

Chapter 1941 - Liu Jie quit the fight

Now the Gasvin Fortress is trapped to death by the Volvara Armored Worm Legion, and the defeated soldiers who broke down along the Heavenly Sword Fortress and Red Sun Fortress are all resurrected in major cemeteries.

If Liu Jie wants to let the more than 10 million people under him die back outside of the Heavenly Sword Fortress, he needs to die at least 40 times. That is to say, this time, Liu Jie's main players have an average level of at least 4.

Below Dingzhou Fortress.

Liu Jie had already discovered the problem through the reports of his subordinates. At this time, he was thinking of a solution with the vice presidents such as Suan Cao and Yue Taishan in cold sweat.

Counting dead grass said in horror: "We have entered the encirclement, and we can't get out at all. Now we have only three options, either by storming the Dingzhou Fortress, or by storming the Gesuwen Fortress. We died, but once we die, there must be Lu Yang's men defending the surrounding large cemeteries. We are probably going to die and return to the outside of the Heavenly Sword Fortress."

Liu Jieqiang calmed himself and said, "It is impossible to attack the Dingzhou fortress. There is that bone dragon in the sky. Our damage can't kill him. There are golden devil and hills thrown out of unknown things on the ground."

Ru Yue Taishan nodded and said, "I agree with Shao Jie's point of view that Lu Yang's special army can no longer have more. The insects that besieged us are at best defensive, but how high their defensive power can It is impossible to withstand our attack."

The dead grass said: "I agree too."

Liu Jie said: "Then retreat, let the 6 million ordinary players run away, delay the time as much as possible, and the other lower gods will follow me into the Gaisuwen Fortress and attack Lu Yang's defensive position."

Everyone nodded and gave orders. The 4 million lower gods under the fortress of Dingzhou turned around and ran towards the fortress of Gesuwen.

In less than an hour, all the staff came to the bottom of Gaisuwen City. When Liu Jie brought the dead grass and others to the wall of the South City, he saw Lu Yang standing 100 meters away from them.

"I've been waiting for a long time." Lu Yang muttered to himself with a smile.

At present, his side is the easiest to break. Without him, the fortress is in the hands of Liu Jie, Lu Yang can only besiege outside, and the necropolis is in the area 30 minutes away. Liu Jie's next **** player fights. He died, but he could rush out of the fortress at any time.

Lu Yang looked at Liu Jie in the distance. For 6 years, he was thinking about revenge and hatred all the time. Finally, today, let him see Liu Jie himself again. The uncontrollable excitement made Lu Yang unable to help Liu Jiefei. Past.

100 metres

90 meters

80 meters

When he came to a distance of 50 meters, Lu Yang could already see Liu Jie's face clearly. A sneer appeared on his face and said, "It's not easy Liu Jie, I finally caught you."

Liu Jie stared at Lu Yang who was standing on Feilong. Six years ago, he would never have thought that the person in front of him could actually force him and his family to this situation.

Several times he wanted to send someone to assassinate Lu Yang, but he was spotted by Lu Yang's men, and he was always threatened by assassins sent by the Song family in Africa.

For many nights, Liu Jie regretted that he didn't choose to be in the human race first, so there would be nothing for Lu Yang. How many times he fantasized about killing Lu Yang and taking the family back.

He used to think that today was his most successful day. He defeated Lu Yang, but he didn't expect that this place would eventually become a trap set by Lu Yang. He could only leave this place if his tens of millions of players died 40 times. , Then he was tantamount to having suffered the worst defeat, and the Southern Front would be completely defeated. No one would be able to stop Lu Yang from unifying the entire New World.

New Continent, what a huge wealth this is. Any player who rules the New Continent will quickly become the richest person in the world. Once Lu Yang is ruled, he will never have a chance to stand up again.

Liu Jie stared at Lu Yang and cursed with jealousy: "Do you think you can trap us with this little strength? Today I will let you see how stupid your idea is."

While saying these words, Zhou Yuntian and Shen Yu had already swept the Gaisuwen Fortress three times with a scroll with the Air Combat Corps. Liu Jie was standing in flames and lightning and said to Lu Yang.

Lu Yang was still smiling at Liu Jie. He just smiled and watched without saying a word. Finally, he turned and left.

With his current status, it is meaningless to scold Liu Jie anymore. In this war, Liu Jie will definitely die, because the army of the Missile God Warriors under him has been assembled.

The Ten Thousand World Missiles can be used not only by the lower gods, but also by ordinary players. In three months, Lu Yang produced more than 7 million Ten Thousand World Missiles, and the money spent was astronomical.

Each Ten Thousand Worlds missile can hit 100 points of damage, and the attack range is 30 meters. In other words, Lu Yang prepared a grand funeral for Liu Jie under the southern city wall of Gai Suwen, although it could not be destroyed. He, but it was enough to make him unable to relax within a year.

Ruyue Taishan came to the city wall and just saw Lu Yang's back. He really wanted to kill Lu Yang, but the main archangels such as Zhou Yuntian and Shen Yu accompanied Lu Yang, holding the golden dragon crossbow in his hand. , Anyone who wants to attack will be shot first.

"Out of the city, punch through this turtle shell formation." Ru Yue Taishan issued an order.

The first group of 10,000 players rushed out of the fortress, but before they rushed to the front, the **** warriors in the distance released missiles, and the entire fortress was covered by a piece of missiles. This wave of attacks consumed 30 missiles. Ten thousand pieces.

The 4 million players inside the fortress and on the north and south sides were hit by missiles almost at the same time. Only a moment later, the players who were still alive in the fortress, except for the city wall as a shelter, died.

Liu Jie crawled out of the dead pile with difficulty, pushed the dead grass corpse aside, stood up and looked at Lu Yang raising his arm for the second time in the distance. His heart was full of boundless fear. He knew that. He lost this time.

This was a carnival belonging to Lu Yang. Liu Jie had nothing to do, especially after the resurrection of his men, the second batch of missiles covered the fortress, and 4 million people were killed and injured.

Then comes the third, fourth, fifth...

When the tenth wave of missiles was over, the dead grass came to Liu Jie's side and said bitterly: "Jie Shao, this time is my intelligence error. Please don't insist anymore. Order the brothers to withdraw from the fortress and return all of them. The Chiefs' Fortress, otherwise, our family assets would really be lost. Lu Yang really dared to give up the southern route and do his best to destroy us Liu Jie also wanted to use up the missiles, but he had 10 attacks. The missile was not over yet, and Liu Jie knew that he could no longer carry it. He was right. If he continued to resist, the end would be that all of his men fell out of the lower gods.

Even if the northern grasslands are all African players, these people do not welcome foreigners, but if Lu Yang pushes it, he will find it difficult to resist. It is very likely that the guild will end up disbanded. Thinking of this, he endured the pain and gave the order. Said: "Retreat, all members retreat from the Gesuwen Fortress to the Chiefs Fortress, we return to the grassland."

Tens of millions of players finally breathed a sigh of relief. They died out of the Gesuwen Fortress in pieces, and were resurrected in the necropolis behind Lu Yang. As a result, they were ambushed by the defenders who had defended the Tianjian Fortress. Tens of millions of players died again. One game, then back.

Similarly, the next necropolis will also have players from the Jagged Brothers ambush, the second time and then the death, then the third and the fourth...

After 40 consecutive deaths, Liu Jie finally retired from the Heavenly Sword Fortress with all his staff. So far, Liu Jie's players have quit the war in the New World at an average of 45 deaths and loss of all equipment and supplies. The Jagged Brothers The main force of the 30 million people, all their eyes aimed at the southern battlefield, Chekova, Mitoemon, Steiger and Roland panicked.

Chapter 1942 - 3 Yuemon defeated

Inside a special space.

Chekova, Mitoemon, Roland, and Steiger were frowning and staring at Liu Jie, who was standing in front of them with a look of shame.

"How did you lose? How could you lose so badly?" Steiger asked excitedly. He and Liu Jie played in the northern part of the New World for two years, and the two sides didn't know the outcome, but Liu Jie was actually killed by Lu Yang. In this way, Steiger was full of fear and disbelief.

Liu Jie looked at the four of them, and reluctantly told the story, and finally shook his head and said: "Sorry, I can't participate in the war anymore. Two-thirds of my subordinate players were beaten to the subordinate gods. Next, all the materials and equipment were snatched by Lu Yang, and I was unable to fight anymore."

Not only Liu Jie, including Steiger and the four players who supported the past, were all killed and fell below the level of the lower gods. This time, they suffered heavy losses in the assault.

Steiger, Chekova, Roland and Sanyou Eemon looked at each other. They had fought too **** the southern front. They only knew that Liu Jie had rushed under the Dingzhou fortress, and then they were forced to pay attention to the areas they attacked. The news is that Liu Jie suffered a fiasco.

They even suspected that Liu Jie and Lu Yang had discussed it, but after hearing Liu Jie's explanation, they knew that Liu Jie had fallen into Lu Yang's trap, but this was something that was irreparable, and they had no way to say anything.

"What to do?" Roland looked at the three and asked.

Mitoemon sighed and said, "Let's fight like this. The number of people will not play a decisive role in this kind of battle. We have deep and enough players, and Lu Yang is not that easy."

Chekova and the three showed excited expressions at the same time. Chekova said, "You mean let us abandon the front line fortress and retreat to the hinterland to fight Lu Yang?"

Mitoemon looked at the two of them helplessly and asked, "Is there any other way besides this?"

Chekova and others were speechless. Just as they were thinking about countermeasures, on the other side, the players of the Jagged Brotherhood were bursting out with violent cheers.

Lu Yang was also in the cheering queue. He held his fist high in his right hand and roared among the crowd: "The northern line has won, the northern line has won~!"

“Win~!”

“Win~!”

...

The players cheered frantically. Once upon a time, they thought they would be defeated this time, especially Xiao Liang was responsible for defending the Tianjian Fortress. Facing Liu Jie’s stormy offensive, they always had a fortress that could be defeated at any time. The feeling of breaking through.

But who would have thought that Xiao Liang used a trick to show that the enemy was weak, and Liu Jie’s main force, who was deceived and deceived, entered between the Gaisuwen Fortress and the Dingzhou Fortress and fought them a beautiful battle of annihilation.

Although there is a special job provided by Lu Yang for Xiao Liang, it is undeniable that Xiao Liang performed beautifully in this battle, and his defeat was very thorough. Even the layers of resistance in the organization were the same as the real ones, even dead grass. The Grand Army Division and top commanders such as Yue Taishan have all deceived, let alone Liu Jie, one of the world-recognized leaders of the Seven Great Guilds.

An unknown little person who deceived so many well-known counselors, generals and leaders. Xiao Liang became famous in a battle. Now Xiao Liang has 500,000 players stationed in the Heavenly Sword Fortress, and no one dares to say anything. Xiao Liang couldn’t keep it, and they also recognized Xiao Liang’s strength.

In this way, the result is that the battle on the northern front ends, and more than 4.5 million players have been transferred to the southern front. Today, the southern front is full of talents, not only the white lion, Xia Yuwei, bitter love half a lifetime, and Zhou Tianming, but also the turbidity of completely let go Pouring wine.

According to the previous plan, if there is a problem on the northern line, Zhuojiu needs to withdraw to the northern line for support as soon as possible. Therefore, until now, the battle is commanded by the lovely queen, Liangyun and others in accordance with the orders of Zhuojiu. Now that it’s alright, Xiao Liang has withstood the pressure, and Zhuojiu can fight on the southern line wholeheartedly.

The five strongest main vice-chairmen of the Jagged Brotherhood, all of them appeared on the southern front for the first time. Not only that, all the special legions have come, including the mover of the mountain, the summoner of the golden devil, and the warrior missile. Legion and Volvara armor beetle legion.

An extra 50,000 air combat corps appeared in the sky. Shen Yu brought 20,000 air combat corps to harass Liu Jie's logistics. Zhou Yuntian brought the remaining 50,000 people to the southern line, and Yun Yu's strength was further strengthened.

Half an hour in front of Qingyue Fortress.

Lu Yang personally brought more than 9 million players to the defensive position where Steiger and Mitoemon were united at a distance of 50 meters. Looking at Steiger and Mitoemon who were also standing in front of the formation, he said with a smile : "Will you continue to fight?"

There was a deep sense of powerlessness in both Steiger and Mitoemon. Steiger stared at Lu Yang and said, "We will not admit defeat."

Lu Yang sneered and said, "Steiger, you and Mitoemon, you only have so few people, why do you guard me?"

Two-thirds of Steiger's main force has retreated to the area under his control. Xiao Liang not only re-occupied the Heavenly Sword Fortress, but also the Chief Fortress. If Lu Yang is willing, he can bring people into the area like a flood. Steiger's area ruined his foundation.

Of course, this is too risky. It is possible to be ambushed by Steiger and Mitoemon and others, and eventually end up like Liu Jie. It is better to push it in the middle area like this, and just drop Mimowei from the front. Door, then clean up Roland and Chekova.

At this time, the defensive force in the Sanyou Gate area was only more than 2 million players, and the 9 million people facing Lu Yang were like Ye Bianzhou.

Santoemon looked at Lu Yang angrily, and said, "We will not succumb, we will never succumb, Lu Yang, you will die miserably, very miserable."

Lu Yang laughed and waved his hand and said, "Offensive, this war is meaningless."

The vice-chairmen of Xia Yuwei, Half a Life of Hard Love, and Lovely Queen each took 2 million players to attack the area of Sanyouemon from four directions. Desert terrain, there is no natural danger to guard, only once Attack, the outer defensive position of Qingyue Fortress was broken, the second attack, Qingyue Fortress was lost, the third attack, the Jagged Brothers 9 million players broke into the Sanyou Gate area.

Chekova and Roland, who were firmly under control, had no way of fighting between Lu Yang and Sanyou Eemon.

late at night.

Lu Yang's team had already reached the Fallen Leaves Fortress, and took a quarter of Santoemon's area into the bag.

Inside the Fallen Leaves Fortress, Xia Yuwei, Kuai Bansheng and others were very excited, but Lu Yang shook his head at them, and said, "The area of Santoemon is not that simple. You have to be careful. I fought back."

Kuai half-life asked: "What else can he do? I just saw him in the Japanese area calling on all players to fight with him."

Lu Yang said: "Be careful. This time we are completely occupying rather than short-term raids. With a population of 300 million players in this area, it is not so easy to win."

Chapter 1943 - Radvedev listens to the slander

The area controlled by Mitoemon is a bit special. There are players from three countries. If Lu Yang just wants to occupy this place and distribute part of the fortress to players from the other two countries, he just isolates Mitoemon, and soon Mitoemon was defeated.

This time is different. This time Lu Yang is fighting the war of destroying the country. He wants to completely destroy Miyouemon, and divide the two hundred fortresses in the Miemon area to his players and various affiliated guilds.

Another more important reason was that Lu Yang needed to choke Steiger's southward road and knocked down the entire territory of Sanyou Eemon, and Steiger's southward road was blocked. Steiger and Roland would stop. De and Chekova have no way to support each other.

Of course, there is another most important reason. Lu Yang is running out of money. The big decisive battle that lasted for nearly three weeks, according to the past, can last for another two weeks. After all, this is tens of billions of euros, but the reality is very real. cruel.

The two sides fought too **** the southern front. The damage in one day was more than the damage in the previous four days. In three weeks, Lu Yang's cash would be spent.

Lu Yang believed that not only was he almost out of money here, but Chekova, Liu Jie, Mitoemon, Roland and Steiger were also out of money.

