

Catch Me If You Love Me Chapter 171

Zoey Gu seemed to understand but did not understand, but did not ask much.

In order to make him feel at ease, she took the initiative to reach out and hug his waist and said softly.

“Mr. Lu, put on a white shirt in a moment. You must be the most handsome groom.”

Liam Lu was obviously comforted by her words, turned sideways and lowered his head to kiss her on the forehead, and smiled softly to her.

“stupid.”

Soon, the car stopped in a hidden corner.

Liam Lu pulled over Zoey Gu with one hand, pushed one side of the car door and got out of the car, and got directly into a black car parked on the side of the road.

This time, Liam Lu drove, and Zoey Gu took the co-pilot.

They didn't start until Shiyue drove another car farther forward.

When he arrived at the hypermarket, Liam Lu unfastened his seat belt and pushed the car door. Turning his head to look at Zoey Gu who had already pushed open the other side of the car door, he reached out and held her down.

“Zoey, what are you doing?”

Zoey Gu was at a loss.

“We are not buying couple shirts, how can we buy them without getting off the bus?”

“I'll go alone, and you will wait for me in the car.”

As he said, his gaze fell in front of her without hesitation, and he gently curled his lips, “I have known your size long ago.”

Zoey Gu: “...” This hooligan!

Liam Lu cursed him with red ears in his heart, and Liam Lu had already bypassed the front of the car to reach her, and seriously reminded her again.

“No matter what happens, don't get out of the car. I'll be back soon and call me if you have something to do.”

After that, with a “pop”, the car was directly locked!

Zoey Gu was taken aback for a moment, and couldn't help but laugh when he reacted, feeling that Liam Lu was really too nervous about her.

The weather is hot.

Zoey Gu stayed in the car for a while, feeling a little sultry and depressed, and subconsciously stuck to the car window, wanting to see if Liam Lu came back.

As a result, as soon as he turned sideways, there was a sudden tremor from the rear of the car, which seemed to be slashed by something.

After she had a meal, she saw a silver off-road vehicle wiping the car's body and speeding past.

Wipe the car!

Zoey Gu's expression changed, and she raised her hand on the doorknob, only to remember that the door was locked. Liam Lu repeatedly confessed that he would never leave before leaving.

As a result, she could only grit her teeth secretly and admit that she was unlucky!

But when she looked up, she suddenly saw that the trunk of the off-road vehicle suddenly opened at some point, and an object rolled down instantly.

Zoey Gu subconsciously leaned forward and looked intently, her face changed instantly.

It's a child!

She panicked all of a sudden, her instinctive reaction made her feel for the phone immediately, and subconsciously wanted to call Liam Lu.

As soon as she found the page of the call log, a car suddenly drove up in front of me, and instantly rolled over the child!

Blood splashed on the spot!

"Don't—"

After a sharp scream, Zoey Gu shook her whole body, the phone "slapped" and fell, and her whole body shuddered softly on the seat.

It was just a child who was less than three years old. She fell to the side of the road and was crushed. Even though she had never seen her own child, she was still a mother.

She can't just ignore it!

With a pale face, she panicked to open the place in the car that could be opened. She felt a hard object in her hand, and slammed it at the edge of the car window...

Snapped!

The glass broke to the ground.

She was already small, and it didn't take much effort to jump out of the car. But when she climbed out, she was still stabbed with glass slag and his hands were covered with blood.

Regardless of the pain, she ran towards the blood-covered child with her leg, and knelt in front of the child with a "plop".

When she lowered her head to see the child's face, she was suddenly shocked, completely frozen in place.

That is not a child at all.

It is a doll made with ultra-high technology and extreme simulation!
