

Celestial Bloodline

#Chapter 11: Bloodline? - Read Celestial Bloodline

Chapter 11: Bloodline?

Chapter 11: Bloodline?

Status

Name: Alec

Rank: +F

Strength: +F

Mana: F

Agility: +F

Talent: +SSS Rank

Luck: +D

Special skill: Double power

System Shop°

System Missions°

Alec calmly looked at his status from the corner of his eyes, and then he looked at the Vice Principal's shocked face.

Who exclaimed with disbelief,

"...(+SSS)-Talent? How?"

When was the last time someone with an (+SSS)-Rank talent was seen? It's been more than 500 years!

Not just the Vice Principal all the teachers present behind him looked at Alec with shock. The Vice Principal immediately gave the task of recording the new student's talent to another teacher and went to communicate with the Principal.

The appearance of someone with (+SSS)-Rank talent after so long was huge news!

The students also expressed their disbelief while looking at Alec with envy.

"Did the Vice principal just say (+SSS)-Rank talent?"

"How is this possible, even the second prince has only (-SSS)-Rank talent!"

Looking at Alec's talent a lot of students felt down. Carcel who was standing with Lara and Mia clenched his fists.

He thought he was the strongest among the young generation but now seeing Alec's talent he felt like his talent was not good enough. But he decided to compensate for his lack of talent with hard work.

Lara also looked at Alec with a serious expression,

'First Carcel now Alec both of them have (SSS)-Rank talent and here I was happy with only (SS)-Rank talent, It seems I need to work hard.'

Even Mia felt that her talent paled in comparison to Carcel and Alec.

On the other hand, Kyle shook his head with a bitter smile.

He already thought that Carcel's talent was high enough now even Alec has (SSS)-Rank talent. He didn't dare to compare himself with these two monsters, so rather than getting jealous he decided to not think about them at all.

This time the commotion lasted more than just a few minutes, that's why the teachers decided to calm the students. So they can continue without wasting any more time.

More and more students were called on the stage, but no one after Alec had talent greater than (+S)-Rank. After a few more students Kyle's name was called.

"Kyle Ohan"

'Ohan' surname was not famous, that's why when everyone heard Kyle's name they didn't think much about him. But when they saw his face half of the students became angry.

He was the one cursing and remarking on their performance during the third round.

Alec and Carcel also looked at Kyle but rather than anger they were curious, they remember seeing him during the first and second rounds.

In fact, they were expecting Kyle to have at least (SS)-Rank talent considering how easily he passed the first and second rounds. Even some teachers were looking forward to seeing Kyle's talent.

Meanwhile, Kyle gazed toward the stage with his black eyes. The sliver corners of his black hair flutter as he steps onto the stage. He was handsome but compared to someone like Alec and Carcel his looks would only be considered average.

While walking Kyle felt some hostile stare on his back but he didn't think much about it.

After stepping onto the stage, Kyle put his right hand on the Crystal.

Stats:

Name: Kyle

Bloodline: Celestial (Locked)

Rank: -F

Strength: G

Mana: F

Agility: G

Talent: B Rank (suppressed)

Luck: A

Skills:

#*Fireball (F)-Rank:

User can use mana to create a small fireball. The more mana used the bigger the size of the fireball.

#*Ice Dragon inherited skill; Ice Domain (S)-Rank:

User can call upon a Domain in a specific area, locking and freezing the area.

Inside the Domain;

All stats will increase by a sub-rank,

Water-type and ice-type attacks would be ineffective against the user,

Enemies will have all their stats reduced by a sub-rank.

To use this skill at least (-C)-Rank mana is required.

Kyle glanced at all of his stats from the corner of his eyes, he was stunned. Two of his stats were (G)-Rank! Which could be said to be the lowest rank.

But the thing that stunned him the most was the (S)-Rank skill. (S)-Rank skills were Just as rare as finding (SS)-Rank talent. Now he understood why the Vice principal was hell-bent on getting him into the Academy.

One of the teachers looked at the Crystal showing a light yellow color and was dumbfounded.

"...(B)-Rank??"

The teacher looked at Kyle with a sharp gaze.

'How is this possible didn't he pass the first and second rounds of the test very easily.'

Alec and Carcel were also stunned knowing the person they thought would be equal to them only had (B)-Rank talent!

Other students also got angry, they exclaimed while gritting their teeth,

"What? Only (B)-Rank talent! Wasn't he the one giving us crap during the third round?"

"I thought he would be at least (SS)-Rank!"

"What (SS)-Rank talent he didn't even have (A)-Rank talent!"

Some of the students wanted to beat Kyle up considering how he cursed at them during the third round. But seeing the teachers were still present they controlled themselves.

