

Chaplain 411

Chapter 411 Love Wins All

“Hmph!

“Are you going to say that you wouldn’t love me if I looked like a dirty cat?”

Emilia pursed her lips and teased playfully, “You scumbag!”

She had never expected that her husband was actually telling the truth!

He had indeed taken down the Sovereign!

“Well, I would love you still.”

“As long as it’s you!”

Oliver Walker smiled and said, “Open the door and take a look inside!”

In fact, there was another surprise inside!

It was Leon Williams who told him that today was Valentine’s Day, and this was the first time in eight years that he and his wife had spent the holiday together.

“What a glib tongue!”

Although Emilia pretended to be unhappy, she still couldn’t wait to open the door of the villa!

The moment the door opened, a red string was pulled, causing the heart-shaped balloon that was originally lying in the large living room to quickly rise into the air with a bouquet of bright roses.

The faint fragrance of flowers was everywhere.

Coupled with the lights in the living room, it was extremely romantic.

Emilia stood rooted to the ground, too excited to speak!

Naturally, such an exquisite scene was not something Oliver Walker could have thought of. It was all arranged by Leon Williams.

However, he reacted quickly and said affectionately, "Here's to being by your side for the other Valentine's Day for the rest of our lives."

Emilia nodded her head at the sight of such romantic gestures. The gloominess of the hard days was swept away.

"Isn't it time for you to be legally married to me?"

Oliver Walker couldn't wait to ask. This was a topic he had always wanted to say but never had the chance to.

He had never forgotten that he and his wife were not legally recognized as husband and wife.

After all, they had yet to get a marriage certificate.

"Humph!"

Emilia pouted proudly. "Let's see how you behave in the future. If you dare to make me angry again, I will never register our marriage for the rest of my life!"

She walked into the villa as if she had entered a dream. She took out her phone and eagerly sent the scene of the house over to her mother.

She naturally couldn't hide such a good house from her mother, who had always been tormented because of her.

"Hey!"

Oliver Walker frowned and asked aggrievedly, "What had I done that isn't good enough?"

That's right!

Hasn't he done enough?

"Hubby!"

After the surprise, Emilia slowly calmed down. "You should know that we might lose the bet!

"You bet on it to be completed in fifteen days. I'm under a lot of pressure. This is beyond my ability."

How could she not be pressured?

If it was three months, she could still give it her all!

Fifteen days?

It was no different from a joke!

"You can definitely do it!"

“Believe in yourself!” Oliver Walker said with a smile.

What he said would naturally come true.

He also had enough confidence in his own products.

Secondly, no one would stop his wife.

“But you have to understand that no matter how good the product is, we don’t have the time to promote it, nor do we have enough channels to sell it.”

“Secondly, the production license and the certificate of qualification are probably hard to get.”

Emilia raised a few fatal questions, which were difficult for her to overcome.

This was because there was a process to these things, and it takes time. All of these exceeded the scope of their abilities.

Chapter 412 Writing Another Plot

“Don’t worry!”

Oliver Walker promised, “All the procedures will be done tomorrow.”

In fact, he had already applied for it when he signed the gambling agreement. As for the formula, it was even simpler!

It was just that the secret formula could not be announced publicly.

Emilia opened her red lips slightly, but in the end, she hesitated. She no longer dared to question him.

The main thing was that her husband's ability was too unfathomable. What if she was slapped in the face again?

She could only hope that those documents were prepared!

Emilia's mind was in a mess. She was still thinking about how to complete this impossible bet in the shortest time possible. She had no time to think about the others.

Oliver Walker wanted to stay with her, but seeing how upset his wife was, he could not take advantage of the situation. Therefore, he ran to the bedroom next door.

The next morning!

Inside the chairman's office of the Davis Group!

"Dad!"

"They're too despicable. They actually fired the people I arranged and then started production on their own."

William Davis vented his anger. Last night, he did not return to his old house at all. Instead, he spent the entire night with Ellie Walker in the villa he had just bought!

Beating the dog meant humiliating the owner. As soon as Emilia came back, she used her thunderous methods and did not take William Davis seriously.

"She really went overboard!"

"But this is the last bit of madness.... It's impossible to win the bet in fifteen days!"

“You can rest assured!”

He had no doubt about this. Even if Emilia was a god, it was impossible for her to win.

On the contrary, William Davis took out a document bag and frowned. “I suspect that she came prepared!”

