Chapter 151 Market tour I

A few meters away from the Academy gate. Inside a market area, even though it was past midnight and the beautiful moon was shining beautifully in the sky, the market streets were bustling with all kinds of activities. A lot of stalls, restaurants, and shops were lined up in a disorderly manner.

A group of four boys wearing regular clothes were walking around the market streets while talking to each other.

The group was attracting a lot of attention because the one leading was very handsome with blue hair and deep black eyes. The other three walking beside him also had their charm but one of them was wearing a black color hoodie, that's why half of his head was hidden. Suddenly a small redhead popped out from the youth hoodie.

-'Just why do I need to suffocate inside your hoodie!'

Bia shouted with irritation as she looked around the bustling market. She wanted to enjoy as well but Kyle forced her to stay hidden.

Kyle used his index finger to push the head back inside his hoodie that just popped out again.

'I told you to stay inside the dorm. I agreed to come out because we are only visiting the market present a few meters away from the Academy.'

'I know it is not dangerous around the Academy because the area around the Academy is guarded but still we should stay cautious after what happened outside the Tower.'

Bia grumbled but in the end, she just stayed inside the hoodie while peeking out from time to time.

Kyle glanced around the market. He didn't like crowded places but under the illumination of so many lights, it looked beautiful. The sky was dark but the market was bright and filled with colors.

Carcel was walking beside him while Alec and Nine were talking non-stop in front of him.

They looked around for a while before stopping in front of a weapon stall. The weapons weren't bad because the lowest Rank weapon was (E)-Rank while the highest (D)-Rank but the group only looked around for fun as they already had their weapons.

Kyle gazed at the weapons and picked up a bow. It was brown, two blue gemstones were embedded in each corner of the bow.

Carcel saw the bow inside Kyle's hand.

"Do you want to buy it?"

"No, I just got curious because of the gemstones."

The stall owner was a middle-aged woman. She looked at Kyle who was holding the bow with a business smile and tried to sell it but Kyle just placed the bow back.

He liked it but it was useless because he always used a sword as his weapon.

'I will try using one in the future. Maybe.'

The stall owner was happy when she saw the group of handsome boys arriving in front of her stall but soon she became annoyed because the boys were only looking around without buying anything.

Kyle's gaze was on the weapons but from the corner of his eyes, he saw Nine was fiddling with a finger-sized bead.

Nine wore the usual carefree expression as he picked up a maze from the stall but one could see after he fiddled with the bead his expression turned cold for a second.

Kyle didn't think much about it but then he noticed Alec was secretly glancing at Nine. The gaze was very subtle but Kyle instantly noticed it because after putting the bow back he was standing behind the trio.

'Hmm?'

Kyle frowned but then suddenly Nine stepped back with a proud smile.

"Guys, I need to talk to my girlfriend. The communication crystal is buzzing inside my storage ring hehe."

He pointed at a nearby restaurant.

"Let's eat something good. Wait for me in the restaurant I will be back shortly!"

Kyle clicked his tongue when Nine was shamelessly flaunting about his relationship.

"Alright."

After getting the affirmation, Nine smirked and disappeared inside the crowd.

Carcel and Kyle went to another stall but Alec's meaningful gaze lingered on Nine fading back.

'Well, he will take care of it.'

He joined the duo and after annoying another stall keeper they went to the restaurant Nine pointed.

It was small yet filled to the brim. Many customers were sitting around the round tables while enjoying their food.

When Kyle, Alec, and Carcel entered the restaurant an old lady approached with a polite smile.

She guided them to a corner where the only empty table was present and handed them a paper menu.

"What would you all like to eat? We serve monster meat as our best dish but there are other specialties as well. Take your time to decide."

After giving a polite nod the lady left them alone.

"I want to eat meat!"

Alec said while looking at the menu. He wanted to pick all types of meats but when he saw the price tag his eyes widened.

"Why is it so expensive!"

