

Wonder Doctor Chapter 2131

Above the thunder clouds was an endless purple sea of thunder.

The entire sea of thunder was surrounded by purple clouds, as if it was a purple film trapping all the purple divine thunder inside.

Lin Ran was standing outside the purple clouds at this moment, and when he looked at the situation in front of him, he couldn't help but reveal a shocked expression.

They said that divine lightning was hard to find, but they didn't expect that the place where the divine lightning was born would be such a scene.

Where were the two brothers?

Lin Ran suddenly remembered the Jin Yin duo.

These two had come in long ago, how come they were missing at this moment instead?

With this in mind, Lin Ran was busy rushing towards the sea of purple clouds ahead.

If he wanted to temper these divine thunderbolts, he had to enter the sea of thunder and let the divine thunderbolts baptize his entire body.

And in the process, whether or not they could completely retain the divine lightning in their bodies was a matter of their respective abilities.

In the past, there were not many disciples from the Thunder Dignity Pavilion who had come here to cultivate, but those who could successfully introduce the divine lightning were very few and far between.

“Weng!”

With a tremor in his ears, Lin Ran felt as if he had entered a wonderful space.

Everything around him became quiet at this moment.

At the same time, not far away, two figures were quickly going about their business.

If it wasn't the gold and silver duo or who else.

“What are they doing?”

Lin Ran wasn't in a hurry to start cultivating, but instead looked at these two people.

Lin Ran wasn't sure how strong the Jin Yin duo could be ranked in the entire Lei Zun Pavilion.

But at least within this group of people, they were definitely at the top.

Moreover, they were different from ordinary cultivators, who were all alone and had at most a few friends.

But they were twins.

And very taciturn, but this divine lightning wouldn't make it any less difficult just because you were twins!

At this moment, Lin Ran was also curious as to how exactly their twins would come to refine the divine lightning.

Naturally, the gold and silver pair had also noticed Lin Ran, but neither of them paid him any mind.

It seemed that as long as Lin Ran didn't cause any trouble, they would each cultivate their own way and no one would disturb anyone.

Lin Ran looked curious and simply sat down at the side, ready to see what these two people were up to.

When it came to refining divine lightning, Lin Ran didn't have any good methods, and the lightning subjugation technique he used was still something he had obtained from the Thunder Dao Pearl a long time ago.

So at this point, he was also prepared to see what kind of technique the other party was using.

After all, a Lei Zun Pavilion disciple, and someone like himself, who had been travelling all year round, were afraid that their methods would be different.

He Lei's successive targeting caused Lin Ran to be careful at this time.

As he spoke, the two Jin Yin brothers in front of him seemed to have finished their work.

The two men were standing side by side, and at this moment, there were actually many jade talismans appearing around them.

These jade talismans were divided into two colours.

One kind of black surrounded the elder brother, Jin, while the other kind of white surrounded the younger brother, Silver.

"Is this to be tempered with the help of a formation?"

Lin Ran was stunned as he looked.

This was the Sea of Divine Lightning and Thunder, and moving the formation would inevitably cause the power of the Sea of Thunder to surge wildly.

It was like experiencing a wave surge in the ocean.

A person cultivating could still resist the power of the thunder sea, but if they were faced with a wild surge of power from the thunder sea, could they resist?

Lin Ran was sceptical.

At least he wouldn't dare to do so alone, one mistake would probably be churned right into pieces by the power within the sea of thunder.

"Weng!"

Just as he was thinking, the two people in front of him were already moving.

The formation was instantly activated, and two rays of light instantly rose up in the sky around the two brothers.

A white and a black light enveloped the two men respectively.

Only a third of the formation overlapped.

And where it overlapped, a pattern of black and white actually appeared.

“This is?”

Lin Ran looked stunned, this was the first time he had seen such a combination of formations between each other.

He had a certain level of attainment in formations, and such formations that were stacked on top of each other and could not affect each other were very rare.

The formation that the two people in front of him were performing was clearly another auxiliary formation.

Its rarity could be imagined, at least Lin Ran had not seen it once in all these years.

“Here it comes!”

A thought flashed through his mind.

The appearance of the formation had already begun to draw this purple divine lightning around them to surge towards them.

There was no surprise to Lin Ran.

The two people plus the formation had directly attracted two bucket-thick divine thunderbolts.

The two divine thunderbolts rushed towards the two of them.

At this moment, even Lin Ran felt his heart rise to his throat.

These two people were too bold, they really weren't afraid to play themselves to death.

“Rumble!”

Speaking too late, two divine thunderbolts had instantly blasted atop the two men's formation.

The formation swayed for a moment, but fortunately, it was still able to resist.

And in the next scene, something that Lin Ran had not expected appeared.

The two divine thunderbolts blasted atop the formation, and the huge explosion that should have occurred surprisingly did not appear.

Instead, as the two formations flowed, the divine lightning that had bombarded the formations converged towards the middle.

The two divine thunderbolts converged from above the two formations towards the middle.

Soon when they collided, a divine lightning was scattered by the collision.

These escaped divine thunderbolts rushed towards the sides.

They were captured by the gold and silver duo within the formation.

In just a few moments, the two men's formation was filled with the power of these tiny divine thunderbolts.

And without any nonsense, the two people directly sat down on their knees and began to cultivate.

Lin Ran couldn't help but stand up when he saw this scene.

This gold and silver duo's method of quenching was truly peculiar.

It made Lin Ran feel as if he had touched a door.

"This really is, one person has a cultivation method for one person, and two people have a cultivation method for two people!"

"Long insight!"

Lin Ran thought a lot in his mind at this moment.

The cultivation method of the gold and silver duo was undoubtedly very successful.

But one couldn't directly apply it, after all, one was only one person.

So how could one borrow from this cultivation method?

Such a thought popped up in Lin Ran's mind.

He didn't have much time, so he had to hurry up and take control of the divine lightning and go back to the Heavenly Immortal Elder.

If he failed to refine the divine lightning this time, there was no telling when such a chance would come next time at the Thunder Zun Pavilion.

He only had a year to himself, and if this kind of chance for the Thunder Dignity Pavilion only came around once every few years, then he would really be out of luck.

Thinking of this, Lin Ran forced himself to calm down.

There were times when you couldn't rush, and once you did, you might not get anything in the end.

Lin Ran sat cross-legged and closed his eyes.

He was definitely not going to use this method of merging and tempering.

But could he create a cultivation method that suited his own situation.

Lin Ran began to feel around.

Looking at all the power within his body.

It seemed that there was only one possibility that best matched this cultivation method.

That was the Chaotic Cyclone!

The Chaotic Cyclone was originally constructed with Chaotic Qi.

If one could introduce divine lightning into it and then refine it, the effect would be almost similar to the other party's method of quenching the body.

But could his own Chaos Qi whirlwind withstand these violent divine thunderbolts?

Lin Ran's heart was also a little uncertain.

Wonder Doctor Chapter 2132

The power of chaos and divine lightning are both considered natural forces in heaven and earth.

Only the difference between the two is very great.

The former is a very docile power that can even be used by cultivators.

Only this power cannot be refined, and you can use it where there is Chaos Qi, but as soon as you leave the range of Chaos Qi.

It becomes completely useless.

Divine Lightning is different.

The power of divine lightning is violent by nature, and the key thing is that it can be refined.

This is why many people attach more importance to divine lightning than to the power of chaos.

But it is important to understand that the power of Chaos is the power of the beginning of a world.

When he was inside the Void World Worm, Lin Ran had truly seen how terrifying the power of Chaos was.

The lava lizards inside the worldworm could be revived with the help of this chaos power.

It had even fused with the rock, the wonders contained in this this power were endless.

"Let's try it first!"

Lin Ran quickly made up his mind.

The power of Chaos was his single greatest card.

If he couldn't even refine these divine thunderbolts with the power of Chaos, then I was afraid that he would really have to return empty-handed this time.

Thinking of this, Lin Ran couldn't help but turn his head to look at the two Jin Yin brothers at the side.

Why didn't his parents give him a younger brother or older brother?

Aigoo!

With a sigh, Lin Ran stopped talking nonsense and began to prepare with his eyes closed.

Since it was also his first time, Lin Ran was careful as he did not directly draw the divine lightning over.

Instead, he drew the Heavenly Lightning within himself to the vicinity of the Chaos Qi Spiral.

He was prepared to use the power of the Heavenly Lightning to inject into the Chaos Qi Whirlwind first to see what kind of effect would appear.

If the Heavenly Lightning couldn't even be carried by his own Chaos Qi Whirlwind, then there was even less chance of a divine Lightning.

When he said he would do it, Lin Ran didn't hesitate in the slightest.

Immediately, he mobilised the Heavenly Lightning within his body and sent it towards the Chaos Qi Whirlwind.

The chaotic cyclone was only a cyclone formed by a breath.

At this moment, the heavenly thunder came together and actually went straight through the cyclone.

"This."

Lin Ran couldn't help but look a little disappointed.

Could it be that these two forces couldn't fuse together at all?

Just as Lin Ran was somewhat helpless and ready to give up, suddenly the Heavenly Thunder within the chaotic cyclone actually changed.

The Heavenly Thunder, which was originally as thick as a thumb, was actually entangled by the Chaos Qi within the Chaos Cyclone.

