

CEO Bride 291

Chapter 291

Everyone got to their feet.

Their gazes were directed at the Green Bamboo Association members.

Nash turned to the Velvet-Thunder Juggernaut and asked coolly, "I have three thousand great-grandmasters with me. Do you think you can handle that?"

The sounds of his cold voice were like an explosion, and the members of the Green Bamboo Association even heard buzzing in their minds.

Everyone, including the Hidden-Ghost Juggernaut, stared at the Smiling Grim Reaper in shock.

How... How was that possible?

How could he have three thousand great-grandmasters with him?

How had the Smiling Grim Reaper managed to summon all the great-grandmasters from around the world?

"Your Majesty!"

"There are four peak Mystique Loyalty Realm experts hidden among us!"

A man with black, curly hair approached Nash and spoke to him respectfully.

He spoke with a strong accent, but it was not difficult to make out what he was saying.

Nash's lips curled upward slightly as he said, "Dearest hidden friends... Do you require an invitation from me?"

The four elders who had concealed themselves felt their eyelids twitching.

The curly-haired man snorted and reached his hand toward the Imperial Summer Manor's attic.

Fingers of an illusory palm immediately curled themselves over one of the four elders.

"This... this is a move from the Profound Oriental Realm!"

The captured elder's eyes bulged as they roared.

It meant the Smiling Grim Reaper could issue three Heavenly Martial Arts Orders. His family would not even dare think of seeking revenge if he got killed.

“Impossible... That’s impossible...”

There was no way Johnathan would have given all the Heavenly Martial Arts Order scrolls to the same person.

“Kill him!”

Nash had no intention of explaining things further, and he issued the kill order.

The curly-haired man extended a hand toward the elder.

The elder fought back with all his might.

However, his efforts were in vain.

Boom!

A muffled bang rang out.

The elder exploded in a shower of blood.

He had been a peak Profound Reality Realm expert.

Yet, he had not stood the slightest chance.

The three remaining Klein family experts were so scared they had lost control of their bladders.

How were they supposed to defend themselves against three thousand great-grandmasters and a Profound Oriental Realm expert?

A bloodthirsty smile appeared on the curly-haired man’s face as he turned and extended his hand toward the three Klein family elders.

Poof! Poof! Poof!

The three burst into a cloud of blood. Not even their bones remained.

Plunk!

Simon was so frightened he fell to his knees.
