

## **Chaplain 901**

### Chapter 901: Getting Married

This was a matter of the country's honor and glory, as well as its future. It could not be trifled with! Although Thomas Corporation was the overlord of Ocean City, making such chips a huge investment.

It was not an exaggeration to say that other than the eight God of Wealth, no one else was qualified for this important task.

"Even Blood Fiend knows my identity. Do you think I can hide it from them?"

"They are indeed wealthy," Oliver Walker said with a frown. "But they are not the most suitable candidates. If we let them research and develop it, as long as there's anything strange, it will attract the attention of the Eastern Alliance. So we have to do the opposite!"

Indeed, Thomas Corporation's wealth was in the hundreds of billions!

However, it was really not enough for the chip research and development field.

Plus, the Thomas Company was not considered a top company in the country, so the Eastern Alliance wouldn't pay any attention to them.

"You mean..."

Zooey frowned, but logically speaking, it was true.

However...

"I will handle it!"

Oliver Walker changed the topic. "You guys, on the other hand, should consider your marriage, alright?"

As soon as he said that, the atmosphere in the study suddenly became quiet. Even Zooley and George Lee didn't expect Oliver Walker to suddenly bring up this unexpected topic but in fact, George Lee was already thirty-five years old.

Although Zooley looked young, she was already 27 years old.

"Cough cough..

"I don't know." George Lee smiled awkwardly. "People like me work hard in the wind and rain all day long. Who would want to be with me? There's no hurry.

We'll talk about it after I retire."

Actually, he didn't want to get married because she didn't want to have too many worries. His parents at home were already worried about him. If he got married again, there would be another person. He planned to dedicate his entire life to America.

"I don't have the time to have a family even if I want one," Zooley said with a smile.

After he finished speaking, the two of them looked at each other with bitterness. They were different from their brothers who could still have their own personal time.

One of them was the captain of the imperial guards, while the other was the boss of the intelligence organization. It could be said that they had to be on tenterhooks at all times. She didn't even dare to leave her job during break time, let alone dating.

Yet, marriage?

“I feel that the two of you are quite compatible! ”

“Don’t you always say that Zooey can’t get married, so she should just stay with you?” Oliver Walker said half-jokingly.

“Why did you chicken out now?”

Actually, who didn’t know what George Lee was thinking? Of course, this matter depended on whether Zooey agreed or not, and he could only pull strings.

“Cough cough..

George Lee blushed. “That was a joke. You can’t take it seriously!”

Cowardly!

“Humph!” Zooey snorted. “He’ll be a bachelor for the rest of his life, and I’ll be able to get married soon!”

Oliver Walker glared at George Lee!

It was obvious that Zooey was just being angry. Regardless of whether she agreed or not, since she liked him, she had to work hard.

If she didn’t try, how could she know what Zooey was thinking? “Boss, then...Well.... I still have other things to do.”

George Lee’s face was flushed red. After saying that, he quickly left.

On the contrary, Zooey's beautiful eyes revealed some resentment. She was in the intelligence business and was good at hiding her thoughts.

However, Oliver Walker caught the flash of resentment in his eyes. He instantly felt that there was a chance. "What about you?"

"What are you thinking?"

In fact, there were many brothers who were like this. They fought for so long in Indiana and delayed their marriage. However, his ability was limited and he could not manage so many things.

But now that he was by their side, he definitely wouldn't leave them alone.

Zooey and George Lee were a match made in heaven. They were both busy with work, so there would not be any conflicts. They could understand each other and live a good life after marriage.

So.....

Chapter 902: Fat Pig's Identity

"Marry him? My brain isn't damaged!"

Zooey curled her lips. "That's a one-track-minded old man. I don't like him!" As soon as she finished speaking, she stomped her feet and left angrily!

Her words were filled with resentment. It was as if she was resentful that she did not live up to her expectations!

After all, Oliver Walker was an experienced person. He smiled. It seemed that this matter was reliable. He had to plan it properly when he was free. But now, he still had to get down to business. He immediately dialed Mark Thomas's phone!

"Mr. Thomas, are you home?" he asked immediately after the call was connected.

"I'm not at home, but I'll be back soon," said Mark Thomas with a smile.

He was in the company. Perhaps Oliver Walker could no longer be his son-in-law, but he could still be considered a junior, right?