And as the power of the chaos cyclone wrapped around the heavenly thunder, the thumb-thin heavenly thunder actually collapsed anyway.

Countless fragments of Heavenly Lightning seemed like a torrent, surprisingly surging towards the Chaos Cyclone.

At this moment, Lin Ran could clearly see that the power being sent out from within the Chaotic Cyclone at this moment had actually changed.

From the simple power of the chaotic cyclone at the beginning, there was a certain transformation towards the colour of the heavenly thunder.

Even the Chaos Qi that was being spewed out at this moment was actually carrying a wisp of thunder.

It was done!

Lin Ran was overjoyed in his heart, not expecting that he had actually become a success.

"In other words, one's Chaos Qi spiral is completely capable of swallowing divine lightning!"

Lin Ran was so excited in his heart that he instantly got up and opened his eyes.

At this moment, there was clearly a light in his eyes.

Now that he had found a way, Lin Ran immediately stopped talking nonsense.

The power within his body was instantly exerted, and in an instant, it triggered a surge of divine lightning from the surroundings towards him.

“Good timing!”

Lin Ran’s eyes flashed as he instantly threw a punch out towards the top.

“Bang!”

A fist instantly struck the divine thunder, and the powerful force even instantly split the divine thunder apart.

Numerous divine thunderbolts instantly fell from the sky as if they were pouring down rain.

Lin Ran’s quick eyes and quick hands instantly triggered a thumb-thick divine lightning to rush in towards his body.

As soon as the divine lightning entered his body, Lin Ran instantly felt his whole body tremble violently.

In particular, the Heavenly Lightning within his body seemed to be stimulated and was firmly suppressed, not even daring to move.

“This is the might of the divine lightning?”

Lin Ran laughed, it was true that one thing descended upon another, the Heavenly Lightning was already very powerful, but in front of the Divine Lightning, it still didn’t even have the slightest possibility of resistance.

Quickly, he moved the divine lightning towards his own cyclone position.

Soon this divine lightning had already reached Lin Ran’s Chaos Qi Whirlwind.

And the power of this divine lightning was truly formidable.

Although it had not yet come into contact with the Chaotic Cyclone.

But the power contained within it had already caused the rotation speed of the Chaotic Cyclone to begin to change.

“Come on!”

Lin Ran adjusted his state, then with a grit of his teeth, he manipulated the captured divine lightning and injected it towards the Chaotic Qi Whirlwind.

The entire process only took the blink of an eye.

The next moment, the divine lightning had already entered the chaotic cyclone.

It seemed that the divine lightning was somewhat powerful, and for a long time the chaotic cyclone was unable to do anything with the divine lightning.

Lin Ran was in no hurry and waited patiently and silently.

Finally, after a few minutes, there was finally a change in the divine lightning.

A ray of thunder began to be stripped off the divine thunder by the chaotic Qi.

And once this process began, it became somewhat unmanageable.

A large amount of divine lightning began to be glassed down and gushed into the Chaos Qi whirlpool.

And purple-gold dots of light began to appear within the chaos cyclone's breath.

From a little bit or two at the beginning, it gradually turned into a large area.

Immediately afterwards the entire divine lightning began to collapse rapidly, and finally it actually turned into a purple-gold stream of light surging towards the Chaos Qi Whirlwind.

"Hmm!"

Suddenly, just as Lin Ran was preparing to wait for victory to come and go out to capture some more divine lightning.

The entire Chaos Qi Whirlwind was actually changing.

The chaotic cyclone, which was spinning smoothly, actually began to tremble violently.

And it was getting worse and worse, and Lin Ran wanted to stop it.

But easily all happened too quickly.

Before Lin Ran could react, he heard a crunching sound.

The chaotic cyclone within Lin Ran's body directly collapsed.

"This.... How could this happen!"

Lin Ran's entire body froze, and a cold breath of air only rose to his heart.

His own Chaos Qi Whirlwind had actually shattered!

"This can't be, how could it suddenly shatter!"

Lin Ran was at a loss for words.

But just as he was at a bit of a loss, he didn't know what to do next.

Suddenly, Lin Ran felt a force emerge from within him.

This power was incredibly strong and seemed to want to tear him apart.

Lin Ran opened his eyes and found that a white light had unexpectedly appeared around him at some point.

The light enveloped him, already making it somewhat impossible for him to see his surroundings clearly.

But Lin Ran could feel that he was being carried up by this white light at this moment.

And all around him an aura of divine lightning was frantically surging towards himself.

“What’s going on here!”

Lin Ran was a little confused.

He could feel that there were very many divine thunderbolts around him, and they were frantically rushing towards the grass where he was at this moment.

Lin Ran didn’t know what was going on outside.

However, at this moment, the faces of the two Jin Yin people who were cultivating at the side both changed to those of their colleagues.

“Big brother, what’s this kid doing!”

“I don’t know! But this kid’s methods are really terrifying!”

Only to see that at this moment, not far away, a white light ball was suspended in mid-air, and there were eight divine thunderbolts rushing around towards the light ball.

I don’t know what was going on inside!

Wonder Doctor Chapter 2133

And at this moment, below the thunder clouds.

The disciples of the Thunder Zun Pavilion had all gathered on top of the thunder beach.

Countless people looked at He Lei, with anger in their eyes.

“That.... I apologize to everyone, I didn’t actually mean to do it!”

He Lei was filled with embarrassment.

“Not on purpose? It’s alright for him to fucking steal the qualification from Lin Ran, what’s the point of wreaking havoc on us!”

“That’s right, we still had a chance to win the qualification, but after you messed up like that, it’s all over for everyone!”

“Okay, okay, objectively speaking, even without He Lei’s stirring, he and Lin Ran would have fought for the third qualification in the end!”

“We don’t really have much of a chance!”

“That’s right! Forget it, there’ll be plenty of chances later anyway!”

There was a lot of chatter from the crowd.

While at this time, the Thunder Lords who were at the side were all silent.

They wouldn’t bother with these things.

Whether or not they could get the qualification, and who got it, all depended on their own strength.

This was what was the fairest!

“Rumble!”

While the crowd was talking, suddenly thunder clouds rolled above the sky.

The loud rumble drew the crowd’s attention to it.

The crowd looked up and saw that in the thunderclouds, a purple lightning bolt looked like a swimming dragon.

The thunderclouds were constantly surging within.

“This... What’s going on inside?”

“I don’t know!”

“This commotion, could it be caused by the Gold and Silver brothers?”

“It’s not nonsense, is it still that Lin Ran who deserves it?”

“Hey, words can’t be said like that, until we see the truth, everything is hard to say!”

The crowd murmured.

And the three Thunder Lords at the side all saw frowned.

It was not the first time they had led a team here, but this was the first time they had seen such a surge of divine lightning caused by such a large amount of thunder.

“It seems that these two brothers, Gold and Silver, are not very strong, there is a possibility that they might really be able to refine the divine lightning this time!”

One of the Thunder Lords said.

“That’s not necessarily true, what if it was Lin Ran who made such a commotion?”

Another Thunder Lord disagreed.

“Lin Ran? Impossible, although he is very strong, and after all, there is only one of him!”

“With so much divine lightning surging, even if he was at the peak of the Purple Sea realm he wouldn’t necessarily be able to resist it!”

“Senior brother, you see it this way?”

Both Thunder Lords looked to the other man on the side

“There’s no point in talking more, the time for the divine lightning to appear will soon be over!”

“When it’s over, it will be clear who actually caused such a big commotion!”

Both of them nodded at their words and didn’t say anything more.

Indeed the divine lightning was about to disappear at this point.

It was impossible for the divine lightning to appear all the time, each time it appeared, it was bred by chance.

And who could refine the divine lightning this time, it all depended on their own destiny.

As they spoke, the thunder clouds above had begun to disperse towards the sides.

A true incense stick later, the thunder clouds above the sky had completely dispersed.

And with the thunder clouds dispersing, the divine thunder had also disappeared.

“Look, the Golden and Silver Brothers are coming down!”

Suddenly in the crowd, someone shouted! ,

The crowd’s eyes all followed the voice and looked over.

Only to see that at this moment, two figures were really rushing down in the sky.

If it wasn’t the Gold and Silver brothers, who else was it!

“How?”

One of the Thunder Lords busily stepped forward and asked.

Gold and Silver were the disciples who had the most hope of refining the divine lightning among them, so the Thunder Lords were also extra attentive to them.

“It’s still a bit short!”

“Yes, there is not enough time if they come here in, they will definitely succeed!”

Two said.

“One more time and you’ll succeed? That’s too perverted!”

“Is it still the Gold and Silver Brothers if it’s not perverted?”

“Hey! I’m envious!”

The other disciples around them couldn’t help but murmur.

“That’s not right, Senior Brother Gold and Silver have both come down, why hasn’t Lin Ran come out yet!” ”

“I don’t know, could he have gotten lost!”

Suddenly, someone asked about Lin Ran.

“Lost? No way you guys look over the sky, that ball of light is still there!”

“Right, so it’s not possible that Lin Ran made that ball of light?”

“Do you even need to ask? Who else could it be if not him!”

“What the hell is this kid up to?”

There was a lot of chatter among the crowd.

The Thunder Lord at the side couldn't help but ask.

"What's the deal with Lin Ran? Did he really make that ball of light?"

"Hm!"

