

CEO Bride 420

Chapter 420

With a loud boom, the stone pillar sank downward.

The ground vibrated.

Then, the juggernaut stone door shuddered violently before it lowered itself.

Bradley had a bright smile on his face. "So, the switch was hidden in the mud..."

The stone door had finished lowering itself down.

A karst cave presented itself before them. The ground was covered in coral-shaped crystals, and bugs that resembled fireflies flew around in the air.

What was most surprising, though, were the various exotic plants that grew inside the cave.

These plants twinkled just like actual stars did.

It looked like a scene from a fairytale.

"It's so pretty..."

Heidi let out an admiring sigh.

Then, she walked toward the cave.

Finn retrieved his dagger and walked farther into the passageway to remove gold from the walls.

Bradley called out, "Watch out... There might be traps set in the tunnel..."

Finn said nonchalantly, "Oh, come on. I'm a level seven great-grandmaster. Some random traps aren't going to hurt me!"

After he walked into the passageway of gold, Finn took his knife and began cutting gold off the walls.

Nico smiled as he retrieved a saw from his bag. "My saw is finally being put to good use!"

Xeno lit himself a cigarette and licked his dry lips as he said, "In all my years of living, this is the most shocking thing I've ever seen..."

Heidi had stuck two gardenias in her hair, and she turned to Melody, "Melody, are you interested in gold?"

Melody laughed incredulously. "I might be rich, but that doesn't mean I'm going to say no to gold!"

Then, she took Heidi with her to remove gold from the walls.

Bradley took his cigarette pouch out and looked behind him. "Why isn't Nash with us yet?"

They were less than 200 yards away from where the juggernaut stone door was. Given this distance, Nash should have caught up with them long ago.

Ken said thoughtfully, "I remember seeing some herbs as we journeyed here... Could Nash be collecting herbs?"

Xeno smiled a slight smile. "Nash is a famous doctor in Jonford... There's no doubt he'd be interested in those herbs!"

Bradley's cigarette hung from his mouth. "I think I should go check on him!"
