### Chapter 500

Nash's eyes narrowed as he muttered to himself, "The Five Poisonous Pines is an exclusive secret recipe of the Cloud Ascendant Palace in Carrion Mountain. How did it get all the way here?" Nash cast a sidelong glance at Carson. Could he be affiliated with the Cloud Ascendant Palace in Carrion Mountain?

The Cloud Ascendant Palace was an existence that even his master would not easily provoke. His master had warned him that if he ever broke through to the Profound Oriental Realm one day and gained a new understanding of the world, he still must not step into the Cloud Ascendant Palace lightly.

His master speculated that the Cloud Ascendant Palace might harbor a top-tier cultivator capable of evading heavenly tribulations. Nash was currently only at the Profound Reality Realm, and the ethereal Profound Oriental Realm seemed like an unreachable goal.

He never expected to encounter someone from Carrion Mountain so soon, and that person seemed to be an enemy rather than a friend.

Unable to defeat Carson, Ken was knocked down with a blow to his chest. Melody rushed forward and forced Carson to retreat step by step with her overwhelming combat power.

Carson and Melody's palms clashed, flying. Carson's right arm's sleeve burst open. The bones in his arm at Melody grandmaster

Luther stroked his beard and said, "These people dabble in money

Melody looked down on Luther and said, "You don't seem like an ordinary person. If you belong to one of those hidden sects, I advise

you to go back to your mountain. Otherwise, I'll report you to the

National Martial Bureau."

The National Martial Bureau was an organization dedicated to

managing martial artists. It had jurisdiction over both secular martial artists and those from hidden sects. They even had the authority to use nuclear weapons.

Early on, the major sects had signed agreements with the National

Martial Bureau. They had autonomy within their sects, but outside them, they had to follow the rules.

Luther smiled faintly. "We're dealing with martial artists. The rules of the National Martial Bureau don't apply to us."

With that, he flicked his longsword, producing a clear resonance
