

CEO Bride 185

Chapter 185

Jupiter complained, "This district is huge. We've been looking for your villa for half an hour. If I hadn't shown your ID at the sales office and inquired about your residence, we might have ended up looking for even longer."

Hera immediately asked, "Captain Holt, have you found the perpetrator?"

The Inspection Department had set up a special operations brigade for the Lewis family's estate case. Jupiter was the captain while Angelica was the vice-captain.

Three days had passed, so they must have made progress in the case.

Jupiter shook his head and said, "We haven't found any clues yet, but the Sky Blade Group dispatched a dozen of their staff of Somerese descent to Jonford!" His expression was serious when he said that. Then, he continued, "We're still unsure of their reason for leaving Jonford, so we plan to deploy some police forces to Harrison's and Hubert's homes!"

Hera turned pale when she heard that. "A-Are they going to continue to attack us? Just what did we do to offend them?"

Angelica calmly replied, "Miss Lewis, don't worry too much. We're just being thorough. The Sky Blade Group probably came to Jonford for two reasons. Firstly, perhaps it's to continue targeting your family. Secondly, it's possible they wish to locate the traitor among them."

intention of leaving, Nash guessed that they might be looking for him for something. Since he would not be able to send Hera to work himself, he said, "Go with Captain Holt's arrangement. They're trying to protect the Lewis family, so let's

It was then that Skadi added, "He's right, Hera. Bianca and I are with you. You can rest assured since we're here."

Seeing that Nash did not have the time to send her to work, she nodded to show her agreement.

The three of them walked out of the community side by side.

Nash looked at Jupiter and Angelica and said, "Do you have something else to ask me?"

Jupiter nodded. "We've been checking the surveillance cameras near the Lewis family's estate around the clock the past three days, and we noticed someone suspicious. But he also has a very outrageous identity."

Nash asked in a deep voice, "What identity?"

Jupiter was in his 40s and had been running inspections for a long time. There were probably two reasons why he was still just a captain-either he had offended someone or he was too straightforward of a person. A person like him would not be so easily afraid of another's identity.

Jupiter's gaze sank. He then stepped forward and said in a low voice, "It's Wesley Walker, the governor's nephew who served in the Southern Region for several years."
