

PUNISHED BY HIS LOVE

Chapter 2192 - 2201

Suzi turned back and smiled at Wen Lan: “Why, Miss Wen thinks that it shouldn’t be me?”

Wen Lan: “...”

She was really petrified on the spot!

Her mouth is very big.

The exposed white teeth, and the white gauze wrapped around her feet, presented a very sharp and funny contrast.

That’s pretty ironic.

And very embarrassing.

Originally, Wen Lan was not ugly, even in a wheelchair.

But she just satirized Galia’s performance for no reason just now, and her shocked appearance now, and compared with Suzi, it wasn’t as ugly as she appeared to be.

But at this moment, Wen Lan was ugly and didn’t know it.

Because she admires the Chinese female architect too much.

I heard that she did not study in an internationally renowned architecture school.

I heard that all her designs are based on scriptures.

I heard that her design style is the most unique in the world, not only unique, but also all the works she designed and the finished buildings built are the most solid.

Such design skills, let alone a female architect.

The average male designer is not as good as her.

It is no wonder that Daniel, an internationally renowned architect, is willing to take her as his teacher.

Respect her as a teacher.

Wen Lan wanted to get acquainted with this female architect a long time ago.

Because, the huge Southeast Asia often has too many projects to be developed. If there is the blessing of this female top female architect in the world, then her Wen family's market in the entire Southeast Asia will be more stable.

However, Wen Lan never thought that this female architect was Suzi.

It turned out to be Suzi!

A woman who has been despised by her in every possible way these days.

It's ridiculous.

Perhaps, even Suzi's children have noticed these humiliating thoughts of Wen Lan?

Otherwise, the child of Arron and Suzi the day before yesterday, that twelve-year-old girl would not have pushed her twice as soon as she came up.

The first time was to push her accurately into the gap in the sewer, just to get her feet stuck.

Then, push her.

She slapped her feet without any suspense.

What a good plan.

good means.

A twelve-year-old child.

That cleverness is simply unbelievable.

Now it seems that Shen's only smartness is that she has inherited all the advantages of her parents, and is better than her parents.

Think about yourself, really stupid.

Why do you look down on people?

Why do you think you are better than other housewives?

In the hearts of mothers and daughters, you are a clown, a clown who doesn't even know the monkey's buttocks are exposed.

Wen Lan just stared at Suzi blankly.

For a while, his face was flushed with blood, and then his face turned blue again.

That way, it really looks like a monkey ass.

But, even if she was embarrassed like this, Arron didn't want to comfort her, let alone help her out.

It was Suzi, who still looked at Wen Lan with a gentle smile: "Miss Wen, what's the matter with you? Are you uncomfortable?"

Wen Lan: "No, no..."

"Miss Wen, your face is very wrong, I guess you are not feeling well.

You saw that you slashed your foot just the day before yesterday.

And it was the girl's recklessness that caused you to sever your foot.

You are all injured, and you still insisted on coming to the exhibition site of my apprentice and me today. I'm really grateful, I don't know what to say.

But Miss Wen, since you're already injured, you can actually not come.

I won't blame you

Chapter 2193

Because, this is often a very professional seminar in the construction industry.

You are an outsider, and you are used to being the eldest lady in the Wen family. You have never seen the pure and kind little flowers of the real construction team. In fact, you can't understand or understand what we are discussing.

So, you really don't need to come over to my friend.

However, I thank you very much, Miss Wen.

grateful. “

Suzi's remarks seem to be complimenting Miss Wen on the bright side, complimenting her for coming to cheer for him.

Complimenting her for her foot injury and still insisting on coming.

Complimenting her for being a pure and kind little flower. In

reality?

It's sarcasm . She.

Greenhouse flowers, even a little mistake can lead to something in her hands that she can't take out at all! A

very obvious, extremely harsh taunt, but Wen Lan didn't even have a chance to retort.

Why did she return her mouth?

She said that she couldn't come up with something. Did she say something wrong?

Just now, she quarreled with people as soon as she came in, and even admitted that she was wrong, and even scolded others as Suzi

. Small things.

