

## Chapter 1421 - The hidden dangers buried for Liu Jie

“Come on, he can call us at this time, it should not be a bad thing,” Ren said with a sigh.

Steiger remained indifferent. All areas of the Cavalry Regiment were lost. They were still stolen by Liu Jie, his trusted ally. He is now embarrassed and loses money. Like a bereavement dog, he was afraid that Lu Yang would call it taunting him for waste, that would be better to let him die.

Gaddafi saw Steiger's embarrassment and said with a smile: “Take it, Lu Yang should help us.”

“Why?” Steiger asked.

Gaddafi said: “He doesn't want Liu Jie to be bigger. They are revenge. We have completely failed. Is it good for him?”

Steiger thought about it, and felt Gaddafi's words made sense. He pressed the connection button and said, “I'm Steiger, President Lu Yang, hello.”

Lu Yang was happy, and it was the first time Steiger had spoken to him in such a low posture. He smiled and said, “It's not easy to hear you using honorifics, how about you?”

Steiger gritted his teeth angrily. What he hated most was bowing his head in front of Lu Yang, forcing the urge to curse, saying, “Do you not know what I look like? The spy you installed in me did not already Has my situation been reported to you? “

Lu Yang laughed and said, “Okay, I know the situation there isn't too good. Would you like me to help?”

“What can you help?” Steiger sneered and asked, “Can you possibly lend me the Skysword Fortress, or now send troops to help me fight Liu Jie?”

Lu Yang sighed and said, "Neither of these will work. You know, I just had a hard fight with Olma and Sanyouweimen for more than 2 weeks, and the player levels dropped by more than 8 levels, even if I had money to fight, Players have no enthusiasm, let alone I have no money now. "

Steiger sneered and said, "If it wasn't for Liu Jie's asshole, he would have been our China region."

Lu Yang did not expect that Steige was still not convinced, and said with a smile: "It is not Liu Jie playing a negative trick, but he sees it better, he knows that even if you all add up, you can't get in."

"Why?" Steige still didn't understand where he lost, obviously Liu Jie hated Lu Yang so much, but gave up in front of such a best opportunity to destroy Lu Yang, and turned his muzzle to attack him. .

Lu Yang said: "It looks like you still don't know where you lost? It's okay to tell you, so to speak, I have not used all my strengths. If I would like to move my roots, I would rather sell India or South Korea. Also keep my Huaxia area. If I open the Tianjian Fortress and let you and Liu Jie come in, at the same time, I order the players in India and South Korea to stay outside the Tianjian Fortress, why do you fight with me? "

Steiger was dumbfounded and said in shock: "You, you, how dare you do this?"

Lu Yang gave a cold hum and said, "My hometown is gone, and there is nothing I dare not give up. As long as there is a mountainous area in the east, the monthly income is more than four times that of my other areas combined. Based on this, I Throwing those two areas, and desperately crashed you, and when you all retreated, I went to clean up the Indian area and the South Korean area. Anyway, it 's not my home. Whatever it 's like, I can slowly recover and wo n't hurt My root. "

Steige took a long breath before he realized where he had lost, and said angrily, "Damn, Liu Jie, the liar."

Lu Yang could guess Steige's annoyance now, and sneered, saying, "Don't bother, this is also a good thing for you."

"What a good thing." Steiger said with a mockery: "Everything is gone, there are a bunch of people left, no level, no equipment, no equipment, no family in the future."

Lu Yang said: "The good thing is that you have received official recognition and sponsorship. The only thing that is lacking is a quick upgrade and equipment acquisition method. I have one here, don't want it."

Steger was stunned and asked, "You, do you have a way?"

Lu Yang said, "I can guarantee that if you work hard to lead the team, you will be able to recover to the original level within a month, and then how to regain the site, I believe that without me, you know how to do it."

"Of course." Steiger said in surprise. "You, tell me quickly."

Lu Yang said: "This is the second time I have helped you for free, just as it was before I paid it back."

Steger promised again and again.

Lu Yang said: "Playing on the battlefield, the Pirate Captain battlefield has a bug, using the \*\*\*\* assassin to use the demons disintegration skills in front of the barrier, there is a great chance of appearing outside the barrier, so you can get the help of the pirate ship first. "

Steger was stunned and said, "That's how you got your level up to level 160, right?"

Lu Yang smiled and said, "You don't have to worry about it. Rise to level 150 quickly, and then I will tell you how to make a copy. I believe you will quickly regain everything that belongs to you."

Steger gritted his teeth and said, "Well, if I can regain our territory in the future, our cavalry regiments will be allies with you in the future. Whoever you fight, we will help you fight."

"Deal." Lu Yang smiled and closed the intercom. He didn't believe what Steiger said. What allies are strong is the most important thing.

Tu Feng watched Lu Yang hang up and asked, "Steger promised?"

Lu Yang nodded.

Xia Yuwei cast a map and said, "I do n't want Steige to be too high, as long as they can help us hold Liu Jie. There are people like Steige and Rennes. With Liu Jie, even if he can make troubles in Liu Jie's occupied area, it can provide great help for Lu Yang's development. At this stage, Liu Jie has already stationed in the Chiefs Fortress and confronted the Sky Sword Fortress, but Liu Jie sent There are not many people and I do n't have the energy to fight again.

Tu Feng looked at the map and said, "Our main force is still stationed in the Lalbag Fortress, and the Sky Fortress is in the area of the Lalbag Fortress. What should we do?"

This is a very special area, because there are almost no ordinary players in this area, which makes it meaningless for any grand guild to occupy them. Especially after the occupation, it requires a large number of people to defend the fortress. The daily expenditure is very high. Gao, in the case of no gain, also worry that the G8 and the guilds in the central region will send a small number of elites to attack.

At this stage, sometimes the existence of a lawbreaker will definitely destroy the fortress, and send someone to take it back. More people will cost more, and fewer people will not be able to take it back.

"Chicken ribs," Lu Yang murmured to himself.

Tu Feng said: "I have news here, I don't know if it will be useful."

Chapter 1422 - Quitola

"What news?" Lu Yang looked at Tu Feng.

Tu Feng said: "He Peng, who had left the Tongtian Fortress area with 800,000 scattered people, was now hiding in the level 150 map of the gold mine fortress to the Templar Fortress, but their 800,000 people were scattered in the army mode. For upgrades, the rest is only in nearby villages, and definitely not go to the fortress. "

Lu Yang was happy, watching the map cast by Xia Yuwei and saying, "How did these people come in?"

Tu Feng said, "I suspect these people are interested in developing in this area, and after our investigation, this group may be related to Alice."

Lu Yangmeng frowned, and now when he mentioned Alice, he was angry, and said, "What is the relationship with her?"

Tu Feng said: "Our people lurked to He Peng. He Peng was frustrated and drunk last night. He accidentally said it, but the credibility cannot be verified."

Lu Yang stared at this chicken rib area on the map and said, "It's interesting. In this way, all players withdraw to the Tiger Fortress in full line. I don't want this area."

"No more?" Tu Feng and Zhuo Jiu were stunned.

"Boss, Heishui to the front line of the crescent moon, if you give up and want to fight again, it is quite difficult." Said bitter love for a long time.

Lu Yang smiled and said, "If it's not difficult, how can you lead the enemy out? I want to see what He Peng's bottom line is, and what means can Alice have in the future. Come back, I have another way, don't worry about you. "

Zhuo Jiu and Tu Feng nodded.

Tu Feng said: "There is still a problem. Our guild warehouse reserves are gone. The guild points in the hands of the brothers have tens of thousands of points. We can't give anything. This is tidy."

Lu Yang thought, saying: "This is really a problem. Let me think about how to solve it. Let 's take the brothers to raise the level first. I have figured out a way here, and I will tell you immediately."

"Then we leave," said Zhujiu.

"I'm on call."

...

The light flickered on more than a dozen people, each withdrew from the special space, and took his men to the battlefield to upgrade the level.

Lu Yang was sitting alone in the special space. He estimated that the player's level could be restored to the original level after one month, and he could rise to level 150 in half a month.

The time has entered mid-November, and it is expected that at the end of December, around Christmas, Steiger will fight a war, and he will also take advantage of this opportunity to think about how to resolve the current war Questions after the end.

The Spanish side in the eastern mountain area need not be ignored for the time being. Fernando over there is very well in control and there is no turmoil. Although the South Korean area and the Indian area are temporarily quiet, the next time Liu Yishu will still have problems.

Alice is also a big problem. If she doesn't solve her problem, she has to worry about whether someone inside has been deceived by him, which is very troublesome.

However, the biggest trouble at the moment is the guild points that Tu Feng said. If the guild points are not solved, the credibility of the guild will be lost, and the next battle, players will not be so desperate.

After thinking about it for a long time, in the end, Lu Yang decided to equip the players with pet eggs. When the player level reaches level 150, he can carry a bird called Terrorwing Crow, a physical long-range attack bird. The biggest feature is that he is born Comes with a 20x critical strike, long-range physical attack skills.

Lu Yang exited the special space, changed his appearance using a camouflage coat, took out the teleportation scroll and flew to the \*\*\*\* fortress in the Spanish area. At this time, the fortress was full of players, so a busy scene, this is all managed by Ayala With the good side and the solid backing of Lu Yang, no one dares to make trouble in the Spanish region.

Lu Yang is very satisfied with the situation here. As long as this continues to develop, Spain will become his granary and continue to provide him with financial support.

He looked around, changed to a mount and ran towards the gate to the south. After getting out of the city, he entered the dense forest along the southwest.

This is a 150-level area, but the player level in Spain is low, and few people come here, and it is very troublesome to walk up the mountain.

Dreadwing crows are flying demon creatures, all living in areas above 5,000 meters above sea level. All such areas in the game are the location of the big devil, with lightning flashes and transpiration of magic flames.

This kind of flame can't bear even Lu Yang, it will be touched by the second, so no one came over. Lu Yang only ran for two hours, there were no players around, he ran into the back of a mountain, Spell out.

“Summon Flying Carpet”

A flash of light flashed, and a beautiful flying carpet appeared under his feet, taking him towards a green-black volcano far away.

After five hours of continuous flight, he flew to the feet of the green-black volcano. ,

System prompt: You have found Quidora Volcano

System prompt: The magic wave here is very unstable, and the flying carpet is affected and cannot take off.

Lu Yang didn't expect this effect. He looked up at the volcano. It was 5,000 meters high, and it was a volcano with very complicated terrain. A lot of black and green fire monsters blocked the way.

“Come on, you have to go.” Lu Yang said with a mockery, heading towards the entrance to the road at the foot of Mount Quitola, where a group of black flames were blocking the door.

Quitola Black Fire (Elite)

Level: 150

Qi and blood: 5000000/5000000

Lu Yang knows this monster. This is a monster with high fire resistance. Even players with a level 200 dark gold set do not hurt them, but Lu Yang has a level 9 demon heart. Ignore 70% of magic resistance. With only 5 million blood, they are like toys in Lu Yang’s eyes.

“Flame Storm”

Lu Yang watched the group of monsters just gather together, and read the spell in his mouth, and a red-gold flame storm hit them all.

“3683458” (Critical)

“3675068” (Critical)

...

A crit injury lit up, and Lu Yang uttered the spell again. He raised his hand and released a flame bird to strike the middle of the strange group.

System prompt: You killed Quidola Black Fire and gain 36000 experience

...

After a number of this group of monsters were given seconds by Lu Yang, using only two attacks, very easy.

He continued to walk up the mountain, killing strange creatures along the way, with almost no resistance. When he reached a height of 1,000 meters, a larger black fire was blocked in the middle of the road.

Quitola Black Fire Ellen (boss)

Level: 155

Qi and blood: 100000000/100000000

Lu Yang is happy. Every level is not an integer, but is like the black fire demon. Generally, it is not explosive equipment, but explosive skill books.

“Boss of the fire department, this skill book is interesting.” Lu Yang laughed, he has not obtained a new skill book for a long time, but he is very eager.

Chapter 1423 - Fire Spell-Fire Dragon

Furthermore, on the night of Christmas, it is also the day of the Fourth Global Competition, and he also needs to hone his combo skills.

“Blazing Heart”

Lu Yang's right-hand wand pointed to the boss. A damage value of tens of millions appeared on his head. Before the lord's strange response came, Lu Yang's body appeared a white light, which appeared in front of him instantly. On the boss.

"Angry Skills-Devil Slash"

A red-gold flame glided across, and the Black Fire Demon flew back uncontrollably, crashing into a wall 5 meters away behind him.

"Meteorite Impact"

The crimson meteorite in the sky fell down, and in the middle of the body of the black fire demon, each hit was more than 3 million crit damage.

"Yanyang mask"

A red-gold mask appeared from Lu Yang's body, and then he turned into a firelight and appeared in front of the black fire demon.

"Advanced Wrath Skills-Fire Super Kill"

Lu Yang's body appeared four phantoms at the same time, each with a red-gold flame mask, hitting the boss monster frantically.

The Black Fire Demon is completely incapable of action, so he was beaten for 10 seconds, just after the end of time, the lord blame for more than 100 million blood, with a stiff time of 0.5 seconds.

"Rage Skills-Hot Fist"

Lu Yang relied on the Yanyang hood to provide 10 points of anger. His left hand punched the body of the Black Fire Demon with a bang. The body of the Black Fire Demon hit the wall, rebounded obliquely upward, and crossed Lu Yang's head. Landed behind him.

“Destroy Heavy Artillery”

Lu Yang did n't need to aim when he turned around, and his left hand was pointing at the Black Fire Demon. Just right, the opponent 's body fell a bit higher than the same horizontal line of Lu Yang 's finger, and an extremely dense flame light ball flew forward with a burst of breath. Hit the Black Fire Demon who just landed on his trajectory.

“boom”

The Black Fire Demon continued to fly backward for a distance of 5 meters, and the blood volume dropped sharply by about 10 million. After landing, the head was marked with a stun, and it normally controlled the attack for 5 seconds. It only landed on the boss for 2.5 second.

“Naruto”

In the sky, 22 small melting bombs fell on the body of the Black Fire Demon King. At the moment of landing, Lu Yang read a spell.

“Pyroblast”

“Pyroblast”

...

In 2.5 seconds, Lu Yang read 5 Pyroblasts and added Naruto bombs, killing more than 20 million HP of the boss.

The Black Fire Demon King just woke up, and Lu Yang hit the ground with a staff in his right hand.

“Earth to Earth”

A sky-high flame slammed the black fire devil backwards. In the mid-air, Lu Yang continued to release Pyroblast in order to test his own speed.

“嗖”

“嗖”

...

What surprised Lu Yang was that he felt he was releasing the spell a little faster, and the reaction speed seemed to be about 0.05 seconds faster than the original. The only subtle change that he could realize was because he was faster than the original. Release the spell more calmly.

But he hasn't honed his speed lately. The only thing he can say is that he has fought too much in recent high-intensity wars and put more skills, which makes him more calm.

This made Lu Yang excited inside, to know that it was very difficult for a master of his level to improve a little bit, not to mention that he thought he had touched the ceiling of the fire law, but did not expect to be able to improve again.

