei undoubtedly added a few more laughs to the villa.

It is strange to say that, in fact, normally Tong Lei does not like to talk, but, with her in, the atmosphere is much more active, and Xiao Yuxuan and Ji Feng are in a much more cheerful mood.

However, come nightfall, Ji Feng’s mood was not good enough.

–The reason for this is that his dream of sleeping together could not be realized.

The beautiful and delicate appearance of Tong Lei tickled Ji Feng’s heart, and his lust could not help but rise up and move his fingers.

However, Xiao Yuxuan and Tong Lei, the two women, for today’s encounter, still have some difficulty in their hearts to let go, the impact is still

The two women held hands and went into the bedroom, only to drop a sentence to Ji Feng: “Today we two sisters are going to have a good heart-to-heart talk, and we will sleep together at night ..... If you don’t want to hear it, go to bed first.”

Ji Feng instantly laughed bitterly, helplessly, he shook his head slightly and could only go to the bedroom alone and lonely.

There was no talk all night, Ji Feng was not affected by what happened in the morning, having gone through countless training sessions with the Super Agent Training System, Ji Feng’s nerves were not that sensitive long ago.

In the morning, Ji Feng habitually fetched the newspaper at the door and looked through the recent news.

Nearly a day had passed since the incident on the Outer Ring Road, but there was not a single word of specific coverage in the newspaper. The only news item was only a revelation issued by the police,

saying that a serious car accident had occurred on the Outer Ring Road yesterday, and the vehicle involved was a black Buick, and the license plate photo was also specifically posted.

But in reality, the content in the revelation was really a million miles away from what really happened.

In Ji Feng's opinion, this should be the police and the military working together to investigate this case, but Ji Feng, who is the person involved, does not know what really happened in between.

In fact, Ji Feng was very puzzled in his heart, if it was said that the police had taken action, they might not be able to catch the people in the two black Buicks, after all, it could be seen from the means of escape of that Buick, the other party was definitely ruthless and calm, it was hard to deal with.

Many police officers are only able to play the game against the people, but when they encounter real criminals, they immediately become weaklings, and are no longer a dog.

However, this time it was the special operations brigade led by Xiang Yongzhan who took action!

The fact that they couldn't catch the other side even after they had taken action undoubtedly said a lot. At least, in terms of ability, Ji Feng did not doubt the combat ability of the special combat brigade in the slightest.

So, were they really unable to catch them, or did they not want to catch them? Or maybe ..... The first thing you need to do is to get a good idea of what you want to do.

The first thing you need to do is to find a way to ask Xiang Yongzhan in person what this is all about!

The first day of school is today, and it is also the day to report back to school, so even if Ji Feng doesn't go himself, he still has to accompany Xiao Yuxuan and Tong Lei over.

The first day of the school year is the first day of the school year, and it is also the day to report to school.

Not to mention the two beautiful women themselves.

As they ate their breakfast, the two girls seemed to have forgotten what had happened yesterday, and most of the topics they talked about were about school, giggling from time to time.

The two beautiful women were sitting together, and it was really quite eye catching!

.....

Once again, this time, Ji Feng came to school as a sophomore, he surprisingly had a feeling of long absence, he carefully counted, it seemed that it had been more than two months since he last came to school. Moreover, last semester, the time he spent in this school was actually less than one semester!

Thinking about it, Ji Feng couldn't help but smile bitterly, where was he when he was still the one who studied hard and was never late every day, rain or shine?

After going to university, people have also degenerated.

“Already a sophomore, a quarter of college has already passed, next you must study hard!” Ji Feng falsely admonished himself in his heart, and after thinking about it, he added: “If you can not skip class, then try not to skip class!”

In reality, there wasn't much difference between freshman and sophomore year, the dormitories didn't change, the classes didn't change, except for the need to pay tuition fees and receive new textbooks, it seemed that everything remained the same.