A single plate of monster meat was worth 100 gold coins! It's because unlike normal meat monsters meat was delicious. It can also slightly recover consumer energy.

Carcel and Kyle gazed at Alec's expression with a chuckle.

Then they looked at each other, no more specifically they looked at the storage rings present on each other hands. Carcel was wearing a gold-colored ring that had a lot of gold coins and mana stones. As a prince, he wasn't poor at all but when he saw so many rings on Kyle's fingers he raised his brow.

Kyle had three rings on his fingers that were filled to the brim with many mana stones and weird-looking gold coins. Even though the coin's shape was different from the normal shape, it was gold nevertheless!

It seemed the only poor guy present here was Alec who was almost on the verge of crying after seeing the prize of the monster meat.

Even though both Carcel and Kyle could pay for the food easily an evil smile appeared on their face.

While Alec was busy looking at the menu. Kyle mouthed at Carcel.

'How about dine and dash?'

Carcel chuckled and mouthed back with a grin.

'The idea is not bad.'

Chapter 152 Market tour II

Meanwhile, after Nine left the trio. He crossed the busy street and entered a dark Alley.

His expression was solemn when he took out a bead from his sleeves. It was a special device that informed him if someone from his race was nearby.

He grabbed the bead and looked at the dark Alley.

"I know you would have been alarmed the moment I took out the bead so come out already!"

No one answered. The alley was quiet but Nine scoffed.

"Are you denying my orders?"

He said in an angry tone. His usual carefree and mischievous nature was nowhere to be seen.

After he shouted a shadow emerged from the alley. The shadow approached Nine before it turned into a middle-aged man.

The man had black hair and light blue eyes. His skin was glistening with a faint blue hue and he was wearing a black coat.

Nine gazed at him and frowned.

"What are you doing here? Last I remember you were assigned to take care of those dam creatures."

The man was obviously displeased when Nine asked him to come out. He half-heartedly bowed and looked at Nine with emotionless eyes.

"Young prince, the Queen assigned me to come here to find out everything about the black-haired boy who was with you a while ago. His name is Kyle, I wanted to enter the Academy but even after trying for a while, I wasn't able to. In the end, I decided to hide inside the city to wait for the youth to come out willingly."

Nine frowns deepened as he coldly stared at the man.

"Why do you want to know about Kyle?"

The black-haired man became irritated because he was just doing his job. He didn't want to answer but because Nine's status was higher he replied with an annoyed tone.

"The rumors about him having an (SSS+)-Rank beast had already spread in each Continent but because it's just rumored, the Queen asked me to confirm the authenticity of the rumors."

"Also, I am not alone who is keeping an eye on that Kid. I can sense a lot of powerful auras following behind him the moment he came out from the academy but because the Principal is back at the Academy that's why no one is attacking him mindlessly."

Nine facial expressions darkened. He clenched his fists. Of course, he knew about Bia and what happened when Kyle came out from the Tower. He just didn't expect that his mother would take an interest in Bia.

She always stayed away from these types of matters even Alec and Jian (SSS+)-Rank talent didn't pique her interest.

After thinking for a while, Nine looked at the man with a deep expression.

"You don't need to follow behind him anymore. Tell my mother to stay away from this matter. Kyle is my friend. I don't want my people to hurt him."

The man frowned visibly. He wanted to protest but Nine stared at him with his golden eyes.

"It's the second time you tried to deny my orders! I think you have forgotten after the Queen and the future Queen my status is the highest!"

Nine yelled loudly with a cold gaze. It had been a long time since he saw his mother but he knew even though he left his home, his position couldn't be snatched.

The man looked at Nine Golden Eyes and instantly fell to his knees. Those eyes were the symbol of the unique power that only a few can inherit. That's why, according to the rules he can't deny Nine orders.

Now he had no choice but to report everything back and wait for the Queen's next orders.

"I apologize for my rudeness. I will do as you wish."