The most important thing is that you don't even know Suzi, so you just scold him. What does this mean? It

means you are jealous! It

means you want to conspire!

At this moment, Wen Lan felt as if she had been stripped naked by Suzi. Suzi already knew exactly what she was thinking and what her plans were.

You miss your husband.

Can people beat you up?

Wen Lan looked at Suzi in embarrassment, and was speechless for a long time.

At this time, Arron slowly came to Suzi, his tone was very flat, and he said to Suzi with a little coldness: "Today is the home court for you and Daniel, don't make things too much." Suzi

immediately With a smile, she said, "Good husband."

She listened to Arron's words very much.

She changed her face very quickly, and when she turned her head, Suzi looked at Wen Lan with a smile: "Miss Wen, joking, you are a guest of our Fu Group, and of course a guest of this seminar, this flyover designed by Daniel, is it not for the Wen Group and the Fu Group?"

Miss Wen, do you think so?"

Wen Lan immediately regained her face.

She smiled meaningfully, with a bit of contempt in her tone: "Mrs. Fu, if you have the foresight, you also know that this is a project I cooperated with your husband's group company.

It seems that you also attach great importance to us. Wen's Group?"

"Of course, I said it before, you are an honored guest of my husband's company." Suzi said flatteringly.

Wen Lan's tone became more and more relentless: "I see, are you afraid of your husband?"

Suzi immediately admitted: "Yes."

Wen Lan immediately glanced at Arron.

Arron was expressionless, and said to Suzi with a solemn expression: "Because of the distinguished guest, you will come with me to greet him."

"Good husband." Suzi was extremely obedient.

Holding her husband's arm and walking a few steps ahead, she heard Arron say: "Why do you want to give her such a big face, she is threatening you and insulting you! If I follow my temperament, I will put her Get out of the country!"

"Husband," Suzi coaxed her husband, "that's a client with billions of orders."

"Your husband, I don't care." Arron said blankly.

Suzi rested his head on Arron's shoulder and said softly: "But I care, I can't let my husband lose billions of contracts because he takes care of me, Shaoqin, I'm your wife, I want it all the time. I'm thinking of you.

Anyway, I've already disgraced her just now.

I guess she won't dare to think about you in the future."

After speaking, Suzi turned back and smiled kindly at Wen Lan.

Arron sighed and said, "You are just too kind. Other women are not as kind as you."

His words were not without reason.

After the seminar, Wen Lan stopped Arron outside the gate.

Just at that moment, Suzi was sending a guest, and there was only Arron outside the gate. Seeing Wen Lan blocking him, Arron was not surprised at all.

“Are you okay, President Wen?” Arron asked in a cold tone.

“Shaoqin, I... want to be your outer room and have children for you, okay?” Wen Lan said boldly.

Chapter 2194

Arron thought he heard it wrong.

He couldn't believe his ears, and his expression instantly became extremely disgusting: “What did you say?”

“I, I want to be your outer room, Shaoqin, I have seen it today, your wife is indeed excellent. Yes, I can't compare to her, I am willing to be inferior, I don't want to be on an equal footing with her, I know that in the country they are all monogamous, I don't want to have a relationship with you.

I just want to be your outer chamber.

Be your outer chamber . Is it alright?

I have children for you, and in the future our entire Wen family will be yours.” Wen Lan said very eagerly.

Have to admit.

She likes Arron so much.

His masculinity, his disobedience to her. Never get used to him.

Instead, she ignored her love, which made Wen Lan like this man too much.

Among the men she knew, no one could compare to Arron.

Wen Lan has a standard for choosing a man, and she will never marry a man who is weaker than her, but if it is a man she likes, even if it is a lover, she is willing.

She thought that she might be a bitch herself.

What about cheap?

She took a fancy to Arron.

She likes Arron.

She was willing to be his little one.

Besides, she knew something about the Fu family. Fu Zhengxiong and Fu Hengsheng had all looked for the outer room outside.

This is not uncommon in the Fu family.

She concluded that if she gave herself to Arron, Arron would definitely want her.

After all, she is the eldest lady of the Wen family.

He is the president of Wen's Group.

Which man doesn't want it?

