Chapter 61 Instant Teleportation

?

Meanwhile, Blane who entered the tunnel present on the right corner also saw a white thin curtain blocking his way back.

The tunnel was dark, making it difficult for him to see anything. That's why he walked in a straight line for more than ten minutes.

With a serious expression, he gripped his weapon tightly, ready for anything that would be present at the end of the tunnel.

After walking for five more minutes he finally saw some light and hurriedly crossed the tunnel only to come out from another tunnel present beside the tunnel he entered from.

Blane looked at the familiar open area where he parted with Kyle and Hanson and become speechless.

He wanted to enter another tunnel but unfortunately all the tunnels were closed, making him stick out his tongue with an annoyed expression.

"It seems we can only enter once."

After sighing Blane looked at the tunnels one more time and left the cave with a gloomy expression.

It seem, he wasn't fated to gain anything from this cave.

At the same time, Hanson who entered the middle tunnel appeared inside a small area and his pupil contracted seeing the situation in front of him.

A huge 12-meter brown centipede with 22 legs was fighting with the elves who left before them.

All the elves seemed to have entered the same tunnel but their condition wasn't good at all because the centipede was (-D)-Rank!

There were also three shiny fingers sized orbs floating mid-air on top of the centipede's head.

Hanson looked at the orbs and sighed.

"It's true, we have to fight for every opportunity with our life on the line."

The ground in front of him was caved in and the tunnel was shaking because of the impact of the fight.

While Hanson was standing in front of the tunnel, the centipede suddenly opened its mouth and two tongue-like tentacles came out from his mouth.

It spat out two black color venomous balls toward one of the elves, the elf saw the incoming attack with a horrid expression but it was too late because he was standing in front of the centipede.

One of the black balls landed directly on his abdomen and he was blasted a few centimeters away from the centipede.

A huge hole formed on the elf's abdomen and his whole body turn dark before he died on the spot, seeing the elf's dead body Hanson expression harden.

The remaining 3 elves also looked at the dead body of their companion.

There was sadness in their eyes but it disappeared the next second because they knew they will also experience the same fate if they didn't do anything about the huge monster in front of them.

They also saw Hanson standing in front of the tunnel but they didn't expect anything from him because he was from another race. They only wished Hanson didn't interfere in their battle.

Meanwhile, seeing the situation worsening with every second, Hanson had no choice but to help the elves.

He just reached (-E)-Rank yesterday, after seeing the centipede he wanted to go back but the tunnel was closed off.

With a serious expression, Hanson created ten sharp earth shreds and threw them toward the centipede. The earth shreds didn't affect much the hard shell of the centipede but it was enough to distract its attention for a few seconds.

The elves seized those few seconds and hurdle a lot of attacks on the centipede.

In the end, one more elf got seriously injured but they were able to defeat the centipede.

After the centipede died a small tunnel opened up opposite to them.

The centipede lump body emitted some white particles that entered the elves and Hanson body. The elves looked at Hanson, now the problem was the three orbs floating on top of the centipede body.

One of the elves who looked like the leader of the group sighed and took two of the orbs, he just lost one of his companion that's why he didn't wish to fight more.

After taking the orbs he walked toward the dead body of his friend and took his storage ring before asking the other two elves to follow behind him.

The other two elves glanced at their friend's dead body with helpless expressions. There was nothing they could do.

All of the elves gathered and entered the opened tunnel, leaving Hanson and one of the shiny orb alone.

Hanson looked at the leaving elves and walked toward the remaining shiny orb but when he saw it was a skill core he absorbed it immediately.

He gazed at the dead body of the centipede one more time before entering the opened tunnel without saying anything.

.....

On the other hand, Kyle who just entered the tunnel with a daze expression finally snapped out of his stupor with a sigh.

He looked at the book in his hands, It was an ancient-looking book with strange patterns.

When Kyle looked at the book's cover and read the introduction, his expression changed.

He wasn't able to understand much of the language written on the book cover but there were some words he was familiar with.

The title of the book was 'Instant Teleportation'.

It was an ancient skill which was preserved in a shape of a book!

There wasn't much information regarding the skill but from the title, Kyle got a basic idea about the skill.

With an excited expression, he hurriedly opened the book but the moment Kyle opened the book, it turn into white particles and entered his body.

Information regarding the skill, soon appeared inside his head.

Kyle was a little surprised because he hadn't heard about any method where skills can be preserved inside a book but still, he was happy to gain another skill.

#*Instant Teleportation (A)-Rank:

Teleport within a few meter radius at the speed of lightning. The more mana used the more distance the user can cover. With enough mana, user can even teleport thousand of miles within mere seconds.

Seeing the description of the skill, Kyle was on cloud nine. He was incredibly happy. This skill was a life-saving skill!

As long as he had enough mana he can teleport anytime anywhere.

He still lack agility-type skills, but this skill was 100 times better than any other agility-type skill.

With the amount of mana Kyle had right now he can only teleport once for 2-3 meter distance before exhausting his mana but it was enough for the time being.

Chapter 62 Leaving the First Floor

After walking for more than five minutes, Kyle finally saw the end of the dark tunnel.

With hurried steps he walked out of the tunnel, only to see a huge big white color stairway in the middle of a small empty area.

There was nothing dangerous around the stairway. Even the rocks around the stairway were not sharp due to some reason.

Hanson and Blane were also nowhere to be seen. Kyle just hoped, they stay safe and didn't encounter something similar to him.

He gazed at the white stairway with a complicated expression, he knew what it was but he didn't expect to see one inside this strange cave.

The first few floors of the Tower were always similar in structure whenever the Kingdoms send their young talents inside. That's why a lot of things inside those floors were mentioned in the books related to the Tower.

This small stairway in front of Kyle would probably directly teleport him to the second floor of the Tower but for some reason instead of being happy, Kyle look reluctant.

It's because he still hasn't plundered all the golden cross marks waiting for him inside the first floor!

How can he just leave behind his treasures?

If someone else heard his claims he would have probably beaten him up.

Just when the hell did the treasures become yours?

Kyle sighed and looked behind him, trying to see the unseen treasures. If the tunnels were not closed off he would have definitely gone back.

With a gaze filled with unwillingness, he walked toward the white stairway and started climbing, still looking behind from time to time.

After he climbed the stairs, he stepped on a small circular array. The array shone brightly and Kyle disappeared.

When Kyle left, about ten to fifteen minutes later 3 elves also appeared in front of the same white stairway. They looked at the stairway and started climbing without even waiting for a second.

They also disappeared and after them, Hanson also arrived in front of the stairway. He was the only one who become excited and happy when he saw the stairway.

With a wide smile, Hanson also climbed the stairway and disappeared from the first floor.

...

