

CEO Bride 285

Chapter 285

Sylvestor Scott... Hector Nodrunck...

These were all experts who had entered the top martial arts rankings. How did her grandfather manage to invite them?

Her grandfather did not seem to have the kind of status that could warrant it.

"Senior, wait for me!" A familiar voice sounded behind Skadi, and a shiver ran through her.

She slowly turned her head to look behind her, only to see a handsome man with long flowing hair and double eyelids walking toward her. He was wearing a tight-fitting black outfit today that highlighted his slender figure.

"C-Cillian!" Skadi called out while blushing.

He was none other than Father Cillian, the one who had been on her mind and in her dreams.

"Miss Zabel."

expression was calm, but Skadi noticed the slight furrow on his sharp brows.

Mr. Zabel will definitely be down in a bit."

Zakariah was currently on a call with Nash in his room.

“Mr. Calcraft, there are already more than 2,800 great-grandmasters here. How many more are coming?”

His voice trembled as he spoke despite having mentally prepared himself.

These people were all great-grandmasters. Yet he did not see even a single one who was from the Jonford Martial Arts Association.

Quiet Winds Church only had two great-grandmasters. Based on the Capiton Martial Arts Association’s statistics, there were only about 300 great-grandmasters in the whole of Drakonia. Despite being a super nation with a population of 2.5 billion, having only 300 great-grandmasters highlighted just how rare they were. Yet, Nash had managed to gather nearly 3,000 of them.

Terrifying! Absolutely terrifying!

“So many?” Nash was also somewhat surprised. He initially thought the Heavenly Martial Arts Order would only be able to gather up to 700 or 800 powerhouses. He did not expect 3,000 of them to show up.

Based on the verified records on the dark web martial arts forum, there were only around 5,000 great-grandmasters from around the world who were on the dark web. The fact that the order had managed to summon almost 3,000 people meant that about half of the world’s total number of great-grandmasters could be accounted for.

His master had actually interacted with so many of them.

Just as Nash was amazed by this, he suddenly heard Lauren’s voice from behind. “Nash, you’re from the Young family, right?”