The two golden and silver brothers nodded their heads while telling them all about the situation they had encountered earlier.

Lord Lei and the others were stunned as they listened.

They didn't expect that this ball of light was actually the very thing Lin Ran had stirred up.

"Lord Lei, do we have to wait for him?"

Suddenly, someone asked.

The divine lightning here had already disappeared, so the more they should go back.

They would only come over again when the divine lightning was about to appear next time.

"There's no rush first, let's wait and see, Lin Ran is also a disciple of our Thunder Dignity Pavilion after all, so since we've rendezvoused this time, we naturally have to ask him if he wants to go over!"

Thunder Lord said.

"Mhmm!"

Everyone else didn't say anything either.

In fact, they didn't want to leave now either.

After all, it was possible that Lin Ran would come out in a moment.

And what exactly was going on with this guy, they wanted to find out.

But obviously the crowd had thought wrong.

After waiting for five days in a row, Lin Ran hadn't moved at all.

In the end, the three Thunder Lords had no choice but to take a group of disciples and leave first.

The thunder lord at the head of the group went on a trip to the Heavenly Immortal Ancestor.

He informed the other party of the situation here.

When the Heavenly Immortal Ancestor learnt of Lin Ran's situation, he rushed over to personally protect Lin Ran.

What the Heavenly Immortal Ancestor didn't expect was that this guardianship by himself would actually last a whole month.

In this month's time, the ball of light that wrapped Lin Ran in the sky had also gradually become much dimmer.

The Heavenly Immortal Old Ancestor Zhang was below, quietly looking at the ball of light.

With his perception, he could feel it.

This ball of light would soon collapse.

This was because the power contained within it was no longer enough to support the ball of light to continue existing.

"This kid doesn't know what's going on, whether he has obtained the divine lightning or not!"

The Heavenly Immortal Old Ancestor whispered to himself.

And just as he was speaking, suddenly the ball of light in the sky only moved.

Only two crisp sounds were heard.

Then a crack appeared in the ball of light in the sky.

The crack was like a spider's web and instantly spread over the entire ball of light.

"Bang!"

With a sudden explosion sound.

The entire ball of light finally shattered from the middle.

And as the ball of light shattered.

In an instant, a figure was revealed.

If it wasn't Lin Ran or someone else!

"This brat!"

Seeing Lin Ran, the Heavenly Immortal Ancestor couldn't help but reveal a smile.

He only saw that at this moment, Lin Ran's entire body was wrapped in a golden light.

And his own skin had turned golden as well.

Only these golds were fading rapidly, gradually turning from gold to purple-gold.

Finally, until the purple-gold also disappeared.

And at this moment, the Heavenly Immortal Ancestor could clearly see that there was a violet-golden lightning bolt faintly flowing beneath the skin of Lin Ran's entire body.

"Is this the Divine Lightning Body?"

"This kid has actually practiced it!"

A light flashed across the eyes of the Heavenly Immortal Elder, looking surprised.

It seemed that even he hadn't expected that this fellow Lin Ran had actually really collected and paid for the divine lightning in one go.

He had even practiced this divine thunder body!

Wonder Doctor Chapter 2134

"Second Senior Brother!"

Seeing the Heavenly Immortal Ancestor, Lin Ran was also very excited and immediately ran down.

"Being called my second senior brother, it's hard to hear!"

The Heavenly Immortal Elder Ancestor was very dissatisfied.

"Eh, is it hard to hear? I feel like second senior brother still sounds pretty good!"

Lin Ran scratched his head and said.

"Suit yourself, how do you feel now?"

The Heavenly Immortal Elder asked.

"Not bad, my strength has refined a lot more, although I haven't touched the threshold of the Perfection realm yet, but it feels like it's not far off!"

Lin Ran laughed.

"That's fine, I see you've also trained your divine Thunder Body, this is good to deal with Lingshutou's chances of winning are also much higher!"

"Come on let's talk as we go!"

The Heavenly Immortal Ancestor said as he pulled Lin Ran up and headed back.

Lin Ran was surprised and asked on the way.

"Where are the people from the Thunder Zun Pavilion?"

When he came out himself, none of the people from the Thunder Zun Pavilion had disappeared, and he didn't know where they had gone

"They've gone, you guy never came out, they don't have time to wait here for you!"

The Heavenly Immortal Elder said as he took out a letter talisman.

"The leading Thunder Lord said that if you're free you can go and visit the Thunder Dignity Pavilion, after all, you're considered a disciple of the Thunder Dignity Pavilion!"

Lin Ran took the letter talisman and nodded.

Although he hadn't had much contact with the Thunder Dignity Pavilion, it was true that the Thunder Dignity Pavilion was inseparable from his own achievements in the lightning dao.

Moreover, the other party had helped him this time, and if it wasn't for the Thunder Dignity Pavilion, I was afraid that this divine lightning would have had nothing to do with him.

Thinking of this, Lin Ran also decided to go to the Thunder Dignity Pavilion once he was done with the matter at hand.

.

“Right, Second Senior Brother, how strong is this Lingshutou? You'll have to tell me about it!”

Lin Ran suddenly asked.

He himself had now recovered the divine lightning, and the next step was Ling Vine.

If he couldn't break through the Ling Vine, he was afraid that he wouldn't be able to get his hands on the Heavenly Immortal Fruit.

“This Ling Vine isn't easy to mess with! Let me talk to you about the situation!”

The Heavenly Immortal Elder sighed.

“This Lingshang Vine was originally planted to guard the Medicine Garden, but back then, the senior was strong and sat here, so these Lingshang Vines are generally not strong!”

“But ever since senior left, these ling vines have completely exploded with no one to suppress them!”

“Let me put it to you this way, after you have refined the divine lightning, you will only have a 50/50 chance of winning with it!”

“But with the addition of your current divine lightning body, it can reach a 60-40 split!”

“Although you have the upper hand, you still have to be careful if you want to get out of this unscathed!”

Lin Ran nodded as he listened.

This Ling Vine sounded very powerful, but without having met it, it was hard for Lin Ran to make a judgement on how it really was.

However, for the sake of the Heavenly Immortal Fruit, he couldn't avoid this risk.

The entrance to the underground medicine garden was not far from where the Heavenly Immortal Ancestor lived.

Under his guidance, Lin Ran soon arrived here.

The entrance was a sloping downward slope, and the entrance was wide enough that at least ten or so people of Lin Ran's size could walk side by side without the slightest problem.

“You've thought it over? Not preparing for two days?”

The Heavenly Immortal Ancestor asked.

“No more waiting! There's no use in preparing!”

Lin Ran said.

His own strength was most clear to himself, unless he could still come across some kind of chance!

Otherwise, there was absolutely no way he could break through to the Perfection realm within a year.

And the other party had only given himself a year, and now there were still more than ten months left.

Although there was still plenty of time left, the Divine Shadow Clan would not give Lin Ran time.

So it was best to get out as early as possible and get news of Song Nuan in return.

After slightly adjusting his state, Lin Ran turned around and prepared to set off.

“Wait!”

The Heavenly Immortal Ancestor suddenly spoke.

“Hm?”

“You take this!”

The Heavenly Immortal Ancestor handed over a jade talisman!

“This is a positioning and shifting talisman, just crush it to be able to come out instantly!”

“I only have this one too, you can use it to save your life!”

“Second senior brother you!”

Lin Ran was somewhat moved.

“Alright, words of gratitude are not necessary.”

“No, I meant to say, why didn’t you take it out earlier if you had it!”

“I...”

The Heavenly Immortal Elder almost didn’t spurt out a mouthful of old blood.

“You kid think this thing is a stone, it’s everywhere!”

“Besides I’m telling you, if you do use this thing, you’ll pretty much have no chance either!”

“That ling vine has some intelligence, it’s almost a genius!”

“If you use it, the next time you go in it will be on guard!”

“So, if you use this thing, it almost means that you won’t be able to succeed!”

“Think about it yourself!”

After saying that, the Heavenly Immortal Elder turned away from speaking.

Lin Ran gave him a look, shook his head helplessly, and without saying a word turned around and walked towards the slope down.

“Hey! You brat! Not a single word of thanks!”

The Heavenly Immortal Ancestor was a little irritated.

“We’re all brothers in our own family, what’s the point of saying thank you! How insulting!”

Lin Ran’s voice came out from inside, and then there was no movement.

◦ ◦ ◦ ◦

The underground medicine garden, it was an abandoned place.

After the last great power had left, the place had been deserted.

But to be able to grow so many rare herbs, the place was still conceivably dense with heaven and earth spiritual energy.

Otherwise, the Heavenly Immortal Ancestor would not have chosen to cultivate the Heavenly Immortal Fruit in this place.

All the way down, Lin Ran could clearly feel that the spiritual Qi around him was getting denser and denser.

What was strange though was that the spiritual energy was very different from the outside.

It was as if even the air was permeated with an eerie coldness.

The surrounding area was terribly quiet.

The light was also dim, but this was naturally not a problem for Lin Ran.

It was just that one would be somewhat nervous walking here alone.

As his divine sense radiated, the situation ahead was naturally clear.

But what was strange to Lin Ran was that he hadn’t come across the so-called ling vine all the way over here.

Could it be that this thing was hiding deeper?

Lin Ran’s heart was puzzled as he continued to walk forward.