On the other hand, Alec found a tree with three golden fruit. After he ate those fruits he directly broke through to (E+)-Rank.

He was very happy because after so many days he finally found a treasure inside the Tower.

Still, god knows what would be his reaction when he find out that Kyle found almost 10 times more fruits than him!

Alec traveled around inside the forest for a week before seeing 2 demi-humans and 3 humans fighting together to defeat a (D)-Rank monster.

After seeing that the humans and demi-humans were tied with the (D)-Rank monster, Alec also joined the fight.

Together with those 5 individuals, he defeated the (D)-Rank monster but Alec was the one who gave the most damage to the monster.

After the monster died white particles emitted from its body and gathered around on top of its body.

The particles didn't enter anyone's body instead after all the particles gathered, they formed a small white stairway similar to the one Kyle used to teleport toward the second floor.

All the people present looked at each other with excited expressions.

Without waiting, they climbed the stairway and disappeared.

After a few minutes, the stairway burst into white particles and disappeared into the air.

....

Meanwhile, after fighting around for more than two weeks. Mia found an underground tunnel in the middle of a lush forest.

With caution she entered the tunnel, going straight more than 20 feet underground.

The tunnel was empty with only a single large stone filled with different patterns present at the center.

Mia walked toward the stone and after seeing the strange pattern closely she got an idea of the strange pattern on the stone.

It was an array!

Mia wasn't proficient with arrays but she read some books about them in the past.

Even though the array was one of the lowest rank array, it took her 2 whole days just to break it.

The moment the array broke, the pattern-filled stone crumbled into white particles. Forming a huge stairway and a small ancient looking book in front of Mia.

She grabbed the book, it was about arrays. After placing the book inside her storage ring, Mia climbed the stairway and disappeared.

At the same time, Lara encounter a similar situation as Alec. She fought with some other people to defeat a 'Boss monster'.

While she was fighting, coincidentally Nine also appeared.

He was on the verge of breaking through to (-E)-Rank and after fighting together with the others to defeat the boss monster, he broke through to (-E)-Rank.

A similar white stairway appeared in front of them when they defeated the 'Boss monster'. Directly teleporting everyone to the second floor.

On the other hand, Carcel found a peach colored tree with a hidden huge hole in the center. The tree branches were long almost hiding the hole, but while running away from a bunch of strange sharp teeth squirrel monsters, Carcel saw the hole.

After he entered the tree hole, he appeared in front of a small clean lake. In the middle of the lake, a beautiful tree was present.

There were two fruit hanging on the branches of the tree. Seeing no one around the lake, Carcel immediately walked toward the tree and after he ate the fruits he broke through to (E)-Rank.

Also, behind the fruit tree he saw a white stairway.

Carcel happiness doubled when he saw the stairway. He immediately climbed up the stairway and disappeared, leaving the first floor.

After Carcel left one of the squirrel who was following him accidentally entered the tree hole.

The squirrel looked at the lake and then at the empty tree with squinted eyes.

The stairway behind the tree also didn't escape his tiny eyes.

It squeak a little seeing himself alone but then it walked toward the stairway and slowly started climbing it with a confused expression.

When the squirrel appeared on top of the stairs, it felt its hair stand up straight due to the sudden effect of the teleportation.

This time the squirrel didn't squeak cutely. It opened its mouth widely showing rows of razor sharp teeth and bit the floor of the stairway before disappearing, leaving behind a small hole in the white sturdy stairway.

...

Similar incidents were happening all around the first floor of the Tower, some people found treasures and hidden stairways to climb toward the second floor. Some gathered around and fought with 'Boss monsters' to climb toward the second floor.

While some unfortunate ones weren't able to climb to the second floor or died on the first floor.

Chapter 63 Appearing Inside Clouds?

After Kyle disappeared from the first floor, he appeared in a strange place.

He stood up straight and looked around with squinted eyes, the ground beneath his feet was rocky but he didn't see anything because he was surrounded by clouds.

With an irritated expression, Kyle cursed.

"Just where the hell is this place."

No matter where he looked, the only thing appearing inside his vision were white clouds.

It seem he was teleported to a very high place.

As Kyle was cursing Bia also woke up and looked around at her surrounding.

'Did Kyle kill me while I was sleeping?'

Hearing Bia words inside his head, Kyle almost tripped but he ignored her because she was helping him a lot recently.

After Bia sobered up. She looked around seriously.

'Oh it's not heaven, they are clouds.'

Kyle refrain from speaking, it was better for him to stay quiet and look for a way to leave this place.

While he was trying to feel the land beneath his feet, Bia tried to fly so she can see the surrounding but to her horror, the mana inside her body started trembling when she flapped her wings.

She almost lost her balance and fell, but Kyle immediately grabbed her.

"What are you doing."

-'It seems I can't fly in this place.'

Kyle replied with an 'Oh' and placed Bia on top of his head.

He started walking but because the ground beneath his feet was uneven he had no choice but to walk slowly.

After 5 hours, Kyle eyes were blank as he looked at the surrounding clouds with a speechless expression.

His hands holding the map of the Tower were trembling. Kyle was sure, he was the only person who had a map, giving him a big advantage over others.

At that moment, he only had one question inside his head.

Just why the hell did he appear at such a desolate place?

The treasures were waiting for him to pick them up and here, he was struck at an unknown place!

After sighing one more time, Kyle started walking again.

It's not like, just standing around would solve his problem.

Finally, after walking for another 3 hours, he found a place where something was visible.

Kyle hurriedly left the clouds with a relieved expression and walked toward that place.

With squinted eyes, he saw his surrounding.

He was on top of a mountain and it seemed to be one of the tallest mountain!

The sky was turning dark with various stars twinkling above his head.

After seeing the environment clearly, Kyle hurriedly looked at the map for one last confirmation and sighed with relief.

Just like the second section of the map, there were 7 more mountains in his surrounding but they were too far away. At the bottom of the mountains, there were some plains and a huge forest.

It was hard for him to pinpoint his exact location, but after he looked at the large plains present at the bottom of the mountains and match their location with the map, he was able to roughly guess his location.

Among the 8 mountains, he was standing on top of the second tallest mountain.

After looking at the mountain, he was standing Kyle facial expression become serious.

"There is only one golden cross mark on this mountain?"

He sighed and placed the old scroll inside his storage ring and started descending the mountain.

After a few more hours, he stopped in front of a huge rock to rest for the night.

Under the stary night, Kyle used his skill fireball and lit up a small fire before taking out some monster meat he stored inside his storage ring yesterday.

After killing the monsters, he didn't store their corpses but instead stored some of the monster's meat inside his storage ring for future use. Kyle already had a lot of food stored inside the storage ring the Academy provided them before they entered the Tower, that's why he only stored the monster meat once in a while.