But Wen Lan didn't expect it anyway, Arron pushed her away: "The contract has not yet come into effect, and the Fu Group and Wen Group will not cooperate from now on! You can get out!"

Wen Lan was startled: "You, you said What?"

"Go back to your site!"

Wen Lan: "..."

"If you can be honest on your site, I will consider that I will never snatch business with you in my life. If you have such an unruly heart towards me again, within five years, I, Arron, will be able to swallow up all of your Wen Group!"

I'm not kidding you!

Get out now!"

Wen Lan burst into tears on the spot.

She said extremely aggrieved: "Shaoqin, what's wrong with me?"

Arron: "There's nothing wrong with me."

"Then why, I don't even have the qualifications to be your outer room? To put it bluntly, I just like you. , I want to hand me over to you, and don't want anything in return. I'm willing to give birth to a child for you, I'm willing to do it, is this okay?"

"Of course not!"

"Why are you?" Wen Lan was very puzzled.

Based on her understanding of men, is there any man in this world who doesn't like fishy?

It's just that there is no chance.

She was so unreservedly willing to give herself to him, but he didn't want it.

Arron sneered and looked at Wen Lan with disgust.

Wen Lan still cried and said, "Arron, are you pretending to be arrogant? But your father, your grandfather, your Fu family has always been like this, there are not ten or eight women your grandfather is looking for outside, right?"

Your father, the number of women your father has owned in his life, can't you count them?

Even you, were not born to your father's rival wife.

Your Fu family allows your men to find a house outside!"

She Very aggrieved.

She felt that it was their Fu family's habit to find an outer room.

How did he come to him, this habit changed?

Chapter 2195

Han Zhanming sneered, he stuck Wen Lan's chin, and said viciously: "Woman! You really are You do it, you only know that the men of our

Fu family like to get dirty. Do you know how the women who were smeared came here?

You know the Fu family so well, and you know me as a mother Do

you know that my mother never wore a wedding dress in her whole life, never entered the marriage hall with a man, never entered the Fu family's old house for a day, until she died, and the man she gave birth to two children was not waiting in her hospital bed Before? Do

you know how the children in the outer room grew up?

You know, a woman in the outer room is not even qualified to have children, and can only hide one of the children in the end.

As a result, the child lived in gloom all his life. Is the most expected thing in his life is to have a warm home?

You said it so easily and calmly.

You know, a girl who has just turned 20 is pregnant. She gave birth to a child of a man from the Fu family, but was ruthlessly driven away by this man, desperate, and gave birth to a child alone. Because no one took care of her, her child was sold as soon as she was born.

So much so that this 20-year-old girl, Do you

live in guilt all your life? Do you know

how much pain the child of the Fu family who was sold has experienced in his life?

Do you know? Do

you understand?

You are outside Talk to me!"

Arron rarely talks nonsense like this to people.

To be honest, his mood has been a little depressed these days.

It's not about the group company.

However, when he saw Aunt Zhu who had lived on the mountain for decades, Arron felt an indescribable desolation in his heart.

What's wrong with Aunt Zhu?

What's wrong with mother?

But, they were all murdered by men.

However, the man who harmed them escaped the punishment of the law and lived a life of peace of mind.

It was not until ten thousand years that he regretted it.

But what's the use of regret.

In exchange for Aunt Zhu's youth, for her mother's survival, for Hao Yang's survival, for You Ming's miserable childhood?

both are not.

Originally, Arron and Suzi agreed to go to Youming to see Aunt Zhu, but he was signing a contract in the past two days, and Suzi was busy with the exhibition, so until now, the two have not been able to go to see one. Look at the woman who has been miserable all her life.

Thinking of this, Arron laughed at himself.

He looked at Wen Lan: "let's not say that I love my wife very much. I will never find a second woman in my life.

Even if I don't love my wife.

I will not look for a woman outside!

Because, that gives The harm caused by others to the next generation is too great.

Do you know?

There were three or four half-brothers above me, but none of them were able to die."

After saying this, Wen Lan suddenly hit shivered.

She knew that Arron had several brothers.

In the competition for the Fu Group, Arron won, and the brothers died violently.