Ji Feng dropped Xiao Yuxuan and Tong Lei off at the bottom of their foreign language department's teaching building, and then went straight to the dormitory.

In the dormitory, Du Shaofeng, Zhao Kai and Han Zhong were laughing and joking, and they had not seen each other for a long time, so the brothers missed each other very much.

Ji Feng had just arrived at the dormitory door when he heard Han Zhong let out a wicked laugh, which would have scared a few people if it was midnight.

“Are you all so happy? What are you talking about?” Ji Feng smiled and walked in, “I heard you guys laughing wickedly from a long way away, you're not discussing something bad, are you?”

“Coming!”

Du Shaofeng laughed, “Ji Feng, you're late, you didn't see this guy Han Zhong's lecherous `slutty look.”

“Old Du, you're wrong.” Zhao Kai, still in that habit of holding his glasses, said with a serious face, “That look of his is not called lewd, it's called ..... Kinky Bitch!”

“Right, right! This term is very apt!” Du Shaofeng immediately nodded his head.

Han Zhong, however, was full of care and said disdainfully, “What the hell do you guys know, do you know what a ripe girl is? Do you know what a ripe peach is? I'm telling you, teacher-student love, that's what it's all about, got it?”

“What are you guys talking about?” A few black lines appeared on Ji Feng's forehead, the topic these guys were talking about was really lewd.

“Ji Feng, you still don't know, today we saw a beautiful teacher at the reception point of the foreign language department, that looked so flirtatious .....” Han Zhong spoke up with a fantasy face.

Chapter679

“Beautiful teacher?”

Ji Feng was stunned by what he heard, and then he couldn't help but laugh, “You guys aren't blind, are you? When I came here, I also passed by those new student reception points, and I didn't see any beautiful teachers, right? Besides, what kind of beautiful teacher can compare to my Yu Xuan?”

“Cut!”

Looking at Ji Feng's stinky face, Han Zhong's three men simultaneously gave a disdainful laugh.

“A flower stuck in cow dung!” Han Zhong skimmed his mouth, “What's there to show off?”

“Stuffy.” Zhao Kai always spoke in a concise manner, but it drew a laugh.

“You’ve all finished with these derogatory words, so what do I say?” Du Shaofeng said with a dissatisfied face.

“The rest of those adjectives, you can say them all, like what shameless ah, love to show off ah, stomp on the nose ah and so on, anyway, how you feel, then how you say.” Han Zhong coached Du Shaofeng from the side, “You ah ..... This kid just has a bad brain.”

Du Shaofeng slapped Han Zhong on the shoulder, instantly causing the latter to grimace in pain.

“I think that these adjectives are not enough to express my contempt for Ji Feng.” Du Shaofeng gave a heated smile.

Looking at these three guys singing in unison, Ji Feng was filled with black lines, “You guys, this is jealousy, I can forgive you.”

“So what if it’s jealousy!” Zhao Kai nodded his head seriously, “But luckily, there are still a lot of good women in this world ..... From today onwards, we won’t be jealous, our goal, is to make you jealous of us!”

“There is such a good thing?” Ji Feng looked at the three of them skeptically, “What do you plan to do?”

“Pick her up!” Han Zhong had a determined face.

“Make her willingly obey me!” Zhao Kai said in a crestfallen voice, but the cheap smile in his eyes was something that even a blind man would be able to see.

“Let her be my daughter-in-law!” Du Shaofeng said in a naive voice.

Ji Feng looked at these three guys who all had a longing look on their faces as if they were intoxicated, and he couldn’t help but frown slightly: “..... Okay, you three are very ambitious. But are you sure there really is such a beautiful teacher? If there really was such a beautiful woman, wouldn’t the word have spread last year and you’d have to wait until now to find out?”

“How do you guys know it’s a teacher and not a student?!” Ji Feng added, “Maybe it’s a new student?”

