

CEO Bride 1041

Chapter 1041

After all, a parting between life and death was still being played out ahead.

At this time, the rising sun completely emerged over the eastern hills.

The warm sunshine shone on Cassie's pale face.

She half-squinted her eyes and said in frustration, "I've only seen a sunrise twice, and both times were with you."

Nash put his face against Cassie's forehead and said softly, "I've only

seen a sunrise once!"

The corners of Cassie's mouth raised slightly. Her eyes then slowly closed.

Nash felt that Cassie's vitality was quickly dissipating.

He made no more attempts to keep her.

He just closed his eyes and let the silent tears stream down his face.

Now, the surrounding flowers and plants seemed to have lost their original luster.

The grass and trees were shrouded in sadness.

The green hills wept.

Not long after, a white helicopter slowly landed on the grass not far

way

away.

This was the helicopter of the Parasite Colony.

Ishmael looked at Nash walking toward him and said with complicated emotions, "Hand Cassie back to me."

Nash glanced at Cassie in his arms again before handing her to Ishmael with great heaviness.

Ishmael carried Cassie's lifeless body and strode toward the helicopter.

Callum took a last look at Nash. No words were said as he followed

his father into the helicopter.

The helicopter rose slowly.

Soon, it disappeared into the horizon.

Nash felt the world spinning and then lost consciousness amidst everyone's exclamations.

On the helicopter flying out of Jonford, Ishmael turned to Callum and said, "Take out that soul-eater bug!"

Callum took out a glass bottle from his jacket pocket.

Inside the bottle were bugs transformed from white mist.

The bugs seemed indistinguishable between reality and fiction.

Callum unscrewed the bottle cap. He opened Cassie's mouth and poured in all the bugs in the bottle. He asked worriedly, "Father, is this method really possible?".

Ishmael said solemnly, "Other than this, there's no other way. This is the glimmer of hope that Master Calcraft said!"

Back then, Jonathan Calcraft predicted that Cassie was destined to die.

Therefore, before leaving, he left behind a soul-gathering array and a soul-nourishing chest.

If everything went well, Cassie still had a chance to survive.

Nash woke up three days later at Royal Bay Villa.

When he opened his eyes, he saw that he was lying on Hera's lap.

Hera was scrolling through her phone. When she saw Nash open his eyes, she exclaimed with joy, "Honey, are you awake?"

Nash stretched out. "How long have been sleeping?"

"Three days!"

"So long?"

It seemed that the magic in the Longevity Technique had drained his true energy and vitality.

Nash remembered that Cassie was gone.

His eyes dimmed slightly.

Hera saw the change in Nash's face and gently touched his head to comfort him. "I know you're sad. My deepest condolences!"

Nash tried his best to smile. "Well, I'm a little hungry. Please make me

some pasta to eat!"

Hera helped Nash up on the couch "Help yourself with some fruits first. I'll make some pasta for you!"

Maria was mopping the floor, but she did not fight Hera for the task.

Every time Nash wanted some pasta, Hera would prepare it herself.

At this moment, Ash and Bertram walked in.

Now that Nash was awake, Ash took out a pill and handed it over." This is a third-grade Vitality Nourishment Pill, which can help you restore your spiritual energy!"

Nash's eyes lit up. He took the pill and stuffed it into his mouth.

In an instant, the pill turned into thick spiritual power. Like a great river, it flowed endlessly throughout the body.

The Mystique Pill in his body absorbed it all.

Nash moved his body around, feeling like he had been resurre

Bertram said, "Fabian called yesterday. The Charlie family arran for two level-five and two level-six Genetic Warriors to come to Drakonia. According to his calculation, it's estimated that they'll arri today. Ash and I plan to make the first move!"

Chapter 1042

"Level-five Genetic Warriors?"

"Isn't that equivalent to an expert in the Mystique Loyalty Realm?"

Coldness flashed in Nash's eyes.

The Charlie family was willing to spend a lot of money to deal with him.

They even dispatched four powerful men in the Mystique Loyalty Realm.

"The level-five Genetic Warriors have the strength of the early stage of the Mystique Loyalty Realm, and level-six Genetic Warriors have the strength of the middle stage Mystique Loyalty Realm!"

"Genetic Warriors are different from martial arts experts. They ve

powerful self-healing abilities, and their combat effective

Very

much stronger than the ordinary experts of Drakonia!"

Bertram sat on the couch opposite. He took out a cigarette from pocket, put it in his mouth, and lit it.

Ash sat next to Bertram and continued what Bertram said, "In order to prevent your family from being in danger, we must strike first!"

They wanted to cut ties with the Charlie family anyway.