It had been more than three weeks, he entered the Tower. He still hasn't found the Elixir.

As time passed Kyle was becoming a little anxious, but he was sure he would be able to find the Elixir soon.

'Also, I wonder how Nine, Alec and the others are doing.'

He wasn't able to encounter any familiar face on the first floor except for Blane, the second-year senior. That's why Kyle was a little worried about them, but he knew all of them were strong enough to take care of themselves.

Maybe, when he met them again they will be stronger and more powerful than before.

On the other hand, Bia was finally able to fly after they left those strange clouds. She started flying to see if there was any monster in their surrounding.

While Kyle was cooking the food, he heard a small voice from behind the small rocks scattered around him.

With a serious expression, Kyle hurriedly grabbed his sword and stood up. Looking straight at the place where the voice came from.

Soon, he heard a small squeaking sound coming from behind the rocks. Under Kyle gaze a fist size squirrel walked out from behind the rocks.

The squirrel seemed injured because its right hand fur was slightly red like blood. It looked at Kyle with big round eyes filled with tears.

Kyle looked at the squirrel and sighed.

"It's just a small animal."

He placed his sword back and sat down without caring about the squirrel who was looking at him with big eyes.

For some reason, due to seeing Bia's eyes every day, Kyle started liking things with big eyes. That's why even though he knew that the squirrel could be a monster he didn't kill it immediately.

Well, in the end the squirrel was so small. He would just kill it if it tried to attack.

Bia also came back after flying around for a while. She sat down on a rock present beside Kyle and looked at the squirrel curiously.

She could feel a faint energy emitting from the squirrel's body but it was so low that Bia just ignored the squirrel's presence.

After Kyle was done with cooking, he gave

some meat to Bia and also placed some in front of the squirrel before eating and going to sleep for a few hours.

Chapter 64 Herb Field I

Amidst the dark starry night, Kyle was sleeping while leaning against the huge rock.

Bia was also sitting on top of a rock while looking at their surroundings with vigilance.

Suddenly, the small squirrel who was sitting opposite them squeaked. Bia looked at the squirrel with raised brows as it slowly started walking toward Kyle.

She was ready to kill the squirrel if it did something strange but to her surprise, it just walked toward Kyle and curled up beside him.

Soon, under her gaze the squirrel fell asleep. Bia sighed and looked away.

Next day early morning, Kyle was sleeping peacefully. Bia also seemed to have closed her eyes after staying awake the whole night.

While the duo had their eyes closed, the small squirrel lying beside Kyle opened its eyes.

It looked at Kyle with drool dripping down from his small mouth and slowly started creeping toward his hand.

The squirrel opened his mouth widely, showing rows razor-sharp teeth. It was about to bite Kyle whole hand in one go before Kyle woke up abruptly.

Seeing Kyle awake the squirrel retracted his teeth and hurriedly closed his eyes.

Meanwhile Kyle rubbed his eyes and looked in front of him, Bia was sitting on top of a stone with closed eyes.

He could sense she wasn't sleeping.

"What was that? I suddenly felt chills for some reason."

Kyle stood up and looked at his surrounding, except for Bia and the small squirrel he saw last night there was no one else.

"Strange? I definitely felt like something was wrong. Was it my imagination?"

After shaking his head, he picked up Bia and placed her on top of his head.

"It's better if we leave this place."

While he was ready to walk away, Kyle heard a small squeak from behind. He turn around and looked at the squirrel who was looking at him with big eyes, tear welled up inside the squirrel's eyes when it saw Kyle leaving.

Like an abandoned child looking at its mother.

Seeing the squirrel, Kyle become speechless.

He sighed and walked toward the squirrel and picked it up.

"Why are you so heavy."

Kyle exclaimed with surprise he was going to place the squirrel on his shoulder but unlike Bia, the fist-size squirrel was too heavy.

He placed the squirrel back down and asked it to follow behind because it was too heavy to carry.

The squirrel nodded with a relieved expression seemingly understanding Kyle words.

Kyle become a little surprised seeing it understanding his words but then he looked at the map one last time and started walking toward the only golden cross mark present on the mountain.

The squirrel also started following behind Kyle quietly, from time to time it would try to open its mouth but due to some reason, Kyle was on high alert.

That's why the squirrel could do nothing but show an irritated expression while quietly waiting for a chance when it would be able to eat up Kyle.

After walking around the mountain for a few hours, Kyle finally arrived in front of a small opening present between some rocks.

In these few hours he encounter 7 (-E)-Rank, 3 (E)-Rank and 1 (+E)-Rank monsters but with the help of baits like Bia and 'Squeak' he was able to easily deal with those monsters.

'Squeak' was the name Kyle gave to the squirrel because it could only speak one word and that was 'squeak'.

On the other hand, Bia was once again speechless at Kyle naming sense.

She looked at 'Squeak' pitifully, remembering the first time she came out from the egg and Kyle tried to give her some strange names like 'birdy' and 'reddy'.

Bia hurriedly shook her small head with an ugly expression not even daring to remember those names.

Squeak looked at Bia, not understanding the meaning behind her emotional gaze. It just cutely squeaked toward its prey, Kyle.

While Bia and Squeak were looking at each other emotionally for some reason, Kyle entered the small opening.

It was dark from the inside, filled with various brown color stones but fortunately the stones were not pointy.

Kyle walked for a while before the opening started turning narrow, making it difficult for him to advance.

After a few more minutes, Kyle had to crawl just to find the end of the opening.

While he was crawling, suddenly squeak jumped on his back. Kyle almost spit out blood due to Squeak heavy weight.

"Squeak, don't jump on my back so suddenly."

It was the first time Squeak did something wrong that's why Kyle just politely told Squeak to not do it again.

On the other hand, seeing Kyle painful expression Bia started laughing.

Squeak looked at Bia and Kyle both of them were not focusing on it.

With a creepy smile Squeak started advancing toward Kyle left ear.

Kyle could feel squeak crawling on his back but because he was busy quarreling with Bia inside his mind, he stopped focusing on its movements.

After Squeak reached Kyle ear, it opened its mouth with delight.

A row of razor-sharp teeth were going to bite Kyle ear completely before he suddenly spoke up, making squeak jump back in fright.

"I can see ligh...Ugh"

"Squeak, I told you not to jump on me so suddenly."

With a serious expression this time Kyle shouted toward squeak, making it tremble.

Kyle looked at Squeak and sighed before hurriedly crawling toward the light he saw a while ago.

After he came out from the small opening, a huge open field filled with multicolor herbs and grass entered Kyle sight.

Also, seeing himself so dirty filled with dust he felt a little strange because he didn't like being dirty.

Bia and Squeak also came out behind him. Squeak practically started drooling smelling the rich fragments of the herbs.