“Look, this is the new formula for a removal cream. Although I don’t know how effective it is, for her to be able to take out something in such a short time, it’s definitely not simple.”

Micheal Davis frowned slightly and opened the document. After glancing at it, he said disdainfully “These are just ordinary herbs. They are probably just ordinary cream formulas. There’s nothing to be afraid of.”

“If you’re still worried, you can do something about it. After all, there should still be people there working for you. It wouldn’t be too much to ask Ellie Walker to report and conduct a surprise inspection, right?”

Such words stunned William Davis. “Dad, you’re amazing!”

“I know what to do now!”

The gambling agreement was signed yesterday morning, and the production started soon after. The problem here was very promising!

If they informed the Health Department for a surprise inspection, then Emilia would face a fine or even jail time.

After all, it was impossible for the necessary procedures to be completed.

Although doing so would affect the entire Davis Group, he couldn’t care less just in case.

He had to kill all of Emilia's hopes of winning in the cradle!

Therefore, after thinking of a countermeasure, he quickly turned around and left, returning to his office.

Ellie Walker, who had a hot figure, dressed even more boldly after losing her job.

She was wearing a white low-cut shirt and a red miniskirt. She said coquettishly. "What did Mr Davis say?"

She was anxious!

After all, it was not easy for her to become the manager of the R&D department. She was used to living a comfortable life every day.

She obviously wouldn't be happy with how she had gotten fired.

"Come here, I'll tell you ..."

William Davis approached Ellie Walker's ear mysteriously and told her all the plans.

It was naturally not easy for him to do such a thing.

But, it was convenient for Ellie Walker to do so.

After Ellie Walker heard this, she took out her phone and dialed the number. "I want to make a report about Davis Cosmetics. They are making products that have not been approved."

"Yes, my name is Ellie Walker. I'm the R&D manager of Davis Cosmetics."

"Come over quickly!"

William Davis smiled. He could do anything for revenge.

He wanted to make Emilia lose everything at the starting line!

At the same time, Oliver Walker hung up the phone. It was a call from the Health Bureau. All the procedures had been approved.

They would be sent over to the office as soon as possible.

Chapter 413 Reported to the Health Department

However, before he could tell his wife the good news, Emilia stood up anxiously and prepared to leave.

“What’s wrong?” Oliver Walker asked hurriedly.

From the looks of it, something big must have happened!

“There’s an accident at the production line!” Emilia frowned. “The people from the Health Department are here for a surprise inspection!

“And in order to save time, I brought it straight to the production line!

“Ellie Walker was probably the one who reported it.”

It was obvious that this was a revenge report. The main reason was that time was too short and she had too many things to consider.

However, she did not consider that Ellie Walker would report it to the Health Department.

“That wouldn’t be a problem.”

Oliver Walker honestly felt that there was nothing wrong.

After all, he was the one who asked his wife to do this. Plus, most of the documents had already been reviewed.

It wasn't that he was using his privileges to benefit himself.

It was because this scar removal prescription was indeed beneficial to the country and its people.

Previously, he had wanted to open a small clinic and see patients everyday.

However, this would be too slow. What he needed to do was to publicize that these products were all made from the secret prescriptions of the Tianyi Sect.

This was the only way to save most people!

Therefore, in reality, what he did was to help the world. He just changed a better way to express his love and inheritance of Chinese medicine.

It would also benefit most people.

"It would be a lot of trouble."

Emilia's nerves were tense. "Although it hasn't been put on the market and is only in the experimental stage, if the Health Department finds fault with it, we might face a review."

"Then, if that happens, all the production lines will have to stop in time!

"We'll waste even more time!"

She explained the situation to him as they walked to the car.

Oliver Walker also got into the car and rushed to the factory with his anxious wife.

He really wanted to tell his wife about the production license, but he held back in the end.

After spending so much time together, he clearly understood how strict his wife was about her work.

If he said it and made his wife angry, it would not be worth it.

Therefore, he endured it!

The factory of Davis Cosmetics was located in the industrial park, about half an hour away from the company.

At this moment, a large group of men and women in black suits had arrived in the factory office. There were a total of 15 to 16 people.

They were from the inspection team.

The captain's name was Essac Florence. As soon as he got out of the car, he enquired "You're the person who reported it with your real name, right?"