There was no need to worry about offending them at all.

Nash nodded and said, "I'll go with you. It just so happens that I can find out the mastermind behind this!"

At this time, Hera went to the dining table with the pasta.

"I'm going to eat something to fill my stomach first!"

After regaining his vitality and energy, Nash no longer felt hungry.

However, Hera had made the pasta herself, so it was unjustifiable not to eat it.

Just when Nash was eating, Hera received a call from Olivia.

"Hera, is Nash awake?"

"Yes, he is!"

"Sienna Lowe wants to visit Nash. Is it a good time for you?"

“Ah... Let me ask!”

Hera covered the phone receiver, looked at Nash, and asked, “Sienna wants to visit you...”

Nash responded vaguely, “I don’t think it’s appropriate. The C and the Gordons are all watching me. If she comes to me and see that she’s familiar with me, I’m sure she’ll be attacked on the back!”

Hera could not help but shudder when she thought of the tiger- masked killers who appeared three days ago. She quickly said to Olivia, “Nash has recently offended the Gordons and the Charlies in Capiton.

“They’ve sent powerful Genetic Warriors for revenge. For Sienna’s safety, it’s better that she doesn’t come to Royal Bay!”

After speaking for a bit, Hera ended the phone call. She looked at

Nash and said, “The number of people who want to see Sienna can probably make up a country’s population. She took the initiative to visit you, but you refused!”

Nash rolled his eyes at Hera

“You seem to want me to see her?”

Hera was stunned for a moment and then smiled sweetly, “Sienna is an A-class actor, a top contemporary singer, and the daughter of one of the Ten Families of Caption. Having a good relationship with her can expand your network of contacts!”

She felt very sorry for what happened three days ago.

Cassie originally came to see Nash.

Nash probably took Hera’s feelings into consideration and did not let Cassie come to Royal Bay. Cassie then left without saying goodbye to find Abraham of the Parasite Colony. She also lost her life bee

of this.

When Cassie died in Nash’s arms, Hera could feel Nash’s sorrow

She did not want Nash to have any more regrets because of her

consideration.

Nash finished the pasta and said angrily, “Then I might as well take

her as my second wife!”

Although the Lowes were also the top wealthy family in Caption, they

could no longer help him.

If someone from the Bullhogs of Motadine came to visit, he would definitely go out to welcome them.

Hera smiled sweetly and said, "Sure. There's also Mel. Marry and bring her home too!"

Nash worriedly reached out and touched Hera's forehead.

"Are you okay? No fever either?"

Nash gently pinched Hera's tender face. "I'm going to go to work. You stay at home and have a good rest!"

With that, he got up and rushed to the airport with Ash and Bertram.

Hera looked at Nash's back with mixed feelings in her heart.

She knew that she could not help Nash, but she could not become Nash's burden either.

Chapter 1043

Hence, if Sienna wanted to get close to Nash, she would not mind.

In the most luxurious Deluxe Royalty Suite in Chateau Hotel, Sienna was sitting on the couch while wearing a violet-trimmed strappy nightgown.

She crossed her legs. Her waist-length hair was hung loosely over her shoulders. Her exposed shoulders were as creamy as milk, exuding a warm luster under the light.

With a glance, any man could imagine how amazing she would feel in their arms.

Olivia sat beside her, peeling an apple. She told her what Nash said.

Sienna's eyes darkened. She pouted and said, "What's so dal

He obviously just doesn't want to see me!"

She embarked on the entertainment industry at the age of six,

into film and music.

Every movie and TV show she starred in would win the best aw

Every record sold well both locally and abroad.

In this traffic-oriented era, she crushed all Internet celebrities and was

a veritable top diva in the entertainment industry.

Almost every one of the Ten Families of Capiton wanted to marry her, but she turned them all away.

Then, she met Nash. Her grandfather even forced her to wear a maid outfit to receive Nash as a guest.

She clearly remembered that this man did not even recognize her. The way he looked at her was also clean. He did not have the admiration and lust that those young men from aristocratic families had.

After Sienna returned to Capiton, she tried hard to forget this aloof and indifferent man.

She thought that this man would definitely find a way to get her contact information, so she kept waiting...

It was a long and lonely wait.

She began to investigate Nash and asked Theo a lot about Nash's

past.

However, Theo did not tell her much!

Not long after, Nash defeated The Swordsman and became

in the martial arts world.

She then asked the Lowe family worshiper, "Is Nash very pow

The worshiper only said, "A hundred of me combined are no m

for him!"

Sienna thought, 'Isn't this the unparalleled hero who I've been waitin for?'

She couldn't sit still. She knew she had to take Nash home.