She never thought it was Arron's cruelty.

Instead, he felt that Arron was decisive.

But at this moment, Wen Lan couldn't help shivering when he heard Arron talking about the scandal that his family could not go out.

"Marry well! Love each other with your husband, and don't think about digging other people's corners for the rest of your life! Otherwise, you may not even know how you died. For example, my aunt.

For example, my mother!" After Arron said these words to Wen Lan, he walked away.

Because he saw that not far away, Suzi was stopping by the car and waving to him.

Suzi originally wanted to tell him to leave first.

Arron came to Suzi's side.

Suzi asked inexplicably: "That's your big client. As the host, she is still injured. You must at least send her back to her hotel."

Arron hugged Suzi in his arms: "She wants to Aren't you afraid of digging your corner?"

Chapter 2196

Suzi smiled: "The husband I choose, of course I am not afraid."

Her smile is very confident and very proud , with a little bit of playfulness in it.

Arron sneered: “Yo! The husband you chose, did you choose me? Did you escape? It was me, it took me six years to get you back from the ends of the earth! You figure it out!”

Two already have three children.

And the oldest child is twelve years old.

Although the relationship between husband and wife has only been six or seven years, they are really old husband and wife.

They both knew that their relationship was indestructible.

Therefore, sometimes husbands and wives will expose each other’s shortcomings.

However, Suzi was not angry.

Her face is thick enough now.

Not only thick, but also thick with peace of mind.

“That’s right!” She raised her eyebrows and said, “It’s not bad that you took me back from a place far away, but don’t forget, I was optimistic about you from the very beginning!

Don’t forget, I You are much more sturdy than you!

You were the King of Yama in the entire Nancheng at that time, but as for me, knowing that you are King of Yama, I still dare to carry a snakeskin bag to your wedding. If I don’t like it You, why should I make trouble?

Hmm!

Think about it, you brought me back first.

Or did I grab you first?”

After what he said, Arron was stunned.

Thinking about it now, it really is.

indeed!

It was Suzi who started the wedding between him and Lanita.

“Yeah! That’s right, my wife is indeed stronger than me!” Arron had to admit.

“That’s right?” Suzi smiled.

“That’s right.” As soon as the man raised his arm, he put the woman in his arms.

The woman’s wink also turned into a crooked moon, and she cuddled with her husband like this.

Sitting in a wheelchair not far away, watching all the warmth, I felt that the two of them were not like an old husband and wife at all, but rather like a pair of young people who were immersed in love.

After Suzi finished laughing, he looked up and saw Wen Lan.

She smiled at Wen Lan and said, “I’m sorry, Miss Wen, my husband has no flaws. He has always been running well in the company, but there is only one thing that is not good. He likes to stick to his wife. He

is a wife fan .

Hey, Miss Wen, don’t mind.” Wen Lan: “...” At this moment, my heart was

really bleeding.

What’s the use of dripping blood?

“If Miss Wen doesn’t want to cooperate with the Fu Group, I can tell you now on behalf of my husband and the entire Fu Group, we are willing to lose money.

Double the profit right?

Our current estimated gross profit is fifteen A hundred million.

Then, we can compensate your Wen Group three billion.

I'm sorry."

Suzi's words were vague, but also very clear.

She asked her husband to send a client, not the client to seduce her husband.

Suzi would never forgive a woman who seduced her husband.

Wen Lan heard the determination and weight in Suzi's words.

She asked embarrassingly: "Mrs. Fu, 3 billion is not a small sum. If my Wen's group has added 3 billion for no reason, maybe it will be stronger than your Fu's group in the future. "

Ha!" Suzi suddenly raised his head and sneered: "Miss Wen, are you talking about a dream? Or you don't know my husband?"

Wen Lan: "..."

"Don't say I'll accompany you thirty 100,000,000, even if I give you 30 billion, my husband can make it back!

And there is one more thing!

As long as my Fu Group and Wen Group have nothing to do with each other, do you think my husband will still treat your Wen family? Is it so gentle?

If it wasn't for the concern of your Wen family, my husband would not be so soft-hearted.