“No way!” Han Zhong said categorically, “It absolutely can’t be a new student because I personally heard the other teacher at the new student reception point, calling her Teacher Bai, surnamed Bai and a teacher by profession, that’s for sure. As for why I haven’t heard of her before, there are two possibilities, either she’s a very low-key person, or, she’s new!”

“Her name is White Spider!” Zhao Kai next to him added to Han Zhong’s words, and at the same time, he quickly wrote down the word White Spider with his hand on the table.

Swish!

All three pairs of eyes were fixed on his body, asking in unison, “How did you know that?”

“By looking!”

Zhao Kai pointed to the glasses on his face that were slightly thinner than the bottom of a bottle and said with a proud face, "Wearing glasses, sometimes has its advantages, at least you'll see more clearly!"

"Where did you see her name?" Han Zhong scratched his head a little, "The three of us passed by there together, how come we didn't see it?"

"There were a lot of new students coming to report, so it's not surprising that you guys couldn't see it!" Zhao Kai said vaguely.

"Then how did you see it!" Du Shaofeng asked undeterred.

Han Zhong was also staring straight at him, "You wanted to make the first move?"

Looking at these two guys who planned to strike at the drop of a hat, Zhao Kai couldn't help but laugh bitterly, "What, you guys can't compete with me in terms of action, so you want to strike?"

"This is our advantage!" Han Zhong looked Zhao Kai's skinny body up and down, "It's like we don't have your bottle-bottom-thick glasses."

Ji Feng laughed wickedly next to him, "Let your boy show off, now you've got a problem."

Zhao Kai couldn't help but laugh bitterly, "Alright, count on you guys being tough. Let me ask you guys, when you see a beautiful beauty, what part of her do you all look at first?"

"Hm?" Du Shaofeng froze.

"What part ....." Han Zhong was also slightly stunned, "Of course it's the face!"

"That's right!" Zhao Kai snapped his fingers and said with a bad smile on his face, "I am very different from your habits, if I meet a beautiful woman, the first thing I look at is definitely her breasts ..... So, today I saw it by accident ..... I mean, I saw her badge, her name was written on it, it was called White Spider!"

Only then did Han Zhong and Du Shaofeng let go of Zhao Kai, and Ji Feng hurriedly sat back down. Just now, while Han Zhong and the two of them were getting up in anger, he also took advantage of the chaos to press Zhao Kai a few times.

"Holy shit, my hair!" Zhao Kai looked at Han Zhong and Du Shaofeng indignantly and hurriedly looked at the mirror to fix his hair,

"Nasty!" Han Zhong glared at him.

"Agreed!" Du Shaofeng, who did not react as well as Han Zhong, could only nod his head in agreement with his words.

"Individuals like different things, there's nothing nasty or not about it." Zhao Kai disagreed with them, "But then again, that beautiful teacher called White Spider, the beauty is really tasty enough ....."

A few people made a scene for a while before Ji Feng waved his hand and asked with a smile, "In that case, which one of you three is actually going after that white ....."

"The white spider!" Du Shaofeng reminded.

“Yes, the white spider!” Ji Feng nodded and smiled.

“We’ve just discussed it, we’re all together, each according to our ability .....” Han Zhong gave a heated smile.

“Except you!” Zhao Kai stared straight at Ji Feng, “Except you, you can’t be involved.”

Ji Feng hemmed and hawed, “Why?!”

“There are already few beautiful women, and you are taking up so many resources, if you go overboard, you will be condemned by heaven!” Zhao Kai said.

Ji Feng immediately laughed bitterly and couldn’t help but nod and lose his smile, “Fine, fine, I won’t get involved, I had no intention of getting involved either. Alright, it’s almost time to go to class, let’s go together.”

The three guys muttered something else, Ji Feng shook his head and laughed as he watched, striding out of the dormitory.

“White spiders .....” Ji Feng could not help but secretly shake his head, this name is really strange, how can anyone be called a spider, this is not a martial arts novel or a character from a movie .....

