

CEO Bride 351

Chapter 351

After she was done speaking, Queenie asked the bodyguards to take Justin away.

Weston's respect for the man in front of them far exceeded the respect he showed Queenie, which meant that this man definitely had a certain status in Universal Group.

However, her cousin was the vice president of Jonford Universal Group. Therefore, other than the positions above the president, he was not afraid of anyone.

Nash was uninterested and turned away to go upstairs.

They should be glad that he arrived in time. If he had arrived one second later and something unexpected had happened to Hera, then the situation would have had a different outcome.

Weston looked at Nash as he left and gulped.

He returned to the front desk to check Nash's information, only to find that Nash's position and position level were hidden.

At Jonford Universal Group, the director of the HR department respectfully handed Nash's work permit to Melody.

"Ms. Stone... Mr. Calcraft's work ID can only be accessed with the authorization of the president!"

"Alright, thank you for your hard work."

took Nash's work ID and looked at it.

Additionally, Fabian was also an SSS-rank figure in Universal Foundation.

At the presidential suite in Cloud Peak Palace Hotel, Nash was sitting on the head of the bed. He held

Hera, who was asleep in his arms.

It was already dark out.

The warmth from Hera's body gradually receded.

Lauren and Harrison had called to ask about Hera.

Nash only told them that Hera had too much to drink and fell asleep.

Then came the calls from Bianca and Skadi.

They were genuinely worried about Hera's safety.

"Nash... if you truly love her, then please leave her!" Skadi said coldly.

"Why?" Nash calmly replied.

"You're a murderer. If you're by her side, you'll only put her in danger... Can you swear you weren't involved when Hero Martial Arts School was attacked, when Bianca was in trouble, and when there was an explosion at the Zabel household?"
