

## Chapter 2069: The Water

“Why are you looking at me like that?” Shao Fucheng looked at the people in the office strangely, then walked toward the chief. He said, “I’ve been searching all morning, but I did not find any useful information. But if there’s anything the three women have in common, there’s only one.”

“What?” the chief asked quickly as if he was urging him.

“Their husbands participated in the martial arts event yesterday morning. The three women went to watch their husbands’ matches,” Shao Fucheng said. “That was where they crossed paths yesterday.”

Lu Xingzhi immediately thought of an important situation. Support our FreeWebNovel.com

“Sergeant Hu’s father delivered the water during the martial arts event yesterday.” Lu Xingzhi looked at the chief and said, “When he delivered the water for the second time, my wife and I were still at the water station. If Sergeant Hu’s father was the one who instigated Colonel Ye’s son to push my wife, then could he be the one who gave the abortion drugs to the three women.

When Lu Xingzhi finished speaking, Shao Fucheng was surprised. “Sergeant Hu’s father instigated Colonel Ye’s son to push Doctor Jiang?

That news was too explosive for Shao Fucheng.

Then, he looked at the files on the table and then at Colonel Ye and his son. He guessed that Colonel Ye’s son was looking at the photos before entering the room.

Shao Fucheng said, “If Sergeant Hu’s father instigated Colonel Ye’s son to kill Doctor Jiang, then Sergeant Hu’s father is also very likely the person who caused the three women to take the abortion drug. Even though we still can’t guess his motive, we need to know how he gave them those drugs?

After Shao Fucheng finished speaking, he looked at Lu Xingzhi. They looked at each other and then said a word in tacit understanding.

“Water!”

“Water!”

Lu Xingzhi was not surprised to hear Shao Fucheng say the same thing as him.

The three women went to watch the martial arts competition. The weather was so hot yesterday. They probably drank the water from the water supply. Sergeant Hu’s father delivered the water. He would have had the opportunity to put the drugs into the water. Lu Xingzhi’s eyes darkened. Other people would be fine if they drank the water mixed with the abortion drugs, but pregnant women would have a miscarriage if they drank it.

However, Lu Xingzhi’s heart trembled when he thought about that. If there were abortion drugs in the water, then what did he do yesterday?

He had poured the water into Jiang Yao’s bottle. He also told her to drink more water since it was hot.

...

Later, the chubby boy pushed her to the ground. Lu Xingzhi even fed her water when she took some medicine. He was the one who personally fed the water to her.

If there were abortion drugs in the water, then how many mistakes did he make yesterday?

How lucky was his child to survive that? How much luck did he have to be a father?

“Even if there was a problem with the water, there’s no way to investigate that now. We’ve already drunk all the water from yesterday.” Shao Fucheng felt helpless about that. “If we wanted to confirm whether there’s a problem with Sergeant Hu’s father, we must first determine if the water was mixed with abortion drugs.”

“That’s true. Otherwise, Sergeant Hu might not admit to anything, especially something a six-year-old said. He might say the kid made it up to avoid taking responsibility for his actions. He might also say that Colonel Ye taught his son to say that. I don’t even know if anyone saw him talking to Colonel Ye’s son yesterday.” Zhou Junmin touched his chin. “But it doesn’t matter if someone sees them talking unless they heard what he’s saying..”

Chapter 2070: There’s Still Water

Lu Xingzhi’s gaze wavered when he thought of the water. He glanced at Shao Fucheng and agreed with Zhou Junmin’s words. Only by finding evidence that there were abortion drugs in the water could they prove that the matter had something to do with Sergeant Hu’s father.

Lu Xingzhi said, “When my wife was in trouble yesterday, she was carrying a water bottle. There was still water in the bottle. After sending her to the hospital, I left the bottle in her ward. We didn’t touch the water. There should still be some left in the bottle. ”

Shao Fucheng said, “Then call Doctor Jiang and tell her not to drink the water.”

Lu Xingzhi nodded and took his phone to call Jiang Yao. However, for some reason, the phone rang for a long time, but no one picked up. Lu Xingzhi called again, and his expression was filled with anxiety.

“If there was something wrong with the water, his wife drank some yesterday. Then, something happened to his wife at night. If Sergeant Hu’s father targeted all pregnant women, why would he encourage Colonel Ye’s son to push his wife?”

Zhou Junmin was not clear about that. “Was he worried she didn’t drink enough of the contaminated water?”

The chief said, “But Sergeant Hu’s father didn’t just send water to the martial arts event’s arena. And other people didn’t seem to have that problem. They are not the only pregnant women on the base. There are still too many doubts about this. We must confirm it first. If we can find traces of the abortion drugs in the water, we can arrest Sergeant Hu’s father. ”

Lu Xingzhi listened to them while he was on the phone. When he called for the fourth time, someone finally picked up the phone. It was Mrs. Lu.

“Hello, Xingzhi? When will you be done?” Mrs. Lu asked when she saw the phone number was Lu Xingzhi’s.

“Mom, where’s my wife? Why hasn’t she picked up the phone?” Lu Xingzhi was concerned about why Jiang Yao did not pick up the phone.

Mrs. Lu held her phone and looked helplessly toward the bathroom. The sound of Jiang Yao vomiting could still be heard from the bathroom.

Mrs. Jiang made Jiang Yao’s favorite food for lunch. When she opened the lunch box, Jiang Yao’s expression looked awkward. However, she still ate some since the baby needed food. After a short while, she covered her mouth and got out of bed. She rushed into the toilet and vomited.

She had vomited out all the food she had eaten. She threw up so severely that tears began to flow from her eyes. Her face was quite pale. One’s heart would ache when they saw her.

Mrs. Lu sighed. “Your wife is vomiting in the bathroom. The doctor said it’s a normal reaction to pregnancy. He asked us to keep her on the bed to rest. If she feels uncomfortable and wants to vomit, she can vomit into the basin.”

“Mom, there’s a water bottle under the cabinet beside her bed. Don’t touch the water in it, and don’t pour it out. I’m going back to the hospital now.” How could Lu Xingzhi still stay there when he learned that Jiang Yao was vomiting.

After telling his mother about the water bottle, Lu Xingzhi immediately hung up the phone. He turned to the chief and said, “My mom told me my wife is feeling poorly. I’m returning to the hospital to take a look and take the water for testing..”