After hearing her daughter explain the situation, he finally understood the situation. Naturally, they shouldn't speak of such top-secret issues at a place with so many people around. It would be safest at home.

At the Holy Light Group! In the chairman's office!

Carlton Moore got his wish and got the position he wanted but he was not happy at all. This was because the boss actually wanted him to deal with the chaplain which was like trying to hit a rock with an egg. It was even more impossible when they wanted him to get it done within a month.

Although he had schemed against Sean Martin and ended his life, but...

He also knew that it was not that he was stronger than Sean Martin, but that he was too conceited and died in the end!

"Congratulations, Mr Moore! You've succeeded!"

At this moment, Anthony, who was speaking in their language, walked in with a smile.

"It's you?"

Carlton Moore and Anthony were not familiar with each other. After all, before Sean Martin died, this man rarely appeared but that didn't mean he didn't know who Anthony was!

However, he did not know what the purpose of this trip was.

"Mr. Moore, you can treat me as a friend!"

"The boss already knows about the matter," Anthony said with a smile. "He has given up on pursuing the matter and asked me to assist you in running the Holy Light Group."

They were all smart people. Carlton Moore instantly knew that this was a spy sent by his boss!

"Welcome, Mr Anthony. What else did the shop owner say?"

It was a mistake for his boss to ask him to deal with Oliver Walker. Now that Anthony was sent over, other than monitoring him, the boss must have asked him to bring a new message to him.

"Hahaha... Mr. Johnson, don't be nervous. You can call me Anthony. The boss has already made his move," Anthony said with a smile.

"Let's just watch the show and maintain the normal operation of the Holy Light Group. We just have to watch things as they happen."

Perhaps no one knew how mysterious the fat pig's identity was; even Anthony had no idea. All they knew was that this man was the boss of the Holy Light Group.

As for how he did it, Anthony didn't know much about it as well. That was because the fat pig was cunning by nature and was even more suspicious than Sean Martin. However, because he did not show his face in public and had always appeared honest, even Sean Martin did not know. He only thought that the fat pig was rich and had nothing else.

"Alright then, brother Anthony! We must get some good drinks together. Let's catch up!"

Catch up? It was all bullsh\*t!

But now that Anthony was sent by the boss, he had no choice but to kiss this man's ass! Similarly, Anthony had suffered too much under Sean Martin and even wanted to be the boss. He did not want to be like before, existing in the world like a ghost.

Overseas, Blood Fiend Headquarters!

"The Chaplain?" Fat Pig Imocked on the table with a gloomy face.

"Let's do this once and for all! Back then, your country destroyed my Dark

Night.. It's time to settle the score! It's either you or me!"

Chapter 903: Taking Up The Challenge

Thomas Villa.

After Mark Thomas rushed back from the company, he came to the study room. He smiled and said, "If you have anything to say, just say it. As long as it's within my means, I will definitely do it."

He, his life, and the entire Thomas Company were saved by Oliver Walker. With such a relationship, even if they had not known each other for long, it was enough to trust him.

Mark Thomas was not an ungrateful person. He always wanted to repay the kindness he owed others. This way, he would feel more comfortable.

“Mr. Thomas, I have a favor to ask of you this time!”

Oliver Walker frowned. “But I don’t want to lie to you. If it works, Thomas

Corporation will soar. If it fails, you.... You would know the consequences.”

This was not an exaggeration! Once the chip was successfully developed, Thomas Corporation would become a top company in the country. If they failed, bankruptcy would be the lightest consequence.

“Hiss...”

Seeing Oliver Walker’s expression, Mark Thomas gasped. He knew that things were unusual, but he would do what he said! Merchants valued profits, but he valued friendship more!

“Eastern Alliance? You should have heard that they cut off the supplies for the chips?”

Oliver Walker tried to beat around the bush. With Mark Thomas’s identity, he definitely would have heard of the news by now. After all, there are many industries that need those chips. Without the chips, the entire production line would be stopped!

“Of course, I know! Even before I was kidnapped, there was already a shortage of chips. Therefore, I made some preparations before this. I stocked up enough goods for at least two years so that my company would run normally.”

Mark Thomas’s foresight was not false. Otherwise, it would be impossible for the Thomas Company to grow bigger and bigger. He thought that Oliver Walker was short of chips. Therefore, he said it without hesitation. This was a form of trust.

