

Chapter 131

His daughter had lost weight, and he was really heartbroken. So he glared at Leon.

Jalen regretted it!

He shouldn't have married his daughter so early.

Recently, his friend married his daughter too early, and as a result, his daughter was unhappy and in divorce.

When he thought of his daughter being aggrieved, Jalen looked at Leon with a darkened face, "Alyssa, you stay home for a few days and stay with grandpa."

Milo was not happy. How could a couple be separated!

Besides, Alyssa was pregnant ...

He was about to speak.

Leon, however, said faster than him, "Dad, Alyssa should be at home."

Hearing Leon's words, Alyssa gave him a look. She should be at home?

Why should she be at home when there were maids and Wendy at home?

It was clearly him who needed her.

Since he was a man, she wouldn't bother with him for now.

"Alyssa should be at home?" Jalen asked with a stern look, "Does the Hunter's still need Alyssa to clean and cook?"

The image of Alyssa cleaning and cooking came to his mind.

He was strict with Alyssa, but it was for Alyssa's own good.

Alyssa was a little princess who was pampered in the Grahams. He had never let Alyssa do this at all.

A little princess had to do the laundry and cooking and cleaning, how tiring that must be!

Leon heard Jalen's dissatisfaction and looked at Alyssa, who seemed very pleased with herself and had no intention of explaining.

He lowered his head, "Dad, we do need Alyssa at home. Otherwise, our house would be a mess. The cook and the maid are there, but they are always lazy."

Hearing Leon's words, Jalen glanced at Alyssa.

He thought about it for a moment and believed that Leon wouldn't lie. So Alyssa was deliberate.

Could it be that Alyssa still didn't want to accept Leon?

But they came here together for New Year. Although they hadn't stayed long, he could tell that they had a good relationship.

For a moment, Jalen didn't know what to say.

Just then Azul took his hand gently. He glanced at his wife and saw her wink at him to stop talking.

He didn't know much about the women, so he simply said nothing and put his head down to eat.

Alyssa looked at her dad and then at Leon and noticed that at the moment his eyes were filled with caution. Seeing her looking at him, he hurriedly gave her a piece of her favorite fish.

Looking at his cautious look, she couldn't help but smile. After taking a bite of the fish, she inexplicably felt that the usually delicious fish suddenly became fishy.

She picked the fish out and put it on the table.

Watching his daughter throw the fish that his son-in-law had picked out onto the table, Jalen was sure that his daughter had been aggrieved.

It super hurt him to see his daughter suffer. His face immediately turned grim. However, he shouted at Alyssa, "What's wrong with you? Since you don't like him, you should not go back today. You stay at home and I'll ask the maid to clean up your room."

Alyssa:?

Leon: ...

Milo and Azul looked at Jalen, both a little speechless.

But they all knew that although Jalen always scolded Alyssa and was dissatisfied with her, he cared about her very much, especially after Alyssa got married.

He just didn't know how to cherish her until he lost her.

"I'm going to ask the maids to clean up your room quickly now. You just stay here!" Jalen said to Alyssa and headed out.

Alyssa hurriedly stood up and ran to her father.

Watching her run, Leon hurriedly pulled her back with a stern look in his eyes to warn her. His subtext: "You're pregnant. How can you run back and forth?"

"Leon, I'm still with my daughter! How dare you be so harsh with my daughter!"

"Dad, I just don't want her to run around. Alyssa is pregnant."

Leon blurted out the secret directly.

Milo and Azul didn't react much.

Jalen looked at Leon and froze!

Pregnant?

His daughter was pregnant?

Did he hear it right?

He looked at Leon, "What did you say? Say it again!"

"Alyssa is pregnant. She found out a few days ago. She was probably worried that the results were inaccurate, so I've seen her secretly using the pregnancy test every morning for the past few days. The results are the same every time. Dad, she's pregnant!"

Leon finished, feeling inexplicably smug.

He was still capable of getting his wife pregnant.

No one else had that kind of ability!

Once he was proud, his arrogant look showed.

Looking at Leon's arrogant eyes, Alyssa frowned, feeling that Leon was just asking for trouble at the moment.

They were in her home now!

Couldn't Leon, who was so smart, see that her dad was concerned about her?

How could he be so smug!

He was being stupid again.

It took Jalen a long time to react. He looked at Leon and then at Alyssa, "Really?"

Alyssa nodded, "It's true."

"Then why didn't you say it earlier? Hurry up and sit down." He pulled Alyssa to sit on the chair. After taking a look at the chair, he thought it was too hard and asked the maid to add a cushion.

Alyssa sat down and felt that the chair was soft and comfortable.

Watching Alyssa sit down, Leon also sat aside.

Jalen hurriedly served Alyssa food.

"Alyssa, try this, eat more." Jalen gave Alyssa a piece of meat.

Alyssa nodded. As far as she could remember, it seemed that her father hadn't served her food for a long time. This feeling was quite special.

She thought the meat tasted quite delicious and hurriedly ate it.

Seeing that Alyssa liked the meat, Jalen gave her two more pieces.

She ate them all.

Jalen was very happy and kept giving Alyssa the meat.

Alyssa's bowl was full of meat.

"Dad, I really can't eat anymore. Don't give me anymore. I'm a little full." Alyssa touched her stomach. Her stomach was about to burst.

"You are pregnant now. You should eat more. Don't worry about your figure. Your health is the most important thing. Leon, don't you think so?"

Leon thought so too, "Dad, you're right. Alyssa's health is the most important thing."

In fact, when Alyssa was preparing for pregnancy, he knew about her health condition.

Then she was always busy. Because of working overtime, she was not feeling well and secretly went to see a doctor.

Although the doctor said she was fine, he had thought that there might be no child for them, but he didn't care.

It was good to have children.

But Alyssa was more important.

In this world, he only wanted Alyssa.

"Look, Leon also said so. You can eat whatever you like. You don't have to control yourself. Here, have some more!"

"No, Dad, I really can't eat anymore."

"You're really full?"

To be continued