“We must remember this feeling. At the next contest, I want everyone to be pleasantly surprised.” Lu Yang thought excitedly.

At this competition, all the individual players' thoughts are to kill Lu Yang. For three consecutive personal championships, if the fourth one is still him, all the experts think it is an insult to them.

When Lu Yang fought against the Seven Guilds, many players entered the arena to prepare for the contest two months later. Many people shouted slogans to kill Lu Yang and get personal matches. First place.

Lu Yang must also be cautious this time. Unlike before, this game has been in service for four years. For a professional understanding, master players have completely figured it out, and now the competition is all about personal wisdom and conscious reaction speed.

At present, the official battlefield shows that many people are not slower than Lu Yang, but this time Lu Yang's reaction speed has accelerated again, and he has a lot of confidence in winning the personal battle championship.

“Hello ~!”

The black fire demon awakened from vertigo, he suddenly roared to the sky, his body swelled violently, and his body, which was more than 3 meters tall, became more than 4 meters tall.

System Prompt: Quiddora Black Fire Demon Madness

Lu Yang looked at the number of his combos. Maybe his attack power was too high and he hit too many combos. In a short time, he hit too much strange blood, which triggered a madness, but the madness was just increasing movement speed, attack speed, attack power, and general control skills, but it does not relieve high-level control skills and anger skills.

“I'm going to kill you.” The black fire demon rushed towards the landing sun without using a spell.

Lu Yang watched as the Black Fire Demon rushed in front of him, and suddenly he took a step forward, his left hand burst into a blaze of flames and punched out.

“Rage Skills-Hot Fist”

The black fist's heavy fist didn't wait on Lu Yang's body, and his leg was hit by Lu Yang's punch.

“噔”

The Black Fire Demon flew backwards and was killed by 10 million health.

“Pyroblast”

“Pyroblast”

...

Lu Yang played 5 Pyroblasts with ease, just as the Black Fire Demon landed. If someone looks at it, Lu Yang at this time seems to have a sense of master, calmness, and despair!

“It’s over.”

Lu Yang’s body glowed a reddish light, he launched a residual flame-activated, and appeared in front of the lord monster.

“Advanced Wrath Skills-Fire Super Kill”

4 shadows with red-gold flame shells hit the Black Fire Demon at the same time, after 10 seconds.

System prompt: You killed the Black Fire Demon

You have gained 500,000 experience

Lu Yang looked at the objects falling from his feet, and one of the silver pages made a smile on his face.

Fire Dragon

Type: Fire spell

Cost: 10,000 magic

Distance: 100 yards

Description: The fire mage condenses the flames and releases a fiery fire dragon which inflicts fire spell equivalent damage to the enemy, and the cooling time is 10 seconds.

Lu Yang smiled with satisfaction, and he exhaled, saying, "I can't think of you here."

This is one of the most versatile but difficult to reach fire masters. The reason is that this skill is too long, the range is too wide, and it has a range of 50 yards horizontally, just like the blue dragon mage's giant wave skills.

In the last period of this skill, no one asked for bad streets, but at this stage it is a god-level skill book for Lu Yang. The reason is simple. The last war made Lu Yang fully aware of his lack of spell damage skills.

Relying solely on Blazing Storm and Blazing Birds will not create a space for his brothers in Wanjun. If he had skills such as "Hot Fire Dragon" on the battlefield, relying on him alone could make a 50 meters wide and 100 long The passage of meters comes.

However, now he has it, and there are many more fire range spells. It seems that this Quitola volcano is good, and he can find more fire skills.

Chapter 1424 - unexpected surprise

"Dididi"

Lu Yang's phone rang. He picked it up and saw it from Tu Feng. He pressed the call button and asked, "What's the matter?"

Tu Feng said excitedly: "He Peng moved!"

When Lu Yang went to Quitola Volcano, Tu Feng issued a statement that the Brotherhood of the Iron Blood gave up ownership of all areas before the Ralbagh Fortress reached the Qingling Plain. Any guild or individual need not inform them to occupy the area. region.

Less than an hour after the statement was made, the Group of Eight announced and renounced ownership of the region. It is also clear that people like Galga, Daniel, etc. The reason for Lu Yang's abandonment is also the reason for them. Better to give up.

After the two guilds announced their abandonment at the same time, many players in the New World gathered their eyes on the area. The first one to move was He Peng, who seized all the fortresses with the 800,000 people who had gathered again.

Lu Yang frowned and said, "Is this kid crazy? Run into this gap to survive?"

Tu Feng said: "What is his purpose is temporarily unclear, but it is certain that he called another person before his announcement, but his behavior was reprimanded by the other party."

Lu Yang sneered and said, "It looks like He Peng and the forces behind him can't help but dare to venture to occupy the area we give up at this time."

Tu Feng said with a smile: "The enemy's interior is chaotic."

Lu Yang said: "Then we will continue to watch He Peng's performance and continue to send spies to infiltrate. If He Peng contacts you, ask him to earn 30% of his monthly income as a condition for us not to beat him."

"Yes," Tu Feng said.

After occupying the fortress, you must have a good relationship with the surrounding guilds, and also use the advantages of the fortress to gather players.

The area advantage that Lu Yang gave up is very large. There is no one here, which means that no one is grabbing monsters. Once there is any activity, it will attract a large number of players.

Of course, the premise is that the ruler here is not Lu Yang or the seven strongest guilds. Otherwise, everyone knows that it is not safe to come here. Now that He Peng has occupied it, I have to say that he still has vision and can use this advantage in this The region makes a lot of money.

Lu Yang doesn't mind coming to make money, but he does mind the forces behind He Peng. If the person behind is to destroy the Iron Brotherhood, Lu Yang does not mind destroying him first.

"Alice, I really hope that He Peng's backstage is you, so that I can be happier when I clean up in the future." Lu Yang murmured and continued to walk forward.

Killing the Black Fire Queen, the road ahead has become much smoother, but it is more difficult to walk because the road up the mountain has become a huge zigzag road.

Panshan Road is 30 meters wide, and there is a huge gentle \*\*\*\* platform where each road goes about 100 meters forward.

Lu Yang killed the sporadic mobs and came to the first gentle \*\*\*\* platform. This is a huge platform with a diameter of 150 meters. There are countless black fire demon on the platform. He simply counted it, probably there is More than a thousand.

"So much! Just try my new skills." Lu Yang smiled, his right hand pointed forward.

"Hot Fire Dragon"

A fierce flame burst forth from the front section of Lu Yang's staff. Suddenly, the flame burst out wildly, turning into a 30-meter-wide dragon head, whistling and crashing into the black fire monster group in front.

"3812968" (critical strike)

"3719868" (critical strike)

...

All Black Fire Demon hit by the fire dragon have more than 3.7 million blood loss. Although this attack has no special attack characteristics and no additional bonus for damage except critical strikes, but in Luyang Gao Fa injury, law explosion and In the case of penetrating the spell, he still killed two thirds of the black fire's health.

This is enough, this is the most needed skill of Lu Yang!

He shook his fist vigorously, and read the spell in his mouth. Flame meteorites fell from the sky, blocking the 30-meter pavement. Every black fire demon who wanted to run over to kill him was killed by the meteorite.

In less than 10 minutes, there was only one black fire demon corpse on the platform in front of Lu Yang's eyes.

He stepped forward, and as he was about to step out of the platform, he suddenly noticed a silver book page in the middle of a group of black fire demon corpses, and he walked curiously.

Three-Way Flame Wave

Type: Fire spell

Cost: 5000 magic

Distance: 50 yards

Description: A flame wave is released in sequence in three directions in an instant, and each flame wave causes magic damage \* 1 to the target.

Lu Yang satisfactorily studied the skill book. He couldn't think of luck today, and the monster could also explode such a superb skill book.

The biggest feature of this skill is that the master can make all three flame waves attack the same direction, which is equivalent to three times the fire damage to the target. At the same time, the width of the flame wave is 15 yards, which is quite good.

Lu Yang clicked to learn skills and continued to move towards the next platform ...

Three days later, Lu Yang finally reached the mid-mountain position. From here, the monsters on the ground gradually turned into evil fire demon.

Quitola Fire Demon (Elite)

Level: 150

Qi and blood: 5000000/5000000

The characteristics of the evil fire demon are chaotic attack, and the physical defense is very high. It is easier for Lu Yang to kill such a monster. A simple fire dragon can kill one piece, and then a three-way fire dragon wave can kill another piece.

After three more days of fighting, he finally reached a peak near the summit.

System prompt: You have found the magic mist peak

On the Mist Peak, there was a heavy fog at this time, and Lu Yang could see nothing. For the sake of safety, he entered a nearby temple to hide.

“Summary of the Water Mage”

“Summon fire mage clone”

He summoned the two avatars just in case, but when the water avatar just came out, a voice echoed in the ears of the water mage.

“How does it feel drunk? Why do I feel so strong in your body?”

Lu Yang Yiyi Immediately after that, an uncontrollable smile appeared on his face, and consciousness replied in the body of water: “What is drunk to drink? There are only a few cups of confidant, and I only hate small measures. As for My drunkenness, my brother is fighting for me to the end, and I have nothing to give them, only to accompany them. “

“Haha, happy, really happy, I have seen everything you said in your consciousness, I can’t think of a hero who is like you in the wine on the journey, to my appetite. Not much nonsense, give you A skill, pick it up. “The voice laughed and went away, meanwhile, Lu Yang added a skill book.

Drunk Clouds

Type: Water Spell

Cost: 10,000 magic

Distance: 50 yards

Description: Spray umbrella-shaped wine mist in a certain direction. Every target that contacts the wine mist will reduce its movement speed by 30%, increase its attack offset chance by 70%, and reduce its damage by 50%.

#### Chapter 1425 - Mixed Spell-Firewine Storm

Lu Yang controlled the water and learned the “Drunk Cloud” skill, the light flashed, and an icon of alcohol mist appeared in his skill bar, with a red note below: lack of alcohol.

Lu Yang was really excited this time, and even jumped up, the skill of drunk clouds was really special.

His water mage clone can only have two turns at most, and he cannot perform three blood veins. Therefore, after the blood veins began to spread, the shortcomings of the blood veins became apparent. In the absence of attributes and high-level skills, the clones were at war with other blood professions Absolutely downwind. Once the clone is dead, the body will also die.

The official added a lot of special skills to them to balance their careers. This “Drunken Cloud” is one of them, but the reason why Lu Yang is so excited is that the “Drunken Cloud” skill has another special function, which is that it can As a supplementary skill of the new spell-mixed spell.

The first place in the fire-based mixed spell is the fire and wine storm. When the spirits meet the fire, the drunk cloud sprays out when Lu Yang releases the fire dragon, which can increase the horizontal and vertical range of the fire dragon spell by 1.5 times. The damage is doubled, and if the wine is good enough, it can be tripled.

Almost all fire avatars of the previous life will be equipped with a water avatar to learn drunk clouds to increase spell damage.

But in the last life, the drunk cloud fog skill was bought from the official. In this level of the game, there has not been any other blood line restraint on the clone blood line. Therefore, this skill is not universal. Lu Yang does not even know where to play it. It is also the reason why he has not used a clone recently. I never thought I would use it occasionally today, and there were such surprises.

However, the fire and wine storm is not only a drunk cloud with a powerful fire dragon, but also a wind spell-the blast of wind blessing, the attack range is increased by 2 times, and the power is superposed in a square manner to 9 times!

This is not a single spell, but a large-scale group spell with a length of 300 meters and a width of 90 meters. It is close to the attack range of the secondary forbidden spell-Meteor Fall, and its power is greater than that of Meteor Fall.

More importantly, he is a very cool-down spell that can be released every ten seconds.

There was just one of Lu Yang's avatars who did not choose any profession. He decided to let this avatar learn the wind spell.

Lu Yang looked around, found a safe place to build a sentry tower, and then retreated to the place 50 meters behind the sentry tower, read a spell and returned to the demon temple.

The reason for doing this is to be cautious. After fighting for so long, he has dropped out of the top ten in the ranking list. Now the player with the highest level has reached level 165, which still reveals his name. He chose to hide the level and name. Masters are countless.

Lu Yang didn't want to overturn the boat in the gutter. The player who came here to upgrade did not see it, it does not mean that he did not have it. The map was so large. If someone found him in the distance, he attacked him while he was transferring to another job. It's too shameful.

The light flashed, and Lu Yang's consciousness entered the fourth avatar, and he controlled this avatar to teleport to the Celestial City.

I found the official auction house, and it turned out that there was a transfer certificate for the second-turn wind mage, Fengmo.

At that time, this was a rare transfer certificate, and the value is not low now, but the blood of the third transfer has not yet developed the specialization blood. On the premise that it has little relationship with the second transfer certificate, this rare certificate is no longer valuable, and 1 gold coin can buy it.

Lu Yang scratched his head, and found that he had inadvertently found a way to make a small fortune.

He took out the phone and called Tu Feng, saying, "Sweep all the rare second-round certificates, how much you buy."

Tu Feng just got 200 million euros in his hands. He spent 50 million euros on spy funds without covering the heat. Now he has to spend money again. The big butler of Tu Feng said depressedly: "Can you leave five thousand? Ten thousand euros, I worry about not having enough money. "

Lu Yang smiled and said, "Don't worry, you will make a lot of money by the end of the month."

"Then I will sweep the goods," Tu Feng said.

Lu Yang knew that Tu Feng was too short of money. After the end of a war, Tu Feng was short of everything, but he has no better way now, because he does n't have much cash. Qi Yun is expanding his business there. With a large amount of money invested, only money can be made in the game at this stage.

Fortunately, the courtyards and plantations he purchased before have started to make money. In a few days, he can send 50 million credits, which is enough for Tu Feng for a while.

He turned off the intercom, and continued to look for wind-based spells in the auction house. The gust of wind was a special spell that he could not learn from the professional instructor, but could only explode, but this special skill was rare and not easy to buy.

He turned around for a while and couldn't find it, but he bought a lot of other wind spells.

Just as Lu Yang was thinking about where the windstorm curse fell, a dark shadow suddenly appeared in the vision of his sentry tower, and then flashed away.

Lu Yangmeng frowned. He believed that he was definitely not dazzled, and there was no strange approach. If it was to blame me, the sentry tower would be blasted, only human.

Someone jumped down from him!

Lu Yang quickly shifted his vision to the sentry tower, and the light flashed. As can be seen from the sentry tower, more than a dozen players jumped from above and appeared around the sentry tower.

A three-turned mage laughed and said, "There is a sentry tower. It looks like someone came here to blame."

A three-turn hunter frowned. "Can't let him go up, our secrets will be discovered."

The boss was a thief and said, "It looks like this sentry tower was just built, and everyone hid. We killed him. It makes sense to kill him and break the sentry tower, maybe this person is a master, well equipped." Anti-war said greedily.

A dozen people showed greedy expressions and hid in places where the sentry tower could not see, but what they did not know was that except for the thieves hiding near the sentry tower, the others hid in front of his hiding place, which made him bear. Could not help but smile.