She was prepared for a scolding after expressing her intentions to her grandfather.

However, instead of scolding her, her grandfather strongly supported her ideas.

Olivia handed the peeled apple to Sienna, smiled, and said, "Sienna, you didn't come to Jonford to film, right?"

After years of working in the industry, she had already learned how to discern people's hearts.

Theo had talked to Olivia about Sienna some time ago. He told her that Sienna had asked him a lot about Nash.

From the moment Sienna contacted her to pick her up at the airport, she had already guessed Sienna's intention.

"I'm here for Nash Calcraft!" A blush appeared on Sienna's rosy face. She was not surprised that Olivia could see through her thoughts.

She had asked Theo about Nash.

Olivia, who had been in the business for so many years, ha

developed a razor-sharp instinct.

"Oli, do you think I have a chance?"

"It's hard to say. Based on my understanding of Nash, he's not a

promiscuous person!"

"But... it's rare for me to feel something for a person. I don't want

give up so easily!" Sienna's gaze was a little sad.

dy

"Then you have to attack Nash's weakness!" A faint smile appeared on Olivia's lips.

“What do you mean?” Sienna’s eyes lit up.

“I still have a meeting to attend. I’ll come see you tonight!”

Olivia seemed unwilling to say more. She stood up and left the room.

Sienna did not ask any more questions. A thoughtful expression appeared on her beautiful face that could win over a country.

Chapter 1044

Outside Jonford Airport, a black Mercedes-Benz G-Class was parked in a remote alley.

Nash opened the window and smoked.

Ash and Bertram used their mental power to monitor every move in the airport.

Inside the airport, a passenger plane flying from Moliga was about to land steadily.

Passengers filed out.

Four dark-skinned men in suits and sunglasses stood out.

The moment the four of them got off the plane, they immediately gathered around and discussed something.

Immediately afterward, they walked to a remote corner and

out of the airport.

Outside the airport, Bertram frowned and said, "They seem to have discovered us!"

Nash threw away the cigarette butt. He immediately opened the door and got out of the car.

Ash and Bertram stepped out of the car.

The three of them looked at each other before jumping into the air and chasing after them.

Experts in the Mystique Loyalty Realm could not fly, but they could rely on true energy and fast speed to jump.

It was difficult for ordinary people to see it happen with the naked

eye. Even if they saw it, they would only feel that something had passed by.

The chase went on for about half an hour.

The four men landed in an open field.

They stood side-by-side, staring in the same direction.

After a moment, Nash and his team also landed on the ground.

One of the dark-skinned men looked at Nash and asked in standard local language, "Who are you?"

Genetic Warriors had strong learning abilities and could learn multiple languages in a short period of time.

Nash asked calmly, "Aren't you here to kill me?"

The four Genetic Warriors looked at each other, and the person just spoke laughed. "How do you have the guts to come to us? It seems that you can't wait to see God!"

He was a level-six Genetic Warrior and the leader of this operation team, Dayan Nix.

Dayan thought that the case was a difficult one since level-six Genetic Warriors were dispatched, but now, he was only seeing a young expert in front of him.

Dayan felt a little disappointed. He missed the feeling of killing an

organization by himself.

Nash did not hesitate and immediately threw a punch.

Eight Desolate Crumbling Fist!

There was a slight sneer and an unimpressed expression on Dayan's face.

Starting from level five onward, the genes of a Genetic Warrior would

be strengthened and the physical body would become stronger.

He was a level-six Genetic Warrior. His body had long been

strengthened to the point of steel. He could easily smash a super large truck.

He thought, 'Competing with a level-six Genetic Warrior in strength? Isn't this like hitting a stone with an egg?'

The two fists collided.

A ripple visible to the naked eye spread out in all directions.

Dayan flew dozens of meters backward.

The bones of his right arm were shattered, and his muscles were jelly.

Fortunately, his skin was very tough and protected the flesh and blood from spilling out.

"Oh... my goodness!"

The remaining three Genetic Warriors' mouths were agape. Their mouths were huge to begin with, and now, it seemed one could stuff their mouths with a goose egg.

Ash and Bertram looked at each other, both seeing the shock in each other's eyes.

They had secretly investigated the Genetic Warriors. They knew the strength of a level-six Genetic Warrior very well.

Level-six Genetic Warriors were comparable to those in the middle stage of the Mystique Loyalty Realm. However, their physical bodies were powerful; they could even compete with those in the late stage of the Mystique Loyalty Realm.

Ash and Bertram wanted to remind Nash, but Nash took action first.

They thought Nash was going to suffer a loss, but unexpectedly, this kid even punched the level-six Genetic Warrior more than 20 meters

away.