According to the Heavenly Immortal Ancestor, this underground medicine garden was not very large.

At his own speed, he would be able to see the Heavenly Immortal Fruit Tree in half an hour at most.

But one had gone all the way.

Suddenly, just as Lin Ran was surprised, a light ahead caught his attention.

In the entire dimly lit space, ahead of him was a white glow that emitted a circle of light.

There was only one white light, as if it was a lone lamp hanging in the night sky.

Lin Ran fixed his eyes on it, only to see that it was the centre of the white light was actually an oval-shaped object.

“The Heavenly Immortal Fruit!”

Lin Ran’s whole body shook, that was the very Heavenly Immortal Fruit he was looking for.

“It can’t be that smooth!”

Lin Ran had some drums in his heart, but seeing this thing still made him a little excited.

His divine sense enveloped over, and instantly the situation ahead appeared in Lin Ran’s mind.

He only saw the Heavenly Immortal Fruit Tree growing against the wall, with only this one fruit alone on the entire top.

And next to this Heavenly Immortal Fruit Tree was also an oozy black plant, not knowing what it was.

“How did it really go well?”

Lin Ran had some doubts in his heart.

But at this moment, the Heavenly Immortal Fruit was right in front of him, and he couldn’t contain the excitement in his heart, so he was about to step over at once.

But the moment he took a step up, suddenly the black plant next to the Heavenly Immortal Fruit Tree actually moved.

It slowly turned around, and its two black cavities were aimed at Lin Ran, like a pair of eyes.

Wonder Doctor Chapter 2135

“This.... This is the ling vine!”

Lin Ran’s mind instantly understood.

And it seemed to mirror the suspicion in his mind.

The black plant’s entire body suddenly trembled.

Followed by a barb-like thing growing out from the tree.

Almost at the same time, Lin Ran felt the wind howling in all directions, and something was already approaching his side.

“It really is a ling vine!”

Lin Ran was startled in his heart and instantly his whole body shot up his body and directly left his spot in a flash.

Almost as soon as he disappeared, he heard a “bang, bang, bang!” from behind him. The sound of explosions.

Turning his head, he saw that a deep crater had been smashed into the area where he was standing before.

There were countless cracks around the crater, as if it had been cut by some sharp iron, and there were cracks of varying depths everywhere.

“Is this thing really a plant?”

Lin Ran couldn't help but be staggered even as he watched.

This tactic really didn't look like something a plant could pull off.

The thought in his mind was just a flash, and instantly the sound of the wind around him attacked once more.

Lin Ran didn't dare to be slow, and his body once again dodged to avoid it.

But this time, he seemed to be a step too slow.

With a “pop” sound, Lin Ran's arm was instantly scraped by a plant root.

In an instant, his clothes shattered, and it hit Lin Ran's arm hard.

Lin Ran now possessed a divine lightning body.

The power of this kind of physique could not be explained in words at all.

At least a Violet Sea realm powerhouse of the same level would not be able to hurt him at all.

Even those at the Minor Perfection realm could barely injure him, but if they really fought, Lin Ran could definitely easily resist an ordinary Minor Perfection realm powerhouse without falling into a disadvantage.

Of course, if the opponent was a very powerful Little Perfection peak powerhouse, then Lin Ran would still only be able to run away.

But even with such a perverted physique, being smacked by the vines of this Ling Vine still caused Lin Ran to feel a bolt of pain.

It was followed by an even hot and spicy sensation.

“This thing is really perverted!”

Lin Ran couldn't help but say in his heart.

But it seemed that the Ling Vine didn't want to give him too much time.

In just a mere moment of breathing, another gust of wind swept directly around him.

And this time it was even faster and sharper, and Lin Ran realised almost instantly that he would not be able to dodge this strike at all.

“Interesting!”

Lin Ran was getting excited at this point.

He could only see that his eyes instantly became bright, and there was even a glow from his body that rushed up into the sky.

The moment a purple light rushed out, it brightened up the entire underground space.

Only then did Lin Ran truly see the entire underground medicine garden clearly.

The surrounding area was desolate, with just a single plant growing in front of a wall on one side.

It was none other than the Heavenly Immortal Fruit.

And apart from the Heavenly Immortal Fruit, there was also a plant standing next to it.

But it should no longer be a plant, for it looked bare and pressed into a single log.

“This is the ling vine?”

Lin Ran frowned at the sight.

He sent a letter that on the plant, which seemed to be the brain of the ling vine, was actually standing a round sphere the size of a basketball.

And the entire body of the ling vine actually had barbs all over, except for this place where there were no barbs.

The overall shape of this ling vine reminded Lin Ran of something.

The octopuses from his own hometown.

“Whether you’re an octopus or a nine-clawed fish, I’ll take this Heavenly Immortal Fruit today!”

Lin Ran put his heart into it, and instantly the countless divine lightning rays within his body enveloped the entire space.

Divine lightning was the most rigid and virile thing in the Heaven and Earth family.

This kind of tomb vine was also a very poisonous and obscure thing, and had been used to guard tombs since ancient times.

When these two things met, it could be described as a needle point against a wheat point.

As expected, the moment the divine lightning appeared and collided with the vines, a crackling sound rang out all around.

Countless branches and vines shrank rapidly, seemingly afraid of the divine lightning.

“Scared? It’s good if you’re afraid!”

Lin Ran smiled when he saw this.

The countless divine lightning around him began to converge frantically from all directions under his control.

These divine thunderbolts then actually quickly formed a thunder whip.

Lin Ran had a smile on the corner of his mouth as his palm instantly grasped and directly held onto one of the thunder whips.

“Go!”

In the next moment, Lin Ran let out an explosive shout, followed by a whip that was flung towards the ling vine in front of him.

And as he flung this whip out, the other surrounding thunder whips also smashed towards the ling vine at the same time.

In an instant, countless thunder whips were hurled towards the vine.

The entire space resounded with “crackling” sounds.

Even Lin Ran heard some miserable wailing sounds.

It seemed to be coming from the vine.

“This thing has really become an essence, no wonder the Heavenly Immortal Ancestors don’t want to come down!”

“It really can’t restrain it without something as rigid and virile as divine lightning!”

Lin Ran muttered to himself in his mind.

Countless thunder whips were flung around towards the Ling Vine, causing it to curl up in a corner unable to move at all.

When Lin Ran saw this, he didn’t bother to delay any longer.

He hadn’t come here specifically to clean up the vine this time.

As long as he could get the Heavenly Immortal Fruit, his purpose would be achieved.

With this in mind, Lin Ran immediately rushed towards the Heavenly Immortal Fruit tree on one side.

He was ready to pick the fruit and leave directly.

However, his action seemed to have angered the Lingshifting Vine.

Before he could even get close to the Heavenly Immortal Fruit Tree, the LING Vine Sutra actually exploded instantly.

Countless branches and vines rushed out towards the outside to meet the divine lightning whip.

Countless branches and vines were sent flying in all directions, and some of them even broke instantly.

But as if the vines didn’t care at all, more vines swept towards Lin Ran.

“This guy is crazy!”

Lin Ran’s face turned pale as he watched.

A blinding lightning aura instantly erupted from his entire body.

The Divine Thunder Body Physique all but exploded in this moment.

“Bang bang bang!”

Countless vines were instantly stirred up by the divine lightning around Lin Ran’s body.

But then more vines rushed over.

At this moment, it was as if the entire ling vine was being desperate.

They were frantically swarming towards Lin Ran’s side.

Even Lin Ran saw that the main body of the ling vine, the sphere that stood the size of a fist, was also rushing towards his side.

“Interesting!”

A surging battle intent erupted in Lin Ran’s eyes when he saw this.

The divine lightning from his entire body instantly filled out, sweeping in all directions.

However, the vines of the Ling Vine were even more numerous.

As if they didn’t want money, they converged towards Lin Ran’s side in a frenzy.

“Bang, bang, bang!”

Soon the only sound left in the entire space was the sound of vines and divine lightning colliding.

However, the good times didn’t last long, and soon Lin Ran was shocked to find out.

There were more and more vines around him, and they were actually vaguely suppressing his own divine lightning.

“This guy could possibly have so many vines! If he had rashly barged in without his own divine lightning, I’m afraid he would have. by now.!”

Lin Ran didn’t even dare to think down.

There were more and more vines around.

Soon Lin Ran was shocked to find that his surroundings were actually surrounded by vines.

A huge vine cage was rapidly forming, seemingly ready to envelop himself at any moment.

Wonder Doctor Chapter 2136

“This Lengtou is afraid that he’s gone mad!”

Lin Ran had shock in his heart.

With the lightning surrounding himself at this moment, the vines of the Lingshang Vine would almost shatter somehow in a single glance.

However, this LING Vine seemed to be determined and swept towards him crazily, not caring about the loss of his vines.

“What the hell does this guy want?”

Lin Ran frowned.

And even as he spoke, the surrounding ling vines had completely closed up, forming a huge sphere that enveloped Lin Ran.

“Hm?”

After the ling vines closed, immediately Lin Ran saw that on the vines of these ling vines, there was actually a stream of green sap that started to flow out.

“Venom?”

Lin Ran looked stunned, this ling vine was still not free from the category of a plant in the end.

Although it possessed a hint of intelligence, its means of attack was still the same as that of a plant.

“That’s it?”

Lin Ran laughed at this.