"You're looking for death, this is not to blame me." Lu Yang murmured to himself, he stepped out of the auction house, found an official hotel not far away, and said, "Give me two spirits."

The humanoid waiter handed Luyang two altar spirits and took away two gold coins from Luyang. This is the strongest spirit liquor sold officially, but it is not enough to trigger 4 times the crit. That kind of wine needs to be brewed by itself, or Do the task.

I found the transfer certificate of Fengmo from the mailbox, and went to the Wind Elemental Temple for a second transfer.

The light flashed, and his wind mage became a wind demon profession, and then he returned to the demon temple by controlling the wind demon avatar.

The Gale spell is a special skill,

#### Chapter 1426 - Aeolian Heart of Spain

Lu Yang tried the speed at which the consciousness quickly entered the fire mage body and then the water mage's clone. The time difference between the two was only about 0.2 seconds.

Such a small amount of time was used for sneak attacks, and even the master couldn't react, and he said a spell in his mouth.

A reddish light flashed, Lu Yang's body fire mage instantly appeared in the original position, 1 meter in front of him, exactly sixteen players ambush his hidden position.

At this time, the sixteen people were observing the surroundings from the perspective of the thief boss hidden beside the sentry tower.

"The method introduced by the game is really good. We ambush the enemy through the boss's perspective, and each time I am ambushed successfully, haha." A shooter said excitedly.

Master Bing said anxiously, "Why isn't this person coming back?"

The boss of the thief said slowly: "Don't worry ~! If you want to kill someone, you need to be patient."

Everyone answered.

Lu Yang was standing behind them, and as soon as he came out, he would use flame storms and blazing birds to end them, but they didn't take any action, and they understood that they were sharing the perspective of the thieves.

This is good, but it also has disadvantages. Right now, the biggest disadvantage is that you can't see behind them. In addition, these dozens of people are so confident that they never thought that the tower he called was a disguise.

However, think about it. The only thing that can be transmitted through space in the game is Artifact Heart players. There are only a total of players in Spain who have Artifact Hearts. How can they encounter them in such a way?

Unfortunately, they did meet!

"Summon Water Body"

Lu Yang's mouth meditated silently, a light shone beside him, and Moisture appeared on his side. As soon as he landed, he immediately ordered the avatar to release the drunken clouds. At the same time, his consciousness returned to the body instantly.

"Drunk Clouds"

"Hot Fire Dragon"

Two magics were released at the same time. At the front end of Lu Yang's body fire mage, a group of flames quickly condensed, and the next moment, it turned into a crimson flame faucet with a width of 30 meters and roared forward.

At the same time, the adjacent water mage drunk a fierce blaze and slammed into the flame faucet. The original 30-meter wide area became 45 meters wide.

"Mixed Spells-Fire Dragon"

With a clear moan, the crimson fire dragon wiped out the 16 ambush players in front of Lu Yang in an instant, and within one second, he received 16 system prompts for his killing.

He nodded with satisfaction, and read the spell in his mouth. His water body returned to the special space to find the third clone. He only left the fire mage body, took out a bottle of stealth potion and drank it, and slowly walked out of the corner. To the area opposite 30 meters.

He knew that the thief player would definitely come, because among the players who had just been killed, someone had three storage bags in their hands, and at this time they all fell to the ground, and he had to \*\*\*\* them back.

If it's usual, he does n't need such trouble, but now his level is not dominant. The opponent is obviously all players above level 155. The three-turn thief is invisible. Without special treasures in hand, he ca n't find it at all. To the opponent's position, can only wait for the thief to hook himself.

No surprise, the thief player did get hooked. After seeing the news of 16 men killed in the team channel, he walked towards the corner in anger, but when he left, he did not break the stealth, but was careful. Move towards this side.

He knew that the other party was able to kill 16 people in one second. He must be a high-level mage. If he wanted to kill the mage, he had to sneak in first.

"Someone killed us, help us get revenge."

"Give it back quickly."

...

Sixteen people sent messages to the thieves as soon as they were resurrected.

The thief shook his dagger in stealth and typed, "Look at my revenge for you, he probably doesn't know that there is another me, just to ambush him."

“Be careful, that person should be fire, and the damage is very high,” said the mage.

The thief responded with a humorous word, and came to the corner with a light step. He leaned his head and looked inside the corner. He thought he could see people picking things up, but he didn't expect that there was nothing and things were still there. On the ground.

“Strange, are you killing you?” The thief asked.

“What's wrong?” The mage asked as he ran.

“Why didn't anyone pick up things? You weren't killed by the monster,” the thief asked.

The ice mage frowned and said, “It is impossible, it must be a person. This place has only black flames and green flames. There is absolutely no red flame. Only a fire mage can emit a flame of this color. It is definitely a fire mage. Is it the other party? I drank a stealth potion and hid near you. “

Thieves players suddenly wake up, the opponent must have found their existence when they first arrived.

“Blade Whirlwind”

The thief danced in place, and the small swordman flew around with his rotation. The entire corner was swept by the swordman, and even within 30 meters of the corner, it was pierced by the swordman. Unfortunately, no one was found.

“No one?” Said the thief.

“Isn't that man out of the corner?” The mage asked.

The thief frowned and said, “Impossible, how can there be such a fast speed and responsiveness.”

Mage and skill were also inexplicable.

“Watch your surroundings, don’t die, otherwise we won’t be able to make a difference,” said the priest.

“I know.” The thief looked around alertly.

At a distance of 33 meters outside the corner, Lu Yang looked at the thief sneer. This clumsy technique was a way he had seen in his last life. How could he find his hidden position? No longer invisible, then the thief can die.

“Flame Shock”

Lu Yang showed his figure, and watched the thief turn his head, his left hand pointed at the thief’s head, and a fire burst out from his head.

“5683940” (Critical Strike)

Thieves die!

A silver book page fell to the ground Lu Yang’s eyes brightened, he walked two steps to the thief and picked up the page.

The Wind Spell

Type: Wind Spell

Cost: 10,000 magic

Distance: 100 yards

Description: Release a gust of wind to the enemy, and the damage is spell attack / 5.

Lu Yang was really surprised this time. He was short of this skill, and he unexpectedly burst out on this group of people.

He summoned the wind mage avatar, learned this gust of wind, and then returned the wind avatar to a special space. The body walked to the storage bag, picked it up and looked at the contents.

What made Lu Yang very surprised was that the storage bag was full of Xenopus eyes, which caused him to frown. In his memory, Xenopus' eyes had only one role, which was to give the wind \*\*\*\* of Spain The heart is used to upgrade the level.

#### Chapter 1427 - Strength of Hybrid Spells

“Aren't the hearts of Fengshen appearing?” Lu Yang muttered to himself.

Most of the Spanish artifacts were originally in the hands of Alfonso, but after his defeat, 26 artifacts also disappeared with him.

At that time, when Lu Yang asked Alfonso's artifact where he was, Alfonso only said that he had sold it to a Spanish player. He did not know who it was. At the time, the situation was urgent and he had no time to ask about it. Grand Guild.

These days, he is thinking about the Spanish artifact, this thing is a big killer, and even a double-edged sword. Generally players can't hold him. Anyone who can hold it is an ambitious person who fights for the world.

Without enough guards, who would dare to go out and upgrade with the heart of an artifact, an artifact worth hundreds of millions, and it will be dropped if you die!

But what is enough guards? Tens of thousands are counted, and millions are counted. If the other party has gathered hundreds of thousands of people in private, when a certain Lu Yang is beaten and cannot take care of Spain, he takes out these twenty or more artifacts. When he shook his arm, he was a Spanish player and possessed a Spanish artifact. Lu Yang's management on this side would be out of control.

Lu Yang frowned and put the two storage bags on his waist. He now regrets that he killed this group of people so soon. If their group of people don't come to find themselves, then the clue to find the heart of Fengshen is broken.

However, the Xenopus eyes are very difficult to obtain. The so-called eyes are not real eyes, but the gems that naturally grow on the forehead of Xenopus. This kind of thing is not available in every Xenopus, probably There is a 1% chance that the other party collected 2 storage bags and a thousand sets of eyes. It took at least half a month and should come again.

Lu Yang thought for a while, and sent a message to Han Fei, saying, "Fly to me and protect me for a while."

Han Fei had the spirit of killing the gods. Even if the group came up, he and the other party didn't talk to each other. The other party wanted to kill him. Han Fei could just kill them all at random.

"Yes." A flash of light flashed, Han Fei flew to his side through the sentry tower, and asked, "Who to kill?"

Lu Yang said with a smile: "You are hiding by my side, pay attention to the situation behind, if there are enemies coming up, I have something to ask them."

Han Fei nodded clearly, he was invisible in time and space.

Lu Yang started the team and added Han Fei to the team. He turned to look at the strange group on the platform not far away, with an excited expression on his face.

“Summon Water Body”

A blue light flashed, and Water Master appeared on the left side of Lu Yang.

“Summon Wind Avatar”

A green light flashed, and Master Feng appeared on the right side of Lu Yang.

“Brother, you have summoned the two avatars, how fragile they are.” Han Fei asked curiously.

For a long time, the clone blood has been abused in the arena. At first, everyone who studied Lu Yang chose the clone blood and thought that he had a fast response. Now he is looking at the scores of other blood vein professional arenas. Higher and higher, they couldn't fight.

All of their avatars add up more than the output of the other, but they spend more than three times the mental power of a single profession. In the arena, even a small accident may result in a total loss.

Han Fei, a thief of time and space, can find the gap between the blood of the same level of the mage clone, in private, not only Han Fei, even Han Yu and Han Yu, these little guys, but also white lions and bitter love half of them They were chatting secretly, thinking that Lu Yang couldn't beat them.

Lu Yang glanced back at Han Fei and said, “Today, let you see what is violent output.”

“How violent can it be.” Han Fei's eyes squinted.

Lu Yang said, “I'm optimistic.”

He quickly coordinated his consciousness through the three bodies and chanted the spells at the same time. In the next second, the fire body, the water body, and the wind clone simultaneously pointed his right hand staff forward.

“Hot Fire Dragon”

“Gust of Wind”

“Drunk Clouds”

Fire, water, and wind spells were ejected from the front of the three staffs at the same time. When they gathered together, fierce flames burst into extremely violent power, forming a huge fireball.

System prompt: Blended spell-Fire and Wine Storm released successfully.

A roar emerged from the fireballs formed by the tips of the three staffs. Only for a moment, the fire dragon that had been sprayed out was only 30 meters wide but suddenly became 90 meters wide, and the dragon head rammed forward.

From the perspective of Han Fei, he only saw a crimson dragon head. In the next second, the entire mountain road was covered with flames horizontally. When the flames ended, on the 450-meter-long road, the original dense and strange, Killed by flames, no one living thing is gone.

System Prompt: You Killed Gidola

You gained 370 million experience

...

Countless prompts brought Han Fei back to the 160-level experience slot to improve a small piece, he reacted, looked at Lu Yang in shock, and said, “What kind of skill is this? Strong?”

Lu Yang was also very satisfied with the blow. After glancing at the corpse in front of the ground, he turned to Han Fei and said, “This is called a hybrid spell.”

“Mixed spells?” Han Fei asked in surprise: “Does it mean that several people can jointly release skills to produce a superimposed effect?”

Lu Yang nodded and said: “Positive solution, drunk clouds and strong spirits, combined with the gale effect produced by the strong wind spell, plus the fire dragon skills, the three are stacked in multiples to produce such a mixed spell.”

Han Fei said: “You can still play like this, how much damage this can do. I just looked at least seven or eight times.”

Lu Yang said: “9 times the spell damage.”

Han Fei was speechless and said, “It’s too strong. The attack range is over 400 meters, the horizontal range is 90 meters, or 9 times the critical strike The battlefield is invincible.”

Lu Yang said: “The next time there is another war, it will definitely not be as embarrassed as this time. Go, I will take you to upgrade.”

Han Fei’s eyes brightened and he said, “The upgrade speed is very fast.”

Lu Yang’s skill has a cool-down time of only 10 seconds. Each time he sprays the skill, he has to run a distance of 450 meters. When he reaches a place, the cool-down time is over.

Lu Yang also said, “Yes, pick up the evil flint that fell from the ground, this thing is useful.”

“Oh.” Han Feidianran ran to pick up equipment.

Lu Yang went to the other side, and the two picked it up quickly. It took more than 1 minute for the two to finish picking up. It just happened to be in the next strange area.

“Mixed Spells-Fire and Wine Storm”

A clear howling sounded, and a 90-meter-wide faucet whistled out. There was a sea of fire in the 450-meter area in front. When the flame was over, only corpses were left.

Chapter 1428 - Talk about conditions

Lu Yang's current level is 164, and his experience is 50%. There is still more than 15 billion experience points for the upgrade.

There are about a thousand monsters in this wave, killing a wave of two people has about 200,000 points of experience, and probably need to kill more than 70,000 monsters to upgrade.

This data seems to be a lot, but in fact it is already the fastest. For other professions, there is no such thing as the magic heart that can greatly ignore the target magic resistance. If it is played normally, it will not kill 100.

Because the monster also has skills, Lu Yang can kill so quickly, but because his output is too high, the monster is seconds once, otherwise, the various skills and ultra-high defense of the Quidora Fire Demon are enough to torture Normal players upgrade away from this area.

“Mixed Spells-Fire and Wine Storm”

...

Lu Yang released his skills all the way up, and in a certain area on the top of the mountain, after a ray of light, the thieves and sixteen players were hiding their bodies in the grass near the road and looking down.

“Damn, who is this and why is the fire spell so powerful.” Alvaro, the tri-turn ice mage, frowned.

Three-turn shooter Lopez asked: “Will Lu Yang come? This magic injury must be achieved by someone with a high-end demon heart.”

The thief boss Miguel shook his head in thought and said, “It should not be, if Lu Yang has such a wide range of fire skills, he will never be beaten so badly when he plays against the Huaxia Alliance.”

Warlock player Edward sneered and nodded and said: “If it is Lu Yang, it is not impossible to bring a group of people to follow him to upgrade, is it normal for the president of a grand guild?

They really guessed wrong, Lu Yang never did it!

Hoan, a three-turn fire mage, asked curiously, “Who is this person then? Dare to upgrade alone with the spirit of the devil, or are you afraid that we will avenge him after killing us?”

Eduardo showed a black light in his hand, and said coldly: “How about we go to ambush him? This person has been looking at the bottom and must think that we are coming from below. If we attack from above, we still have so many people, we can certainly Kill him.”

“The heart of the demon god, worth hundreds of millions of treasures, is worth the risk.” Priest Manura of the Three Turns licked his lips.

The shooters Lopez and Alvaro were so excited that they looked at Miguel and asked, “Why?”

Miguel still frowned, and said, “It’s best not to act. This person dared to appear alone, there must be some reliance. We better figure it out first.”

Manura said unhappily, “Why are you always so timid?”

Miguel glanced at Manura and said, “I’m curious, too, how can you be so clever as a priest or a woman?”

