

## CEO Bride 176

### Chapter 176

Sky Blade Group.

Nash had heard of this group a little bit.

It was a mercenary group formed by the nations Somer, Mandagor, and Yvory with fewer than 300 members, but it was very formidable in strength.

If the recent bombing incident was indeed Sky Blade's doing, then the person who instigated Cain to harm Herman before should also be from Sky Blade.

"I should be able to... but..."

Angelica's face showed some hesitation.

When it came to relationship issues, she was not one to yield.

They had broken up, so she had not thought about contacting him.

After hesitating for a moment, she said, "I'll try to contact him..."

After saying that, she took out her phone and dialed the man's number.

Since she had decided to provide clues, she should put aside her so-called dignity.

"Hello, Angelica?"

voice came from the other end of

Lewises...”

Grayson hung up the phone straight away.

Listening to the busy tone on the phone, Angelica was stunned.

Even though they had broken up, she would think of this man from time to time.

Unexpectedly, he was so heartless.

In a certain suburban villa in Mandagor, Grayson was sitting at the edge of the bed, a soft gleam flashing across his cold face.

A moment later, he made a phone call.

“Gray!”

“Did you locate Wesley Walker?”

“No, this guy might have really betrayed the organization. He even took a lot of our equipment!”

“He probably went to Somer. Gather a few people and get him back!”

“Okay, Gray!”

In the conference room of Jonford People’s Hospital, Angelica disclosed the content of her call to everyone.

Jade spoke with a stern face, “I don’t care who they are, this explosion killed nearly 50 people. They must pay a heavy price!”