But soon, when he saw that Oliver Walker’s expression was not relaxed but more solemn, he realized the seriousness of the matter. “You’re not asking me to make chips, are you?” Mark Thomas asked in shock.

“Yes!” Oliver Walker nodded.

An incredulous expression appeared on Mark Thomas ‘face! He was stunned for a long time and could not say a word!

The atmosphere froze!

Three minutes later, Mark Thomas took a deep breath. “It’s not that I don’t want to help. I just can’t do anything about it! You think too highly of me!

“Although the Thomas Corporation is involved in the smart industry, it is still far from being able to manufacture chips. You might not know this, but to make a chip, in addition to the blueprint, we also need a photolithographic machine, which we don’t have.”

“In the entire world, the only one who controls the technology of the photolithographic machine is the Eastern Alliance!

“Plus.....

“I know all this!” Oliver Walker suddenly said.

Mark Thomas’s expression became more and more interesting!

Even if Oliver Walker knew, he still wanted him to make it? Was he crazy, or did he think that Mark Thomas was some sort of god?

Although he knew that Oliver Walker might have encountered a very tricky problem, he was indeed helpless. “Then, do you know that our country invested tens of billions in the military industry, but there hasn’t been a single ripple?”

That represented the highest level of manufacturing of the country and which was also the highest core technology. The research team inside had gathered the best from the country!

"I know that too but I'm not talking to you as a person! I represent the entire country..

Oliver Walker frowned. "I can understand if you choose to refuse, but..."

"It's about the future of the country. Whether or not you can control your own destiny. So, before you reject me, I hope you can consider it carefully!"

If they couldn't break through this issue, it would be a huge blow to the entire country.

Microchips are important in modern society. They were everywhere. From military planes, tanks, and cannons, to civilian cars, mobile phones, and even watches.

The effect in the future would only be even greater!

Chapter 904: His Responsibilities To The Country

It was no exaggeration to say that the Eastern Alliance was able to stir up trouble in the world entirely because they controlled the core technology. This was also why they were in such a tight spot.

"Pa da..."

Mark Thomas lit a cigarette. His eyes were deep, and even his hands were trembling.

Of course, he knew what these chips meant. Whoever mastered the core technology would have the right to speak.

Dead silence!

Even though he knew and wanted to contribute to the country, he had to act according to his capabilities. Once he accepted the heavy responsibility and he couldn't produce anything in the end, getting bankrupt was a minor issue but the failing the country was the major issue!

"Hmm.... I want to know," Mark Thomas exhaled a mouthful of thick smoke and said solemnly, "What kind of help can the higher-ups provide me?" He had no confidence at all! After all, this news was earth-shattering!

"An experienced research team! Led by the current expert of this field. As for funding, it's very difficult for the higher-ups to assist.

"It's not that we don't have it, nor is it that we can't bear to part with it. It's just that we're considering it as a top secret. Other than that, we won't provide you with any other assistance!

"Let me tell you something. Currently, the commonly seen chip on the market is 5mm. However, according to our intelligence, the Eastern Alliance has already developed a 3mm high-tech chip."

"It's just that for some unknown reason, it's impossible to mass produce it, and the success rate is extremely low. We still don't know anything about the function of the 3mm chip, but there is no doubt that it will bring a hurricane of innovation to the entire military.

Mark Thomas rubbed his forehead. After a long silence, he asked again, "Then... What about us?"

"If I remember correctly, a long time ago, the military started developing their chips. It can't be that after so many years, there's no progress at all, right?"

If it was a zero foundation, then even if ten Thomas companies were involved, it would be difficult to make any progress.

Although Mark Thomas had already made up his mind, he still needed to understand everything. He needed to know how confident he was. And according to Oliver Walker, if even 3mm came out, the gap would be huge! "7mm but the success rate is extremely low!"

Oliver Walker's tone turned heavy. "But it was announced to the public that it was 14mn. It's just that it's not as backward as the Eastern Alliance imagined, but in fact, there is still the distance between heaven and earth!"

Perhaps the difference between 7 and 3 nanomachines was not big but such a gap required countless researchers to tackle the problem day and night. The financial resources invested would also be countless.

It would even exceed the size of Thomas Corporation by tens or hundreds!

