

## CEO Bride 221

### Chapter 221

Olivia was not joking. With the Skyes gone, she became the owner of the Chateau Hotel.

Hidden-Ghost Juggernaut was from the Nihon clan.

The Chateau Hotel had a rule forbidding any Nihon clan members.

The crowd that had gathered quickly dispersed.

The martial arts confrontation between the Ihara Martial Arts School and the Hero Martial Arts School went viral on the internet.

Due to its student's lack of martial virtue, the Hero Martial Arts School expelled the student, garnering unanimous praise from netizens.

However, there were also many who criticized, thinking Zakariah was making a mountain out of a molehill and was obstinate.

All in all, the Hero Martial Arts School preserved its reputation but at a heavy cost.

At the Baroque branch office, Hera was showing Drake Group's clients around the production line.

Upon seeing the photo and message Helena sent, she felt as if she was struck by lightning. Without even saying goodbye, she rushed to the Hero Martial Arts School immediately.

At the Watson Estate, Walter had already heard about the incident at the Hero Martial Arts School. With a grim expression, he called Kai.

"Anything you need?"

Kai's indifferent voice came over the phone.

Sitting on his couch, Howard lightly said, "This time, when dealing with Nash, make sure you drag the other families down with you!"

Simon dismissively replied, "Grandpa, you're being overly cautious. With six of the

Juggernauts from our Green Bamboo Association, we have more than enough power to deal with Nash!"

Howard snorted. "Just do as I say. What's with the unnecessary talk?"

Simon reluctantly replied, "Alright... I understand."

The Lees sided with Nash, so getting them involved might be tricky.

However, both Kai and Duncan were already deeply involved.

They probably wanted to get rid of Nash even more than Simon did.

As for getting the little girl from the Zell family involved, it would not make much difference.

Simon returned to the dining table and sat down.

Suddenly, Kai said, "Simon, can you... eliminate Bianca in this afternoon's boxing match?"

Simon nodded with full confidence. "No problem... Wanda York is Grim -Faced Juggernaut's granddaughter. She trained under the King of Fighter Thorson in recent years. If she participates in the world boxing competition, she'll surely win this year's female Golden Belt