“His punch... Would you be able to take it?” Ash looked at Bertram and asked.

Bertram had also tempered his physical body. His physical

was one level higher than that of a level-six Genetic Warrior.

Chapter 1045

Moreover, he was at the advanced level of the Mystique Loyalty

Realm. With his strong physical body, he could fight against martial arts experts at the peak of the Mystique Loyalty Realm without falling behind.

Even if he was halfway to the Profound Oriental Realm Realm, he could not easily crush him.

Bertram groaned. “I should be able to catch that punch just now!”

Ash nodded and said with a smile, “That’s alright, then. If the person we’re protecting is stronger than us, where would we put our dignity?”

Bertram smiled bitterly. “But he didn’t use all his strength in that punch just now. If he had used all his strength, I probably wouldn’t have been able to catch it!”

The smile on Ash’s face suddenly faded. He narrowed his eyes

look at the slim figure.

After some time, he said with a face filled with relief, "If the Y

rise again, they'll be unstoppable!"

"Let's do it!"

Bertram stretched his neck and made a cracking sound. His terrifying

muscles suddenly swelled, and his clothes burst.

At this moment, Nash's calm voice was heard. "Seniors, you don't

need to do anything. I want to fight four of them by myself."

Bertram was stunned.

Ash also frowned.

Was this guy not being a little too arrogant?

The other three were Genetic Warriors comparable to the Mystique Loyalty Realm.

Even if he could defeat a level-six Genetic Warrior, it was difficult for him to fight all of them at once.

"Boy, I admit that you're strong, but you can never fight against the four of us!"

Dayan's right hand had recovered as before. His words were full of excitement.

He was a little careless just now.

This guy was indeed strong. It would be difficult to kill him, no mention there were two powerful experts behind him.

Although Dayan's side had an advantage in numbers, their cha

winning were not great.

He had been worrying about how to hold back the two old men, but did not expect Nash to speak so brazenly.

Nash was too lazy to talk nonsense and jumped out with a lunge. After volleying, he clenched his fist and blasted Dayan instantly.

This punch left the sound of something breaking resounding in the

air. The power behind it seemed to have the potential to swallow the

sky.

Dayan clenched his fists. His pupils were bloodshot, his muscles bulged, and his clothes ripped into pieces.

Then, Nash stepped forward and landed the punch.

The punch did not hurt Dayan, but he still felt uncomfortable. He felt cracks appearing on his newly recovered bones.

“Hahaha, that’s all you got? Let’s go!

Dayan used all his strength this time. Seeing that Nash’s strength was not as strong as before, he could not help laughing.

Nash’s arrogance?

He would have to pay the price for that!

The remaining three Genetic Warriors instantly became energetic.

However, they did not dare to be careless. They mobilized their energies in their bodies to exert all their strength.

All the clothes on their body were torn to pieces.

Then, they all waved their fists and attacked Nash.

Four people besieged Nash, but Nash was able to handle it with

Nash thought, ‘If I were only in the middle stage of Mystique Loy Realm, I might not be able to defeat four Genetic Warriors.

‘But... I’m in the late stage of the Profound Reality Realm now.’

Nash’s power was several times stronger than before.

He was even confident of challenging Old Aor from Behrine.

Nash's speed was extremely fast. The speed of the four Genetic Warriors was not slow either. Shadows of fists were everywhere in the air.

Ash and Bertram squinted their eyes to watch the battle scene.

"Bertram, you're a master of fist techniques. Have you ever seen this move of Nashy's?"

"I've never seen them before. It's a bit like Collapsing Fist and Eight Level Fist, combined with the strength of Eternal Spring Fist. It looks messy, but it's extremely powerful!"

As soon as Bertram finished answering Ash's question, his eyes suddenly widened. "Is it the Eight Desolate Crumbling Fist?"

Ash's pupils shrank. "The Eight Desolate Crumbling Fist has been lost for hundreds of years. Can you take a closer look?"

Bertram looked closely for another ten seconds before he with conviction, "There's no mistake, it's the Eight Desolate Crum

I've seen the fragments of the Eight Desolate Crumbling Fis

"A few of Nash's moves just now are exactly the same as thos fragments!"

Chapter 1046

Eight Desolate Crumbling Fist!

The pinnacle of Fist Techniques!

Hundreds of years ago, this Fist Technique was considered to be so unbelievable that it caused countless martial arts masters to fight over the manual. It caused the manual to be torn into several parts.

Hundreds of years later, the Martial Arts Association in Drakonia was established and began to collect martial arts manuals from all over the world.