Although the heart felt strange, but Ji Feng also did not think much, just feel some funny.

Of course, he wouldn’t really think that the three Han Zhong would go after that so-called beautiful teacher, the white spider, together. These three guys were actually just joking around when they talked and laughed.

Without saying anything else, Du Shaofeng showed no signs of a relationship for the time being, which was evident from the fact that he didn’t deal with girls at all. Zhao Kai, on the other hand, has a perpetually sullen look and never seems to have a good opinion of girls.

In his opinion, he would rather hide in his dormitory and watch some island adult action movies than go out and fall in love with a girl.

Han Zhong was a bit of a possibility, but looking at his cheap smile as he spoke, Ji Feng knew that this time, this guy wasn’t serious either.

The reason they were making such jokes might really be because that white spider was too pretty, too.

Since it didn’t have any effect on his friend, Ji Feng stopped paying attention to this matter and asked, “When is the elective course at school? I remember, it seems that when you reach sophomore year, you can take electives, right?”

Freshman year was almost always a compulsory course, and the vast majority of the courses did not involve too deep professional issues, but rather some simple language, English and other courses, which was to allow students to adapt to the gap between high school and university, and also as a kind of transition.

But from the second year onwards, the courses start to get busier and students have a lot more autonomy, such as being able to choose their courses and their teachers.

You can choose which teacher you like and which teacher teaches you well.

The elective courses are also compulsory, except that you can choose the one you like from many courses, but you have to take it because the University is a credit system, and if you don't take enough credits, you won't get a diploma until you die of old age.

This kind of elective is also a kind of assessment for the teachers, which is linked to their titles and salaries.

For example, if a teacher's teaching level is poor, or his character is not good, and he is not liked by the students, then the number of students who take his course will definitely be few, and at this time, the school will find trouble with this teacher.

Ji Feng is concerned about this issue because he is afraid that he will miss the time to choose his course, even though he has decided to study hard from today, but God knows when he will be too busy to come to school again, and if he cannot get his diploma, it will be a big joke.

"It seems to start in October, I'm not sure exactly, the school hasn't given a notice yet, if you want to know, just ask your tutor later?" Zhao Kai said.

Ji Feng nodded and said, "That's right."

A group of four people talked and laughed as they walked in the direction of the teaching building. However, just after walking for a short while, Ji Feng wondered.

"I say, this isn't the way to the teaching building, but to the east gate, right?" Ji Feng asked, "What the hell are you guys up to?"

"The small square in front is occupied by the student union, they are distributing bedding and living utensils to the new students, there are too many people, so it's better to take this path." Han Zhong said.

"Wasn't the small square the reception point for new students last year?" Ji Feng couldn't help but shake his head, "The student union people are really messing around, changing around like this, people who aren't familiar with it can't find the place."

"That's not true!" Han Zhong nodded in agreement, and then he smiled heatedly, "But if it wasn't like this, we wouldn't have been able to meet that beautiful teacher at the gate. It's all thanks to the student council, which deserves praise!"

"And nostalgic?" Ji Feng cried and laughed, "Have some heart, will you? Thanks to you, you're still the old boss now!"

Chapter680

"What does liking beautiful women have to do with being old or not?!" Han Zhong bristled, "You brat has not seen that white spider, frankly speaking, she is almost on par with Xiao Yuxuan!"

"Just kidding! Apart from Lei Lei, who can compare to Yu Xuan!" Ji Feng said in a loud voice.

“Ji Feng, don’t really disbelieve me, here, it just so happens that the new student reception is not far ahead, let’s go over there together and see for ourselves!” Zhao Kai laughed.

“Well, that’s something to go and see, what kind of beauty is it that you guys can make sound so godly.” Ji Feng nodded and laughed.

A group of four people, skulking along the cobbled path, arrived at the main entrance.

Ji Feng was stunned: “How does this look?”

The entrance was simply filled with new students who had come to report, and there were new students and parents everywhere with big bags in their hands.