"Yes! Mr. Florence, you must investigate it carefully. You must enforce the law impartially!" Ellie Walker quickly said.

"I'm the previous manager of the R&D department of Davis Cosmetics. I did not agree with Emilia and so she fired me as revenge."

"In short, as a good citizen, I will never do anything illegal!"

Ellie Walker said righteously and pushed all the responsibility to Emilia.

Moreover, there was a hint of hatred in her tone!

“Of course!”

Essac Florence spoke with a serious expression on her face, “As long as we find the evidence that this place violates the rules, they will definitely be severely punished.”

At this moment, Oliver Walker arrived at the door in his L5.

Emilia hurriedly got out of the car and rushed into the office. “Are you the people from the inspection’s team?”

She was very worried!

Although it was only in the research and development stage, it was reasonable and legal to do so. However, it was best to see this seriously. What if others did not want to agree that what they were doing is legal?

“Yes!”

“I’ve received a report and would like to confirm something with you now.”

Essac Florence took out his work pass. “You should know who this is, right?”

If it was an anonymous report, he would not have ran the inspection in this manner.

However, this was a report by someone who knew what was going on, so it was not considered a violation of the rules.

Emilia took a deep breath and nodded. "Yes!"

"Well, this would be easy then." Essac Florence announced.

"We've investigated the production factory. The products currently being produced do not have a license. Is there anything else you want to say about this?"

Chapter 414 Being Careless and Played

However, at such a moment, Essac Florence could already confirm it.

The necessary procedures still had to be followed.

"Mr. Florence, our new product is still in research and development. This is only the R&D department's factory."

"This is considered as something in the production line.

This was the truth, but no one knew how the other party would determine such things. Therefore...

Emilia would be lying if she said she wasn't nervous!

She could only leave it to fate.

"What nonsense!"

"Mr. Florence, don't listen to her!"

Ellie Walker's eyes were filled with hatred and pride. "How can there be such a huge research and development plant? She's lying!"

It was the woman in front of her who had removed Ellie Walker from the manager position that she had sacrificed her body for.

Now, she naturally had to take revenge.

Besides, she was working for William Davis and was very confident.

“Well, if this is part of the production line, why did I hand the formula to you?”

“Don’t forget you forget that you’re the manager of the R&D department, not the production department!” Emilia spoke in a cold tone.

“As an executive of a company, can’t you even understand such a simple division of responsibilities?”

“I really wonder how you got to this position.”

As soon as she said that, Ellie Walker was stunned!

That’s right!

She was the manager of the research and development department!

She was not the manager of the production department!

If Emilia handed the formula to her, it would naturally be considered an issue for the research and development department!

However, Emilia, who was angry, did not wait for Ellie Walker to speak and said again, "On the other hand, you exposed the company's trade secrets after you were fired. This is not only immoral but also illegal."

"You will definitely pay the price for your actions!"

This would be a secret of the company during the development of a new product, but Ellie Walker directly reported it with her real name.

Moreover, she handed the formula to the review team. This would definitely be an issue.

Any employee who joined the company would have signed a contract, and there would definitely be a confidentiality clause.

This was no joke!

"You..."

Ellie Walker was scared, silly. After a long time, she was still speechless!

She was panicking!

She had forgotten about the contract. It was still with the HR department. If Emilia really wanted to pursue the matter, then she...

Ellie Walker would definitely be in trouble.

It was too hasty!

She had been careless.

It seemed that William Davis had used him!

Ring, ring, ring~

Suddenly, Essac's phone rang. After seeing the caller ID, he answered the call. "Hello."

The call was from William Davis. As for what it meant, Essac Florence had no idea.

"Mr. Florence, just look at the message, and I think you should understand."

William Davis's lips curled into an evil smile. He naturally knew how terrifying Emilia's ability was.

Therefore, to make things difficult, he invested a lot of money. That money was something that Essac Florence would not be able to save in his entire life if he worked normally!

After hanging up the phone, Essac Florence saw the text message from his wife and was so scared that he quickly deleted it.

He naturally knew that although Emilia and William Davis were cousins, they were like fire and water.

As for Davies Cosmetics, it was previously under the charge of William Davies, but now it was in the hands of Emilia. There must be raging stories behind what had really happened.

He hesitated!

After all...

That was a million dollars!

As long as he sold out a bit of his conscience, all of this money would be his. No one could say anything about him.