The remaining fragments of the Eight Desolate Crumbling Fist manual were archived in the Martial Arts Association.

Back then, Bertram was only one of the vice presidents of the Drakonia's Martial Arts Association.

"He's only 24 years old, but he has mastered the Eight Desolate Crumbling Fist. The world of martial arts is about to change!"

Bertram was not just shocked that Nash had the complete Eight Desolate Crumbling Fist.

What surprised him the most was Nash's age.

Only the elites from a hidden sect would have such martial arts talents.

Ash's eyes showed his excitement. "I heard that he's also a Golder Amulet Master. He's such a formidable beast in the Path. He'll

of Drakonia to the whole world!"

Bertram curled his lips and said, "He's a true martial artist. He'll lead the martial arts community of Drakonia to shocking heights!"

Up ahead, Nash punched through the chest of a level-five Genetic Warrior.

The warrior flew backward and fell into a wheat field.

The meridians and blood vessels in his chest began to recover immediately.

In the blink of an eye, he was ready for battle again.

When Bertram saw this, he could not help but worry. “The Genetic Warriors’ regenerative abilities are too strong. Things can’t continue like this. We’d better take action fast!”

He was a militant by nature.

There was nothing to do in this case except retreat.

After finally getting a chance to take action, Nash did not w help.

Ash said with a leisurely smile, “This kid is practicing. Let’s take look first!”

Bertram sighed helplessly. He simply sat on the grass aside and

smoked to relieve his boredom.

Nash fought with the four Genetic Warriors for about half an hour.

The Eight Desolate Crumbling Fist was used skillfully.

As long as he broke through his current realm, this set of Fist Techniques would be faster and more powerful.

Next, he could even practice the Profound Sword Techniques.

Just when the four of them were about to rush forward, Nash suddenly raised his hand and made a stop gesture.

Dayan sneered. "Your true energy is almost depleted. It's time to go see God!"

Nash summoned a branch from a distance and grabbed the branch in his hand.

He brushed off the leaves and said lightly, "Let's continue..."

"With a branch? Boy, you're looking for death!"

Dayan felt humiliated as never before.

His physical strength could even crash a truck.

Nash actually wanted to hit him with a branch?

Nash held the branch with his right hand, and the Profound Sw Techniques' moves appeared in his mind.

True energy poured into the branch. A sword light flashed through the branch as thick as a thumb.

"A tree branch as a sword?"

Dayan finally saw something.

Having seen Nash's Fist Techniques, he did not dare to be careless.

Dayan reached out to take out a dagger from his waist.

This dagger was made of a special metal by the organization. The airport equipment could not detect it.

The other three Genetic Warriors also took out their daggers.

They were once mercenaries. After being transformed into Genetic Warriors, they underwent rigorous training.

They all exuded a chill as they took out their daggers.

Nash opened his eyes abruptly, stepped out with a lunge, and thrust the branch with sword energy in his hand forward.

Dayan held the dagger and slashed at the branch with his backhand.

Nash's right hand shook slightly, and the branch hit the dagger at a tricky angle.

The branch thrust toward Dayan's head.

Dayan reacted quickly, turned his head sideways to avoid it and threw the dagger in his hand violently.

rd,

Nash put away his sword and knocked away the dagger. He then swung out several sword energies to repel the three other G

Warriors.

Dayan grabbed the dagger from the air with his big hand. The f

warriors attacked together.

Nash did not use his sword energy anymore but relied solely on hi

sword moves to shuttle between the four of them.

“Isn’t this Bladesman Divus’ Profound Sword Techniques?”

Bertram stood up from the ground, his eyes slightly red.

The Profound Sword Techniques were so obscure and difficult to understand that even Bladesman Divus’ few disciples had failed to get started despite getting a ten-year head start.

They did not expect Nash to perform it so smoothly.

Ash clucked his tongue and said, “Nash, you’re truly a martial arts

genius who’s unprecedented in history!”

Chapter 1047

The Eight Desolate Crumbling Fist had already shocked Ash and Bertram.

It was rare to see people who could achieve the pinnacle of Fiist Techniques in their 20s.

Now, Nash was actually using the Profound Sword Techniques that were previously only used by Bladesman Divus.

The ability to achieve Fist Techniques and swordsmanship to this extent at the same time only showed that Nash’s martial arts talent was abnormal.

Bertram said with a face full of joy, "Bladesman Divus has been dead for a month. If Nash can perform the Profound Sword Techniques to such an extent in one month, Bladesman Divus is probably smiling in heaven!"

Ash nodded in agreement.

Everyone knew this was Nash's first time using the Profound Sw Techniques.

About an hour passed.

