

CEO Bride 166

Chapter 166

“A birthday gift?”

Hera was a little dazed. Nash had already given her plenty of presents today, so what other gifts could there be?

Skadi pointed to the large truck parked on the road. “I have no idea what he bought, but it’s something that requires a large truck for delivery!”

Hera quickly turned to Nash and asked, “What did you buy?”

“Why don’t we go and take a look?”

Nash took Hera’s hand and led her toward the side of the road.

At this time, the Lewis family members also had puzzled expressions on their faces. They had asked the truck driver, but he

remained silent.

Nash and Hera arrived at the side of the road. The driver finally turned to Nash and asked, “Are you Mr. Nash Calcraft?”

Nash nodded. “I am.”

The driver handed a delivery note to Nash. “Could you please sign here?”

The entire Baroque company would undergo a huge change, and Drake Group would certainly propose to increase its orders with Baroque.

Hera stared blankly at the photolithography machine.

Receiving another huge shock made her feel that all this was unreal.

Across the street at the entrance of the hotel, Sienna and Wendy silently watched the photolithography machine on the truck. Wendy marveled, "This Nash guy is really capable. He actually got a 7nm photolithography machine!"

One should know that out of the six families with a fortune of over 150 billion, only one family had a 7nm photolithography machine.

The other families, despite their wealth and power, could not even get their hands on one.

Sienna stared at Nash with deep eyes and said softly, "How could he get the platinum membership card from the Skyes if he were not capable?"

Wendy covered her mouth and giggled. "Aren't you going to ask him for his phone number? With your appearance, no man would refuse you, right?"

Sienna shook her head. "He's not a man who looks at appearances and status!"

When Nash asked her for an autograph earlier, she had been incredibly excited.

However, she later realized that Nash only asked for her autograph for Hera.

Moreover, the

Way Nash looked at her was very clear and calm, which meant he did not care about her status at all.