“You ...” Manura was in a hurry.

The crowd laughed. Manula had a beautiful figure. The male players in the group liked her and listened to her. Only Miguel did not eat her set, and every time he made a decision, it was Miguel. What is right is missing, Manura is wrong.

Over time, everyone listened to Miguel, and Manuela had to take it, but there was a sigh of relief in his heart, and he wanted to compete with Miguel in everything.

“Then what do you say now? Without Dreadwing’s eyes, our half-month’s efforts will be in vain.” Manura said angrily.

Lopez, Alvaro and others all showed resentment. The eyes of those dreaded ravens allowed them to fight for more than half a month. Counting the time here, it took them about a month.

“It’s so robbing, absolutely not.” Lopez cursed.

Everyone nodded.

Manura glanced proudly at Miguel and said, “Look, everyone has that idea.”

Miguel gritted his teeth and said, “Then try again. Let’s wait for him to come up. We sneak attack from above to get a kill. He may have a soul stone and be ready for a second kill at any time.”

...

When this pedestrian designed how to ambush Lu Yang, Lu Yang was looking for them, but he looked down many times, but he couldn’t find the target, which made Lu Yang feel something wrong.

“The necropolis is only half an hour away. It’s been an hour since I killed the monsters, and they should be here, too.” Lu Yang muttered to himself.

Han Fei folded his hands behind his head and walked next to Lu Yang. "Maybe they are scared."

"Do you think it's possible?" Lu Yang didn't bother to watch Han Fei.

"Uh, it's really impossible." Han Fei stretched a waist, just as a gleam of cold light flashed through the bushes above.

"Hey ~!" Han Fei smiled and said, "Brother, I found them. Above, I saw the blade of the warrior's two-handed sword. Is it the 160-level windbreaker blade?"

Lu Yang did not look up, and still walked up the ramp. He typed and asked, "Yes, it looks like this group of people is not ordinary. They can run up to us to ambush. You stand farther away from me, and report them at any time. position."

Han Fei responded with a humorous word, took out two daggers from his waist, and hid on the side 21 meters away from Lu Yang.

"Mixed Spells-Fire and Wine Storm"

Lu Yang came to the next uphill, and sprayed magic to kill the monsters. He walked up three platforms in a row in this way and came under the \*\*\*\* of the last hillside.

"It's the top of the mountain from here. If they were, they would hide behind the \*\*\*\* line." Han Fei said.

Lu Yang agreed with Han Fei very much. He left a naruto in place, and a white light emanating from his body disappeared in place. The next second, he appeared 50 meters behind the top line of the slope.

He glanced forward, and just saw sixteen players standing 10 meters behind the top line of the slope, posing in an attacking posture, waiting for him to go up.

"Summon Water Body"

“Summon Wind Avatar”

Two rays of light flashed on both sides of Lu Yang, the wind avatar and the water body appeared at the same time the next second, the three chanted a spell at the same time.

“Mixed Spells-Fire and Wine Storm”

After a clear whistle, the fire dragon roared forward, and all sixteen people were killed in seconds, watching the distant thief boss Miguel speechless.

“Damn, how did he find us?” Miguel scolded, at this time he didn’t dare to ask Lu Yang for trouble, hiding in the shape and daring to act.

Because he was in the grass near the cliff, as long as he moved, the grass would follow, and he would be found.

Lu Yang looked around and could not find the location of the thief. He shouted, “Come out, I know you are not dead, let’s talk.”

Miguel was surprised, he didn’t speak, and stayed in place.

Lu Yang looked to the grass and said, “I already know your general direction. I can give directions to those 16 people, and I can only hide in the position I look at. Come out. I have no intention to be against you and talk about the conditions. If I am satisfied, I can give you back the eyes of Dread Crow. “

Chapter 1429 - Dark market emerges

Miguel was a little emotional and full of helplessness. The weird camouflage player has always been in his hands since they met. This person seems to be able to predict everything and see every action of them.

“Do you really want to talk to us about the conditions?” Miguel asked loudly.

Lu Yang’s eyes were just staring at Miguel’s vocal position. He guessed right, Miguel was in the grass where he was looking.

He smiled and said, “Originally there was no injustice between us. Although both of you ambushed me, they were both killed by me and robbed you. The winner is me, why did I kill? How about you? “

Miguel was persuaded and said dejectedly: “Okay, I’m coming out, let’s talk about the conditions, I believe you must have purpose here, and we have been here for more than half a month, and we should be able to help Your place.”

In the grass, Yinguang faded, revealing Miguel’s strong body. He stepped in front of Lu Yang and said, “I’m Miguel, the captain of the Eagle Eagle team. There is no guild and no studio.”

Lu Yang nodded and said, “I won’t tell you my name. I’m also a Spanish. I hope you can tell me why you want to strike Dreadwing Crow’s eyes.”

Miguel said, “Some people have recently purchased this thing in the dark market in large quantities. We happened to know that there is a Dreadwing Raven here, so we came here.”

Lu Yang frowned, and asked, “Dark market? What’s that?”

Miguel grinned and said, “This friend is obviously a senior of a certain studio or a guild. We shouldn’t say things about the dark city, but now things are in your hands, we must say , But we said, can you give us back the eyes of Direcrow? “

Lu Yang took two storage bags from his waist and put them in his hand, and said, “It depends on what you say is not worth the price of these things. The eyes of Dreadwing Crow are quite expensive.”

Miguel stared at the two storage bags, and couldn’t help saying, “The dark market is actually a newly established organization secretly established in the market. He is not in agreement with the official

auction house and any guild with a fortress. The auction house has intersections. He only deals with small guilds and our team.

In that market, someone will release a message to acquire something, and we will undertake the task of going out to find. At the same time, we can also sell expensive things on the dark market, where the purchase price will be higher than any auction on the bright side. 5% of the row price. “

Lu Yang was surprised. He knew about the dark market in the last life, but it gradually formed after the players generally reached level 190. In this life, he has changed so much that he did not expect it to take shape now.

He asked, “Who is in charge of the dark city?”

Miguel shook his head and said, “No one knows this. The dark market is not showing up. We know that the dark market also has a small guild president who owes me affection and pulls me in. The way the president joins is Upon receiving a letter from a stranger, he was handed over to a mighty thief. “

Lu Yang frowned. No one in the last life knew who the boss was behind the dark market, but many people suspected that the dark market was related to many incidents that subverted the control of a regional guild. Many people even said that these events were the bosses of the dark market Yes, those guilds are just his thugs.

The most troublesome is an organization such as the Dark City. Once established, it will make people rush. It is almost impossible to check their details. There is no danger of life and death in the game. Even if you find a high-level dark city, If Fa asks anything, and the dark market is ruined, someone will create a new dark market.

Lu Yang fell into thinking for a while, which made Miguel, who was standing anxiously waiting for him, retreat. He could n’t help but ask: “Have you considered it, can I exchange this news back into your fear? Are winged eyes? “

Lu Yang woke up and looked at Miguel in front of him and said, “I can give you something, but I have a request.”

Miguel hurriedly said, "You say."

Lu Yang said, "First, ask your Master of Time and Space who is hiding in a certain location to come out. I don't want him to recruit those people to attack me again."

Miguel was frightened, and stepped back, his eyes panicked and said, "How do you know that we and a space-time mage?"

Lu Yang smiled and said, "If I'm not mistaken, it's a very rare plane deal, right?"

Miguel was dumbfounded. This was their biggest secret. He couldn't think of being broken by the other person. He looked helplessly and looked at the rock in the distance. "Sister, come out, this person is too strong, we are thorough Lost. "

Behind the rock came a beautiful little girl like a porcelain doll. She looked at Lu Yang angrily and said, "Bad guy."

Lu Yang: "..."

"Little sister, it's your brother and sister who attacked me first, I'm the victim." Lu Yang said with a smile. She couldn't bear to hurt her when she encountered such a cute girl.

"Then you're a bad guy, too." The little girl rushed behind Miguel, showing only half her head.

Miguel said awkwardly: "This is my sister, sorry."

Lu Yang smiled and said, "The second condition is that you want to take me to the dark market."

"This." Miguel had already guessed that Lu Yang would have this request, and said with a sigh, "Well, there will be a dark market transaction in the slums of Tianyuan City at 6 pm tomorrow. I will apply for one in advance. Admission ticket, but I hope you do n't do anything else. "

Lu Yang Xindao said this group of people is really cautious. He even made a transaction in a place that has been abandoned by most players. He put the storage bag back to his waist and said, "Then we will tomorrow. Give the voucher in one hand and the storage bag in the other."

Miguel looked at the storage bag reluctantly, gritted his teeth and said, "Well, then how can I give you tomorrow, add friends?"

Lu Yang said: "Half an hour before the market opens tomorrow, you will wait for me in the 808 private room of the sixth restaurant on the Third Avenue of Tianyuan Shencheng, and we will trade there."

"Okay." Miguel dropped his head back to the city scroll in despair, and flew away with his sister.

Han Fei showed his shape and said, "No one has been checked within 200 meters."

Lu Yang said, "Let's go."

Quitola volcano's peak area is very large. He is not a mountain, but a peak group formed by dozens of mountains connected together. He is now only the first peak group at the starting position. The location where the crow falls will go further.

Chapter 1430 - Quidora Fire Dragon (Lord)

Han Fei asked curiously: "Brother, do you seem to care about this dark market, is it special?"

Lu Yang nodded and said: "It is very special. If this organization can be controlled by us, it will be very helpful for attacking other guilds."

The future of the dark market is an extremely huge market. The person who can make the dark market now must be an organization with an extremely broad intelligence network and money. This is why he has to go and see for himself. It is best to cooperate with this organization, or to master this organization. If not, he must find a way to deal with this organization, which is very troublesome.

While taking Han Fei away, he made a phone call to Tu Feng explaining the situation here, saying, "Send some elite spies out and find a way to break into these organizations."

Tu Feng said, "I try to see. I have an urgent matter here and I need you to decide."

"What's the matter?" Lu Yang asked.

Tu Feng said: "It's about the broken coalition. After the defeat of more than a hundred guilds, the president disappeared, and most of the players in the guild quit the guild. There must be anger in these people's hearts. It seems nothing now, But in the future it is possible to join the guild against us again. "

Lu Yang nodded, sighed, and said, "This is a big deal. If you don't handle it well, Alice will use them to make a fuss. In this way, you find a group of players with faces and let them create a guild. , Everyone must gather 200,000 people. "

Tu Feng said: "This method is good, I will do it."

There will not be as many betrayed guilds in the future as it did last time, and the Iron Brotherhood will be much easier to deal with.

Lu Yang closed the intercom, and finally he came to the gathering area of the Dreadwing Crow.

System prompt: You have found Dreadwing Crow's Nest

Right in front of the road is a flat, dark green rocky ground, and about tens of thousands of Dreadwing Crows are resting in the nest.

Dreadwing Raven (Elite)

Level: 150

Qi and blood: 13000000/13000000

“So many blame, all experience.” Han Fei said excitedly.

Lu Yang said with a smile: “Retreat, look at me.”

“Good grin.” Han Fei jumped to Lu Yang’s position 3 meters away.

“Summon Water Body”

The blue light flashed, and water appeared on Lu Yang’s left.

“Summon Wind Avatar”

The green light flashed, and the wind appeared on the right side of Lu Yang.

Lu Yang read the spell in his mouth.

“Hot Fire Dragon”

Consciousness shifts into the hydrated body and quickly releases the spell.

“Drunk Clouds”

Consciousness turns into Feng Fen’s body and releases the spell.

“Gust of Wind”

The three skills are sprayed towards the body 1 meter at the same time, when the three skills cross together.

“Mixed Spells-Fire and Wine Storm”

A dragon yelled through the top of the mountain, and the 90-meter-wide dragon head blasted forward. In a moment, thousands of terrifying winged crows were killed in a 450-meter-long area ahead.

System prompt: You killed the Dreadwing Raven, you get 200,000 experience

...

After a hint of experience, Lu Yang gained more than 200 million experience points, and the time he spent was just an instant.

On the current ranking list, Lu Yang’s ranking is 87th, and the first ranking is 167. Lu Yang feels that he upgrades at this speed and will soon catch up. At the global competition, he Can surprise everyone.

After waiting for more than ten seconds, the skills of the main body and the two avatars were all cooled down, and he came to the other side, reading the spell in his mouth.

“Mixed Spells-Fire and Wine Storm”

Another fire dragon spit out, killing a monster again, which gave Lu Yang more than 200 million experience points.

When Lu Yang upgraded here, on the other side, countless players were also rushing, especially Steige of the Cavalry Regiment.

“We have mastered the way of playing in the arena. We will continue to fight for the level after the contest and regain our territory.” Steiger shouted.

A 168-level map outside the Astu Fortress, Spanish player Igor is also desperately upgrading. He is now the number one player on the ranking list. He is also a fireman, and he has a demon \*\*\*\* on his body. heart.

“Angry Skills-Devil Slash”

Igor’s staff struck forward, knocking out a lord monster, and then, like Lu Yang, a series of successive moves to quickly kill the blood lord monster.

“Good job, if this set of tricks is used on Lu Yang, he will be dropped by you,” said a strong man around him.

Igor clenched his fist vigorously and said, “I must defeat Lu Yang this time.”

A certain thief player in Argentina. In the arena, a set of three-turn spatio-temporal assassination dropped a player who ranked in the tenth place in the rankings in seconds, and said with satisfaction: “Lu Yang, I don’t believe you can win It’s my combo. “

...

Countless people are thinking of challenging Lu Yang, and at this time Lu Yang is taking Han Fei to pick up pet eggs on the ground.

“Brother, Dreadwing Crow is so rubbish. What do you want his pet eggs to do? It’s not as easy to use as the demons on the road.” Han Fei picked up the pet eggs one by one into the storage bag.

Lu Yang glanced at him with a smile, and said, “Pay attention to the surroundings, and don’t be attacked by surprise.”

Han Fei rolled his eyes. He is still being trained by Han Zhong every day. Even in the game, he is very sensitive to the surroundings. Even if the other party is invisible in time and space, he will be found within five meters of him.

He knew that Lu Yang didn't want to say, and didn't bother to ask, and continued to pick it up.

Lu Yang's two fire and wine storms killed more than 2,000 Dreadwing Crows, and there were more than 200 pet eggs that burst, almost one out of every ten.

On the surface, it's not surprising that Han Fei looked down on Dreadwing Crow. He just killed a few orders and didn't feel anything special about Dreadwing Crow.

Lu Yang didn't say it in a hurry, but continued to take Han Fei to kill Dreadwing Crows, and has been killing all Dreadwing Crows in this area. The two people's storage bags were filled with more than 3,000 pets. There are more than six thousand eggs together.

"Follow me Lu Yang pointed to the volcanic crater in the distance, and in the crater with a diameter of 50 meters, tumbled with dark green evil fire magma, and in the middle of the magma, there is A three-headed dragon lord fell on it.