"I know! Since you came to me, it means that the country trusts me!" Mark Thomas frowned.

"I don't dare to say that I can do it but I'm willing to fight for the future of my country. I'll immediately shrink my financial resources and prepare for the chip field with all my strength! When will the researchers arrive?" Perhaps there wasn't too much emotion, nor was there too much vow of eternal love!

But was it necessary? No need!

Mark Thomas was a righteous man! He knew what this decision would mean.

If it succeeded, Thomas would indeed be able to become one of the top companies in the country. However, the success rate, to put it bluntly, was much lower than winning five million in the lottery!

He even knew that this was an impossible task.

One must know that the Eastern Alliance was an alliance formed by more than ten developed countries. The chip was also jointly developed by the Eastern Alliance.

Thomas Company? How could it compare?

However, the rise and fall of the country was the responsibility of everyone. He enjoyed the protection of the country, so when the country needed it, he would naturally give generously.

In the face of righteousness, there was no bargaining!

Chapter 905: Starting Off In a New Place

Oliver Walker stood up and saluted! If the people of the country are like this, why worry about the prosperity of the country?!

“No need, no need! I’m very happy that you can trust me!” Richard Thomas quickly said.

“I’m just a businessman. The prosperity of the country depends on you!” He did not dare to accept this salute! Therefore, he quickly stepped forward and bowed.

“I’m not sure when the researchers will be here. We’re still waiting for the decision from the higher-ups,” said Oliver Walker.

“I understand,” Mark Thomas immediately said. “No matter when they come, let’s be prepared first.”

As soon as he finished speaking, he turned around and left. He was a man with courage!

With such a major event happening, it was even more impossible to delay a minute! Moreover, under the impact of the Holy Light Group, many of the factories of the Thomas Corporations had already closed down.

He had originally planned to restart them, but there was no need for it now. Using it as a research base would save a lot of time.

In addition, the main business of Thomas Corporations was real estate, so some underground infrastructure was completely ready-made.

“Hubby! Have you been busy recently?” Emilia asked Oliver Walker.

“Not really,” Oliver Walker said with a smile. “I’ll have to stay in Ocean City. I still have some things to deal with!”

They were indeed working on the chip, but it was not urgent. When he was really busy, it was simply killing him. When he was not busy, he was really bored to the bone.

“Then I’ll leave my daughter to you!”

“I’ve transferred her to another school. It’s a school in Ocean City for the Nobles. You should visit her when you’re free. I need to go back to Colorado for a few days to deal with the transfer of the group.”

If the Heavenly Doctor Group wanted to develop better, they would definitely have to relocate their headquarters as well. She needed to go back personally.

Since she had made up her mind, her daughter needed to go to school in Donghai.

“Good! Don’t worry!” Oliver Walker smiled. “You don’t have to worry at all!” “I’m still a little worried.” Emilia pursed her lips.

“You’re always too busy. Our daughter’s heart is already very fragile. In addition, she’s transferred to an unfamiliar environment. You should keep an eye on her. She’s timid and easily bullied.”

” Yesterday was a test. The results should be out today! There’s more...”

“I’m her biological father, not her stepfather!” Oliver Walker said with a straight face and pretended to be angry.

He knew that his wife's worries were not without reason. After all, his daughter had grown up in that kind of environment, so she had a tendency to be autistic. Fortunately, Lily Jones was her homeroom teacher. If it had been an irresponsible teacher, Olivia Walker would not have been as cheerful as she was now.

"Alright, alright." Emilia laughed like a bell. "I know you're her father!"

Perhaps it was because of that relationship that their relationship became better. However, there was still a lot of reluctance in her beautiful eyes!

Oliver Walker held his wife in his arms. The two of them were silent for a long time, but it was worth a thousand words.

After a long while, they parted ways. "I'll go to the school to take a look now. That should do it, right?"

"That's what I meant. I'm leaving too. If you dare to flirt with anyone while I'm gone, I'll teach you a lesson when I get back!" Emilia pouted.

Looking at his wife's back, Oliver Walker smiled. He knew his wife's feelings for his daughter, but he was her biological father. How could he not care? Moreover, he really didn't have much time to spend with his daughter during this period of time. He turned around and left, rushing to the school.

At the same time, at the school for the elite!

First grade class five!