It was just about to jump inside the herb valley when Kyle grabbed it from its neck.

"Squeak"

Kyle sighed seeing the two round pleading eyes staring directly at him.

"Can't you see the green snail-like monsters rolling around the grass? It's dangerous."

He placed Squeak beside him before asking Bia to check how many monsters were present inside the open area.

Bia nodded and after flying around the whole grass-filled area, she return with a solemn expression.

'22 (-E)-Rank green snail monsters and 11 (E)-Rank green centipedes. The snail monsters are scattered around on the grass while the green centipedes are standing guard in front of some strange-looking caves at the end of the grass field.'

After Bia finished her explanation, Kyle thought for a while. It was easy for him to defeat 5 (E)-Rank monsters at a time, but he would be in a difficult position if all those monsters attacked together.

That's why he asked both Bia and Squeak to become baits as usual and try to attract the monster's toward him one by one.

Of course, both Bia and Squeak didn't agree immediately. In the end, Kyle coax them with some rewards.

Chapter 65 Herb Field II

After hearing Kyle, Bia and Squeak both slowly entered the valley and started attracting monsters one by one.

With their help, Kyle first easily took care of all the snail-like monsters before advancing toward the green centipedes.

After 3 hours of continuous fighting, Kyle was finally able to take care of all the monsters lurking around the valley.

Also, when he was fighting the last ones of the centipedes Kyle broke through to (+E)-Rank. That's why he become excited.

Before entering the opening he encounter an (+E)-Rank monster, after deafening that monster he broke through to (E)-Rank.

Kyle never imagined he would be able to advance 2 sub-ranks in a single day!

Stats:

Name: Kyle

Bloodline: Celestial (Locked)

Rank: +E

Strength: +E

Mana: -D

Agility: E

Talent: SS Rank (suppressed)

Luck: A

Skills:

#*Fireball (F)-Rank:

.....

When he saw his stats Kyle was satisfied. His mana stat was the highest due to the fact that he ate different types of fruits on the first floor.

After taking care of the monsters Kyle looked at the grass filled valley and without waiting for even a second, he started plucking all the different herbs.

There were a lot of different herbs growing within the grass but because Kyle didn't know their use, he just plucked everything and threw them inside his storage ring.

He was sure he will make a small fortune after he sold those herbs outside the Tower.

When Kyle was done collecting the herbs, he walked toward the two caves at the end of the valley where Squeak and Bia were waiting for him.

He already killed the centipedes around the caves, that's why there were no other monsters in front of those two caves.

As he promised Kyle took out a fruit from his storage ring and gave it to Squeak but to his surprise Squeak didn't eat the fruit.

When Kyle saw Squeak drooling while looking at the monster's corpse around them, he knew what Squeak wanted.

"You can eat the corpse, they are not useful to me anyway."

After hearing Kyle words, Squeak looked at him with twinkling eyes. It didn't stand on ceremony and under Kyle and Bia amused gaze, it hurriedly jumped toward the nearest (E)-Rank centipede corpse.

On the other hand, Kyle and Bia were both wondering how it was going to eat such a big corpse with such a tiny mouth.

When Squeak arrived in front of the corpse it opened its mouth so wide that Bia who was sitting on top of Kyle head was so shocked that she almost fainted.

Under their shocked gaze, Squeak ate the whole centipede head in one go.

-Crunch! -Crunch!

The more Kyle looked at its razor-sharp teeth the more frightened he became.

Within one minute, Squeak gulped down the whole corpse of the 6-meter centipede.

After Squeak ate the whole corpse, its body which was only emitting faint energy before suddenly perked up and Squeak broke through to (-D)-Rank under Kyle gaze who was so frightened that he started sweating.

'Shit.'

Kyle cursed inwardly with a horrid expression as he slowly started walking backward toward the two caves.

Bia wanted to fly away even before Kyle but because Squeak was just a few meter ahead of them, she didn't dare to make a single sound.

When she saw Squeak gulp down the huge head of the centipede, she knew the way Squeak looked at her and Kyle was very similar to the way it look at the corpse!

Those twinkling eyes were looking at them like they were food!

When Bia thought about this, she shuddered subconsciously.

Squeak can just eat her in one bite even before she did something in self-defense.

On the other hand, after eating the centipede corpse Squeak jumped toward another corpse without any care.

Within ten minutes, Squeak ate 6 (E)-Rank centipedes and was completely full.

It turn around to where Kyle and Bia were standing but when Squeak saw no one standing at the place where it left its most delicious prey, its eyes contracted into a slit.

-Squeakeeeeeed!

A horrible soul-chilling shout left its mouth before it frantically started looking around for Kyle and Bia with bloodshot eyes.

....

On the other hand, after entering one of the cave behind him. Kyle started running at full speed.

The cave was dimly lit up with light entering from some holes present on the walls. The cave was not narrow as well, making it easy for Kyle to run.

10 minutes later he and Bia both heard Squeak shout, which send shiver down their spines.

This incident gave Kyle a lot of fright.

He inwardly promised himself to never picked up small animals!

Who could guarantee that the cute little animal won't eat him up when he was sleeping?

After running for 20 minutes, Kyle arrived in front of another open area but except for some uneven rocks, there was nothing inside.

When he glanced around he saw a black stone tablet in the middle of the area, a single small piece of bead shape white earring was floating on top of the tablet.

Kyle hurriedly walked toward the earring and picked it up. The moment he picked up the earring another tunnel opened up behind the tablet.

He gazed at the tunnel before looking at the earring. The earring was emitting a white glow but when it touched Kyle skin the glow disappeared and the earring turned into a normal accessory.

Bia also looked at the earring with squinted eyes. She was able to feel energy fluctuations around the earring when it was floating but when Kyle touched the earring the energy disappeared.

-I think it's an artifact.'

Kyle nodded at Bia words. He also guessed that the earring was an artifact but the only way to check its usefulness was to wear it.

"Bia, how about you wear this earring and check what it is used for?"

With wide eyes Bia flew away within a second, she didn't expect Kyle to treat her like a test subject!

Seeing her resentful eyes, Kyle become speechless. He sighed, he had no choice but to test the earring on himself.

Kyle open the metal hook of the earring and slowly brought the back half of the earring toward his left ear and with closed eyes, he pierced it inside his earlobe.

With stinging pain, a drop of blood trickle down from his earlobe before Kyle close the hook of the earring.

The moment Kyle wore the earring his presence completely disappeared.

If before he was able to hide his rank from those who were the same rank or lower rank than him, now no one would be able to guess his rank as long as Kyle wore the white bead-like earring.

Chapter 66 Acquiring an Artifact?