Quidora Fire Dragon (Lord)

Level: 160

Qi and blood: 100000000000/100000000000

Lu Yang sent a message to Mu Yu and said, "Take a trip to me with the artifact group."

"Oh." Mu Yu said.

After a while, a light flashed on the sentry tower in the distance, Mu Yu brought a small fireball and several artifact players to Lu Yang's side.

"Brother, what is it?" Mu Yumeng asked.

Lu Yang pointed at the lord of the evil fire dragon below and said, "Kill him with me."

"Observe." Mu Yu said.

#### Chapter 1431 - Mutant Dreadwing Raven

Ordinary lords, where they can resist the simultaneous attacks of more than 40 artifact players under Lu Yang. In the case where everyone has a similar heart flame, the lords only persisted for less than 10 minutes and fell to the ground.

"It turned out that only a few gold-level equipment were exploded, and the lord really pull it out." Mu Yumeng said.

Lu Yang laughed and rubbed her little head, saying, "His main role is not to drop things, but his blood."

"Blood?" Mu Yu asked curiously.

Lu Yang motioned to Mu Yu and everyone to look at the death of the Quidorah Fire Dragon. The other monsters died instantly. Only the Quidor Fire Demon slowly fell to the ground while howling and there was a lot of blood in the body into the dark green volcanic magma below.

In the previous life, after the players had spent the wasteland here, they also expressed indignantly that the items dropped by the Quidor Fire Dragon were inconsistent with the difficulty of coming along this way.

For non-artifact players, it is extremely difficult to kill monsters. There is only one lord on the top of the mountain, but the only thing that bursts out is only gold equipment. No one is happy.

Although the winged crow eggs are easy to explode, the winged crow eggs are garbage. Without good attack skills, no one can pick up the winged crow eggs.

Many grand guilds have given up here after playing the evil fire dragon. Only players from small guilds or talents who have nowhere to go will come here to upgrade.

But it is these people who have made a fortune because of the problem of combining the blood after the death of the Quidorah Dragon and the dark green magma below.

At that time, an unknown player was holding a young bird hatched from a Dreadwing Raven egg and sitting in a crater and a friend in a friend complained that the newly killed evil fire dragon had dropped equipment garbage and was used by an unscrupulous teammate. The refractory ring collapsed into the crater.

It doesn't matter if this player goes down, his fledgling also follows him. When he scolds his teammates and climbs up, he finds that his fledgling is missing, and then looks back into the magma, fledgling The bare body turned out to have dark green feathers.

He hurriedly carried the fledgling back, but took it back for a look, but found that the fledgling had an additional skill called Dreadwing Mans, which had a 20x critical strike effect.

They were overjoyed, and quickly put in the remaining chicks, but only two of the more than 20 chicks survived, turning into mutant mutant winged crows with the skills of winged awns, and the rest died.

At first, the players didn't know what the reason was. They only thought that this magma was like this. Later, they learned that the magma is not only a 10% advanced chance, but a lack of evil flint. With this thing, the evolution probability is almost 100%.

"Han Fei, like me, threw all the evil flint into the crater." Lu Yang said.

"Oh." Han Fei tied six sacks of evil flints around his waist. After dissolving them one by one, he threw them into the crater like Lu Yang. Suddenly, dark green magma reacted with dragon blood and evil flints. The entire crater emits a shimmering green light, and the magma becomes as beautiful as the lake.

"What a beauty."

“Such a reaction.”

...

Artifact players such as Mu Yu and Han Yu looked at the lake in surprise.

Lu Yang took off his pet egg storage bag and said, “Everyone hatches the pet eggs and throws the chicks into the lava.”

The crowd nodded again and again, and according to Lu Yang’s request, the pet eggs hatched a fledgling, and they were thrown into the magma.

The fledglings entered the lava lake and hatched in less than 10 seconds, turning into an advanced fledgling with dark green feathers all over the body.

Dreadwing Raven (Hatchling)

Level: 0

Physical qualification: 2800

Mana Qualification: 900

Attack Qualifications: 4500

Quality: Excellent

Character: Testy

skill:

Terror Wings: Deals 20 times physical damage to a single target, and has a 20 second cooldown.

Lu Yang satisfactorily sent the pictures of the fledgling to Tu Feng, saying: "Put this thing in the guild warehouse, the price is 20,000 guild points, 25,000 points with excellent quality or above, and perfect 50,000 points."

Tu Feng was busy scoring the things in the guild warehouse, saying, "It's great, it can be alleviated, this thing must be very popular."

Lu Yang asked: "I saw a lot of people on the guild channel reacted very violently, do you understand?"

Tu Feng said: "I was about to tell you about this, and someone spread a rumor on the guild channel saying that we lied to the guild players for nothing, and the guild points could not be used."

At this stage, guild points can only be exchanged for potions, scrolls, potions, and enchantments, and they are available daily in limited quantities.

"It's normal for brothers to have complaints," Lu Yang said.

Tu Feng said, "It's not normal. I found that many people were sent in by other guilds to make trouble. One of them was being tracked down, but this person is a bit special. It seems to involve a new organization called Dark City. I was thinking Ways to penetrate. "

Lu Yang said, "Did you find the dark market?"

Tu Feng was surprised and asked: "I feel that there is something wrong with this dark market. If they open up a bigger market than us, I want to send someone in to see what is going on. The boss, you can find them."

Lu Yang said: "You can send someone first, try to hide your identity, and try to find the high-level of their dark market."

“Yes,” Tu Feng said.

Lu Yang shut down the intercom, but not long afterwards, Tu Feng sent Moron to bring some logistics players to the top of the volcano, collected the mutant Dreadwing Raven fledglings, and put them in the guild warehouse.

[Guild Channel] Tu Feng: The new product is here. It is dedicated to killing sub-barrels and top-level summoning beasts. It can be carried at level 150, killing enemy weapons, and don't regret missing it.

Many people in the guild were arguing about the issue that the guild points could not be exchanged. After seeing Tu Feng making a speech, he quickly opened the guild warehouse and saw the picture of the mutant horror at a glance.

“I go, 20 times physical crit, or long-range attack, only 25,000 points, I bought.” Someone shouted.

But he just started buying, but he reminded that he had been bought.

“Fuck, who's so fast.”

“I didn't buy it either.”

“Baby, Boss Tu Feng, is there any, wait online I haven't seen any summoning beasts.”

...

Some players saw a lot of players in the guild channel making noises, but opened the warehouse with curiosity, but there was nothing.

In order to let everyone know the benefits of this summoned beast, Tu Feng “attentively” sent the attribute map of the mutant direwing crow chick to the guild warehouse.

“Halo, and this baby.”

“I’m a tyrant. I’m not afraid of being killed. Come and kill me.”

“Kill, there’s nowhere else to go.”

“Boss conscience, so cheap, this summons the beast to put out at least a thousand dollars.”

...

The remarks in the guild channel instantly changed from negative to extremely positive, all full of positive energy.

Chapter 1432 - Enter the dark market

Tu Feng was very satisfied, just as happy as he drank iced Coke in the summer, Le said hummily,  
“Finally I’ve calmed down my anger and exhausted me.”

Xia Yuwei sent a message in the group: “Tu Feng, I order a thousand.”

Mud wine: “One thousand.”

Love half a life: “One thousand.”

...

The six major vice presidents all sent news. Tu Feng’s face collapsed immediately, and he replied bitterly, “Find the boss, I can’t be the master, please let it go.”

Lu Yang couldn't help laughing, and said, "Some of you don't make a mess, restrain your elites, and don't allow them to buy Dreadwing Crows."

"Oh, get out."

"I'm off too."

Xia Yuwei looked at the words of the five people in front of her, and bit her lip silently, typing with a smile and typing: "Same roll."

Lu Yang couldn't help laughing, and he felt very happy. His guild is different from others' guilds. The more the guilds of other people develop, the more fierce they are. It was the guild he longed for.

"Hello ~!"

The black fire devil at the foot of the mountain gradually brushed out.

Lu Yang said, "Everyone go with me, let's brush it again."

"Yes." Everyone excitedly came to the foot of the mountain with Lu Yang.

For two full days, Lu Yang was here with Mu Yu and they brushed Dreadwing Crows. By the time he left the next night, he had brushed out 300,000 mutant Dreadwing Crow chicks. At this speed, he could n't use them. For one and a half months, all guild players can get a Dreadwing Raven.

The next afternoon.

Tu Feng and Lu Yang said excitedly: "The brothers in the guild are all looking forward to refreshing, and they have no mood to redeem points, and they have been upgraded with the fear. The trouble with points is finally resolved. "

At this time, Lu Yang was sitting in the restaurant bag room agreed by Tianyuan God City and Miguel and others. He smiled and said, "I still can't take care and supplement the basic supplies as much as possible."

Tu Feng nodded.

"Dangdang Dang"

The knock on the door sounded, Lu Yang closed the intercom, using a camouflage coat to change into another look, and said, "Come in."

Miguel and his team walked in hurriedly. After seeing Lu Yang, Miguel came to Lu Yang and took out a voucher from his bag, saying, "With this, you can enter the dark market."

Lu Yang looked at the voucher and asked, "How do I know if it is true or false? With this thing, I will go with you, enter it, and I will return it to you immediately."

"This ..." Miguel was depressed for a moment, and said, "Well, I hope you don't break your word."

The three-turned mage and the shooter were also uncomfortable, but did not dare to offend Lu Yang in the slightest, for fear of Lu Yang's remorse.

A group of people awkwardly sat in the room and waited for half an hour. Miguel looked at the time and said to Lu Yang, "We should pass."

Lu Yang didn't feel embarrassed. He also called Hucha, stood up leisurely and said, "Let's go, take your way."

Miguel sighed, led Lu Yang out of the hotel, and walked towards the Yanwu Stadium in Tianyuan City.

In the room directly opposite Yanwuchang, there was a huge teleportation array. Miguel said, "Stand here with the voucher and you can enter the dark market. Now you can give us something."

Lu Yang only now believes Miguel's words. The dark market of the previous life is also transmitted in this way. As for where the teleportation is, no one knows, but there must be a large number of plane transactions to create this teleportation array. It can be made with a perfect transmission array and a large amount of extremely expensive materials.

"You go first." Lu Yang handed the two storage bags to Miguel, and took the delivery voucher in his hand.

Miguel took the bag and inspected it quickly. He was relieved after confirming that it was correct. He looked at Lu Yang and relaxed a lot, saying, "Thank you, we went in."

More than a dozen people each took out their teleportation vouchers and stood on top of the matrix map to teleport away.

"Return to the Demon Temple"

Lu Yang looked around without anyone, read the spell in his mouth, and returned to the demon temple. He put the heart of the demon on the table in front of the hall, and then returned to the room.

After entering the teleportation array, he didn't know whether the place to be teleported was dangerous. For the sake of safety, he still took off the demon heart.

He stood on the teleportation array with the voucher flashing, and when he opened his eyes again, he appeared in a huge basement.

The system prompts: Your location is a safe area, and it is forbidden to attack each other!

Lu Yang looked at the sight with surprise. The overall model of the basement is a European palace style. On the cyan walls, there is an oil lamp every 5 meters. The top of the palace is more than 10 meters high, and the top is every 20 meters. There is a huge oil lamp on the meter, and the two are superimposed to brighten the surroundings.

The underground palace is very large, it is completely a promenade that cannot be seen at a glance. The left and right sides are 30 meters wide. Seeing this, Lu Yang reacts, and he knows where he is.

He had to admire the founder of the Dark City, who was too jerk, and was teleported to the underground passage of King Castle, a main city in Spain on the old continent.

In the last generation, the official introduced the secrets in the game. When Lu Yang was bored, when he read the novel and read the relevant information carefully, he could recognize this place and change it for others, it was difficult to remember what it was.

This underground palace is characterized by a crossroads, which means that there are four promenades, and he is only one of them.

At this time, there are countless stalls on both sides of the corridor to do business next to each other, and countless players are checking one by one, or buying news, or buying rare items.

"I actually chose Spain to do business under my eyelids. It really looks like there is an attempt in my area Lu Yang thought with gritted teeth.

Everyone will be unhappy to change it. Spain was the one he just came down from, and the fortress commercial street on the bright side couldn't go, but he was doing business in the basement of the old continent. If he was not allowed to make money, let another organization make money. He Intolerable.

"Friend." Miguel sounded.

Lu Yang looked up and Miguel was standing in front of him. He frowned and asked, "Why are you back?"

Miguel said in distress: "They went to do business. I came back to tell you a few things. After all, you were recruited by us. In the event of something, we can't come."

Lu Yang asked, "What are the precautions?"

Miguel said: "Don't cause trouble here, if you have anything you want to buy, you must discuss it."

Lu Yang smiled and said, "Relax, I'm just curious here, there is no other meaning."

Miguel said, "Hope."

#### Chapter 1433 - Dark City Master

Lu Yang saw that Miguel had nothing else to say, so he ignored him and walked towards the first shop on the left.

"Come on, look, the 150-level excellent gold jewelry that just came out is absolutely unavailable outside." The boss wearing a camouflage coat shouted hard.

Lu Yang glanced at him in surprise, the excellent gold-level jewelry either exploded from the superior lord or from the wild lord, but these two places are not accessible to ordinary players.

"How much?" The players gathered around asked.

"1 gold coin, just 1 gold coin," the boss shouted.

"I'll buy."

"I buy it too."

...

Everyone around must buy it, and the boss said proudly: "If you want it, auction it, make a secret photo once, and the one with the highest price will get it."

This is an unwritten rule. When you want to rush to buy, then use the auction to determine the price, but most of them are auctioned, so the price will be higher, but the dark shot is chosen here. Play around.

150-level excellent gold jewelry, the minimum value is 2 gold coins, and the maximum is only 3 gold coins. So many people bid, he can wait for everyone to bid. If it exceeds 3 gold coins, he will sell it, and even 2 gold coins cannot be sold. Then, give the trust in the crowd that the person bought it and wait for the next opportunity to sell it.

At this stage, most players do not have the ability to play for a long time, and playing equipment is even more annoying. Good things are never worry about selling, not to mention the 150-level equipment, the siege of the Iron Brotherhood war, almost half of the world Players are involved, and now players are very low.

"1.9 gold coins, this gentleman bought them." The manager suddenly yelled, pointing to the nearest player.

The player didn't say a word, paid the money, took the equipment and waited.

Lu Yang sneered, and he guessed that the dark market, which stood in the middle of the first row, was often a trust.

He didn't bother to look at the first shop again. The things sold here were not of interest to him, and he continued to walk towards the second shop.

"Pharmaceutical formula, enchant formula and equipment formula are all top-quality goods. Come and see if you like." Shouted the second boss.

Not many people around him, Lu Yang walked over and looked.

“The 140-level enchant formula and the 150-level gold equipment forging formula are fair.” The boss said proudly.

Lu Yang looked down. The lowest price of the formula was 10 gold coins, and the highest required 100 gold coins. However, these formulas are just things that can be bought by the worship of the World Realm. They are sold here, but they are flickering.