While all this was happening, Kyle looked at his stats in a daze because he just noticed something else.

'What Bloodline? When did humans start having bloodlines. I thought only monsters have bloodlines! And why is my Rank suppressed?'

Kyle had thousands of questions going inside his head. His heart was beating fast because if his rank is shown suppressed does that mean he can increase his rank?

He was shocked to his core and after a few minutes of shock, he was excited! Excited because if he can somehow increase his talent maybe he will be able to rival people like Carcel or Alec.

The teacher standing in front of Kyle looked at him with disdain, Kyle who was staring at the Crystal was snapped out of his stupor after hearing the teacher's cold voice.

"You can leave now."

Kyle wanted to ask about the Bloodline showing in his stats, but he refrained from it because he doesn't trust anyone enough to tell them something like this.

Amidst all this, the one thing Kyle failed to notice was his luck stat, which was (A)-Rank!

The highest among all the Students. Not just students if compared maybe his luck state would be the highest in the whole kingdom.

Chapter 12: First Class / Library

After everyone's talent was recorded, the teachers gave the students their identification tokens.

They also explained some rules, like killing, fighting, thievery, or other malicious deeds were prohibited inside the Academy. If there's something that can't be solved without fighting, then you are allowed to challenge each other inside the Academy Arena.

The rules were so strict that even the noble titles were useless. Besides the Academy will punish those who dare to break the rules.

The good thing was that students were allowed to skip classes as many liked to practice in seclusion, but everyone was required to complete missions assigned by the Academy every month.

These missions give points, which can be exchanged for money, art books, skills, or other things inside the Academy.

A young teacher gave the students a tour around the Academy.

The Royal Academy was very large and because today was the first day, students only needed to register themselves inside the main building to know their assigned dorms.

They can also check their classes scheduled in the main building.

After sightseeing around the Academy for some time, all the students left to register themselves in the main building.

The main building was very crowded with students of different years.

Kyle passed through the huge crowd and saw a big board not so far from him which showed him the class schedule. Also, there was a big receptionist desk beside the board. Sitting inside the reception was a young man, who was giving dorm keys to the new first-year students.

After getting the keys from the receptionist, all the students went to their assigned dorms to rest. Almost everyone was tired due to the last three days being too hectic.

Kyle also took a key from the receptionist and went to his dorm. The dorm room was small with a single bed in the middle, a cupboard, and a small desk in a corner.

He sat on the bed for a while but was too excited to sleep. That's why instead of resting he left the dorm and went toward the Academy Library.

The library had 4 floors, in which the first floor contained basic information about the world. The second to fourth floors contain different Rank arts and skills, which can be learned through hard work. But to enter any floor except the first floor points were needed.

However, Kyle was not here for skills or arts. He wanted to know about the 'Celestial bloodline' showing in his stats. That's why the first floor which contained information about the world was enough for him.

In the end, even if he wanted to enter other floors, he was unable to because right now he lacks points, which can only be obtained by completing missions.

Kyle entered the library, not a single soul was present on the first floor. Occasionally some students would enter the library, but they all would go to the upper floors instead of staying on the first floor.

After ignoring the suspicious stare he was getting from the librarian Kyle began looking for books related to Bloodlines.

Even After looking around for quite some time, he didn't find any book that contained information about humans having bloodlines. But he didn't give up and started collecting books related to the monster's bloodlines.

After Collecting more than twenty books, Kyle sat on the cold floor behind a bookshelf so the librarian wouldn't be able to see him. He was so engrossed in reading that he didn't even notice the long night slipping away.

Next day early morning,

Currently, it was 8:00 AM, and the classroom of the new first-year students was already filled to the brim. Because no one wanted to be late for their first class.

The classroom was sparkling and spotless with many benches and chairs present on one side for the students. Among the sitting students, the most eye-catching was a group of 4 students sitting in the last row.

From time to time many girls and boys would try to peek at the 4 individuals and blush.

These four were none other than Alec, Carcel, Lara, and Mia. Today when Alec and Carcel were entering the classroom, Lara spotted them and suggested sitting together, and to her surprise they agreed. And because Mia didn't know anyone except Lara in the class, she also sat with them.

After a while, the instructor entered the classroom and stood behind the podium. She scanned the whole class before speaking calmly,

"Today is your first day, so there won't be anything special. But I hope no one slacks off during my class."

The instructor's eyes briefly passed on Alec, Lara, and a few others, because she heard about them from the Vice Principal. She put her hand on the podium while looking at the students.