A female teacher in her forties stood on the podium. Her face was full of smiles.

"The results are out. The first place in this class is still Guo Lele."

"Full marks for math! Everyone, give your congratulations!"

In an instant, applause rang out in the class. Guo Lele also stood up with a face full of joy.

“My parents will definitely reward me.. When the time comes, everyone will get

a share!”

Chapter 906: Cheater Country Bumpkin!

Everyone was delighted. Families who could attend elite schools were not simple. However, compared to George Lewis’s family, it was like heaven and earth.

The Guo family had a high status in the city. They could even be ranked in the top ten. As the young master of the Guo family, his status in the school was naturally extraordinary.

“I wonder what the score of that country bumpkin from Colorado was.” “Same!”

“Tell me, why did she come to a big city like Ocean City to study?”

“Of course, it’s to find a good husband when we grow up!”

Children nowadays mature too early, so they understand many things a long time ago.

This was especially true for the elite schools. They were already competitive. Furthermore, Olivia Walker came from a small city like Colorado. Naturally, she became a country bumpkin in the eyes of these young masters and princesses.

This also made them feel that they had attended a fake elite school. Therefore, from the moment Olivia Walker transferred schools, they had been targeting her with ill intentions.

Olivia Walker looked at the test paper and was not happy at all. In addition to the ridicule from her classmates, she felt like she had returned to her previous nightmare.

“Everyone, quiet down! The test papers are all in your hands. Those who didn’t do well must work hard. We can’t drag down the average score of the class.

“Especially some students. The education in the countryside is a little bad, so they have to study hard.”

The female teacher’s expression was harsh and the meaning behind it was obvious. She might as well just call out Olivia Walker’s name.

“Hahaha... I knew it. She didn’t do well!” “I scored 65 points. Long live I pass!”

“Hahaha...

Soon, the group of young masters and little princesses began to jeer again.

This made Olivia Walker, who had been hesitating for a long time, remember Teacher Lily’s words. If she encountered injustice, she must stand up bravely. She clearly did very well!

Then, she stood up and mustered up his courage to say, “Teacher Wang, I... I got full marks too!”

The entire class was shocked! This was an elite school!

Everyone knew how George Lewis got full marks, and so did the teacher. After all, all of them came from wealthy families. Coming to school to get educated?

No! They were just here to play!

It would be good if they could inherit the family property when they grew up. Who would study hard?

Now, this country bumpkin from the countryside said that she scored 100 points?

George Lewis, who was stronger than his peers, was unhappy. He shouted around, “This country bumpkin dares to lie. She scored 85 points! Look how bad she is! She even brought along her bad habits.”

He and Olivia Walker were deskmates! How could he not see it? These words once again caused the entire hall to burst into laughter!

Especially Wendy Ambers, who was standing on the podium and playing with her phone. She couldn’t care less about this bunch of ancestors. She just wanted to get paid.

“No! I’m not lying!”

“I answered them correctly!” Olivia Walker said, feeling wronged. “I know all the answers to this!”

She was very studious! Therefore, she had already finished all the first grade courses at home. In the state of Colorado, he was always the top student in his grade.

Every time, she scored full marks for both Chinese and Mathematics. How could she only get 85 points this time?

“Hey... You wild girl, you dare to quibble!”

The domineering George Lewis immediately snatched the test paper and shouted, “Look! This is eighty-five points. Do you think you’re worthy of fighting with me for first place? Don’t you know that I’m the only one who can be number one in this grade?” “You really don’t know the rules at all!”

Chapter 907: Get Out and Stand Outside

When he finished speaking, he even spat on the test paper! "Ms Ambers!! He insulted me!" Olivia Walker was furious.

"You insulted my test paper!"

She cared a lot about her studies! When her father was still at the front line, his family was especially poor and they were targeted. Only the little red flower could make her mother's worried face disappear.

Therefore, she swore that he would study hard. Even though she was rich now and did not lack anything, she still placed great importance on results.

This was because she wanted to see her parents proud!

Wendy Ambers raised her head to take a look, then lowered her head to continue playing with her phone. She was working in an elite school and she wouldn't care about ethics.

Wasn't that a joke? As long as they didn't offend the students, they would be paid handsomely! Only a fool would offend the child from the richest family in the school over such a small matter?