Since everyone has no money, the war is about to end, just to see who can get the most benefits before the war is over.

Although Lu Yang could borrow money to continue fighting, Lu Yang was worried that it would arouse the determination of Chekova and Roland to fight to the death. Both Chekova and Roland have a great depth, and the depth of Santoemon is not small. If something goes wrong, it is very likely that Lu Yang's previous advantages will be gone, so it would be better to take it step by step.

What's more, when the war has reached this point, it is already possible to win by strategy. It is not only war that can solve the problem.

Lu Yang looked at Zhuojiu, Ayala and the others, and said, "You can discuss the course of tomorrow's war. It is enough to report to me tomorrow."

"Yes." Zhuojiu, Ayala and others retired.

This kind of negotiation is easy. Zhuojiu is to issue orders instead of Lu Yang. The major affiliated guilds are more afraid of Zhuojiu than Lu Yang. Everyone knows that Zhuojiu is the third person in the guild, and the position is almost the same as Tu Feng. Even if he defended the Heavenly Sword Fortress for so many years, it was time for him to break out.

Tu Feng and everyone else withdrew, looking at Lu Yang and said, "Boss, did you agree to my plan to kill Chekova with a strategy?"

A week ago, at the most urgent time of the Southern Front War, Tu Feng proposed a strategy to Lu Yang. After Tu Feng's observation for so long, he discovered that the Russian area controlled by Chekova was actually in charge of Rader. Videv.

In other words, even though Radvedev has lost the heart of the people at his current position, he is actually the actual controller of the two-headed eagle guild, but on the surface the rights of the guild are handed over to Chekova.

Two-thirds of the main command under Chekova's hand still obeyed Radvedev's orders. If Radvedev wants to withdraw his rights, it is just a matter of one sentence.

The double-headed eagle guild has actually been decayed to the point of completeness, and it can continue to this day, relying on Chekova's blade dance, her excellent commanding ability, and Radvedev's full support.

If Radvedev thinks that Chekova has rebelled and has the idea of betraying the double-headed eagle guild, or if Radvedev feels that Chekova has the intention to challenge his rights and status, then Radvedev That kind of power madman would definitely not tolerate Chekova.

In order to frame Chekova, Tu Feng gathered all his strengths, and almost forged Chekova's incriminating evidence. There was no more than Lu Yang's last order. Lu Yang did not agree before. One reason was that Liu Jie did not. Being fooled, only one Chekova withdrew from the game, and it couldn't hurt them.

The second reason is that Lu Yang didn't want to defeat Chekova in this way, just as Qin didn't want to kill Li Mu by falsehood when Qin destroyed the six countries.

You know, with only 100,000 people, Li Mu defeated the main force of the Qin army 200,000 in the first battle, and killed hundreds of thousands of the main force of the Qin army in the second battle. The Qin State who was persecuted by such characters had to use conspiracy and tricks to advance with slander Dedicated to King Zhao, saying that Li Mu had the idea of self-reliance. As a result, a famous general Li Mu was killed by the idiot King Zhao.

Lu Yang really wanted to dignifiedly defeat the two-headed eagle guild who used tricks to bring the two-headed eagle guild back to the world's strongest woman. Unfortunately, Lu Yang did not dare to bet on the future of the Jagged Brotherhood.

Lu Yang said, "Let's do it."

"Yes." Tu Feng smiled and called Bagley and said, "Man, it's time for you to play."

Bagley was lying at home and enjoying his life leisurely. Seeing the money received in the credit card, he raised his eyebrows and said to Tu Feng: "A week later, Chekova must be relieved of his duties, and the Double-Headed Eagle Guild must be released. Civil strife."

Tu Feng smiled and said, "Waiting for your good news."

Bagley looked at the hung-up phone, washed again, put on neat clothes, and flew to the Russian capital by private jet.

After the plane landed, he carried a box of cash, brought a black knife and a few hands down to a man's house. The man was very young and looked frivolous, but he looked like a high-ranking man. , Used to living a life that was touted, looked at Bagley arrogantly and said: "What are you looking for me?"

Bagley came forward and said two whispers, leaving a box of cash. The man looked at Bagley's back, then looked at the money, gritted his teeth, and returned home with the cash.

Then Bagley went to visit the second man, the third man and the fourth man, Same for uukanshu.com, everyone is a box of cash, and a few simple words.

After finishing all this, Bagley found a hotel to rest, and until the next morning, Radvedev, as usual, when resting at home, the four main elders of the guild respectively found Radveje. husband.

"Boss, Chekova is about to rebel. He is removing our old ministry and placing his men in the positions of the main army commanders."

"Boss, you can't let that woman continue to behave. The guild is about to lose. What does he mean by doing this is forcing you to hand over your shares."

"Now everyone in the guild is uncertain. Everyone is wondering if they want to follow Chekova. If this continues, the guild will have an empty shell."

...

Such words filled Radvedev's head. Radvedev was dissatisfied with Chekova because of the stalemate in the war and spending a lot of cash. Now he heard that Chekova had the idea of rebellion, Radvi Jeff was angry and cursed: "I'm not dead yet, come here, bring the helmet, I want to enter the game."

The people around had already prepared and handed the helmet up. Radvedev put on the helmet and flew to the winger fortress. Chekova, who was commanding at the front, rushed over.

“Your Excellency, why did you come in person?” Chekova asked curiously, her expression not being respectful.

For several months, it was Chekova who helped Radvedev to keep the border, and Chekova was tired almost day and night, and she had no extra thoughts to please Radvedev.

But Chekova’s expression made Radvedev, who was full of suspicion in her heart, even more suspicious. After all, it’s been months since Chekova took over. Radvedev has indeed given all the rights, but these rights It shouldn’t be Chekova’s all. Many of them were obtained by Radvedev at the expense of other shareholders and the right assistants around Radvedev.

Shareholders can still be suppressed. Those who had previously advised Radvedev and benefited from Radvedev suddenly lost everything, and it was unimaginable that they were in vain.

These people are slandering and speaking bad things day and night, and Chekova shows no words to them. Over time, it is impossible for Radvedev to have no thoughts in his heart.

Radvedev didn’t say it before, because Chekova managed the area he controlled well. Now he is about to lose the battle. Radvedev saw Chekova’s disrespectful expression again and was furious. Yelled: “Chekova, how can you betray my trust in you so much? From now on, I will relieve your position and you will get out.”

Chekova was dumbfounded, staring blankly at Radvedev and the sneer guild elders behind him. At that moment, Chekova felt ashamed.

They are all smart people, and Chekova can see at a glance why Radvedev did it. She didn’t expect that the person she tried her best to help was such an idiot.

There is a reason why he didn’t use Radvedev’s veterans. Radvedev, who was instigated by these people, fired most of the guild’s main army commanders and commanders, which caused the guild to be almost killed by Sanyou and Roland. De annihilated.

It was she who brought back the main army commanders and commanders who had been expelled, and stabilized the situation in the guild. These people and Radvedev's cronies are almost like a deadly foe, and they can't get along at all. , Chekova also despised these people.

She knew that these people would complain to Radvedev, but she did not expect that these people would frame him and Radvedev would listen to them.

Obviously, she was dismissed, not because these villains framed Radvedev to convince Radvedev, but Radvedev himself had the idea of removing Chekova and returning to power, only through the words of these villains. Come as a basis.

Since it was Radvedev's own thoughts, Chekova didn't bother to take care of Radvedev's affairs anymore. She did the best for the guild, but it's not her problem now, it's Radvedev. The idiot himself wanted to die. The guild he established, he died personally, obviously more appropriate.

"Your Excellency, I wish you all the best in the future." Chekova greeted slightly, smiled and took out the teleportation scroll, and flew back to the Tianyu God City. Then she found a hotel. When she was about to go offline and rest, she finally Still not holding back his anger, he sent a message to Lu Yang and said, "Congratulations, President Lu Yang, you successfully killed me, but the technique is not glorious at all."

Lu Yang already knew what Radvedev had done. When he saw this news, he couldn't help showing a smile on his face, and replied: "If possible, you are welcome to the Jagged Brotherhood. I would rather offend my subordinates. The vice president and the affiliated guild president also leave you one-third of the Radvedev area under your control. Are you interested?"

Chekova showed a stunned expression when she saw the news. She thought Lu Yang would come back with irony because she used more shameless tactics against Lu Yang, but 99% of them failed. She cares about her, but gives such a generous offer, she can't help but be moved.

To work for others, it is better to work for yourself. Besides, it was Radvedev who abandoned her. It was not that she abandoned Radvedev. She did not lose heart, but when she thought of her brothers, her face changed again.

“Let me think about it, and I will give you an answer in a few days.” Chikova replied, opted out of the game, took out the vodka at home, a woman a bottle of vodka, and just drank it.

Inside the game.

When Lu Yang saw Chekova’s reply, he knew that Chekova had agreed. He smiled and said to everyone: “Radvidev removed Chekova, and he took control of the double-headed eagle guild again. Guys, our The opportunity is here, Zhuojiu and Pado are ready, and we will attack Radvedev together.”

“Yes.” Zhuojiu and Padu both held hands together.

Lu Yang looked at the other players gearing up and said: “Everyone is ready to participate in the finals of the global martial arts competition. Our war against Radvedev is a week away. Taking advantage of this week, we will play the game first. Finish.”

If everyone were to be pressed to the winger fortress now, the commanders and legion leaders of the Double-Headed Eagle Guild, even if they hated Radvedev, would fight hard with the Jagged Brothers in order to defend their glory.

On the contrary, if Lu Yang does not attack Radvedev after he takes office, they will automatically split internally. Players who were previously resigned will never obey Radvedev’s orders, but will follow Chekova. .

After all, this is a game, and the New World is only an area controlled by them, not their country, and does not involve issues of principle.

At the moment, Zhuojiu and Padu quickly led their players to withdraw from the frontline battlefield of the Wing Forward Fortress and returned to the Black Rose and Blue River Fortress areas to be stationed.

Radvedev originally wanted to take advantage of the high pressure of the war to gain control of the guild, but he did not expect that he hit the cotton with a punch. Lu Yang would not fight him at all. After the entire army retreated, his orders followed Like a rubber stamp, no one listened to it.

70% of the guild's commanders and regiments were abolished by him. It was Chekova who chased them back. Naturally, he listened to Chekova's opinion. Therefore, a large number of the commanders and After the Jagged Brotherhood withdrew, the leader quit the game directly, and went offline to discuss countermeasures with Chekova.

Tu Feng reported on the developments of the Radvedev area in real time, and Lu Yang had already arrived at the main venue of the global competition.

After three weeks of competition, the global martial arts competition has come to the top 100 competition, because Lu Yang is the champion of the five consecutive individual finals, the sixth competition Lu Yang automatically won the global top 100 seat.

The other two-player, three-player, and five-player matches, because this battle involves players from all over the world, and more than 90% of the elites participated in this battle that determines the fate of the New World. Therefore, the official goal is to increase the ratings. Rate, dragged the number and time of the game back for more than a week.

Now that the war is about to end, the game can be played normally. The original 35 games a day has become 130 games a day.

Lu Yang looked at the match table. He couldn't help but smile. This person was not someone else, but one of the leaders of the temple organization, the Golden Lion. He wanted to know what the temple organization was doing now.

Chapter 1945 - The role of conscious reaction speed

The Golden Lion saw Lu Yang's expression change for a while, and finally gritted his teeth and said, "Unexpectedly, we will meet again here."

Lu Yang smiled and walked to a position 10 meters in front of the Golden Lion, and said: "I don't believe you never thought about playing against me again. After all, this is the global competition, my stage."

The Golden Lion was depressed for a while, staring at Luyang and said, "You still don't understand this world. Don't think that you have won several championships and have such a status in this world. In fact, this world is very strange to you. "

Lu Yang frowned and said, "It looks like you have a lot of things you want to say, but you don't want to tell me, but from your words, I can feel your hostility towards me. This should be behind you. The meaning of the temple organization, go back and tell your organization, I don't care what your identity is, the new world will definitely be conquered by me. This is an irrefutable fact, don't struggle anymore."

The Golden Lion snorted coldly, and said, "It depends on your strength."

Lu Yang knew that the Golden Lion was going to compete with him, smiled and spread his hands out, and said, "You don't seem to be qualified to say this to me."

While Lu Yang was chatting with Golden Lion here, on the other side, the host was introducing the players on both sides with a high tone before the battle started.

Naturally, Lu Yang doesn't need to elaborate on the introduction. All the media in various countries are introducing the Golden Lion in all aspects.

"Unimaginable, this is the dark horse that emerged this year. Since the start of the competition, he has made it all the way to the final. No one can hold on to him for 10 seconds. Absolute genius, recognized as capable. Challenge Lu Yang's master."

"We still don't know the identity of the Golden Lion. He is too mysterious. The only information we can know is that he once helped Tom against Lu Yang, but he was defeated by Lu Yang in a large-scale battle. This time he must be Come to find Lu Yang for revenge."

"We have reason to believe that in today's sixth martial arts competition, Lu Yang will never become the first place. The strength of the Golden Lion has made us forget Lu Yang."

...

Except for China, the hosts of other countries are derogating Lu Yang. Of course, this is understandable. Lu Yang has defeated their country's guilds one after another, and the rest are guilds that are at war with Lu Yang. Except for China, other media all over the world. I hate Lu Yang.

When the media from various countries introduced the countdown in the venue, Lu Yang looked at the time. When the countdown reached 0 seconds, he and the Golden Lion disappeared in place at the same time.

In the eyes of off-site audiences, they are accustomed to such battles. Since the official raised the limit of consciousness reaction speed to unlimited, the battle in real games has already made players feel that players with fast consciousness reaction speed are How terrible.

They can carry out physical attacks or release instant skills while moving at high speeds. Such battles are highly effective in normal sports.

The athlete who once said that e-sports is not a sport, when he was interviewed by the media, he had no face to answer.

Without him, this kind of battle is already a mental battle beyond the limits of the human body. What he embodies is the real human limit, the limit of the human brain.

No one knows how such a game will affect the future world, but everyone knows clearly that this is the future direction of mankind.

Human consciousness is in the body, limited by the constraints of the body, unable to exert the most powerful state, but if human consciousness enters the real machine, the robot is controlled by human consciousness to do things, and the power of this robot, If everything, such as reaction speed, is the same as the characters in the game, what kind of world change will occur, is beyond human imagination.

Even many people in the military think that the masters of the arena should be allowed to enter the body of a robot like Gundam...

Of course, you must first study robots like Gundam. Another thing is that a peaceful world will not allow such things to happen. It's just that these e-sports masters have received much more attention than usual. A large number of e-sports masters have already received With the favor of major universities, it is really no longer a legend that the name of an e-sports expert can enter the special recruitment quota of famous universities.

Therefore, the popularity of e-sports players is even more unimaginable. Almost all the people are star-chaser e-sports masters. Among them, e-sports masters like Lu Yang have become a role model for everyone.

Nowadays, seeing the video of the battle between Lu Yang and Golden Lion in the arena, players can only rely on the 30x slow-motion camera to replay the battle between the two, even if they can't see the battle between the two, but still let everything The players gave out crazy shouts.

In the battlefield.

The battle between Lu Yang and the Golden Lion has become fierce. Unlike the battle on the battlefield, there are people everywhere. Now the two are one-on-one, and there is a large area around them. Therefore, the two of them are not easy to hit easily. The opponent is looking for weaknesses in the opponent during the high-speed movement.

