### Chapter 443

The smile on Nico's face slowly faded. He did not dare to disobey Mr. Nash.

The three old men looked at each other with a dumbfounded expression on their faces.

In the past, they would not stop until the entire tomb was emptied.

Especially Old Chief Christopher, who would even knock out the gold teeth from the corpse. It would have been considered generous of him if he left the pair of underwear on the corpse.

The coffin's lid suddenly shook.

Nash and Melody both felt a slight fluctuation in the energy in their bodies.

Finn's and Ken's expressions changed.

They noticed the lid of the King of Medicine's coffin moving on its own.

"What a strong magnetic field..."

Nash used his Third Eye and discovered that the King of Medicine's coffin contained a powerful magnetic field.

It was the magnetic field that moved the coffin's lid.

"The last mechanism was for the King of Medicine's coffin. The mechanism to head up should be in the bronze coffin. It's the same principle as using an elevator!"

When he fought the Undead Corpse King, he would not have time to care for her safety.

“I don’t care... I can’t let you face the danger all on your own again!”

Melody puffed her cheeks like a woman who was mad at her boyfriend.

However, Nash would not budge and calmly said, “You’re too weak, and you’ll only make me worry...

You won’t be helping me but holding me back instead!”

“But...”

“That’s enough. It’s been decided. I’ll be relieved as long as you protect them!” Nash interrupted Melody.

At the same time, Heidi found the mechanism in the bronze coffin.

The eight iron chains began to tremble.

Finn grabbed the edge of the coffin, stuck his head out, and said, “Don’t just stand there, get on!”

Everyone immediately climbed onto the bronze coffin.

Nash was the last to jump on.

As the coffin slowly rose, everyone’s hearts were in their throats.