"Haha... You country bumpkin," George Lewis teased. "Remember, the first rule you have to learn in this school is not to offend me!"

Two streams of tears rolled down Olivia Walker's tender face. This was blatantly trampling on the results of her studies!

He was slandering her!

"Ms Wang!" She angrily snatched the paper back and shouted, "Ms Wang! You corrected my paper wrongly! I've done all these questions before! I was right!"

But... There was no one to complain to. Even Wendy Amber's face showed an impatient expression.

George Lewis, who had been a little tyrant since kindergarten, felt humiliated when Olivia Walker ignored his dignity and took away his test papers. "You're asking for a beating!"

As soon as he finished speaking, he charged toward Olivia Walker.

"Brother Lele, you can do it!"

"Hit her!"

"You don't know the rules at all! You deserve a beating!"

The group of students began to jeer!

Wendy Ambers quickly stood up. She wasn't worried about a poor child from

the countryside, but she was worried that her little ancestor would suffer. Otherwise, she would lose her job!

"You guys are bullying me!"

Olivia Walker fought back in shame and anger. She threw a punch and pushed George Lewis, who was very strong among her peers, to the ground. This was something incredible!

Even she did not realize that her father had given her such great strength to train!

Everyone fell silent! The laughter was also gone!

"Aiyoyo... My little young master, are you alright?"

Wender Ambers face was filled with horror. She quickly stepped forward and helped George Lewis up.

This... Something big had happened!

If George Lewis's parents found out, then she... She would be screwed to death!

"I'm fine!"

George Lewis's face turned red. He patted his butt and glared at Olivia Walker with resentment. "You've offended me. I'm going to make you suffer in the future. I'm going to make you drop out of school!"

Olivia Walker did not lower her head. This was clearly bullying.

Just as she was about to speak...

However, Wendy Amber's attitude had changed drastically. She said fiercely,

"You're so young, yet you're already not good enough. You even dare others. Are all children from the countryside so cruel?!"

"It was clearly..." Olivia Walker said, aggrieved.

Wendy Ambers reprimanded him. "You were the one who started it. I saw everything. Get out and stand there. I'll get your parents to come over later and apologize to the young master!"

"What is this?"

Such words completely destroyed his worldview!

Olivia Walker felt extremely wronged, but she had no one on her side. She understood that the environment had changed. People around her were also different. She was going to be bullied again!

“Teacher Ambers asked you to get lost!”

“Get lost! ” George Lewis reached out and pushed Olivia Walker.

Soon, the entire class began to cheer! Olivia Walker held back her tears and walked out of the class with the papers that had been deliberately marked wrongly!

Chapter 908: Get Bullied Again?

“Don’t worry.” Wendy Ambers was extremely humble. She coaxed George Lewis. “I’ll help you. I’ll call her parents immediately and ask them to come over and apologize to you.”

George Lewis nodded in satisfaction and sat on the chair. “That’s more like it.

You did a good job. I’ll give you a bonus this month.”

Wendy Adams was all smiles. She didn’t expect this little devil to not only not hold her responsible, but he would definitely give her a small reward. What a wonderful thing!

Moreover, George Lewis was not stingy.

Although she was young, she was given a bonus equivalent to three months’s salary when school started.

However, for George Lewis, this money was not even pocket money. Reincarnation was a skill!

At the same time, outside the classroom, Olivia Walker was looking at the test papers and checking them one by one.

That's right! Not a single answer was wrong!

In fact, she had really finished the first grade curriculum a long time ago. How could she be wrong? However, the teacher didn't care, and her classmates bullied her. A sense of helplessness arose spontaneously.

Tears fell from her eyes as she felt wronged!

When Oliver Walker came to the corridor, he was also very surprised. Why was his daughter, who had always been obedient, punished to stand?

Olivia Walker, who had her head lowered, obviously hadn't seen her father yet. The more she thought about it, the more aggrieved she felt. She cried even harder.

"What's wrong?"

Oliver Walker squatted down, took out a tissue, and wiped the tears from his daughter's eyes. "Are you unhappy because you just transfer schools? Are you not used to it?"

He knew that his daughter was very obedient and hardworking in her studies. However, it was normal for children to make mistakes. Therefore, he wasn't in a hurry to blame her!

"Daddy! "

When she heard the familiar voice, Olivia Walker cried even harder. She rushed into the warm embrace.