Although Lu Yang's strength was two levels higher than that of the Golden Lion, the Golden Lion kept running, and Lu Yang couldn't help it. Perhaps the Golden Lion felt that there was no way to escape. He decided to compete with Lu Yang. While running at high speed, he suddenly turned back, and in the process of turning around, he aimed at Lu Yang with both hands.

"Anger Thunder"

Two bolts of lightning passed through Lu Yang's body in an instant. Unfortunately, Lu Yang had been staring at the golden lion. The moment the golden lion released his skills, he moved away. The thunder light just hit his phantom. At the same time, Lu Yang raised his hands flat.

"God Flame Sky Burst"

The small golden fireball is like a machine gun, constantly hitting the golden lion's walking path. With this kind of high-speed moving attack, Lu Yang has no ability to predict the golden lion's position, and can only do his best and win the chance.

Maybe the Golden Lion was lucky, maybe he became stronger, and Lu Yang didn't even have a small golden fireball to hit him, but the Golden Lion was running out of magic at this time. He didn't want to hide anymore and took the initiative to welcome Lu Yang. I rushed over, thinking that the battle will be determined.

What Lu Yang hopes most is this style of play. Seeing the golden lion rushing towards him in an irregular zigzag shape, his body is also moving at high speed, fighting against each other in a zigzag shape. The golden lion cannot control Lu Yang. The law of, this time is even more confused, can only continue to fight with gritted teeth.

The audience outside just felt that the two shadows were getting closer and closer in the irregular movement, and finally, the two shadows collided together.

"Thunder Fury"

"God Flame Sky Burst"

In that 0.1 second moment, the two black shadows separated after colliding, and the shadows disappeared, revealing the appearance of Lu Yang and the golden lion. The difference is that Lu Yang was standing while the golden lion was lying on the ground.

At that moment, Lu Yang's two small golden fireballs hit the golden lion's head, and the golden lion's attack was within 0.01 seconds, and Lu Yang evaded it.

The players have not reacted yet, they are still staring at the fighting on both sides with relish.

The host, including the host, was watching the slow motion and yelling. Most of the viewers in front of the TV and in front of the video did not notice, because their screen was divided into two, and a small part was a real-time fight. The other part is slow motion.

Everyone was watching the slow motion with enthusiasm. They didn't even have the courage to take a look at the live fight. It was too fast for them to see clearly.

However, there are still people who watch real-time fights on small screens. For example, a young girl who is arguing to watch cartoons but is forced to watch games by her parents, facing her parents watching slow motion with relish, the girl's immature voice sounded.

"Mom, why did the two people on the left screen stop while the one on the right is still playing?"

For example, a middle-aged person who is not keen on games can't understand his children's enthusiasm for games. When passing by, he pointed to the small screen and said: "I'm done playing, don't know what you are watching?"

such as.....

Of course, this is only a very small group of people, but after they discovered this problem, many people began to spend a lot of live broadcasts and send messages to TV stations.

Hosts from various countries who are broadcasting madly heard the news from the backstage through their headphones. Lu Yang, who had been standing by and waiting for a long time with his eyes swept away, all blushed, and then everyone was embarrassed.

It was Dubin who reacted the fastest and roared with laughter: "Oh my God, audience friends, what have we done? Lu Yang has already finished the game. We haven't found out yet. We are still playing his Slow motion, this is terrifying. The reaction speed of the human brain is so much faster than the speed of the body. The limit of the body, the limit of the human body is too low."

The players who watched Dubin's live broadcast also reacted. Looking at Lu Yang who was standing there for a long time, and watching the video of the fighting on the right screen, everyone's eyes showed outward expressions.

"If one day the human body can reach the same speed as the consciousness reaction, this would be a great thing." Someone in the live broadcast room said with emotion.

"Hey, if that were the case, we would not be humans, but gods." Someone immediately replied.

"How do you know that humans cannot become gods? Maybe in the future there will be a big explosion, invasion of other worlds, or alien invasion of the earth."

Everyone: "..."

"crazy."

"impossible."

"The materialistic world."

"The end of science is theology."

...

Because of the speed of conscious reaction, the war started again, but everyone has a clear understanding that modern sports has become less important than conscious competition.

In the field.

The referee suddenly appeared, facing Lu Yang with a look of shame, and said: "The fight was too fast, we did not see clearly, so we need to replay to determine how the opponent defeated. Now it has been determined that you won without any problems, you are the winner of this game."

Lu Yang smiled and teleported out of the arena. After he quit the game, he enjoyed the thunderous cheers of the audience. Then he returned to the rest area and rested comfortably.

In the game, the second game did not start immediately, and the official is still slowing down the scenes of the fighting on both sides to ensure that players can clearly see how the winner is determined, so that no one will make a fuss later.

It lasted for nearly 20 minutes before the player watched the battle between the two in 30 times slow motion. At this slow motion speed, they could see the battle between the two to the maximum extent possible, but when they finished watching, The players are also crazy.

The battle lasted less than 2 minutes, and the game was played slowly for 20 minutes. They still watched the game when their eyes felt fast. It is conceivable how terrifying their conscious reaction speed is.

Before the start of the next game, Dubin sighed and explained: "This is no longer the category of humans. I don't know what the future will become. But it is undeniable that humans like Lu Yang and Golden Lion have already It is a kind of precious wealth of mankind."

No one can argue, at least, there are not many such human beings among the tens of billions of people in the world.

When the next game starts, the battle will return to the level that humans can see normally. The reaction speed of the players on both sides is about 5 times faster than the normal person, which is equivalent to 5 times the fast-release speed.

Even this kind of battle still makes the players watch with gusto.

There were 50 battles in the whole day today, which should have been broadcasted all, but there were 7 more battles like Lu Yang and Golden Lion, which caused the match to be postponed for a long time.

The audience discovered that there were 14 players like Lu Yang and Golden Lion in the world. Lu Yang was also watching their games. It was obvious that these people should be the temple, the dark warrior and the saints. After waiting for the members of the organization, just didn't meet them before the top 100 competition, and now they met, they all played extremely fiercely.

Lu Yang's first feeling was that these organizations were not friends, but they were not enemies, but they had no interest relationship with each other.

Judging from the information on hand, Lu Yang knew that these people were all players who entered the game before the public beta. They should be the official affiliates of "Second World", but the behavior of these affiliates is unpredictable. .

They are not for money, nor for fame. They simply want to explore this game. In the last life, Lu Yang was the bottom of the game. He didn't bother to figure out what the game was about, but in this life he is still more concerned about this game. of.

Right now he is about to unify the entire new continent. He can take this opportunity to study exactly what is going on in this game. After all, a player's consciousness can enter the game. This is inherently problematic, and this body has a problem with it. Like a real person, you can feel the hot and cold temperature, and can appreciate the taste of food.

If there is a chance, he would like to go to the official base to take a look and see the most magical core in this game. Of course, there is another thing that makes him curious, that is, the end of the Devil's Heart.

After reaching the 200th level, looking for the Blazing Demon God can get any news, this should be the most secret news in the game, perhaps it will be of great help to the entire guild.

While thinking about the problem here, on the other side, Tu Feng called and said, "After we stopped the attack, the two-headed Eagle Guild began to turmoil inside. Chekova's army commander and commander actually did not take it. Devidov's salary was the salary that Chekova offered. The bottom players didn't have a salary, so Chekova and Radvedev made it."

Lu Yang laughed, he knew that it was Chekova giving him a gift.

Chapter 1947 - Ice prison

Of course, it is also possible that Chekova wanted to take a breath. Radvedev was quite unkind to Chekova. Others crossed the river to demolish the bridge, and Radvedev took a step to demolish a board. Now that it's all right, Chekova helped him tear down the remaining half, and the two fell into the river together.

Lu Yang said: "Let Chekova and Radvedev continue to fight. We have already taken the Japanese area. The only way for Steiger to go south is the Hundred Flowers Fortress. It is now in our hands. Roland is surrounded by us. The siege and failure are only a matter of time and time. Taking advantage of the competition this week, let's restore the economy."

Tu Feng said, "I'll make arrangements."

Lu Yang hung up the phone and returned to the game to personally take care of the resumption of work. More than half of the players returned to their respective territories to make money, and the remaining half were responsible for defense.

Here the Jagged Brotherhood rested, but on the other side, Radvedev was dumbfounded. He was like a stupid Erha. At first he bit people everywhere, but bit and bite and found that the opponent had counterattacked, and his strength was not small. , And there was a hunter with a shotgun beside him, Erha was dumbfounded.

"Roland, Liu Jie, Steiger, help me stop the mad woman Chekova. If he attacks me like this, he and I will be finished." Radvedev sent a message to others in the group. Several people.

In this group, Mitoemon has not been online for a long time. Since being annihilated by a wave of attacks by the Jagged Brothers, Mitoemon has been in a self-enclosed state and no one has been seen.

Among the remaining people, Roland was overwhelmed by himself. He knew he could not win, but he thought of a way to build himself a circular castle in the 180-level map area, which is also a fortress. He decided to use this fortress. Fighting a protracted battle with the Jagged Brotherhood, so, regarding Radvedev's situation, he just chuckled and typed and said, "You do it yourself, what can we do."

Steiger almost cursed in an incontrovertible tone: "You are an idiot. With Chekova, you can hold on for a while. What are you doing in person? You forgot how much you are in the Double-Headed Eagle Guild. Have you been treated? Stupid trash."

Radvedev saw the reply from the two and broke the wine glass in his hand. Finally he went to ask Liu Jie. Fortunately, Liu Jie saw that he called Chekova on the thin face in the past, but Chekova He directly hung up the phone and blocked Liu Jie.

After Radvedev learned about Chekova's affiliation from Liu Jie, he was immediately silly. He knew clearly that Chekova was going to betray them and chose to rely on Lu Yang, otherwise Liu Jie would not be blocked. of.

Thinking of one-third of his players rebelling, two-thirds of the legionnaires and regiment leaders rebelling, leaving him only an empty shell, Radvedev went into the hospital in a rage.

No one knows whether he is really sick or fake, but no one will pity him this time. Chekova's counterattack is in full swing, so in the afternoon of the next day, Radvedev was discharged from the hospital. Obviously, It is pretending to be sick.

After three days of playing, Radvedev failed to win Chekova, and Lu Yang has already advanced to the top 20.

Inside the game.

Players have become accustomed to competitions where the competitive masters can't see clearly their movements. Facing the TV screen, everyone automatically looks to the big screen on the right, and the small screen on the left just occasionally glances.

Lu Yang's opponent this time was called Morken, another dark horse. He had never appeared in the game before. Facing Lu Yang, Morken had disdain and mockery on his face.

"It is said that the president of the Jagged Brotherhood is powerful. I have always wanted to learn about it. I didn't expect the opportunity to come just like this. It's really exciting." Morken was a white man, with all his jagged teeth showing when he spoke. Came out.

Lu Yang felt sick for a while, and said, "Shut your mouth when you are speaking. This bite is not disgusting."

"You scold me?" Morken was a little confused, he didn't expect Lu Yang to attack him personally.

Lu Yang stepped back and said, "It's okay to be ugly. Your teeth are still so ugly. When you speak, you still want to show your mutilated teeth. You are sick."

"I..." Morken showed a gloomy expression, staring at Lu Yang and said, "You will pay for what you just said."

"Hehe, you are not worthy." Lu Yang didn't bother to talk to him.

You don't need to guess that those who can come to this scene will not be the scattered people masters. If they were, they would have been taken away by Tu Feng or other great guilds. The only ones who can participate in the battle as individuals are the temple and the dark The inexplicable organization of the samurai.

Lu Yang is also tired of this matter now. These ghost organizations can't find any news at all, and even the Song family doesn't know anything about it, let alone Lu Yang. However, this group of people is gradually being exposed to it. Before him.

There are only so many maps in the game between level 180 and level 200. These people still want to continue to open up wasteland. If they don't cooperate with themselves, he can make these people unable to live in their own area.

After all, they didn't open up wasteland to understand, and people like themselves have caught up with their level. The only thing that needs attention is that they don't know what level the bosses behind these people are. If uukānshu.com has reached level 190 or close to level 200, it is not fun.

However, judging from the information received so far, the bosses behind these mysterious forces, more to say, are at level 190, and they can't beat Gust, who is guarding the Chiyang Fortress, and Garad, the son of the Dragon God. Mongolian.

Thinking of this, Lu Yang looked at Morken with a smile on his face, and said, "Come on, the fight is over early. I didn't fight with Golden Lion before, I hope you can make my fight easier."

Morken's strength is two levels higher than the Golden Lion. This is also his capital for challenging Lu Yang. He sneered when he heard the words and said, "I hope you won't let me down."

As soon as the voice fell, the system prompted the battle to begin!

The spectators from all over the world who watched the game once again saw that the small screen on the left turned into two black shadows and the fire and frost shot from the black shadow. They looked at the big screen on the right with their usual eyes.

On the big screen, Morken opened the small domain skill ice hell, so wherever he goes, there is ice within 30 meters. Anyone who enters his attack range will suffer spell damage with the same intelligence.

On the other side, Lu Yang also opened the focus of small domain skills, and the power was even more powerful than that of the ice prison. Morken originally thought that using the ice prison and high-speed movement could trap Lu Yang, but he did not expect that Lu Yang was better equipped with spell damage. It is taller, and there are more special items than him. Not only did it not take advantage of Lu Yang, but it was stuck by Lu Yang.

Lu Yang didn't need to attack. He just followed around Morken and performed irregular movements at extremely high speeds. Morken couldn't dodge, only a counterattack with all his strength. Unfortunately, a blue hockey puck also hits. Not in Luyang.

But just when everyone thought that Morken would be defeated in this state, Morken suddenly shouted.

“Ice Prison·Forbidden”

Chapter 1948 - Tiandao organization appeared

With Lu Yang as the center, the 30-meter area around him instantly froze and turned into a large solid ice hockey puck, but just as the ice hockey was about to complete, Morken’s head burst into flames.

The next second, the ice puck dissipated, and Morken lay on the ground in confusion, while Lu Yang stood intact, looking at the defeated Morken, and said: “With this trick, you are not enough. grid.”

Morken said unwillingly: “How do you know my skills will freeze together.”

He hadn’t seen Lu Yang’s first life, and said, “Not only do I know this skill, but I also know the follow-up Ice Hell kill routine called Ice Eclipse. It’s a pity that this is a very useful big move on the battlefield, not a match. On, as long as there is a slight flaw here, you will be caught by others. You must remember that the one who can stand here now is one of the 50 strongest people in this game.”

Morken was helpless and left with his fists.

Lu Yang also quit the game. The next game is estimated to be tonight or tomorrow. He takes advantage of this time to rest.

Now what the Jagged Brotherhood has to do is to cultivate its voice. He also knows about Roland’s creation of a giant defensive fortress, but he doesn’t care about this giant defensive fortress. For him, no matter what the fortress is, it is nonsense.

After waiting from morning to night, his game was moved to the next day. After sleeping peacefully for a night, Lu Yang returned to the game scene.

The light flickered.

Lu Yang entered the game. This time, a Chinese player appeared in front of him. Although he had an unfamiliar face, Tu Feng had very complete information. This was an official player with a mysterious background.

The female player looked at Lu Yang with a sense of lofty eyes, and said proudly, "I believe you have guessed my identity."

Lu Yang smiled and said, "I don't know who you are, so let's show it yourself."

The female player chuckled and said, "You can call us Tiandao, I am one of the members of the Tiandao organization."

Lu Yang snorted coldly and said, "What are you telling me about this now?"