"Now, let's start with attendance and self-introductions. I am Aliza Park, your instructor for this year"

All the Students looked at the instructor, they all knew who she was.

'Aliza Park' is one of the famous Rankers from the last generation. Currently, she is the youngest (S+)-Rank in the whole kingdom while only being 36 years old.

Aliza was beautiful with long black hair and a beautiful figure but she was known for being cold and ruthless.

She removed her hands from the podium and picked up the Attendance sheet present on top of the podium.

"As it is your first day, I won't take too much of your time. I know you all would be exhausted due to not having enough sleep the last three days. So I will make this first lesson short."

"Alright, Let's first take attendance"

Looking through the attendance sheet Aliza quickly started calling out names.

"Lily"

After hearing her name being called the student enthusiastically raised her hand and said in a loud voice,

"Present"

Aliza looked at the student and nodded before she continued.

Chapter 13: Absent?

"Alec"

"Present"

"Mia"

"Present"

.....

"Kyle"

Aliza looked at the students and raised her voice after not hearing a response,

"Kyle Ohan."

"Is Kyle not present?"

All the students looked at each other, they all knew about Kyle because he left a bad impression on them during the last round of the entrance test. But no one expected him to be absent during the first class.

Aliza looked at the class and frowned but she didn't comment on it, as students were allowed to be absent from the class.

'Kyle Ohan! I will remember this name to see who is bold enough to be absent during the first class.'

Writing Absent in front of Kyle's name she continued with the attendance.

"That's it for today, get to know your classmates and tour around the training areas to familiarize yourself."

After closing the attendance sheet Aliza left the classroom.

The moment Aliza's figure wasn't visible anymore, all the students started talking excitedly. Especially the boys.

"Wow, that's the youngest (+S)-Ranker of the Kingdom?"

"She's so beautiful! I think I have fallen in love"

"Pfff, have you seen your face? Someone like her would never even glance at a loser like you!"

On the other hand amidst the gossip, Alec stood up and left the class. He wanted to see the training areas of the Academy.

Actually, he was anxious because, for the past month, the System has not given him any missions. He wanted to become strong but considering the system was not giving him any mission, his progress has slowed down compared to before.

A week ago the system finally gave him a mission but because it was very strange, he was not able to complete it.

'Mission; xX'

Help the celestial to reduce the bloodline suppression effect.

Reward:

2x Sub-ranks increase.

2x S-Rank skills.

Time remaining: xx

He didn't know who was the Celestial. Where should he find him? How can he help them in bloodline awakening?

Usually, he has to complete missions within a given time limit and if he can't the mission will fail, but this time the system didn't give him any time limit.

Alec wasn't even able to communicate with the system, the system was a strange entity he found during the worst time of his life.

He was an orphan and the orphanage he lived in was attacked by the monsters. All the kids living in the orphanage died due to the monster's rampage.

At that time, seeing the dead bodies of his brothers and sisters Alec felt like everything was his fault. If he was just strong enough he would have been able to protect those precious to him.

After losing his senses in anger he entered the Dark forest without thinking much about the consequences. Even though he was weak, he didn't care because he wanted to take revenge for his brothers and sisters.

He would have already died in the forest if he hadn't made a connection with the system accidentally.

After the connection was established, the system showed him the destruction of the world he was living in. It was a scene Alec would never forget his whole life.

Dark clouds roamed around the world, dead bodies were piled around everywhere, and the only sound one could hear was screams and painful cries filled with agony.

No matter whether kids, old or young everyone was dying. The world was on the verge of collapse.

After seeing such a devastating scene, Alec promised himself to become strong. So he can stop the destruction of the world, and protect those precious to him. And also because the system was helping him, that's why he easily started to climb the Ranks.

Right now he was weak, and couldn't do anything. But the future he had seen through the system would come soon and to change that devastating future he needed to work hard.

When Carcel, Mia, and Lara saw Alec leaving they also followed behind him.

They don't have talent like Alec but they didn't want to slack off and blame everything on talent, because talent is not everything, if one doesn't work hard even if they have the talent they won't be able to achieve great heights.

When they left the class, a lot of students followed behind them because no one wanted to be left behind.

After a while, Alec entered the training area. A large open ground around the size of two football fields appeared before his vision.

On one side of the training ground, there were hundreds of dummies, that were perfect for those who focus on close combat.

The training dummies were made of (B)-Rank material, an extremely tough metal that could even withstand the impact of an (A)-Rank attack. And students could train against them freely without worrying about breaking them.

On the other side, a lot of bullseye targets were present for those who specialize in long-range combat.

The middle part of the training ground was empty, meaning that it did not have anything. Basically, it was an area that everyone could use to practice whatever skill and art they wanted to practice.