At once, he only saw his entire body’s aura explode, and the divine lightning within his body even coalesced directly onto his finger.

“Go!”

With an explosive shout, a divine thunderbolt instantly struck out directly.

Amongst the lightning, there were even some flames mixed in.

The divine lightning was originally the most rigid and virile thing, and with the addition of the flames at this moment, it could almost be said to be the natural nemesis of the Lingshang Vine.

As expected, as soon as the thunderbolt came out, it instantly pierced a hole directly through the encirclement formed by the vines.

A smile appeared at the corner of Lin Ran’s mouth at this.

In the next moment, he saw Lin Ran’s palm plunge straight in.

Following this, countless divine lightning and flames spread out like a spider’s web along the vines of the ling vine.

The divine lightning was mixed with flames, and everywhere it passed, there was a “blazing” sound.

The vine seemed to be unable to take it anymore, and countless vines began to twist and turn in a frenzied attempt to disperse.

However, if it wanted to run, Lin Ran would not give it the chance.

With a chill in his eyes, the divine lightning instantly burst open.

“Bang bang bang.”

The divine lightning exploded and countless vines were instantly strangled into pieces.

Lin Ran waved his hand and wiped away the sky full of debris, and immediately the Heavenly Immortal Fruit Tree appeared in front of him again.

However, what Lin Ran didn't expect at this time was that on the Heavenly Immortal Fruit Tree, the Heavenly Immortal Fruit had disappeared.

"Hmm?"

Lin Ran was busy turning his head to look, only to see that the round thing not far away was truly holding the Heavenly Immortal Fruit and running all the way towards the depths of the underground medicinal garden.

"Trying to leave!"

Lin Ran's eyes chilled as his body instantly rushed out.

This Lingshifting Vine still couldn't let go of this Heavenly Immortal Fruit after all.

It had even gone so far as to suffer heavy injuries in order to delay itself.

But he just didn't know what use this Heavenly Immortal Fruit would be to the Lingshifting Vine.

After all, they were both plants, so could it be that the vine had become a spirit and swallowed the Heavenly Immortal Fruit?

But if that was the case, it didn't make sense, the Heavenly Immortal Fruit had been underground for so long, how come it hadn't swallowed the former?

As he couldn't figure it out, Lin Ran didn't bother to think about it, so he hurriedly got the Heavenly Fairy Fruit and left.

Naturally, the Ling Vine was no match for Lin Ran in terms of speed.

Although this underground medicine garden was a small space, it had no effect on Lin Ran at all.

With a flip of his palm, the Condensing Frost Sword had already been taken out.

"Go!"

With an explosive shout, a sword mane instantly stabbed towards the front.

Lingtou had no desire to fight at this point and kept fleeing towards the narrow area.

He wanted to use this to get rid of Lin Ran.

However, the speed of the Condensing Frost Sword was even faster than it.

Almost the instant it was flung out, it had already arrived in front of it.

"Clang gear!"

Lin Ran saw with true clarity that with his own sword, the vines of this Lingering Vine had actually directly deflected his Condensing Frost Sword.

“This?”

Lin Ran looked a little bewildered.

The power of this sword dao of his own was far above that of the divine lightning.

How could it be that even the vine’s defences hadn’t been broken with a single sword strike?

Could it be that this thing was only afraid of divine lightning and fire flames?

Could it be that this thing was only afraid of divine lightning and fire?

Lin Ran thought to himself, as his mind moved his Frost Condensing Sword and struck out several times in quick succession!

However, after these few strokes, Lin Ran was completely desperate.

After several strokes, he had failed to break through his opponent’s defence.

Not even a single scratch was left on the vine.

“Why is this thing’s defence so high!”

Lin Ran was somewhat helpless, at this point he didn’t dare to wait any longer, the space around him was getting smaller and smaller.

If he let this ling vine find a crack in the ground and burrow in, then he would really have to return empty handed.

Thinking of this, Lin Ran’s entire body was instantly filled with divine lightning and pointed towards the Frost Condensation Sword in front of him.

The divine lightning instantly transformed into a thunderbolt that struck directly at the Condensing Frost Sword.

“Bang!”

The Condensing Frost Sword was like a lightning rod at this moment.

The moment the divine lightning struck on it, it had already directly diffused onto a large area of vines.

“Bang bang bang!”

Followed by an explosive sound just like fried beans.

And with each place where it rang out, a large area of vines was bound to be directly blown into shreds.

Lin Ran didn’t dare to slow down, and with a thought the Frost Condensation Sword struck out towards the vines with countless divine thunderbolts.

Under the augmentation of the divine lightning, the Frost Condensation Sword was like a divine weapon descending from the earth, nothing could stop it.

“Bang Bang!”

Soon, the Condensing Frost Sword surrendered all the vines around it to pieces.

And by this point, the Lingsheng Vine seemed to be afraid, not daring to mobilise its vines over.

However, it was still firmly clutching the Heavenly Immortal Fruit and huddled in a corner.

In the middle of the countless vines, an object the size of a basketball was staring at Lin Jean.

Although it had no eyes, only two black holes.

But Lin Ran still felt the anger radiating from him.

“Hand it over, and I can not kill you!”

Lin Ran said indifferently.

This Lingshang Vine was also considered a wonder of heaven and earth, and it was left behind by the previous owner of the medicinal garden, so Lin Ran did not want to be too desperate.

However, the vine did not appreciate this at all, as if it knew that it had reached the end of its rope.

Suddenly the circular sphere of the vine cracked open violently.

Then a vine instantly sent the Heavenly Immortal Fruit towards the opening.

Seeing this scene, Lin Ran was instantly enraged.

I’m talking to you, but you want to take it all for yourself!

At this point, Lin Ran’s last shred of pity was gone, and with a thought, the Frost Condensing Sword slashed through a stream of light, instantly slashing towards the head of the vine.

Countless vines wrapped around its head, but at this point it was already useless.

“Bang Bang Bang!”

Wherever the Condensing Frost Sword passed, countless vines were shredded as easily as cabbages.

Seeing as the Heavenly Immortal Fruit was about to be completely swallowed by that thing.

At this moment, the Condensing Frost Sword, however, turned into a splitting stab and instantly stabbed towards the head of that Ling Vine.

“Bang Bang Bang!”

“Clang!”

After a series of cracking sounds, there was finally a sound of metal hitting the wall.

At the same time, Lin Jean saw that the Condensing Frost Sword had plunged heavily into the wall, its body still trembling from the sheer force.

A chanting sound of the sword resounded throughout the underground space.

“Boom!”

Suddenly countless vines fell to the ground at the same time, and at this moment all the vines seemed to have lost their lives.

The vines fell and finally was revealing the ball inside.

Only to see that the Condensing Frost Sword was firmly planted on the ball, and the tip of the sword even went through it and stuck on the wall behind it.

The Heavenly Fairy Fruit had also fallen to the ground to one side.

Wonder Doctor Chapter 2137

“Finally, it worked!”

Lin Ran let out a long breath of relief.

No matter what, in the end this Heavenly Immortal Fruit had become his own, so that was enough.

Lin Ran walked over and prepared to pick up the Heavenly Immortal Fruit.

However, just at this moment, the Ling Vine, whose head had been pierced through, unexpectedly shot out with a vine.

It instantly wrapped the Heavenly Immortal Fruit around it, before throwing it directly into the crack in the head.

“Fuck you!”

Lin Ran was completely furious at the sight.

It had come to this, and you’re still fucking blowing up.

Lin Ran slapped a slap towards Lingshifting Vine’s head.

The divine lightning attached instantly slapped a crack into Ling Vine’s head.

Lin Ran then flipped out a dagger, and without any nonsense, he directly split open the head of the vine with a few strokes.

After all, the vine was a plant, so when it split open, the green sap flowed directly onto the ground, just like cutting fruit.

Lin Ran endured his nausea and finally found the Heavenly Fairy Fruit inside.

It was a pity that at this moment, the Heavenly Immortal Fruit was stained with a layer of green liquid.

Looking at it, Lin Ran couldn’t help but want to vomit.

“Damn, it’s lucky this isn’t something you eat, otherwise I wouldn’t be able to eat it!”

Lin Ran said as he found water to rinse the Heavenly Fairy Fruit before he put it away.

He said to himself.

“As long as one doesn’t say anything about this thing, that black-robed man won’t know about it, so just get the information yourself when the time comes anyway!”

“As for whether the other party eats it or what, it won’t have a bit to do with oneself!”

With that thought Lin Ran prepared to leave.

He waved his hand and pulled out the Condensed Frost Sword on the wall.

At once, the corpse of Lingshang Vine slid straight down.

However following that a round bead unexpectedly rolled out of Lingshutou’s body.

It rolled right to Lin Ran’s feet.

“What is this thing?”

Lin Ran looked a little confused.

The bead looked turquoise all over, only the size of a baby’s fist.

But the luster was very translucent, and it was not a mundane object at first glance.

“I’ve only heard of magical beasts having inner guts, ah, does this Lingshang vine have one too?”

Lin Ran said to himself, although he didn’t know what it was, but since it was delivered to his door, he naturally wouldn’t miss it.

At that moment, he also packed it up and gave it away, ready to go out and ask the Heavenly Immortal Ancestor before saying anything.

....

When Lin Ran came out of the underground medicinal garden, the sun was high outside.