The female player arrogantly said: "My name is Baiye. Your strength has been recognized by us. You and your organization can participate in our actions."

Lu Yang smiled speechlessly, and said, "How old are you? The six or seven organizations, including the temple, saints, and dark warriors, have not been able to defeat me. What qualifications do you have to say to me? It's an exaggeration."

The female player seemed to have known Lu Yang would say this for a long time, and said triumphantly: "We are different from him, don't try to provoke us, otherwise, I will let the studio be wiped out."

Lu Yang snorted tauntingly, and said, "You can come and try it. I also know that you guys don't show up during the war to grab the fruit. What are the methods."

Bai Ye was irritated, staring at Lu Yang and said, "Don't be ignorant of good and bad."

Lu Yang said, "You are also worthy to say this to me, don't let me find where your organization is, otherwise I will punish you and let you die out of the lower **** status."

"You." Bai Ye didn't think that she would use her identity to press Lu Yang, but it had no effect. This made her very annoyed.

System reminder: The countdown is over and the game starts!

Lu Yang was really angry. With his current status, there are only a handful of people who dared to threaten him like this. Since this guy wants to play evil, don't blame Lu Yang for using all his strength.

"If there is any official suppression, I will tell all the Jagged Brothers and players across the country that the game city will move overseas. The reason is that you guys want to invade my guild. I want to see who can protect you. , Who can protect your organization behind the scenes." Lu Yang instantly came to Bai Ye's side, punching Bai Ye's abdomen with his right hand.

This blow was Lu Yang's hateful blow, and it turned out to be a lot faster than before. This made Bai Ye completely unable to react and was blasted away straight.

Immediately after Lu Yang rushed over, he shot out the Divine Flame Skyburst with both hands at close range, Bai Ye was still in the threat of Lu Yang and couldn't help himself.

Before this game, the Tiandao organization had studied how to grab shares of Luyang Guild. Originally, they wanted to threaten Lu Yang and even put it into action, but Lu Yang's words made Bai Ye stunned.

Now the Jagged Brothers League is the most important part of the East China Sea Economic Development Zone. If the Jagged Brothers move as a whole and take away the Game City directly, the consequences will be extremely huge, which is not allowed by players all over the country, and even the upper level cannot. Allowed.

As soon as he thought of this, Bai Ye knew that a few of them had made a mistake, and he offended Lu Yang at the beginning of the scene.

Just thinking of this, a small pure golden fireball had already arrived in front of her. Bai Ye, holding a dagger, jumped behind Lu Yang in the air during the process of retreating, and the two daggers were aimed at Lu Yang's brain, in mid-air to get rid of inertia. The action was inserted.

Lu Yang didn't even look at the top of his head. Suddenly a fire burst out above his head. Bai Ye was hit by the explosion, and he was dizzy on the spot for 2 seconds.

"God Flame Sky Burst"

Bai Ye's head was hit by 4 divine flames in a row, and she lay on the ground. When she got up, the battle was over.

Bai Ye asked unwillingly: "How do you know that I will attack there and accumulate energy in advance?"

Lu Yang said: "You will also be able to do this three-legged cat, go back and practice again."

He found that if the Heavenly Dao Organization were all fools like Bai Ye, there was no need to deal with it, it was too wasteful.

Bai Ye stared at Lu Yang and said, "You will regret what you said today."

Lu Yang sneered and left. When he returned to the guild, Lu Yang said to Tu Feng: "Check the Heavenly Dao organization, and try to find out their details."

Tu Feng thought for a while and said, "We still don't act for the time being. The Heavenly Dao Organization will not appear suddenly. There must be some reason. I will try my best to investigate it, but you must not be impulsive."

Lu Yang nodded and cursed: "This organization is too boring. We must step up our strengths, otherwise, we will be restrained everywhere."

Tu Feng nodded, and he also felt uncomfortable for a while. Suddenly, he said to Lu Yang: "Be careful, this group of people may start from the inside."

Lu Yang nodded, he sent a message to Tian Feng and the others, and decided to talk to them about this matter. If people really instigated rebellion from within, then Lu Yang would be ashamed.

The other side.

Bai Ye's negotiation with Lu Yang failed. She returned to the Heavenly Dao Organization and explained Lu Yang's method of stiffening the Heavenly Dao Organization on the condition of moving away from the Game City. This made all the members of the Heavenly Dao organization angry.

"I don't believe that Lu Yang really dared to move away. Is he crazy? No more industry with hundreds of billions of dollars?"

"Where can he move? Abroad? It's still not the same."

"Haha." A mocking voice suddenly appeared and said: "What's the point of your hypothesis, if he really dares to move away? Your family can bear the anger on it, be careful, don't get the benefit, The things that you and your family have were taken away by the above."

Everyone was shocked, and they were silent.

Chapter 1949 - Kill the middle god

In the next few days, Lu Yang carried out a self-examination within the Jagged Brothers League while competing. He was not afraid of this, because there were lessons from the past.

After Lu Yang called for help one by one, from the information he received, the other party was not too strong, but his identity was relatively special. This made Lu Yang feel relieved, and with the current status of the Jagged Brotherhood, others asked him to cooperate. Yes, but not threats.

After figuring it out, Lu Yang continued to participate in the competition, all the way from the top 50 to the finals. For this kind of competition, the official originally thought it would be a decisive battle between a hundred schools of thought, but he didn't expect to really compete with Lu Yang. None of them.

Perhaps because of rebirth, Lu Yang's soul was several times stronger than others, as if it had been tempered by something. The top master at this stage has a reaction speed of 0.09 seconds, but Lu Yang's reaction speed has reached 0.03. Seconds away.

Don't look at the difference, but the state in the game is that Lu Yang can easily capture the opponent's movement speed, while the opponent can't grasp Lu Yang's actions at all.

Lu Yang also has a high-level equipment. In the semifinals, the suppressed opponent had no reaction ability at all, and it became a unilateral sling.

The key is that Lu Yang feels that his reaction speed is entering a state of rapid development. In the game, even if he doesn't do any exercise, it will still automatically become faster.

With this reaction speed, Lu Yang felt that he could go heads-up against the peak mid-level **** in the dungeon. Taking advantage of the other finals for a few days, Lu Yang returned to the game.

Eastern mountains.

Nine-headed Demon Fortress, this is a 190-level fortress in the middle of the Ayala area. Not far from the fortress, there is a 190-level lower **** map vicious pool.

In this pond, there is a creature called the Nine-Headed Demon Insect. As the name suggests, it is a huge insect with nine heads. In official history, the Nine-Headed Demon Insect is one of the main enemies of the Nine Pillar God in ancient times. Their bodies contain drama. Poison, all creatures touched will die within a few seconds.

The nine-headed demon insects reproduce extremely rapidly, occupying almost the entire eastern mountainous area, and have a tendency to rush out of the mountainous area and spread to the central continent. However, these insects are extremely resistant to the environment, such as the flames, ice, and ice of the middle gods. Thunder and lightning can't kill them.

In order to prevent the Nine Demon Insects from eroding the entire New World, the Nine Pillar Gods used to jointly act to gradually kill the Nine Demon Insects and only this area was left.

Then, the nine pillar gods jointly set a seal here, which restricted their reproduction speed, so so far, the reproduction volume of the nine-headed monster has not reached the boundary of the vicious pond.

Lu Yang came to the vicinity of the Vicious Pond not to kill the nine monsters, but because there was a flame formation carved by the Flame God King Ak Thomas himself. This is a magic formation that can be used by lower gods, with 100 people working together. It can be combined into a magic circle, and hit the damage of the middle **** with a full blow.

The so-called full blow, that is, the damage of the top-level spells played by the middle-level **** wearing the top-level equipment. This kind of damage can kill the average high-level god.

Roland relied on the 180-level lower **** map to build a fortress, which was a joke for this Vulcan formation. He summoned his wings and went directly to the edge of the vicious pool.

This extremely vast pond glowing with green liquid is even larger than the lava sea, and a large amount of green poisonous mist evaporates from the pond.

This poisonous fog is extremely poisonous. With Lu Yang's current blood volume, 80% of his blood volume would be lost if he was poisoned.

Lu Yang avoided the poisonous mist and flew towards the 11 o'clock direction of the poisonous pool. Half an hour later, he flew to the edge of the poisonous pool. Behind a piece of corroded rock, there was a huge temple.

The sculpture of the flame **** Aktomas stands in the middle of the temple. It is more than 100 meters high. The statue is very majestic and angry. With his left hand pointing to the front, he releases fire elements into the vicious pool from time to time.

When arriving at the mouth of the vicious pool, it will turn into a flame and melt into a nine-color element magic array.

Lu Yang fell at the foot of the Ak Thomas sculpture. There was an entrance between the feet of the sculpture, and there was a layer of golden barrier on it.

System prompt: You found the Temple of Lieyan!

Lu Yang walked to the boundary surface and triggered the boundary with his left hand.

System prompt: Please select the number of copies and difficulty!

This mid-level **** copy is divided into 5, 10, 20, 40, and 100 people. The difficulty is divided into easy, medium, difficult, epic, and nightmare.

Lu Yang chose the Hundred People Difficulty and Nightmare Level, and then stepped in. A light flashed, Lu Yang appeared in a very clean and tidy temple, and a large number of flame slaves over 3 meters tall were wearing golden robes in the cleaning hall.

Flame Slave-Devil Beard (Middle God)

Level: 190

Qi and blood: 200000/200000

The devil's whisker is a humanoid monster with only one head. It looks similar to a murloc, with 8 whiskers on both sides of the head.

These beards are the key to the release of the monsters, and these monsters are very annoying. They know the ability to resurrect. Every time they die, they will lose 4 beards. like 8 beards must kill. It takes 2 times to really kill them.

Many players in the previous life suffered a big loss in this instance. Who would have thought that the devil's beard could be resurrected after 10 seconds.

So far, this is the first monster in the game that knows the resurrection spell besides the phoenix. In official history, the reason why the Devilbeard family became slaves is also related to this resurrection.

It is the patriarch of the Demon Bear clan, praying to the Demon God to grant them the power to regenerate, at the price of eternal slavery.

With Lu Yang's current strength, it would be fine to kill these devil beards, but it was very laborious, but Lu Yang didn't need to do this, he had wings.

The wings of the wind elemental archangel can make him fly in the instance, so he directly summoned the wings and flew into the instance.

Passing through the square and the hall, we came to the main hall. Inside the main hall, there is also a statue of the God King of Flame, and a giant 5 meters tall is praying to the god.

Devilbeard Patriarch Lockdo (Middle God)

Level: 190

Qi and blood: 600000/600000

Lockdot spotted Lu Yang and said with a grin: "Your strength is too low, you shouldn't be here."

Lu Yang smiled and said, "Then you have to try it before you know it."

Rocdo's smile was even greater, and he snorted at Lu Yang.

"The God of Fireball"

A huge fireball with a diameter of 10 meters arrived in front of Lu Yang at a speed of 0.1 seconds through 100 meters. But at that instant, Lu Yang had finished flying and landed on the ground. While avoiding the fireball, he aimed both hands at Locke. More mouth.

"God Flame Sky Burst"

Four consecutive small golden fireballs hit Rockdore's mouth and immediately knocked out his more than 4000 HP. That was Rockdore's only weakness, and there would be no magic resistance.

Chapter 1950 - Super skills

Rocket didn't care about Lu Yang's output, and aimed at Lu Yang's head again with a huge fireball of the gods.

"ember"

Lu Yang leaped to Rockdor's side with a ray of light, and would avoid the big fireball. This is the benefit of faster reaction speed. No matter how powerful the monster is, there is still no way for him.

"God Flame Sky Burst"

Lu Yang continued to use the fireball to attack more. Rotor's HP was hit by Lu Yang from 100% to 50%. The skills he used were the Celestial Fireball, but when his HP dropped to 49%, he was more. A skill.

"God Fire Shark"

Six flame bombs that looked like sharks flew towards Lu Yang. Lu Yang waited for this skill, or the feature of a fool is that it would automatically track the target. If you want to avoid this skill, you can only wait for the last 0.04 seconds. , Fled at the moment they collided.

1

0.5

0.1

...

Lu Yang didn't look at the fire shark bullet. This thing looked like it had arrived. In fact, it was another matter of hitting the body, so it's better not to look at it. It's better to just count the seconds.

The moment Lu Yang read 0.04 seconds, he instantly activated the Ember skill and jumped to the distance. At the same time, aiming at the mouth of Locke with both hands, he began to spit out the second batch of fire sharks.

"God Flame Sky Burst"

The small golden fireballs once again hit Rotor's mouth. If there are players watching from a distance at this time, they will definitely be shocked, because Lu Yang can't see the figure at all, only the constantly releasing Shenyantian Boo shot out from his hand, and all he could see was a giant monster Rocdo that was constantly spitting flames at the jumping shadows.

This stalemate lasted for a full 3 minutes, Rocket's HP was hit to 0, a light flashed, Rocket's screamed and fell to the ground.

Looking at Lokdor's corpse, Lu Yang did not step forward, because he knew it was not over yet, and he still had the ability to resurrect him.

This is where the lord blames the most disgusting person. Not only is the disgusting person resurrected, but there are also regulations that must be killed within 10 minutes, otherwise he can be resurrected.

Lu Yang flexed his muscles and drank a bottle of potion, then continued to bombard Rockdor wildly.

In this martial arts competition, Lu Yang felt that his skills were still too few. Compared with the large number of magic skills of others, he only had three or four that could be released.

If he had fire shark bombs when he was fighting with people before, then the battle would not be so troublesome. Of course, the probability that the tracking skills of fire shark bombs would fall is too low, and Lu Yang didn't expect it too much. If the fireball burst out, he would be satisfied.

Soon, Rector's blood volume was emptied again. This time, Rector will not be resurrected again. Lu Yang took a look at his spiritual connection and it had fallen to 94%. If he dropped 3 more points, he had to force it. Quit the game.

He came to Lockdor's body and looked at the objects falling on the ground. There were three items in total.

"Mage of Celestial Formation"

Type: Flame Array

Requirement: Lower God of Fire

Cost: 100 god's mana

Description: Gather the power of 100 lower gods to bombard the target, causing extremely high damage, with a range of 50 meters.

Lu Yang received the skill book into his backpack. This was an immovable cannon. Once it was built, it was extremely powerful.

Lu Yang received the transfer certificate in his backpack, looked at other items, and two skill books. To Lu Yang's surprise, he even exploded the Celestial Fire Shark and the Celestial Fireball, and equipped one of them. None of them dropped.

He couldn't help but smile, put away his equipment and returned to the outside of the dungeon. After teleporting back to Tianyu God City, he found a hotel to quit the game and rest.

Waited until early the next morning.

Lu Yang's game began. This time he was playing against a white-haired female player with a cold and aloof expression, as if no one looked down on it.

"Chairman Lu Yang, we finally meet." The female player said slowly.

Lu Yang smiled and asked, "You are?"

The female player looked at Lu Yang proudly and said, "I am the daughter of the leader of the Dark Warrior organization. You bully my husband, I'm here to be fair."

Lu Yang Yile said, "I have heard about you to a certain extent, you are blind, look for Liu Jie."

The female player didn't expect Lu Yang to speak so unceremoniously, she was immediately angry, and said excitedly, "Why do you curse?"

Lu Yang laughed and said, "I saw Liu Jie scolded him even harder. I couldn't beat him in this cosplay game and just played yin outside. I would like to see if he was raised by you. What is the ability to come back."