After seeing the training ground Alec directly went for the dummies and started practicing. Just a few minutes later Carcel also entered the training ground and seeing Alec working so hard, he clenched his spear and also went for the dummies.

On the other hand, Lara and Mia made their way toward the long-range area. After a few seconds, many more students entered the training grounds and started practicing their specific skills.

Chapter 14: Red Snow Flower

Vice Principal George stood at the edge of the training ground, overlooking the students.

Turning around he looked at the beautiful woman standing next to him and said,

"What do you think about the new students?"

Standing on his left side, Aliza looked around and pointed toward a few students.

"There are a lot of promising students, but the ones who catch my eyes are Alec, Carcel, Lara, Mia, and Nine"

The Vice Principal nodded but seemingly noticing something he frowned. Seeing the Vice principal frowning, Aliza questioned

"What happened?"

The Vice Principal scanned the whole training ground before saying,

"That student is not present."

Aliza looked at the training ground and thought about Kyle as she had already heard about him from the Vice Principal.

"The one who took the (S)-Rank skill during the entrance exam?"

The Vice Principal didn't speak and just nodded his head in reply.

"He was absent today, but no need to worry. The next time he is present, I will make sure he knows what it means to skip my class."

Aliza smiled before placing the name 'Kyle' inside her blacklist. But the one thing she didn't know was that she wouldn't be able to see Kyle's face any time soon.

The Vice principal looked at Aliza and sighed before leaving,

'I wish that instead of Kyle, Alec was the one who got the (S)-Rank skill. What a waste.'

Meanwhile,

Kyle who was not aware that Aliza placed him on her blacklist, continued to read books about Bloodlines. He already saw the burning sun outside, but because it was already too late he decided to skip class for today.

After reading books the whole night, Kyle found a lot of knowledge about the monster's bloodlines. Monsters can awaken their bloodline when they are under extreme pressure or when they become adults, but the time to reach adulthood is different for all types of monsters.

All the information he found was related to monsters that's why Kyle was not sure if it would be useful for him. Nevertheless, he still decided to continue to search for more information until he found something useful.

A week later,

The first floor of the library was still the same but the one thing which looked out of place was a specific corner behind a bookshelf. It seemed a certain someone had made that corner his home.

Clothes, some food, shoes, and various other necessities were placed beside a young man who was continuously flipping pages of two different books.

As Kyle was busy reading, the old librarian stood on his left side staring at him with a dark face.

It's been a week since Kyle entered the library but he showed no sign of leaving, except for going to relieve himself or if he is hungry. He even ignored the librarian's presence.

'This kid, doesn't he have any class? What the hell is he reading? I haven't slept for a week due to him always sitting inside the library.'

The Librarian lightly slapped Kyle on the head before grabbing him by the collar with one hand.

"Ugh, What... " Kyle was startled suddenly being picked up by the librarian.

He tried to free himself from the old man's grip, but the difference in strength was too great. Even after struggling with all his might Kyle was not able to free himself and that's why he stopped resisting and accepted his fate.

The old man looked at Kyle strangely, who suddenly stopped struggling. Usually, someone entering the Academy would be at least (F)-Rank but seeing Kyle so powerless, he wonders if this lad is even in (-F)-Rank.

The Librarian tossed Kyle outside the library before speaking with a smile which was not polite at all,

"Free reading time finish kiddo. Now if you want to enter the library again bring some points with you."

"Ugh" Kyle looked at the librarian dumbfounded, wasn't the first floor free to use? Why did he suddenly throw him out?

Kyle stood up and dusted his clothes. He wanted to protest but seeing the Librarian smile he knew it was better to leave quietly.

He started walking toward his dorm.

"It seems I can't enter the library anymore, but it's okay I already found something useful."

Yesterday, while skipping through different books he saw a picture of a flower called 'Red Snow flower' that can help monsters in the bloodline awakening. But the problem was it could only be found in extremely hot places and also he was not sure if it would work because the flower was only useful to monsters.

Nevertheless, Kyle decided to leave for the mountain present behind the Academy. While finding information about the 'Red snow flower' he also read that among the three mountains surrounding the Academy, the one behind is the hottest. And if you can climb high enough there's a chance of finding the 'red snow flower'.

But because he can't leave the Academy without permission, Kyle decided to take on a mission.

After Kyle entered the dorm he took a hot bath. Due to staying inside the library for a week, he had not taken a bath.

Coming out from the shower Kyle glanced at the bed which was still untouched.

"Sigh, I was too excited and neglected my rest. I will sleep the whole day after coming back."

Kyle promised himself before leaving for the mission hall.