He kept walking forward under his feet. Most of the things sold by the merchants along the way could not attract Lu Yang’s interest, and he did not improve the guild and his players.

Until he reached the middle of the intersection, he was surprised to find that there was a cross-shaped shop in the middle, and there was a portal for each intersection.

Standing in front of the door was a three-turn special mage—the plane trader, one in front of the door, and he circled back to the origin, and asked a woman plane trader in front of him, saying: “Where is the teleportation to?” of?”

The trading of the female plane made Lu Yang look scornfully, saying, “This is a high-level trading area, and you can enter with a net worth of more than 10,000 gold coins.”

Lu Yang understood that the four areas co-authored on the first floor were only for ordinary players. The real high-end is in it. He showed the gold coins on his body, like an upstart, and said arrogantly: “I look down on people. Well, I have 50,000 gold coins, which is not enough to enter. “

The trading of the female plane was a bit surprised. She knew all the people who had made an appointment before, and now she can’t help but be curious, but she didn’t say much else. She took out a teleporter from her backpack and said, “You have This qualification, please come in. “

In turn, Lu Yang looked at the female plane transaction with a scornful glance, stood one step in the teleportation array, activated the teleportation symbol, and a flash of light flashed. He appeared in a magnificent palace hall.

The four-sided hall is about 500 square meters, which is not big, but it is very luxurious. On the ground are expensive official sales items-Persian cashmere red carpets.

Looking around, Lu Yang had only one store here, apparently set up by the owner of the dark city, and the things he sold made Lu Yang more interested, divided into three categories: intelligence, legendary equipment and antiques.

Each of these three things is extremely special. Needless to say the information, the waiter who listens to the shout will know that it is a place that sells all kinds of secret news, from the secrets of major guilds to the things you need. Location.

Where there are legendary equipment, rich players are resident. At first glance, it is people who are too lazy to hone their skills but want good equipment.

The third kind of antique business, this makes Lu Yang more concerned. At this stage, antiques can be dug, but they are all masters who really work hard and money. He can't help wondering.

"Handsome sir, I don't know if there is anything I can help you with." An elegant 27-year-old beauty, wearing an evening dress valued at 100 gold coins, walked charmingly in front of Lu Yang.

Lu Yang looked at the beauty in astonishment and said, "Excuse me?"

"My name is Leonor and I am the director of this dark city. You are very face-to-face, are you here for the first time?" Leonor's fingers touched Lu Yang's jaw.

A flash of light flashed and Leonor was warned, which made Leonor look playful and said, "You are still the first man to refuse me."

Lu Yang smiled with a smirk expression on purpose, saying: "When doing business, my head is sober, don't try to lie to me."

Leonor covered his mouth and smiled, and said, "What a smart gentleman, what do you want to buy?"

Looking at antiques, Lu Yang asked, "Where did this thing come from? It's the first time I've heard of anything like antiques."

Leonor raised his jaw proudly and said, "My boss is a very rich person. When he was developing a secret place, he found these things. The name is antique. It is said that after opening, there is a chance to get the best baby. , The price that can be opened is too large, if this smart gentleman is interested, it is better to look. "

Lu Yang dressed up in front of these antique shops with an interesting look. There were not many people gathered here, only five or six, and he could see clearly from the side.

At the booth, there were more than a hundred antiques, each of which looked very strange, including demons, Titans, dragons, etc.

Suddenly, Lu Yang's gaze swept across an object, which shocked him deeply, and he secretly said: How could this thing appear here.

Chapter 1434 - Golden scorpion flower

Lu Yang pretended to be interested and picked up a gold sculpture with a scorpion tail flower, about the size of a slap, and asked, "How do I sell this?"

The clerk said blankly: "100 gold coins."

That is, 30,000 credit points in reality, Lu Yang laughed secretly, it was really cheap, but frowned on the surface and said, "Why is it so expensive?"

The clerk said, "At this price, don't bargain."

Leonor leaned to Lu Yang, staring at Lu Yang's eyes, and wanted to make Lu Yang see through, but at this time, Lu Yang clicked on automatic trading.

System prompt: You spent 100 gold coins to buy the scorpion flower!

Leonor looked at Lu Yang in surprise and asked, "Did you buy it? Why?"

Lu Yang smiled at Leonuo and said, "Because I know he's a baby."

"What does he do?" Leonor quickly asked, and her boss hadn't found any clues related to the item for a month, but now someone knows it, and she is extremely curious.

Lu Yang couldn't help but laugh and looked at Leonuo and said, "We will meet again. I will tell you next time we meet."

This golden scorpion flower is not an accessory or a mission item, but a teleport token, and the teleport is the place where the boss behind Leonor is getting antiques.

Unfortunately, the boss didn't know that the real treasure in the place where he was was the antiques in front of him, but he put them on sale here.

Leonor instinctively felt bad, she was about to ask again, but saw that Lu Yang even took out the scroll to go back to the city, and crushed the seal on it.

"You, you, wait, I haven't said yet ..." Lei Yanguo did not wait to finish, but Lu Yang disappeared into a light.

"Damn, something may have happened," Leonor said with no regard for the eyes of those around him, "temporarily stop selling antiques."

The clerk also felt wrong, and quickly settled the stall.

Leonor's body glowed a light. The next second, she appeared in front of a temple like an Egyptian pyramid. At her feet, it was also a teleportation array. Not far away, a team of players was fighting monsters. The commander in the middle is Alice.

"Why are you back?" Alice felt the change in the rear and looked back at Leonor, asking a little in surprise.

Leonor quickly walked to Alice's side in two steps, and said what had just happened, saying, "I suspect that there are problems with these antiques."

Alice frowned, and asked, "You did the right thing. What does antique do? We didn't figure it out until we stopped selling it, so just stop."

A man came back from the front, snorted coldly, and said, "It's not the man who made the mystery."

Leonor said: "Not like, but I feel this person is very capable, and I suspect our dark market has been discovered by Lu Yang."

Alice frowned and said, "This time we opened a dark market on the ground of Lu Yang, but it's still a bit arrogant. Do you think that person is Lu Yang himself?"

The man sneered, "How could it be so coincident."

Leonor shook his head and said, "It doesn't look like it."

Alice breathed a sigh of relief, cursing: "Originally I took down the area of Alfonso, and we can do business on the surface. Now I have to create a dark market. I am really angry."

The man comforted: "Don't care, as long as we work hard, this dark market is very promising."

Alice glanced at the man angrily and said, "It's not your waste, I'm too lazy to take care of you and continue to fight."

The man looked angry, but embarrassedly turned to begging.

Leonor knew he should go, and said, "I'm going back to support the business, boss."

Alice nodded.

Leonor quickly returned to the dark market using the teleportation array, but at the same time she was walking, Lu Yang re-equipped the heart of the demon god, took the scorpion flower in her hand to the appraisal shop in the city, and said, Let me identify. "

"100 gold coins." The boss is a middle-aged NPC, Huaxia face, and stretched out his hand with a smile.

Lu Yang is speechless, and he doesn't blame Leonor for selling expensive. The appraisal fee for this thing is 100 gold coins, just like gambling. If you gamble, you can make a fortune. In 99.99999% of cases, you can't gamble. I can imagine the wasted money.

He took out 100 gold coins and scorpion flower and gave it to the boss.

"You are really a generous person." The boss took the gold coins and the scorpion flower happily, and a light shined in his hand. The scorpion flower bloomed in an instant, and a very small scorpion appeared from the golden flower path.

The system prompts: You have got the Hexaby Portal!

"Ahhhh! It's a big loss. I knew I wanted you ten thousand gold coins." The boss scolded and scolded, without the same manner as before.

Lu Yang proudly took back his scorpion flower.

Scorpion brooch

Level: 170

Description: This is a portal that can teleport you to the Mysterious Demon's Mystery.

Lu Yang chose to teleport, and a golden light appeared on his body. After 5 seconds, the body turned into a piece of yellow sand and disappeared in place. When he opened his eyes, he found himself in a small place full of yellow sand inside the town.

System prompt: You found Huangsha Town

Lu Yang looked around with an excited expression on his face. After a long absence in Huangsha Town, he was back in this life.

In the last life, he visited this place. The secret place is a kind of special map given by the government, and many good things can often be revealed here.

In particular, this is a 170-level mystery. Lu Yang can imagine that the boss behind Leonor should now be trying to open up this mystery. He can take this opportunity to find out.

"Damn I don't know what the place is, why there are so many hard-to-play monsters." A voice passed through in front of the house on the side of the teleportation array.

"Don't talk nonsense, do your best." A majestic voice appeared.

"I, am I complaining?"

...

Lu Yang heard the voice getting closer and closer, he quickly took the stealth potion from his backpack and drank it. This is a special stealth potion made by Jin Buhuan, a non-advanced three-turn hunter.

Coincidentally, the people who came were two fighters and dozens of players like mages and priests, and there was no hunter inside.

Lu Yang knew the reason. The scorpion monster in this map is very special. The hunter's baby is very easy to blame. If more scorpion monster is brought in, it may lead to the team's destruction, not to mention the scorpion monsters are all acting in teams. Yes, they will all be afraid of magic.

He looked at the group of people who looked at him carefully, which made him frown. None of these people were familiar, and they were all European players. He was more curious.

#### Chapter 1435 - Special Huangsha Town

"It's weird. The boss asked us to watch this teleportation team. It's never been turned on, so we went into this secret place. It's been half a month, and we haven't seen an outsider come in." Said a mage player.

"Who knows, no matter what, we just stay here." The leader looked at the distance depressed.

Lu Yang knew from the bottom of his heart that the direction he was looking at was in the direction of the enemy's army. He slowly walked around these people with his footsteps.

The town of Huangsha is not large. It is a square with the mayor's house in the middle. The blacksmith shop, tailor shop, pharmacy and auction house are located at the four corners of the town. The rest are basically useless.

He walked to Ximen and looked out from here. There was a desert of yellow sand. There were two NPC guards at the door, and there were footsteps on the ground.

Lu Yang followed the footprints and walked towards the front invisibly. For a half an hour, a group of players loomed in the distance, he quickly approached, and when he came to the front, he breathed a sigh of relief.

“Co-authoring is really a woman who is making troubles.” Lu Yang looked at Alice in the distance, with a mocking expression on his face.

The man next to Alice is also an old acquaintance-Daniel. Lu Yang never thought that Daniel and Alice had gotten together.

It is said that Europe is more open. Sure enough, this must be Alice who has accepted Daniel as her guest.

In this way, all the mysteries have been eliminated, why the dark market in the Spanish region appears, but it is just Alice who did not get the Spanish region.

In the middle of the war, Tu Feng found out why Alice was so hard to help the seven guilds. After the seven guilds promised to defeat the Jagged Brothers Alliance, they divided Spain into Alice. However, the seven guilds were defeated, and Alice did not fish. To any advantage, it offends a group of people and wastes a lot of manpower and power.

I have seen the dark market today. Lu Yang also felt that the scale of this dark market was so small. He had seen the grand occasion of the dark market in the past. Once the market was opened, all players in the service wanted to enter the venue. But the dark market here City, most of them are players in the Spanish region.

Lu Yang secretly said, since this is the case, this dark market is not only not afraid, but also entrusts Alice’s blessing, and he can also make a lot of benefits for it.

He called Tu Feng and said, “Tell all the brothers in the guild, including the Spanish region, the Korean region, the Nine Star Alliance region, the Indian region and the affiliated guilds. Recently, I plan to open a large discount outside the Heaven City God City. The market, all things you don’t want, things you can clear out can be sold at this market. “

Tu Feng asked in surprise: “Does this not affect our fortress business?”

Lu Yang said with a smile: “No, it will expand our business.”

In the last life, less than a year after the dark market came out, the Ming market followed. This is a larger and broader market.

He is like a cheap supermarket in the United States, and it looks like Huaxia’s Pinduoduo and Taobao. It is a mixed market.

The original glorious dark market has become a lot bleak, and in less than two years, it has completely turned into a small circle market. Later, it was betrayed and sneak attacks and was completely abolished.

However, Ming City remained until Lu Yang was reborn. Ming City was also the largest market in the New World. The managers of Ming City were organized by several super guilds at the time. No one went there to make trouble, and the market was not. The purpose of the guild to make money is to give ordinary players a place to clean up the warehouse. Such a market will not have any competitive significance for the auction house and the market in the fortress.

Tu Feng quickly understood it and released the news on the guild channel. At a time, the entire Iron Brotherhood moved, including South Korea, India, Nine Stars, and Spain.

Lu Yang occupies one tenth of the new continent. The number of non-combat members in the guild is huge, totaling more than 30 million people. In addition to the players of the affiliated guilds, the total number exceeds 50 million.

Even if only one tenth of the people set up a business in a certain area of the Celestial City, it would be enough to attract the vast majority of players in the New World. At that time, this dark market, which had not yet become a climate, would naturally perish.

[Global Announcement] Lu Yang: Three days later, the Jagged Brothers League will hold a tear-selling sale in Tianyu Shencheng. All the items accumulated by Jiefang Brothers players in these years will participate in the sale. The price is low and the quantity is guaranteed. Foot, all players and merchants

who want to find treasure and buy in large quantities are welcome to enter the hypermarket in three days.

...

In the same sentence, Lu Yang posted 10 times in the global announcement.

Alice was watching the player in front of him fighting, and when he saw this news, he was holding his entire body, and his charming face suddenly became stubborn, gritting his teeth and cursing: "Lu Yang, I want to kill you."

Daniel also saw the news and said with a sigh, "It looks like your dark market is known by Lu Yang."

Alice glared angrily at Daniel and cursed: "Nonsense, this is for you to say, I want to know, who is this person?"

Daniel shrugged helplessly and said, "A total of tens of thousands of people have entered your dark city. Who knows who told the secret? And I suspect Lu Yang had this idea long ago, otherwise, such a thought temporarily I can't think of it. "

Alice frowned and asked, "Do you mean that Lu Yang knew about this long ago, but only today?"

Daniel nodded and said, "It's very likely."

"Why is he so smart?" Alice scolded.

Daniel said: "Let's continue to open up wasteland You can't make a dark market by yourself, now you can worry about it and don't need to have such trouble."

Alice is a smart woman. Although she was unwilling, she let it go and said to the people around her, "The dark city will no longer be open in the future. This is the last time.

Then, Alice glanced at Daniel with a charming look and asked, "Can you tell me, when is it going to hit here, how can it be so difficult?"

Daniel said: "You don't want me to bring the main force over, only these confidants, the wasteland is troublesome here."

Alice chuckled and said, "I don't want this news to be shared only by the two of us. What if they let Galgar know about them?"

Daniel sighed and said, "Yes, I'll keep working hard."

On the battlefield ahead, there is a piece of scorpion demon fighting with Daniel's elite men. Obviously, Daniel's men are very difficult to fight.

Chapter 1436 - Star Warlock Bloodline

Scorpion

Level: 170

Qi and blood: 43138400

Not to mention other, just this 40 million HP is enough to make many players scratch their heads.