It seemed to be noon.

The Heavenly Immortal Elder Ancestor was still quite good at enjoying himself, having gotten a leg of lamb from somewhere and roasting it somewhere with an overwhelming aroma.

“Second senior brother, you’re a former great power and you’re still eating this?”

Lin Ran looked a little speechless.

“What do you kid know, cultivation is boring and everyone has different preferences!”

“Some people like agar jelly and jade dew, while the old man likes this!”

“Come on come and eat it together!”

The Heavenly Ancestor laughed as Lin Ran was able to walk out of the underground medicinal garden, so he had obviously gotten his hands on it.

He didn’t bother asking.

“Wouldn’t it be bad if I ate for nothing, like this I have wine here!”

Lin Ran said with a wave of his hand, and immediately two altars of wine sprang up.

The Heavenly Immortal Ancestor wasn’t polite either, and took one altar straight over.

Mu Yang then was even more nonchalant as he directly cut up a large piece of lamb leg and ate it.

As he ate the roast leg of lamb with his mouth, in his heart Lin Ran was feeling a mixture of flavours.

Ever since he had left his hometown, it seemed that he had never been this relaxed before.

Moreover, he didn’t know if he had learnt this skill from his ancestor.

Surprisingly, it reminded him somewhat of the taste of his hometown when he ate it.

“By the way Second Senior Brother, I found this inside the Lingshifting Vine, take a look at what it is!”

Lin Ran diverted his attention and took out the turquoise bead.

“This is?”

The Heavenly Immortal Elder received the bead and his brows furrowed.

“You wait, I’ll go get something!”

With that, the Heavenly Immortal Elder Ancestor ran back to the thatched hut, and when he came out again, he was holding a large pile of books in his arms.

Some of these books were already yellowing, and it was not clear how old they were.

“I don’t know what this stuff is, but the original owner of this place left a lot of tomes behind, so we can check them out!”

The Heavenly Immortal Ancestor said as he tossed a portion of the books to Lin Ran.

Lin Ran was speechless, but there was nothing going on at the moment, so he felt like flipping through them.

They were both cultivators, and looking things up was naturally quick.

After just a few moments, the Heavenly Immortal Ancestor became excited and said.

“Hey hey! Found it! Found it!”

Lin Ran busily padded over and indeed found that one of the books contained this introduction to the Lingshifting Vine.

The Heavenly Immortal Elder just looked at it for a moment and instantly understood.

“This thing is a Lingsheng Vine Dan, good boy!”

“Hurry up and tell us about it!”

Lin Ran said busily.

The Heavenly Immortal Elder Ancestor said directly without any nonsense.

“It’s written in this ancient book that the Lingshi Vine Dan is a kind of inner guts unique to the Lingshi Vine!”

“The Ling Vine can only move freely after a hundred years or more, and can only form pills after a thousand years or more!”

“It takes more than ten thousand years to produce spiritual intelligence, according to this the Lingshang vine down there is at least ten thousand years old!”

“And what’s truly terrifying about this LING VINE is not its spiritual intelligence, but this LING VINE DAN of it!”

The Heavenly Ancestor said as he looked towards Lin Ran, did you notice when you fought with it that its defense was extremely high!

“It’s that you can’t break it no matter how you hit it!”

“Yes!”

Lin Ran nodded, without the use of divine lightning, his own sword mane couldn’t hurt it at all.

This was something Lin Ran also wondered about.

“That’s right!”

The Heavenly Immortal Ancestor laughed.

“After this Lingshifting Vine Dan appeared, the overall defense of the Lingshifting Vine would change qualitatively, all because of this!”

“But I don’t understand the principle of this, in other words, if you can inlay this Lingsheng Vine Dan on something!”

“No matter if it’s a formation or a weapon, you can make the defensive power of this thing increase greatly!”

“If you can get a set of soft armour and put this Lingshang Vine Dan on it, almost no one can get on you under the Immortal Realm!”

“Of course, if you come across one that happens to restrain you, then there’s nothing you can do!”

“Like how your divine lightning restrains the Lings Vine!”

Lin Ran listened thoughtfully.

But when it came to something that restrained himself, it seemed like there really wasn’t one!

A normal cultivator would have already gained insight into almost all the Dao by the time they were in the Hundred Thousand and Eighty Thousand Realms.

Although not proficient, they would at least not have any obvious weaknesses.

Speed, strength, divine sense, these things could only be described as being good and bad at them, there would be absolutely no restraint in relation to them.

It is only those who cultivate more extreme methods that will have such a situation of restraint.

For example, the cultivation of evil cultivation methods, or extreme fire or water attribute techniques, etc.

“So this thing, it’s quite good, but I don’t have any soft armour either!”

Lin Ran was a little speechless.

It looked pretty good, but it seemed like this thing wasn’t of much use to himself at the moment!

“Alright, it’s good to have it, you’ve got the stuff too, when are you ready to leave!”

The Heavenly Ancestor asked.

“Second senior brother, aren’t I not welcome?”

Lin Ran asked.

“You continue to call me second senior brother, I’m sure you’re not welcome!”

“But then again, don’t forget what I told you last time!”

“Anyways, you’re also a disciple of the Thunder Dignity Pavilion, so it’s good to go for a walk when you have time!”

“And don’t you forget, the battle between the Immortal Emperors and the Anti-Alliance, the one who can really make the difference in the end when it comes to fighting!”

“Or a super clan power like the Thunder Dignity Pavilion, so it’s best for you to make a trip!”

“Hm!”

Lin Ran nodded at his words.

Wonder Doctor Chapter 2138

Only after staying for another hour did Lin Ran get up and bid farewell to the Heavenly Immortal Ancestor.

To the Heavenly Immortal Ancestor, Lin Ran was extremely grateful.

Although the other party was his second senior brother, it was many years ago after all, and now his ancestor didn’t even know if he was dead or alive, or even if he was there!

It was rare for a Heavenly Immortal Ancestor to still be willing to help himself like that.

And what the Heavenly Immortal Ancestor said was good, he was a disciple of the Thunder Zun Pavilion anyways, so it was indeed necessary to go on a trip.

It was just definitely not the right time.

Having obtained the Heavenly Immortal Fruit, Lin Ran's immediate priority was to hurry up and find the black-robed man in exchange for the information he needed.

As for the matter of the Thunder Zun Pavilion, it could be put on the back burner.

Lin Ran rushed all the way towards the Chaos Dungeon, while on the other hand.

Inside the small world of the Ancestral Lands.

Lin Ran, who had gone into the Jedi with the pillow book, was sitting on a rock with a helpless face.

A Jedi was a Jedi.

From the time the two of them had entered until now, they hadn't even found a way out.

Without him, Lin Ran would have been desperate.

"How much longer do we have to be stuck?"

Lin Ran asked as he looked to the pillow side book who was still looking for an exit.

"You have time to ask such questions, you might as well hurry up and look for an exit!"

"This is only the first Jedi, and you're giving up?"

Pillow Book asked.

"No!"

Lin Ran shook his head.

"My doppelganger is about to get news of Song Nuan, so he's a little excited!"

Lin Ran said indifferently.

"Doppelganger?"

The Pillow Book frowned.

He had indeed heard Lin Ran talk about it, but he hadn't expected him to find the Heavenly Immortal Fruit so quickly.

"Although the Heavenly Immortal Ancestor is your second senior brother, how did you solve that Ling Vine?"

The pillow asked.

"I refined the divine lightning!"

Lin Ran's voice was bland.

On the side, however, the Pillow Book was so dumbfounded by what he heard that his entire body froze.

"You refined the divine lightning? You succeeded the first time?"

"Mm!"

“Holy shit!”

The Pillow Book couldn't help but curse.

“Having the divine lightning, that ling vine is indeed not a problem!”

“By the way, did you know that there would be a Lingsheng Vine Dan inside the Lingsheng Vine?”

Lin Ran suddenly asked.

This Ling Vine Dan seemed to be very useful, he just didn't know how he would have to use it to maximize its power.

“Lingsheng Vine Dan?”

Pillow Book frowned at his words, and even the movements of his hands stopped.

“You've found the Lingshang Vine Dan?”

The pillow-side book looked at Lin Ran with foxish suspicion in his eyes.

“Yes!”

“You didn't lie to me?”

The Pillow Book was somewhat unconvinced.

“Is it useful to lie to you? Will it get us out of here?”

Lin Ran said without good grace.

“Kid, if you really obtained the Lingshang Vine Dan, then we'd really have a chance!”

The pillow's tone suddenly became serious.

“You know about the Lingshang Vine Dan?”

The Pillow Book's response made Lin Ran instantly interested.

“Nonsense, is there still something Master Shu I don't know?”

Pillowside Book had a smug look on his face.

“But knowing is knowing, no one has tried it whether it's feasible or not, so don't get too excited!”

“Cut the crap, first tell me how this Lingshang Vine Dan actually works!”

Lin Ran urged.

The Pillow Book thought for a moment and then said.

“This Lingsheng Vine Dan you can see it as a kind of treasure!”

“A treasure that can increase the defensive power of magic weapons!”

“You should know about this kind of thing too, if set on a defensive type of armour, it will increase the defensive power of the whole armour!”

“There’s no need to talk about that, I already knew about it! Tell me something I don’t know!”