Nash's understanding of Profound Sword Techniques deepened even more.

His speed became faster and faster. His swordsmanship became more and more powerful.

In one and a half hours, Nash had mastered the Profound Sword Techniques to a high level.

This was enough!

It was time to end things!

Nash waved a terrifying sword energy and shook the four people away.

A large amount of true energy was poured into the branch.

The branch actually made a crisp sword cry.

“Illuminating Desolation Sword!”

Nash thrust the branch and stabbed Dayan with 18 sword energies.

The sword lights flickered, and their momentum was overwhelming.

Dayan felt as if he was locked in place by these 18 sword e

There was a faint tingling sensation on his skin.

When he looked down, he saw that 18 bloody holes had been

through his body.

Dayan looked at Nash in disbelief.

Nash’s Fist Techniques were unparalleled.

Even his swordsmanship was so terrifying.

Who was this person?

The wounds healed at a speed visible to the naked eye.

Dayan calmed down and smiled lightly. “Boy, you can’t kill me!”

Nash smirked slightly. “Not necessarily!”

With that, Dayan's whole body suddenly evaporated into a mist of blood by the countless sword energies.

The other three Genetic Warriors were frightened.

"Devil..."

"He's the devil..."

A short dark-skinned man dropped his dagger and ran away.

The other two people paused for a few seconds before running away as well.

Nash would never let them go.

He threw out the branch in his hand.

He pinched firmly with both hands and whispered, "Infinite Swo Transform!"

The branch transformed into thousands of sword energies. The dazzling sword energies overshadowed the sunlight.

The thousands of sword energies stabbed the three Genetic Warrior overwhelmingly.

The sword energies pierced through the three of them.

The sword energies that entered their bodies exploded. The three of

them were completely turned into pieces.

Ash and Bertram, were stunned.

Nash walked up to the two of them with a smile and said, "It's done. We can go back!"

Nash's voice snapped the two of them back to their senses.

He jumped up and then turned into an afterimage as he rushed in the direction of Jonford City.

"Infinite Sword Transform!"

"How... How is this possible?"

Ash stared in the direction where Nash disappeared.

This was the last form of the Profound Sword Techniques. Even Bladesman Divus had taken decades to understand it.

Nash learned it in just one month?

Bertram took a deep breath, suppressed the shock in his

nd

said slowly, "This kid has many secrets hidden in him!"

In the open-air restaurant of Jonford Hotel, Cressida Graham an

Lasso Charlie were having steak.

“Dear, haven’t your Genetic Warriors arrived yet?”

Cressida glanced at the time.

Logically speaking, they should have gotten off the plane two hou

ago.

Lasso picked up the white napkin around his neck and wiped his mouth. He said with a calm smile, “I asked them to carry out the

assassination immediately upon arrival, so they’ll come to us after completing the mission!”.

Chapter 1048

As soon as Lasso finished speaking, the phone on the table vibrated.

Cressida looked happy. “Is it done?”

If Travis and Queenie could be rescued, it could be considered as she had repaid her first and second uncles’ kindness.

When the time came for her to take charge of the Graham family, there would be no psychological pressure.

Lasso picked up the phone and saw that it was his father calling. Suddenly, he had a bad feeling.

After he hesitated for a long time, he finally answered the phone.” Father...”

“Who did you offend?” Before Lasso could finish his words question came from the other side.

“A supervisor from Universal Group,” Lasso explained before slightly nervously, “Father... Uh... What’s wrong?”

There was silence on the other end of the phone for a few seconds before he said, “The life signals of two level-five and level-six Warri have gone out!”.

“What?”

Lasso stood up abruptly from his chair.

d

There was a chip installed in the body of all Genetic Warriors, which was mainly used to monitor their various data and positioning.

The disappearance of the life signals meant that the Genetic Warriors were dead.

Lasso took a deep breath, clenched his fists, and gritted his teeth. “ Fabian! It must’ve been Fabian who arranged for someone to protect him...”

“Fabian? Why is this related to Fabian?” The voice on the other end of the phone asked.

Lasso recounted the content of his previous phone call with Fabian.

“Who is it that Fabian is paying so much attention to?”

The person on the other end of the phone murmured in a low voice. It was uncertain if he was asking Lasso or talking to himself.

“Father, do you still remember that Fabian came to Drakonia a month, ago?”

“Yes!”

“Shortly afterward, the chairman appointed a chief inspector fro

Drakonia. Not long after, Bladesman Divus went to Drakonia!”

Lasso sat on the chair again and took a sip from the wine glass.