The average level of this group of people brought by Daniel is around 160. It can be seen that this is the most elite player under Daniel, and it is also the first-ranked team in this game.

The mage's magic damage is around 1.9 million, and the physics profession is about 2.6 million. The seemingly high-end data can be accompanied by armor breaking and reducing the magic resistance, and it can only cause less than 2 million damage on the body of the scorpion.

"Damn, why is the defense so high?"

"The priest noticed that Lao Qi was left in fear."

...

Daniel's melancholy cries followed.

Lu Yang hid in the distance watching this scene with a sneer. The scorpion-tailed monster resisted more than 1.1 million, the magic resisted 700,000, and the high resistance to crit and group fear skills. Playing such a strange, an anti-riding Only one scorpion can be controlled, and one more will happen.

Daniel's men can't adapt to such strange, that is, they have not played on the level 170 map, entered the level 170 map, monsters such as the scorpion monster abound, this is the characteristic of the level 170 monster.

Lu Yang was able to fight monsters easily at the beginning, completely relying on the heart of a high-level demon god. Without this baby to bear, he also struggled to fight.

He looked around. There were scorpion monsters everywhere on the yellow sand map, and he couldn't take shortcuts. In order to get the final treasure, he was too lazy to fight by himself, so he followed Alice.

Fortunately, Daniel had been in the wasteland for half a month before, and after half a day, they finally entered the location of the ultimate lord of the mystery, inside the Pyramid of the Underworld.

Starting from this pyramid, the map of the New World officially entered the main task line. In fact, the lord in the Pyramid of the Nether is the guard of one of the most powerful gods on the planet.

Legend has it that the magic of the New World is governed by the \*\*\*\* of nine pillars. They are the true gods of the world of the new continent. The origin of the entire civilization also began with the \*\*\*\* of nine pillars. They created all the creatures on this planet.

The monsters from the 110th to the 160th were all the life created by Jiuzhu God, and the life that was created again, that is, the lowest level of life in the new continent, but it was these low levels of life that invaded the old continent.

Lu Yang looked at the scorpion-tailed demon being attacked by Daniel and others in the distance. He was originally a spokesperson created by the \*\*\*\* of death among the nine pillar gods, and then created by magic.

In the last life, he remembered that there would be many good things falling from the Scorpion Devil, and many of them made him feel good.

At this point, the blood of the scorpion tail devil is less than 10%. It is estimated that there will be another minute before the scorpion devil will hang up.

“Brothers, come on, you will succeed.” Daniel shouted.

Alice shouted excitedly: “The lord was killed, 1 gold coin per person.”

More than 90 players who accompanied them to fight the lord were excited and attacked harder.

Lu Yang confirmed that no one was in front of himself, looked at the left and right, and the back again. After confirming that no one was there, the mantra was spoken.

“Summon Water Body”

“Summon Wind Avatar”

Two lights flashed, and Lu Yang appeared with two mages exactly like him. At this time, the lord's monster had only the last 1% of his health.

"Take it easy," Daniel shouted.

The Scorpion Devil fell into rage. The huge scorpion tail thumped continuously, killing a lot of players and spraying out toxins, leaving the entire audience in a state of residual blood.

"Drunk Clouds"

"Gust of Wind"

"Hot Fire Dragon"

Lu Yang's body and two avatars chanted a spell at the same time. The three staff's staffs pointed forward at the same time, and a giant dragon head was formed one meter ahead of the three staffs.

"Mixed Spells-Fire and Wine Storm"

A clear howling sounded through the Scorpio Devil's Hall, and Daniel looked back in horror, seeing a blast of flames blasting out of the opening of the cave, wrapping them all in, and the next second, Daniel knew nothing and died.

The lord blame was finally killed for less than 1% of his health. All players who hit the lord around at this time were residual blood. They were all killed under the attack of 9 times Lu Yangfa's injury.

The only person who did not die was Alice. Only she had a life-saving skill that others did not have. In the lethal skill attack, she could withstand an additional attack.

She didn't know that someone had attacked them, thinking that it was the blame's blame skills. Just after letting go, she and Daniel and others all died.

Alice shouted in excitement: "Great, we hit it, and I will resurrect you."

She was preparing to release the spell, but just then a familiar sneer made the tower stiff.

Alice looked up incredibly and looked at the entrance of the hall. Lu Yang was standing alone and sneerly watching her.

"You, why are you here?" Alice asked in horror, talking as he leaned towards the place where the lord dropped the item.

"Women, you better not move." Lu Yang's body turned into a golden light, and appeared instantly beside Alice.

"Fire Snake Bondage"

Alice was trapped by the nine fire snakes, and she was recovering blood, and she began to drop blood quickly. How could Alice look at herself and die like this? She quickly took out the instant recovery potion and filled the blood with more than half.

Lu Yang was a little surprised by Alice's ability to survive, walked in front of the dropped objects, picked up a bloodline voucher full of starry night clusters, and asked with a smile: "It looks like antiques have brought you a lot of benefits."

Alice looked at Lu Yang angrily and secretly: "That's our thing, you put down."

Lu Yang laughed, put the remaining 170-level dark gold equipment in the backpack, and said, "I can only look at these, and the rest is for you."

He took out the scroll back to the city and began to read.

Alice did not expect Lu Yang to leave like this, and she quickly asked: "Tell me, how do you know here?"

Lu Yang sneered and said, "Ask the people around you, there may be the answer you want."

The light flashed through Lu Yang left.

Alice did not dare to intercept Lu Yang at all. With a little carelessness, Lu Yang could stop her. Looking at the open space left by Lu Yang, she ignored the image and scolded: "Asshole, you want to leave me and my subordinates. impossible."

A group of people in the distance ran in, and Daniel took the lead. He excitedly said to Alice, "What about Luyang people?"

Alice was grieved and said, "Run away."

"You, why don't you stop her, the resurrection point is outside." Daniel said silently.

"How can I stop, I can't beat him again," said Alice.

Daniel was speechless and said, "Who told you to hit him, and with your gear, stop him for 10 seconds, and we'll be there."

Alice reacted instantly, but she was not so easy to die with a few pieces of antique equipment today.

"Damn, I was humiliated by him." Alice stared.

Chapter 1437 - Night Soul Wolf Castle

"It was really bad luck. We let him kill. The first kill also made him snatch. The equipment also made him snatch." Daniel said angrily.

Alice's complexion changed instantly, and I saw her hesitantly walking to Daniel's side to softly persuade. She knew that she could not be angry at this time and needed to comfort the man.

Huangsha Town Teleportation Point.

A light flashed, and Lu Yang appeared again. He looked around and did not see a G8 player.

“Sure enough, I was scared and ran to Daniel. It was cheaper for me.” Lu Yang took a bottle of stealth potion from his backpack and drank it.

System prompt: You are invisible for 10 minutes

Jin Buhua’s special stealth potion is very precious. In the case of no one like this, he does not need to use it. The reason why he uses an ordinary one is also for insurance.

Lu Yang stepped out of the teleportation array along the road. No one in the town met the group of eight members along the way. He always came to the mayor’s house in the middle of the town.

The mayor’s home has a small courtyard. The mayor is standing in the courtyard and looking into the distance. Lu Yang looks at no one on the left and right, and the effect of invisibility fades.

The mayor looked at Lu Yang in excitement, shook his hand and said, “Heroes of Huangsha Town, you are back. Thank you so much.”

Lu Yang was confused and said, “Did I do anything?”

“You are really too modest. Your heroic deed to kill the Scorpion Devil has spread throughout Huangsha Town. In order to thank you for helping us to kill the Scorpion Devil, this is the only thing we can get your hands on, please You must accept it. “The mayor handed Lu Yang a golden page.

System Tip: The mayor gifted you the antique appraisal skills (level 1)

Lu Yang smiled, took the book pages and chose to study, a flash of light flashed, and an antique identification skill was added to his life skills column.

“This is a good thing. I never thought it was given here.” Lu Yang muttered to himself.

Antique appraisal is a very rare skill. Remember that in the last life, less than 100,000 people had antique appraisals in the entire game. 99% of them did not know how to appraise.

Lu Yang knew that in the last life, he had no antique appraisal skills, but he knew what antiques were real and what antiques were fake.

As for the reason, it was sad. At that time, Lu Yang didn't have the ability to buy antique appraisal skills, but between 150 and 200, players made countless antiques.

As the saying goes, I have n't eaten pork and have n't seen a pig run. For a period of time, in the past few years, a large number of “experts” came out to decrypt the identification method of antiques, and there are countless finished antiques that have been identified and put online for play Players appreciate.

At that time, Lu Yang spent a lot of time studying antiques. Through various comparisons, he was able to identify a small number of antiques.

The cost of each appraisal is 100 gold coins. He tried to appraise a few times and made a small amount of money, but it was a small amount of trouble. Most of him did not dare to appraise because he did not have appraisal skills. Now he 's fine. He even learned the appraisal skills here, and if there are antiques later, he can appraise himself.

However, compared to the antique appraisal, the most valuable now is the Starry Bloodline Voucher, which is one of the most high-end bloodlines in the entire game. He is exclusive to the Warlock.

Lu Yang flew back to the Celestial City with the scroll back to the city. He called Han Ying and said, “Go to the magician in the Celestial City to transfer to the temple.”

“Oh.” Han Ying replied.

When Lu Yang arrived at the warlock's transfer to the temple, Han Ying was waiting for him at the door.

"Brother ~!" Han Ying beckoned.

Lu Yang came to Han Ying with a smile, handed the blood of Starry Night to Han Ying, and said, "Take this and go to another job. Come out and I will take you to do the task."

For a long time, Han Yang and Han Fei, who were next to Lu Yang, did not get the top transfer blood, and they are currently using ordinary blood.

I could n't hit it before, but then I did n't have time. This time I finally got it. He replaced Han Ying first.

Xingye Bloodline has two special skills. The first is Dark Control. He can grab the target in front of him instantly, at a distance of about 50 meters. The next skill is to control the target for 10 seconds, causing intelligence every second. X1 damage, and adding a shield to deal damage is equivalent to absorbing the target's blood, increase the amount of shield value.

Han Ying came out of the shrine after changing jobs, and asked with a smile: "Where are we going?"

Lu Yang said with a smile: "First accompany me to upgrade. With dark control skills, we can do a lot of things."

He flew Han Ying to the 140-level fortress in the Spanish area, the Rise Fortress. After leaving the city, he ran along the avenue to a copy of the 150-level map of the Golden Plains.

System prompt: You found Night Soul Wolf Castle

Night Soul Wolf Castle, an immensely magnificent castle. According to the official history, Night Soul Wolf is a hybrid descendant of the blood wolf under the throne of one of the nine pillar gods of recovery. The castle here is not only found in Spain, but also in every area of the whole new continent. Night Soul Wolf Castle.

At present, the hottest in the whole service is this Night Soul Wolf Castle, because it drops a very rare mount, Night Soul Wolf.

The night soul wolf is characterized by a movement speed of 200%. Under the influence of the current large map, players spend a lot of time on running. If there is a summon beast with a movement speed of 200%, the wasted time will be reduced by half. .

In addition, the Night Soul Wolf is extremely beautiful, and it is a large wolf. Players are sitting on it and they are full of vitality, which has led many players to run to the Night Soul Wolf Castle to hit the mount.

It is a pity that The drop probability of the Night Soul Wolf mount is one in a million. At present, there are less than 10,000 hits in the game. Therefore, the Night Soul Wolf is extremely expensive now, even There are studios and big businessmen who are focusing on speculating on Night Soul Wolf, with a maximum of 60,000 credit points. Although the price is expensive, they are often bought as soon as they come out.

“Let’s go in.” Lu Yang chose the difficulty of the nightmare and took Han Ying into the copy.

“Hum!”

Howling came from not far ahead, and several wolves were wandering around the gate of the castle not far away.

Han Ying looked at Lu Yang curiously and asked, “Brother, do you have any way to get to the night soul wolf mount?”

Lu Yang said with a smile: “Clever, of course there is a way. It depends on your starry night to control your skills. As long as you can control it, we will be rich this time.”

Han Ying repeatedly nodded. She knew that Lu Yang was worrying about money recently. The expenses of the last war were too serious.

Lu Yang led Han Ying to the side wall of the castle and said, “Follow me.”

## Chapter 1438 - Brush mount

Night Soul Wolf Castle is an English castle on the whole, which can be regarded as a war fortress. The advantage is that the castle is very high. The disadvantage is that its outer wall is the wall of the main castle.

Lu Yang found a tiny gap in the previous life, took Han Ying to escape into the castle with an escape dagger, went up to the top stairs of the castle, and entered a magnificent hall.

System prompt: You found the Wolf King Hall

There is a throne on the far north side of the hall. A sturdy blond middle-aged man is sitting lazily on it. He is wearing an elegant blue duke evening gown with a glass of red wine in his hand.

"It's a charming night," said Night Soul Wolf King, looking out at the window.

Night Soul Wolf King (Lord)

Level: 150

Qi and blood: 80000000000/80000000000

"There is a lot of blood," Han Ying said.

Lu Yang smiled and shook his head, pointed at the bluestone room beam above the hall, and said, "You jump to it first, I'll hit him, and when he turns into a wolf form, you use dark control to catch him on the room beam. on."

This is a classic play of the last life. The beam above the Wolf King Hall is a special structure with a groove, enough to accommodate a player standing on it, and the Wolf King has become a wolf, but because of his tall body, he just stuck in that. Place cannot move.

Han Ying nodded clearly, held the dagger in his hand, and a light flashed, and he jumped on the beam.

Lu Yang stepped up to 50 meters in front of the Night Soul Wolf King, and read the spell in his mouth.

“Blazing Heart”

A fiery white flame hit the heart of the wolf king.

“Damn, such a beautiful night was disturbed by people, you humans, you \*\*\*\* it.” The wolf king roared, and flung towards the landing sun in human form.

Will Lu Yang let the wolf king run into it, turn on the fierce speed, attack while running, and under almost moving speed, the wolf king can't catch up with Lu Yang at all, so Lu Yang walks around the room for half Many hours.

“Woohoo ~!”

The blood volume of the wolf king dropped below 50%, and his whole body became red and fell into a violent state. He leaned down sharply, his body bleeding.

Lu Yang looked up at Han Ying on the room beam and said, “Do it.”

“Dark Control”

With a crisp and snoring voice, Han Ying's left finger just turned into the night soul wolf king of 3 meters tall giant wolf. A black light controlled it, and the next second, the night soul wolf king appeared in front of Han Ying, the huge wolf The mouth is only half a meter away from Han Ying.

“Escape The Dagger”

Han Ying immediately jumped off the high platform, came to Lu Yang's side, and said proudly, "how?"

Lu Yang praised: "Good job."

"What to do next?" Han Ying asked curiously.

Lu Yang laughed and said, "It's easy to do below, look at me."

"Lava Eruption"

"Lava Eruption"

...

Lu Yang's mouth spelled out that the entire hall was covered with lava by Lu Yang, and just as Lu Yang was covered, the howling of the wolf king sounded.

"Woohoo ~!"