Lin Ran interrupted the pillow book.

“What’s your hurry, you brat!”

The pillow-side book gave Lin Ran a blank look, and after a pause skipped straight to what he had just said.

“Let me put it to you this way, if you can embed this Lingshang Vine Dan within yourself, capturing the flying shuttle isn’t even out of the question when the time comes!”

“Embedding it inside me? You’re kidding!”

Lin Ran instantly rejected it.

That LING VINE was not a good thing, and who knew what was going on with the inner guts inside it.

If he were to turn back inside himself and turn into something like the Lings Vine, Lin Ran would regret it to death.

“What are you thinking!”

The pillow said.

“Although this ling vine is a plant, those that can appear with inner guts are already very old!”

“Moreover, this kind of thing has been nurtured by the creation of heaven and earth, and is itself a very rare kind of heaven and earth wonder treasure!”

“I tell you, this thing you don’t want more people want, if you really don’t want to use it yourself, that’s fine!”

“You go and find the Heavenly Machine Pavilion in the Chaos Space Dungeon and replace that Lingshi Vine Dan!”

“It would be best to exchange it for an array over, and use it to capture the flying shuttle when you’re down!”

“Is that even possible?”

Lin Ran asked suspiciously, this solution was acceptable to him.

“In theory it could, but you’d have to pray that Yue Bei Shan doesn’t mess up!”

“And even if the formation is strong, it’s still made up of power cohesion, and the power of the flying shuttle hasn’t been seen for a long time, so I don’t know if it can be captured or not!”

“All I know is that your chances will be higher if you use the Lingsheng Vine Dan yourself and practice the Lingsheng Vine Armor!”

The pillow said.

“You!”

Lin Ran was instantly speechless.

“Kid, I’ve said what needs to be said you think about it yourself!”

“Consider you!”

“You bastard Book, you just know me too well, dammit! You might as well just say that I don’t have the slightest chance of refining it myself!”

Lin Ran said without good grace.

He himself never did anything he wasn’t sure of, this pillow book was talking lightly, but in the end, he still wanted to make himself refine this Lingshang Vine Pill.

“Kid, don’t think that Master Shu is pitting you!”

“You yourself don’t think about it, Yue Bei Shan can also possess a flying shuttle fragment!”

“If you change a formation over, can’t you still block his flying shuttle?”

“Surely it’s best to practise your own Ling Vine Armour!”

Pillow Book chuckled.

“Alright, alright, I get it! Hurry up and find a way to break it!”

Lin Ran said without good humour.

But in his heart, he had already started thinking about how to refine it.

The pillow book was right, although this Lingshang Vine Dan was safe to exchange for a formation, it was gone after all after one use.

If one could refine it, then not only would one’s chances of capturing the flying shuttle be greater.

Moreover, it would also be very useful for improving one’s strength.

With this in mind, Lin Ran immediately did so on his knees.

He didn’t bother to look for the exit, it was better to leave such things to the pillow book.

He had to find a way to refine this Lingshang Vine Pill in a hurry.

....

In the Chaos Space Dungeon.

After Lin Ran returned, he didn’t rush to find the other side.

Instead, he found a secret room and spent a victory point to begin his seclusion.

The time agreed with the other party was one year, and there were still at least ten months to go.

He was not in a hurry, it would naturally be best if he could practice this Lingshang Vine Armor first.

◦ ◦ ◦ ◦

And at this time in the Immortal Realm, within the Immortal Emperor City.

“Father, it’s a miss!”

Immortal King Fu Gu stood respectfully in place as a pitch-black vortex was slowly spinning in front of him.

“I knew it all along!”

A hoarse voice came out from within the whirlpool.

“A bunch of rice buckets, using a strike that I personally refined, and I couldn’t even kill him!”

“This is great, and it’s even alerted those old undeads in the chaotic space!”

“This is in big trouble!”

“Father not so much, no matter what, you are still an Immortal Emperor!”

Fu Gu frowned.

“What do you know!”

The hoarse voice carried a hint of anger.

Wonder Doctor Chapter 2139

“Isn’t it?”

Fu Gu wondered.

Although those old things in the Chaos Space were powerful, they hadn’t achieved the position of Immortal Emperor after all.

So there was definitely still some gap between their strength and Immortal Emperors.

Fu Gu also didn’t know why his father cared so much about their attitude.

“You remember this!”

Suddenly the hoarse voice said.

“The position of Immortal Emperor is not always yours just because you make it!”

“Otherwise, you for how I snatched it away from the old Immortal Emperor back then!”

“Those old guys in Chaos Space, who wouldn’t want to sit on this Immortal Emperor’s throne as long as they were given the chance!”

“You think they’re just willing to hide in the chaotic space?”

“But!”

Immortal King Fu Gu was about to say something else, but the Immortal Emperor directly interrupted him.

“Alright, pass my order down, give the Anti-Alliance another year’s time!”

“If it doesn’t surrender within a year, begin the siege!”

“They must be forced out from within the Anti-Alliance within three years at most!”

“This war has gone on too long, it must be done quickly!” .

“Yes!”

Immortal King Fugu nodded, and then left the place.

This great war set off by the Immortal Emperors had been going on for almost fifteen years at least since it had started.

Lin Ran alone had been cultivating within the Immortal Emperor’s Tower for a full ten years.

And the blockade of the Anti-Alliance had also been ten years long.

Although the Anti-Alliance was getting weaker by the day, the bottom was still there after all.

The Immortal Emperor did not want to collide directly with the other side, which would only end his reign prematurely.

But if he dragged on, when the Divine Shadow Clan really attacked, by then the entire Immortal World would be scattered in a single piece of sand.

That was the last thing he wanted to see.

The Immortal Realm was vast and expansive.

The Immortal Emperor’s position was something that countless cultivators had spent their entire lives pursuing.

After sitting on this Immortal Emperor’s throne, he did not want to give it up.

Even if he had to sacrifice many people to do so, he would not be the least bit merciful!

....

Once the Immortal Emperor’s Decree was issued, the entire situation of the Anti-Alliance became even more dire.

What could be done in a year’s time?

Nothing at all could be done.

The entire Anti-Alliance had gradually begun to disintegrate under the immense pressure.

Some of the cultivators at the bottom have fallen away.

Only some middle and upper class cultivators remained to hold on.

Many of these people had followed the old Immortal Emperor back then, and they were unwilling to defect to Vulcan, so they kept on holding on.

And also holding on were Luo Qiqi and the others.

In order to cope with the great siege a year later, Luo Qiqi had almost emptied his family's money.

She had taken out all the spirit stones she could find.

But even that was not enough to cover the expenses of the entire anti-Alliance.

In the end, the Lord of the Alliance stepped in and set up a raid plan.

Ten of the strongest cultivators were selected.

The entire resources of the Anti-Alliance were poured into these ten people.

Let them serve as the Anti-Alliance's last hope of breaking through the blockade.

At the same time, he sent a letter to Zhen Yan.

....

On the isolated island in the Beast King Domain, Zhen Yan looked at the letter sent by the Lord of the Alliance and sighed helplessly.

"Is it really going to come to this?"

"One really doesn't want to!"

"But what else can be done?"

Zhen Yan slowly got up and his body transformed into its original form in a flash, a huge Zhen Yan Fire Lynx.

"Uncle Zhen Yan!"

Suddenly a voice came from the side, and it was none other than Xiao Jiu and Li. "

"Uncle Zhen Yan what are you doing?"

Looking at the Amazing Fire Lynx that had manifested itself, Xiao Jiu was obviously a little worried.

Zhen Yan would never take on his original form on a normal day, once he did, something was definitely going to happen.

"Xiao Jiu, come over with Li!"

Zhen Yan said, while a flaming flame swept through instantly taking the two of them and disappearing in place.

On the isolated island, a huge volcano was below.

Countless lava was flowing and smoke was rising everywhere.

Zhen Yan appeared out of thin air with the two of them.

“What’s wrong with Uncle Zhen Yan?”

Xiao Jiu asked with some concern.

Ever since Lin Ran had entered the Immortal Emperor Tower ten years ago, Zhen Yan had picked her and Li back up.

There were too many people involved in this great battle.

And since Li was the future of the entire Beast King Domain, there was no way Zhen Yan would let him risk his life.

“The Immortal Emperor is going to start the final siege on the Anti-Alliance!”

“The lips are dying and the teeth are cold, once the Anti-Alliance falls, our Beast King Domain will be next!”

“We have to prepare in advance!”

Zhen Yan sighed, while his huge claw slapped on a rock wall in front of him.

The rock wall instantly cracked, revealing a red bead.

“Rounding up the Anti-Alliance? What about brother him?”

Little Nine was instantly anxious when he heard this.

“No, I want to go to the Anti-Union to find my brother!”

Xiao Jiu said and her eyes turned red.

“How can you go? The Anti-Alliance is surrounded by the Immortal Emperor’s people now, and there’s the Heaven Sealing Formation, even the Lord of the Alliance can’t do anything about it!”

“You think you can get in?”

“What about you?”

“Why don’t you go?”

Xiao Jiu looked at Zhen Yan.

“I can’t go!”

“I still have to guard the whole Beast King Domain!”

Zhen Yan said helplessly.

“If you want to guard the Beast King Domain, what about my brother!”