Nine gazed at the kneeling man. His expression was cold when he turned around to leave but suddenly he remembered something.

He hurriedly stopped the man who was leaving.

"Wait!"

The man stopped in his tracks and looked back at Nine who walked toward him with a smile that he hadn't seen before.

"Well, do you have mana stones?"

The man frowned but he nodded.

Nine eyes lit up. He had a bad feeling that he would lose the bet he made with Kyle. He was reluctant to give his 'hard-earned' mana stones to Kyle!

"Give them to me."

The man frowned deepened but he gazed at Nine.

'I think it's okay to give away some.'

"How much do you need?"

"I don't need much... Just 50,000 is enough."

The man blinked his eyes, thinking maybe he heard it wrongly.

"How much?"

"50,000"

The man was dazed when he heard the amount again.

'Damnit! Mana stones are precious I only acquired some recently now he wants 50,000!'

He cursed inwardly but Nine stared at him with a smile. He was waiting for him to cough out the mana stones.

With a pained expression, the man gave Nine all the mana stones he had.

Nine was displeased because he only received 34,000 mana stones.

"Tsk you are useless just leave already."

After taking all the mana stones from the man he turned around and hurriedly left.

The man could only stare at his fading image with a painful expression.

'It's not fair!'

.....

After leaving Alley Nine hurriedly went to the restaurant where the others were present. He walked inside the restaurant and after looking around he spotted the trio sitting in a corner.

He hurriedly approached them and threw his arm at Kyle's shoulder.

"What are we eating!"

Alec looked at Nine.

"You are back at the exact time when the food arrived!"

Nine chuckled and sat beside Kyle who looked at him with a meaningful smile.

"Huh?"

His gaze landed at Carcel who was also staring at him with a smile. After seeing their expression and how they were pointing at Alec who was eating, Nine smirked with a knowing 'Oh'.

'So they want to dine and dash. hehe. It's fun.'

After everyone was done eating, Kyle suddenly stood up and left with an excuse that he was feeling stuffed and wanted to take some fresh air.

After Kyle, Carcel suddenly said he was also feeling stuffy and left Alec and Nine alone.

Nine gazed at Carcel back and stood up.

"I will be back."

He left with a grin.

Alec was left alone. He frowned because even after waiting for a while no one returned.

The old lady approached him and handed him a long bill.

'Where are they?'

Alec became anxious when he saw the bill. It was too expensive!

He looked outside but after seeing no one he knew he was ditched! In the end, he paid the bill with a bitter expression.

'Damn it! You three just wait I will take revenge!'

Chapter 153 Bad experience

After paying the bill Alec walked outside the restaurant with a sigh. He fiddled with his storage ring.

'I have a lot of precious things but I don't have money. Why am I so poor? It seems I need to sell some.'

The trio which was previously nowhere to be seen jumped out from their hiding spots. They looked at each other and started laughing.

Alec heard their laughter and turned around to his left. His expression was solemn because the three of them were laughing while standing behind a stall in front of the restaurant.

"You all tricked me to pay the whole bill!"

He shouted and approached the trio with narrowed eyes.

The crowd around them stopped and looked at them after hearing Alec shout.

Nine wiped his nonexistent tears while looking at Alec's displeased face.

"Bro we are all poor. You are the only one who is rich!"

He made a pitiful expression and patted Alec's shoulder who was fuming.

Carcel chuckled but he instantly followed behind Nine footsteps and wore a sad expression.

"Sigh, I forgot to bring money as well."

Kyle blinked his eyes with a smile. He was going to say something dramatic as well but then he noticed the crowd gathering around them. It was only for a moment but his eyes traced a few robbed men among the crowd.

His facial expression didn't change but he was anxious inside.

"Guys, let's leave."

The trio stopped joking and looked at Kyle. They instantly noticed the crowd slowly gathering around them.

It was strange. They didn't make a big commotion but for some reason, the people were trying to surround them.

