Chapter 433

In his fury, the Undead Corpse King abandoned Old and rushed toward Xeno.

He was so fast that Xeno did not even manage to blink before the Undead Corpse King was already right in front of him.

Both Derek and Nico, who had been standing in front of Xeno, were sent flying by the shockwave caused by the high-speed impact. Bradley and Anders also fell to the ground while Melody and Finn promptly activated their inner energy to protect themselves. Still, they were forced several meters back, staggering.

It was only then that they realized what Anders had said earlier were not exaggerations. The Undead Corpse King's red eyes were fixed on Xeno, his cool breath sending shivers down Xeno's spine.

The rest of the group remained silent, not daring to breathe too loudly, for fear of triggering him to attack Xeno.

"Heavenly Sword Technique!"

At some point, Nash had changed into the Heavenly Master's garb that had been passed down by his master. It contained inscribed formations that possessed strong suppression capabilities against malevolent entities.

a thrust, a golden radiance struck the Undead Corpse King's chest. Strangely, it slightly as he rushed toward the Undead Corpse King with

off, all of you!”

Nash deflected the Undead Corpse King’s attack with a sword and then waved his large sleeve, using his true energy to force them both back.

The Undead Corpse King seized this opportunity and reached his sharp claws toward Nash’s heart.

Nash immediately channeled his true energy into the formations in the Heavenly Master’s attire, causing them to emit a golden light. The Undead Corpse King’s hand sizzled upon contact with the golden light. Although the formation resisted 80% of the Undead Corpse King’s attacks, Nash was still sent flying by a powerful force.

Nash hit the rock wall, several cracks as thick as a thumb slithering through the wall.

If he had not been wearing the Heavenly Master garb, his heart would probably have been ripped out.

The Undead Corpse King was too strong, stronger than any enemy Nash has ever encountered in his life. His strength was comparable to those in the Mystique Loyalty Realm, and those within that realm might not be able to beat him even.

Nash himself was just of the Profound Reality Realm.

The Undead Corpse King roared as he moved toward Nash again.

He moved so fast, but Nash managed to use the Heavenly Sword to block his chest. With his other hand, he took out a Heavenly Runic Incantation and stuck it on the sword.