After all, whether it was research and development or the production line, it wasn't that easy to define them...

Chapter 415 Do I Hear A Threat?

After a moment of struggle, Essac Florence broke the silence. "I think it's better to talk about practical problems now. As a business leader, you shouldn't push all the problems onto your employees!"

This man had obviously picked a side.

He could not resist the temptation of money!

After all, it was tempting!

Emilia frowned slightly. She knew things weren't looking good just by listening to Essac Florence's tone.

It was this support that made Ellie Walker, who had fallen to the bottom of the valley, react again.
"Hmph!"

"Since I was the one who reported you, I will never be afraid of you!

"You're wicked, Amelia, but I will never join you.

"Not only will I report you to the Health Bureau, but I will also report you to the Labor Bureau for firing your employees without a reason!

"Just wait for a lawsuit!"

Although Ellie didn't have any real skills, she still had those that allowed her to climb into William Davis's bed. Perhaps she could do it with her beauty for the first few times.

However, to be able to get to the position of manager and maintain such an ambiguous relationship with William Davis for so long, she definitely had some ability.

Even though there wasn't much of a change in Essac's attitude, it was clearly different from before.

According to Emilia's guess, it should be William Davis who had made a move.

"You..."

Faced with the bad guy complaining first, Emilia said coldly, "You can try!"

As the general manager and the second largest shareholder of the Davis Group, it would be a failure if she could not even fire a disobedient subordinate.

"Hmph!"

"Do you think I'm afraid of you?" Ellie Walker shouted.

Emilia did not want to continue pestering with Ellie, so she said coldly, "You are no longer an employee of the company. Please leave immediately. Otherwise, I will have to take forceful measures!"

As soon as she said that, two security guards walked in.

They knew who they should listen to.

After all, Emilia was the general manager and their immediate superior.

“Well!”

“I’ll just wait at the door and watch the factory get seized!” Ellie Walker sneered.

She turned around and left.

She knew that Emilia would not be able to get away with this but she did not know if William Davis had any more powerful moves.

How dare Emilia offend her?!

What a joke!

Oliver Walker saw all of this and said to Essac Florence, “I’d advise you to enforce the law impartially. Don’t take any chances.

“Otherwise, you will only taste the consequences!”

The production license would be sent over later.

Furthermore, it was Essac Florence’s direct superior who was personally sending it to them. If it was normal law enforcement, he would not interfere.

However, after taking the phone call, Essac’s stance had clearly changed.

Oliver Walker was doing this as an act of kindness.

After all, he did not want to cause so much trouble.

However, when he said that, Emilia’s already anxious heart was ignited again. She glared at Oliver Walker with resentment.

This man always said inappropriate things in inappropriate places.

As expected, Essac Florence sneered. "Mr. Davis, can I take it that you're threatening me?"

Emilia frowned slightly, and her heart suddenly rose to her throat. She quickly said, "No!"

"He did not mean that!"

Things are bad!

It didn't matter who was being targeted by those words. Anyone could hear the threat in those words.

"In that case, I'm hoping the rest of you can leave."

Essac Florence glanced at Oliver Walker and said stiffly, "In case something unpleasant happens later."

Emilia took a deep breath. Although she didn't say anything, her beautiful eyes were filled with pleading.

That's right!

She was begging her husband.

She was not qualified to give orders to Oliver Walker!

After all, this was her husband, not her subordinate. Moreover, she was now under a lot of pressure.

Especially that sentence. No matter who it was, they would be angry.

Oliver Walker smiled and said, "Don't worry. The documents will be sent over later."

"Do what you have to do. Do not compromise!"

Is this man ever going to stop before giving her a heart attack?!

Emilia was completely stunned. She hadn't even had the time to apply for it, how would they be getting the documents soon?!

This...

Chapter 416 Another VIP appears

However, the last few words were even more offensive than his previous ones!

In fact, Essac Florence was indeed angry. His expression instantly turned cold, and his eyes were filled with anger.

A gigolo who lived off a woman actually dared to provoke him time and time again?

This ...

This man had simply disregarded him. Did the pretty boy think that his wife was omnipotent?

Little did he know that the life and death of Davis Cosmetics was now in his hands.

Then, Oliver Walker left.

Emilia suppressed the confusion in her heart and explained with a smile, "Mr. Florence, I'm really sorry. My husband, he..."

“He doesn’t know how to speak properly. Please forgive him!”

