

Chapter 271

Shao Hua's colleague is about the same height as Shao Hua, but there are two groups of butterfly erythema on his white face, which is the same shape as the two groups of white spots on the wolf's cheek. Zhang Fan determined: systemic lupus erythematosus! Why sigh, because there is no cure for this disease!

Once a disease carries the word system, it represents a lot of trouble. This disease is a typical systemic symptom. The disease is in the blood vessels and the reaction is in the whole body. There are blood vessels everywhere in the body, that is, all organs will respond to the symptoms of the disease.

In the brain disease, epilepsy, personality changes, heart disease verrucous membrane hyperplasia! Lung and liver have their own symptoms. The most serious is the kidney. Often, the final destination of many such patients is renal failure and death!

"Shao Hua!" Zhang Fan said hello.

"Zhang Fan, this is my colleague, sister Wang." Shaohua looked at Zhang Fan in a white coat and suddenly realized that Zhang Fan's temperament in a white coat suddenly changed. It seems a little charming!

"Oh, Hello, Sister Li."

"Hello, Doctor Zhang, please." Shaohua's colleague said politely, with an uncomfortable smile on his face.

"It's all right. It's no trouble. Let me show you to our director. " Zhang Fan said, taking them to the director's office.

Wang Yan, 28, is the most attractive age in a woman's life. She is mature and beautiful. After only half a year of marriage, I went to an island, northwest people, strange sea, wore a bikini and sunbathed. Results after coming back, there were symmetrical swelling and pain of both hands, sometimes good and sometimes bad, and no obvious abnormalities were found in the film. He didn't pay attention at that time. As a result, erythema appeared on his face, oral ulcer and fever continued!

After asking the medical history and doing a physical examination a little, "Hey!" Wu wanghong sighed and said to Wang Yan, "let's go to hospital first."

"Director, am I systemic lupus erythematosus?" Her pale face, with two red spots and tears in her eyes, how she hoped the director could say "no!"

"I hope not! Check the handle first and don't put too much pressure. "

Wang Yan's tears came down directly, trembling her hands and took out her mobile phone, but she couldn't open the unlock key! Shaohua quickly and gently hugged Wang Yan.

"Huazi! Ah! How could I do this! How could I do this! Ah! " Bitter tears hung all over her face. Shaohua was a perceptual woman. People she knew suddenly burst into tears. She also shed tears with her. Although she didn't know what the disease was about, she just couldn't help crying with her!

"Get your bed. Comfort her first and don't have too much pressure. " After Lao Wu whispered to Zhang Fan, he gave up his office to them.

Zhang Fan looked at Shaohua. Shaohua cried foolishly. Cry! What else can we do? After gently pointing to the door, Zhang Fan also left the office. Let Shaohua calm down her colleagues first.

The prevalence of this disease in women is higher than that in men, and the proportion can reach 9:1. In rheumatic diseases, this disease is very vicious. It can not be cured, but also lead to abortion. Some patients, a little better, have no obvious symptoms for the time being, so they want to have a child. As a result, they have miscarriage, which is too hard.

Then, the disease brings not only the blow of physical pain, erythema, sore joints, nausea and vomiting, but also painkillers.

But the world despises the sight of divorced husbands and tearful parents. Really, it's too sad. The patient's heart is like a knife twisted in cutting. It's very poor. Continuous blows will make women wither rapidly at the age of flowers in full bloom! Wither overnight! Is it her fault?

Cry! Cry in pain! In the modern society with developed network, she inquired about this disease early! The result is really this disease. Wipe away her tears. She will go on no matter how difficult it is. As a single child, she can't die! Bite your teeth and head up, let the tears flow back, and let them flow into your stomach!

"Huazi, thank you! It made you cry, too. " Wang Yan put away her tears!

"It's all right, sister Wang. Zhang Fan's level is very good. He can cure you. Don't be too sad." Dazed Shao Hua is so lovely, like a lotus in bud with dew! Compassion makes her so beautiful!

"I believe it can be cured. Wipe your tears! I'll make a call first. " Wang Yanqiang held back the tears that would drop again. After a while, her husband came too. Hey!

After receiving the hospital bed, start the examination first!

When he got home at night, Zhang Fan found that Shaohua didn't read or eat. He sat on the sofa in a daze. After seeing Zhang Fan, Shaohua's mother quietly asked, "did you quarrel? Don't worry. I'll talk about her later. She'll be a little stubborn. She'll be fine in a minute! "

"Aunt, we didn't quarrel. Her colleague is ill. She may be a little uncomfortable!"

"Oh! Well, no wonder she didn't say a word as soon as she entered the door. When she asked her, she didn't answer, so she sat on the sofa and didn't move! "

"I'll persuade her!"

Zhang Fan gently sat next to Shaohua, and Shaohua gently leaned against Zhang Fan's arms“ Zhang Fan!
" Speaking, Shaohua involuntarily began to cry again.

"What's the matter?" Zhang Fan wondered if Shaohua was scared silly!

"If, I say if, if I get this disease, will you leave me alone?" Shaohua stood on his long eyelashes with tears and looked at Zhang Fan pitifully. Shao Hua, who returned to his unit, also inquired about the disease on the Internet!

"Bah! Pooh! Pooh! First of all, you won't get this disease. Second, no matter what, no matter life or death, I will stand in front of you! "

"Oh, what are you doing? Life and death. Will you let me live? " Although Zhang Fan said she didn't quarrel, the old lady was listening secretly!

"Well, mom, I won't say, I'm hungry!" Shao Hua, it's a little better. When the child grows up, he can't say something to his parents. He can only support his mother first.

"What's the matter? I feel you want to be very nervous. " Zhang Fan hugged Shaohua hard. It may be that his powerful arms gave Shaohua a little sense of security.

Shaohua looked at Zhang Fan and said, "in the afternoon, sister Wang went to the unit to ask for leave with BA's palm print on her face! I asked her what happened. Where there was no one, she cried bitterly. After her husband learned about her disease, he divorced directly! They quarreled, and he beat sister Wang. Zhang Fan, I'm afraid! Will you do this to me! "

"Beast, what a beast! Didn't you call the police? " Zhang Fan is angry. He treats a patient and his wife. He can do it at this time. It's really worse than an animal!

"Ah! Probably not. "
