

CEO Bride 358

Chapter 358

“How did he die?”

Nash was stunned. He had met Sheldon once when treating Philix’s illness at Zell Private Estate. The man had seemed to be in the pink of his health and had not shown any signs of feeling unwell. Why did he die so abruptly?

Xeno replied, “He hung himself. I’m suspecting it’s because of Duncan!”

Nash remained silent for a short while longer before he narrowed his eyes. “Isn’t Duncan Sheldon’s grandson?”

Xeno explained, “Duncan was adopted by Sheldon’s son and daughter-in-law, and he’s unwelcome in the Duerson family. Sheldon’s will states that Duncan will inherit the fortune he’s left behind.

That’s more than enough for me to deduce that he’s definitely connected to Sheldon’s death in some way!”

Xeno’s voice lowered as he continued, “Duncan’s not a force to be reckoned with!”

“That’s interesting!”

Nash narrowed his eyes slightly.

Xeno had done a good job breaking down everything for him.

However, that caused him even more unease.

Duncan may have found out he was a part of the Youngs because of what had happened recently.

Xeno stepped on the gas and left.

It was only then that Weston leaned toward Sydney and whispered into her ear.

Sydney’s eyes widened as she asked in disbelief, “No way... Is that true?”

Weston had a rueful look on his face. “Girl, do I look like I’d ever dare lie to you?”

Mr. Calcraft had requested he keep the news on the down-low, but Ms. Zell was his boss. He could not lie to his boss, could he?

“Nash! Head of inspection of all Universal Group branches in the greater Drakonia area! How... how did he pull that off?”

Sydney muttered to herself dazedly.

She had always been an arrogant woman.

After taking over Cloud Peak Palace Hotel when she was 16, it had only taken her three months to establish a partnership with the president of Jonford Universal Group. It then took her three years for Cloud Peak Palace Hotel to attain a net worth of 2.5 billion dollars.

Not a single person in Capiton’s Ten Families had managed to earn two billion dollars when they were still 19 years old.

Her plan for the next five years was to meet the presidents of each Universal Group branch in

Drakonia and convince them to allow Cloud Peak Palace Hotel to be affiliated with their brand.

She had currently successfully engaged with three different presidents