Bia looked at Kyle with surprise, just a second ago she was able to feel him standing in front of her but now except for their bond she wasn't able to feel anything else.

She flew back and sat on top of his head with a sigh.

-'What did I expect, with your incredible luck I don't think you will ever find something useless.'

Kyle hear Bia regretful voice and smiled. The artifact was indeed useful. Now, he could roam around freely and no one would be able to sense his presence.

With a delighted expression, Kyle entered the tunnel that opened behind the stone tablet.

After walking around the tunnel for ten minutes, he finally saw light at the end and hurriedly walked out. Only to see huge trees standing proudly in front of him.

Kyle looked around with squinted eyes and finally took a deep breath.

For some reason, he seemed to have appeared at the bottom of the mountain.

Anyway, him appearing at the bottom of the mountain was good because there were no other golden cross marks on top of the mountain.

So, appearing inside the forest made him a little happy. Now he doesn't have to climb down the mountain.

After changing his dirty clothes into clean ones he took out the map once again, there were only 50 something golden cross marks around the second section.

Among those marks, the one in the middle of the whole second floor was the biggest golden cross mark.

Kyle looked at the biggest golden cross mark and immediately decided to go and grab the treasure present there, no matter what.

There were three more golden cross marks on his way toward the biggest golden cross mark that's why he decided to just stop at those places for a while to pick up the things present there.

After thinking about what he needs to do, Kyle placed the map back and started running toward the biggest golden cross mark.

He gazed at the surrounding trees. Fortunately, there were no spikes. The leaves on the tree were also large.

And because of the white artifact earring, monsters were not able to detect his presence. Bia also started flying above him. She kept an eye on their surrounding.

On his way, Kyle encounter some (-E)-Rank and (+E)-Rank monsters but he killed them easily with his newfound strength.

Also, he was a little shocked because he didn't encounter any monster lower than (-E)-Rank!

All the monsters were (-E)-Rank or higher and that was after excluding the 'Boss Monsters' of the second floor.

While running, Kyle also saw a bear type 'Boss Monster' and his jaw dropped because the monster was (-C)-Rank!

If not for the artifact hiding his presence, he would have definitely become a piece of meat for the Boss monster.

It seems only those who had reached (-E)-Rank or higher would be able to survive on the second floor and it was on the base that they don't encounter any boss Monster.

Kyle wondered, if the second floor was so dangerous what would happen when he reached the higher floors?

After running for an hour at full speed, suddenly he heard a small commotion behind some trees.

With slow steps, Kyle climbed the nearest tree and looked at the commotion.

Amidst the trees four demi-humans, one woman and three men wearing luxurious clothes were standing proudly while laughing.

The woman had two ears on top of her head and a single long furry tail behind her back, indicating her identity as a half-fox.

The other three men all had small tails with horns on their heads.

All four of them were holding different weapons, and their weapons were filled with blood.

Kneeling in front of them were two injured elves and one human who seemed to be on the verge of death.

Looking at the situation in front of him, Kyle eyes turn cold. He knew the relationship between all the races wasn't good but he didn't expect them to kill each other.

He didn't know who the human was nor did he have any relationship with those elves but Kyle didn't want to see someone dying in front of him.

Kyle gazed at the four demi-humans. Two of the demi-human men were (E)-Rank while the woman was (-E)-Rank.

The one who looked like the leader of the demi-humans group seemed to have just broken through to (+E)-Rank.

It seemed after meeting each other they teamed up and started hunting monsters together that's why they were able to survive on the second floor.

If Kyle wanted to, he could take care of them easily with the help of Bia but after thinking for a while he thought of an idea where he didn't have to interfere directly.

Kyle looked at Bia, who was sitting beside him on the tree branch.

Seeing his serious gaze, Bia shuddered for some reason. She knew nothing good will come out whenever Kyle looked at her with such a burning gaze.

.....

After a minute, Bia was thrown toward the four demi-humans with three fist-sized golden fruits dangling around her neck.

Kyle made a circular necklace with the help of tree vines and attached three golden fruits he acquired from the first floor to the circular vine.

Bia looked at where Kyle was sitting and cursed.

-'Fuck! This majestic me will take revenge for this humiliation! Just you wait.'

While she was cursing Kyle inside her head and flapping her wings frantically, the four demi-humans were alarmed by her sudden appearance.

They looked at Bia with seriousness but when they saw it was just a bird they sighed with relief.

Meanwhile with beat red fur, Bia looked at the four demi-humans standing not so far from her. She was so embarrassed that she wanted to bury herself underground.

The four demi-humans also looked at Bia, their eyes filled with curiosity but when they saw the fruits dangling around her neck they become speechless.

Seeing the golden light around the fruits, all four of them looked at each other with shock.

The fruits in front of them were precious!

All of them have eaten this type of fruit on the first floor, the effect of those fruits was incredible but it was a pity that they were only able to find one or two.

Still, they were caution and didn't approach Bia immediately.

One of the demi-humans who was the leader of the group hurriedly gestured the demi-human standing behind him.

He asked him to look around their location and make sure no other person was present around them.

The one standing behind nodded and immediately looked around but after a while he returned and shook his head, indicating there was no one else.

After knowing no one was around them, the leader of the demi-humans immediately ordered the other three to catch the bird in front of them.

All of them gathered around Bia with greed-filled eyes.

On the other hand, Bia also become serious when she saw them walking toward her.

The moment one of the demi-humans was going to pounce on her, she hurriedly flapped her wings and started flying toward the north side.

All the demi-humans looked at each other before following behind Bia.

Chapter 67 Taking care of the Four Demi-humans

Under the shade of large green trees, a small red color bird was flying with all her might. Around her neck was a strange-looking vine and 3 dangling golden fruits.

While the bird flew and cursed someone inwardly, four demi-humans were following behind her. They were throwing all kinds of attacks and skills on that pitiful bird but fortunately, the bird was dodging all of the attacks.

Of course, the bird was Bia!

Right now her expression was very ugly as she flew toward one of the nearest black cross mark with her life on the line.

After flying and cursing for 20 minutes, she arrived in front of a big brown bear that was 16 meters tall with its whole body oozing some kind of muddy liquid.

Bia looked at the Bear, she was scared. It was (-C)-Rank!

Her heart trembled seeing the huge bear before she hurriedly threw one of the fruit on the bear's head, the bear who was just quietly going to take a nap become angry. It instantly turn around and tried to locate the attacker.

On the other hand, the four demi-humans who were following Bia also appeared at the same place. They were going to attack Bia again when she threw two fruits on top of them and disappeared.

The four demi-humans become dumbfounded looking at the fruits. One of the demi-human hurriedly went to pick up the fruits, when a huge shadow enveloped all of them.

The demi-human who just bend down to pick up the fruit, saw the shadow. He slowly looked up and pissed his pants.

