

Chapter 1199

At this moment, Elma wanted to call Arron, Darius and Lenny for help, but she couldn't speak. Because she was turned fainted.

It wasn't until the two young men cooperated with the end of the hip-hop dance that they left Elma on the ground.

Elma only felt top-heavy.

The first young man condescendingly said to Elma: "My little master, I have lived eighteen years old. This is the first time I have seen you such a arrogant old lady! You are so greasy, it is okay! Openly molested our minors! We! Take you to the police station today!"

Elma, who had been accustomed to standing still for a long time, was about to jump out of his vomiting brain.

At the end of the vomiting, the bitter gall bladder came out, and her mouth was even more uncomfortable. She raised her frustrated eyes and looked at the two young people: "Instead, it's you! Do you know who I am? Or? You don't want to die anymore!"

One of the young people also laughed angrily: "You said, who are you! Come and listen!"

"I am the unmarried Kraig of the Jun family in Kyoto..."

Without finishing a sentence, Elma heard a round of scolding.

"Elma, watch and fight!"

This is the voice of three people uniting.

As soon as the voice fell, Galia, Rayna and Shen Wei rushed towards Elma.

I don't know when, these three little nizis actually took sticks in their hands.

They ran to Elma, who was not standing firm, and beat Elma with sticks.

God!

"Aw..." Elma immediately hugged his head and squirmed.

However, no matter where she went, the three little nizi chased her and beat her, panicking, Elma ran to the vegetable field where the two young men were busy just now.

The geography is full of dung, wet soil, good fellow, this time not only her wicked face and mouth are covered with silt.

There was mud all over her, one end.

Even so, the sticks in the hands of the three Xiao Nizi still did not stop.

Elma repeatedly begged for mercy, "Don't, don't beat..."

The three little nizis stopped now.

Rayna crouched and yelled: "Elma! You are far behind me than a shrew! My old lady, I grew up in the market. I often tear my hair with people because of trivial things. Just you, two. You are not my opponent either!"

The little shrew is very disregarded of her own image now.

The little pepper next to it did not show weakness.

"Elma! You don't take a picture of yourself with soaking urine! What kind of thing are you! Returning Kraig's fiancée! Kraig would want you to be such a stupid woman who doesn't wear lipstick on your lips?"

"Ah!"

"Think of a man like you are crazy! You actually got into my man's car! When I look back, I have to ask my man to tear off the car seat and throw it away! I think you stinks!" Galia said to Suzi all the way. She doesn't want to fall in love with Darius.

But at this moment, she herself didn't know, she kept telling Elma that it was her man.

Elma hugged his head and squatted on the ground, not even daring to breathe.

How could Galia let her go, she hit Elma's toe with a stick: "You black-hearted woman, you have been hanging around for ten years and will not come back! Once you come back, you will grab someone else's man!"

"The men under you that day are idiots! Just sit at home and wait for you to wander outside. If you have enough wandering, you will come back to marry?"

"You are a dead pig!"

"Stupid pig!"

"You heartless pig! You are so cruel to my sister Shan, you are driving her to desperation! I tell you, if sister Shan is good, if sister Shan has a long and two shortcomings, we will see you once and beat you once! "

"Huh!" Lilly, the youngest boy, couldn't organize so many vocabulary.

But she will take advantage of it: "Huh! See you once and beat you once!"

Elma: "... " She squatted on the ground with her head in her arms, like a female criminal caught and raped.

Behind him, Darius, who came here with Elma, looked dumbfounded.

This operation is... too foreign, right?

Darius looked at everyone innocently: "What's the situation? Isn't she... Mr. Jun's fiancée?"

Chapter 1200

When she heard Darius yelling like this, Elma's courage didn't know where she was, she suddenly stood up and rushed out of the encirclement to Darius.

"Shu Shao, tell them who I am!" As soon as Elma spoke, there was a stench in his mouth.

Xun's Darius immediately pinched his nose.

Gentle and wide as Darius, he couldn't help but blurt out at this moment: "You, stay away from me, you are too stinky! Kill people."

"Haha..." Galia smiled and bent over.

Elma: "..."

Ouch!

Had it not been for this moment, Elma wanted to break these women into pieces.

But she didn't dare.

She was really scared of being beaten.

Watching Darius despise her so much, Elma could only smile awkwardly: "Yes...it's too stinky, but it's all those wicked women who beat me, Shu Shao. , You have to tell them who I am!"

Darius: "..."

He looked at everyone for unknown reasons.

At this time, Arron spoke: "How did you tremble with Darius!"

Arron's tone was extremely cold.

Elma heard a cold war all over her body. She immediately looked at Arron and rushed forward to talk to Arron, but was frightened by Arron's expression.

Arron looked at Elma coldly: "Where were you when Dalia and Kraig were together?"

Elma: "..."

"Talk!"

"Country, abroad."

"Have you got the marriage certificate?"

"No...no."

"When Dalia and Kraig were together, you and Kraig were separated, and you were not married. That means Dalia didn't infringe on you, right?"

"She's not a junior, is she?"

Elma: "Fu...Arron, you...what do you want to say?"

"I found four or five men on the top of the mountain and almost didn't beat her to death. The first time was not successful, and the second time I planned to kill her! It would be unfortunate if Kraig had a femme fatale by your side!"

"You...you...how do you talk!" Elma asked Arron.

"Stay away from me! You are too stinky!"

Arron made no secret of his disgust at Elma: "Dalia has a million in his possession, which Kraig gave to her in the past few years. It is also her salary. She legally deserves it, but you give her nothing left. ."

"Elma, do you know what your name is?"

"Robbery!"

Elma: "Arron, who are you towards? The one you are towards my fiancé or the little mistress!"

Arron: "I tell you very clearly that I am towards Kraig and towards Dalia. As for you... you better disappear from us now!"

If the words were necessary, Arron no longer looked at Elma.

He only looked down at Suzi and the only one: "Let's go, let's go in, you see my mother is standing at the door in a daze, she doesn't know what happened, so she is very worried about you and the only one."

Suzi nodded: "Well, husband, let's go in."

After turning around, Suzi looked at the other people: "Go, go in."

Behind him, Elma yelled at Arron very cruelly: "I am Kraig's wife, what can you do to me! I just won't disappear in front of you! I see what you want!"

Arron didn't look back.

He only said coldly: "If you don't disappear in front of me, or if you appear in front of them next time, I will let you die without a place to bury you."

Elma: "..."

Arron's voice was very flat and indifferent to her ears.