The atmosphere in the office was unusually cold, making Emilia, who was already under a lot of pressure, feel that the air had become extremely heavy.

“Hmph!”

Essac Florence sneered. “I think he’s telling the truth. None of you are taking me seriously!”

Although his salary was not high, he still had power.

Especially now...

“No! No! Of course not!”

Emilia wanted to cry. The gambling agreement was already hellish, but her husband had further raised the difficulty level!

This ...

“There’s no need to say another word.”

Essac shouted, “In fact, this matter is crystal clear.”

“You have privately produced cosmetics without permission. Now, all the evidence has been preserved.”

“I hereby order you to stop all production plans!”

“The factory has been sealed. We’ll unseal it after the investigation is over!”

“In addition to that, you have to cooperate with the investigation at all times. Without permission, you are not allowed to leave the state of California.”

Such a punishment was simply a bolt from the blue for Emilia!

If the factory was seized, how would they be able to produce them?!

Even if she found a replacement in time, she still wouldn't be able to complete them in 15 days!

She had lost!

She didn't expect to lose completely on the first day!

“What are you waiting for?”

Essac Florence said proudly, “Come and sign this!”

Emilia felt as if her head had exploded. She was like a soulless zombie!

She would be able to accept it if they were getting fined.

But now, all production had to be stopped!

It meant that there was really no chance of turning the tables!

She really couldn't understand her husband.

She really wished she could enter his heart and take a look at what he was thinking!

That kind of grievance...

At the same time, outside the office!

After a man got out of the car, he smiled and said, "Are you Mr. Walker?"

Oliver Walker nodded. "Yes, I am!"

The middle-aged man was extremely excited. He rushed up and praised, "You're indeed young and promising!"

"I never thought that this formula would be approved by the National Medical Hall."

"I hope that Davis Cosmetics can work harder and create an outstanding local brand."

He didn't know Oliver Walker's identity, but the fact that this formula was recommended by five experts from the National Medical Hall was enough to prove the problem.

Otherwise, he wouldn't have personally sent the production license over!

His name was Jeremy Adams, and he was the director of the Health Department. He was also in charge of this area.

He firmly believed in the level of the Chinese Medical Hall.

However, how could he know that the man whom he regarded as his junior was actually the teacher of the five medical sages?

"Definitely!"

Oliver Walker smiled. "But, it would be best if I'd get to have your support!"

Jeremy Adams patted his chest and said, "There's absolutely no problem on my side. I guarantee that the lights will be green all the way!"

Oliver Walker shook his head. "It's a pity. Someone inside is trying to seize my wife's factory. It's obvious that they want to stop us producing these!"

Oliver Walker had heard the entire conversation inside the factory.

Plus, there was definitely something wrong with Essac Florence!

Well, they shouldn't blame him for doing this.

Jeremy Adams's face turned green. "Who is it that dares to do such things?!"

Chapter 417 Choose The Right Partner

After receiving the approval of the National Medical Hall, the new product was about to be born. Although it was a cosmetic product, it was still a product of traditional medicine.

It would definitely be of great help in promoting the traditional medicine culture.

Most importantly, Jeremy Adams was eager to own such a product.

This was because his wife had been disfigured, and plastic surgery was too expensive. He could not afford it at all!

Therefore, after the notice was given, he planned to make it a key product!

Not only did they give the approval to it, but they also had to give it their full support. When necessary, they even had to do everything they could to support it.

Of course...

All of these were approved after clinical trial.

The only reason why he dared to place such bets was because the standards of the National Medical Hall represented the highest level of traditional medicine in the entire country.

“It’s inside!”

Oliver Walker shrugged and opened the office door!

The moment he opened the door, Essac Florence waved the confession in his hand in a smug manner, “Heh...”

“From now on, Davis Cosmetics has been seized. Didn’t you want me to suffer the consequences?”

“Well, I would like to see how capable you might be.”

He only saw Oliver Walker and did not see the person behind him. Otherwise, he would not have dared to say such arrogant words even if he had the guts of a bear or a leopard.

Other than using public power to take revenge, there was also corruption ...

Emilia sat on the chair with a bitter smile on her face!

She was powerless to turn the situation around.

After all, her husband had offended Essac, who was the authority. It was only natural that their factory would be seized.

Oliver Walker smiled without saying a word and walked into the office quietly.