A huge brown bear, with blood-red eyes was looking directly at him. Strangely, on top of the bear's head a familiar golden fruit was stuck inside the muddy liquid oozing out from its body.

The demi-human who just picked up the fruits fainted on the spot when he looked into the bear's bloodshot eyes.

The other three standing behind him were also scared shitless and wanted to run away but their fate was already decided.

The bear first stepped on the fainted demi-human. A cracking sound was heard and the demi-human body turn into meat paste.

In the next second, the bear immediately swing his large heavy arm and injured the remaining demi-humans. Due to the impact, one more demi-human died on the spot.

The two alive demi-humans were also not in a good condition at all. Even if the bear left them alone, with their injuries they would die within a few minutes.

While standing at the end of their life, they didn't forget to curse the red bird. There was regret and unwillingness in their eyes. In the end, they weren't able to do anything and died under the bear's feet.

All of this happened within a few seconds, from the demi-humans arriving in front of the bear and the bear killing them. This was the power of a (-C)-Rank monster.

After the bear killed everyone related to the fruit, it humped and left without even glancing at the dead bodies.

It didn't eat the demi-humans bodies as low-quality food will damage its appetite.

When the bear walked away. Bia came out from behind some branches. She looked at the dead bodies with disgust, all of the demi-humans were turned into meat paste.

Without doing anything else, Bia hurriedly picked up all their storage rings and went back toward Kyle.

.....

Meanwhile, after the demi-humans left while following behind Bia. Kyle jumped out from the trees and appeared in front of the injured human and elves.

He asked them if they were alright. The elves were fine but the human was too injured to even stand up.

Kyle sighed and took out a healing potion and gave it to the human. The human took the healing potion and thanked Kyle.

After everyone relaxed the elves and the human introduced themselves.

The human was called 'Laigin'. He was from Kingdom Whiteland. On the other hand, 'Fian' and 'Kolain' both elves were from Kingdom Tersia.

After the introduction, no one said anything. Kyle wasn't the talkative type that's why he just stood in front of them quietly and an awkward silence filled the atmosphere.

The elves and Laigin also didn't knew what to say and seeing Kyle serious face they just kept quiet and started tending to their wounds.

All three of them were injured and knew with their condition there was no way they could survive.

Both of the elves were grateful toward Kyle but it was not like they could repay him with anything because just a while ago their storage rings were snatched by the demi-humans who attacked them.

After around 20 minutes, Bia returned with a gloomy face. She looked at Kyle with resentment filled gaze and threw all the storage rings she collected from the demi-humans on top of Kyle head.

Kyle smiled looking at her and hurriedly picked up all the storage rings.

The elves and Laigin also saw their storage rings inside the pile of the storage rings Bia brought back but they didn't say anything.

Right now, they were injured and Kyle seemed to be quite powerful because they weren't able to sense his rank.

On the other hand, Kyle looked at the 7 storage rings. He walked toward the three injured people and asked them to take the ones belonging to them.

The three of them looked at each other with surprise. The rings were expensive, also there were some precious items inside that's why they didn't expect Kyle to just return them the rings.

Nevertheless, they hurriedly took their own rings before thanking Kyle once again.

Kyle didn't bother with them anymore and after taking four rings belonging to the demi-humans he left.

Laigin and the elves were dumbfounded seeing Kyle fading image but after he left, they also left in different directions.

...

While walking, Kyle broke all the restrictions set on the rings.

Seeing the content inside the rings he frowned.

The demi-humans were too poor!

There was nothing inside the rings except food, some strange clothes and a few herbs.

Kyle sighed and after collecting the useful things from the storage rings he dumped everything out and emptied the rings before placing them on his fingers.

In the end, all four rings were high-grade rings. He could probably use them in the future.

Also, adding these four storage rings. Now he has a total of 6 storage rings.

On the other hand, Bia was still cursing Kyle. To pacify her anger, he took out some fruits and gave all of them to her.

After eating one or two similar fruits, those fruits would stop working on Kyle. That's why it was better to use them as a bargaining chip whenever Bia was angry.

Chapter 68 The Black Pool

After leaving the injured human and elves behind, Kyle started running again toward the biggest golden cross mark.

He would stop from time to time to kill some low-rank monsters but overall his journey was quite smooth sailing.

The first reason was the white earring artifact he acquired and the second reason was Bia who was patrolling around the sky.

While walking the day turned into night, and just like that one week passed.

In this week, Kyle killed a lot of low-rank monsters. He also faced two newly ranked (-D)-Rank monsters and with the help of Bia, he killed both of them. But even after killing so many monsters, he wasn't even near a breakthrough.

On the other hand, Bia finally broke to (+E)-Rank after eating tons of precious fruits.

Kyle was a little scared, seeing her consuming so many resources just to break through to (+E)-Rank. But he soon accepted the fact that to make Bia rank up in the future, he had to empty his tiny pocket.

While running he saw some more boss monsters but they were all (-C)-Rank or above, that's why Kyle didn't even dare to step around their territory.

And now after a week, Kyle was finally standing in front of a black 20-meter pool. There were huge trees around the pool, making it difficult for others to see the pool or locate its location.

This black pool was one of the golden cross marks that appeared on his way to the biggest golden mark but it seemed someone else had already swept this place clean, as there was nothing inside or outside the pool.

"Tsk, who stole my treasure? Don't you ever let me see you or else..."

With a grumpy face, Kyle left that place. It was the first time he wasn't able to get his hands on something and someone else took it.

After leaving the black pool, he started running toward the next stop.

This time Kyle didn't stop, he was afraid that someone else would take the treasures before him.

.....

On the other hand, after looking around for a while 'Squeak' finally came out from the same tunnel as Kyle.

It was so angry that it ate all the corpses of the monsters Kyle killed.

Also, right now Squeak looks different from before. It wasn't the same fist size small cute squirrel anymore.

With a 7-8 meter tall body, it looked around with angry eyes.

It was because it lost its prey two times!

The first one was Carcel who disappeared inside the tree hole and the second one was Kyle who disappeared when Squeak was busy eating.

How could Squeak accept this, for the sake of eating that small prey, it even left its companions.

Now what should it do, what face would it show to its companions?

With a resolute expression, Squeak decided to find those small-looking creatures. No matter what, it was definitely going to taste them.

Also, after eating all the corpses Squeak broke through to (D)-Rank. Now It was very confident in finding them, as one of its tracking skills has become powerful with the rank increased.

That's why Squeak was able to sense a faint smell belonging to one of its prey who ran away before it was able to eat it.

Sooner or later he will find both of them and eat them up.

When Squeak thought about eating Kyle and Carcel, it jumped with excitement. The ground beneath its feet caved in a whole meter.