The woman was furious and said, "Give me to die."

Two black rays of death instantly swept across Lu Yang's body. Unfortunately, all that swept across was a phantom, and Lu Yang had already appeared 100 meters behind the woman.

"If you have the same virtue as Liu Jie, you know sneak attack." Lu Yang said contemptuously.

The woman snorted coldly and said, "This is a tactic, what do you know."

Lu Yang looked around and said loudly, "Liu Jie, your woman is not sensible, don't blame me for teaching, the **** of fire shark six flame bombs like big sharks hit the woman After the past, the woman drew sideways contemptuously, but she didn't expect the flame bombs to turn around and explode on the woman.

After the fire, the look of the magic robe on the woman was dim. Obviously, this was the magic robe that had just opened the magic shield and resisted the full blow of the **** fire shark.

The woman stared at Lu Yang and said, "Does the skill turn?"

Lu Yang sneered, and suddenly turned on the Embers skill, quickly approaching the woman, and in the blink of an eye, the distance between the two was less than 10 meters. At this moment, when the woman was about to release her big move, Lu Yang spouted the skill first.

"The God of Fireball"

A woman instinctively wanted to avoid it, but at such a close distance and such a large range, she couldn't avoid it at all. The woman sturdily took the damage of a large fireball, four times the normal divine flame sky burst.

At the same time, the Celestial Fireball also had a knock-up effect, knocking the woman upside down and flying away. At this time, the woman was left with a trace of blood. He wanted to escape. Lu Yang's Celestial Fire Shark had cooled down and he threw it out again. Six.

The woman didn't even have a chance to increase blood. She was waiting for Lu Yang to approach. Now she has another trick, alien swap. Both sides swap their blood and positions, but they need to be within 10 meters.

Unfortunately, Lu Yang stood still and did not move, raising his hands flat, and chanting a spell.

"God Flame Sky Burst"

Little pure golden fireballs flew toward the woman, and the forcing woman could only slam into Lu Yang.

In the previous life, Lu Yang had a very clear understanding of the skills of the **** of death. This woman was from the **** of death faction, and a lot of them were life-for-life skills. Now she rushed over and assumed that they had also changed their lives. He was not fooled.

"ember"

Lu Yang turned around and ran, anyway, after 5 seconds, his Celestial Fire Shark had cooled down, and he could attack again.

Chapter 1951 - Lu Yang won 6 consecutive championships

In the field.

Usually Lu Yang is chasing other people in the fight. Today, it has become someone else chasing Lu Yang. If you don't understand, you think Lu Yang has the disadvantage, but the commentaries from various countries can see that women's actions are too obvious. , Being chased by Lu Yang's skills, not only didn't want to run away, but also wanted to hit Lu Yang, making it clear that he was going to make a big move.

“How should I put it, Miss Harris may think of Lu Yang too simple.” The German host sarcastically said that although Liu Jie and Steiger are now in an alliance, the two players have fought so many life and death battles before. He also knew that it was because of Lu Yang that he was forced to walk together, so the explanation was merciless.

“Harris is completely insulting herself. How could Lu Yang let her get close? Although I don’t know what Harris has a big trick, this way of relying on the past is too obvious.” The British host said .

The host of the American TV station looked at the guest black yarn and asked with a smile: “What do you think.”

By virtue of her relationship with Lu Yang, Hei Sha once again became the guest of the largest live broadcast commentary in the United States, and said with a smile: “Miss Harris should use Death’s life-changing skills. Lu Yang will not be fooled. If it continues, Miss Harris is afraid that she will fail.”

In the field, Lu Yang’s movement speed and reaction speed were obviously a lot faster than Harris, and Harris tried his best to catch up.

The width of the field is about 200 meters in total, and the linear movement speed of the two is about 100 meters in 1 second. Under the rush, they can reach the boundary in 2 seconds.

Every time when he reached the border, when Lu Yang ran in other directions, Harris thought she could catch up with Lu Yang, but every time it was a little bit worse.

Don’t look at the speed of only a few tenths of a second, here, it is a ditch, it has nothing to do with hard work, only with talent.

It’s like singing. Some people have a natural voice, and some people just know how to sing when they work hard.

Lu Yang’s talent is that his consciousness reacts faster than ordinary people, and the apex that he can touch is higher. Therefore, Harris just couldn’t catch Lu Yang.

After 5 seconds, Lu Yang's skills had cooled down, and he chanted a spell while running.

"God Fire Shark"

Six shark-like flame bombs scattered in front of Lu Yang and slammed into Harris behind him.

At this moment, there are 6 Fire Sharks behind Harris, and now there are 6 more in front of her. She couldn't do it even if she wanted to dodge, she could only watch 12 Fire Sharks hit her together.

After a violent fire, Harris fell to the ground, and when he stood up again, the game was over.

Lu Yang walked up to her, smiled at Harris and said, "Go back and tell Liu Jie for me. He can't hide for too long."

Harris sneered and turned into a ray of light and left the game. This time, when he came to China for the game, Liu Jie didn't come in person. It was Harris who led the team.

Originally, Lu Yang wanted to find Liu Jie through the plane returned by Harris and the others, but he discovered that Harris' next stop was not in Africa, but to Europe.

However, this is not an important matter anymore. With the current state of the Jagged Brotherhood, after the New World is flattened, Liu Jie will have no source of income, and will soon be betrayed by his subordinates, or come out by himself.

The light flashed.

Lu Yang also quit the game. Seeing the thunderous cheers of the audience, he waved to the four sides. It was certain that he was the champion of the individual finals. With his current reaction speed, no one would be able to. Beat him again.

The audience seemed to be aware of this, and they didn't know who was the first to shout: "Six in English."

Subsequently, the audience shouted collectively.

“Six~!”

“Six~!”

“Six~!”

This is the meaning of the sixth crown, which means that they have recognized that Lu Yang is the champion of the sixth martial arts competition.

The host Du Bin sighed and said, “It’s amazing. Lu Yang conquered not only domestic players, but players all over the world were conquered by him at this moment.”

Tongtong nodded with emotion, and said, “We have been with him for six years and witnessed Lu Yang’s growth with our own eyes.”

Du Bin’s sideburns have gray hair, but now he has reached a very high position. On the one hand, he is very strong, and on the other hand, it is because of Lu Yang.

Only he can get Lu Yang’s exclusive interview permission. With this and superb ability, he is already the number one in the stage. If it weren’t for Lu Yang’s game, he would not easily end the commentary.

“Lu Yang is already a hero of China, and what we are looking forward to now is that he won the championship of this martial arts competition, and then we will watch him win the current war.” Du Bin said.

The top floor of the office.

Lu Yang had put on his helmet again and entered the game, then flew to the vicious pool, and continued to play Rocto.

The next three days of the game were all carried out in this way. After the game, Lu Yang used Rocto and the transfer certificate of the Blast God Array Mage.

By the time of the fourth day it was finally the last game, and Lu Yang's opponent was also selected. He was a German player named Xilin, a very strong one meter tall. Nine-five human warrior player.

In this commentary, neither the host nor the guests were interested, as the British host said privately: "It is like football. Even if there are two geniuses in an era, let them confront each other, we also have It's a contrasting thing, but now Lu Yang Yiqi Juechen makes everyone unable to catch up. If it's a peak, Lu Yang is already halfway up the mountain, and they are just about to climb down the mountain."

The German host said: "Fortunately, there is a critical limit to the speed of consciousness reaction in the game, that is, the limit of skill speed. As long as the official does not open this limit, Lu Yang is not invincible."

Officials are also aware of this. According to their calculations, the player's reaction speed cannot be exercised so fast. This is like breaking the record of a 100-meter long distance race. Humans also gradually entered from 13 seconds to 10 seconds.

Lu Yang was equal to when everyone was still hovering for about 13 seconds. He was already swaying for about 10 seconds. He was caught off guard by the official, but it was too late for the temporary modification. You can only watch Lu Yang easily kill Xilin. Won the overall champion of the 6th Global Competition Individual Competition.

When the game was over and Lu Yang walked out of the game compartment, Xilin and Lu Yang gave a warm hug to express their admiration.

Standing in the center of the illuminated venue, Du Bin faced the 100,000 players and shouted: "Let's congratulate Lu Yang for becoming the overall champion of the sixth global martial arts competition."

The fireworks filled the audience, the music was deafening, and everyone could not suppress the shouts of the players. Today, it was mainly Chinese people who came to the stadium. They once again witnessed Lu Yang's ascent.

Chapter 1953 - Chekova Retreat

Now that Chekova told him this, Radvedev was not stupid. He knew that Chekova had feelings for the two-headed eagle guild, not only Chekova, but also all the players under her.

After all, these people were once the backbone of the Double-Headed Eagle Guild, and they had paid so much for the Guild, it was impossible to just watch the Guild be wiped out by the Jagged Brotherhood.

What Chekova meant was nothing more than to want the equity of the Double-Headed Eagle Guild, and it was a large piece of equity. If Radvedev wanted to impress Chekova, he had to pay more than 30% of the equity. As for Lu Yang Radvedev doesn't believe that 30% of the area can be given to Chekova.

With the strength of the Jagged Brotherhood today, it is not difficult to forcibly flatten his area. It is completely unnecessary to pay so much for a Chekova.

Unfortunately, he didn't know that Lu Yang was really willing to give Chekova 30% of the area. As for the reason, Radvedev could not understand it. Fortunately, Radvedev made a correct decision. Said to Chekova: "I bought your guild with 35% of the shares of the double-headed eagle guild. How about this transaction?"

Chekova smiled and said: "Not enough, 40% of the shares, full control of the company, from now on you can only be behind the scenes, absolutely can not fight with me for power."

"How is this possible?" Radvedev said with some irritation, "Then what am I doing playing this game."

Chekova sneered and said: "You can't play anymore now. Change a wave of players in four years. If you want to re-emerge, it will be four years later at the earliest. Moreover, the Internet has memory. What you have done has been completely Lost the trust of the players, if it weren't for me, you would have had nothing last time."

Radvedev was speechless, but he was still not reconciled, and said: "Change to a way that I can accept. I can't accept this way."

Chekova still did not retreat, and said: "You don't have to accept it. The area you are in is all deserts and prairies. Only in this area under my control can there be mountain roads and no dangers to guard. What do you use to resist Lu Yang, resist the full blow of the Jagged Brotherhood."

Radvedev was speechless, and what he worries most now is this. Why did the nine strongest guilds in the central region unite together when Lu Yang was still in the tiger's mouth, that is, they have no risk to defend. .

The Central Desert, extending from the G8 region to Radvedev's region, has no natural risks to defend. Therefore, after the nine of them can't tell the outcome, they formed an alliance. This Only then has one family dealt with the Iron-Blooded Brotherhood, and the other eight have come to support it.

Now that Lu Yang is coming over, Radvedev has no natural risks to guard. The only place where there are some mountain roads is still controlled by Chekova.

"Do you really want to watch the double-headed eagle guild be done like this?" Radvedev couldn't help but play bitterly.

Chekova chuckled and said, "All the guilt lies with you. If you give up your rights and take the initiative to bear the guilt, wouldn't these problems be eliminated?"

Radvedev said angrily: "This is the guild I created."

Chekova said, "So you still want me to work for you. When Lu Yang comes, you will use me, and when Lu Yang leaves, you will withdraw me, right?"

Radvedev stopped and said angrily: "I gave you enough money."

Chekova smiled contemptuously and said with some sarcasm: "Do you think everyone is like you, doing everything for money? We have a bottom line and principles."

She deserves to be Radvedev expelling 95% of the management team in order to save money.

Chekova went on to say: "I want 51% of your guild's shares. These shares are not for me alone, but for the brothers who follow me. You agree, we merged and fought together. If you disagree, then Feel free."

Radvedev was taken aback. He originally thought that the shares Chekova wanted were for him, but he didn't expect it to be for her subordinates. If this is the case, Radvedev felt that the guild would still be in his control. In his hands, it's nothing more than wooing people, which he can play better than Chekova.

"Yes, I will give you this share of the company, and your company must be held by all management." Radvedev said.

Chekova understood what Radvedev meant, snorted contemptuously, and said: "Yes, let's sign an electronic contract. My guild itself is your affiliate guild. As long as you add us back, my guild Players on the side can immediately teleport to the wing fortress and work with you to resist the attack of the Jagged Brotherhood."

Radvedev said excitedly: "I can also withdraw all the players deployed to you, now I finally have confidence."

Chekova proudly said: "Lu Yang is just a lot of people, but in terms of fighting will, he is no better than us. I will mobilize all the forces that can be mobilized to fight against the Jagged Brothers. I will block them from the wing fortress. outside."

Radvedev nodded in satisfaction, and the two quickly drafted the contract. In fact, several legal advisers on both sides had been waiting at any time. They all knew that they could only fight Lu Yang together. If they were separated, they were all looking for death.

The contract was reviewed in only 20 minutes. After confirming that there was no problem, the two parties quickly signed the name. After the upload was completed and the official review was passed, Radvedev excitedly sent an invitation to Chekova's guild.

Chekova quickly clicked to agree, and the two guilds merged into one guild, and all the players of the Double-Headed Eagle Guild and Chekova Guild also saw the system prompt for the first time.

“Ula, we have become a union again.”

“No need to kill each other, my brothers.”

“We fend off the Jagged Brotherhood together.”

“Ula.”

...

Amidst cheers, Chekova teleported back to the winger fortress. When she and Radvedev appeared in the front position together, the players burst into more enthusiastic cheers.

Radvedev resisted his unhappiness, smiled and said to Chekova: “My friend, you are welcome back. Now is the time for you to take over the double-headed eagle guild again. I will withdraw and you will command everything. .”

“Ula.”

“Chekova commands us to win.”

“Ula.”

...

In the cheers of millions of two-headed eagle guild players, among the face smiles of Radvedev and his **** confidants, Chekova suddenly said loudly: “Brothers and sisters of the two-headed eagle guild, now I I have taken over the guild again, do you follow my command?”

“Ula.”

Everyone shouted loudly, it was because of the depression brought to them by the Jagged Brotherhood in the past week.

Chekova nodded in satisfaction, shouting on the megaphone while typing on the guild channel, saying: “Since you all listen to my orders, I will issue the first order now.”

Radvedev waited expectantly for Chekova to tell her that she would try her best to stop the Jagged Brotherhood. However, Chekova exclaimed: “Now everyone listens to my orders, all retreat to Mount Aral. Fortress, we are behind the fortress, fighting to the death with the iron brothers.”

Chapter 1955 - Lu Yang uses scheming again

Now.

Millions of players from the Jagged Brothers moved westward and easily took over more than 200 fortresses in Radvedev.

Of course, it takes 5 days to run from the wing fortress to the westernmost side of the New World map even with the best mount.

The millions of players in the Jagged Brotherhood had different types of mounts, and it finally took 7 days to occupy all the fortresses.

Rainbow Fortress, the closest fortress to Mount Aral, takes about 8 hours to get there.

When Lu Yang brought a small number of players to the bottom of this fortress, he happened to see Chekova who was haggard on the wall.

In 7 days, Lu Yang's false news spread all over the sky and reached the ears of the Double-Headed Eagle Guild players. It just so happened that Chekova announced the disbandment of a large number of players, abolishing a large number of 10-man team captains, 20-man team captains and a hundred people. The captain of the team, pulled them out alone and transferred them to the lower gods, filling the team of other players with higher positions.