Alec frowned. He nodded and they instantly tried to leave the area but for some reason, three middle-aged men wearing black robes left the crowd and blocked their path.

Alec's expression turned dark. He stared coldly at them.

"Move."

His voice was cold but the individuals blocking his path didn't even budge from their location instead four more individuals emerged from the crowd blocking their path from each direction.

With gritted teeth, Alec stepped back. He couldn't sense the aura of the people surrounding them.

'They are stronger than me.'

Nine, Carcel, and Kyle looked at each other with grim expressions. They instantly took out their weapons and stood beside Alec.

All four of them were ready to fight if anyone attacked them.

One of the robbed men standing in front of them scoffed when he saw them taking out their weapons. He opened his mouth to say something but suddenly his hair stood up and he immediately jumped back.

All the individuals surrounded Kyle and the others also panicked. A heavy pressure descended from the sky before an old voice resounded inside everyone's ears.

"You think if you cleverly set up an array around the kids I will not sense your despicable presence."

One of the black-robed men gulped nervously. He was the one who set up an array around the restaurant to avoid getting caught but it seemed his trap failed and he messed up very badly.

Alec gazed at the trembling individuals before looking at Kyle, Nine, and Carcel. Unlike everyone else, the four of them were perfectly fine.

The trembling individuals started sweating as the pressure around them became too hard to bear. The old voice scoffed.

"It's bold of you all to attack someone in my territory. The worst part is you are trying to attack my students."

"I will not do anything this time because I can sense some familiar auras. Tell your masters if they sent someone here again then don't blame me for being merciless."

"Leave before I kill you all!"

The robbed man gritted his teeth and his figure blurred as he disappeared in a random direction. The others also disappeared in various directions.

The crowd immediately ran in many different directions. Soon, except for Alec and the trio no one else was present around the restaurant. Even the normal customers sitting inside the restaurant fled because of the sudden pressure.

Alec was dazed when the old voice resounded again.

"You rascals! I just returned a week ago and someone's already causing trouble. Return to the Academy right now or you will have to run around the training ground naked!"

Alec gulped down when he heard the word 'naked'. It seemed the voice belonged to one of the strong individuals present inside the Academy. He turned around to look at the others while speaking nervously.

"Let's go back..."

His sentence was cut short because he was standing alone. Alec instantly looked at the fading trio that was already running toward the Academy without even glancing at him.

Alec was stunned. He wondered why he was always the last one to run.

"Damn it!"

With a curse, he followed behind Kyle, Nine, and Carcel who were already far away.

After running for half an hour, they left the market and arrived in front of the Academy gate. Normally even if they ran with all their might it would have taken them at least forty minutes but because they were scared of the word 'naked' they arrived a lot earlier.

Kyle was panting heavily as he glanced at the only guard standing outside the Academy gate. The trio was standing beside him with heavy breathing.

The guard looked at them with a confused expression. It looked like they just escaped from a life and death crisis. He remembered them because of Alec and Carcel's gorgeous appearance. Also, they left a few hours ago to do a mission.

"Kids, is everything alright?"

Nine gazed at the guard with a deadly serious expression.

"We are not fine at all please hurry open the gate!"

"Huh?"

The guard blinked his eyes he even looked at their backs to see if someone was chasing behind them but he didn't see anyone. However, he opened the gate to let them in after seeing their desperate expressions.

Only after stepping inside the Academy did Kyle and the others sigh with relief.

They looked at each other. It was the first time they went out together to have fun and maybe it is going to be the last one as well because the experience wasn't great at all.

Chapter 154 Banned

Principal Ratric was standing inside a dimly lit room when he clicked his tongue with annoyance. It wasn't the first time anyone tried to attack the students from the Royal Academy but this time it was a lot more severe.

"I don't think those old Kings are going to stop even after my warning. They will send someone again."

"It was manageable with only Alec but now that a (SSS+)-Rank beast appeared inside the Academy I don't think they will stay quiet."

