

Catch Me If You Love Me Chapter 166

The coldness of Bingfeng's eyes is clearly visible!

It seems that as long as Zoey Gu appears a little bad, she can instantly become an enemy of the whole world!

Old lady Lu frowned immediately.

"I said, I don't bother to move her. If you still want to take her away easily, get out of here!"

Liam Lu's eyebrows are sharp, obviously unwilling to give in.

Seeing the atmosphere stalemate, Zoey Gu turned sideways and gently pulled Liam Lu's sleeve.

"It's okay. I believe that the old lady will do what she says. Even if she hates me, she won't face me in front of you."

"You wait for me outside, I'll come soon. Okay?"

That tone, half firm and half soft, silently made Liam Lu's eyes soften.

He let go of her hand, looked at the old lady meaningfully, then got up and left.

As soon as the person left, the old lady walked directly to her and could not help but raised her hand and hit her.

Zoey Gu saw it, but didn't hide it, closing her eyes and taking the slap abruptly.

Snapped!

Her face turned violently, and she immediately tasted a strong smell of blood.

"This slap is because you drugged me, and punished me disrespectfully, which made you cheaper."

Zoey Gu pursed her lips and said nothing.

Her goal has been achieved, even if she suffers from the old lady's flesh and blood, she will not suffer.

The old lady squinted at her. Seeing that she was witty, she immediately curled her lips and spoke directly.

“Do you know why I said that the men of the Lu family are short-lived? Because none of them survived forty years after they fell ill at a fixed age.”

“Liam’s grandfather, grandfather, and father are all like this. His elder brother has disabled legs, and he and his mother grew up in Berven City since childhood. Even if I did not take him back to Lu’s house when I was 23 years old, he still lived. not long.”

“Each time, whether it is to supply blood or use the body to relieve his condition, it is an expedient measure. Because of these, it will aggravate his condition and accelerate his death.”

A word, like a sharp sword, stabbed into Zoey Gu’s heart.

Her face turned pale, and her whole body softened on the seat.

It turned out to be true...

Liam Lu, 28 years old this year, has a longest life span of more than ten years.

Such a terrifying cognition made Zoey Gu’s eyes blush in an instant. Thinking that there might be only a short ten years between them, her heart ached.

She looked at the old lady unwillingly, and asked with a clear cry in her voice.

“Now that medicine is so advanced, is there no other way?”

The old lady looked at her coldly, condescendingly, without a trace of human touch in her eyes.

“This is not the focus of your concern. Even if you are with Liam now, you will only have at most ten years. If he goes in the future, you and your children, I will definitely not stay in the Lu family.”

“You will be like Liam’s mother back then, wandering in a foreign land with the child of a person who died early, or even as a guest.”

Zoey Gu’s tears shed instantaneously, and her whole body trembled slightly.

The old lady ignored her tears, paused, and continued.

“But you don’t have to worry. Because the premise of this result is that you can be with him.”

“And I can tell you with certainty that you and Liam Lu will not have good results, let alone go to the end.”
