Chapter 303

“Mhm, Grandpa Eve, please take care of yourself too!”

Melody hung up the phone, sighing in disappointment.

Nash poured a cup of tea for Melody. “Saul Eve doesn’t seem to genuinely care about your family.”

On the way back, Melody had explained that the person she had called for help to take care of her grandfather’s body was Saul Eve. He was from the martial arts family of Goldenfalls.

He was an old schoolmate of her grandfather’s. Their relationship was not close, but they were not enemies either.

However, as her grandfather’s household conditions improved after his marriage, his relationship with Saul became much closer.

“My grandma lost a martial arts skill called the Lion’s Roar and an incomplete map in her possession, both of which were brought out from the Young family!

“Years ago, after getting drunk at a school reunion, my grandfather revealed some secrets. Most people didn’t know about the Youngs, so they weren’t paying attention. But Saul, being from a martial arts family, understood the importance of these two items. That’s why he became so attentive to our family, trying to get his hands on Lion’s Roar and the map!

“My grandma saw through his scheme a long time ago and pretended to be close to the Eves so that she could use the Eves’ influence to protect us!

“I thought he had given up on those two items over the years, but it turns out he’s still after them!”

Outside the villa, Yvonne sat on the ground, crying while hugging her knees.

Hera parked her car on her lot.

Seeing her cousin in such a state, she quickly approached and asked, "Yvonne... what happened? Who bullied you?"

Yvonne looked up at Hera, her tears streaming down even more. "Hera... you're finally back... I was almost strangled to death!"

Noticing the marks on Yvonne's neck, anger flashed across Hera's face. "Who did this?!"