Cressida, who sat opposite, owned 3% of Universal Group’s share

When she heard Lasso’s analysis at this moment, she immediately

thought of Nash. ‘Could that guy be the chief inspector of Drakonia?’

However, she shook her head mockingly.

A mere chief inspector would not be able to get Swordsman Divus,

the foundation’s third elder, to personally protect him.

At this time, Lasso said again, “Father, I suspect that Nash is probably a member of the Youngs. The last time Fabian came to Drakonia, he may have handed over the foundation to Nash. This so- called chief inspector is just a job to train Nash!”

The Charlie family controlled 7% of Universal Group.

This equity was in the name of Lasso's father. Lasso's father planned to pass down the equity to Lasso, so he often analyzed the situation of Universal Group with him.

Lasso was not in Universal Group, but he knew Fabian very comprehensively.

The only people who could make Fabian risk his life and come to Drakonia in person were the Youngs

There was silence on the other end of the phone. Lasso did n either. He held the wine glass in his hand and thought about something.

After a full three minutes, the person on the other end of the said in a deep voice, "Within today, I want all the information a Nash from his childhood to adulthood.

"I'll send McGrady to protect you. Don't come back until Nash's

ak

identity is known. I'll also investigate the status of the foundation as soon as possible!"

"McGrady?"

Lasso's breathing became faster.

There were 20 people in the first batch of experimental subjects of the Charlie family.

18 of them died during the experiment.

Only two survived.

After dozens of genetic enhancements, the power of these two experimental subjects had reached a very terrifying level.

It was not an exaggeration to say that they were the family's secret

weapon.

Hexagon Tower paid a rental fee of six billion dollars per year for Test Subject One.

Test Subject Two stayed in the family to protect the family members.

Now, his father wanted to send McGrady to protect him, which

showed his status in the family.

Finn's third Mercedes-Benz G-Class was parked at the door

Bay Villa.

Chapter 1049

Finn and Ken walked into the living room carrying a black safe that was as tall as half a person.

Yasmin was present as well.

She was wearing a professional suit. Her timidity in the past was

no longer there, replaced by the aura of a strong woman in the workplace.

Maria looked confused. “Finn, what’s going on?”

Finn chuckled. “This belongs to Nash!”

Maria smiled and nodded. She then brought out a drink and a fruit

plate from the refrigerator. “Please have a seat for a while. The sir isn’t back yet.”

Finn was very excited.

These were 120 spiritual stones.

If he used them to practice, he could at least break through to

stage of the Profound Reality Realm

Yasmin sat on the couch opposite, looking a little nervous.

Finn sat next to Yasmin, held her waist, and said softly, “If you’re afraid to say it, I’ll help you say it later!”

Yasmin pursed her rosy lips and said with self-reproach, “I’d better tell Nash myself!”

With that, Nash walked in. “What do you want to say to me?”

“Nash...”

Finn immediately withdrew his hand and stood up to say hello.

Yasmin and Ken also stood up to say hello.

Nash glanced at the safe on the floor, smiled slightly, and said, "Everyone, sit down!"

Finn wanted to say something, but after seeing Ash and Bertram, he swallowed his words.

Nash waved his hand. "Don't worry, they're one of us. If you have anything to say, just say it!"

Finn then said, "This is the first batch of spiritual stones. There are 120 of them!"

As soon as these words came out, Ash's and Bertram's purank

Spiritual stones?

120?

How could this be?

Even Nash could not help but raise his eyebrows. "Is the mine g into mass production so soon?"

According to his assumption, it would take at least ten days for the to start mining.

However, it had only been three days and spiritual stones had already begun to appear.

In hindsight, it had to be because of the three largest families in Jonford.

With enough financial support, all progress would naturally speed up.

Finn used his fingerprint to open the first layer of the lock and then used his retina to open the second layer. The third layer required facial recognition.

There was a fourth layer of password lock at the end.

Finn smiled awkwardly and said, "The fourth level password is in the hands of the three major families. Each of them has two digits. They were probably sent to your phone!"

Nash took out his mobile phone. He had received two-digit numbers sent by Sydney, Queenie, and Olivia on WhatsApp.

The message sent by Sydney read: [The two digits in the mid of the password are 66.]

Queenie: [The first two digits of the password are 37.]

Olivia: [The last two digits of the password are 92.]

Nash entered the password 376692.

The safe made a clicking sound. The ten-centimeters thick, titan alloy door slowly opened.

A strong spiritual energy rushed toward his face.

It was truly the spiritual stones!

Ash and Bertram felt themselves going into turmoil.

Both of them were powerful experts in the Mystique Loyalty Realm. At this stage, they could only rely on a large number of materials to

increase their cultivation.