The next moment, Jeremy Adams rushed in and roared angrily, "What do you mean by that?"

"Do you even know who I am?"

"Who gave you the right to directly seal it up?"

Jeremy Adams was really furious and couldn't control himself!

It was no exaggeration to say that this prescription would attract great attention no matter where it was placed.

And his subordinates had actually seized it privately!

Was this a joke?

"Ch....chief!"

The expression of the smug Essac Florence instantly changed. "You...Why are you here?"

He was scared silly!

It wasn't an exaggeration to say that he held the life and death of Davis Cosmetics in his hands, but the person who had just arrived held onto his future.

"Why can't I be here?!"

Jeremy Adams was so angry that he flew into a rage!

A glimmer of hope appeared in Emilia's despairing eyes. Could it be that there was still a turning point?

She looked at her husband.

There was only a confident look in his eyes.

"Chief, let me explain!"

"Davis Cosmetics produced a new product without approval. This is a serious crime!"

Essac Florence quickly took out the modification book and said with certainty, "Look, Emilia has already confessed!"

Confess?

How was this possible?

It was just that he had no choice but to force a confession out of her!

If she didn't sign it, then the Davis Group would be seriously affected.

"Impudent!"

"Who told you it was without approval?!"

"Well, let me tell you." Jeremy Adams spoke coldly. "Davis Cosmetics is currently developing a secret formula and I even have no right to know what they are!"

“Where did you get the audacity to do such things?!”

“Where did you get the right to seize someone else’s factory?”

Essac Florence started to panic!

He had indeed overstepped his authority and seized it immediately without informing Jeremy Adams.

Especially after receiving a million dollars from William Davis, he felt even worse!

A Secret formula?

Something that even Jeremy Adams was not qualified to know?

These words were like thunder, pouring into his ears.

He looked at Oliver Walker with a blank expression. The smile on his face made his heart turn cold.

“Mr Walker....”

“Ms. Davis, I’m sorry. Being ignorant is not a crime!”

“I... I...”

If he didn’t apologize, he would definitely be finished!

If Jeremy Adams were to investigate further about it, Essac Florence would have to go to jail for at least ten years!

Chapter 418 A Presumptuous Request

“Chief Adams, I was hoping that you could restore justice for my wife.”

Oliver Walker said, “We are a serious company engaged in research and development. We may not be good with sweet words, but we have a clear conscience!”

What did this mean?

He was clearly hinting at Jeremy Adams that there was something wrong with Essac Florence!

And this sentence was equivalent to an open hint!

“Don’t worry!”

Jeremy Adams frowned and said, “I’m here to apologize to Ms. Davis first. I have been at fault for not educating my men.”

“I will definitely give you justice!”

Essac Florence was dumbfounded!

He no longer had the arrogance from before. Instead, his entire body was trembling!

He wanted to plead for mercy, but he trembled and could not say a word!

“Get lost!”

“You were courting death!” Jeremy Adams roared angrily.

Essac Florence had almost ruined a major project, this project was definitely not a joke.

He had to bear the consequences!

“Yes... It’s ...”

Essac Florence gulped and immediately left in a sorry state. He knew that what awaited him was endless darkness.

It was all because of greed!

No!

This was not a mistake, but a sin!

Then, Jeremy Adams handed over a series of certificates, and Emilia was completely dumbfounded.

She had no idea how a nameless research and development project had become a key research and development project in Colorado.

Moreover, all of the documents have been personally handed over to her by Jeremy Adams.

She looked at the name on the license. It turned out that her husband called this cosmetic product the Heavenly Doctor Face Mask.

In fact, this was the formula from the Tianyi Sect. With the word ‘Heavenly Doctor’ as the prefix, it was naturally understandable.

“Mr. Walker, I ...”

Jeremy Adams 'face turned red. "I have another presumptuous request. I want to know how much this beauty mask costs?"

To be recognized by the National Medical Hall meant that the product was definitely of good quality.

Moreover, all five medical sages who patted their chests and swore that not only could they perfectly remove scars, but they could also moisturize the skin and bring youth!

It was almost an all-rounded cosmetic product!

Although he had a good amount for his salary, his wife had been disfigured for years, he still could not save enough money for plastic surgery.

It made him feel very guilty!

Being by his wife's side all these years have proved that he was a loyal man.

However, he was afraid that the price would be unbearable!

