

CEO Bride 503

Chapter 503

Carson was forced onto his knees by Nash's energy. He cried in a panic, "Sir, the Five Poisonous Pines is an enigmatic poison. We really don't have an antidote for it!"

Melody chimed in, "He doesn't seem to be lying... Can you do anything for Finn's poison?"

Nash shook his head. "It's going to be tricky!"

The poison from the Five Poisonous Pines had spread throughout Finn's body.

The poison could fuse with blood cells, causing a person's whole body to fester. They would die within three days.

Nash had used his Divine Needles to temporarily protect Finn's organs and brain.

The only way to save Finn was to refine a medicinal pill.

He could refine medicinal pills with the Divine Cauldron.

However, he could not control the Divine Cauldron with his current strength, and he had never practiced refining medicinal pills either.

Sighing, Nash turned to walk toward Finn.

Melody asked, "What should we do about these two?"

Nash blankly replied, "Eradicate their cultivation, then let them go!"

He had not gotten revenge yet, so he did not want to offend the Cloud Ascendant Palace.

bone marrow.

If this went on, Finn's bone marrow and blood circulation system
would become necrotic.

At that point, even if he made an antidote for the poison, he would still suffer from paralysis.

To restore order in the Long Lake Industrial Zone as soon as possible,

Xeno discussed with Salvatore how to divide the Black Tiger Hall.

Salvatore lit a cigar and said, "Mr. Hun, you can decide... I don't care, but my brothers have worked hard without credit!"

Xeno touched his chin. "How about this? Whoever from the Black

Tiger Hall is willing to follow you can do so, and I'll accept the ones who are willing to come with me... As for the territory, we'll split it 30-

70."

"30-70?" Salvatore whipped his head up and stared at Xeno.

"Is it not enough?" Xeno frowned.

"No, no... It's too much... I just need 20%!" Salvatore quickly explained.

Realistically, even if the people were not willing to voluntarily follow either of them, Xeno could still devour Black Tiger Hall.

After all, having someone like Mr. Nash to hold the fort was reassuring to him.

Hence, Salvatore was surprised when Xeno had offered him 30%

"Alright... let's stop being so dramatic. 30% it is!"

Salvatore rubbed his hands and asked with a smile, "Then, what about the ten billion dollars Black Tiger gave you earlier?"

Xeno smiled half-heartedly and said, "That belongs to Mr. Nash... Do you want a share of it?"