He approached a nearby chair and sat down with a sigh. It was fine around the Academy but if the kids went any further without protection he wouldn't be able to guarantee their safety.

He massaged his temples and instantly called someone.

A black-haired old man entered the room after a knock. He wanted to bow politely but the Principal stood up with a serious expression.

"Which idiot permitted them to leave the Academy? Didn't I especially say to not let Alec and that kid Kyle go outside the Academy?"

The man looked at the furious principal. He started sweating because after coming back the Principal was working nonstop and now he was frustrated for some reason.

He could do nothing but quietly listen and curse the ones behind his misery.

"Ban the four of them from entering the mission hall. If I saw anyone give them a mission and let them leave the Academy without my permission I would punish them myself."

The black-haired man nodded and instantly left the room. He went to the mission hall and after gathering all the people in charge he gave them a set of names.

"If these people entered the hall and asked for a mission just kick them out or else we will be the ones to suffer."

Everyone nodded with a serious expression and instantly memorized the names.

....

Kyle and Nine separated with Alec and Carcel in front of the dorm building. They both walked together silently.

They were busy processing everything that happened today. After reaching their rooms, Nine gazed at Kyle.

"Good night."

Kyle looked back.

"I can see the rising sun. How can there be a good night now?"

Nine chuckled and the mood instantly became light.

"Then just rest. Remember we have a practical exam tomorrow."

"I know..."

Kyle opened the door and entered inside. He looked inside his hoodie.

"Are you sleeping?"

-I woke up when those individuals gathered around you. I wanted to come out to help but I felt a lot of prying eyes fixed on your body that's why I stayed quiet.'

-I think they were there because of me.'

Kyle sighed and grabbed Bia who was inside his hoodie.

"Don't feel guilty everyone is fine. Also, it's partially my fault I knew it was dangerous but I still left the Academy."

"I wasn't able to refuse because it was the first time I was going outside with friends."

"Maybe I wanted to experience the feeling I guess."

He placed Bia on the bed. He could feel it she was feeling sad.

-No it's not your fault. It's the second time you got attacked because of me. I should have stayed inside the room when you asked me to.'

Kyle sat on the bed and removed his shoes.

"Don't think too much, just sleep. We will become stronger in the future. Strong enough to roam around wherever we want without fearing anyone else."

"You can also become my exclusive (SSS+)-Rank Phoenix in the future let's see who dares to attack."

"The only problem is your size."

Kyle chuckled and looked at Bia who was wearing a solemn expression. Bia wanted to argue that size wasn't everything but she just stayed quiet.

Her mood becomes lighter after hearing Kyle's positive words.

Kyle stood up and entered the bathroom to take a bath. Bia stared at his fading figure with her round eyes.

-Alright.. we will become strong together.'

She closed her eyes emotionally but the comment about her size was very sour.

-Damn it! I want to increase my size as well. Normally it would have increased slowly whenever I advanced a sub rank but after consuming Kyle's blood essence my body stopped growing.'

-Maybe after Kyle awakens his bloodline my size will turn normal.'

She complained inwardly and buried herself inside a pillow to sleep.

After taking a bath Kyle also fell asleep. He didn't do anything the whole day and just lazily lay on top of his bed.

He tried to read the Ancient Array books he found inside the Tower but they were too difficult. In the end, he gave up and decided to read them when he became a little proficient with Array Symbols.

At night, Kyle heard a knock at his door. He opened the door and Nine was standing outside with a solemn expression.

Kyle frowned.

"What happened?"

"Bro, I just went to the mission hall to summit the failed mission we took before leaving. You know what happened!"

"They mercilessly kicked me out!"

Kyle raised his brow.

"Why?"

"I don't know the reason but it seems we are banned from stepping inside the Mission hall!"

Nine grumbled. It was okay if only Kyle and Alec suffered but he and Carcel were also prohibited from leaving the Academy! This wasn't fair at all!

Kyle chuckled when he saw Nine expression.

