

## CEO Bride 110

### Chapter 110

Skadi huffed, "Grandpa, why is that guy here?"

Zakariah glanced at Skadi. "What did you think we were waiting for?"

That was when Skadi realized what was happening. "Nash is Dr. Calcraft who's treating the Warden?"

When she first heard of the name Dr. Calcraft, she was confused about when did Jonford get another Dr. Calcraft!

When Nash arrived, all eyes were on him.

Father Cillian and Father Lloyd included.

When the two of them looked at Nash, Nash returned the gaze.

Cillian smiled and nodded.

Nash ignored it as he turned away and walked into the villa.

"Damn... that kid is so rude..."

Lloyd crinkled his nose and said, "Master Calcraft was so polite when he came to Quiet Winds Church!"

Cillian scoffed, "If you had the strength of the Profound Reality Realm, you'd be cocky too!"

Brian knew that Nash was about to use the needles so he immediately tore off the thin sheet on Philix's body.

Nash opened his hands and the twenty-four golden needles shifted into formation.

His hands moved the golden needles in a circular motion in the air.

Nash's inner energy poured into the golden needles and the light radiating from it became stronger and stronger.

The curved golden needles twisted its tail which made it look like a live water snake.

"Heaven has eight gates for the flow of eight winds!

"Earth has eight routes in response to eight trigrams!

"Humans have life and death because of yin and yang!

"The Divine opens the eight doors, responds to eight trigrams, and reverses yin and yang!"

Nash chanted the mantra and all the golden needles in his hand fell.

All ordinary dry-needling treatment penetrates only three points.

However, Nash's dry-needling allows all the golden needles to penetrate Philix's meridian points.

Stellar was dazzled by Nash's mysterious dry-needling technique.

The Warden was motionless on the bed and the little blood in his face disappeared again.