In five years, he will be able to take down all the events in Southeast Asia.

Chapter 2197

Until then, whether your Wen family can keep it, not necessarily.

After all, shopping malls are like battlefields. After some words ,

Wen Lan opened his mouth to get acquainted, and was very afraid.

Suzi was right.

If it weren't for the cooperation between Fu's group and Wen's group, Arron would be ruthless to Wen's group.

Wen Lan couldn't help but smile bitterly.

It wasn't until this moment that she deeply realized that their husband and wife had such a tacit understanding. It turned

out that not only men are strong, but

women are also strong. People are the most tacit couple that Wen Lan has seen in this world. Wen Lan has to resign. "...do I look like a clown without clothes on? Is it a large social death scene? Wen Lan looked up at Suzi and asked. Suzi shook his head: "No, Miss Wen, be strong. Before you, there were many women who wanted to marry my husband, and many of them had more despicable means than you. You are the most gentle woman I have ever met. Don't think about the death scene. What you need to think about is how to develop and continue your Wen family. How to use your eyes to find a reliable man."
“

There were tears in Wen Lan's eyes: "You, what you said is, thank you, thank you Mrs. Fu."

Suzi smiled at her and said nothing, but held her husband's arm, and the two got into the car one after another. .

Wen Lan was left alone, watching the couple in a wheelchair for a long time.

Tears kept streaming down her face.

She doesn't even know what it's like?

Do you feel sorry for Arron?

In this world, I am afraid I will never find a man like Arron again. Knowing this moment, she still wants to marry him, but she knows that it is impossible.

what else?

Admiration for this couple?

Not only Arron, but also Suzi.

This is an amazing woman.

Only she can be worthy of Arron.

Suzi's bravery and Suzi's strategy are not inferior to Arron at all.

"A woman who came out of prison and didn't even finish university, it's a strange woman to be able to do this." Wen Lan said while weeping behind her.

She was absolutely right.

Suzi is indeed a strange woman.

In the car, she sat side by side with her husband.

He started with one hand, touching Suzi's hand with one hand, he asked Suzi in a deep and mellow voice: "You go to me and Lanita's ethical quarrel, it is indeed courageous, and it does show that your vision is very good. Okay, I admit it.

But my wife, when did you fall in love with me?

Why do you think that I am a rare good man in the world?"

Arron really didn't understand.

When did Suzi fall in love with him?

Is it the same as him? When he saw her for the first time and saw the neat and sharp self she wrote, he actually started to like her.

Suzi smiled again: "From your attitude towards Lanita. I can see that you hate Lanita very much, but just because she saved you, you insisted on marrying him as your wife. Anyone who holds a lot of power will choose to take money to deal with this matter.

But you are not.

This is enough to show that you are a very responsible man.

Also, your filial piety to your mother and your care for your mother , this is not something anyone can do.” After a

pause, Suzi said again: “Also, your management of the Fu Group and your ability to control the Fu Group can be done in just two months. The Fu Group is stable and shows no signs of being shaken.

This is enough to show that you are a very capable, responsible, and filial person.

Isn't it worth my love to have this man who is a little free-range?”

Arron smiled: “You are the smartest woman I have ever met.”

Chapter 2198

Suzi's head, leaning on her husband's head: “You are also the smartest man I have ever met, because You married me.”

Man: “...”

He didn't say anything, but held his wife's hand with one hand while driving, although both of them were speechless, they rubbed their hands together and rubbed each other. The feeling of touching is a heart-to-heart communication.

It was as if they had returned to the feeling of falling in love after marriage six or seven years ago.

Wen Lan is just a small episode between them.

But through this episode, the relationship between Suzi and Arron was more balanced.

They both know how important each other is to them.

They all know the importance of being a husband and wife together.

Moreover, what the parents did was enough to become a lesson, so that they should remember for the rest of their lives that family is the most important thing.

Honesty and loyalty to each other is the most important factor in a stable family.

More than an hour later, the car arrived home.

The big treasure, the second treasure and the three treasures are all at home.

As soon as Suzi and Arron opened the door, the first person who entered their line of sight was the twelve-year-old Shen Weiyi.

