

CEO Bride 255

Chapter 255

All this was for the sake of his beloved grandson.

Olivia approached her bodyguard and whispered, "Send the surveillance footage to Nash..."

The bodyguard immediately left to take care of things.

Around half an hour later.

Nash phoned Olivia and said coolly, "I've been informed about what's happened. I'll give Kai Watson one more chance. If he insists on making his death wish come true, not even God can save him!"

He hung up before Olivia had the chance to reply.

If Walter had not come to give him an honest account, he would not have known what happened either.

Since he was confessing to his wrongdoings, he would not treat him as harshly as he did to those who never confessed.

Walter had even gone to Olivia for help, hence he decided to give them another chance.

It would also help Olivia get the chance to honor Mr. Lee.

Moreover, Kai was Helena's boyfriend.

Helena was part of the Lewis family.

Helena helped Kai make their way over to them.

She reached a hand out to grab the guard's hand.

The guard shoved Helena aside and said calmly, "This building is now seized, and will remain sealed for the next three years!"

Royal Bay had a unique rule.

Homeowners could request for the property they owned to become sealed.

Once frozen, no one could unseal them during the predetermined period, including the homeowners themselves.

A shocked look appeared on Helena's face. "Who... who did this?"

"Mr. Walter, of course!"

The guard looked at Helena gleefully.

Her attitude had always been harsh and unkind, and held grudges against anyone or anything she saw.

All she had done was clamber her way into Kai Watson's sheets.

Since Walter had seized Kai's mansion, it was obvious he planned to discipline his grandson.

Life was going to become terrible for them.

"Impossible... impossible... Kai has always been Mr. Watson's favorite. There's no way he would have seized Kai's mansion!"

"Hurry up and open the door, or I'll call the police!"