Not accepting any bribery was his principle!

So...

That was why he was in such a difficult position.

If he was really unscrupulous, it wouldn't have been that hard for him to save up enough money for his wife's surgery.

"It definitely wouldn't be sold at a low price."

Oliver Walker frowned. "But, I'll have to let my wife decide on the details. After all, I haven't calculated the cost."

Hearing this, Jeremy Adams smiled awkwardly. "Alright..."

"I... I understand, please do your best!"

However, that smile was filled with despair, and his body instantly hunched over.

A man who was controlled by money could not restore his wife's beauty. This was a sad story.

Emilia could tell and immediately asked, "Chief Adams, what's going on?"

Indeed, she had not calculated the price yet.

As the ingredients used were all Chinese herbs, it would definitely be more expensive than a normal facial mask, so her husband was right.

"I..."

"Well..."

In the next moment, the emotionally broken down Jeremy Adams squatted on the ground and cried, "My wife was disfigured ten years ago. I...I've always wanted to treat her!"

"But plastic surgery is too expensive. It costs hundreds of thousands. I... I can't do anything about it!"

"Ever since she was disfigured, she hasn't stepped out of the house for ten years!"

"Every time..."

He couldn't continue!

There were no other words that could come out of his mouth.

It was true that his heart could not stand such a destructive blow!

As a man, he had let his wife down, but what else could he do?

Could it be that he had to go against his conscience and accept bribery?

However, he was a man of principle and would never do such a thing!

Chapter 419 The Story Behind The Name

Being an adult, it only takes a small moment for them to collapse into a million pieces.

He saw hope, but it was shattered in the end.

Thinking about it, it made sense. How could a traditional medicine mask that was approved by the National Medical Hall be cheap?

"Uh..."

After a moment of silence, Emilia said, "Chief Adams, your understanding of expensive things might not be the same as what we're talking about.

"According to the formula, I estimate that the price should be around 100 yuan.

"But according to research, five masks should be enough to remove any scars.

“There’s no need for a hundred thousand!”

How similar was such a story to her and Oliver Walker?

Therefore, it was inevitable that she was moved by the story.

She did not believe that Jeremy Adams could not even fork out five hundred dollars.

In fact...

It wouldn’t even be necessary for them to use five pieces if each were produced individually.

However, after mass production, the effects would definitely fade.

That was why Oliver Walker told him that it was five masks for one treatment!

This was a very conservative number.

“No, no, no! You don’t have to comfort me!”

Jeremy Adams took a deep breath and looked much more haggard. “I’m sorry, I lost my composure!”

How could he actually believe what they were saying?

This kind of pricing was most likely a lie to him.

Oliver Walker understood Jeremy Adams. He was truly a man of clean hands. Otherwise, it would have been impossible for him to have saved up more than a hundred thousand after so many years.

After all, with his status, as long as he was willing to stoop low, even ten hundred thousand would be easy.

“Actually, I can treat you for free.”

Jeremy Adams’s face darkened. “I’m a man of principles!”

“Farewell!”

He didn’t want his life to be tainted because of this.

After all, there were some things that could not be stopped once they started.

Being in a high position, they were most afraid of being threatened.

Oliver Walker smiled as he looked at the back of Jeremy Adams. He liked such a person very much.

Their country needed such public servants!

“He...”

“I can sell it for 500 dollars but maybe I can further lower the price!”

“Sure.” Oliver Walker nodded.

“When the time comes, try to set the price as low as possible. We can try to make small profits but with quick turnovers.”

In fact, he really didn't want to do this for the sake of making money.

It was all for the sake of saving the world, but he also understood that as a business, making money was necessary.

The difference in it would just be the numbers that they'll see on the report.

"Good!"

Emilia naturally did not have any objections, but then she said, "But does it have such a name?"

"I'm afraid that it won't be easy to promote it!"

The Heavenly Doctor Face Mask looked like it had no special characteristics at all. There was no gimmick at all.

Therefore, Emilia was worried!

"I'm the only successor of the Tianyi Sect. Ten years ago, my master fought with his enemies to protect me. I don't even know if he's still alive or dead."

"And this prescription comes from the Beauty Pill of this particular sect."

Oliver Walker explained, "So, personally, I don't want to change my name. This is a kind of inheritance. The inheritance of medicine and also the inheritance of the sect!"

All these years, he had been searching for his teacher's whereabouts!