Shen Weiyi's height is already the height of an adult, but she is too thin. When she was still long,

she was a thin, tall, and clever little devil, and she was accompanied by two little attendants, both of whom were staring at all. There is a big way to look up at my sister

. Even if my sister wants to beat my parents, they will support my sister.

what!

Arron and Suzi were simply stunned.

“How about Mom, today at the seminar, is Wen Lan like a clown? She can't compare to you at all. I guessed right!” Shen Weiyi said proudly to his mother.

Suzi smiled: “You little thing, you're not easy to fix people. She went to the scene today, and she still has a small splint on her feet.

But child.

Mom tells you that even without your assistance, Mom will deal with her. It's more than enough.

And it's more interesting.

Now, this opponent is not tough at all. In

the future, don't start with the bad guys because you help your mother, understand baby?

Because you never know how vicious adults are.

You It's not their opponent, as long as you protect yourself, mom can rest assured."

Shen Weiyi nodded happily: "Don't worry, mom, I pushed Wen Lan into the sewer ditch because my dad was also good at it. If there was no father present, and Uncle Christopher was not present, I wouldn't be so reckless."

"Well, my baby is the smartest." Suzi held Shen Weiyi's head and wanted to slap the child in the face.

Unexpectedly, Shen Weiyi was like a monkey, escaping extremely fast.

She rubbed off and ran away.

After running far away, he shrank and looked at Suzi: "Mom, I ask you to leave your family next time!"

Suzi was startled.

Once upon a time, this little thing's favorite reward was that when her mother came home from get off work, it was the happiest thing to be able to kiss her, but now it's better.

Don't kiss this little thing.

Make Suzi angry.

"You! Stop for me!" When Suzi was about to open her legs to chase and beat Shen's only one, she didn't open her legs.

Looking down, two little things, Fu Liu, Fu Xing, and two brothers, one left and one right, each hugged Suzi's leg.

"Mom, kiss."

“Mommy, kiss.”

Suzi: “...”

She bent over, picked up her two little brothers, put one on each arm, A kiss on the face, and a kiss on the younger brother’s face, deliberately kissing.

Show it to Shen Weiyi.

Shen Weiyi smiled contemptuously: “Beauty Suzi, you are so naive.”

Chapter 2199

Suzi: “You little bunny is here! I can’t cure you, can I! Dad, come and kiss us Son.”

Arron immediately cooperated with Suzi and hugged them, holding the two sons in the middle, kissing him.

After the kiss was over, it was still like Shen Weiyi protesting.

Shen Weiyi stood up and said dismissively: “Humph, who cares! I’m going to chat with my friend.”

Shen Weiyi recently made a friend online.

That netizen is about the same age as her.

The small netizens live in a town in the mountainous area. Although their home is in a mountainous area, the family conditions are good, and the environment there is also beautiful.

Small netizens often post some local scenery for Shen Weiyi to see.

Shen only hoped.

She plans to go there for a summer vacation.

She can already go to many places by herself.

The more I chatted with the little netizen, the more hilarious she became. She didn't notice that her parents were standing at the door and watching her.

"The child has grown up." Suzi said with emotion.

Arron said with emotion: "Yes, she has grown into a big girl. I can't control her so much in the future. I must give her free space and let her have independent thoughts."

Suzi took Arron back to their bedroom. , Then he said: "Shaoqin, seeing that the child is going to the first year of junior high, you said that we will make the only one like me in the future, will it be good to study architecture?"

It can be regarded as inheriting grandma's last wish.

And me, my wish is the same.

It is a regret of my life that I did not graduate from university. I hope that the only one can be admitted to the best architecture university in the world, and I will definitely give all my life's studies to the only one.

Saying this, Suzi was already thinking with longing: "I can see it now, fifteen years later, our child must be the world's top architectural designer, I am her mother, how proud I am"

"Can you not put your ideals on the child?" Arron interrupted Suzi's fantasy in time.

Suzi pouted: "Why, don't you want to study architecture only?"

Arron: "I think, I want her to study architecture and I also want her to study management, and take over the Fu Group in the future. " But, these are our thoughts as parents, and children have their own thoughts.