If someone now looked at its eyes he would definitely faint from shock as its eyes were twinkling like a baby, not matching its huge scary appearance.

After jumping around for a while, Squeak looked in two different directions and hurriedly climbed up a nearby tree.

Squeak was going toward the person who was nearest to him.

.....

Meanwhile, Alec encountered a (-D)-Rank monster the moment he appeared on the second floor.

He was a little flustered, seeing a high-rank monster the moment he appeared on the second floor. Still, his rank was (+E)-Rank, and after some struggle he killed the monster.

After defeating the monster, he wanted to run away but unfortunately, the place he appeared was a plain with no trees or any hiding place. That's why, Alec was targeted by a lot of monsters.

In the end, it's become too difficult for him to hold on. Also, when Alec saw a huge 20-meter tall worm coming out from underground. He had no choice but to run toward the nearest forest he could see with his vision.

It was because the worm was (C)-Rank!

Alec was confident he could defeat a lot of low-rank monsters with his (+E)-Rank strength. He could even fight (-D)-Rank monsters but there was no way he would be able to fight a monster who was 2 whole ranks above him.

That's why without even waiting for a second he started running at full speed. Even after that he almost died under the worm's countless attacks many times.

Alec would have definitely perished if he hadn't used all the skills present in his arsenal.

After running for more than three hours with his life on the line, Alec was finally able to reach a forest nearby and get rid of the worm monster.

When he entered the forest, he first encountered two unfamiliar humans who were roaming around together but Alec didn't stop seeing them and directly left.

He needed to reach the middle of the second floor!

The system finally gave him the location of something precious when he appeared on the second floor. Alec was a little happy seeing the system notification.

'Mission; xX'

Reach the center of the 'Tower of Opportunity' Second floor and find the 'Red fruit of the Ancient tree'.

Reward:

1x fruit of Ancient tree.

Penalty:

-None

No time limit.

It wasn't exactly a mission but still, if the system had spoken, that meant the fruit wasn't something ordinary!

With an excited expression, Alec started running toward the black dot displayed inside the system window.

The black dot was the location of the Ancient tree.

Alec's last mission where he had to find a 'sword' was pending because according to the system hints, the sword was somewhere around the top floors.

That's why he wasn't worried about it yet.

While running around, Alec saw two more demi-humans and one elf fighting with some monsters.

It seemed the second floor of the tower was shorter than the first floor because he was able to see those people on his way.

But still, he didn't see anyone familiar.

Alec wondered how the others were doing. He knew everyone was strong on their own but the Tower was becoming too dangerous. He just hoped they stay safe and climb the Tower successfully.

Chapter 69 Shiny Black Stones

Under the starry sky, three humans holding different weapons were fighting a giant (D)-Rank monkey who had three tails and two horns.

All the humans looked very exhausted and a lot of injuries could be seen on their bodies but even in front of such a disadvantaged situation, their faces displayed a resolute expression and there was only one thought inside their minds;

'No matter what, we will take down this monkey!'

The reason for this was a weak-looking blue branch, present on top of a tree behind the horned monkey.

As the sound of metal hitting flesh rang out inside the still forest, the fight was finally nearing it's climax when one of the humans delivered a huge blow to the horned monkey.

Amidst the hectic atmosphere, a figure wearing brown clothes was sitting on top of a nearby tree.

There was a beautiful white glow around the figure's left ear. The figure didn't care about the humans or the horned monkey. It just looked around with squinted eyes, seemingly trying to find something.

The figure was Kyle!

After leaving the black pool he directly started running toward his next stop. Finally, after two days, he appeared at the location where the second golden mark should be present.

He was definitely not in the mood to help those humans. He wouldn't have even stopped at this place, if not for the golden cross mark that was showing at the location where those humans were fighting with the monster.

Bia who was flying, looking around from above, suddenly spoke inside Kyle head.

'I can see a blue branch that is emitting mana, It's on top of a tree present behind the ugly monkey.'

After hearing Bia's words, Kyle nodded. He gazed at the fight in front of him with understanding and replied.

'Just picked up the branch and don't disturb the ones fighting. We should leave after taking the treasure there's no need to disturb others.'

Hearing Kyle, Bia was speechless. She looked at the three humans who were fighting, for some reason they looked pitiful.

She sighed, the world was too unfair. Well, maybe she would have done the same but Kyle was being too much.

At least tell those humans, you are taking the thing they are fighting for with their life on the line.

Or at least show some guilt you prick?

After throwing another pitiful glance at the humans, Bia hurriedly flew toward the blue branch and picked it up.

Right now her expression was serious and there was a floating thought inside her mind that cleared all her guilt.

-'It's fine as long as it's not me who is being used.'

After picking up the branch she flew back and gave the branch to Kyle.

Kyle took the branch from Bia and placed it inside his storage ring.

After throwing another quick glance at the fight that was almost ending, he nodded and disappeared from the tree branch.

Two minutes after Kyle left, the three humans killed the horned monkey. The moment the monkey died some white particles left its body and entered their bodies, making them look at each other with proud expression.

They did it!

One of the humans, who seemed to be the leader of the group, hurriedly took out a healing potion from his storage ring and gulped it down before walking toward the tree present behind the monkey body with an excited expression.

He was the one who found this place and also the one who suffered the most injuries in this fight.

Now that they have won the fight, the only thing left was to divide the loot!

With the other two humans following behind him, the leader walked toward the tree but when he saw that there was nothing present on the tree, his soul almost left his body.

He was frozen on his spot with his heart trembling, not believing what he was seeing.

Then suddenly one of the humans standing behind him also looked at the tree and questioned with shock.

"Where's the blue tree branch?"

Those few words were enough to make him cough up blood and faint on the spot.

He wasn't even able to curse.

The other two humans looked at each other, they also had the urge to faint but because their environment was dangerous they restrained their urge and dragged their leader away who seemed to have fainted due to the shock.

There were tears in their eyes.

Of course, they knew the blue branch didn't disappear into thin air. Someone else probably took it, when they were fighting with the horned monkey.

They wanted revenge but from whom should they take revenge? They didn't even see the person who took the blue branch!

The more they thought about it, the more tears stream down their cheeks.

.....

Meanwhile, after taking the blue branch Kyle was already more than a kilometer away from those humans.

After running around for two whole days he was dead tired but the next golden cross mark wasn't that far from his location. That's why Kyle didn't want to rest, not until he reached that place.

With ragged breathing, he jumped from one tree to another. Not stopping even for a second.

Finally after two long hours. He appeared in front of some old-looking trees. The ground in the middle of those trees was pitch black with a small hole leading underground.

Seeing no monster around the black hole, Kyle finally decided to sleep for a while before he entered that hole.