No matter how many heavenly materials and earthly treasures there are, they were not worth a single spiritual stone.

Nash took out ten dove egg-sized spiritual stones and gave them to Finn and Ken. "Thank you for your hard work. You can cultivate with these spiritual stones!"

Finn waved his hand quickly. "We've just broken through several realms a few days ago. During this period, we need to temper our meridians and stabilize our Mystique Pills. Otherwise, we'll implode. Mr. Nash, please use them for your cultivation first!"

Ken unceremoniously took the ten spiritual stones from Nash's hand. "My Unicorn Arm has transformed my whole body. I should be able to absorb a lot of spiritual power!"

Finn frowned slightly. 'What's wrong with this kid? Even if yo

digest it, you should be more tactful about it!'

Nash smiled slightly and said, "That's for the best. Only when y become stronger can you do more things for me!"

Chapter 1050

He had long seen that Ken's physical body was stronger than ordinary warriors.

Even if Ken had refused, Nash would have forced Ken to accept these spiritual stones.

Ken could help him more if he became stronger.

Ken blushed and looked at Nash, saying, "Thank you, Mr. Calcraft!"

Nash smiled, took out all the spiritual stones, and said, "You guys go back to the mine first. There has to be someone watching over there!"

The two said their goodbyes and then left carrying the safe.

Nash sat on the couch, looked at Yasmin, and asked, "Yasmin, what's

going on with you?"

Yasmin pursed her red lips and said, "The company account insufficient funds. Queenie and Sydney plan to inject capital.

ask for some money from you!"

Her face was red. Her little hands were holding the hem of her

clothes, and she looked very nervous.

Nash smiled. "Are you trying to stabilize your shareholding ratio?"

The total investment of Southern Heavens Pharmaceuticals was

about ten million.

With the Zells and Watsons as shareholders, they could even inject

up to one billion.

Yasmin was probably worried that Queenie and Sydney would change their shares, so she came to get the money from Nash.

“Well, although I know the two ladies won’t have any ideas, I do!” Yasmin nodded.

“How much do you need?”

Nash was very satisfied with Yasmin’s approach.

If Southern Heavens Pharmaceuticals was short of money and used funds from the Zells and the Watsons, Yasmin would owe them a favor.

Yasmin took a deep breath, raised her eyes, and stared at Nash. She said as if she had come to this decision with great determination, 1.5 billion!”

Nash was stunned.

The total investment of Southern Heavens Pharmaceuticals

ten million.

The first capital injection required 1.5 billion?

“L...”

“Sure!”

Just as Yasmin was about to elaborate further, Nash responded.

He did not need to ask why.

It was all because he trusted her.

Yasmin stared at Nash in disbelief. "Nash... You..."

ly

She was not asking for 1.5 million, after all.

It was not even 15 million or 150 million

It was a total of 1.5 billion.

Nash was not even asking for an explanation?

Just how much did he trust her?

"I trust you..."

Nash smiled slightly and then took out his cell phone to call Melody.

Just as he found Melody's phone number, Jasper suddenly called." Mr. Calcraft... Innovate Collective hired two stage nine great-

grandmasters to assassinate Mr. Harrison and Ms. Mare..."

Nash's face darkened. "When did it happen? Are my father-in-law and mother-in-law okay?"

Jasper said, "It happened in the morning. Both Mr. Harrison

Mare are fine!”

Nash’s eyes flashed with murderous intent. “Are you sure it was arranged by Innovate Collective?”

Innovate Collective and Baroque were competitors.

Now, the matter had escalated to the level of hiring great-

grandmasters.

It seemed that Innovate Collective had become desperate.

“I’m sure. They’re just two stage nine great-grandmasters, and they’re not professional killers. I just used a few tricks to kill them!”

”

“Well, I understand. Please protect my father-in-law and mother-in-

After Nash ordered him, he hung up the phone.

Then, he called Melody.

“Sir!”

“I need to borrow money!”

“How much?”

“15 billion!”

“Okay!”

Melody responded lightly.

Nash’s face turned a little red.

He suddenly realized that he owed Melody a lot.

Melody’s grandfather has been guarding Young Gardens for a

Her grandmother died to protect the Youngs’ secrets.

She even risked her life to protect Hera.

Every time he was short of money, he would think of her.

It seemed that he regarded her as a subordinate who could be

manipulated at will?

Nash sighed secretly. “What are you doing?”

“Watching cartoons,” Melody responded lightly. She then said, “I’ve

submitted the application to the bank. The bank will call to verif

later. Is there anything else?"

"Come over here!"

Nash planned to give Melody some spiritual stones.

Maybe this would make him feel better.