In other words, Chekova compressed 75% of the organization. As a result, the entire double-headed eagle guild complained. Originally, they thought Radvedev was wicked enough, and Chekova's coming to power was even more wicked than them.

But Chekova wouldn't do it. More than 200 fortresses were taken away by Lu Yang, and her income suddenly dropped by two-thirds. If Chekova didn't do this, she would even publish the salaries of the main players in the guild. .

But the problem now is that Chekova did not make the vested interests happy, but also offended 90% of the players in the guild.

The reason is very realistic. Originally, this man was the captain of the centurion team. In the blink of an eye, one hundred brothers who had played with him for two or three years were abolished. He still kept it. How could he have the face to stay! How do you face your brother's eyes!

As for the abolition, it has been publicly stated that Chekova and Lu Yang have reached an agreement in private to do such things that harm others and disadvantage themselves.

Especially the video of Lu Yang talking from the inside of the Jagged Brothers League, and the contract between Lu Yang and Chekova.

A contract cannot be faked. Although Chekova did not sign it, many people around Chekova have seen this contract. One of them was a spy under Tu Feng. In order to destroy Chekova, Lu Yang did not hesitate to let this Spy exposed.

The direct result of this was that Chekova was almost expelled from the guild again, and it was Radvedev who helped Chekova to survive.

In this matter, Radvedev fully supported Chekova, thinking that Chekova was framed, and the development of the guild has reached a deadlock. Everyone can only make money in batches and want to stay in the guild again. Can only prove their worth.

To this end, Radvedev also issued an apology letter and published an apology through the media, which saved Chekova's position. But now Chekova is unable to move within the guild. After many orders are issued, the following are The only people who really understand Chekova are the dozens of legions of her hard-core direct line, because those dozens of legions have not been abolished.

Although everyone knows that the dozens of legions in Chekova's hands are the lower gods, but when they think that the abolition is their own, and Chekova has not suffered any loss, the shareholders are arguing, and they are so upset every day. Things are making trouble.

Chekova originally thought she could figure it out, but after experiencing it, she knew that she did not have the prestige of Radvedev back then. Even if there is the threat of the Jagged Brotherhood to attack at any time, they don't care at all, because they have already He was sentenced to death, and put on the attitude that since he was about to die, everyone would die together.

If Chekova didn't want Lu Yang to attack before, now Chekova has to beg Lu Yang to hit her. If she does, she can still suppress the emotions of the players.

It's a pity that Lu Yang's purpose in spreading these rumors is not to fight, and to make Chekova chaos inside. Now it is not only within them who hate Chekova, Roland hates him most.

After Roland knew that Chekova had abandoned more than 200 fortresses and hid in Mount Aral, the spy reported that Roland called Chekova every day as a XX.

Now Roland is like a fool, surrounded on all sides by the Jagged Brotherhood. Before, Roland had Sanyou Eemon on the top, Tom on the bottom, Orma on the right, and Radvedev on the left.

Before, he felt that he had been very unlucky, caught among so many powerful people, but today he knew that the unlucky thing is now, now he is all Lu Yang above, below, left and right, all of whom are the main force of the Jagged Brothers League.

The only thing that made Roland feel lucky was that he had already sold the buildings in other fortresses, and only one Black Star Fortress remained, which was on the 180-level map behind Darkmoon Fortress.

The reason why Lu Yang hasn't fought anyone in the past few days is that he is taking over. Roland also has more than 200 fortresses. After he got busy, he arranged the siege of Black Star fortress and took over all the fortresses. Lu Yang just ran. Come and have a look at Mount Aral.

Tu Feng followed Lu Yang, with a team of wind elemental archangel wings on him, which made the players of the major legions jealous at Tu Feng.

In their opinion, Tu Feng is a conspiracy and trickery. Such a person has been reused by Lu Yang. The wings that their main army commander and main main army commander do not have, they let Tu Feng get it first, so they have to find Tu Feng. Come desperately.

"Boss, I still feel uncomfortable wearing these wings." Tu Feng looked at Lu Yang apologetically. He didn't expect the wings to cause so many things.

Lu Yang smiled and said: "You still don't understand. These wings are not only rewarding you, but also rewarding spies who struggle in the dark. They can't reveal their identity, and I can't give them too much clarity. The rewards on the face, therefore, are all piled on you, no matter what other people say, you just need to be calm, everything is mine."

Tu Feng sweaty, nodded and said, "Thank you, boss."

In six years, Tu Feng has been from Lu Yang's classmate to Lu Yang's most steadfast partner now. Not once has Lu Yang entrusted him with Tu Feng, and Tu Feng has not done his best.

Perhaps Tu Feng's ability is not the strongest. He is not inferior to Xiao Liang in terms of loyalty. Even if there is a life-death task for Tu Feng to do it, Tu Feng can rush forward without asking why.

This has been proved in many previous secret operations, especially the two trips abroad. Once foreign players find out, Tu Feng can be killed on the spot. You know, foreign players hate Tu Feng more than Zhou Tianming and White Lion. Even thicker.

At present, Zhou Tianming is righteous, no one criticizes him in this regard. The White Lion guards the tiger's mouth and resists so many attacks from the nine strongest guilds. Although no one is defeated, everyone admires the White Lion.

Not to mention to Lu Yang, he hates and admires him. Only Tu Feng. Since players all over the world know that there is a shadow behind Lu Yang called Tu Feng, who specially engages in conspiracies and tricks for the whole world to kill Tu Feng. The sound never stopped.

From the internal instigation of Alice and the Blackshade Guild, the stolen supplies of the Orma Guild, the assault on the supply base of the Tom Guild, and the spies inside the major guilds, everything was settled on Tu Feng's head.

If it weren't for the advanced internet information in this era, you could see pictures of Tu Feng himself. If it were in ancient times, Tu Feng would have long been described as a three-meter-tall, two-headed, full-mouthed monster who specializes in cannibalism. .

Also because of the exposure of the photos, every time there is a big battle, players in some areas like to take to the streets. People who were supposed to scold Lu Yang's photos turned into scolding photos holding Tu Feng.

Tu Feng took all these things down for Lu Yang, without saying a word, still standing quietly behind the scenes, doing the boring things he should do.

It's boring to read information. You need to find useful clues among the many pieces of information. If you are busy with these things every day, you have to be busy until midnight. The next day you have to report in front of Lu Yang full of energy, which is not something ordinary people can do.

Lu Yang put a hand on Tu Feng's shoulder, looked at the Yalar Mountain opposite, and said, "Look at the surrounding terrain with me. It looks easier than a tiger's mouth."

Tu Feng nodded and followed Lu Yang's patrol, followed by 5,000 Demon Dragons behind him.

From the high altitude, the terrain of Mount Aral is extremely special. It is a map that needs to climb the mountain first if you want to attack the fortress.

The fortress was built on the mountainside. There are steep cliffs on both sides of the fortress. You can't climb it without any strength. It is like a tiger's mouth, but it is different from a tiger's mouth, which is absolutely impossible to climb. The steep cliffs that go up are generally high. The cliffs on the right side of Mount Aral are undulating, and it is possible to climb up, but it is very difficult.

The mountain road is very narrow, the mountain is still bald, there is not a single tree or a small grass. From the top of the mountain to the bottom of the mountain, it is unobstructed, but it is difficult for the players under the mountain to see the situation on the top.

This means that the Ironwood Peak on the right side of the Aral Mountain Fortress can be climbed up. If you climb up, you can run directly into the Aral Mountain Fortress, but the top of the Ironwood Peak is now covered. Lu Yang looked at all kinds of strong fortifications and felt that this was not a mountain, but an oversized hedgehog.

A gust of wind hit in the distance, and Chekova stood on the back of a flying dragon and flew towards Lu Yang.

Lu Yang looked at Chekova and found her expression showing resentment for the first time. I have to say that Chekova herself is still beautiful, especially under the heroic prestige, plus this little expression is even more cute .

However, Lu Yang would not let Chekova get close to him. He said to the team channel: "Let's go, the whole army will be sent to the Roland area."

Everyone took out the teleportation scroll, and the light flickered in mid-air. Chikova was trying to find Lu Yang to prove herself. She had turned on the recording system, but she didn't expect Lu Yang to give her a chance.

“Chairman Lu Yang, you bastard, you stop for me and tell me clearly.”

“You are still not a man, so bullying me a weak woman.”

“A dignified general assembly master who occupies 70% of the map of the New World used this kind of conspiracy against a weak woman. I despise you.”

“You shameless, you stop for me.”

...

Chekova scolded while flying, but Lu Yang didn't stop at all, just smiling at her. When the distance between the two of them was 100 meters, Lu Yang also entered the last one second state, Chekova was just about to use The skill interrupted Lu Yang. Although she knew it was too late, she just didn't want to give up, but before she attacked, Lu Yang said loudly, “Good job, next time we meet, the contract is yours.”

The light flickered and Lu Yang disappeared. Chekova stood dumbfounded. Before this, in her eyes, Lu Yang had always been a bully, a person who did not want to use conspiracy and tricks, and liked to fight her opponents openly. People, but today she is a little blinded.

Returning to the fortress in confusion, Radvedev saw the desperate Chikova and said with a smile: “I'm miscalculated.”

Chekova raised her head in embarrassment, looked at Radvedev and said, “It feels like Lu Yang has changed.”

Radvedev and Chekova have a very good relationship now. The two are comrades in suffering and must be tied together. Therefore, Radvedev has not hesitated to clarify the confusion to Chekova, saying: “Before Lu Yang Being bullied by you is underestimating you. On the other hand, you are not the president of the double-headed eagle guild. Now he is not using you to deal with it. You are sitting in the position of the president of the double-headed eagle guild. He is Seeing you as a real opponent to fight, be careful, the whole world is playing conspiracies and tricks, these are the powerful and wicked conspiracies of these Easterners one after another.”

It's not just a strategy on the battlefield, China's attacking minds are countless. Foreign countries have never experienced a time when the population is like China's. In terms of playing mind and eye, they can't get one of ten.

Chekova agreed with Radvedev's words very much, laughed at herself, and said, "Should I feel so proud of being targeted by Lu Yang."

Radvedev shook his head and said, "It's not over yet. According to the current situation, Tu Feng behind Lu Yang must have bought a lot of high-level people by our side. Be careful, civil strife is the most terrifying thing, and This person in the turmoil may be the person you trust the most."

Chekova shook her head and said, "The people around me will not betray."

Radvedev stared at Chekova with cold eyes, and asked: "How did Tom lose? Have you forgotten? The number one deputy chairman of his team was instigated by Lu Yang's intelligence organization, that kind of loyalty Everyone can be instigated, why can you say that your subordinates will not be instigated?"

Chekova was speechless.

Radvedev said sadly: "If I hadn't made a mistake and got rid of everyone, Lu Yang's trick would be useless to me. My stupidity caused all of my men to leave me. Now we are one. As long as the broken ship lasts, it depends on how we fix it."

Chekova was a little confused.

What they didn't know was that Lu Yang deliberately brought Tu Feng over today, because so far, Tu Feng has not succeeded in instigating a high level.

He made Tu Feng appear, with only one purpose, making Radvedev and Chekova suspect that the senior staff under him. Once the first person is not trusted, everyone else will feel a crisis of trust, and then Tu Feng's opportunity will come. .

Fighting, the heart is the best!

Chapter 1956 - Black Star Fortress

Black Star Fortress.

This is a fortress built behind the Darkmoon Fortress at the core of the Necropolis in the center of the 180-level map.

The City of the Necropolis is an area controlled by the death gods. Roland was lucky enough to find such an area where there is no main **** sitting, and the highest is only guarded by the upper gods.

Relying on the background of the strongest guild, the upper **** was killed and the area was flattened to rebuild a giant fortress.

The characteristic of this fortress is that the walls of the fortress separate the undead creatures outside from the players inside.

But the city wall below is still the inner city wall of the original Necropolis, and hundreds of parts are the outer city wall built later.

As a result, the necromancers spawned under the city wall will not attack the wall, and the players outside want to enter and face the monsters spawned in the outer city of the necromantic city all the time.

For this reason, players below level 180, that is, the lower gods, have no effect on the attack of this fortress.

Even if it is a lower **** player, facing so many monsters, every refresh will disrupt the rhythm of the attack. So far, without Lu Yang, Zhou Tianming has tried to attack this area twice, all because of monster spawning. Interrupted the frequency and had to retreat.

Lu Yang stood outside the outer wall of the City of the Dead. Today he came to attack the Roland area. The purpose was very simple. To solve Roland at one time, he and his players, as well as the European players in this area, were restored. Thoughts.

For this reason, except for the lower gods of the Rainbow Fortress across from Mount Aral, the lower gods of the Baihua Fortress, and the lower gods of the Heavenly Sword Fortress, as well as the receipts for preventing rebellion in the control area, all the other lower gods, Together, the total number is close to 1 million, all gathered under this fortress.

This includes Ayala, Pado, Sidder, Li Wenxing and other affiliated guilds who can play the lower **** players. Now these people are gathered by Lu Yang and Zhou Tianming.

Lu Yang looked at Zhou Tianming, who was a little frowning beside him, and said, "To be specific, what's the problem here."

Zhou Tianming said: "Although there are entrances on all sides here, you can attack, but the inner city area is brushed every hour. There are hundreds of thousands of lower **** level monsters, and an average of 150,000 in each direction. Only around."

The monsters of the lower **** level have extremely fast attack and movement speeds. Players can either kill by means of operations or rely on melee lower gods wearing armor to fight against monsters.

Normally, a low-level **** with average equipment can only resist 3 attacks from the low-level **** mobs. The low-level **** in Zhou Tianming's hands is of average strength. He just cleared out the monsters, and didn't wait for two attacks. Ruined.

Ayala, Padu and others frowned when they heard Zhou Tianming's words. This was a very big problem for them, and they didn't know how to solve it.

Roland has disbanded all players below the lower gods, and now only 630,000 lower gods are defending in the Black Star Fortress.

Under normal circumstances, if you use the air force to take the scroll to blow up, it can destroy the morale of the opposite, but there are only lower gods in the opposite fortress, and the skills of the scroll are all damage below the lower god, and they are invalid.

This has led to the air force becoming a decoration, allowing the air combat profession to land and fight with players, purely looking for death.

Ayala looked at Lu Yang and said, "Your Excellency, what do you think?"

Lu Yang smiled, and said, "Hold on, I don't have a good way. Let's clear the field with a special army first."

Ayala, Padu and others have their eyes brightened. The special legion of the Jagged Brotherhood refers to the special lower **** legion, that is, the legions that unite and kill Liu Jie tens of millions of players.

It was precisely because Liu Jie was destroyed by Lu Yang with a full blow, Liu Jie was defeated so badly that he could only hide in the northern mountains to survive. Lu Yang was able to free up millions of people to participate in the southern attack. The door fell apart and Steiger was forced to return to the northern area to protect himself.

So far, these legions are in Xiao Liang's hands, stuck in the Heavenly Sword Fortress. Steiger, who was frightened, did not dare to make the slightest move, and even the Chief Fortress did not dare to occupy it.

Spies from all over the world are currently frantically instigating Xiao Liang, sending women, cash, and foreign green cards to ordinary people in unimaginable bribes, valued from millions to tens of millions of euros and dollars, but Xiao Liang is nothing like a stone. Moved.

For this, all countries are about to hate Xiao Liang, but they still have nothing to do, and in the end they can only admire, loyal minister! At the same time, he also admired Lu Yang, he is really good at employing people.