Oliver Walker knew that something must have happened. However, he was not in a hurry to ask. Instead, he gently patted his daughter's back. "Don't cry. Olivia is the bravest."

Olivia Walker quickly wiped her tears and cried out in grievance, “But they bullied me!”

“I clearly did everything right, but the teacher corrected the test paper wrongly. They also said that I was a poor child from the countryside!”

How old was she?

Xu Ling was only nine years old, but he had already suffered some injustice in society! Naturally, he was furious!

The past two days in school had brought her back to her previous nightmares.

She was afraid! She was badly frightened!

What was even more terrifying was that even the teachers had ganged up on her!

“There’s such a thing?”

Oliver Walker’s expression turned serious. He knew that his daughter would not lie, but he still took the test paper and saw that many of the correct calculations were marked with Xs!

$3+3=6!$

$8+2=10!$

These were marked wrong?! There were also many ridiculous marks. Not to mention a teacher, how could an adult not know how to solve such a simple question?

He was furious! He could also confirm that his daughter had really been bullied!

Moreover, the teacher was the one who took the lead in bullying them!

This was indeed a full score paper!

“Olivia, don’t worry. Daddy will settle this for you. As long as we’re not wrong, no one can bully us!”

How was this a teacher? She was no different from a beast!

Moreover, he knew that if there was no reason for this, this would never have happened! Therefore, the reason behind it was the darkest!

“Yes!”

Olivia Walker’s eyes shone with courage. “My deskmate also said that he’s the only one in this grade who can get first place. He demanded for me to follow the rules!”

“He is a little tyrant!”

Oliver Walker’s anger was rising. He held his daughter’s hand and said, “Daddy will bring you justice.”

There must be an explanation for this matter! His daughter could not be bullied like this! This was simply too much. She was forcing him to lose his temper.. His wife’s worry was not unreasonable!

Chapter 909: Being a Teacher

“Clang...”

The next moment, Oliver Walker pushed the door open and entered with his daughter! The noisy classroom instantly quieted down!

Everyone's eyes quickly fell on the strange man, Oliver Walker.

However, most of the students were not afraid even though they were young. After all, they were all children of rich families, and their family had many servants.

They were already used to flaunting their power! It had to be said that children from rich families and children from poor families were indeed very different in terms of their conduct.

It was mainly caused by the environment!

In the eyes of the poor children, Oliver Walker was Olivia Walker's parent. In the eyes of these young masters and princesses, Oliver Walker was just a servant.

After all, every bodyguard was dressed in suits and leather shoes!

"Who are you?"

Wendy Ambers was slightly startled, but she immediately spoke. She did feel Oliver Walker's anger, but she didn't take it seriously. In her eyes, only these little ancestors needed to be complimented.

As for the others? Don't even think about making her lower her head! She was a teacher! These parents should learn how to please her instead!"

"I'm Olivia's father!"

Oliver Walker walked toward the podium with an indifferent expression!

“So you’re her father! I was just about to call you to inform you, but I didn’t expect you to come!” Wendy Ambers said nonchalantly.

“In that case, apologize to George Lewis on behalf of your daughter!”

“Hey!” George Lewi stood up with his head held high and her chest puffed out.

“Your daughter hit me. This is not a problem that can be solved just by apologizing! You have to kneel on the ground and let me, the Young Master, ride a big horse!”

Oliver Walker swept his cold gaze across the crowd. Indeed, from the teachers to the students, their eyes were filled with prejudice and arrogance!

What kind of people were they?

The school was clearly a holy land for teaching and educating people. Why had it become like this?

It was no longer just because of his daughter!

It was this teacher who had bad morals causing the entire class to be filled with evil tendencies!

This was a school! It was a place to cultivate the flowers of the motherland! It was not an evil hell that nurtured demon criminals!

“Hey, what are you waiting for? If you don’t apologize, I’ll expel Olivia Walker from school,” Wendy Ambers sneered.

The reason why she was fearless was actually very simple. She had already checked Olivia Walker’s information.

His family did run a company, but in an elite school, such a rural family background was no different from a beggar in a big city like Ocean City!

Therefore, he was not afraid!

“Apologize? Expelled?”

Oliver Walker’s tone was indifferent, but his expression was indignant.