But ...

In a vast sea of people, even if he was the chaplain, it was difficult for him to come into contact with an expert like his master. So, there was no news of him until today.

Oliver Walker took a deep breath!

Then, he shook his head, feeling helpless. He sighed and walked away in silence.

Emilia fell silent as well. Her husband had never mentioned anything about the past.

This was also the first time she knew that her husband was a disciple of the Tianyi Sect!

Although she did not know what kind of existence this meant, it must be very unusual for a place to nurture such an outstanding disciple like her husband.

“Well, I wouldn’t change the name then.”

Not only did she not change the name, she even had a thought. Her husband’s medical skills were brilliant.

If Davis Group established a new pharmaceutical company and named it ‘Heavenly Physician’, would it also alleviate the bitterness in her husband’s heart?

“Thank you!”

Chapter 420 Finally Sealed

Oliver Walker smiled in relief. The name given for this mask wasn’t the best but to him, it was very important!

Therefore, he couldn’t change it!

After receiving permission, Emilia ordered for the production line to work 24/7. It was time to get things started.

Next, they would have to find ways to sell their masks.

At the same time, Ellie Walker was still on the phone at the door. "Mr. Davis, what did you do to make Essac Florence speak up for me?"

His car had already left which meant that everything has been done.

However, she couldn't help but feel curious.

"Hehe..."

"I only spent a million!" William Davis sneered.

He sat in his chair and smoked a cigarette leisurely.

Was one million dollars a huge sum?

It was not!

The shares in Emilia's hands were worth nearly two billion. If he lost the bet, he would make a huge profit.

And now?

He did not believe that Emilia had any other heaven-defying abilities!

They were trying to fight him?

After learning the true nature of this world, who on earth would still play according to the rules?

However, he didn't know that in the face of absolute strength, all schemes and plots were futile.

"That's great!"

"Mr. Davis, you're amazing!"

Ellie Walker said hatefully, "Emilia is simply too much. They have all left. Seems like the factory has been sealed."

"Don't worry." William Davis said with a smile. "Once Emilia leaves, you will get your position back."

"Hahaha ..."

After hanging up the phone, Ellie Walker was smug. After all, she didn't have high requirements. Why else would she not be satisfied with the position of a manager that pays a lot?

Then, when she saw Emilis and Oliver Walker come out, she could not help but feel smug. She crossed her arms and said, "Mr. Davis said that as long as you leave, the position of manager will still be mine!"

"I told you that I have others supporting me."

"As long as I'm alive, you'll never be able to step into Davis Group again!" Emilia spoke in a indifferent tone.

"You?" Ellie Walker sneered.

"You can't even protect yourself, and you're still talking tough?"

“The factory has been sealed. Let’s see how you’ll win the bet?”

Emily got into the car and was too lazy to pester her. After all, Ellie Walker was not worth her anger.

Oliver Walker, on the other hand, knew that William Davis was definitely behind this. He smiled and asked, “Looks like you know quite a bit!”

“I’m Mr. Davis’s woman. Why wouldn’t I know about this?” Ellie Walker said proudly.

“Anyway, you guys won’t be arrogant for long!”

“I would love to watch how you crawl out of the Davis Group.”

“Bye~”

After saying that, she got into the Mercedes-Benz C260 that William Davis had given her and left.

Oliver Walker got into the car with a smile. There were always people who were inexplicably self-righteous. Obviously, the people from Davis Group were a typical example.

They may stir up trouble here and there, thinking that they were at an advantage when they actually had ended up with nothing.

Back at the Davis Group!

“Dad!”

“Good news!”

William Davis rushed in with a smile. “The factory has been sealed. Emilia will definitely lose the bet.”

In fact, in the eyes of a normal person, even if she did not use any tricks, Emilia had no hope of winning.

But...

It was because she was Emilia and she had once led the Davis Group to its peak. So....

They would have to use their best efforts to defeat Emilia!

“Are you sure?”

Micheal Davis felt excited as well. After all, it was not a matter of whether the factory was sealed or not.

It was a business deal worth nearly two billion!

As long as they won, then Emilia would crawl out of this place like a dog!

Even if there was a big shot backing him up, so what?

Was there anyone who could afford losing 2 billion?

Therefore, when Emilia loses the shares that she has in the Davis Group, she will also lose the support of the big shot.

The consequences would only be worse than before!