They couldn't understand the feelings between Lu Yang and Xiao Liang. Many people called Xiao Liang the dog slave beside Lu Yang, but Xiao Liang always smiled and ignored the incident.

No one knows how his Lao Dayang rescued him and beat those who bullied him in the early morning six years ago when he was too poor to go to school and was bullied.

No one knows how Xiao Liang grew up under the protection of Lu Yang since he was a child. Perhaps for others, Lu Yang was an invaluable friend. For Xiao Liang, Lu Yang was his direction of life.

Without Lu Yang, he might sell vegetables in a vegetable market, and then he was bullied, and his hands and feet were interrupted after resisting. No one cares about him or helps him. In the end, he can only bow his head to the other side and live humiliatingly.

But because of Lu Yang, Xiao Liang's life has changed. For six years, Lu Yang didn't assign any heavy work to Xiao Liang. Although he didn't have a title or a big job, everyone in the Jagged Brotherhood had to respect Xiao. Bright three points.

Even Tu Feng had to place himself behind Xiao Liang when he saw Xiao Liang, because Lu Yang had told everyone that no one in the Jagged Brotherhood could bully Xiao Liang. This was his closest brother.

On the bright side, everyone called Tu Feng and Zhuojiu the second-in-command of the guild, but everyone felt that as long as Xiao Liang had the strength of Zhuojiu and Tu Feng, then Xiao Liang was the second-in-command of the guild.

Now, Xiao Liang has done it. He really has the same strength as turbid wine, so Lu Yang really gave Xiao Liang the same status as turbid wine.

Controlling all the forces on the front line of the Heavenly Sword Fortress, holding nearly ten million players in his hand, so many people told him to give up the Chiefs Fortress, Lu Yang said nothing, and 100% supported Xiao Liang's operation.

So many people said that Xiao Liang had too many people. Once he rebelled, let go of the Heavenly Sword Fortress, and if Steiger drove straight to break the backbone of the Jagged Brotherhood,

everything in front of him would become a passing cloud, but Lu Yang was still unmoved. Trust Xiao Liang 100%.

The foreigners are confused, and no one can understand how this kind of trust between Lu Yang and Xiao Liang is established. After all, brothers can turn back for money. How can Xiao Liang be so indifferent in front of tens of millions of euros? .

Lu Yang knew that because Xiao Liang in his previous life had blocked a gun and died for him, Lu Yang just believed in Xiao Liang. Who said anything, other than getting Lu Yang's curse, it had no meaning.

Padu, Ayala and others had only heard of Xiao Liang before, but no one had seen it with their own eyes. Now that Lu Yang wants to mobilize the players under Xiao Liang, they are all wondering what kind of person Xiao Liang is. I want to see.

"Boss, can you bring Xiao Liang over here?" Ayala said with big eyes gleaming.

Padu nodded repeatedly and said, "We want to meet this magical commander."

The same is true for Li Wenxing and Shidell.

Lu Yang was about to make a call. Seeing this group of people with this expression, he smiled and said, "It's nothing special. He is not as handsome as Zhou Tianming. He is the same as the vice president of the Jagged Brotherhood like Zhou Tianming and Zhuojiu. Are my best brothers."

Over the years, what Lu Yang lamented most was that he found such a group of good brothers, Zhou Tianming, Zhuojiu, Bai's Sanxiong, Kuai Bansheng and Tianyao. Everyone is a true brother of iron and blood. Working hard for Lu Yang.

Although Zhou Tianming, Zhuo Jiu and others didn't care about Xiao Liang's affairs, they were still moved when they heard Lu Yang say this. They couldn't help looking at Lu Yang. Their boss was so benevolent. It was the first time they saw them. In my heart, I felt that Lu Yang was similar to the ancient Taizong, and he could share the world.

“Boss, let’s call and we will also communicate with each other. In the future, such a large area will belong to everyone. Maybe we will meet it soon. We will work together early. Get acquainted early.” Zhou Tianming said.

Love half a lifetime and said: “I mean that too.”

Zhuojiu and Baishi et al. asxs head.

Lu Yang smiled and shook his head. He knew what the group meant, and he opened the phone and said to Xiao Liang: “You personally bring the special lower **** army to come over, and temporarily hand over the management of the fortress to your deputy.”

“Ah? Do I need to go over? I’m useless.” Xiao Liang blinked and said.

Lu Yang said: “Come over and get acquainted with the leaders of the affiliated guilds. It will be convenient for business in the future.”

“Okay, I’ll take someone there.” Xiao Liang hung up the phone.

Behind Xiao Liang, several special legions such as the Golden Devil Necromancer Legion and the Mountain Reacher Legion had been prepared long ago. He commanded loudly, “All teleport to Darkmoon Fortress.”

Chapter 1957 - All special legions arrive

Tens of thousands of lights flashed.

The outer city of the Darkmoon Fortress was instantly filled with the Special Legion of the Iron-Blooded Brotherhood. Xiao Liang said loudly, "Leave the city in order."

Everyone nodded.

The four city gates opened at the same time, and tens of thousands of legions rode their mounts to the northwest corner of the Darkmoon Fortress. After re-organizing the army, they ran to the periphery of the Black Star Fortress in a uniform manner.

The other side.

Lu Yang took this opportunity to lead more than 1 million lower **** players to quickly clean up the lower **** mobs outside the city wall on the south side of the city of the dead.

In just half an hour, Lu Yang hit the inner city and saw a huge black fortress more than 50 meters high and 5 kilometers long.

The fortress was filled with battle flags of blue, white and green, and tens of thousands of lower **** players under the lower **** Roland were standing on the wall and staring at the situation under the wall.

In the very center of the city gate, there was Roland standing. Seeing Lu Yang personally came, he still showed an exaggerated expression, laughed and said, "Lu Yang, what's the use even if you are here? If you can't beat my fortress within a few hours, your subordinates will be dead. I advise you to die the heart of siege."

"Summon Wings"

Archangel wings appeared behind Lu Yang and flew him to an altitude of 50 meters. Looking at Roland with blood red eyes, he sighed and said, "Lao Luo, why bother."

"Lao Luo?" Roland knew very well what tactics Lu Yang wanted to use now, nothing more than to persuade him to stop struggling. He didn't know, but he was not convinced.

“Lu Yang, don’t get close to me. I won’t admit defeat in this war. You want to defeat me completely. It’s not that easy. I will survive until you are defeated by Liu Jie, Steiger and Chekova.” Roland De roared.

“Drink~!”

“Roar~!”

...

Tens of thousands of Roland players on the wall roared to Roland for support.

Lu Yang smiled as he watched Roland shook his head, and waited for the shouting of the other party’s subordinates to continue, then said: “What caused you to have this illusion? What era is it now? We are not enemies of life and death, that is It’s just a game, what are you doing to kidnap players with such a mess of things.

Is this a real world war? If you lose, you lose your country, if you lose, you lose your life? No, your fortress was broken by me. It was you Roland who lost, you did not develop a good guild, and you delayed the player brothers who accompany you to break through. Now you are going to be finished and you are still kidnapping them. , Does it make sense? “

Roland blinked. He thought Lu Yang had persuaded him to surrender. How could he turn his head to despise him? He felt bad, and looked at the surrounding players and found that everyone’s expressions were confused.

Indeed, the fortress was broken. What does it have to do with them? It’s nothing more than Roland losing. It’s not a shame. It’s also a shame for Roland. What ordinary players like them can do, they have done, and the guild finally Failed, Roland also failed.

“Lu Yang, you don’t want to separate our brotherhood. These brothers of mine have been with me for so many years. No matter what you say, there is no way to separate our brothers.” Roland roared and he began to fight. Family card, because he can only play this one.

The expressions of the tens of thousands of players on the city wall became unnatural. Indeed, what they owed Roland and being able to become a lower **** was given priority to them by Roland. Roland said that the opposite was correct.

“Wrong.” Lu Yang suddenly yelled, and pointed at Roland condescendingly: “You are too shameless to kidnap them with emotion. If you really regard them as brothers, you should disband the guild now and let you do this. Brothers leave this fortress, knowing that it is death, knowing that the main force of the iron-blooded brotherhood of the lower gods is coming, you still want your brother to die, are you so shameless?”

Roland roared: “What is your main force, the lower gods army, can it move my fortress?”

Lu Yang sneered, and said loudly: “Moving the mountain force army, the golden demon necromancer army, the Volvarka armor beetle army, the celestial formation mage, the ghost archer group, the missile warrior army, and the lower position by 100 The God-level Death Heart Legion and the Ten Thousand Poison Array that you can never crack, I will fulfill you how you want to die.”

Ten Thousand Poison Array is a poison fog array formed by 108 players holding the poisonous hearts of lower gods. The creatures in it, not to mention lower gods players, even monsters of lower gods can't hold it 10 Seconds.

The Black Star Fortress is a terrifying existence for others, but to Lu Yang, this is a joke. He wants to break through the fortress and it takes less than an hour.

Roland and his players were all dumbfounded. They all heard about the special army that Lu Yang dispatched, but apart from Liu Jie's experience of the Golden Devil Necromancer and the Volvara Army, the rest of the Sagittarius and Special corps such as missiles only heard their voices and didn't see their people.

Then there was Garadmund, the son of Dragon God, who could control Garadmund. They knew for the first time that it was summoned by 100 lower god-level death hearts.

As for the Ten Thousand Poison Array, everyone outside has heard that the Jagged Brothers League has a special formation that can quickly kill the lower gods and allow players to upgrade. But no one thought it was this formation, and Lu Yang unexpectedly used this formation. Fa moved here.

Originally, Roland had a way to deal with Galadmon and the Golden Devils. He was able to clear out this necropolis, which meant that he had something to restrain the creatures of the dead.

In his previous plan, he used special skills to kill Galadmon in a sneak attack, and then purify the golden devil. If he encounters the stone-throwing monsters again, Roland will hand them to the monsters that will be spawned two hours later. At that time, he will cooperate with the opening of the city gate and rush out to fight a wave to solve the war, but now that the 10,000 poisons have moved out, Roland has no bottom in his heart. He knows that Lu Yang never tells lies. . Since uukanshu.com can move to the Ten Thousand Poison Array, it proves that the Ten Thousand Poison Array is really strong.

Roland stared at Lu Yang in the distance, with hatred in his eyes, but his heart was so depressed that he could not hold on himself. He knew that he might really lose this time. Recalling that year, the nine strongest guilds united to encircle and suppress the Jagged Brotherhood.

Tiger's mouth fortress staged a battle of tens of millions of people. At that time, they were so energetic. Radvedev's pride, Olma's madness, Tom's chic, Christina's charming, everything was so fascinating. Fascinated.

But now, if you look again, Radvedev was pointed out by his men, Olma, Tom and others were defeated and quit the game, Christina became a plaything of others, Steiger and Liu Jie, two idiots not only did not break the Heavenly Sword Fortress, One was killed by Xiao Liang, the least-known of Lu Yang's subordinates, and the other one shrank in his own area and did not dare to come out.

Lost, they really lost!

"Woo~~~~~!"

"Woo~~~~~!"

"Woo~~~~~!"

...

The sound of a low and melodious horn suddenly came from a distance. Everyone looked towards the south side of Black Star Fortress. On the **** in the distance, the mountain-lifting force, who was nearly 20 meters tall, took a big step with one hand holding a block of boulders. come over.

Following them to the left is a large giant golden skeleton, and behind them riding a Komodo behemoth is the Golden Devil Necromancer.

On the left side is the Volvarka Armored Bugs Corps, which is armored like large bugs. This is the terrorist defense army that blocked the retreat of Liu Jie's tens of millions of troops.

Looking to the right, there is an army of **** warriors with six arms, each arm holding a two-handed sword of the lower **** level.

On the side of the **** warriors, there are the Underworld Archers holding bows and arrows, and behind these people are two special legions holding the poisonous heart and the necromantic heart.

Chapter 1958 - Attack begins

Just using the word shock, it is no longer possible to describe the strength of the few special legions of the Jagged Brotherhood, especially the scene of moving the mountain force to lift the hill to participate in the war, and there is a sense of pressure on the top of the mountain.

The same is true for the Golden Devil, the skeletons summoned by others are less than one person tall, and the skeletons summoned by the Jagged Brotherhood are taller and stronger than two persons.

As for the shooters, they are already in an annoying state. Their shooters have a maximum range of 200 meters, and they are still special skills. The normal is 100 meters.

The Underworld Archer of the Jagged Brothers has a normal attack range of 500 meters and an attack range of 2200 meters with special skills. The rate of fire is the same as other shooters. This is a character that people can't fight with. After all, this is the eight death guards. One of them.

There is also the Volvara Armored Beetle Legion. The powerful defense has no opponent in the lower gods. Ayala and the others don't know why Roland can break the defense of these people.

The last large legion is the God Warrior Missile Corps. This legion assisted the Volvara Armored Bug Corps to destroy Liu Jie's escape route for tens of millions of players with countless pieces.

Ayala, Padu and others recalled seeing the scenes in the live video. Everyone's eyes on these special corps were bright. Even if they could have one of them, it was enough to deter the hostile forces around the guild, and they were too far to land. Yang has so many branches.

In addition, Lunar Shadow Crazy Wolf did not participate in the battle, and the 100,000 people had already entered Liu Jie's area and wandered.

"I really don't know why Roland fights Lu Yang." Ayala looked back at Roland with emotion.

Padu shrugged and said, "I still don't want to admit defeat, after all, it has created such a brilliant top guild."

Sidder said from the side: "The difference in strength is too great. In their most glorious time, they did not unite and destroy the Jagged Brotherhood. Now, it is time for them to pay the price."

Everyone nodded. The predecessors of their affiliated guilds, which was not an enemy of the Iron-Blood Brotherhood, now became like this, and Roland could only swallow the bitter fruit by himself.

Roland also knew this clearly. It was finally time for a decisive battle. Whether he could hold the fortress or not depends on the outcome of the battle.

"Holy Light Legion, the heart of discipline, set the formation." Roland roared.

100 players hid among the 10 spires erected in the Black Star Fortress. Each of these spires is more than 80 meters in diameter and only about 10 meters in diameter, which looks very special.

This is Roland's assassin. The reason why he was able to take down the Black Star Fortress was because he had been secretly accumulating the priest's sacred heart for so many years.

While everyone was still hovering at level 170, Roland had already contacted the Saints Organization and knew about the next god.

Since the next **** was exposed, the price of Sacred Heart has been declining. Roland was surrounded by allies unable to expand, so he spent all his money on purchasing Sacred Heart.

A total of 100 Sacred Hearts spent more than 60% of Roland's guild budget. After that, he purchased the corresponding materials. It was not until a while ago that he gathered all the materials and put out this divine punishment array.

With the purification spell of the priest of the sacred discipline, sweeping the city of the dead, if it hadn't been for Lu Yang to smash the area of Radvedev so quickly, Roland could rely on this area, just like Lu Yang's tens of thousands of poisons. Upgraded.

As long as Roland is given a year, Roland's strength will surpass everyone including Sanyou Weimen and Radvedev, but it was Lu Yang's raid that made this year's time an unattainable dream for Roland. .

Now Roland can only hope that the Divine Punishment Array will be able to make a full blow in seconds, and the son of Dragon God, who has entered the peak of the upper **** level, will knock down the morale of the Jagged Brotherhood.

Unfortunately, what Roland didn't know was that although Tu Feng's spy did not reach Roland's high level, the player who instigated the rebellion was a large army commander under Roland, and the information about Roland's sacred heart had long been reported. Lu Yang.