It was undoubtedly a delusion to want to see the beautiful teacher at that reception point across so many people.

“Look at me!” Du Shaofeng rolled up his sleeves and was about to squeeze forward.

“Forget about you!” Zhao Kai hurriedly pulled Du Shaofeng back, “If you run over there with that look, you’ll still scare people, right? It’s better for me to go!”

When he saw Du Shaofeng’s black tower-like figure, Ji Feng was happy. He remembered that when he first reported to school last year, this guy relied on his sturdy body to squeeze a way through the mountain-like crowd.

..... This guy knows how to use his advantage!

“Follow me!” Zhao Kai waved his hand, after which he straightened his collar, took his student badge in his hand again, and walked forward with big steps.

“You kid aren’t trying to impersonate a teacher, are you?” Han Zhong instantly realised what Zhao Kai wanted to do and asked in a panic.

“Impersonating a teacher? Do I need to pretend to be a teacher? People can tell I’m a teacher right away!” Zhao Kai hedged and laughed.

Ji Feng and the others were instantly speechless.

But having said that, this guy was wearing semi-casual clothes, his leather shoes on his feet were so bright that they could almost shine out of a person’s shadow, his hair was combed as if he was licking a cow, and he was wearing glasses on his face, so he really looked like a human being.

If he told the new students that he was a teacher, there was no guarantee that anyone would believe him.

As expected, with Zhao Kai in the front and Ji Feng and the others following behind, those new students who came to report saw this formation, and when they looked at Zhao Kai’s teacher’s outfit, they squeezed to the side and hurriedly gave way.

Zhao Kai swaggered past those new students, while not forgetting to wink at Ji Feng and the others.

“Shame on you!”

“Impersonating a big-tailed wolf.”

“No wonder the school is cracking down on upperclassmen who bully new students, they’re all pissed off by this bastard type of person.”

.....

The three Ji Feng followed behind, staring at Zhao Kai’s back and expressing their opinions, Zhao Kai was instantly linked directly to words like bastard and shameless.

“We’re almost there, Ji Feng, look more carefully later!” Han Zhong whispered to remind Ji Feng. In the company, he had started to change his name to Ji Feng as boss, but in school, he still called Ji Feng by his first name directly.

Ji Feng nodded slightly and said amusedly, “You guys can’t be like that, why does it sound to me like you guys brought me here specifically to see a beautiful woman?”

Of course he could see what these guys had in mind, it was obvious that Zhao Kai and the three of them wanted to take another look at that so-called beautiful teacher, otherwise, given their character, wouldn’t they be so desperate to prove to themselves that that teacher was really beautiful.

You know, Han Zhong used to be more or less a fop, but he didn’t show that kind of impetuous character either, much less the kind of fop who couldn’t stand to be provoked by others.

The more you provoke him, the more he will despise you, and he won’t prove anything to others just because he’s hot-headed.

To say that the only person who would be reckless when provoked by others is perhaps Du Shaofeng.

The only one who could make them change their normal attitude was that so-called beautiful teacher.

“This student, this is the slip for you to collect your living supplies, please take it and then follow the volunteers from the student union to collect your living supplies.” A voice with a slight hint of coldness came from the comprehensive crowd, and even in this noisy environment, Ji Feng was able to hear it incredibly clearly.

Ji Feng was stunned, just by listening to the voice, he could hear that the woman who spoke had a coldness that came from her bones, but she disguised it so well that it was hard to hear it if one wasn’t paying attention.

Zhao Kai’s identity as an impostor teacher would not work in front of this reception point, and he also

However, when those students spotted Zhao Kai, they subconsciously froze and then hurriedly moved out of the way.

In fact, no matter how rampant and domineering these students were in their hometowns, once they came to the outside city, far away from their hometowns, they would unconsciously be a bit vain, unless they were the kind of people who were so arrogant that they didn’t know how high the sky was, only when they first arrived outside would they be full of talk.