Suddenly, he slapped the paper on the podium. “Okay! Then let’s talk about the test papers! Tell me, what exactly is wrong with this paper? Why did you mark her wrong?”

At this moment, his suppressed anger erupted like a volcano. Not only for his daughter, but also for the future of the country.

Strictly speaking, he had educated the five great War Gods, the six great Chinese medical sages, and the eight great Gods of Wealth. All of them regarded him as their thursday.

This profession was sacred! He was worthy of respect!

However, at this moment, someone was using his teacher’s name to do something indecent!

This was against his morals!

It was an insult to the entire teaching profession. If such a black sheep was not kicked out of the teaching team, it would be misleading the students, and the consequences would be extremely bad!

Would these children be able to learn the correct values from such a teacher?

They would only be brought up as devils. The child could be forgiven! However, as an adult, he definitely could not tolerate it!

“You..

Wendy Amber’s expression changed. She was angry.. “How dare you yell at me? Do you know what this place is? You...”

Chapter 910: You Can ‘t Kill Me For That

“I just asked you a question!” Before he could finish his sentence, Oliver Walker’s eyes turned cold.

“I want you to answer my question! What exactly did she do wrong on this paper?”

When he met such a woman, he did not spoil her. His voice was like thunder! He even waved his hand and grabbed Wendy Ambers by the collar. He pulled her to the podium and forced her to look at the test paper!

The thunderous rage frightened all the children in the class! This group of fearless ancestors had been pampered since they were born. Who would dare to disobey them?

They were the only ones who were angry. When was it anyone else’s turn to be angry at them?

Especially Wendy Ambers,, who was under all the pressure, was also stunned. “Let go! If there’s anything... Let’s talk things out!”

Her face was pale! She knew that she had met a ruthless person! However, she was still unwilling. As long as this barbaric man dared to let go, she would find an opportunity to inform the security department. Assaulting a teacher was a serious crime!

“I’ll let you look at the test paper!”

Seeing the unwillingness in Wendy Amber's eyes, Oliver Walker became even angrier. He instantly increased the strength in his hands. "If you dare to mark them wrongly again, you better watch out!"

He was already ready to kill someone. He was never a soft-hearted person! Otherwise, he wouldn't be qualified for his current job! Especially him, who had always abhorred evil!

Perhaps Wendy Ambers was just an ordinary person, an ordinary parent, and not a teacher. If that was the case, he wouldn't be so angry!

Wendy Ambers cried out in pain. Her expression was ugly, and she could only compromise. "I admit that she... She did everything right. Please, first... Let go first! "

Reality proved that this was a full score!

The reason why Wendy Ambers didn't give full marks was to please George

Lewis. She wanted to create a sense of vanity for George Lewis. This made George Lewis think that he could do whatever he wanted with money; even the teacher had to help him cheat!

As long as he said a word, there would not be a second full score in the entire grade.

"Daddy!"

It wasn't the first time Olivia Walker had seen her father lose his temper, but this time it was especially terrifying. She reached out her small hand and carefully shook her father's clothes.

"Olivia! If you were a child of an ordinary family, you really shouldn't have seen this scene! But since you are my daughter, Oliver Walker, you will definitely walk the same path as me in the future!

"Remember, when faced with injustice and darkness, you must speak up bravely!

"I wanted you to grow up happily, but I didn't expect you to have already stepped into society and come into contact with the dark side of this world at such a young age." Oliver Walker's words were filled with endless anger.

"We can't be afraid. Only by waving our fists to shatter the darkness can we welcome the dawn!"

That's right! What was the difference between this class and actual society?

However, what was most unacceptable to him was that this group of innocent children ended up forming cliques, playing favoritism, and even bribing the teachers to control the class.

If they hadn't seen it with their own eyes, who would have believed it?

"Yes!"

Olivia Walker nodded. "Dad, I... I will definitely be brave. I will definitely become a great hero like Dad!"

Ever since she was young, her father, who had been doing meritorious deeds in the state of Indiana, was her idol! It was also to accompany her through that period when she was ridiculed and bullied.

She studied hard because she did not want to disappoint her parents!

"Can.... can you please let go?"

Wendy Ambers's face turned red from suffocation. "I can't breathe, I.... Just give your daughter less than ten points, you...You can't kill me, right?"