"The lovely queen set up a huge array of poisons, Xiao Liang led the Volvara army to unite the circle to protect them, and Yun Yu flew up to sprinkle soul dust on it." Lu Yang issued an order.

“Yes.” 100 players holding a poisonous heart quickly formed a large poisonous array in an area 1,000 meters away from the fortress. In a blink of an eye, a purple-green poisonous mist covered the surrounding area within 5 kilometers.

Xiao Liang quickly took the Volvara Legion to protect the 100 Toxic Heart players, and the rest of the Volvara Legion became two long bars, protecting the left and right wings of all the Legions, once an hour After spawning monsters, they are the first to attack, and the damage from the next **** on Volvara’s armor is unbreakable.

Roland on the city wall can only vaguely see the following situation through the poisonous fog. Just as he was waiting for Garadmund to appear, nearly 10,000 air combat professions flew into the air through the poisonous fog and quickly reached the Black Star Fortress. The sky above.

“What’s the use of the air combat career? Is it possible to parachute into the city? To die?” Roland’s vice president Marcello said with a sneer.

Roland frowned. He didn’t think that Lu Yang would do such a stupid thing. The landing of the air combat career was equivalent to death. This was not controversial. On the ground, their output was extremely poor, and landing was death.

Before there was a lower god, the archangel still existed like a god, and it was fine to land on the invincible, and just wave with the opponent, but with the lower god, the invincibility of the ordinary paladin was ineffective in front of the lower god.

When Roland was curious,suddenly, more than one hundred of the Dragon players in the Archangel Legion took out the Heart of Death at the same time, and quickly spread the soul dust all over the black Star Fortress.

In the blink of an eye, nearly 700,000 lower **** players under Roland lost their teleportation ability. Roland looked at this scene with a tremor in his heart, he knew that Lu Yang was going to fight him to the death.

“Poison fog is coming, everyone, be careful, this poison fog damage is too high, 100 HP per second.” The player on the wall roared.

Roland was shocked, and hurriedly shouted: "Everyone takes anti-drug medicine."

The lower god-level detoxification potion can resist 60 points of toxin damage after eating it, but there are 40 points. The shooter can only resist this poisonous mist for 10 seconds, and must be followed by treatment or potions at all times.

Lu Yang flew in mid-air, sneered at Roland's desperate resistance, and sent a message to Yun Yu, "Let's start."

Yun Yu nodded, the air combat legion did not leave after spreading the soul dust, but stayed in mid-air, and a large number of the dragons each sighted the fortress tower they had locked.

"The coordinates are 798563.8452135, the distance is 250 meters, the angle is 42.5 degrees, the force is 90%, and let go." Yun Yu shouted.

In the poisonous fog, Liu Yunpeng quickly adjusted his position and angle. After the preparation was completed, his body suddenly turned into a bow shape.

"Give it to me."

Liu Yunpeng threw a boulder out in an instant. The super power made the hill-like boulder not appear parabola at all, but a slanting line flying out. After piercing the purple-green poisonous fog, it crossed the sky and over the city wall with a bang. , In the middle of the upper half of an arrow tower.

The tower was instantly pierced by a boulder, the top of the tower fell to the ground in a sudden, and the players inside were smashed down.

Chapter 1959 - Black Star Fortress has fallen

Then, the second hill, the third hill...

A small mountain shattered every tower under the precise guidance of the flying profession in the sky.

The live broadcasts of various countries watching from a distance are all confused. They can't understand how the Jagged Brotherhood is so large that it makes such a precise hit. You must know that even if a normal player wants to throw and hit something, several hundred meters away, it is not a careful sight. It can be thrown accurately, which requires a lot of experimentation.

"It is impossible to imagine how the movers of the Jagged Brothers League did it." The American host stretched out his hands and said with emotion.

"Those ten spires must be Roland's assassin. They are now broken by Lu Yang. If Roland doesn't have a back hand, it will be difficult."

"I doubt if the Jagged Brothers has hired professional soldiers. They can't throw them so accurately. Obviously someone in the air gave a prompt. The players below attacked according to the prompt." The Italian host roared excitedly.

He guessed it right. This is Xiao Liang's contribution. After graduating from the military academy, Xiao Liang brought back a large number of professional soldiers, including artillery occupations and special occupations, both of which trained the mobile force and Yunyu's air team. It is all-round.

I conducted an experiment under the Dingzhou Fortress before. The accuracy of the move and the throwing of the mountain force is the hint given by these flying professions. Now this is the second time to cooperate, and it seems even more comfortable.

Roland looked back at the destroyed tower. He was already dumbfounded, and his opponent shouted: "Hurry up and pick up the sacred heart and come to the gate of the city."

As soon as the voice fell, a huge rock flew to the gate tower, and at the same time, a dragon roar suddenly resounded through the audience.

"Roar~!" Galladmund, with a wingspan of several hundred meters, rushed out of the green mist, and his entire body of black bones emitted a faint purple light pattern and flew him into the sky. Then, Galladmund swooped down. Here, when passing by the gate tower, he opened a huge mouth, and the dragon's breath spit out fiercely. The players in the city who were preparing in a panic fell to the ground and died by the dragon's breath, unable to hold even an attack.

Chen Qiang's consciousness was on Garadmund. He specifically looked for players holding the sacred heart, sprayed dragon's breath at them, and did not give them a chance to form a battle.

"Run into the castle in the center of the fortress and attack there." Roland roared.

The 100 players had just reacted, and there was a "da da da" sound from below the city wall. Roland looked back and saw that a large number of golden devils had already rushed up.

"Kill." A player rushed up to meet the Golden Demon, but when he arrived, he was hacked to death by the Golden Demon.

A large number of spells in the distance were sprinkled on the golden devil's body, but as long as it was not a sacred spell, it basically couldn't deal damage.

"boom"

Suddenly a loud noise appeared behind Roland, and he quickly looked back and found that the entire main gate had been punched out of a huge pothole, and all players within 50 meters of the surrounding were all killed.

Roland was stupid on the spot. He had never seen such a powerful attack skill. He quickly looked down at the city, only to see a green mist.

Under the mist, there is the Celestial Array Mage in the center, and the skills released by the 99 Divine Flame Mage. Each attack is 1 minute apart, and one damage can kill the silver-clad mid-level god.

There were only 5 such Heavenly God Array Masters in Lu Yang's hands. They were played out in five days. Each time they were extremely exhausting. Now they are finally formed and it is not in vain.

Lu Yang looked at the army of **** soldiers beside him, and said, "Don't use missiles this time. I rushed in with a weapon and knocked them over."

“Yes.” The White Wolf personally rushed up the city wall with the army of God Warriors. Seeing a swath of enemies rushing over, the White Wolf raised six war knives and slashed towards the enemy.

The six-armed **** warriors, one person can serve three people, and their output in this relatively small space on the city wall instantly became a nightmare for Roland.

The players on Roland’s side on the wall retreated steadily, and were quickly cleared by the **** warriors and the golden demon by one-third the width of the wall.

At this moment, the surrounding maps were spawned, and a large number of necromantic creatures rushed towards the Jagged Brotherhood players.

“Boom”

“Boom”

“Boom”

...

Volvara armor bug players on both sides raised their shields and resisted. The monsters did not lose blood at all when they hit them. Then the hatred of these monsters was released by the lovely queen of poisonous mist and 99 of his men who possessed poison. The heart of the player led it.

It’s a pity that the lovely queens are protected by Volvarka armor bugs, no matter how these monsters attack, they can’t break the defensive array, and they are all poisoned soon.

Roland was hiding on the side of the city wall and was expecting that the monsters he brushed out could block the Jagged Brotherhood’s attack, but he didn’t expect to be poisoned so quickly. Then he looked at the players behind him who had gradually become unable to resist, Roland knew. He is done!

The hills thrown out by the movers of the mountains kept the players on the Roland side unable to climb the walls. The **** warriors and the golden demons on the walls were so tyrannical. In just half an hour, the Jagged Brothers lay down the walls.

Lu Yang flew to the top of the city wall, chapterlooked at the players below and said loudly: "This war is between Roland and I. It has little to do with you. I don't want to cause too many killings. If everyone chooses to kill after the battle, When the region is resurrected, I can let you leave safely. After all, you have died for Roland once, and you have done your best. Think about it for yourself, don't affect your judgment because of the grievances between Roland and I."

The players inside the city wall were killed like negative dogs, and the situation of being unable to enter and nowhere to retreat made them feel uncomfortable. Suddenly hearing Lu Yang's words, everyone's face showed a struggle.

They hope to help Roland win this war, but in fact, Roland has already failed. Although they signed the contract, according to the current state, even if they continue to attack, the result is that the killed will be reduced to level 180. The fortress cannot be kept.

Roland instantly felt the state of the players behind him. He just turned his head and Lu Yang's voice sounded. He said loudly to Roland: "Roland, give up, I will give you a decent chance to quit the game and leave 100. Holy Heart, I will spend money to buy all your other supplies."

Lu Yang didn't want to do this, but he had to do it. If Roland couldn't let Roland really surrender, what was waiting for Lu Yang was the endless sneak attack in the Roland area. This was for him to recruit players in the Roland area to participate in the battle and develop the Roland area. The economy is very unfavorable.

When Roland heard Lu Yang's words, his first reaction was to refuse. What was his reason for establishing this fortress? Isn't it to defend his guild, but he just wanted to refuse, but found that the city gate was breached.

A large number of Pluto shooters have occupied the city wall and are aiming at the players below the city. Volvara armor bug player shields the passages on both sides of the city wall. He can't get back the city wall or the city gate.

Chapter 1960 - Roland surrendered

Roland was still hesitating, he still didn't want to just give up, but during the time he was hesitating, hundreds of thousands of players from the Jagged Brotherhood had rushed into the fortress and started a close fight with Roland's men. .

Compared with the rainbow of morale on the side of the Jagged Brothers, Roland has completely lost morale, and a large number of players have been killed.

In just twenty minutes, the Black Star Fortress was occupied by a fifth of the Jagged Brotherhood. When the giant cannon of the distant Celestial Array Mage fell beside Roland, Roland suddenly woke up and looked towards He sighed heavily and said, "We lost."

"Your Excellency, you can't admit defeat." The vice president roared beside him.

Roland shook his head, his face was as old as ten years old in an instant, and he used a loudspeaker to shout to Lu Yang, who was sitting on the gate tower in the distance: "Lu Yang, President of the Jagged Brotherhood, I am willing to give up, Roland. Up."

The two players who were fighting in the field stopped hearing this, and looked at Roland. The players around him wanted to say more, but Roland pushed them away, and he just walked step by step. Going down the inner city wall, passing through the two players, they came to Lu Yang, bowed and said, "I gave up, you won."

Lu Yang jumped off the city wall in an instant, looked at Roland with emotion and said, "It's okay if you don't have to fight, thank you, thank you."

He had to make such a gesture, the battle of destroying the country, the most powerful guild of a country was destroyed by him. If you want the players of this country to not rebel, you can only do this.

Roland guessed that Lu Yang would be like this, and said with a smile: "From today, the guild is disbanded and I quit the game. This area is left to you, treat my players, my brothers."

Lu Yang said: "It must be done."

Roland nodded and sent people 100 sacred hearts, then walked into the hotel in the fort to rest and quit the game.

More than 600,000 players saw that Roland took the initiative to surrender and walked out of the Black Star Fortress. After the soul dust on their bodies disappeared, they teleported back to the Tianyu God City.

Zhuojiu, White Lion and others frowned when they watched the players who left. Tu Feng said, "These people are gunpowder kegs, they explode at one point."

Lu Yang said: "Differentiation and comfort, leave it to you."

Tu Feng nodded, using the teleportation scroll to return to the Tianyu God City.

Ayala and Padu and other affiliated guild leaders ran to Lu Yang and smiled and congratulated him together: "Chairman Lu Yang, you finally eliminated the nine guilds in the middle of the New World. It's not far from the time when you unified the entire New World. Up."

The vice presidents such as Zhuojiu and White Lion also showed excited expressions. Indeed, as Ayala said, they really succeeded.

Under the leadership of Lu Yang, under the hard work of these people, after three and a half years, the Jagged Brothers finally defeated most of the enemies of the New Continent, and nearly unified four-fifths of the territory of the New Continent. Within the area.

"Congratulations, boss." Zhuojiu said with Baishi and others.

Lu Yang looked at them with a smile, and said, "This is the result of the brothers' desperate fight. Don't slacken off, hold on. Wait until the last three enemies are defeated. The entire New World is ours. Make money together and enjoy this hard-won life together."

Everyone has a look of longing on their faces. Once they succeed, the money they will make in the future, even if they only make one year, is an astronomical amount.

Ayala, Padu and others looked at Lu Yang gratefully. Lu Yang once said this to them, but he didn't expect that there would be a real chance. If they succeeded, they would not need to work hard for the next three lifetimes.

Li Wenxing said excitedly: "Let's attack them now, and defeat them in one go."

Lu Yang thought, but this is unrealistic, because he has encountered the three most difficult areas to conquer, and said, "You follow me to the Hundred Flowers Fortress. I will show you the defense area of Steiger."

Li Wenxing, Pado and others have never been there before, and they all showed curious expressions. Ayala said, "Okay, let's go see what it is."

Lu Yang laughed, took out the teleportation scepter and flew them to the outside of Hundred Flowers Fortress. As soon as they landed, everyone saw an endless mountain range.

There is no obvious avenue on the mountain. If you want to go up the mountain, you need to climb over. On the hillside, you can see the combined forces of Steiger and Liu Jie everywhere, with more than 100,000 people.

Zhuojiu coughed and said, "I just took over here. Let me introduce you to you."

Lu Yang nodded, and said, "Just tell me."

Zhuojiu said: "The mountain in front of us is called the Soria Mountain Range. It stretches across the east and west sides of the New World, with Mount Aral on the west and Laohukou on the east."

Everyone was a little confused. Originally they thought it would be a flat land, but they didn't expect it to be a large mountain range.

Padu asked curiously: "How wide is the mountain range?"

Zhuojiu said, "It will take ten days for this mountain range to run through normally before entering the northern plains. However, most of the enemy's fortresses are in the mountains. We still have to attack the mountains and then the fortresses. "

Sidder understood,said: "It seems that the next gods will not be eligible to go to the battlefield in the future."

Zhuojiu smiled and nodded, and said: "The information that Steiger has stationed on the top of the mountain are all lower **** players, and there is also a special army of wind system, which can cause strong winds to Volva. Pull the armor bug to cause damage."

Lu Yang said: "So, we can't attack for the time being, because we killed these guilds, and the special organizations behind them have joined together to help Liu Jie, Steiger, and Chekova, several organizations. The power of the alliance is still quite strong. It has flattened several top-level lower **** copies, as well as two middle-level **** copies. Judging from the current situation where the enemy is condescending, our chances of hitting it are quite slim."

The biggest feature of mountain terrain is that people cannot be deployed. Unlike plains, there is no problem with rushing over three or four million people at a time. In mountain areas, only a few hundred people can be dispatched to an area at most.

The rest of the people watched them being killed and had nothing to do with them. Even Lu Yang had no ability to rush forward.

Li Wenxing and others were disappointed.

Lu Yang smiled and said, "Don't worry, everyone. The good news is that we can vigorously develop the farming work, but the enemy can't do it on a large scale. As long as everyone joins me in sending air combat careers to attack the other side's farms day and night, the enemy's income Lower it, and after a long time, it will be easier for us to attack again."

Everyone nodded and understood their main task in the next stage, upgrading and farming!