"I think it's for our safety because we faced a big threat when we went out."

Nine mood didn't become good at all.

"Anyway want to eat together."

Kyle shook his head. He and Bia had already eaten an hour ago. Nine wanted to enter his room to tell him the tragic story about how he was mercilessly kicked out and all the watching students laughed at him but Kyle pushed him toward his room with a laugh.

"Alright go and rest. We have the practical exam tomorrow!"

"But I have been resting the whole day!"

"Let's meet tomorrow."

Kyle said and shut his door. He went toward the bed and closed his eyes to sleep again.

Chapter 155 Practical exam I

Next day early morning, the sky was filled with clouds and a beautiful rising sun could be seen among those clouds.

In the training ground of the first-year students, Professor Aliza stood on a circular stage in front of the rows of students. She was wearing a navy blue jacket with black pants. Her beautiful long hair was tied in a ponytail.

On her left side, Professor Aster was standing wearing a white shirt with black pants. They glanced at the students but a frown appeared on Aliza's face because a few familiar faces were missing.

Some of the students discussed among themselves nervously while some were excited about the soon to be held practical exam.

In the middle of the students, two gorgeous girls were standing wearing blue uniforms. One looked aloof and cold while the other looked innocent yet charming. A few young boys were even taking secret glances at the girls but they didn't dare to approach because the girls were strong enough to beat them up.

Mia looked at the students around them with squinted eyes and whispered to Lara.

"Where are Alec and Carcel?"

Lara gazed at her and shrugged her shoulders.

"I don't know."

While the both of them were talking four individuals entered the training ground. They were on time but because everyone else was a little early their entrance brought silence inside the training ground.

All the students stared at them while they made their way inside. Even Professor Aliza and Aster glanced at the new arrivals with narrowed eyes.

Alec, Carcel, and Kyle felt a little embarrassed being stared but Nine smirked. He was the reason why they were late. He wanted a special and memorable entry! He even forced Kyle and the others to wear the Academy uniform.

Nine was leading with a satisfied expression as they all approached the students who were staring daggers at them. After walking among the quiet crowd they stood beside Lara and Mia who were staring at them with raised brows.

-'Nice entry! Your friend knows how to become famous!'

Bia exclaimed while sitting on top of Kyle's head. A lot of eyes were staring at her but she was already used to it.

Kyle glanced at himself with a sigh. It was the first time he wore the Academy uniform. Unlike his normal loose clothes, the blue shirt was a little tight, making him a little uncomfortable.

Alec gazed at Lara and Mia.

"Hey, it's been a while."

Lara's face was emotionless but when she glanced at Alec a small smile appeared on her face. She gazed at Carcel, Kyle, and Nine with a nod. Kyle was pleasantly surprised but he just nodded in return.

He wanted to look away but from the corner of his eyes, he noticed something that made him click his tongue inwardly.

Mia was standing beside Carcel and they nodded at each other but Kyle could see the mighty prince's ears were red.

'Tsk, it seemed after Nine the second one to find a partner is Carcel.'

It seemed a pure crush because the couple himself didn't notice. Kyle's eyes lingered on them and he saw Mia's sweet smile.

-'Stop staring. It's not a good habit.'

Bia's voice resounded inside Kyle's head and he immediately turned his eyes away like he never saw anything.

With a sigh, Professor Aliza clapped her hands to gather everyone's attention.

"Good morning, Girls and boys. I hope everyone is fine and working hard."

"I was one of the people who designed the theoretical exam and I have to say I am very disappointed in some of the students. The result is not out yet but the few papers I checked were so terrible that I badly wanted to fail those individuals!"

Her sharp gaze swept through the crowd of students. A few of them even started sweating because their papers were almost empty.

"Anyway, that's the topic we will discuss later inside the classroom because the results will probably come out after a week."

With a serious expression, Aliza pointed at the ground.

"Now look at your feet, there are many white circles present on the ground. Start moving and stand on a nearby circle you see. These circles are connected to an Array so only one individual can stand on a single circle."