With the sound of horns, two black portals suddenly appeared on both sides of the throne of the Wolf King Hall, and countless 150-level boss-level night spirit wolf jumped out.

Night Soul Wolf General (boss)

Level: 150

Qi and blood: 50000000/50000000

Lu Yang's own wounds were 2.6 million, and he was not afraid of these Night Soul Wolf generals. He said, "Just jump on the beams of the house and burn them to death with fire. No need for us."

Han Ying nodded.

Two white lights flashed, and Lu Yang and Han Ying jumped together on the beam on the opposite side of the wolf king, and General Night Soul Wolf rushed under Lu Yang.

“How come out of the boss?” Han Ying said in surprise.

Lu Yang gave the Night Soul Wolf King a lava eruption to prevent his blood wolf from recovering to more than 50% of his human form. He sat comfortably on the beam and said, “This is the characteristic of nightmare difficulty. Come here to fight monsters, there are at least 6 defenses dedicated to fighting these two portal mobs. “

This portal will always appear. This is also the most annoying place of Night Soul Wolf King. More than that, when his blood wolf is below 50%, two portals will appear every 1 minute.

The defense of the wolf against the portal must be hard enough, and the wolf king needs to be brought near the portal to allow players to use group spells to clean up a batch of Night Soul Wolf generals. trouble.

Han Ying asked curiously: “Brother, why do we kill these Night Soul Wolf generals, is it because they dropped their mounts?”

Lu Yang pointed at the night sky with a smile, and said: “As long as the player chooses to enter the night time, the copy will always be night. The Night Soul Wolf General in the portal has the same shape and attributes under the night, the only changes are The thing is that they have a small chance to drop the Night Soul Wolf mount at night. “

Although this probability is too small to ignore, if you blame it too much, it is a great chance. In the last life, the player did not know that there was this effect at the beginning. Some players burst out occasionally, and thought it was. Good luck, many people posted on the Internet to fight, but they hit during the day, carrying the Wolf King to open 16 portals, but they did not come out, and 2 portals every minute, the night spirit wolf general came out The attack power was high, and no one soon tried.

Until a long time later, at the 200 level, a high-level player wanted to round his mount dreams, and ran here to brush up the Night Soul Wolf General, and occasionally entered at night, so he discovered this secret.

Generally speaking, when Night Soul Wolf appears with 100 portals, a mount can appear every hour on average, and after 2 hours, a mount can appear in half an hour, and after 3 hours, it can appear in 10 minutes. A mount, and so on, the fastest, a mount appears in 1 minute.

At present, a mount can sell 50,000 yuan The market demand is huge, Lu Yang brushed out tens of thousands, it is estimated that there are no problems. If you sell it slowly, it is estimated that you will soon make money. Hundreds of millions of income, which can also relieve a lot of pressure on his funds.

“Dididi”

Lu Yang’s intercom sounded. He picked it up and found out that it was a white lion. He pressed the call button curiously and asked, “What’s the matter?”

The White Lion scratched his head and gritted his teeth, and said, “Boss, the three of us want to apply for military school.”

Lu Yang Yile asked, “Where do you want to go?”

“Military school!” The White Lion said firmly.

Lu Yang asked with a smile: “Why did you want to go there?”

The white lion sighed and said, “Before the tiger mouth fortress defense, I found that I still had a lot of shortcomings. I want to learn. The only place where I can learn to lead large-scale players is combat, so I want to bring My two younger brothers go to military school for some time. “

## Chapter 1439 - Thorn bird members appear

The tiger mouth fortress was decisively battled. The three white lion brothers defended for more than 20 days. Although they blocked the successive attacks of the seven guilds, they were also beaten with gray faces. This caused the original pride of the white lion, white tiger, and white wolf. Your body is incomplete.

After the battle ended, the three thought about how to improve themselves, but they couldn't think of a way. Until they saw Han Zhong, they thought of marching into the military school.

Lu Yang thought about it, and felt that the White Lion's idea was correct, saying, "In this way, I will look for you and see which military school is suitable."

He had to ask for help. The military academy had to be admitted to the school, but the White Lions were almost graduating from college. There was no chance to go normally.

As for who to ask, there was a ready-made candidate. Lu Yang hung up the phone and called in the past. Soon, he got three observer places in the command department of a certain army academy, and the other party was willing to provide places all the time. Lu Yang was quite surprised.

You know, this school is the top university in the country, and it will be open to him. After asking about it, he knows that the country is willing to help train. If Lu Yang is willing to go, he can participate.

Lu Yang lacks experience in this area. Since the other party is willing, he also readily agreed. As for the class time, he can participate as soon as one week.

"I didn't think it was important to us above," Lu Yang murmured after hanging up the phone.

Han Ying said with a little pride: "You have 300,000 employees, and the actual commander is in the tens of millions. You should get this treatment."

Lu Yang smiled with a little emotion, who could think of a game that could get such great attention.

He asked in the group: "I have a few places in the military academy to study and command. Who wants to go?"

Xia Yuwei: "..."

Mud wine: "..."

...

More than thirty vice presidents were shocked.

"Boss, where did you get it? I know this school is the strongest in the country," exclaimed bitter love for half a lifetime.

Lu Yang said, "The White Lions want to go to study. I tried to find it, but I found it. The three of them have decided to go. Who would you like to go?"

Zhuo Jiu said: "If the war is not tense here, I want to learn."

Zhou Tianming said, "I will go too."

"I will go too."

...

The six main vice-presidents are willing to go, even with the chief of the large army around them, Lu Yang talked to the above, the other party still agreed to, but just re-classified them, they were all in one class, and now they have been assigned In 6 classes.

But when they all went, Lu Yang couldn't go. It could only be a distance learning course. After discussing the matter, he sent a message saying, "Check in to school in a week."

Everyone responded one by one.

"Brother, it burst." Han Ying said excitedly pointing at a night soul wolf mount below.

Lu Yang closed the dialog box and looked down. Sure enough, there was a blue giant night soul wolf mount. He said to Han Ying: "We will find a few more people to help, open a few more copies, and brush out more."

To do this, you must be extremely secretive, so you need the most loyal, non-talking player, and have a very strong ability. The best person to do this is among the more than 40 artifact players. Legal profession.

Lu Yang called and called over 20 people, including the small fireball, and took them one by one to make copies, and it was already late at night.

Early the next morning.

Lu Yang entered the game leisurely, and the small fireball sent a message saying, "Last night, 23 of us got a total of 102 Night Soul Wolf."

The price of a horse is 50,000 credit points. That night alone, it is more than 5 million. Lu Yang said with satisfaction: "Continue to fight and stay here for a few days."

"Yes." Little Fireball said excitedly, Lu Yang promised them that everyone could get a Night Soul Wolf in the end, which was not a big sin.

Tu Feng was working in the guild hall of Tianyu Shencheng. When he saw Lu Yang coming in leisurely, he smiled and said, "So leisurely, would you like to help me with my business affairs?"

Lu Yang, with a black line on his forehead, lay down on the chair beside Tu Feng and said, "If you can handle it, you don't need to find me. I just have a few days of leisure."

Tu Feng smiled and said, "Yes, right, the global competition is about to begin. You have to be ready. Many people want to overthrow your three consecutive championships."

Above the level, Lu Yang is no longer dominant, and the equipment is not dominant anymore. The players who can play the top 1,000 in the competition are all dark gold players above level 160. The purple flame suit attributes are not much worse than them. It can't be brought in. Many people are not optimistic about him this time. The forum is full of posts discussing this matter.

Lu Yang said unpleasantly: "This group of people are expecting me to be defeated, but how can I be like their wishes, but I really feel a little urgency to say so, I went to upgrade."

Tu Feng laughed and said, "Yes, I have time to go to the market in the center of Tianyu Shencheng to see a lot of antique merchants, which has caused a new trend. You have antique appraisal skills, maybe there is something new reward."

Lu Yang was a little surprised and asked, "Are there many?"

Tu Feng said: "There are more than a dozen antique stores, with mysterious bosses behind the scenes. I don't know who they are."

Lu Yang was interested, saying: "Antiques are mainly 170-level maps, and they can be played at this stage. They are not ordinary people. Let me check them out."

He took out the telescopic scroll and teleported directly to the central area of Tianyu Shencheng. As soon as he reached the market, the first company gathered countless people.

"I've identified the baby, haha, this is to increase the attack power, which has increased by 9% A player shouted excitedly, causing a shock to everyone around.

Lu Yang gathered together and found that a player who knows antique appreciation is choosing antiques, and everyone next to him is watching him curiously.

Generally speaking, those who can understand antiques at this stage are either liars or trustees. It is estimated that the one in front of them is the trustee of the store.

The most obvious reason is that this shop sells antiques such as Egypt, and people who buy things look at people who have a Nordic face.

However, this person set the atmosphere very well, and the players around him couldn't help it. He took the opportunity to take a closer look at the antiques on the booth, the first-class antiques, but none of them were true.

He didn't bother to stay here, and continued to walk towards the next antique shop. The second one was not far away, just next to the first one, as if these antique shops had been negotiated, and they were selling together here.

Lu Yang looked at the stall owner and was very face-to-face. As he was about to continue to select, suddenly, a familiar player appeared from the shop. This person was not someone else. Member of the Thorn Birds organization.

#### Chapter 1440 - Bronze armor statue

"Gentlemen and ladies, if you like it, don't let it go. Now the influence of antiques on the game is getting bigger and bigger. If you don't do it, you may have to double the price in a few days. Bird member LeSeph said in dismay.

A tyrant player next to him who shook his head and said, "This thing doesn't make sense. I'm not bad, but I don't know what this thing is for. What does he buy?"

With a proud expression on his face, he took out a real antique and projected its attributes in front of everyone.

Bronze Sword (Antique)

Grade: Level 1

Description: Increase physical attack power by 10%.

The players around couldn't help taking a breath and looked at the bronze sword in surprise.

A local tyrant said, "I gave out 100 gold coins, and this one sold me."

Le Sever smiled slightly, shaking his head and saying, "Sorry, this thing wants to buy at least 350 coins."

"So expensive?" Players around exclaimed, even if they used euros and dollars, 350 gold coins is not a small number.

Lesiver said proudly: "Everyone knows that items that can increase attributes without occupying the equipment grid are extremely expensive. Such equipment with a maximum increase of 10% in attack power is even invisible before. No one knows how much this thing is now, but if you look at the antiques in front of you, who knows which one is real and which one is fake, I believe it will still be easy to sell at this price. "

A lot of local tyrants nodded one after another. They didn't care about the 350 gold coins, what they cared about was whether they could bring them a practical and effective improvement.

"I bought the 350 gold coins. Give me this bronze knife. This money is usually not enough for me to refuel the yacht." A tyrant said with a look of carelessness around the beautiful woman.

“Well, I haven’t said it yet. I’m letting you grab it. Who’s going to pay for it?” The other tyrant was unwilling.

“me too.”

“I want to buy it too.”

...

The voice became lively for a moment, and L’Esefre opened his eyes, smiled and pointed to the first player who said, “It was this gentleman who said first, then I sold it to him exceptionally, gentlemen and ladies, want to buy, May wish to look at the antiques in front of you. According to the official information, these antiques are very similar to the actual appraisal. You may try to play. If you succeed, you can buy three pieces for the same money. “

The eyes of the players around him were brought back to the antiques in front of him by the language of Lassefer, and a lot of players stared at the antiques.

Lu Yang was staring at Le Sever, the players around him looked down and showed him, just as Le Sever saw him, which surprised Lu Yang’s heart.

“What else do you not understand, sir?” Le Sever asked with a smile.

Lu Yang sighed with relief, this Le Seff spoke for a long time, and talked to himself, without noticing that he didn’t look right at him, which was a blessing.

“It’s nothing, I just have a little research on Egyptian antiques. I hear you say it’s related to real antiques. I’m a little bit distracted.” Lu Yang said.

Lusefer smiled and said, “You look like a savvy person, should you try your luck?”

Everyone around looked at Lu Yang, some with a disdainful expression, and some with a curious expression.

Lu Yang really had the idea to try his luck, because he saw a few things he was interested in at the Le Sever booth and said, "I try."

The people around gave way immediately.

Lu Yang walked to the first row in front of the booth and looked at the items on the booth. The items sold by Luseffer were bronze knives, bronze birds, bronze lions, etc., but these were not of interest to Lu Yang. Yang is interested in bronze armor.

There are twelve in total, each of which is the size of a slap, and he picks one up and observes.

"Actually look at the armor first." Some tyrants looked at Lu Yang with a mockery. They all looked at the output class first.

Lu Yang ignored the other party, and upon closer inspection, the first bronze armored statue had a wrong pattern and was a fake.

He picked up the second one and thought as he looked, in the first-class antiques, the most valuable thing was the armor.

Others don't know, but he knows the reason why antiques came out, not for the official purpose of collecting money, but for the relief of the current contradiction.

The popularity of the three-turn bloodline has greatly increased the output of players, and there have been many bloodline occupations with super-high bursts like the \*\*\*\* assassin.

Other than that, it's just a \*\*\*\* assassin. Once the gift release skill is triggered, it is more than 30 times the critical strike damage. At the current level, one critical strike can be a mage class of the same level.

This has also caused a disadvantage in the current game, that is, whoever shoots the attack first can win the other party. This is completely inconsistent with the principles of official design, so only antiques are available.

Among the many antiques, there are those that increase damage and also increase defense, but the best is the bronze armor.

“Oh, I found it.” Lu Yang said excitedly, he bought the second bronze armor statue, costing 100 gold coins.

“Antique Appraisal”

A ray of light shone on the bronze armor statue, revealing his original appearance.

Bronze armor statue

Grade: Level 1

Description: In the event of lethal damage, the Bronze Armor will trigger special effects to block you from lethal damage.

With this thing, even if a god-assisted assassin triggers the gift relief skill, he cannot drop the target. This is equivalent to giving the player a chance to survive and fight back. In the master duel, it is possible to change at this moment. Winning and losing.

The thing that Lu Yang’s clone blood is most afraid of is the attack on the arena in the arena. When the clone is dead, he also dies, which is equivalent to the failure of the arena. Now that he has this thing, let him fight against the upcoming global competition. , Also has a greater chance of winning.

“Awesome master, even the antique appraisal, how to learn this skill.”

...

The surrounding players found that Lu Yang still had such a hand, and they were all surprised. They talked about each other. Le Sever looked at Lu Yang's eyes and said, "Sir, can you tell us where the antique appraisal was learned, We are willing to buy at a high price. "

Lu Yang smiled and said: "The only task, the other party disappeared after the completion."

The players around sighed.

Le Seph was also gloomy. He believed what Lu Yang said. He had seen a lot of such tasks, but he quickly adjusted and asked: "Do you have any idea to accept our employment, and every piece of equipment is identified? , We give you a 20% commission. "

Lu Yang Zhengchou didn't know how to get close to the Thorn Bird organization, not to mention the hatred between the two, just to say that this organization has hundreds of artifacts in his heart. If he can give them a nest, he will make a fortune. Already.