He didn't know what was inside that's why it was better to be prepared.

After looking around and finding a large tree nearby Kyle directly went to sleep. As usual, Bia sat on top of his stomach. She didn't sleep and kept an eye on the surrounding.

Next day early morning, Kyle woke up due to some rusting sounds. He looked down from the tree with squinted eyes and almost fainted.

Three round black colored, stone-shaped creatures were standing on the black ground. They opened their eyes and looked around before slowly closing them again and sitting down on the ground.

Kyle cursed, he didn't see them last night. It was too dark.

Now under the bright daylight, he was able to see everything clearly.

There wasn't any hole in the ground. There were only three black stone-like monsters. The three monsters were sitting around a pile of black shiny stones.

Heck! He wasn't even able to feel their presence. If not for the sudden movement, Kyle would have actually gone down to pick up those black shiny stones, stacked in the middle of those monsters.

Bia also looked at the monsters solemnly before speaking inside Kyle's head.

'I can feel the presence of those three strange monsters, they are all (-C)-Rank. Also, I can't feel anything from those shiny stones but if you want we can try to think of a way to pick up those stones.'

After speaking Bia looked at Kyle only to get dumbfounded.

Kyle was already a few meters away from her!

He shouted inside her head with seriousness.

'Bia you are becoming too greedy. Of course, treasures are important but we can't risk our life!'

Looking at his fading image with blank eyes, Bia cursed before following behind Kyle.

'Were not you the one who claimed to pick up all the treasures! When the hell did I become greedy?'

Chapter 70 Squeak Ending

On the other hand, Carcel found himself inside a forest when he appeared on the second floor.

He walked around with caution and killed a lot of low-rank monsters. While running around, he also saw some (-C)-Rank and (+D)-Rank monsters!

After seeing those monsters from a distance, he became even more vigilant. There was no way he would be able to defeat them.

A few weeks later, Carcel saw a 5-6 meters large pond in the middle of some trees. A strange blue fog was surrounding the pond.

With the help of the water inside the pond, he broke through to (+E)-Rank.

After Kyle, he was definitely the one who benefited the most inside the Tower.

With a satisfied expression, Carcel was going to leave the pond when he heard some sounds from the tree behind him.

He gripped his weapon tightly and jumped back while looking directly toward the place where the sound came from.

Under his serious gaze, suddenly a huge squirrel popped out its head from behind a tree branch. The squirrel looked at Carcel with a creepy smile.

Carcel looked at the somewhat familiar squirrel with a sweaty forehead.

It was (+D)-Rank!

'And why do I find it so familiar?'

Then it finally hit him. He looked at the squirrel who was grinning while looking at him from top to bottom.

"Shit, Why the fuck are you here?"

How could Carcel forget those tiny monsters who chased him around the first floor?

He thought he would never see those creepy monsters again in this life but here one of them was looking at him with a smile.

After meeting those squirrels Carcel almost developed a trauma toward small things.

He looked at the squirrel while slowly moving backward, his hands and back were already drenched with sweat.

Right now Carcel had a lot of questions inside his head, like how the heck this monster appeared here and how the heck a small monster which was originally so weak become so strong?

But alas there was no one who could answer his questions.

While Carcel was slowly moving backward. The squirrel looked at him with a delighted expression and was ready to pounce at him anytime

It finally found one of its prey!

"Squeakeed"

With a shout, the huge squirrel opened its mouth and directly jumped toward Carcel.

Carcel jumped to the left, avoiding the squirrel's large razor-sharp teeth. He cursed again when he saw the squirrel looking at him with bloodshot eyes.

The squirrel looked at Carcel with anger.

This time it would not let its prey run away!

With this in mind, the squirrel jumped at Carcel again.

On the other hand, Carcel was sweating buckets of water. He wanted to run away but the squirrel was (+D)-Rank! He just broke through to (+E)-Rank there was no way he would be able to defeat the squirrel.

When Carcel saw the squirrel jumping at him again, he cursed and started running in the opposite direction but because his speed was too low, he suffered a lot of injuries.

While he was running away from the squirrel, a lot of monsters were attracted to the commotion and also started following behind Carcel.

Soon, there were more than 10 monsters behind Carcel.

Carcel who was always aloof, for the first time in his life, was on the verge of tears.

In the end, Carcel used the Black Stone Vice Principal George gave him before he entered the Tower.

The moment he used the stone, he was teleported to a different place from before.

Seeing the lush green forest around him and no monster behind him, Carcel sighed with relief but then he cursed again.

"Why the heck was the squirrel so persistent!"

...

On the other hand, After Carcel disappeared. The squirrel looked around with bloodshot eyes.

All the monsters present beside him also looked around with confused expressions. The person who was just a few centimeters ahead of them suddenly disappeared into thin air.

The squirrel who just lost its prey again went berserk.

It started attacking the monsters around him.

Soon, a bloody fight broke out.

A lot of chilling shrieks and shouts could be heard from a distance.

All the humans, elves, and demi-humans who were around the area immediately ran away when they heard the sounds.

The fight also attracted the attention of a lot of high-rank monsters around that area, all those monsters heard the commotion and also joined the fight.

Soon, the small fight turned too big.

Dozens of monsters were gathered in a single place, they attacked each other with crazy blood-red eyes.

The shockwave around the high-rank monsters was enough to kill all those below (+E)-Rank.

The atmosphere became bloody with low-rank monster's corpses piling up everywhere.

Those monsters who were below (E)-Rank were instantly killed.

The squirrel who started the fight was jumping around the battlefield with a creepy smile. It broke through to (-C)-Rank when it ate another (C)-Rank monster corpse.

The more the squirrel ate the more its rank increased. Within thirty minutes it again broke through and entered (C)-Rank.

Its rank was rising at an unimaginable speed.

If right now Kyle and Bia were here, they would have definitely fainted from shock.

The squirrel who was originally fist-sized, was now more than 15 meters tall. Its body was also emitting a faint white hue.

While the monsters become crazy and attack each other. A huge majestic pillar of light descended from the clear blue sky.

The moment the pillar descended, everything went quiet. No one dared to make a sound.

Even the birds stop chirping. The rustling of the wind also ceased.

Suddenly an old soothing voice sounded from above the pillar.

"Tsk, What's with the commotion and what is a monster who should have been on the first floor doing here."

After the voice sounded, the majestic light pillar broke into white particles and all the monsters fell asleep.

It was a shocking scene but no one was able to see it because the area where the light pillar descendant disappeared from everyone's vision.

The squirrel who caused all this commotion also disappeared from the second floor.

No one knew what happened to the Squirrel whose name was 'Squeak'.

After the matter was settled. The old voice sounded again.

"Sigh, this time the kids are causing too much commotion."