We have to ask the kids.

If a child wants to learn architecture, we strongly support her.

What if the child wants to manage the Fu Group?

Also, maybe the child neither wants to learn architecture nor manage the Fu Group, and the child wants to be a star in this life.

Or, the child just wants to lie down when he doesn't want to do anything. We also support him. “

Arron is a person who has experienced blood and blood since birth. In his life, he has never even tasted what happiness and freedom are. When Xiaoshou

was exiled by the Fu family, he only thought that he must work hard and get out. Like a person.

Later, he took over the Fu Group. All his thoughts were on the management of the group company. He never thought that he would like to be the highest person in power in the Fu Group?

He didn't know.

He actually I don't know.

Because he was an adult when he thought about it.

He never knew what hobbies he had in his childhood, his youth.

Because at that time, there was no choice.

But now, he has the ability to give his children more choices, so he doesn't want to interfere with the children.

His only wish is for his three children to be happy in this life.

Nothing else matters.

Suzi put his head on her husband's shoulder warmly: “Shaoqin, you are not only a good father, you are also a good husband. I will not interfere with the only one. When we get up tomorrow, let's ask her, what major do you like?”

Arron nodded.

The next day, the couple really asked Shen Weiyi about this question.

Twelve-year-old Shen Weiyi looked at his mother and then at his father, and then said, “Dad, I...”

Chapter 2200

Arron immediately said: “Why baby, don’t want to inherit your mother’s mantle, right? It’s okay, it’s okay, our only one can Choose for yourself. What you want to learn, your parents will support you.”

Shen Weiyi nodded smartly: “I want to be like my mother, blood architectural design.”

Arron + Suzi: “...” The

two of them Unexpectedly, what children want to learn is architectural design.

Shen Weiyi nodded again affirmatively: “When I was very young, I often followed my mother to the construction site. It was very hard at that time, and my mother sometimes pushed my uncle, so I followed my uncle, and I could feel it every day. Mom’s hard work.

My mother also helped the nearby villagers to design houses, and the houses they built were very strong. The reason why my mother was able to have such rich experience later was related to working on the construction site for five or six years during that

time.

There are many ethnic groups. My mother has studied the structure of the surrounding buildings and the structure of the stilted buildings. This makes it even richer. When my mother studied the stilted buildings, the wood carvings, and the enclosures, I

was also very interested in those.

When I get older, I want to travel around the world. I will

see buildings all over the world.” At

a young age, I have my own ideals and plans.

Arron and Suzi were extremely happy to see it.

Especially Suzi, the child he brought up by himself, finally has a good quality and has his own ideals, how wonderful.

When I was twelve years old, my whole life was dark.

But children are different.

When he thought of the age of twelve, Suzi's face became sad.

"Mom, what's wrong with you?" Shen Weiyi asked.

"Mom misses your grandma." Suzi said.

Shen Weiyi smiled: "That's not easy, we'll go see your grandma now."

Anyway, today is the weekend, and we don't go to school until tomorrow.

"Mom has been so busy these days that she hasn't seen your grandma for a long time." Suzi said.

Arron immediately said gently: "Okay, I'll accompany you to see my mother today." Just

go.

After breakfast, the family of five drove to Alyce's place.

It turns out that her mother is not at home.

can go there?

Mother is basically at home every weekend, just because she knew her mother was at home, so Suzilin didn't call her mother before she set off, but her mother wasn't at home?

The old lady is not at home waiting for several granddaughters and grandsons to visit her. Where can she go?

Did you reconcile with your biological father?

Suzi was a little puzzled.

In recent years, the hostility between mother and grandfather is no longer as in the previous years, but mother has always been very affectionate with grandfather.

After all, my grandfather never supported my mother.

All the suffering of my mother was related to my grandfather.

That kind of experience from childhood to adulthood is indelible.

Therefore, if the mother can do not hate her grandfather, and can live in peace with her grandfather, it is already very generous.

Since I didn't go to my grandfather, where did my mother go?

Is it?

Suzi's eyes lit up, she looked at Arron cheerfully: "Shaoqin, guess, will my mother fall in love?"