The so-called people away from the country cheap, in fact, it is better to say that this is a person's heart faint, especially for those who often rely on the family and act arrogantly domineering people, it is more so.

This kind of person, in Mang Shi County, has a saying, and is known as the dog that protects the family's door!

Anyone who has lived in the countryside knows that there is a kind of dog that, if it is in front of one's house, looks more vicious than any dog, constantly baring its teeth and barking, looking as if it is about to pounce on passers-by!

However, once it leaves the house, even if it runs a little further away, just across almost homes, the dog is no longer vicious, and with just a stomp of the foot from a passer-by, the dog can flee in fear with its tail between its legs and in disarray. When it gets to the doorstep of the house, it becomes vicious again.

In fact, there are many people who are just like this kind of dog that protects the door of their homes, being more fierce than anyone else in front of their homes, but once they leave their homes, they become cautious with their tails between their legs all day long, afraid of being watched by others and afraid of offending them.

Of course, there are also many people who are originally uncontested by nature, or honest and proper, and there is no shame in such people being honest outside.

There are also many people who are wild at heart, but people are more shrewd, just come out carefully, once he has felt the doorway outside, that character will show up, this kind of people, often have no small action, no matter good or bad aspects, always will not bumble!

"Ji Feng, look, over there is the white spider ....." Han Zhong suddenly said.

"Hmm?" Ji Feng was stunned, then turned his head to look, a shocked light flashed steeply in his eyes, then he fiercely lowered his head, his eyes blazing.

"Why don't you look?" Han Zhong asked with a smile.

Ji Feng took a deep breath and tried to calm himself down as he smiled, "Oh, I've already seen it, it's indeed beautiful."

"Isn't it, I told you, if you compare seriously, this woman should be on par with Xiao Yuxuan." Han Zhong nodded and said, "Otherwise, look at these two guys, can they all look like they're in heat?"

Ji Feng was suddenly dumbfounded.

However, to be fair, this woman is indeed very beautiful, and not just beautiful, but a mature flirtatious, a knitted brows, a smile, a move, all have an incomparable seductive power, but her face, but often without a smile, showing a faint coldness.

This coldness and flirtatiousness, concentrated in the same person, may seem contradictory, but in this woman's body, it is extremely perfect, without the slightest incongruity.

For these young boys in their twenties, this kind of charm that is both contradictory and perfect is simply a great attraction that no one can resist anymore.

However, Ji Feng didn't have any feeling of being moved, all he had in his heart was just a cold killing spirit!

It was this woman!

Ji Feng secretly sneered in his heart, this woman was actually a teacher of the United University?

No wonder Ji Feng's reaction was so strong, it was really because, this woman's appearance was too much of a shock to him.

This woman was no other person, the first time Ji Feng saw this White Spider, he immediately recognised that this so-called new beautiful teacher, White Spider, was the same air hostess he had seen on the flight from Yanjing to Jiangzhou back then!

At the same time, it was also the woman who had followed him that Ji Feng had seen back then near the pharmaceutical factory.

How did she come to be a teacher at United University?

Ji Feng was extremely puzzled, according to what Han Zhong and the others said, this woman should be a new teacher at the school.

Ji Feng felt that this analysis also made sense, based on this woman's looks, if she had been at this school before, she would have definitely become famous long ago, so how could she be unknown?

Although Ji Feng knew that he had spent less than half a year at the school last year, he still knew some of the news about the school, such as so-and-so had become a news figure again, so-and-so had achieved very good results in the basketball tournament, and so-and-so had even heard of scandals such as a teacher going out to a room with a female student and being caught by the police during the inspection. He had heard of them all.

However, he had never heard of this white spider. Moreover, just last month, he had also seen this woman on the plane when she was a flight attendant .....

Apparently, the white spider had just come to United University as a teacher.

So, this woman named White Spider, who suddenly came to the school to become a teacher, what kind of purpose did she have in mind?
