

## CEO Bride 494

### Chapter 494

Black Tiger let out a bitter laugh. "You want me to offend both the Zell and Watson families?"

The old man was a stage three grandmaster named Carson whom Black Tiger had spent three billion to recruit from Carrion Mountain. Although they had not known each other for long, Carson had displayed both strength and wisdom, earning Black Tiger's trust.

Besides his right-hand man, David, Carson was the only one he would listen to.

Carson narrowed his eyes and said, "If it were just some trivial matter, those from the Zell and Watson families wouldn't dare provoke us so easily. After all, they know better than anyone that we have nothing to lose.

"However, detaining David and inviting you over means the situation is very serious."

Black Tiger was still a little hesitant, While both families were indeed a headache for him, they were the dominant forces in Jonford's business world and held significant political power.

If he offended just one of them, there might be a chance for reconciliation. Offending both, however, and all it would take was at of them to threaten existence in

Carson said calmly, "We have only two choices now-either abandon David or forcefully

of the place.

that the reason he intervened in  
to clean up the Long Lake Industrial Zone. This was also the  
reason he had acted so decisively.

If the Black Tiger Hall decided to escalate the situation, they would be  
digging their own grave. He believed that Xeno was able to handle  
this matter well.

Melody glanced at the time, and it was exactly noon. She said, "I've  
reserved a private room at Cloud Peak. Our food should be ready by  
now, so we can head over to eat."

Nash stood up and looked at Finn and Ken. "You two aren't hungry  
yet, right?"

To be on the safe side, he planned to leave both of them behind. Finn understood what Nash wanted to do and replied with a smile, "Not hungry at all! We're not hungry at all!"

Ken remained silent, but he licked his lips with a bloodthirsty expression on his face.

Melody gently suggested, "Should I stay here too?"

Finn chuckled. "Leave the fighting to the men. Why would you, at woman, want to join in on the excitement?"

Melody responded with a sly smile, "What if the Black Tiger Hall brings a stage eight grandmaster with them?"

Finn had only recently broken through to the seventh stage. If he were to encounter a stage eight grandmaster, he would definitely be at a disadvantage.