“I appreciate you protecting me, but what about my brother? I’ve been in the Beast King Domain for so many years, and I’m the one who gave all of Li’s Qi!”

“Why aren’t you willing to help my brother!”

Xiao Jiu said as tears fell from her eyes.

Zhen Yan looked helpless and sighed.

“You’re just a fellow demon stone, why would you have human emotions!”

“Xiao Jiu, you have to be clear, who can take care of others when a great disaster is coming?”

“And I can tell you clearly, there are some things your brother must go through himself!”

Zhen Yan said with a wave of his palm.

At once a painting scroll unfolded in front of the three of them.

The scroll was only on, the landscape was clear and grass and trees were growing, and Yan was a complete world.

“Take a look for yourself, this is the entire world of karma and reincarnation!”

Zhen Yan said, while pointing to one of the locations.

“This place, the green light is pervasive, there are at least dozens of them, do you know what this place is?”

“This is the chaotic space! These green lights are all great powers whose strength is at the Immortal Realm!”

“You’re looking here!”

Zhen Yan pointed to the other side again.

“This is the Immortal Emperor, the Lord of the Alliance, and me!”

“In the entire Immortal Realm, apart from those powerful people hidden in Chaos Space, the only ones left are the three of us!”

“The strongest people in the entire Immortal Realm are just us!”

“Why do you think the Immortal Emperor didn’t just break through the Anti-Alliance, he had to make sure that as many of the strongest people in the entire Immortal Realm remained as possible!”

“Because this matter is simply not as simple as you think!”

“You’re looking here!”

Zhen Yan said and pointed to one of the locations, the place with a red light.

“That’s your brother, the red light on him is the same as Lizzy!”

“What does that mean do you know?”

“It means that they are both great qi-victors!”

“In this great tribulation, one will either rise or fall!”

“There are some tribulations that one must go through, if your brother can resist it, his life and death in the future will be beyond the influence of even Immortal Emperors!”

“But I can’t let Li take the risk, if something happens to him, there will be no way for our Beast King Domain to continue understand?”

“The responsibility I carry is different from your brother’s! My responsibility is to guard the entire Beast King Domain’s Magical Beast clan!”

Zhen Yan said, a drop of essence blood had fallen from his palm and dripped onto the red bead on the ground.

Wonder Doctor Chapter 2140

“Weng!”

As soon as Zhen Yan’s essence blood landed on the bead, a buzzing sound immediately rang out.

At the same time, both Xiao Jiu and Li were shocked to see that the bead on the ground was actually emitting an aura fluctuation at this moment.

These aura fluctuations quickly converged, and then actually formed a vortex!

“Uncle Zhen Yan what is this?”

Little Nine asked curiously.

“This is the last fundamental of the Beast King Domain!”

Zhen Yan looked at the whirlpool in front of him with memories in his eyes.

“The last Immortal Emperor battle, the small world that the Beast King refined with his own ten thousand year old beast pills before he died!”

“This small world is the last habitat of the magical beasts!”

“The old Beast King had already seen through everything, he knew that the Demonic Beasts were caught between the Anti-Alliance and the Immortal Emperors, and that their future fate would be incomparably miserable!”

“That’s why he opened up such a world!”

Zhen Yan said with a wave of his palm.

At once, a red light shot up into the sky.

A moment later, a figure rushed in from outside, and it was none other than Skywolf.

“Sky Wolf, go and inform all the magical beasts in the Beast King Domain!”

“Within three days, rush to the Beast King Domain! Otherwise, you will be responsible for your own life and death!”

“Yes, my lord!”

Sky Wolf led the order and left.

And Zhen Yan didn't delay, and immediately brought Little Nine as well as Li into this small world.

....

And at this time, far away in the hall of the Anti-Alliance.

The Lord of the Alliance swept his gaze over the crowd present.

“Zhen Yan has opened the Beast King World! This is our last chance!”

“Lord of the Alliance, or you first....”

“No!”

The Lord of the Alliance swept his gaze over the crowd present, his eyes having a firmness.

“The Anti-Alliance is the last place for these old minions of ours to rebel!”

“The Immortal Emperor has no way out, and a great war is inevitable in a year's time!”

“At that time, the ten of you will be the last hope of preserving the fire of our Anti-Alliance!”

“I now order that in a year's time, the ten of you will break out with all your might, while I will personally stay here!”

“Until you all leave!”

“But...!”

“No buts, this is an order!”

The Lord of the Alliance was firm in his words.

None of the people said anything, they just silently left to go back and prepare.

In a courtyard, Su Rou Qin Bing and the others were gathered here.

“What do you all think?”

Luo Qiqi was the first to speak.

“What else can we see, what about Lin Ran after a year if everyone breaks out?”

Qin Bing said.

“I've thought about this, I'll stay if I really can't!”

Su Rou said.

“No, if we're going to stay it's going to be me! I know the situation of the Anti-Alliance best!”

Said Ling Sa on the side.

“You guys don’t argue!”

Long Ya said with a frown.

“There’s still a year to go, maybe he’ll come back?”

“But what if he doesn’t come back?”

Luo Qiqi asked.

“It’s not him I’m worried about now, it’s you guys!”

“Of the ten breakouts, you guys make up four of them, if anything happens to any of you, how will the others explain when Lin Ran comes back in the future!”

The crowd was silent.

“This matter is inevitable!”

On the side, Long Ya finally said.

Everyone’s hearts were heavy at this point.

This breakout was supposed to be a backwater battle, and who could guarantee life or death.

This was war, no one would spare you for any reason!

Unless you are strong enough, you will never be able to decide your own fate!

....

In the Chaos Space Dungeon.

Inside a secret room, Lin Ran had finally opened his eyes.

At this moment, a turquoise light was slowly rotating around him.

These turquoise rays resembled a ball of light, except that there were very many cross-sections on the surface.

It looked as if there were countless geometric surfaces forming a sphere.

This sphere enveloped Lin Ran in it.

It looked very solid.

“Go!”

Suddenly Lin Ran let out an explosive shout, and instantly a sword mane appeared out of thin air.

It then actually reversed its direction and slashed towards itself.

“Bang!”

The sword mane instantly collided with the turquoise sphere.

The sword mane then directly obliterated and went away.

The turquoise sphere around Lin Ran didn't change at all, not even a single ripple appeared.

"This is the Ling Vine Armor? It doesn't seem too bad!"

A smile appeared at the corner of Lin Ran's mouth.

....

Within the small world of the Ancestral Land, Pillow Book looked at the situation within the chamber on the light screen in front of him, and his entire body became excited.

"You kid can do it, it's only been so long, you've actually practiced it!"

"Alright cut the crap, has the exit been found yet!"

Lin Ran asked.

"Three days at most to get out for sure!"

Pillow Book was confident.

"What should we do after we get out? Go straight to Yue Bei Shan?"

Lin Ran asked.

Now that the Ling Vine Armour had been practiced, there was a way to capture the flying shuttle.

The only trouble was this Yue Beishan.

"There's no rush!"

The Pillow Book said.

"I told you last time that there were many places where the Old Immortal Emperor might appear!"

"We've only explored just one place, this is not the time to go looking for Mount Yue Bei!"

"No matter how strong you are, even if you can win over Yue Bei Shan, so what!"

"You're still helpless against an Immortal Emperor!"

"So our aim isn't Yue Bei Shan, but to find the chance left behind by the Daoist Old Immortal Emperor so that we can completely fight the Immortal Emperor!"

Lin Ran didn't say anything as he smiled, what the pillow book said was indeed true.

Just how long would it take, he was really afraid that the Hair Alliance wouldn't last until then.

The other thing he was most worried about was the women who were in the Anti-Alliance.

If he went out late, pour time.

Lin Ran didn't even dare to think about it, that kind of consequence was something he didn't even want to see.

....

In the Chaos Space Dungeon, Lin Ran left the secret room.

The LING Vine Armour had been practiced, and his own time in this Chaos Space was almost coming to an end.

Strength had now reached the Violet Sea realm.

It was completely possible to leave this chaotic space.

But before he left, he had one more thing to do!

Inside the Heavenly Mystery Pavilion in the Chaos Space Dungeon.

Lin Ran came here once again.

It didn't take long for a man shrouded in black robes to walk in.

Without any nonsense, the other person directly extended his hand and spoke.

"Where is the item I want?"

"The message!"

Lin Ran took out the Heavenly Immortal Fruit with his backhand and looked at the other party.

"Yes!"

The other party similarly took out a brocade bag.

"Let's begin!"

Without any nonsense, the two men tossed the item to each other at the same moment.

"You're very efficient, next time there's something you want to know, you can keep looking for me!"

"No problem!"

Lin Ran looked at the other man until after he had left, which was when he couldn't wait to open the pouch.

The pouch was opened and there was only a piece of paper inside.

There were only four words written on the paper.

"Safe for now!"

Four words, only four words, but Lin Ran had gone through so much for these four words.

But it was these four words that could at least settle Lin Ran's heart for the time being.

As long as he was safe for the time being, he still had a chance!

But where exactly was this Divine Shadow Clan?

How would one go about finding it?

The doubts in Lin Ran's heart grew even more.

"I wonder if Zun Lei knows!"

Suddenly, Lin Ran thought of the Thunder Zun.

As one of the top great powers in the Immortal World, surely he wouldn't know nothing about the Divine Shadow Clan!