Arron was opening the water glass and took a sip of water before swallowing it in his stomach. come out. It happened that the brothers Fu Liuyi and Fu Xingyi were sitting opposite him.

The saliva was all sprayed on the faces of the two brothers.

The two brothers looked at their father innocently.

Then, they looked at each other again.

After that, the father and son were laughing all over the place

Chapter 2201

Suzi driving in the front row: "...” The

little girl Shen Weiyi is very calm: "Old Mom, your brain circuit is really clear about strange love, my grandma is in love, mom, I ask you, do you know how old my grandma is this year?"

Suzi smiled and said: "Yes, your grandma is fifty this year. Six."

“Fifty-six, please, my grandma isn’t sixteen, okay!” Shen Weiyi gave Suzi an angry look.

Suzi also gave Shen Yiyi an angry look: “Please! Your grandma is not sixteen, but she is fifty-six! Can’t someone who is fifty-six fall in love? He can dance, sing, and has a good temperament. Talking about a boyfriend and striving for a second spring is nothing wrong.”

Shen Weiyi thought for a while: “Well, yes, my grandma shouldn’t be single like this, she should find A boyfriend.”

After speaking, she looked back at her father and brothers.

“What do you think?” The

three men behind, two of them looked at their sister with innocent eyes.

Only Arron nodded: “That’s right!”

Shen Weiyi said like a little adult: “Let me call my grandma first and see where my grandma is?”

“Don’t!” Suzi immediately stopped Suzi Weiyi: “You little thing, you can’t ask your grandma outright, don’t let your grandma be shy. That’s not good.”

Shen Weiyi tilted his head and thought for a while: “Well, it’s also... .”

Just at this time, an old lady who had been dancing with her grandma passed by them, and Suzi immediately shouted: “Aunt Xiao, Aunt Xiao, do you remember me?”

Aunt Xiao immediately laughed: “Oh, Suzi Suzi ah, my aunt’s eyes are dazzled, and she still has a vegetable basket, so she didn’t see you, how did she come to see your mother?”

Suzi nodded: “My mother was always at home before, I don’t know what happened this time, she was not at home, auntie, Do you know what activities my mother has been doing recently? For example, dancing competitions, living, have you had a party with you old sisters or something?”

Actually Suzi thought about it, if his mother and Aunt Xiao and other aunts had a party together , it is impossible for Aunt Xiao not to go.

Aunt Xiao usually likes to join in the fun.

She just wanted to copy Aunt Xiao's words.

Unexpectedly, Aunt Xiao was interested.

She smiled and said to Suzi: "SuziSuzi, if you don't talk about it, I'll forget it. I'll tell you good news. Recently, there is a man who often invites your mother to drink coffee and watch music. What a drama or something, and that man is quite handsome."

Suzi: "..."

Her guess turned out to be true.

Mother, is there really a situation? She asked eagerly, "Aunt Xiao, handsome...what does handsome

mean?" Mom is in love, no matter what, it must be an old man in his fifties, right? "Well, very handsome, that man looks five or six years younger than your mother, he should be less than fifty, he is really talented in a suit and leather shoes, he looks like your uncle, not much shorter than your uncle . He 's really handsome. Not only is he handsome, he's also going to have trouble.

Oh, a bunch of roses a day for your mother is called Huanshi..." The

more Aunt Xiao said, the more intoxicated it became.

However, the more Suzi heard it, the more wrong it became

. Romance is really rare. It's

very rare.

Not to mention sending a bunch of roses a day when she is in her 40s or 50s, she Suzi is now in her thirties, if she sees a man who sends her flowers every day, she will The first reaction was not to be moved

, but to think that the man who gave the flowers had a plan.

Suzi immediately broke out in a cold sweat.

Mom lives alone. She

shouldn't be deceived... The more she thought about it, the

more frightened

she became. She didn't even hear what Aunt Xiao said next, so she took out her mobile phone and hurriedly called her mother. On

that end, Alyce was connected very quickly, and before she could speak, Suzi asked very hastily: "Mom, where are you? Are you in danger, Mom, tell me quickly!"