The students instantly looked down. Indeed a lot of circles were present underneath their feet. Under Aliza's gaze, they hurriedly moved and stood on the circles.

Aliza nodded and started explaining about the practical exam.

"Alright. These circles will take everyone to a separate space where the practical exam will be held. It's just like an artificial dungeon but a little different because you won't appear inside a forest or open field. Instead, everyone will appear on top of a separate stage."

"The stage will be surrounded by white fog and you can't go outside the stage. After you are there a countdown will start and within a minute various monsters will appear from the fog. At the start, the monsters will be low-ranked but with time they will become stronger. They will attack and try to injure the person standing on the stage. Killing the monsters will give you points that will decide everyone's ranking."

She paused for a few seconds to let the students digest all the information.

"The moment any student is heavily injured or loudly admitted defeat they will be ejected out from the dungeon. Those who came out can see their final scores through that projection."

Her hand pointed at a large projection floating above the student's head. The projection showed numbers from 1 to 200 but right now no name was written in front of the numbers.

"Am I clear or does anyone want to ask a question?"

There was silence for a moment before some students raised their hands and asked some stupid questions like are the monsters dangerous? Or If they defeat all the monsters inside the dungeon how will they come out?

Aliza rolled her beautiful eyes and glared at the students.

"I see some of you have a lot of unnecessary worries but let me clear them. First, It's not possible to last for a long time inside the dungeon because with every monster you kill a new and more powerful monster will attack you."

"Second, I don't think anyone has such high stamina to last for a few days inside the dungeon without getting tired. Lastly, If someone can last a few days inside and kill all the monsters attacking him or her then that student will automatically come out."

She said the last line with a scoff and then her gaze landed on Kyle who was listening attentively.

"Kyle leave your bounded beast behind."

Kyle stared at her with a frown but Aliza sighed.

"If you don't, it will be considered cheating because you won't be fighting alone. The purpose of this exam is to test each individual's strengths separately. Don't worry you can leave it with...."

Her sentence was cut short when two old men entered the training ground. One was Elder Han and the other had black hair.

They looked at the students and Elder Han waved at Aliza.

"We are only here to activate the Array."

Aliza nodded and again looked at Kyle who raised his hand.

"Alright."

Bia gazed at the beautiful lady. Her eyes sparkled she wanted to go toward Aliza but Kyle's voice made her mood sour.

'Bia stay with master for a while.'

-'Agh.. Okay!'

With a reluctant expression, she started flying and went toward Elder Han who was busy placing some crystals around the training ground.

A surprised expression appeared on his old face when he saw Bia suddenly coming toward him. Professor Aliza also looked at Bia's figure.

After Bia settled down on Elder Han's shoulder he looked at Kyle with a sigh. He somewhat had an idea of Kyle's personality after seeing him so many times. Kyle was good-natured and somewhat quiet but he didn't easily trust others.

"I will take care of her."

He said and resumed his work. A lot of students gazed at Bia. Even Professor Aster's curious gaze lingered on her body. He scoffed inwardly with an annoyed expression.

'It's too dangerous to act inside the Academy right now. Even though my identity is clean the Principal is here that's why I can't take a risk.'

'Anyway, I just need to report back. It's not my job to do everything.'

His gaze landed on Alec for a second before his thunderous voice resounded inside the training ground.

"That's it, I am sending you all inside the dungeon now. Be ready."

With that, Professor Aster looked at the two elders who were setting up the crystals on the ground. They nodded and placed a few more crystals at the other edge of the training ground.

Kyle gazed at his feet. A white circle was present around him. He felt a familiar sensation before his vision turned dark for a few seconds and he arrived on top of a stage.

Just like Professor Aliza said a layer of thick fog surrounded the stage. He stepped forward and tried to walk inside the fog but a transparent blanket appeared at the edges of the stage, blocking him from entering the fog.
